3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Lost Creek-Camp Creek Unit, Post-Paulina Section of the said Paulina Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of March, 1960, as Condemnation Resolution No. 1250.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1250, under the heading "Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-8"

Minutes of March 10 and 11, 1960

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Meda Section of the Little Nestucca Secondary Highway; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of

EXHIBIT "D-8" (Cont.)

the said Meda Section of the said Little Nestucca Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the widening in part, relocation in part, construction, improvement and maintenance of the said Meda Section of the said Little Nestucca Secondary Highway and the highway facilities for which each of the said parcels of property, or interests therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the takin and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the fil of such proceeding possession of said parcels of real property may be taken immediately.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Couns or, in his absence, any Assistant Attorney for the State Highway Commis is authorized to make such stipulation, agreement or admission as in hi judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes an records of the Commission this 10th day of March, 1960, as Condemnation Resolution No. 1251.

FOOTNOTE:

The names of the property owners and the detailed descripti of the several parcels of real property mentioned in this resolution, to ether with maps, are attached to the original resolution on file in the o of the State Highway Commission, Salem, being Resolution No. 1251, der the heading "Condemnation Resolutions", and said descriptions, m and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-9"

Minutes of March 10 and 11, 1960

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Lake Road-Oregon City Section of the Cascade Secondary Highway; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway sytem, and the relocation, construction, improvement and maintenance of the said Lake Road-Oregon City Section of the Cascade Secondary Highway, certain interests in or

EXHIBIT "D-9" (Cont.)

fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full

2. That it is necessary that there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any natu between the right of way of the said relocated Cascade Secondary Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.

3. That the relocation, construction, improvement and mainten ance of the said Lake Road-Oregon City Section of the said Cascade Secondary Highway and the highway facilities for which each of said parcels of property, or interest therein, is required and is being taken is nece sary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatib with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the takin and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the fil ing of such proceeding possession of said parcels of real property may b taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Coun or, in his absence, any Assistant Attorney for the State Highway Commis sion, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes an records of the Commission this 10th day of March, 1960, as Conde nation Resolution No. 1252.

EXHIBIT "D-9" (Cont.)

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1252, under the heading "Condemnation Resolutions", and said description, map, and plan by this reference are made a part of this minute entry to the same extent as if copied in full herein.

32601

EXHIBIT "D-10"

Minutes of March 10 and 11, 1960

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any secti of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Hilgard-La Grande Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purpose declared and provided under the said Chapter 374, Oregon Revised Statute commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the locati relocation, construction, reconstruction, improvement and maintenance o any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of whic is necessary for the above purposes, if by so doing the interests of th

EXHIBIT "D-10" (Cont.)

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Hilgard-La Grande Section of the said Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be, where specified in the attached list marked Exhibit "A" no rights of access of any nature between the right of way of the said widened and relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Hilgard-La Grande Section of the said Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

5260

EXHIBIT "D-10" (Cont.)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of March, 1960, as Condemnation Resolution No. 1253.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1253, under the heading "Condemnation Resolutions", and said description, map and plan by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-11"

Minutes of March 10 and 11, 1960

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Samuel H. Boardman State Park has been established by and under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Samuel H. Boardman State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon, and for such purposes and in connection therewith the interests in real property hereinafter described are necessary; and

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out,

locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myers Creek Brookings Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargment, development and maintenance of the Samuel H. Boardman State Park; and does further find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property.

EXHIBIT "D-11" (Cont.)

The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as as though set forth herein in full. *

2. That it is necessary that there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; and that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of March, 1960, as Condemnation Resolution No. 951-C.

EXHIBIT "D-11" (Cont.)

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 951-c, under the heading "Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-12"

Minutes of March 10 and 11, 1960

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; weighing stations, or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Umatilla-Washington State Line Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of

which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Umatilla-Washington State Line Section of the said Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. "

2. That it is necessary that there shall be, where specified in the attached list marked Exhibit "A" no rights of access of any nature between the right of way of the said widened and improved Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.

3. That the widening, improvement and maintenance of the said Umatilla-Washington State Line Section of the said Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "D-12" (Cont.)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of March, 1960, as Condemnation Resolution No. 1254.

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with maps are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1254, and said description, map and plan by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-13"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of any existing state road or highway, as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Camp Adair-Lewisburg Section of the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is

EXHIBIT "D-13" (Cont.)

not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Camp Adair-Lewisburg Section of the Pacific Highway West, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Camp Adair-Lewisburg Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such proceeding as may be necessary to acquire title to said parcels of real property, or interest therein; that upon the filing of such proceeding possession of said parcels of real property may be taken immediately.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of March, 1960, as Condemnation Resolution No. 1245-a.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 1245-a, under the heading "Condemnation Resolutions", and said description, map and plan by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, pursuant to ORS 483.525, when in the judgment of the State Highway Commission any state highway or section thereof is capable of carrying any combination of vehicles, having a gross weight in excess of that authorized by ORS 483.506(3), the commission may by resolution so declare and fix the maximum gross weight and types and classes of vehicles which may be operated thereon without permit; and

WHEREAS, this commission is of the opinion that the rigorous imposition of Oregon weight restrictions upon vehicles, or combinations of vehicles, entering this state from adjoining states and bearing loads which are legal in said adjoining state is injurious to the commerce and trade of the State of Oregon and prejudicial to the best interest and general welfare of its citizens.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED, by the State Highway Commission as follows:

1. That vehicles, or combinations of vehicles, including any load thereon, having a gross weight in excess of that authorized by ORS 483.506(3), may nevertheless be operated upon the highways of the State of Oregon, without first having obtained a permit for such operation, provided that there is compliance with the following conditions:

A. Any such use shall be limited to the first one and one-half ($1\frac{1}{2}$) miles of Oregon State Highway.

B. No use shall be made of any state highway or section thereof, which is included within the National System of Interstate and Defense Highways.

C. Any such use shall be for the purpose of lightening the load or accomplishing any other adjustments, by which said vehicle or combination of vehicles, including any load thereon, may be made to comply with Oregon weight restrictions.

D. Said vehicle, or combination of vehicles, is entering the State of Oregon from an adjoining state.

E. Said vehicle, or combination of vehicles, including any load thereon, meets the weight requirements of the adjoining state from which it comes.

F. The State Highway Engineer is of the opinion that the highway will not be harmed by the proposed use, or

EXHIBIT "E" (Cont)

(1) The vehicle owner and/or operator agrees to assume full financial responsibility for the maintenance and repair of any such highway or section thereof, and agrees, if so requested by the State Highway Engineer, to supply an indemnity bond in the same manner as that provided by ORS 483.528(2).

2. Insofar as it is in conflict therewith, this resolution shall supersede and amend Loads and Hauling Resolution No. 24-d, dated July 2, 1959.

3. That this resolution be entered in the minutes of this Commission as Loads and Hauling Resolution No. 24-e this 10th day of March, 1960.

EXHIBIT "F"

Minutes of March 10 and 11, 1960

R E S O L U T I O N

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract #5022 with Earl L. McNutt Co., for grading the Salem By-pass Section of Pacific Highway in Marion County, completed June 24, 1959.

"Contract #5025 with Parker-Schram Co., for grading-paving the Highlands Interchange on Sunset Highway in Multnomah County, completed December 23, 1959.

"Contract #5077 with C. R. O'Neil for grading the Beaver Lookout-Bullards Bridge Section of the Oregon Coast Highway in Coos County, completed September 9, 1959.

"Contract #5214 with Tuss Bros. Construction, for grading-paving the Middle Unit of Crescent Lake Jct.-The Dalles-California Jct. Section of the Willamette Highway in Klamath County, completed November 9, 1959.

"Contract #5266 with Warren Northwest, Inc., for paving the Valley Jct.-Wallace Bridge Unit of the Valley Jct.-Sheridan Section of Salmon River Highway in Polk County, completed February 17, 1960.

"Contract #5318 with White Bros. Construction Co., for grading-paving the North Oakland Jct.-Sutherlin Jct. Section of Pacific Highway in Douglas County, completed November 6, 1959.

"Contract #5329 with Roy L. Houck & Sons and Roy L. Houck Sons' Corp., for grading the Belts Road-Lane County Line Section of Pacific Highway in Linn County, completed October 30, 1959.

"Contract #5343 with C. R. O'Neil for grading-bituminous surfacing the Bullards Bridge-Bandon Section of the Oregon Coast Highway in Coos County, completed October 9, 1959.

"Contract #5369 with Hannan Brothers Co., for structures-grading-paving the Hillsdale-Barbur Blvd. & Hamilton-Slavin Road Sections of the Beaverton-Hillsdale and Pacific West Highways in Multnomah County, completed February 26, 1960.

"Contract #5518 with General Construction Co., for toll collection facilities on the Interstate Bridge, Pacific Highway, in Multnomah County, completed January 25, 1960.

"Contract #5531 with W. R. Grasle Co., for traffic signal installation on the Airport-Alberta St. Section of the Cascade Secondary Highway in Multnomah County, completed February 18, 1960.

EXHIBIT "F" (Cont)

"Contract #5535 with K. L. Clark for construction of combination shelter and latrine in Hat Rock State Park on the Columbia River Highway in Umatilla County, completed February 2, 1960.

THEREFORE BE IT RESOLVED that the work covered by the State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 88 shall be entered in the minutes and records of the Commission as of the 10th day of March, 1960.

EXHIBIT "G-1"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Corvallis-Eastside (Linn County)

Highway number 210 Route number --

Location of Termini			Established Speed
M.P. 0.13 (east city limits of Corvallis)	to	M.P. 0.29 (0.16 mile east of the east city limits of Corvallis)----	25 MPH
M.P. 0.29 (0.16 mile east of the east city limits of Corvallis)	to	M.P. 1.39 (0.19 mile east of the road to Peoria)----------	50 MPH

EXHIBIT "G-1" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 315 be entered in the minutes and records of the Commission as of the 10th day of March, 1960, and that certified copies of this resolution be forwarded to the Secretary of State and to the Superintendent of the Department of State Police.

EXHIBIT "G-2"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Pacific (Josephine County)

Highway number 1 Route number US 99

Location of Termini		Established Speed
M. P. 241.95 (north edge of town of Wolf Creek)	to M. P. 242.51 (south edge of town of Wolf Creek)	40 M.P.H. 1/

1/ except that between M. P. 242.03 and M. P. 242.24 the indicated speed shall be 20 MPH during the hours of school crossings.

This resolution rescinds Speed Zone Resolution No. 48, adopted October 26, 1950 in order to incorporate new M. P. Nos.

EXHIBIT "G-2" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 48-a be entered in the minutes and records of the Commission as of the 10th day of March, 1960, and that certified copies of this resolution be forwarded to the Secretary of State and to the Superintendent of the Department of State Police.

EXHIBIT "G-3"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

EXHIBIT "H"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, on September 24, 1959 the Highway Commission designated the Mapleton-Richardson Section as an extension and a part of the Richardson-Eugene Secondary Highway; and

WHEREAS, for purpose of better description of the highway, the Commission deems it advisable to change the name of the highway from the Richardson-Eugene Secondary Highway to the Mapleton-Eugene Secondary Highway.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

1. The name, Richardson-Eugene State Secondary Highway No. 220, is hereby changed to Mapleton-Eugene State Secondary Highway No. 220. The route and termini of said Mapleton-Eugene Highway are described as follows:

> Beginning at a junction with the Siuslaw Highway, State Primary Highway No. 34, at M. P. 14.49 of said Siuslaw Highway at Mapleton; thence easterly via Richardson, Noti, and Veneta to a junction with the one-way westbound route of the Pacific Highway West, State Primary Highway No. 1W, at M. P. 122.19 of said Pacific Highway West at the intersection of Garfield Street and 6th Avenue in the City of Eugene, a distance of 45.14 miles.

2. This resolution be entered in the minutes and records of the Highway Commission this 10th day of March, 1960, as Secondary Highway Designation Resolution, File No. 54.

EXHIBIT "I-1"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the Mapleton-Eugene Secondary Highway, No. 220, in Lane County, is a State Highway under the control and jurisdiction of the Oregon State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on shoulders of said highway in the vicinity of the community of Mapleton; and

WHEREAS, the parking of vehicles on said shoulders at said location creates a hazard to the traveling public by restricting sight distance for vehicles intending to enter the highway from side roads; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon the recommendations by members of its staff, that parking of vehicles on both sides of the Mapleton-Eugene Highway between M. P. 0.15 and M. P. 0.28 creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on both sides of the Mapleton-Eugene Highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That certified copies of this resolution be sent to the Secretary of State, the Superintendent of the Department of State Police, and the County Clerk of Lane County for their information.

6. That this "No Parking" Resolution No. 204 be entered in the minutes and records of the State Highway Commission as of the 10th day of March, 1960.

EXHIBIT "I-2 "

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the Crater Lake Highway No. 22 in Jackson County is a State Highway under the control and jurisdiction of the Oregon State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the westerly shoulder of said highway in front of the Prospect School; and

WHEREAS, the parking of vehicles on said shoulder at said location creates a hazard to the traveling public by restricting sight distance at the school crosswalk and would hinder the local Fire Department in case of a fire at the school; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon the recommendations by members of its staff, that parking of vehicles on the westerly side of the Crater Lake Highway between M. P. 44.63 (Highway Engineer's Station 4+70) and M. P. 44.66 (Highway Engineer's Station 3+20) creates a hazard to the traveling public.

2. That in the opinion of this Commission the westerly shoulder of said highway is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the westerly side of the Crater Lake Highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That certified copies of this resolution be sent to the Secretary of State, the Superintendent of the Department of State Police, and the County Clerk of Jackson County for their information.

6. That this "No Parking" Resolution No. 206 be entered in the minutes and records of the State Highway Commission as of the 10th day of March, 1960.

EXHIBIT "I-3"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the Pacific Highway West, Primary Highway No. 1W, in Yamhill County, is a State Highway under the control and jurisdiction of the Oregon State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on shoulders of said highway near an auction sales building at the southerly edge of Dundee; and

WHEREAS, the parking of vehicles on said shoulders at said location creates a hazard to the traveling public by restricting the traveled portion of the highway; and

WHEREAS, off-the-highway parking facilities for approximately 75 vehicles has been provided near the auction sales building; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon the recommendations by members of its staff, that parking of vehicles on both sides of the Pacific Highway West, between a point 0.18 mile south of Hess Creek, M. P. 26.71, (Highway Engineer's Station 151+40) and a point 0.43 mile south of Hess Creek, M. P. 26.96, (Highway Engineer's Station 164+60) creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on both sides of said Pacific Highway West at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

EXHIBIT "I-3" (Cont)

5. That certified copies of this resolution be sent to the Secretary of State, the Superintendent of the Department of State Police, and the County Clerk of Yamhill County for their information.

6. That this "No Parking" Resolution No. 205 be entered in the minutes and records of the State Highway Commission as of the 10th day of March, 1960.

EXHIBIT "J-1"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway or any section thereof, and by reason of said relocation or realignment, there is eliminat from the original highway a section thereof, the eliminated section shall:

a. If needed for the service of persons living thereon or communities served thereby, be maintained by the Commission at the State's expense, or by the County, or by the State and County on such terms and conditions as may be agreed upon;

b. If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, then they shall revert to the abutting property owners unless, in the judgment of the Commission, said sections are needed or are valuable for any public use; and

WHEREAS, State has relocated and constructed a section of the Columbia River Highway, State Primary Highway No. 2, in Columbia Coun known as the Goble-Tide Creek Section, the southerly terminus of which is at relocated Highway Engineer's Centerline Station 73+50 on the relocated highway, and the northerly terminus of which is at relocated Highway Engineer's Centerline Station 367+97.10 on the relocated highway as shown col ed in green on the map attached hereto marked Exhibit "A" and by this ref erence made a part hereof; and *

WHEREAS, due to the relocation of the aforesaid section, portions of the former right of way are no longer needed for right of way purposes and may be eliminated as sections of the original Columbia River Highway State Primary Highway No. 2, which sections to be eliminated are hereinafter designated as Units "A" and "B" as shown colored in red and Unit "C as shown colored in brown on said attached Exhibit "A"; and *

WHEREAS, Columbia County and the State Highway Commission entered into an agreement on the 8th day of August, 1957, relating to the elimination and disposition to be made of the said sections of the said orig nal Columbia River Highway which are subject to elimination and are here after referred to as Units "A" and "B"; and

WHEREAS said agreement provides that State, by resolution, upo completion of the said relocated section of said Columbia River Highway, shall formally eliminate said Units "A" and "B" as part of the Columbia River Highway, State Primary Highway No. 2, and the state highway syste and that all right, title, and interest which State has in Units "A" and "B" shall pass to and vest in the County and County shall accept all right, title and interest which State has in said Units "A" and "B" and shall maintain said Units "A" and "B" as part of the county road system so long as neede for the service of persons living thereon or communities served thereby.

EXHIBIT "J-1" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS UNANIMOUSLY RESOLVED by this Commission as follows:

1. That, by reason of the relocation of the Columbia River Highway, State Primary Highway No. 2, in Columbia County, sections of the former right of way of the said Columbia River Highway are no longer needed by the State of Oregon and are no longer required for part of the said new right of way for the said relocated Columbia River Highway, which said sections are identified as Units "A" and "B" as shown on said Exhibit "A" and described as follows: *

Unit "A":

All the land situated within the right of way boundaries of the Columbia River Highway as formerly routed, beginning at the westerly right of way line opposite relocated Highway Engineer's Centerline Survey Station 133+35 of said highway as relocated in the northeast quarter of the southeast quarter (NE$\frac{1}{4}$-SE$\frac{1}{4}$), Section 25, Township 6 North, Range 2 West, W. M.; thence northerly via said highway as formerly routed to the westerly right of way line opposite relocated Highway Engineer's Centerline Survey Station 190+00 of said relocated highway in the northwest quarter of the southeast quarter (NW$\frac{1}{4}$-SE$\frac{1}{4}$), Section 24, Township 6 North, Range 2 West, W. M.

Unit "B":

All the land situated within the right of way boundaries of the Columbia River Highway as formerly routed, beginning at the westerly right of way line opposite relocated Highway Engineer's Centerline Survey Station 239+00 of said highway as relocated in the northeast quarter of the southwest quarter (NE$\frac{1}{4}$-SW$\frac{1}{4}$), Section 13, Township 6 North, Range 2 West, W. M.; thence northerly via said highway as formerly routed to the westerly right of way line opposite relocated Highway Engineer's Centerline Survey Station 261+00 of said highway as relocated in the southeast quarter of the northwest quarter (SE$\frac{1}{4}$-NW$\frac{1}{4}$), Section 13, Township 6 North, Range 2 West, W. M.

2. That, pursuant to the said agreement entered into with Columbia County on the 8th day of August, 1957, Units "A" and "B" as heretofore described and as shown colored in red on the attached Exhibit "A", are hereby duly eliminated as part of the Columbia River Highway, State Primary Highway No. 2, and all right, title, and interest which State has in said Units "A" and "B" hereby passes to and vests in said Columbia County. *

3. That, by reason of the relocation of the Columbia River Highway, State Primary Highway No. 2, in Columbia County, the hereinafter described section of the former right of way of the said Columbia River Highway is no longer needed by the State of Oregon and is not required for part of the

said new right of way of the said relocated Columbia River Highway, nor is it needed for the service of persons living thereon, or communities served thereby, which said section to be eliminated is identified as Unit "C", shown colored in brown on said Exhibit "A" and described as follows: *

Unit "C":

All the land situated within the right of way boundary lines of the Columbia River Highway as formerly routed, beginning at the westerly right of way line of said highway as relocated, where the same is intersected by the section line running between Sections 25 and 36, Township 6 North, Range 2 West, W. M.; thence northerly along said highway as formerly routed to the westerly right of way line opposite relocated Highway Engineer's Centerline Survey Station 116+70 of said relocated highway in the southeast quarter of the southeast quarter (SE¼-SE¼), Section 25, Township 6 North, Range 2 West, W. M.

4. That Unit "C", as heretofore described and as shown colored in brown on the said attached Exhibit "A", is hereby duly eliminated as a part of the Columbia River Highway, State Primary Highway No. 2, and all right, title, and interest which State has in said Unit "C" hereby passes to and vests in the abutting property owners. *

5. That the right of way of the existing Goble-Tide Creek Section of the Columbia River Highway and that real property acquired by State for highway and other public purposes as shown colored in green on the said attached Exhibit "A" are needed for right of way and other public purposes. Therefore, the Commission does declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by State. *

6. That this resolution be entered in full in the minutes and records of this Highway Commission as Abandonment and Retention Resolution No. 336 this 10th day of March, 1960, and the secretary is ordered to mail a duplicate copy hereof to the Columbia County Court.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 336 under the heading "Abandonment and Retention" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-2"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway or any section thereof, and by reason of said relocation or realignment, there is eliminated from the original highway a section thereof, the eliminated section shall:

a. If needed for the service of persons living thereon or communities served thereby, be maintained by the Commission at the State's expense, or by the County, or by the State and County on such terms and conditions as may be agreed upon;

b. If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, then they shall revert to the abutting property owners, unless, in the judgment of the Commission, said sections are needed or are valuable for any public use; and

WHEREAS, State has relocated and constructed a section of the Oregon Coast Highway, State Primary Highway No. 9, in Curry County, known as the Hunter Creek-Buena Vista Wayside Section, the northerly terminus of which is at relocated Highway Engineer's Centerline Station 77+00 on the relocated highway and the southerly terminus of which is at relocated Highway Engineer's Centerline Station 149+00 on the relocated highway as shown colored in green on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof; and *

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way is no longer needed for right of way purposes and may be eliminated as a section of the original Oregon Coast Highway, State Primary Highway No. 9, which section to be eliminated is hereinafter designated as Unit "A" as shown colored in red on the said attached Exhibit "A"; and *

WHEREAS, Curry County and the State Highway Commission entered into an agreement on the 16th day of December, 1959, relating to the elimination and disposition to be made of the said section of the said original Oregon Coast Highway which is subject to elimination and is hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provides that State, by resolution, upon completion of the said relocated section of the said Oregon Coast Highway, shall formally eliminate said Unit "A" as part of the Oregon Coast Highway, State Primary Highway No. 9, and the state highway system; and that all right, title, and interest which State has in Unit "A" shall pass to and vest in the County, and County shall accept all right, title, and interest which State has in said Unit "A" and shall maintain said Unit "A" as part of the

county road system so long as needed for the service of persons living thereon or communities served thereby.

NOW, THEREFORE, BE IT AND IT HEREBY IS UNANIMOUSLY RESOLVED by this Commission as follows:

1. That, by reason of the relocation of the Oregon Coast Highway, State Primary Highway No. 9, in Curry County, a section of the former right of way of the Oregon Coast Highway is no longer needed by the State of Oregon and is no longer required for part of the said new right of way of the said relocated Oregon Coast Highway, which said section is identified as Unit "A" as shown on said Exhibit "A" and described as follows: *

> Unit "A": All the land situated within the right of way boundaries of the Oregon Coast Highway as formerly routed, beginning at Highway Engineer's Centerline Station 100+85 of said highway as formerly routed in the southeast quarter of the northeast quarter (SE¼-NE¼) Section 12, Township 37 South, Range 15 West, W.M.; thence easterly and southerly along said highway as formerly routed to the easterly boundary line of the Buena Vista Wayside State Park in the northeast quarter of the northeast quarter (NE¼-NE¼), Section 13, Township 37 South, Range 15 West, W.M.

2. That, pursuant to the said agreement entered into with Curry County on the 16th day of December, 1959, Unit "A", as heretofore described and as shown colored in red on the said attached Exhibit "A", is hereby duly eliminated as part of the Oregon Coast Highway, State Primary Highway No. 9; and all right, title, and interest which State has in said Unit "A" hereby passes to and vests in said Curry County. *

3. That the right of way of the existing Hunter Creek-Buena Vista Wayside Section of the Oregon Coast Highway and that real property acquired by State for highway and other public purposes, as shown colored in green on the said attached Exhibit "A", are needed for right of way and other public purposes. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by State. *

4. That this resolution be entered in full in the minutes and records of this Highway Commission as Abandonment and Retention Resolution No. 367 this 10th day of March, 1960, and the secretary is ordered to mail a duplicate copy hereof to the Curry County Court.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 367, under the heading "Abandonment and Retention" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-3"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway or any section thereof, and by reason of said relocation or realignment, there is eliminated from the original highway a section thereof, the eliminated section, if needed for the service of persons living thereon or communities served thereby, shall be maintained by the Commission at the State's expense or by the County, or by the State and County on such terms and conditions as may be agreed upon; and

WHEREAS, State has relocated and constructed the The Dalles-Eightmile Creek Section of The Dalles-California Highway, State Primary Highway No. 4, in Wasco County, the northerly terminus of which is at relocated Highway Engineer's Centerline Station 0+82.64 on the said relocated highway, and the southerly terminus of which is at relocated Highway Engineer's Centerline Station 362+50 on the said relocated highway; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way is no longer needed for right of way purposes and may be eliminated as a section of the original The Dalles-California Highway, State Primary Highway No. 4, which section to be eliminated is hereinafter designated as Unit "A" as shown colored in red on the map attached hereto marked Exhibit "A" and by this reference made a part hereof; and *

WHEREAS, Wasco County and the State Highway Commission entered into an agreement on the 27th day of June, 1957, relating to the elimination and disposition to be made of the said section of the original The Dalles-California Highway which is subject to elimination and is hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provides that State, by resolution, upon completion of the said relocated section of the said The Dalles-California Highway shall formally eliminate said Unit "A" as part of the The Dalles-California Highway, State Primary Highway No. 4, and the state highway system and that all right, title, and interest which State has in Unit "A" shall pass to and vest in the County and County shall accept all right, title, and interest which State has in said Unit "A" and shall maintain said Unit "A" as part of the county road system so long as needed for the service of persons living thereon or communities served thereby.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That, by reason of the relocation of the The Dalles-California Highway, State Primary Highway No. 4, in Wasco County, a section of the former right of way of the The Dalles-California Highway is no longer needed by the State of Oregon, and is no longer required for part of the new right of way of the said relocated The Dalles-California Highway which said

section is identified as Unit "A" as shown on the attached Exhibit "A" and described as follows: *

UNIT "A": All the land situated within the right of way boundaries of the The Dalles-California Highway as formerly routed, beginning at its present northerly terminus with the existing Columbia River Highway at Mile Point 86.15 of said Columbia River Highway; thence southerly via said The Dalles-California Highway as formerly routed to the easterly right of way boundary line of said highway as relocated opposite relocated Highway Engineer's Centerline Survey Station 333+00 in the southwest quarter of the northeast quarter ($SW\frac{1}{4}NE\frac{1}{4}$), Section 32, Township 1 North, Range 14 E., W.M.; and

Beginning again at the westerly right of way boundary line of said highway as relocated opposite relocated Highway Engineer's Centerline Survey Station 342+50 in the northeast quarter of the southwest quarter ($NE\frac{1}{4}SW\frac{1}{4}$), Section 32, Township 1 North, Range 14 East, W.M.; thence continuing southerly via said highway as formerly routed to the westerly right of way boundary line of said highway as relocated opposite relocated Highway Engineer's Centerline Survey Station 354+85 of said highway as relocated in the southeast quarter of the southwest quarter ($SE\frac{1}{4}SW\frac{1}{4}$), Section 32, Township 1 North, Range 14 East, W.M.

2. That, pursuant to the said agreement entered into with Wasco County on the 27th day of June, 1957, Unit "A", as heretofore described and as shown colored in red on the attached Exhibit "A", is hereby duly eliminated as part of the The Dalles-California Highway, State Primary Highway No. 4, and all right, title, and interest which State has in said Unit "A" hereby passes to and vests in said Wasco County. *

3. That this resolution be entered in full in the minutes and records of this Highway Commission as Abandonment and Retention Resolution No. 334 this 10th day of March, 1960, and the secretary is ordered to mail a duplicate copy hereof to the Wasco County Court.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 334, under the heading "Abandonment and Retention" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-4"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway or any section thereof, and by reason of said relocation or realignment there is eliminated from the original highway a section thereof, the eliminated section shall:

(a) If needed for the service of persons living thereon or communities served thereby, be maintained by the Commission at the State's expense, or by the County, or by the State and County, on such terms and conditions as may be agreed upon;

(b) If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, then they shall revert to the abutting property owners, unless, in the judgment of the Commission, said sections are needed or are valuable for any public use; and

WHEREAS, State has relocated and constructed the Deep Canyon-Deschutes River Section of the McKenzie Highway, State Primary Highway No. 15, in Deschutes County, the westerly terminus of which is at relocated Highway Engineer's Centerline Station 192+50 on the relocated highway and the easterly terminus of which is at relocated Highway Engineer's Centerline Station 383+84.62 on the relocated highway; and

WHEREAS, due to the relocation of the aforesaid section, portions of the former right of way are no longer needed for right of way purposes and may be eliminated as sections of the original McKenzie Highway, State Primary Highway No. 15. The said sections to be eliminated are hereinafter designated as Units "A" and "B" as shown colored in brown on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof. *

NOW, THEREFORE, BE IT AND IT HEREBY IS UNANIMOUSLY RESOLVED by this Commission as follows:

1. That, by reason of the relocation of the McKenzie Highway, State Primary Highway No. 15, in Deschutes County, sections of the original McKenzie Highway are no longer needed by the State of Oregon and are not required for part of the said new right of way of the said relocated McKenzie Highway, nor are they needed for the service of persons living thereon, or communities served thereby, which said sections to be eliminated are identified as Units "A" and "B" as shown on the attached Exhibit "A" and described as follows: *

EXHIBIT "J-4" (Cont)

Unit "A":

All the land situated within the right of way boundary lines of the McKenzie Highway as formerly routed, beginning at the easterly right of way line of Buckhorn County Road, extended, where the same intersects said highway as formerly routed in the southwest quarter of the southwest quarter ($SW\frac{1}{4}$-$SW\frac{1}{4}$), Section 5, Township 15 South, Range 12 East, W.M.; thence easterly along said former highway to the westerly boundary line of a State-owned stockpile site at the easterly line of the southwest quarter of the southwest quarter ($SW\frac{1}{4}$-$SW\frac{1}{4}$), Section 5, Township 15 South, Range 12 East, W.M.

Unit "B":

All the land situated within the right of way boundary lines of the McKenzie Highway as formerly routed, beginning at the easterly boundary line of a State-owned stockpile site where the same intersects said highway as formerly routed at the north-south centerline of the southeast quarter of the southwest quarter ($SE\frac{1}{4}$-$SW\frac{1}{4}$), Section 5, Township 15 South, Range 12 East, W.M.; thence easterly along said highway as formerly routed to the northerly right of way line opposite relocated Highway Engineer's Centerline Survey Station 367+65 of said relocated highway in the southwest quarter of the northwest quarter ($SW\frac{1}{4}$-$NW\frac{1}{4}$), Section 10, Township 15 South, Range 12 East, W.M.

2. That Units "A" and "B" are hereby duly eliminated as a part of the McKenzie Highway, State Primary Highway No. 15, and the state highway system; and all right, title, and interest which State has in said Units "A" and "B" hereby passes to and vests in the abutting property owners.

3. That the right of way of the existing Deep Canyon-Deschutes River Section of the McKenzie Highway and that real property acquired by State for highway and other public purposes as shown colored in green on the attached Exhibit "A" are needed for right of way and other public purposes. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by State. *

4. That this resolution be entered in full in the minutes and records of this Highway Commission as Abandonment and Retention Resolution No. 370 this 10th day of March, 1960, and the Secretary is ordered to mail certified copies hereof to the Deschutes County Court.

EXHIBIT "J-4" (Cont)

FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 370, under the heading "Abandonment and Retention" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

32641

EXHIBIT "K-1"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of The Dalles Bypass Section of the Columbia River Highway in Wasco County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of The Dalles Bypass Section of the Columbia River Highway, beginning at Highway Engineer's Station 2253+99.60 at the west city limits of The Dalles and extending in an easterly direction to Highway Engineer's Station 2380+60+ at the east city limits of The Dalles, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1372 and the date of March, 1960, (Right of Way Map No. 8B-10-19, dated October, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitute and are deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a complete access controlled highway.

4. That heretofore this Commission by resolution dated November 3, 1948 designated the said Columbia River Highway as a "Throughway" within

EXHIBIT " K-1" (Cont)

the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That the provisions of this survey are to become effective as and when an agreement pertaining to said survey is approved and signed by the proper officials of the City of The Dalles.

6. That this resolution be entered in the minutes and records of the Commission as of the 10th day of March, 1960, as Survey Resolution No. 206.

---

EXHIBIT "K-2

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Sumpter-McEwen Section of the Sumpter Valley Highway in Baker County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. That the survey of the Sumpter-McEwen Section of the Sumpter Valley Highway, beginning at Highway Engineer's Station 252+10, near McEwen and extending in a westerly direction to Highway Engineer's Station 633+11.83 at Cracker Creek in the town of Sumpter, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1255 and the date of March, 1960, (Right of Way Map Nos. 8B-16-13 and 8B-16-14, dated December, 1959), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitute and are deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of non-access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 10th day of March, 1960, as Survey Resolution No. 207.

EXHIBIT "K-2" (Cont)

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 207, under the heading "Resolutions Adopting Surveys" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-3"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the routes and locations of the following sections of state highways:

1. **Cummings Pass-Fossil Section of the John Day Highway in Wheeler County,**

2. **Rhinehart-Elgin Section of the Wallowa Lake Highway in Union County,**

and in connection therewith to prepare maps showing the routes and locations of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1a. That the survey of the Cummings Pass-Fossil Section of the John Day Highway, beginning at Highway Engineer's Station 171+00, at the summit of Cummings Hill, and extending in a southerly direction to Highway Engineer's Station 408+45 at 7th and Main Streets in the City of Fossill, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1262 and the date of March, 1960, (Right of Way Map No. 8B-16-12, dated December, 1959), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

1b. That the survey of the Rhinehart-Elgin Section of the Wallowa Lake Highway, beginning at Highway Engineer's Station 825+00, near Rhinehart, and extending in a northerly direction to Highway Engineer's Station 976+79.68, near Indian Creek, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1258 and the date of March, 1960, (Right of Way Map No. 8B-16-17, dated January, 1960), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

EXHIBIT "K-3" (Cont)

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitute and are deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highways along and over these surveys. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary rights of way pursuant to the normal and approved method for construction of limited access controlled highways.

4. That this resolution be entered in the minutes and records of the Commission as of the 10th day of March, 1960 as Survey Resolution No. 208.

---

* FOOTNOTE:

The maps mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 208, under the heading "Resolutions Adopting Surveys" and said maps by this reference are made a part of this minute entry to the same extent as if copied in full herein.

32647

EXHIBIT "K-4"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Harbor Drive-Ash Street (grade-separated off-ramp) Connection Section of the Pacific Highway in the City of Portland, Multnomah County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Harbor Drive-Ash Street (grade-separated off-ramp) Connection Section of the Pacific Highway, beginning at Highway Engineer's Station 86+72.72, at S. W. First Avenue and S. W. Ash Street, and extending in a southwesterly direction to Highway Engineer's Station 97+50, near the Morrison Bridge, together with the map which for identification purposes bears Sketch Map File No. 5-N-13 and the date of February 1960 (Right of Way Map No. 1A-8-30 dated April 1, 1941.), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitute and are deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a complete access controlled highway.

EXHIBIT "K-4" (Cont)

4. That heretofore this Commission by resolution dated November 3, 1948 designated the said Pacific Highway, US 99, as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above-mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 10th day of March, 1960 as Survey Resolution No. 209.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 209, under the heading "Resolutions Adopt-Surveys" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L"

Minutes of March 10 and 11, 1960

RESOLUTION

WHEREAS, under the provisions of ORS 366.345, the State Highway Commission is authorized to acquire real property or any interest therein, for the development and maintenance of state parks by purchase, agreement, donation, or by the exercise of eminent domain; and

WHEREAS pursuant to said statute, the Highway Commission has acquired by agreement certain real property located in Malheur County, Oregon, for the development of a state park; and

WHEREAS, said property is desirable for a state park because of its scenic beauty and geographic location, and establishing a state park therein will contribute to the general welfare of the people of this state and the motoring public; and

WHEREAS, the Highway Commission has previously officially listed all state parks by a prior resolution; and

WHEREAS, the late V. W. McCormack, who for many years was a member of the Advisory Committee on state parks, saw the need and thought desirable the development of this area as an asset to the state and the entire country, and worked therefore to that end.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by this Commission as follows:

1. That the following real property as hereinafter described be and it hereby is designated as "The Owyhee Lake State Park":

A tract of land containing 850 acres more or less being that part of the following described subdivisions lying above the high waterline of the Owyhee Reservoir: The $W\frac{1}{2}$ $SW\frac{1}{4}$ Section 28, the $SE\frac{1}{4}$ Section 29, the $SE\frac{1}{4}$ $NE\frac{1}{4}$ Section 31, all of Section 32 and the $NW\frac{1}{4}$ $NW\frac{1}{4}$ Section 33 all in Township 22 South, Range 45 East Willamette Meridian, Malheur County, Oregon.

2. That the following real property as hereinafter described be and it hereby is designated as "The V. W. McCormack Area" of Owyhee Lake State Park:

An area situated within Owyhee Lake State Park in Section 31 and Section 32, Township 22 South, Range 45 East Willamette Meridian, Malheur County, Oregon being more particularly described as all of that land east of Owyhee Lake in the $NW\frac{1}{4}$ of Section 32 and in the $NE\frac{1}{4}$ of Section 31, Township 22 South, Range 45 East, Willamette Meridian, Malheur County, Oregon containing 110 acres.

EXHIBIT "L" (Cont)

Attached hereto, marked Exhibit "A" and by this reference made a part hereof is a map of one page showing outlined in green said Owyhee Lake State Park and showing colored in yellow said V. W. McCormack Area of the Owyhee Lake State Park. *

3. Miscellaneous Resolution No. 125 (now identified as State Park Resolution No. 3-4) recorded in the minutes and records of this Commission as of the 19th day of January 1955, is hereby amended by adding to the list of state parks therein, the "Owyhee Lake State Park".

That this Resolution be entered in the minutes and records of the Oregon State Highway Commission as of the 10th day of March, 1960, as State Park Resolution No. 3-4-m, and the secretary is ordered to mail a copy hereof to Mrs. V. W. McCormack and a duly certified copy hereof to the County Clerk of Malheur County, Oregon.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 3-4-m, under the heading "State Park Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

Salem, Oregon
April 21, 1960

The Oregon State Highway Commission met in regular session at 10 a.m. in the Conference Room of the State Highway Building in Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information
Floyd Query, Secretary

The Commission approved the minutes of the special meeting held February 25, 1960, and of the regular meeting on March 10 and 11, 1960.

The State Parks Superintendent reported on the following park matters:

Gift of 3.57 acres of land from Idaho Power Company to be used as a part of Farewell Bend State Park along the Snake River: The Parks Superintendent stated that the land is on the upstream side of the park and can be utilized for swimming. Swimmers now use the boat-launching area which creates a hazardous condition. Upon his favorable recommendation, the Commission accepted the land from the Idaho Power Company and instructed that an appropriate letter of thanks be sent to them.

Request of Corps of Engineers, U.S. Army, to include a boat-launching ramp and a floating foot bridge in the inventory of the area leased from them at Hat Rock State Park: The Army Engineers in making improvements to the channel and grounds at the park also constructed a wood boat landing and one floating foot bridge 4 feet wide and 200 feet long. In order to clear their records, the Parks Superintendent stated, they have asked that the State accept these facilities as a part of the Park, and he presented a form entitled "Supplement No. 1 to Inventory and Condition Report" which he recommended be approved. The Commission approved and later signed the "Condition Report".

Agreement with Oscar G. Rollins of Cove to graze stock on 50 acres of land in Catherine Creek State Park in Union County: The Parks

Superintendent explained briefly that a 10-year lease had been granted to Mr. Royal Wilde in June, 1949, one of the conditions being that he construct a fence to keep stock out of the area used for park purposes. This lease has expired and Mr. Wilde has sold his holdings to Mr. Rollins who has requested a lease in the same area and under the same terms as the previous lease. The only difference in the lease, the Parks Superintendent continued, is a provision that it is to remain in effect as long as the arrangement is satisfactory or until the State needs the property, and that either party can terminate the lease upon 30 days notice. Based upon his favorable recommendation, the Commission approved the lease.

Request from Mr. Jack Flaucher to install telescopes on the handrail around the patio of the Depoe Bay building on the Oregon Coast Highway in Lincoln County: The Parks Superintendent stated that there has been considerable demand by the public for these facilities and he recommended that Mr. Flaucher, the concessionaire, be allowed to make the installation. The recommendation was approved by the Commission.

Report of negotiations with Portland General Electric Company regarding re-establishment of The Cove Palisades State Park on the Deschutes River in Jefferson County: The Parks Superintendent commented briefly that the Electric Company has agreed to pay for the cost of preliminary planning based on an estimate furnished them by the Parks Division. In connection with this and at their expense, several test holes are being drilled at proposed relocation sites to determine type of soil and stability of the sites against sliding. Also, there is the possibility that the test holes may be used for a water supply if underground water is found. Chairman McIver inquired as to when it is contemplated that the park facilities will need to be moved. The Parks Superintendent replied that it would be at least two years or whenever the dam is completed. Commissioner Fridley inquired as to the availability of electric power at the proposed relocation areas. The power line, the Parks Superintendent stated, is located at the edge of the existing park and it was his opinion that power would be easily obtained at any of the proposed sites. The Commission accepted his report.

Concerning negotiations for acquisition of Sea Lion Caves on the Oregon Coast Highway in Lane County, the Parks Superintendent stated that a meeting had been held with the owners of the Caves, and although they had not stated an asking price, they had indicated that they would state their price in the near future. Another meeting with them has been set for the early part of May and it was his opinion that they might submit an asking price at this meeting. The Commission took no action other than to request that negotiations be continued at least until the owners had indicated the amount they want for the property.

A brief oral report was made by the Parks Superintendent concerning meetings which have been held recently with the Parks Advisory Committee. Progress, he stated, has been made in setting up committees for local study, particularly in the western counties.

The Right of Way Engineer presented for consideration options (pages 1 through 53) secured for acquisition of real property that is needed for state highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960". Upon inquiry from Chairman McIver the Right of Way Engineer also outlined the status of property acquisition on several projects in Portland and in other parts of the state.

The Property Manager's report covering sales of miscellaneous properties and changes in rental status was presented by the Right of Way Engineer. He mentioned briefly that miscellaneous sales made since the last meeting amounted to $31,483.50, and that total rental receipts for March, 1960 amounted to $12,072. The Commission accepted the report.

Authority was requested by the Right of Way Engineer to sell several parcels of property which are no longer required for highway purposes. Each parcel of property, he stated, has been carefully appraised to determine its value, and access has been allowed or denied in accord with departmental policy prevailing in the area in which the property is located. In some instances advertising sign restrictions are to be imposed where required by Commission policy. The Commission authorized public sale of the following parcels of property and thereupon adopted resolutions, marked Exhibits "B-1" through "B-9", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960":

(a) 26,851.23 square feet of land from the former McCurdy property, File No. 25929, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County, for a minimum consideration of $12,500, without access to the Pacific Highway and subject to a permanent easement to maintain a drainage facility. An advertising sign restriction will be imposed. See Exhibit "B-1".

(b) 21,904 square feet of land from the former Bell property, File No. 22734, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County, for a minimum consideration of $6,000, without access to the Pacific Highway and subject to the imposition of an advertising sign restriction. See Exhibit "B-2".

(c) 0.55 acre of land from the former Thorkelson property, File No. 25006, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County, for a minimum consideration of $7,500 and without access to the Pacific Highway. See Exhibit "B-3".

(d) Two parcels of land containing 9 acres from the former Doll property, File No. 14944, on the Bunker Hill-Delmar Section of the Oregon Coast Highway in Coos County, for a minimum consideration of $3,000 and without access to the Oregon Coast Highway. See Exhibit "B-4".

(e) 4.2 acres of land from the former Thomas property, File No. 18649, on the Tigard-Newberg Section of the Pacific Highway West in Washington County, for a minimum consideration of $4,000 and with one point of access 25 feet in width and unrestricted as to use. See Exhibit "B-5".

(f) 1.55 acres of land from the former Johnson property, File No. 18471, on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, for a minimum consideration of $1,525 and without access to the Corvallis-Newport Highway. See Exhibit "B-6".

(g) 0.55 acre of land from the former Oppenlander property, File No. 24403, on the Hillsboro-Forest Grove Section of the Tualatin Valley Highway in Washington County, for a minimum consideration of $2,500 and with two points of access each 25 feet in width and unrestricted as to use. See Exhibit "B-7".

(h) 1.13 acres of land from the former Harmon property, File No. 18271, on the Salem By-pass Section of the Pacific Highway East in Marion County, for a minimum consideration of $1,000, without access to the Pacific Highway and subject to an advertising sign restriction. See Exhibit "B-8".

(i) 0.93 acre of land from the former McCoy property, File No. 20568, on the Deception Creek-Oakridge Section of the Willamette Highway in Lane County, for a minimum consideration of $750 and without access to the Willamette Highway.

(j) 1.32 acres of land, File No. 8862, on the Eugene Section of the Pacific Highway in Lane County for a minimum consideration of $37,500, with two points of access to West 7th Street and two points of access to West 6th Street. These access points are to be 25 feet in width and unrestricted as to use. See Exhibit "B-9".

Several "Indentures of Access" pertaining to changes in accesses to highways were presented by the Right of Way Engineer. These indentures, he stated, are routine in nature and are proposed for the safety of the traveling public and the convenience of the owners. No additional access is being granted, except as noted. The Commission approved the following "Indentures of Access":

(a) File 25920, Anderson property on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County.

(b) File 27529, Eggers property on the Myers Creek-Brookings Section of the Oregon Coast Highway in Curry County.

(c) File 25913, Zehner property on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County.

(d) Files 13904-13905, O'Keefe property on the Salem-Hayesfille School Section of the Pacific Highway in Marion County. Three points of access, 25 feet in width and unrestricted as to use, are to be canceled and two points of access 40 feet in width at new locations and unrestricted as to use are to be granted in lieu thereof.

(e) File 25517, Caughell property on the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway in Curry County, to correct an error in the records as to location of the accesses and to relieve the Highway Department of responsibility for maintenance of the approach.

(f) File 16880, Coos-Curry Electric Cooperative, Inc. property on the Cedar Point-Coquille Section of the Oregon Coast Highway in Coos County, for change of location and substitution of an approach 50 feet in width in lieu of one 25 feet in width, restricted to non-commercial use.

(g) File 18692, Hill property on the Tigard-Newberg Section of the Pacific Highway West in Washington County, for change of location and substitution of a 40-foot access, unrestricted as to use, in lieu of a 25-foot access, unrestricted as to use.

(h) File 22964, Bennett property on the S. E. Flavel Street-S. P. Company Overcrossing Section on the Cascade Highway in Clackamas County, for cancellation of two points of access 25 feet in width and unrestricted as to use and substitution of one point of access 50 feet in width unrestricted as to use.

(i) File 11971, Walton property on the Broadway Street Connection Section of the Pacific Highway in Lane County, allowing one point of access 25 feet in width and unrestricted as to use in lieu of one point of access 12 feet in width restricted to private uses. (This change conforms to the Highway Commission Resolution of July 31, 1958 allowing certain changes in access uses.)

(j) File 18841, Bonneville Power Administration on the Gnat Creek-Bradley Park Section of the Columbia River Highway in Clatsop County, for transfer of an access at Engineer's Station 95+65 to Station 92+30 and joint use by Kaiser Gypsum Company. This action cancels and is to be substituted for Road Approach Permit No. 3321 granted August 14, 1952.

A "Bargain and Sale" Deed was presented by the Right of Way Engineer reconveying to Mr. and Mrs. John Weisz a parcel of land on the Willamette River-Hayesville Section of the Pacific Highway in Marion County. He explained that, through an error in description, the original deed to the State had encompassed almost double the amount of property that was intended to be purchased. The deed to the Weisz' is to return the excess property to them and to relinquish a temporary easement for a detour road. He also pointed out that the owners have been in possession of the land being returned to them and the fence line was constructed properly; also, that no compensation had been paid to the owners for the property being returned. The Commission approved the deed.

Authority was requested by the Right of Way Engineer to make direct sales on the following parcels of property which are no longer required for highway use:

(a) File 24067, from the former Jacobsen property on the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway, Coos County, 0.72 acre of land to Myrtle Crest Memorial Gardens for the sum of $100, without access to the Coos Bay-Roseburg Highway.

(b) File 11977, from the former Stewart property on the East Broadway-Ferry Street Bridge Section of the Pacific Highway in Lane County, 397 square feet of land to C. G. Summers for the sum of $500, without access restriction.

(c) File 30455, from the former Barnes property on the Pilot Butte Park Section of the Central Oregon Highway in Deschutes County, approximately 15 acres to School District No. 1, Deschutes County, for $25 per acre, without access to the Central Oregon Highway.

(d) File 24399, from the former Inkley property on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County, 2,400 square feet of land to Mr. E. J. Buerke for the sum of $150, without access to the Tualatin Valley Highway.

(e) File 20568, from the former McCoy property on the Deception Creek-Oakridge Section of the Willamette Highway in Lane County, 0.8 acre to Vernon Hall for the sum of $400, without access to the Willamette Highway.

In recommending these parcels of property for direct sale, the Right of Way Engineer explained that in each case the value of the property is small, that the property is surrounded, or nearly so, by property owned by the purchaser and the value of the property being sold has been determined by an impartial appraisal. The Commission approved the sales as presented.

Consideration was given to a quitclaim deed presented by the Right of Way Engineer returning to Coos County 5.6 acres of land on the Davis Slough-Bandon Section of the Oregon Coast Highway. He explained that the property had been acquired from Coos County for a road connection near Beaver Hill Lookout and $84 had been paid to the County for the land. The County objected to the alignment of the connection, requested that it be changed and offered to provide the right of way. As the original purchase is now excess property the County has asked that it be returned to them and they have refunded the money paid for the land ($84). He recommended that the 5.6 - acre parcel be deeded back to the county. The Commission approved the transfer of the property.

The Commission also considered a "Grant of Easement" to Multnomah County across property adjacent to highway right of way which was acquired in fee for a channel change in Fanno Creek. The Right of Way Engineer explained that the easement is necessary to satisfy a Federal Government regulation pertaining to Federal financial participation in the cost of right of way for sewer projects in counties. The usual pipe line permit will cover the pipe line across the highway right of way, he added. Following his favorable recommendation the Commission approved the easement.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement to proceed to acquire such properties by condemnation. After careful consideration the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted resolutions marked Exhibits "E-1" through "E-14", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

(For details concerning these properties see the Chief Counsel's "Recommendations for Condemnation" dated April 21 and 22, 1960, and "Supplemental Recommendations for Condemnation" dated April 21 and 22, 1960, in the Secretary's Office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

Concerning right of way acquisition procedure Chairman McIver inquired if ample time is being allowed for contacts with property owners before condemnation actions are filed. Commissioner Jackson also inquired if property owners are advised at an early date of the intent of the Highway Department to acquire their property for highway purposes. The Right of Way Engineer replied that contacts are made with property owners as soon as possible and negotiations are conducted until it is

apparent that a settlement cannot be reached or until the imminence of construction makes the filing of condemnation necessary in order to allow the contractor to proceed. He also stated that letters are forwarded to the property owners advising them that it will be necessary to acquire their property. Negotiations are often delayed because of absentee owners.

A written report was presented by the Chief Counsel concerning condemnation cases which have been tried in court from March 11 to April 15, 1960. He commented briefly on the following cases:

REPORT OF CONDEMNATION CASES TRIED

March 11, 1960 to April 15, 1960

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3367 Milliken, et al	Clackamas	Cascade	Hilda Street-Beaver Creek Road	$ 8,850	$30,000	Court granted involuntary nonsuit. Case to be refiled.
L-3218 Braim-bridge	Douglas	Elkton-Sutherlin	Elkton-Kellogg	1,000	3,000 and cattle pass	$ 5,000
L-3408 Kendrick, et al	Hood River	Columbia River	Cascade Locks-Viento	1,175	17,500	5,930
L-2933 Hartsook, et ux	Jackson	Medford-Provolt	Main Street-8th Street	100	1,250	550
L-3438 Parker, et ux	Lincoln	Siletz	Cedar Creek-Chitwood Creek	180	5,000	1,000 (Appeal is pending)
L-3395 Ralston, et ux	Multno-mah	Pacific	Hamilton Street-Slavin Road	1,000	10,000 (Answer)	2,000
L-3400 Van Horn, et al	Multno-mah	Pacific	East Bank Freeway	48,615	90,000 (Answer)	73,000 (Appeal is pending)
L-3094 Shields, et al	Marion	North Santiam	Lancaster Drive-Sublimity Gun Club	3,460	4,500 and farm crossing	6,750

(Report of Condemnation Cases Tried - Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3335 Stanton, et al	Hood River	Columbia River	Cascade Locks-Viento	$ 150	$16,500	$1,000

REPORT OF TRIAL OF OTHER CASES

Case: L-3434
Plaintiff: Harold Donald Christy
Defendant: State of Oregon, et al
County: Klamath
Cause of Action: Personal injury caused by slipping on oily floor of Maintenance Shop when delivering material.
Demands of Plaintiff: $75,000 general plus $2,035 special damages
Verdict: Demurrer interposed in behalf of State Highway Commission upheld.

Case: L-1774
Plaintiff: Sam D. Rawson
Defendant: F. L. Somers
County: Jefferson Case No. 1405
Cause of Action: Suit by Rawson to enjoin State's contractor from removing cinders in a State Park.
Demands of Plaintiff: Restraining Order and quieting title
Verdict: Order of Dismissal

The Commission accepted the report. (For additional details see the Chief Counsel's letter dated April 14, 1960 entitled "Report of Cases Tried" in the General Files in Salem.)

The Chief Counsel pointed out that a review of the cases tried indicate that a reversible error was committed by the Court on about four of the cases on which unfavorable rulings were made. He recommended that the Commission authorize him to appeal these cases to the Supreme Court. The Commission approved his recommendation.

The Chief Counsel stated that in the case of the State of Oregon vs. Thomas Johnson, et al, File No. R-28310, L-3432, there is no longer necessity for acquiring the property for which authority to condemn had

been granted previously. This situation, he added, has come about because of a change in plans involving the Johnson property on the East-bank Freeway Section of the Pacific Highway in Multnomah County. Although a condemnation complaint was filed, the State has not taken possession of the property, and he recommended that the action be dismissed. The Commission accepted his recommendation by adopting a resolution, marked Exhibit "E-15", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

The Commission also considered and accepted a written report submitted by the Chief Counsel of cases which have been settled out of court, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30199 Morss, et al	Benton	Pacific West	Camp Adair-Lewisberg	$ 1,065	$ 1,470
R-28939 Henderson, et ux	Klamath	The Dalles-California	Klamath Falls By-pass	1,500	2,000
R-25312 Huntington, et al	Lane	Pacific	Albany-Judkins Point	20,175	22,500
R-26451 Sudtell, et al	Linn	Pacific	North Jefferson Jct.-Albany	270	400
R-28252 Ralston, et al	Multnomah	Pacific	East Bank Freeway	23,825	14,000
R-28342 T.&S.Realty Co., et al	Multnomah	Pacific	East Bank Freeway	102,250	112,500
R-28187 Duncan, et ux	Douglas	Elkton-Sutherlin	Elkton-Kellogg	1,000	1,750
R-26384 Bitar, et al	Multnomah	Cascade	Alberta Street	47,000	50,000 (Verdict by Jury)

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-29013 Graffis, et al	Jackson	Pacific	Grants Pass-Rock Point	$ 16,140	$ 23,500
R-29953 Crafton, et al	Crook	Paulina	Lost Creek-Camp Creek	2,119	2,119
R-28955 Struss, et ux	Deschutes	McKenzie	Sisters-Deschutes River	324.50	700
R-25316 Bonnett, et al	Lane	Pacific	Albany-Judkins Point	16,000	19,200
R-29927 Stump, et al	Multnomah	Pacific	North Portland Harbor-North Russell Street	10,900	11,500

In connection with these settlements, the Chief Counsel commented that the amounts of settlements are very close to appraised values and are eligible for federal participation. (For additional details see the Chief Counsel's letters dated April 14 and April 20, 1960, entitled "Report of Cases Settled" and "Supplemental Report of Cases Settled" in the General Files in Salem.)

Regarding the settlement of the case of Martha Lea Vance, et al, L-3327, R-28475, for property on the Ontario-Snake River Section of the Old Oregon Trail Highway in Malheur County, the Chief Counsel advised that negotiations had been conducted with the owners on the basis of acquiring their property without access control whereby the offer would be $100, or with access control an offer of $2,075. Although he had informed the owners' attorney that he would recommend the $2,075 settlement, it has now developed that there is no necessity to acquire the property with access control; therefore, he recommended that the $2,075 offer be withdrawn and he be granted authority to attempt to settle on the basis of no access control to the property. The Commission approved his recommendation.

The Chief Counsel brought to the Commission's attention a proposed settlement in the case of State vs. Leif Knutsen, et al, File L-3304, for property on the Cascade Locks-Viento Section of the Columbia River

Highway, Hood River County. He advised that although the State had offered $500 and the owners demanded $20,000, the owners were now willing to settle for $1,000. In view of the fact that this property is adjacent to the Joe Stanton property, File L-3352, listed above under "Report of Condemnation Cases Tried", on which a verdict in the amount of $1,000 was rendered, he recommended that the Commission accept this $1,000 settlement. The Commission accepted his recommendation.

The Chief Counsel stated that he has no report of cases pending.

For the Commission's information, the Chief Counsel reported that he had received a communication from the Village Shops, Inc., located at the Murray Road Interchange on the Sunset Highway, Multnomah County, in which they advise they intend to file suit against the State unless the State negotiates with them for a settlement resulting from the closure of Murray Road and the filling of the overpass.

A list of offers made to property owners prior to the institution of condemnation proceedings was presented by the Chief Counsel in compliance with a resolution adopted December 20, 1951. The Commission confirmed the following offers:

Lost Creek-Camp Creek Unit, Post-Paulina Section of the Paulina Highway

R-26036 - Orval Glenn Butler, et al. Parcel No. 1: 13.2 acres for right of way purposes; and Parcel No. 2: 0.76 acre for temporary easement. Offer of $1,690 approved by Mr. Fridley March 25, 1960.

R-28534 - Hudspeth Land and Livestock Company, et al. Parcel No. 1: 1.45 acres for right of way purposes; Parcel No. 2: 7.2 acres for right of way purposes; and Parcel No. 3: 4.53 acres for right of way purposes. Offer of $1,000 approved by Mr. Fridley April 20, 1960.

R-29952 - L. V. Smart, et al. Parcel No. 1: 14.95 acres for right of way purposes; Parcel No. 2: 9.34 acres for material source; and Parcel No. 3: 0.07 acre for temporary easement. Offer of $3,615 approved by Mr. Fridley March 25, 1960.

R-29953 - Dale T. Crafton, et al. 18.5 acres for right of way. Offer of $2,120 approved by Mr. Fridley March 25, 1960.

East Bank Freeway Section of the Pacific Highway

R-29125 - Forbes King, et al. 10,000 square feet for right of way. Offer of $7,500 approved by Mr. McIver April 15, 1960.

Woodburn-Aurora Section of the Pacific Highway East

R-30335 - Lester A. Will, et ux. 1.58 acres for scale site. Offer of $2,350 approved by Mr. McIver April 12, 1960

Woodburn-Aurora Section of the Pacific Highway East - Cont.

R-30339 - Lyle L. Hill, et ux. Parcel No. 1: 0.04 acre for scale site; and Parcel No. 2: 0.03 acre for slope easement. Offer of $255 approved by Mr. McIver April 13, 1960.

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-30425 - Ethel Kent Schoellhorn, et al. 1,500 square feet for right of way purposes. Offer of $750 approved by Mr. McIver March 14, 1960.

Grants Pass-Rock Point Section of the Pacific Highway

R-30620 - Frances Elizabeth White, et vir. Parcel No. 1: 48.8 acres for park purposes; and Parcel No. 2: 13.3 acres for park purposes. Offer of $27,250 approved by Mr. Jackson April 8, 1960.

The Commission considered and accepted a written report presented by the Chief Counsel concerning orders issued by the Public Utility Commissioner in which the State Highway Commission has been a party. The report is summarized as follows:

PUX 342: Elm Street Grade Crossing of the tracks of the Union Pacific Railroad in Hermiston. The crossing is not on any street under the jurisdiction of the Highway Commission and no objection was made to the issuance of the proper order.

PUX 348: John Day Dam Temporary Overcrossings on the Columbia River Highway in Sherman County. This matter arose upon application of the U. S. Corps of Engineers and construction will be handled by them without cost to the State. After construction the State is to provide all ordinary and routine maintenance.

PUX 351: Fourth Street Grade Crossing in Cottage Grove. This street is not under jurisdiction of the Highway Commission and no objection was made to the issuance of the proper order.

PUX 354: Millersburg County Road Grade Crossing in Linn County. This road is not under the jurisdiction of the Highway Commission and no objection was made to the issuance of the proper order.

PUX 362: Springfield Junction Grade Crossing by tracks of Southern Pacific Company in Lane County. The road being considered is not under jurisdiction of the Highway Commission and no objection was made to the issuance of the proper order.

A quarterly report of property damage claims was submitted by the Chief Counsel who pointed out briefly that during the period from January 1 through March 31, 1960, $10,561.15 had been collected and that fifteen claims totaling $1,740.19 had been abandoned as being uncollectible. The Commission accepted the report.

Authority was requested by the Chief Counsel to file suit for damages against Joan E. Dyson, Portland, for damages caused by her to a State-owned vehicle driven by Charles G. Peterson on November 14, 1958. He explained that the State vehicle had been struck from the rear by Miss Dyson's car, causing damages in the amount of $183.91. As Miss Dyson did not have insurance her driving license and registration privileges were suspended and she deposited with the Director of the Motor Vehicle Department the sum of $183.91. As the liability seems to be clear in this case, the Chief Counsel requested authority to institute suit to recover the amount deposited with the Director of the Motor Vehicle Department. The Commission granted the authority.

Re-employment of William A. Mansfield as an attorney in the Legal Division was requested by the Chief Counsel. Mr. Mansfield, he stated, is not satisfied with living conditions in Washington, D. C., and has requested re-employment in Oregon. At the present time there is a vacancy in the legal staff caused by the resignation of Mitchell Crew. Upon the favorable recommendation of the Chief Counsel, the Commission approved re-employment of Mr. Mansfield at a salary of $685 a month, with the understanding that he is to report for work August 1, 1960.

Authority was requested by the Chief Counsel and granted by the Commission to take necessary action to evict the tenants and obtain possession of properties acquired under File No. 28583 on the East Bank Freeway Section of the Pacific Highway and File No. 29655 on the North Minnesota Section of the Pacific Highway, both in Portland.

The Chief Counsel brought up the matter of a withholding by the United States of America in the amount of $1,554.72 which is due the State Highway Department for work performed under Federal Contract No. DA35-026-eng-20358 for relocation of a portion of the Columbia River Highway because of The Dalles Dam project. The US Army Corps of Engineers under specific instructions from the Comptroller General of the United States deducted the sum of $1,554.72 from an invoice submitted for payment, contending that this amount is due the Federal Government as a refund for state motor vehicle fuel taxes. It was his opinion that the deduction is not a valid one. The Commission authorized the Chief Counsel to proceed with such action as may be appropriate to recover this amount from the United States Government.

Forfeiture of the rights of purchasers of buildings or structures who have failed to remove the same from State's property within the

specified time was requested by the Chief Counsel. He explained briefly that in some instances buildings acquired with right of way purchases have been sold for salvage purposes, but the purchasers have taken no action to remove the buildings after salvaging the contents. Specifically, he requested authority to take legal action against the following located on the East Bank Freeway Section of the Pacific Highway in Portland: William H. Casey, apartment building, File No. R-28308; D. E. Wallace, office building, File No. R-28286; and D. E. Wallace, building, File No. R-28285. In discussing this matter the feasibility of requiring purchasers of such buildings to furnish a bond was discussed. Commissioner Jackson pointed out that unless the bidder is definitely required to remove the building he has an advantage over another purchaser who actually intended to remove the building as reflected in the amount of his bid, and if the State has to demolish the building, the State is the one which would lose. After some further discussion the Commission granted the Chief Counsel's request, and ordered that in the future purchasers of such buildings be required to furnish adequate bond.

A report on compromised claims was submitted by the Chief Counsel who explained that because of inadequate evidence , out-of-state residence, and possible contributory negligence on the part of a State employee, it was deemed advisable to accept lesser amounts than had been first demanded. The Commission approved the following compromised claims:

(1) CAO 57-43, Leon E. Lawson; $343.26 claim compromised and settled for $200.

(2) CAO 59-293, Edward Bullman; $78.80 claim compromised for $39.90.

(3) CAO 59-48, SS Saint Gregory; $1,681.82 claim compromised for $840.91.

(4) CAO 59-232, Hudson & Callahan Logging Company; $401.19 claim compromised for $300.

The Engineer reported that he had made awards of contracts which had been referred to him to award when certain conditions had been fulfilled. These conditions, he stated, have been taken care of and the Commission confirmed his award of the following contracts:

(1) Construction of the 82nd Avenue and Hassalo Street Connections to Columbia River Highway (Banfield Freeway) in Portland, Multnomah County. Bids received March 1, 1960. Contract awarded March 15, 1960 to Warren Northwest, Inc., Portland, low bidder.

(2) Grading and construction of three concrete structures on Evans Creek-Homestead Section of Pacific Highway, Jackson County. Bids received March 1, 1960. Contract awarded March 21, 1960 to Roy L. Houck Sons' Corporation, Salem, low bidder.

(3) Grading and base on North Unit, Pittsburg-Spitzenberg Section of Pittsburg-Scappoose Road, Columbia County. Bids received March 1, 1960. Contract awarded March 28, 1960 to C. C. Meisel, McMinnville, low bidder.

(4) Myrtle Point-Powers Rock Production Project on Coos-Bay-Roseburg and Powers Highways, Coos County. Bids received March 1, 1960. Contract awarded March 28, 1960 to Dolan Construction Company, Portland, low bidder.

(5) Grading, oiling and bridge construction on West Unit, Camp Creek-Paulina Section of Paulina Highway, Crook County. Bids received March 1, 1960. Contract awarded March 30, 1960 to Stanley Wilt, Corvallis, low bidder.

The placement of reduced load limits on two highways was reported by the Engineer. He explained that frost leaving the ground has softened the sub-grade so that normal loads cannot be hauled without undue damage to the highways. The Commission confirmed the placement of a reduced load limit allowing 11,000 pounds gross on any single axle and 20,000 pounds gross on any tandem axles on the following sections of highways:

(1) Weston-Elgin Secondary Highway No. 330 from M.P. 8.0 (8 miles east of Weston) to M. P. 37.50 (2.8 miles west of Elgin), effective 8 a.m., March 28, 1960.

(2) Crane-Scotts Butte Secondary Highway No. 442 from M.P. 56.2 (28 miles southeasterly from Crane) to M. P. 65.7 (at the junction of the road to Folly Farm), effective 8 a.m., March 21, 1960.

The Engineer discussed with the Commission bids for highway construction received in Salem on March 29 and April 19, 1960. Award of contracts was deferred until 2 p.m.

Establishment of a temporary construction speed zone was reported by the Engineer. He explained that the Menasha Plywood Corporation will be constructing channelization for a new access road leading from US 101 to its new plant north of North Bend. Construction is scheduled to begin April 25, and for the protection of the travelling public he recommended establishment of a 35 mile-per-hour speed zone between M.P. 232.44 and M.P. 233.26 on the Oregon Coast Highway in Coos County. The Commission approved the speed zone.

Consideration was given to a request made by Mr. A. L. Draper, President of the Umatilla Chamber of Commerce, for the installation of flashing beacons at the junction of the Columbia River Highway (US 730) and the road to the Umatilla Bridge, and at the junction of the Columbia River Highway and the Umatilla-Stanfield Highway. The Engineer stated that a traffic engineering investigation had been made and the facts determined in this investigation did not warrant the installation of a flashing beacon at the junction of the Columbia River Highway and the road to the Umatilla Bridge,and he recommended that the request be denied. Concerning conditions at the junction of the Umatilla-Stanfield Highway, however, because of the physical characteristics and the accident rate, it appeared that a flashing beacon should be installed, the estimated cost being $800, and he so recommended. The Commission accepted his recommendations.

The Commission also considered a report made by the Engineer concerning traffic hazards at the intersection of Oak Street (ORE 35) and Second Street in the City of Hood River. The traffic engineering investigation,which was made at the request of the City of Hood River, indicated that a flashing beacon should be installed at this intersection with flashing amber to Oak Street and flashing red to Second Street. He recommended that the beacon be installed at an estimated cost of $900, with the understanding that the City of Hood River is to provide all future maintenance and power costs. The Commission approved the installation as recommended.

Completion of a number of surveys for realignment of state highways was reported by the Engineer. He explained that in each instance careful engineering consideration had been given in order to provide the best possible highway facility for the travelling public commensurate with the cost involved. Based upon his favorable recommendation, the Commission approved the following surveys by adopting resolutions, marked Exhibits "F-1" through "F-3", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960":

(1) Hanley Ranch-Forest Boundary Section of the Lake of the Woods Highway in Jackson County, Drawing No. 1R-3-1265. See Exhibit "F-2".

(2) Buell Road-Willamina Section of the Willamina-Sheridan Highway in Polk County, Drawing No. 1R-5-1377. See Exhibit "F-1".

(3) New Era-Canby Section of the Pacific Highway East in Clackamas County, Drawing No. 1R-3-1266. A public hearing was held in the City of Canby on March 16, 1960 concering this change and no objections were offered to the route. See Exhibit "F-3".

(4) Sauvie Island Bridge-St. John's Bridge Section of the Columbia River Highway in Multnomah County, Drawing No. 1R-3-1268. A public hearing on this project was held in Portland on March 31, 1960. See Exhibit "F-3".

(5) Myrtle Point-Bridge Section of the Coos Bay-Roseburg Highway in Coos County, Drawing No. 1R-3-1269. See Exhibit "F-2".

(6) Rock Creek Section of the Clackamas Highway in Clackamas County, Drawing No. 1R-5-1389. See Exhibit "F-1".

(7) E Street and F Street Connection Section of the Redwood Highway in Josephine County, Drawing No. 1R-3-1271. A public hearing on this project was held in the City of Grants Pass on April 7, 1960. See Exhibit "F-2".

The Commission discussed briefly with the Engineer a report and a map submitted by him showing all construction projects from the beginning of the enlarged federal-aid program in 1956 up to the present time. He also remarked that copies of the map had been sent to the members of the Legislative Highway Interim Committee. The Commission accepted the report.

The Commission gave attention to a request made by Mr. Donald P. Allen, Director of Public Works for the City of Eugene, for the installation of curbs and widening of the pavement at the northwest entrance to Eugene on the existing Pacific Highway (6th and 7th Avenues). This request, the Engineer stated, was investigated and it was determined that although it is a desirable improvement, it appears to be more for the benefit of abutting property owners than for highway traffic. He estimated the cost at $250,000. He also pointed out that there would probably be a radical change in the through-traffic pattern in Eugene when the new freeway is opened. In view of these conditions he recommended that the request be denied. The Commission approved the recommendation.

The Commission discussed briefly a resolution submitted by the Josephine County Court outlining the Court's priority of highway projects in Josephine County. The Engineer commented briefly the Court's No. 1 project is for construction of that portion of new U.S. Highway 199 between the Applegate River and the new Grants Pass Interchange, and secondly, for the formulation of plans for another project between Cave Junction and Grants Pass on U.S. Highway 199. The Commission took no action on the matter.

Attention was given to a resolution submitted by the Brownsmead Grange from Astoria for improvement of the Columbia River Highway from the Knappa Crossroads to Rock Creek in Clatsop County. The Engineer stated that the Grange has been advised that all funds available within the next two or three years have been earmarked

for the section between Clatskanie and Westport. He suggested that they be advised that the Commission recognizes the desirability of improving the Knappa Crossroads-Rock Creek Section and that consideration will be given to improvement of this section after the section between Clatskanie and Westport has been constructed, or as soon as funds are available. The suggestion was approved by the Commission.

The Commission considered a request from the City of Dallas for widening a bridge and improving alignment at the north entrance to Dallas on the Dallas-Rickreall Highway. A study has been made, the Engineer stated, indicating that the total cost of the improvement would be approximately $55,000. The City has offered to pay 25 percent of the cost and has requested that the work be done as soon as possible. Upon his favorable recommendation, the Commission approved the project as presented.

A cooperative project with the City of Pendleton was presented by the Engineer covering construction of a one-way couplet for the Pendleton-John Day Highway (US 395) through Pendleton, utilizing Emigrant and Frazier Avenues between S. W. 4th and S. E. 9th Streets and the installation of additional traffic signals on US 30 through the City of Pendleton. The Engineer recalled that a survey made in Pendleton in 1955 had established a high priority for the one-way couplet section; however, funds were not available at that time. The total cost of the project, he stated, is estimated at $135,000 and the City has offered to assume 25 percent of the cost if the State will bear the remaining 75 percent. He recommended that the project be approved on that basis. Concerning traffic signals on US 30, he pointed out that the one-way couplet section uses Court and Dorian Avenues with four traffic signals now in place. Additional signals, however, are necessary to properly control the traffic and he recommended that they be installed at an estimated cost of $40,000 with the understanding that the City of Pendleton will assume 50 percent of the cost of the installation of these signals and provide all future maintenance and power costs. The Commission approved his recommendations which are summarized as follows:

Project	City	State	Total
One-way Couplet	$34,000	$101,000	$135,000
Traffic Signalization	20,000	20,000	40,000
	$54,000	$121,000	$175,000

The Engineer also pointed out that because of complications caused by the City's participation it is proposed to finance the project by state and city funds without federal aid.

Consideration was given to a request made by Jefferson, Malheur, Morrow and Multnomah Counties for additional 1960-61 Federal-aid county road secondary projects totaling $721,000. The Engineer

explained that the projects were submitted by the counties and are eligible for construction under the secondary road program on county roads. Upon his favorable recommendation the Commission approved the following county FAS projects:

County	FAS Hwy. No.	Section and Description	Programed Amount	FAS Fund
Jefferson	836	Iris Drive & Jericho Lane. Grade, surface, & oil, 5.7 miles.	$119,000	'61
Malheur	515	Vale Bridge Section. Structure & approaches, 0.2 mile.	$ 50,000	'61
Morrow	829	South Unit, Bomber Range Road. Oiling, 10.3 miles	$ 42,000	'61
Multnomah	638	Glisan Street, 136th Street-181st Street. Grade & surface, 2.3 miles.	$370,000	'61
	638	Glisan Street, 136th Street-181st Street. Asphalt concrete paving, 2.3 miles.	$140,000	'61
		TOTAL	$721,000	

SUMMARY BY FISCAL YEARS	1960	1961	Total
Available Funds	$3,900,000	$3,600,000	$7,500,000
Previously Approved	3,900,000	1,874,000	5,774,000
Unprogramed Balance	$ - -	$1,726,000	$1,726,000
Projects Proposed 4/11/60	- -	721,000	721,000
Unprogramed Balance	$ --	$1,005,000	$1,005,000

The Commission considered the following request for an extension of time within which to complete a highway contract:

R & M Construction Company and W. M. Ausland, Contract No. 5368, for structures, grading and paving on the Redwood Highway Junction Section of the Pacific and Redwood Highways in Josephine County, requested an increase from 150 to 180 workdays within which to complete the contract without assessment of liquidated damages.

The Commission denied the request. Action taken by the State Highway

Commission was based upon the recommendation of the Engineer and his report which considered but did not necessarily adopt any of the reasons given by the contractor in his request for extension of time. (For details see the contractor's request and the Engineer's recommendation filed in the contract mentioned in the Secretary's Office in Salem.)

The meeting was recessed at 11:50 a.m. and reconvened at 1:30 p.m. in the same room with the same persons present and participating.

The Engineer reported that contract numbers 5027, 5335, 5393, 5461, 5468, 5483, 5543, 5544, 5545 and 5570 for highway construction have been completed in accordance with requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

A request from the City Manager of Corvallis for a cooperative widening project on 4th Street in Corvallis from "A" Street to Jefferson Street was considered by the Commission. The Engineer explained that 4th Street is used as the route for the Pacific Highway West. The present width of the street is 32 feet between curbs and it is proposed to widen it to 54 feet. The total estimated cost of the project, he continued, is $22,500 and the City has proposed that the cost be shared one third by the City of Corvallis, one third by adjoining property owners and one third by the Highway Commission. The Commission approved the project following a favorable recommendation by the Engineer.

The Chief Counsel discussed with the Commission a proposed settlement with Elizabeth and Harry White, R-27321 and R-30619, for 42.1 acres to be used for right of way and 140.2 acres for park use along the Rogue River on the Grants Pass-Rock Point Section of the Pacific Highway in Jackson County. He recalled that negotiations had been underway for some time and an agreement has now been reached with the property owners whereby they will accept the sum of $140,000 plus a lifetime right to occupy their home and a small plat of ground. The property, he added, has been appraised at $103,810 and he recommended that the settlement be approved. The Commission approved the settlement as presented.

The Chief Counsel also presented a proposed increase in coverage in errors and omissions policy for state highway officers and employees. The present policy with St. Paul Fire and Marine Insurance

Company provides a limit of $20 000 for each person and $50,000 for each occurrence pertaining to bodily injury, and a $25,000 limit on property damage liability. He recommended that the coverage be increased to $100,000 for each person, $300,000 for each occurrence and $50,000 property damage. The Commission approved the change.

Attention was given to a request from the District Attorney of the County of Tillamook for a speed zone investigation on the Three Rivers Highway in the community of Hebo. The Engineer stated that a traffic engineering investigation had been made and, in view of the facts which were disclosed, he recommended the establishment of a 30 MPH speed zone on the Three Rivers Highway between M.P. 0.00, at a junction with the Oregon Coast Highway, and a point 0.13 mile south of the Mt. Hebo Road, M.P. 0.39, except that between M.P. 0.00 and M.P. 0.12 the indicated speed shall be 20 MPH during the hours of school crossings. The Commission approved the reduced speed zone by adopting a resolution, marked Exhibit "D-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

The Commission also considered a communication from the City of Nyssa calling attention to unfavorable traffic conditions on the Nyssa-Adrian Highway at its intersection with the road to Owyhee Dam in Malheur County. A traffic engineering investigation was made, the Engineer stated, and, as a result of the facts determined, he recommended that a 45 MPH speed zone be established on the Nyssa-Adrian Highway No. 450 between a point 0.14 mile north of Owyhee Junction (M.P. 7.82) and a point 0.12 mile south of Owyhee Junction (M.P. 8.08). The Commission approved the recommendation by adopting a resolution, marked Exhibit "D-2", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

In connection with the reduced speed zone on the Nyssa-Adrian Highway near Owyhee Junction the Engineer reported that when the investigation was made it had been found that vehicles are being parked within the turning legs of the intersection and restrict sight distance for vehicles entering the intersection. For the safety of the traveling public he recommended that parking be prohibited in the area between the turning legs at Owyhee Junction. The Commission approved the recommendation by adopting a resolution, marked Exhibit "D-5", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

The Engineer reported that in the near future a portion of the Old Oregon Trail Highway, between a point north of the Olds Ferry Interchange and the Idaho State Line, will be completed and will permit a higher speed than the statutory 55-mile-per-hour speed. He recommended that the following speed zones be established on the Old Oregon Trail Highway in Malheur County:

From M.P. 387.76 to M.P. 391.48 -- 70 miles per hour
From M.P. 391.48 to M.P. 409.30 -- 60 miles per hour
From M.P. 409.30 to M.P. 412.78 -- 70 miles per hour

The Engineer also recommended that ramp exit speeds be established as follows:

Olds Ferry Interchange:
Eastbound off ramp -- 50 miles per hour

Stanton Boulevard Interchange:
Eastbound off ramp -- 40 miles per hour
Westbound off ramp -- 40 miles per hour

North Ontario Interchange:
Eastbound off ramp -- 45 miles per hour
Westbound off ramp -- 45 miles per hour

Idaho Avenue Interchange:
Eastbound off ramp -- 40 miles per hour
Westbound off ramp -- 25 miles per hour

The Commission approved the recommendations by adopting a resolution, marked Exhibit "D-3", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

The Engineer reported that on April 7, 1960 the State Speed Control Board had established certain reduced speed zones on the Oregon Coast Highway in the City of Newport. To carry the speed zoning to a logical conclusion in the area immediately outside the city limits, he recommended that a 45 MPH speed zone be established on the Oregon Coast Highway between the south city limits of Newport (M.P. 141.68) and a point 0.16 mile south of Ferry Slip Road (M.P. 142.62). The Commission approved the recommendation by adopting a resolution, marked Exhibit "D-4", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

Authority for out-of-state travel was requested by the Engineer for a number of State Highway personnel. These trips, he stated, are essential in order to maintain contact with other states and groups in the development of highway procedures. The Commission approved out-of-state travel for the following persons:

(1) R. B. Sipprell, Director of Permits, to attend meeting of Western Interstate Committee on Highway Policy Problems Council of State Governments and meeting of Region IV of the American Association of Motor Vehicle Administrators in Sacramento, California, May 2 through 5, 1960, at an estimated cost of $150.

(2) L. I. Lindas, Chief Counsel, and W. T. Wright, Right of Way Engineer, to attend American Right of Way Association Conference in Washington, D.C., May 24 through 27 for Mr. Lindas at an estimated cost of $304.10, and May 24 through 26 for Mr. Wright at an estimated cost of $288.10.

(3) J. Al Head, Assistant Traffic Engineer, to attend meeting of subcommittee on Shoulders and Medians of Highway Research Board in Washington, D. C., May 16 and 17, and to attend meeting of Board of Directors of Institute of Traffic Engineers in Columbia, Missouri. Authorization to cover period May 7 to 18 for an estimated cost of $272.10 to cover trip to Washington, D. C. Traffic Institute is to reimburse Mr. Head for expense due to stop-over at Columbia, Missouri.

(4) R. C. Blensly, Planning Survey Engineer, to attend Ninth Highway Planning Conference of WASHO Officials in Helena, Montana, April 25 and 26, 1960, at an estimated cost of $135.

(5) Forrest Cooper, Deputy State Highway Engineer, to attend meeting of national committee working under AASHO to determine interim standards for highway surfacing and pavement design, in Dallas, Texas, May 9 through 11, 1960 at an estimated cost of $300.

(6) W. C. Williams, State Highway Engineer, to attend meeting of Advisory Committee on AASHO Test Road at LaSalle, Illinois, May 2, 1960, and meeting of Chief Highway Administrators on May 3, 1960, at an estimated cost of $300.

(7) Dennis Clarke, Assistant Director of Travel Information, to attend Oakland Travel Show in Oakland, California, April 27 to May 9, 1960. Expenses are to be paid by Pacific Northwest Travel Association.

(8) Ivan D. Merchant, Bridge Engineer, and T. C. Roake, Assistant Bridge Engineer, to attend Western Regional Meeting of Bridge and Structural Committee of AASHO in San Francisco, California, May 26 and 27, 1960, at an estimated cost of $130 each.

(9) G. S. Paxson, Assistant State Highway Engineer, to attend and conduct meetings of National Bridge Structural Committee of AASHO in Hartford, Connecticut; LaSalle, Illinois; Birmingham, Alabama; and San Francisco, California, May 15 to 29, 1960. Expenses are to be paid by AASHO, except for hotel and meals at San Francisco, estimated to cost $50.

(10) Esthel Benner, Right of Way Supervisor, to go to Butte, Montana March 28 to 31, 1960 in connection with purchase of land at Boardman industrial park site, at an estimated cost of $150. Expenses are to be paid by the State Planning and Development Department. This is to confirm previous oral authority.

Three agreements were presented by the Engineer covering cooperative fencing along State Highway right of way. He explained that these agreements are similar to several which have been approved in the past, and which worked out very well, whereby the State furnishes the fence posts and marks the site for the fence along the right of way. The property owner furnishes the other fencing materials and installs the fence. Upon his favorable recommendation the Commission approved agreements with the following:

(1) E. V. Jackson for fencing along the Central Oregon Highway, between Engineer's Stations 3005+70 and 3066+20, and between Stations 3128+05 and 3321+80, in Deschutes County, at an estimated cost to the State of $1,500.

(2) Robert Monical for fencing an eight-mile section along the right of way of the Central Oregon Highway, west of Hampton, in Deschutes County, at an estimated cost to the State of $2,650.

(3) Deschutes County and Lloyd Luelling for fencing along the Central Oregon Highway for a distance of 1.5 miles east of Millican, between Engineer's Stations 1546+40 and 1627+00, at an estimated cost to the State of $500.

Attention was given to a request from the "Keep Oregon Green Association" for the installation of an informational sign at the Sunset Springs Wayside at M.P. 29.68 on the Sunset Highway in Clatsop County. The Engineer explained that the proposed sign indicates the location of the historic Tillamook Forest Fire over the area now known at the Tillamook Burn. The location of the sign and the sign message have been approved, and he recommended that the sign be installed at a cost of approximately $400. The Commission approved the installation.

The Commission confirmed an agreement with Southern Pacific Company concerning off-ramp construction on the Ferry Street Overcrossing in Eugene. This agreement, because of its urgency, had been submitted to the Commission for signature at an earlier date. The Engineer advised that execution of the agreement had been necessary in order to proceed with contracting operations.

Transfer of 4.65 acres located at the junction of the old McKenzie-Bend Highway and the Redmond-Bend Highway, approximately two miles east of Tumalo, to Deschutes County was considered. The Engineer explained that the old sections of highway acquired from the County in 1934 have been abandoned to the County, and the State has no further use for the property which had been used for a stockpile site. The Commission approved transfer to the County by a quitclaim deed.

The Commission approved the Secretary's report on papers signed in behalf of the Commission from March 7, 1960 through April 15, 1960.

The next Commission meeting date was confirmed for June 2 and 3, 1960 in the State Highway Building in Salem. A tentative date for the meeting following was set for July 7 and 8, 1960.

In order to take care of public hearings concerning relocations of sections of state highways in which cities are involved, the Engineer requested that the Construction Engineer and the Administrative Assistant be added to the list of persons authorized by the Commission to hold public hearings in a resolution adopted July 13, 1955, filed as "Miscellaneous Resolution No. 148". He explained briefly that the original resolution provided that any Highway Commissioner, the State Highway Engineer, the Deputy State Highway Engineer, and any Assistant State Highway Engineer were authorized to conduct these meetings. However, the hearings have become so frequent that it is essential that additional personnel be authorized to conduct the hearings. The Commission approved the addition of the Construction Engineer and the Administrative Assistant to the list of persons authorized to conduct public hearings by adopting a resolution, marked Exhibit "G", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 21-22, 1960".

In connection with the opening of bids on May 10, the Engineer pointed out that it will be necessary to delay award of the contracts until the next Commission meeting June 2 and 3 unless the Commission wishes to be present on May 10 to make award at that time. After brief discussion it was agreed that all three of the Commissioners would be present at the bid opening in the State Highway Building on May 10 and that award of contracts would be made and other matters of business considered.

The Engineer brought up the matter of installing additional air conditioning in the State Highway Building in Salem. He pointed out that during the summer months offices on the west side of the building particularly were very warm. It was his opinion that for an expenditure of $10,000 air conditioning could be installed in all offices on the west side of the building on the ground floor. Action was deferred for study.

(On the following day the matter was again discussed. Chairman McIver inquired as to how long it would take and how much it would cost to install air conditioning throughout the building. The Engineer replied that a study would have to be made to answer this question. The Commission considered the advisability of installing complete air conditioning over a period of 5 or more years. After some further discussion the Commission authorized the expenditure of approximately $10,000 for air conditioning to be installed in 1960 and requested the Engineer to submit a stage program or plan covering the installation of air conditioning throughout the building.)

A one-way street couplet plan on the Oakland-Shady Highway in Roseburg was presented by the Engineer. The City, he stated,

favors the use of Pine and Stephens Streets and has signed an agreement utilizing these streets, which agreement obligates the State for an expenditure of approximately $200,000 plus one half the cost of traffic signals, estimated total cost $21,000, the City to pay the other half and maintain and operate the signals. The one-way couplet, he stated, is needed as more traffic is now using Stephens Street than before the Pacific Highway By-pass was constructed. The Commission approved the project as presented by the Engineer and signed the agreement.

The Commission gave attention to a letter written by Mr. Robert Cross, Secretary-Manager of the Oregon Logging Conference, requesting that peeler cores be included under the classification of "logs, poles, and piling" for the determination of allowable weight per axle rather than being classified as lumber. The Chief Counsel stated that the request had been the subject of considerable legal study and it was his opinion that although a peeler core cannot be classified as a log it can, because of its cylindrical shape, be classified as a pole, thus allowing the haulers of peeler cores extra axle weight under existing law. He pointed out, however, that this same classification can in no way apply to railroad ties, cants, lumber, timber, or other manufactured wooden products. The Commission approved the classification of peeler cores as poles.

As a matter of information concerning the hearing recently held in Weston for relocation of a section of the Oregon-Washington Highway between Athena and Milton-Freewater, the Engineer reported that several letters including one from the Athena Chamber of Commerce have been received since the hearing was held favoring the relocation route as proposed at the hearing. It appeared that through some misunderstanding of the purpose of the hearing organizations who favored the proposed new route did not appear at the hearing. No action was taken.

The Engineer reported that funds are available and surveys practically completed for additional projects on the Interstate Highway System and he recommended that the Commission give authority for construction of additional lanes on (1) the Rice Hill-Oakland Junction Section of the Pacific Highway, estimated to cost $3,200,000; (2) the Goshen-Coast Fork Section of the Pacific Highway, estimated to cost $1,260,000; and (3) the Celilo-Biggs Section of the Columbia River Highway, estimated to cost $4,400,000. The Commission accepted his recommendation.

At 2 p.m. the Commission awarded contracts on which bids had been received March 29 and April 19, 1960, as follows:

BIDS RECEIVED IN SALEM ON MARCH 29, 1960

"Construction at Farewell Bend State Park in Baker County. The Commission rejected all bids as being too high.

"Paving on the Corvallis-Hughes Road Section of the Pacific Highway West in Benton County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $132,330.50.

"Paving on the Kings Valley-Read Creek Section of the Kings Valley Highway in Benton County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $96,490.

"Elsie-Sunset Camp Rock Production Project on the Sunset Highway in Clatsop, Washington and Tillamook Counties. The Commission awarded the contract to the low bidder, Vanaken Sand & Gravel, Forest Grove, at $61,449.

"Nehalem River Bridge, structure, grading and oiling on the Nehalem Highway, in Columbia County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $92,642.

"McCullough (Coos Bay) Bridge Maintenance Painting on Oregon Coast Highway in Coos County. The Commission awarded the contract to the low bidder, A. H. Barbour & Son, Inc., Portland, at $69,264.

"Grading and oiling on the Middle Unit, Post-Camp Creek Section of the Paulina Highway in Crook County. The Commission elected to accept the low bid of McNutt and Sons, Inc., Springfield, in the sum of $168,041 50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Stone base, binder and aggregate production on Thomas Creek-Brookings Unit, Burnt Hill-Brookings Section of the Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at $363,070.

"Grading and paving on the West Unit, Fort Rock Road-Brothers Section of the Central Oregon Highway in Deschutes County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $228,043.60.

"Grading and oiling at the Bend Truck Scale Site on The Dalles-California Highway in Deschutes County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $23,120.

"Grading on the Cascade Locks Section of the Columbia River Highway in Hood River County. The Commission awarded the contract to the low bidder, C. R. O'Neil, Creswell, at $305,897.50.

"Paving on the Sams Valley Junction-Modock Road Section at the Table Rock Road in Jackson County. The Commission awarded the contract to the low bidder, Rogue River Paving Company, Medford, at $76,709.40.

"Grants Pass Traffic Signal Installation, Pacific Highway, Sixth Street at "I" Street and Seventh Street at "H" Street, Josephine County. The Commission awarded the contract to the low bidder, Trowbridge & Flynn Electric Company, Medford, at $6,780.

"Swamp Creek, Lake Creek and Lake Creek Overflow Bridges, Siuslaw Highway, in Lane County. The Commission awarded the contract to the low bidder, Walder & Kenworthy, Portland, at $47,523.

"Stone base and oiling on the West Unit, Siuslaw River-Walton Section of the Richardson-Eugene Highway in Lane County. The Commission awarded the contract to the low bidder, F. H. McEwen, Eugene, under Schedule "A", at $113,511.50.

"Sutton Lake-Carter Lake Rock Production Project on the Oregon Coast Highway in Lane and Douglas Counties. The Commission awarded the contract to the low bidder, S. D. Spencer & Son, Vancouver, Washington, at $30,800.

"Paving on the Santiam Interchange-Crabtree Corner Section of the Santiam Highway in Linn County. The Commission awarded the contract to the low bidder, Western Paving and Construction Co., Albany, at $68,582.

"Owyhee Lake Road Widening Project in Malheur County. The Commission rejected all bids as being too high.

"North Ontario and Idaho Avenue Interchanges Roadway and Sign Illumination on Old Oregon Trail Highway in Malheur County. The Commission awarded the contract to the low bidder, Sierra Electric Company, Inc., Portland, at $30,758.

"Grading and paving at the Hubbard Truck Scale Site on the Pacific Highway East in Marion County. The Commission elected to accept the low bid of Salem Black Top Paving Company, Salem in the sum of $34,643.60, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Detroit Lake State Park Extension Overnight Camping Area in Marion County. The Commission awarded the contract to the low bidder, Harley E. Lowe and Rolla A. Bryant, Medford, at $35,091.20.

"Benson and Dabney State Parks Latrine Additions, Multnomah County. The Commission awarded the contract to the low bidder, Earl S. Christensen, Portland, at $8,382.66.

"John Day River (Cottonwood) Bridge, structure, grading and oiling on Wasco-Heppner Highway in Sherman and Gilliam Counties. The Commission awarded the contract to the low bidder, Mann Construction Co., Redmond, at $223,766.

"Devils Lake Fork (Wilson River)Bridge Maintenance Painting, on Wilson River Highway in Tillamook County. The Commission awarded the contract to the low bidder, Wm. A. Efraimson, Portland, at $11,766.

"Union-Medical Springs Rock Production Project on the Medical Springs Highway in Union County. The Commission awarded the contract to the low bidder, Arthur Simonsen & Co., Baker, at $37,200.

"Stone leveling course and oiling on the Willowdale-Antelope Section of the Antelope Creek Road in Wasco County. The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at $98,173.

BIDS RECEIVED IN SALEM ON APRIL 19, 1960

"Grading and oiling on the Sumpter-McEwen Section of the Sumpter Valley Highway in Baker County. The Commission elected to accept the low bid of McNutt & Sons, Inc., Springfield, in the sum of $277,212.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grant County Line-Malheur County Line Rock Production Project on John Day and Baker-Unity Highways in Baker County. The Commission awarded the contract to the low bidder, E. H. Itschner Co., Molalla, at $35,960.

"Union County Line-Baker Rock Production Project on the Old Oregon Trail Highway in Baker County. The Commission awarded the contract to the low bidder, Frank G. Baulne, Inc., Yardley, Washington, at $47,670.50.

"Grading and paving on the Rock Creek Section of the Clackamas Highway in Clackamas County. The Commission elected to accept the low bid of Charles T. Parker Construction Co., Portland, in the sum of $49,946.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Warrenton (Skipanon Dr.) Grading and Paving Project in Clatsop County. The Commission elected to accept the low bid of The United Contracting Company, Portland, in the sum of $27,582 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Warrenton is received and the sum of $11,800 is deposited by the City.

"Grading and oiling on the Ochoco Junction-Howard School Section of the Ochoco Ranger Station Road in Crook County. The Commission elected to accept the low bid of Stanley Wilt, Corvallis, in the sum of $119,134.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Crook County is received and the sum of $27,100 is deposited by the County.

"Grading and paving on the Airport-Ochoco Park Section of Ochoco Highway in Crook County. The Commission awarded the contract to the low bidder, C. R. O'Neil, Creswell, at $117,486.90.

"Thomas Creek Bridge Construction on Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, Bethlehem Steel Company, San Francisco, California, at $1,114,951.

"Paving on the Terrebonne-Redmond Section of The Dalles-California Highway in Deschutes County. The Commission awarded the contract to the low bidder, Dorman Construction Company, Vancouver, Washington, at $47,740.

"Division No. 4 Oiling Project on five state highways in Deschutes, Crook and Jefferson Counties. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland at $93,244.

"Paving on Hampton-Sagehen Hill Section of Central Oregon Highway in Deschutes, Lake and Harney Counties. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $167,164.

"Mt. Vernon Rock Production Project on the Pendleton-John Day and John Day Highways in Grant County. The Commission awarded the contract to the low bidder, E. H. Itschner Company, Molalla, at $31,375.

"Paving on the Lowen-Crane Section of the Burns-Crane Highway in Harney County. The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at $77,812.50.

"Hood River County Roads Grading and Oiling Project on Deer Creek Road and Creson Road in Hood River County. The Commission elected to accept the low bid of J. C. Compton Company, McMinnville, in the sum of $117,041 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Hood River County is received and the sum of $26,300 is deposited by the County.

"Seven Oaks-Table Rock Road Structures in Jackson County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at $349,224.50.

"Paving on the Ashland-Niel Creek Road Section of the Green Springs Highway in Jackson County. The Commission awarded the contract to the low bidder, M. C. Lininger & Sons, Medford, at $51,602.50.

"Stone base and oiling on the Metolius (5th St.) and Culver (5th Ave.) Sections of City streets in Jefferson County. The Commission awarded the contract to the low bidder, F. E. Wilburn, Springfield, at $20,620.50.

"Grading on the Galice-Windy Gap Section of the Galice Road in Josephine County. The Commission elected to accept the low bid of J. M Arenz, Portland, in the sum of $129,114 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Josephine County is received and the sum of $29,700 is deposited by the County.

"Paving on the Diamond Lake Junction-Lenz Road Section of The Dalles-California Highway in Klamath County. The Commission awarded the contract to the low bidder, Rogue River Paving Company, Medford, at $108,747.

"Dormitory addition to trailer shelter at Odell Lake Maintenance Station in Klamath County. The Commission awarded the contract to the low bidder, A. E. Stafford, Springfield, at $13,628.

"Paving on the Hendricks Bridge-Leaburg Dam Section of the McKenzie Highway in Lane County. The Commission awarded the contract to the low bidder, T. C. Wildish Co., Eugene, at $152,506.81.

"Paving on the Sutton Lake-Florence Section of the Oregon Coast Highway in Lane County. The Commission awarded the contract to the low bidder, Morse Bros., Lebanon, at $76,292.40.

"Grading and Bear, Deer and Wolf Creek Culverts on the Elk City-Harlan Road in Lincoln County. The Commission elected to accept the low bid of Valley Oil Co., Inc., Salem, in the sum of $40,000 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Lincoln County is received and the sum of $9,000 is deposited by the County.

"North Albany Junction-Lane County Line Sign Installation in Linn County. The Commission awarded the contract to the low bidder, G & K Sign Co., Portland, at $88,996.45.

"Grading, paving and structure on the Juntura-Horseshoe Bend Section of Central Oregon Highway in Malheur County. The Commission awarded the contract to the low bidder, C. R. O'Neil, Creswell, at $490,082.55.

"Paving on the North Ontario Interchange-Idaho Avenue Section of Old Oregon Trail Highway in Malheur County. The Commission awarded the contract to the low bidder, Rogers Construction Co., Portland, at $30,786.

"Owyhee Lake Road Widening Project in Malheur County. The Commission awarded the contract to the low bidder, Vernie Jarl, Gresham, at $34,480.

"Grading and paving on the Chemawa Road-Salem Section of the North River Road in Marion County. The Commission elected to accept

the low bid of Salem Road and Driveway Co., Salem, in the sum of $222,669.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Marion County is received and the sum of $71, 100 is deposited by the County.

"Woodburn (Cannery St.) Grading and Paving Project in Marion County. The Commission elected to accept the low bid of Salem Black Top Paving Co., Salem, in the sum of $12, 066 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Woodburn is received and the sum of $2, 400 is deposited by the City.

"Illumination and delineation installation on 16th and Holladay to Multnomah Falls Section of Columbia River Highway in Multnomah County. The Commission awarded the contract to the low bidder, Owen and McIntyre Electric Co., Portland, at $30, 568. 72.

"Building Demolition Project on N. Page Street-S. E. Main Street Unit of the East Bank Freeway of Pacific Highway in Multnomah County. The Commission awarded the contract to the low bidder, Steelman Duff, Inc., Portland, at $69, 785.

"Portland City Streets Paving Project on Pacific West, Mt. Hood, Sandy Blvd. and Pacific East Highways, Multnomah County. The Commission awarded the contract to the low bidder, Porter W. Yett, Portland, at $111, 894.

"Independence (Sag and Polk Streets) Grading and Paving Project in Polk County. The Commission elected to accept the low bid of Salem Road and Driveway Co., Salem, in the sum of $22, 748. 90 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Independence is received and the sum of $6, 500 is deposited by the City.

"Falls City (Mitchell Street) Grading and Paving Project in Polk County. The Commission elected to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $20, 783. 50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Falls City is received and the sum of $4, 250 is deposited by the City.

"Paving on the Moro-Grass Valley Section of the Sherman Highway in Sherman County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $22, 980.

"Tillamook (4th Street and Ocean Way) Grading and Paving Project in Tillamook County. The Commission elected to accept the low bid of Calkins Crushing Company, Oceanlake, in the sum of $13, 896. 50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Tillamook is received and the sum of $2, 000 is deposited by the City.

"Grading and Oiling on Woodell Lane Section of the Woodell Lane Road in Union County. The Commission rejected all bids as being too high.

"Cove (Hill St.-E. City Limits) Grading and Paving Project in Union County. The Commission awarded the contract to the low bidder, Bechtel Bros., La Grande, at $16,391.50.

"Paving on the Willow Creek-Jefferson County Line Section of the Warm Springs Highway in Wasco County. The Commission awarded the contract to the low bidder, Dorman Construction Company, Vancouver, Washington, at $167,348.

"Stone Base and Oiling on Maupin (4th Street) Section of City Street in Wasco County. The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at $8,906.

"John Day River (Twickenham) Bridge in Wheeler County. The Commission elected to accept the low bid of Walder and Kenworthy, Portland, in the sum of $109,345 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Wheeler County is received and the sum of $28,600 is deposited by the County.

The Engineer presented a letter received earlier in the day from the Ontario Chamber of Commerce in which they invited the Commission and its party to take a trip to Owyhee Reservoir while the Commission and party are on their proposed trip April 25 through 27. He explained that the itinerary for the three-day trip has been filled and there is not time to take the trip to Owyhee. However, they might accept the alternative proposal offered in the letter that the party go through the Ore-Ida Potato Plant in Ontario.

Chairman McIver inquired as to whether a date can be set for a hearing in Portland concerning routing of highways on the west side of Portland. He pointed out that the property owners along the five proposed routes cannot make plans to utilize their property until the routing is established. The Engineer explained that the City of Portland through its committees has been conducting an investigation of the various routes and are awaiting reports. The Commission instructed the Engineer to contact the City of Portland officials concerning the status of their investigations and a date that would be agreeable to them, and the Commission would then consider setting a date for the Portland hearing at its next meeting in Salem on May 10.

The Commission discussed with the Engineer problems and projects to be presented by delegations on the following day. No action was taken in any of these matters, pending the appearance of delegations.

The Commission also discussed with the Engineer and the Right of Way Engineer status of projects on which bids are to be received May 10.

Agreements, deeds, and other papers were signed by the Commission. The meeting was adjourned at 2:50 p.m., to be reconvened on the following day at 9:45 a.m.

Salem, Oregon
April 22, 1960

The Oregon State Highway Commission reconvened at 9:45 a.m. in Room 418, State Highway Building. The following persons were present:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
Walter T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information
Floyd Query, Secretary

Representatives of the Siletz-Toledo Highway Association appeared before the Commission regarding improvement of the Siletz Secondary Highway between Toledo and Siletz. Mr. Larkie Logan, Siletz, member of the Association, acted as spokesman and introduced the following members of his Association: Walter Dickenson, President, and Earl Heuth, member, both from Siletz. Mr. Logan pointed out that since the completion of this highway in 1912 there has been very little improvement on it other than resurfacing and minor widening work. The highway, he continued, is narrow with no adequate space for cars to get off the road in case of emergency. He estimated that about 80% of the residents of Siletz work in Toledo or Newport and must travel over the highway each day. On this 7.8 mile section he counted 80 curves with only one straight section where a car can safely pass. Georgia-Pacific, he added, has ceased hauling over their railroad, which has resulted in heavier logging over the Siletz Highway and one of the operators in the area, the Stokes Logging Company, has estimated that their trucks have hauled about 130 loads of logs each day

over this highway since the first of the year. It is their thought, he continued, that the Siletz Highway should be relocated between Siletz and Toledo. The proposed highway should be a straight road as it would not be necessary to go through any rough country, and he presented petitions signed by 835 people supporting his request. The Engineer commented that the Commission and the Engineers are aware of the suggested cutoff; however, if it were constructed there would be two highways to maintain since the present highway could not be abandoned because of the area it serves. If a new highway is needed, he continued, it would be feasible to construct a good portion of it along the old Georgia-Pacific railroad right of way. Negotiations are now underway with Georgia-Pacific for the acquisition of this old railroad right of way. Although no definite survey has been made, he pointed out that some cost estimates and reconnaissance surveys are available. In answer to Mr. Logan's question as to whether or not Lincoln County would maintain the old highway if a new one were built, the Engineer explained that it would still involve expenditure of public funds but that a survey should be made to determine accurate construction figures before any further discussion of this matter. Chairman McIver thanked the delegation for bringing this matter to the Commission's attention and told them that the Commission has given careful consideration to this highway and will continue to do so in the future.

A delegation representing Downtown Portland, Inc. appeared before the Commission regarding proposed highway rerouting west of the Willamette River in Portland. The following composed the group: William E. Roberts, Secretary of Downtown Portland, Inc.; Albert W. Gentner, Board Member; Lloyd T. Keefe, Executive Secretary; Harry C. Kendall, Board Member; Robert B. Wilson, Advisory Committee; Jack L. Meier, representing Aaron M. Frank who is a Board Member; Wm. L. Brewster, Advisory Committee; and Paul Hauser, employee of Downtown Portland, Inc., all from Portland. Mr. Roberts, who acted as spokesman, introduced the members of his delegation. Mr. Keefe presented a copy of "Sunset Freeway Report", prepared by Downtown Portland, Inc., which incorporates a summary of their position and outlines the advantages of the Market-Clay Route. He scanned through the report, pointing out specific suggestions or recommendations for the Commission's consideration. (For further details concerning this report, see copy filed in the General Files, Salem.) While pointing to a map displayed, he summarized the reasons why they cannot accept the Foothills Route, commenting on each as follows: (1) It would be highly detrimental to the area south of Market Street in the Westpark apartment house area. (2) The Foothills Route has a potential of tying a traffic knot in the southern approach to the downtown district. There will be seven routes converging through the downtown area, he continued, plus three ramps off the freeway which will hamper access to the area. Since the street pattern east of Fourth Avenue is to be changed, there will be no opportunity to disperse traffic to the east, and Portland State College to the west will create a barrier by reason of the dense pedestrian traffic. (3) The manner in which the freeway is located and the on and off ramps planned would indicate that the facility is intended more to by-pass the downtown area rather than collect and distribute

traffic to it. He pointed out the traffic pattern which is shown on the charts in their report, stating that traffic would find it necessary to travel at least one-half mile before reaching the downtown area. (4) To build the Foothills Route represents a lost opportunity to better the downtown area in all respects. It was his thought that there should be provided in the downtown area an exclusive roadway for buses, a separate way for pedestrians and exclusive streets for automobiles. Downtown Portland, he added, has tried to work out a plan to intercept many of the automobiles at the edge of the concentrated downtown, or core, area, with several streets primarily designated for the movement of automobiles to and from parking areas. He urged the approval of the Market-Clay Route. In addition to serving the by-pass function, he stated, this route will keep traffic on the freeway longer, particularly the Canyon Road traffic, as well as bringing traffic in on the streets close to where parking facilities will be located. He requested that serious consideration be given to an interchange on the Stadium Route in the vicinity of Yamhill and Taylor Streets, or at least a facility south of Burnside Street. In answer to Mr. Meier's query as to what steps are proposed to forestall the probability of Fourth-Sixth Avenues becoming overloaded and an obstacle to traffic flowing from the Foothills Route to the downtown area, Chairman McIver stated that this question will be answered fully at the public hearing which will be held in Portland in the near future. Mr. Kendall pointed out that downtown Portland pays about one-third of all the taxes in the City of Portland so it is a vital concern to all to preserve the property values of the area which can only be done if ready access to and from the downtown area is provided. It is necessary, he continued, to locate the freeway close enough to the center of the city so that the people leaving the freeway can readily park their cars and walk a few blocks to the downtown area. Responding to Mr. Kendall's question if allowance is being made for construction of the Glencullen Tunnel, Chairman McIver answered that such tunnel construction is being considered and can be worked into either route; however, the immediate problem is selection of the route as no allowance can be made at the present time for an expenditure of funds to construct the tunnel. Mr. Roberts inquired how much consideration the Highway Commission gives to the overall plan for freeways and access to a city and to the internal traffic flow in a city such as Portland. The Engineer answered that the Highway Department cooperates and actively assists the city in developing arterials in the interior portion of the city; however, these arterials are separate from the building of an outer belt and have no bearing on the selection of the outer belt at the present time. Chairman McIver thanked the delegation for presenting this matter to the Commission.

Clackamas County Associated Chambers of Commerce and Salem Chamber of Commerce appeared before the Commission regarding the widening of US 99E north of Salem. Mr. Irwin S. Adams, Milwaukie, President of the Clackamas County Associated Chambers of Commerce, was spokesman and introduced the members of the delegation, as follows: Lee J. Caufield, Floyd Martin, and Burnhard Wilson, all from Portland Chamber of Commerce Highway Roads Committee,

Portland; Ernest Yeo, Gladstone, and Theodore Reeves, Clackamas, both from North Clackamas Chamber of Commerce; Rodney Miles, James L. Payne, R. C. Arthur, and Stan Hamer, all from Salem Chamber of Commerce, Salem; R. T. Doyle, Frank Stein, Vick Bowman, and Dale L. Dunn, all from Chamber of Commerce, Oregon City; Donald Haley, Woodburn, Chamber of Commerce; and John Rasmussen, A. F. Haworth, and Fred Voos, all from Chamber of Commerce, Canby. Mr. Payne, who spoke in behalf of the Salem Chamber of Commerce, stated that they are vitally interested in the widening of US 99E and were appearing to gain information regarding this highway. Mr. Caufield, who represented the Portland Chamber of Commerce, advised that at a recent meeting the Roads and Highway Committee of the Chamber of Commerce went on record as urging the completion of the entire route of US 99E to four lanes. Although they understand that improvement of one section of the highway has been approved and another section is under consideration, they believe that the traffic as well as the vertical and horizontal curvature over many sections of the highway justify the further improvement to a four-lane facility. As the various sections are improved, he added, traffic undoubtedly will increase on the entire route to a point where a two-lane highway will be inadequate. Mr. Adams recited the names of the various groups who had previously appeared before the Commission regarding this project, and pointed out that the Clackamas County Associated Chambers of Commerce represent the following chambers of commerce: North Clackamas, Oregon Tri-City, Upper Clackamas River, Sandy, Oswego, Molalla, Hoodland Associates and Canby. He mentioned that Hudson House routes its trucks from its operation at Milwaukie Industrial Park across to the west side and out the Baldock Freeway. Safeway Stores distribution center situated in Clackamas, he continued, advised that all their trucks (54 per day both northbound and southbound) destined for points south use US 99E because it is the most practical and economical route. He concluded his presentation by expressing appreciation for the opportunity of presenting this matter and stating that the widening of US 99E from New Era to Salem should be immediately undertaken. Chairman McIver thanked the delegation for bringing this matter to the Commission's attention and stated that the Commission agrees with the delegation that the road needs widening; however, as explained to them the last time they requested this project, the Commission has allocated all funds available. In response to Chairman McIver's inquiry if they wish to divert money from some other project, such as the Mt. Hood Highway, to US 99E, Mr. Adams answered, yes, because this matter has been given first priority over all projects in Clackamas County with which the Associated Chambers of Commerce are concerned. In answer to Chairman McIver's question if it is the feeling of all the represented Chambers of Commerce, including the Portland Chamber of Commerce, to take the money off the roads presently under construction and put it on US 99E, Mr. Adams stated that he had not gone into that question with the groups he represented; however, they did not wish to tell the Commission where to get the money but only to emphasize that this highway should be widened. Chairman McIver reiterated that the Commission has only so much money for expenditure on roads in Division 1 and a

large amount of such funds is being expended to complete the heavily traveled Mt. Hood Highway. Mr. Caufield recalled that the Portland Roads and Highway Committee had gone on record as urging the Commission to give preference to US 99 and US 30 over other highways.

Representatives from the City of Bend appeared before the Commission regarding the one-way grid system in Bend and the improvement of Third Street. Mr. Walter Thompson, City Manager, was spokesman for the group and introduced the following: John Truitt, Police Chief; Dr. C. J. Rice, Mayor pro tem; Jack Dempsey, City Commissioner; and Geo. Breest, City Commissioner, all from Bend. Mr. Thompson stated that they did not consider it necessary to bring up the matter of the one-way grid system in Bend because they had just gone over the proposed couplet with the Traffic Engineering Division, and that the City of Bend would continue to work with that department on the project. At the request of Mr. Thompson, the Secretary read aloud Resolution No. 679, adopted by the City Commission of Bend on April 20, 1960, in which the City Commission of Bend resolved as follows: (1) To request the Highway Commission to program the proposed improvement of East Third Street in the City of Bend from Franklin Avenue north to the city limits; (2) To advise the City of Bend of its share of the cost by providing to the City the estimated cost of the curbs and gutters so the budgeting for the City's share of the project may be accomplished; and (3) To get the proposed improvement project underway at once. Their main concern, Mr. Thompson continued, is when the program can get underway. Chairman McIver stated that the Commission will consider the delegation's request and advise them of its decision. The Engineer commented that the Highway Department is in accord with the request for construction of this project and when funds are available for work in the City of Bend consideration should be given to earmarking funds for the Third Street improvement. However, as there are other requests for projects within the City, the City should also be in accord as to the No. 1 project. Mr. Thompson replied that the City Commission of Bend considers the Third Street Project as having number one priority, and the City Commission is desirous of knowing when highway funds will be available so that the City can budget its share of the project. The Third Street improvement, he pointed out, is definitely needed because of the heavy traffic during peak hours on the existing highway through town, particularly at the junction of US 20 and US 97 and also because of the contemplated construction of a new pulp mill which will add to the congestion. Chairman McIver thanked the group for coming in and assured them that every consideration will be given to their request.

Mr. C. N. Teegarden, Yamhill County Court, was spokesman for a delegation from Yamhill and Washington County Courts who appeared before the Commission regarding improvement of the Tualatin Valley Highway from Forest Grove south to St. Joseph Junction near McMinnville. Appearing with Mr. Teegarden were Clayton Nyberg, Hillsboro, Washington County Commissioner; Homer Waltz, Forest Grove, Chamber of Commerce; and Guy Shumway, McMinnville, Yamhill County Commissioner. Mr. Teegarden read aloud a letter from

the Yamhill County Court requesting the realignment and improvement of ORE 47 between McMinnville and Forest Grove. This highway, he stated, was built in 1920, is only 16 feet wide, and serves not only through traffic but also the communities of Forest Grove, Gaston, Yamhill, Carlton and McMinnville. Although an attempt has been made to widen the highway by placement of a narrow strip along the edge of the road, he added, this strip is very unsatisfactory since it settles below the concrete slab. He spoke of the many sharp curves, of the log hauling on the highway the year round, and of the increased traffic load on the highway due to new industry in Washington County. Regarding ORE 240 (Yamhill-Newberg Highway) between Newberg and Yamhill, he commented that the State had satisfactorily improved the east end of the highway a few years ago and inquired if there are any plans to resurface the west end. The County Court, he continued, sincerely urges that a survey be made this year on Highway ORE 47 between McMinnville and Forest Grove with improvement commencing as early as possible. On behalf of the Yamhill County Court he thanked the Commission for past favors. Mr. Shumway concurred in Mr. Teegarden's remarks. Mr. Nyberg stated that the Yamhill and Washington County Courts are in agreement that the Tualatin Valley Highway from Forest Grove to St. Joseph Junction, north of McMinnville, needs immediate consideration. The traffic count, he continued, has been gradually increasing over the years and as a result the existing route cannot be utilized to its fullest potential because of the nature and quality of the alignment and surface. Improvement of the route, he believed, would afford better accessibility for highway users to the north and central beaches, would give the people of the Willamette Valley an alternate route to Portland and points north, would increase the value of the property along the highway and allow for the orderly and effective development of the area, would attract freight traffic to the route, and would offer a better opportunity for residents and students of Tualatin Valley to visit and attend colleges in the Willamette Valley. He concluded by expressing appreciation for the opportunity of presenting this matter and requesting that every consideration be given to this improvement. Mr. Waltz added that with the completion of the Tualatin Valley Highway to a four-lane facility between Forest Grove and Portland, the next natural step would be improvement of the section from Forest Grove to McMinnville, and he also expressed the hope that the Commission would see its way clear to improve the highway as soon as possible. Chairman McIver thanked the delegation for bringing this matter to the Commission's attention and advised them that all possible consideration will be given to their request.

Members of The Dalles Chamber of Commerce appeared before the Commission concerning improvement of the Tygh Grade on US 197 north of Tygh Valley in Wasco County. Mr. Don Williams, Chairman of the Highway Committee of the Chamber of Commerce, The Dalles, acted as spokesman and introduced the following members of the group: James A. Hunt, County Judge of Wasco County; Vic Peterson, Peterson Insurance Company and Chamber of Commerce, both from The Dalles;

and Fred Ashley, Tygh Valley Sand & Gravel, Tygh Valley. Mr. Don Williams stated that their request today is for the inclusion in the next five-year construction program, and construction within the next two years, of a new Tygh Grade on US 197. He recalled that in the past they had outlined the economic reasons for building this grade, some of which are to transport wheat, cattle and lumber from the central part of Wasco County to the Columbia River Highway and The Dalles port, and to accommodate tourist traffic to the Mt. Hood and the Deschutes River areas. Chairman McIver thanked the delegation for coming in and assured them that the Commission will give every consideration to their request when funds are available.

The Klamath County Court appeared before the Commission regarding improvement of the East Diamond Lake Highway. Present in the group were Francis Landrum, Chairman of the Roads Advisory Committee, who was spokesman; Dick Newman, mill operator; Jack Kalonskie, County Engineer; Ned Putnam, logger; and R. R. Walker, County Judge, all from Klamath Falls. Mr. Landrum introduced the members of the delegation and requested the Highway Commission to intercede in behalf of Klamath County for the inclusion of the East Diamond Lake Highway (ORE 230) in the Forest Highway Program, and to obtain funds to improve that portion of the highway between US 97 and the north junction to Crater Lake. Improvements, he continued, are being made on the western slope of the Cascades on the road from Roseburg to Diamond Lake, and from Medford area to Diamond Lake which may pull timber away from Klamath County. Klamath County would like to see available forest funds spent on forest highways that are on the state highway system. They are appearing, he added, to ask the Commission to request the U. S. Bureau of Public Roads and the U. S. Forest Service, to improve the highway with forest highway funds. Mr. Newman, who spoke in behalf of the Klamath Basin Mill Operators, presented a brochure containing facts concerning the need to reconstruct Highway 230 from Highway 97 to the North Crater Lake National Park junction. The report, he pointed out, indicates that in 1946 reconstruction of Highway 230 was to have been completed with matching forest highway and State funds from Diamond Lake Junction to the North Umpqua area to permit the removal of 50 million feet of logs; however, after sale of the timber no funds were made available so that it was necessary to construct a secondary dirt road over the summit to the east side of Diamond Lake, which connected to an old road to US 97. This road is not adequate for log hauling and as a result it is difficult to bid on timber in that area. From the standpoint of recreational facilities, he pointed out that the highway carries heavy traffic from Crater Lake National Park, and from the Rogue River, Deschutes, Umpqua and Diamond Lake areas. He concluded his presentation by requesting reconstruction of the highway. The Engineer explained that although this highway is on the State Highway system and on the Forest Highway system it is not on the Federal-aid system so that the only funds eligible to be used on the road would come from the Forest Highway allocations. Chairman McIver thanked the delegation for their presentation.

The Engineer brought to the Commission's attention a request from the City of Eugene for State cooperation with the City of Eugene, City of Springfield, University of Oregon, and Lane County covering an overall transportation study to be made in the Eugene-Springfield area. The University of Oregon, he pointed out, will conduct the study and make periodic reports to the State Highway Commission. The estimated cost of the study is $17,000, of which the State's contribution is not to exceed $10,000 to cover those portions that pertain entirely to highway matters. The $10,000, he added, will be taken from federal planning funds and the matter will be covered by appropriate agreement. Upon his favorable recommendation, the Commission approved the expenditure for the study.

There being no further business to come before the Commission, Chairman McIver declared the meeting adjourned at 11:40 a.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
May 10, 1960

The Oregon State Highway Commission met in special session at 11:00 a.m. in the Conference Room of the State Highway Building in Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
G. E. Rohde, Assistant Chief Counsel
Walter T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Carl Jordan, Director of Travel Information
Floyd Query, Secretary

The State Parks Superintendent reported on the following park matters:

Proposed purchase of 9.9 acres of the Young-Newhouse property on the south slope of Cape Sebastian in Curry County: The Parks Superintendent displayed a map of the area and pointed out to the Commission the location of the property proposed as a part of Cape Sebastian State Park. It was his thought that if all of the property could be secured between the highway and the beach it would be a desirable acquisition, providing that a reasonable price can be obtained. The Commission authorized the Parks Superintendent to continue negotiations and submit a recommendation for purchase at a later date.

The matter of an additional expenditure of $666 in connection with the installation of a power line into Silver Falls State Park for use in the Youth Camps was brought up by the Parks Superintendent. Difficulties have been encountered, he stated, in attempting to cross the Matheny property with the power line and it appears that extensive legal action will be necessary in order to secure an easement across their property. For an additional expenditure of $666 the power line can be placed along existing roads, and he recommended that this action be taken. The Commission accepted his recommendation.

The status of negotiations with the owners of Sea Lion Caves along the Oregon Coast Highway was also brought up by the Parks Superintendent. A conference was held with them recently, he stated, and it appears that they may offer a more reasonable asking price. Chairman McIver instructed that an attempt be made to secure a lease without a down payment, that the present owners operate the concession, and that the purchase price be paid for out of income.

The Parks Superintendent was also instructed to continue the study of this matter in order to arrive at an acceptable offer to comply with the request of the Commission and the Legislature. Commissioner Jackson inquired if the owners have shown any indication that they wish to sell the property. The Parks Superintendent replied negatively.

The Right of Way Engineer presented for consideration a number of options, pages 1 through 23 inclusive, secured for acquisition of real property that is needed for state highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 10, 1960".

A Trust Agreement with Bonneville Power Administration was presented by the Right of Way Engineer covering the cost of moving their Longview-Astoria line on the Clatskanie Slide Section of the Columbia River Highway in Columbia County. He explained that in instances where it is necessary to move Bonneville lines it is their requirement that a Trust Agreement be entered into, and that the estimated cost, in this instance $13,300, be deposited with them in advance. Upon his favorable recommendation the Commission approved the Agreement.

Authorization was requested by the Right of Way Engineer to offer at public sale several parcels of property which are no longer required for highway purposes. Each parcel, he stated, has been appraised to determine its current value. Access has been allowed or denied in accord with departmental policy prevailing in the area in which the property is located. The Commission authorized public sale of the following parcels of property by adopting resolutions, marked Exhibits "B-1" through "B-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 10, 1960":

(a) 7.13 acres from the former Hoover property, File 6544, on the Vadis-Gardner Ranch Section of the Sunset Highway in Washington County, for a minimum consideration of $1,625 without access to the Sunset Highway. See Exhibit "B-1".

(b) 1.379 acres of land from the former Hein property, File 8359-Q-736, on the Multnomah County Line-Scappoose Section of the Columbia River Highway in Columbia County, for a minimum consideration of $300, with one point of access to the Columbia River Highway 20 feet in width and unrestricted as to use. The deed is to contain a drainage easement.

(c) 1.55 acres from the former Bouche property, File 16769, on the Mehama-Mill City Section of the North Santiam Highway in Marion County, for a minimum consideration of $500 and without access to the North Santiam Highway.

(d) 5.3 acres from Parcel "C", File 2239, on the Junction City-Eugene Section of the Pacific Highway in Lane County, for a minimum consideration of $5,500, without access to the Pacific Highway. See Exhibit "B-2".

(e) 126.7 acres from the former Glaser property, File 25373, on the Albany-Judkins Point Section of the Pacific Highway in Linn County, for a minimum consideration of $17,150. The sum of $8,575 is to be paid in cash and the balance in five annual installments bearing six percent interest. A 20-foot road easement is to be granted across an area being retained for a stockpile site to enable the purchaser to reach the property from Diamond Hill Road. Fencing is to be done by the State and an advertising sign restriction is to be imposed. The property is to be sold without access to the Pacific Highway. See Exhibit "B-3".

Direct sale of two parcels of excess property was recommended by the Right of Way Engineer. He explained that in each instance the property is either surrounded or nearly so by property owned by the purchaser. Values have been determined by appraisal. Upon his favorable recommendation, the Commission approved the following sales

(a) 0.04 acre of the former Efem Warehouse Company land, File 16728, on the 39th Avenue-102nd Avenue Section of the Columbia River Highway in Multnomah County, to Robert W. Marcum for the sum of $875, without access to the Columbia River Highway or to N. E. 47th Avenue and subject to an advertising sign restriction.

(b) 1.1 acres from the former Johnson-Bester-Peterson properties, Files 23497, 23498, and 23499, on the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County, to Mr. John Naegeli for the sum of $200, without access to the Wilson River Highway. The purchaser is to relocate the fence on the new right of way line.

An "Indenture of Access" was presented by the Right of Way Engineer covering a change of location on the Earl property, File 25642, on the Grass Valley-Kent Section of the Sherman Highway in Sherman County. He explained that the indenture is to cover a change of location of access for the safety of the traveling public and the convenience of the owner and that no additional access is being granted. Based upon his favorable recommendation the Commission approved the "Indenture of Access".

The matter of correcting an error in the description of an easement agreement previously signed by the Commission was brought up by the Right of Way Engineer. He explained that on August 13, 1959 the Commission signed a bilateral easement agreement with the U.S. Bureau of Reclamation granting to the State an easement on the Klamath Falls West Side Bypass Section of The Dalles-California Highway in Klamath County. The original description referred to the northwest corner of Block 83 which has been corrected to read the northwest corner of Block 60. Upon his favorable recommendation the Commission approved the amended easement.

The Assistant Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of Way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement to proceed to acquire such properties by condemnation. The Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted resolutions marked Exhibit "E-1" through "E-4", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 10, 1960".

Revision of a deed previously approved by the Commission conveying to the City of Portland the Commission's 40% interest in three parcels of property in Block 1, McMillen's Addition (in the vicinity of the E.R. Center) was presented by the Assistant Chief Counsel. He explained that the City had objected to the access restriction in the original deed, and inasmuch as it was not intended to impose this restriction he recommended that the revised deed be approved to allow access to a service road but no access to the relocated Pacific Highway. The Commission accepted his recommendation.

The Engineer reported that he had made award of contracts referred to him by the Commission to award when certain conditions had been satisfied. These conditions have been taken care of, he stated, and the following contracts have been awarded:

(1) Grading the Galice-Windy Gap Section of Galice Road, Josephine County. Bids received April 19, 1960. Contract awarded April 25, 1960 to J. M. Arenz, Portland, low bidder.

(2) Grading and oiling the Middle Unit, Post-Camp Creek Section of Paulina Highway, Crook County. Bids received March 29, 1960. Contract awarded April 27, 1960 to McNutt and Sons, Inc., Springfield, low bidder.

(3) Grading and oiling Deer Creek Road and Creson Road, Hood River County. Bids received April 19, 1960. Contract awarded April 28, 1960 to J. C. Compton, McMinnville, low bidder.

(4) Bear, Deer and Wolf Creek culverts and grading on Elk City-Harlan Road, Lincoln County. Bids received April 19, 1960. Contract awarded April 28, 1960 to Valley Oil Company, Inc., Salem, low bidder.

(5) Grading and paving Sag and Polk Streets in Independence, Polk County. Bids received April 19, 1960. Contract awarded April 28, 1960 to Salem Road and Driveway Company, Salem, low bidder.

(6) Grading and paving Mitchell Street in Falls City, Polk County. Bids received April 19, 1960. Contract awarded April 28, 1960 to Warren Northwest, Inc., Portland, low bidder.

(7) Grading and paving Fourth Street and Ocean Way in Tillamook, Tillamook County. Bids received April 19, 1960. Contract awarded April 28, 1960 to Calkins Crushing Company, Oceanlake, low bidder.

(8) Grading and paving Hubbard Truck Scale Site on Pacific Highway East, Marion County. Bids received March 29, 1960. Contract awarded April 28, 1960 to Salem Black Top Paving Company, Salem, low bidder.

(9) Grading and paving Cannery Street in Woodburn, Marion County. Bids received April 19, 1960. Contract awarded April 29, 1960 to Salem Black Top Paving Company, Salem, low bidder.

(10) Grading and paving Skipanon Drive in Warrenton, Clatsop County. Bids received April 19, 1960. Contract awarded May 4, 1960 to The United Contracting Company, Portland, low bidder.

The Commission confirmed award of the contracts.

Confirmation of telephonic approval was requested by the Engineer for authority to contract betterment work on the Crater Lake Highway easterly from Trail in Jackson County. He recalled that a delegation which appeared at a previous Commission meeting had requested improvements and that an investigation had been made. For an expenditure of $60,000 widening work can be performed on intermittent sections on an equipment rental basis, with some work to be performed by State forces. The Commission confirmed authority to proceed with the work and to receive bids for the project on June 1, 1960.

Attention was given to a request from the City of North Bend for a cooperative project involving extension of a 60-foot curbed section five blocks long, from 16th Street to Lewis Street, on the Cape Arago Highway in Coos County. The Engineer stated that an investigation indicates that the project has merit and is estimated to cost approximately $80,000. He recommended that the work be performed, provided that the City will contribute 25% of the total cost. The Commission approved the project.

Authority was requested by the Engineer to expend approximately $67,000 for improvement to the Howard Cooper building in Portland so that the improved space may be used for highway department personnel. He explained that the Division Office building in Milwaukie is overcrowded and several divisions have been quartered in rented buildings. Use of the Howard Cooper building would provide better quarters for personnel, ample car storage, and a more convenient location. It was his recommendation that the work be performed and that the Metropolitan Engineer and his crew be moved into the Howard Cooper building after the improvements have been made. The Commission approved his recommendation.

The Engineer presented a request by General Construction Company for an extension of time within which to complete Contract No. 5205 for construction on the Interstate Bridge over the Columbia River on the Pacific Highway between Washington and Oregon. The additional time required to complete the work, he stated, was not the fault of the contractor, and he recommended that he be granted an extension of time in the amount of eight days, to January 8, 1960, without assessment of liquidated damages. The request, he added, has been approved by the Washington Toll Bridge Authority. The Commission approved the extension of time as presented.

The Engineer reported that Contract Nos. 5228, 5332, 5552, 5582, 5601, and 5612 for highway construction have been completed in accordance with requirements of the contracts, or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 10, 1960".

The Engineer requested approval of a change in the plans for the Tillamook River Bridge Project on the Netarts Secondary Highway in Tillamook County. The original plans provided for a fixed bridge with clearance which would not permit navigational development of the Tillamook River above the bridge except for very small boats. Tillamook County is negotiating with the U.S. Army Engineers for improvement of the channel entering Tillamook Bay. For the expenditure of an additional $30,000 the bridge can be constructed so that later it can be converted into a drawspan without loss of the original investment. Tillamook County has agreed to contribute one half of

the additional cost, or $15,000, and he recommended that the Commission authorize the expenditure of an additional $15,000 to construct the bridge so that it may be converted into a drawspan. The Commission approved the additional expenditure.

A hazardous condition on the Pacific Highway West near Tigard caused by shoulder parking was brought up by the Engineer. A traffic engineering investigation, he stated, disclosed that vehicles are being parked on the shoulders of the highway in front of and near the Tigard Bowling Alley. Off-street parking space for approximately 66 vehicles has been provided by the bowling alley. For the protection of the traveling public and for the safety of pedestrians crossing the highway, he recommended that shoulder parking be prohibited on both sides of the Pacific Highway between M.P. 8.24 (Engineer's Station 33+00) and M.P. 8.36 (Engineer's Station 39+50). The Commission approved his recommendation by adopting a resolution, marked Exhibit "D-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 10, 1960".

The Engineer also mentioned that parking along highway shoulders on the northerly side of the Coos River Highway, just east of Eastside, interferes with the operation of a loadometer station in that area. To facilitate loadometer operations and to protect the traveling public, he recommended that shoulder parking be prohibited on the northerly side of the Coos River Highway between a point 0.03 mile east of Catching Slough Road (M.P. 2.34) and a point 0.13 mile east of Catching Slough Road (M.P. 2.44). The Commission approved his recommendation by adopting a resolution, marked Exhibit "D-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission meeting of May 10, 1960".

The Commission discussed with the Engineer the matter of setting a date for a hearing to be held in Portland concerning highway routes in the westerly part of Portland, among which are the Foothills Route and the Clay-Market Route. City officials, the Engineer stated, have been contacted and he recommended that a hearing be held in the Portland City Hall at 10:00 a.m., June 13, 1960, with the possibility that it might be necessary to continue the hearing on June 14. The Commission approved the hearing dates.

Attention was given to a request made by the United States Forest Service for permission to install a log scaling station on highway right of way along the westerly side of the Beech Creek Highway opposite M.P. 1.61 near Mount Vernon, in Grant County. The Engineer stated that the location of the station and the type of construction have been approved, and he recommended that a revocable permit be granted. The Commission accepted his recommendation.

The Commission also considered a petition from residents of Westport requesting construction of a footpath along the Columbia River Highway in the community of Westport in Columbia County. The Engineer stated that an investigation disclosed that the proposed footpath would be located in a dense business and residential development, and during a 16-hour period it was found that approximately 150 pedestrians walked along the highway at this point. In view of the conditions which exist, he recommended that a footpath be constructed along the northerly side of the highway between M.P. 70.94 and M.P. 71.10 in the community of Westport at an estimated cost of $600. The Commission approved the project by adopting a resolution, marked Exhibit "F", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 10, 1960".

The Commission considered and, upon the favorable recommendation of the Engineer, approved a cooperative agreement with the United States Forest Service, American Forest Products Corporation, Lakeview Lumber Products Company, Adams Lumber Company, Lakeview Logging Company and Aeronautical Radio, Inc. covering installation by Aeronautical Radio, Inc. of radio transmitting and receiving equipment at Black Cap, northeast of Lakeview in Lake County. The Engineer explained that the State has certain rights in radio installations on Black Cap and the agreement is to allow Aeronautical Radio, Inc. to use existing communication facilities.

The Engineer presented a proposed agreement with the State of Washington whereby the Metropolitan Transportation Study for Portland and vicinity would be extended into the Vancouver, Camas, and Washougal areas in Washington. The agreement provides, he continued, that all costs incurred in connection with the work done in Washington are to be reimbursed by the State of Washington. Upon his favorable recommendation, the Commission approved the agreement.

A form of agreement with the University of Oregon, the City of Eugene, the City of Springfield, and Lane County was presented by the Engineer. He recalled briefly that the agreement had been authorized by the Commission at its meeting in April, 1960, for an over-all transportation study to be made in the Eugene-Springfield area. The total cost of the work is estimated at $17,000, the State's portion not to exceed $10,000 for matters which pertain to highways. Following his favorable recommendation the Commission approved the agreement.

Concerning a request made several times in the past by the City of Klamath Falls for an overpass over the Great Northern Railroad in Klamath Falls, the Engineer reported that as previously suggested to the City officials, they have made application to the

United States Military Department for financial aid as the road is used a great deal by military personnel stationed at Kingsley Air Base.

The Engineer requested out-of-state travel authorization for Mr. Carl Jordan, Director of the Travel Information Division, to go to Vancouver, British Columbia and Seattle, Washington, June 7 - 12, 1960 to attend a Travel Tour in Vancouver and meeting of Board of Directors of Travel Institute in Seattle, Washington, at an estimated cost of $80. The Commission approved the out-of-state travel.

The Commission signed a number of agreements and other papers and the meeting was recessed at 11:55 a.m. to be reconvened at 2:30 p.m. in the same room.

At 2:30 p.m. Commissioner Fridley announced awards of contracts on which bids had been received earlier in the day, as follows:

BIDS RECEIVED IN SALEM ON MAY 10, 1960

"Construction of Baker Office Building, Baker County. The Commission awarded the contract to the low bidder, Bechtel Bros., LaGrande, at $94,583.

"Grading and paving "M" and College Streets in Philomath, Benton County. The Commission awarded the contract to the low bidder, Corvallis Sand & Gravel, Corvallis, at $16,336.

"South Milwaukie Drainage Project, Clackamas County. The Commission awarded the contract to the low bidder, George W. Phoenix, Inc., Portland, at $13,519.

"Paving on the Warren-Scappoose Section of the Columbia River Highway, Columbia County. The Commission awarded the contract to the low bidder, K. F. Jacobsen Co., Inc., Portland, at $21,358.

"Clatskanie Slide Correction Project, grading and paving, on the Columbia River Highway, Columbia County. The Commission awarded the contract to the low bidder, Grimstad & Vanderveldt, Astoria, at $74,757.

"Paving on the Bandon-S. Twomile Creek Section of the Oregon Coast Highway, Coos County. The Commission awarded the contract to the low bidder, Central Paving Company, Independence, at $58,325.

"Grading and structure on the Cape Sebastian-Myers Creek Section of the Oregon Coast Highway, Curry County. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Co.,

Medford, at $907,087.

"Elk Creek Tunnel Relining on the Umpqua Highway, Douglas County. The Commission rejected all bids as being too high.

"Tenth Street Bridge over Bear Creek, City of Medford, Jackson County. The Commission referred all bids to the City of Medford.

"Grading and Oiling Project on First Street in Oceanlake, Lincoln County. The Commission rejected all bids as being too high.

"Construction of Ona Beach State Park Shelter Latrine, Lincoln County. The Commission awarded the contract to the low bidder, C. M. Corkum Co., Inc., Portland, at $16,441.50.

"Roadway Illumination on the North Albany Junction-McKenzie River Section of the Pacific Highway, Linn County. The Commission awarded the contract to the low bidder, Sierra Electric Co., Inc., Portland, at $41,189.

"Grading and paving on the West Unit, Burrell-Vale Section of the Central Oregon Highway, Malheur County. The Commission awarded the contract to the low bidder, C. E. Leseberg, Nyssa, at $81,696.

"Idaho Line-Antelope Reservoir Road Rock Production Project on the I.O.N. and Jordan Valley Highways, Malheur County. The Commission awarded the contract to the low bidder, C. E. Leseberg, Nyssa, at $42,467.75.

"Grading and paving on S.E. Lawrence Street in Gresham, Multnomah County. The Commission elected to accept the low bid of Oregon Asphaltic Paving Co., Portland, in the sum of $32,810.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Gresham is received and the sum of $18,000 is deposited by the City.

"Divisions No. 1 and No. 2 Structural Painting, Multnomah, Marion, and Polk Counties. The Commission awarded the contract to the low bidder, Tri-State Painting Company, Portland, at $22,140.

"Grading and paving on the Buell Road-Willamina Section of the Willamina-Sheridan Highway, Polk County. The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at $29,326.95.

"Construction of Twin Structures on the Deadmans Pass-Meacham Section of the Old Oregon Trail Highway, Umatilla County. The Commission awarded the contract to the low bidder, S & D Construction Co., Portland, on Alternate "B", at $289,852.

"Paving on the Enterprise Section of the Enterprise-Lewiston, Wallowa Lake, and Joseph-Wallowa Highways, Wallowa County. The Commission awarded the contract to the low bidder, E. H. Itschner Co., Molalla, at $188,684.50.

"Division No. 1 Paving Project on the Farmington and Scholls Highways, Washington County. The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at $104,386.

The Commission authorized Mr. W. C. Williams, State Highway Engineer, to attend a meeting of an AASHO Special Committee on Project Procedures in Washington, D. C., May 24 - 25, 1960, at an estimated cost of $275.

There being no further business to consider, the meeting was adjourned at 2:40 p.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
June 2, 1960

The Oregon State Highway Commission met in regular session at 10 a.m. in the Conference Room of the State Highway Building in Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information
Floyd Query, Secretary

The Commission approved the minutes of the regular meeting held April 21 and 22.

The State Parks Superintendent reported on the following park matters:

Proposed State Park at confluence of West and South Forks of Illinois River near Redwood Highway, Josephine County: The State Parks Superintendent stated that an area had been called to his attention a short distance south of Caves Junction. Some time will be required to make a thorough investigation of the site and he requested authority to make the study. The Commission granted the authority.

Proposed improvement of access road to Armitage State Park, Lane County: The existing road, the Parks Superintendent stated, passes beneath the Southern Pacific Company Railroad and in effect is a private crossing. To open it up for public use, it is necessary to secure approval of the Public Utility Commissioner and the Southern Pacific Railroad Company. The Southern Pacific Company has estimated that it will cost them approximately $1,000 for rebracing bents and for planking to protect piling. The Railroad Company, he continued, has not given its consent to the project, but neither have they stated that they would object. Cost of improving the road he estimated to be approximately $1,000. It was his opinion that the undercrossing should be improved so as to allow room for two-way traffic, and he recommended that the Commission authorize him to present the matter to the Public Utility Commissioner and to negotiate with the Railroad Company for a satisfactory agreement. The Commission approved his recommendation.

Request of Pacific Gas Transmission Company to install a 36-inch gas main along the old section of The Dalles-California Highway

through Lava River Caves State Park in Deschutes County: The Gas Company, the Parks Superintendent stated, proposes to use a strip of land on the easterly side of the right of way and to install the pipe to a depth of 8 feet. He pointed out that much of the trench must be dug in a relatively hard formation, which will require blasting. To avoid hazards to the visitors in the Caves, it was his opinion that construction of the pipe line should be delayed until after the close of the Caves-use season in September, and that blasting be held to a minimum to reduce possibility of damage to the lava tunnel. He also mentioned that the Gas Company should be required to pay for any timber removed in the construction of the pipe line. Upon his favorable recommendation the Commission authorized the granting of an easement to the Gas Company under terms and conditions outlined by the Parks Superintendent.

Supplemental agreement with Kaiser Gypsum Company concerning water supply at Bradley State Park in Clatsop County: The Gypsum Company, the Parks Superintendent stated, has requested a supplement to an agreement signed December 2, 1940 covering use of a stockpile site and water source for Bradley State Park on a tract of land along the old Columbia River Highway, approximately one mile westerly from Bradley State Park. The Company wishes to remove the timber and use the area as a source for quarry material if needed in its operations. Under terms of the proposed agreement, the Company is to grant to the State an easement across other lands for a water line to serve the Park. An investigation, he stated, has determined that removal of the timber as well as possible removal of the rock will not interfere with the water source, and under the supplemental agreement the State will have legal authority to maintain the pipe line from the water source to the Park. The Commission accepted his recommendation that the supplemental agreement be approved.

Installation and wording for three informational signs relating to botanical interests in VanDuzer Forest Wayside on the Salmon River Highway in Lincoln County, and the Darlingtonia State Park on Highway 101 in Lane County: The Commission authorized installation of informational signs containing the following wording:

"DARLINGTONIA STATE PARK PRESERVE

This area has been set aside as a botanical preserve to protect an unusual group of insect catching plants, Darlingtonia Californica. The cobra-like pitcher plants are found natively in bog areas of northern California and southwest Oregon. They flower in June with hanging blooms of yellow and red and produce up to a dozen leaves. Erect seed pods remain most of the summer. Insects are lured into the hooded tubular leaves by the nectar on colorful petals and within the interior. Once inside the dome, they become confused by the many transparent areas in the walls which appear as exits and are eventually trapped by the sharp downward pointing hairs in the tube. After falling into the pool of liquid at the base of the leaf, the captive is digested by the plant.

"HENRY B. VAN DUZER FOREST CORRIDOR
TREE PLANTING PROJECT

A forty acre tract of State Park land behind this sign was planted with young Douglas fir and Port Orford cedar trees by school children from Grand Ronde and Willamina in the years 1952, 1953, and 1954. Old growth trees on this tract were logged in 1951.

"HENRY B. VAN DUZER CORRIDOR

This eight mile strip, bordering the Salmon River Highway, preserves a living segment of old growth Douglas fir (Pseudotsuga Mensiesi) as well as Sitka spruce and other native trees. The Park contains 1,507 acres and is named for a former Chairman of the Oregon State Highway Commission who was one of the founders of the Oregon State Park system.

Areas to the north and south of the Park were logged years ago, and are now part of a large tree farm. Because of the narrow nature of the Corridor, winter winds have often felled its trees. Seedling trees were planted during the years from 1955 through 1958."

Proposed extension of Jack Flaucher's concession lease at the Vista House on the scenic route of the old Columbia River Highway in Multnomah County: The Parks Superintendent explained that the present lease, which expires March 31, 1961, specifies that the lease may be renewed if agreeable to all concerned. He pointed out that Mr. Flaucher's operation has been satisfactory and that a change in management would probably not be to the best interests of the State. He called attention to the fact that income to the State annually from 1955 through 1959 has run between $4,900 and $5,862. It was his recommendation, approved by the Commission, that the lease be extended for a five-year period, beginning April 1, 1961.

Request of Jack Flaucher to sell his lease for operation of concession privileges in the DePoe Bay Park building, Lincoln County, to Mrs. Pearl Cavin of Depoe Bay: The Parks Superintendent stated that because of death in Mr. Flaucher's family he does not wish to continue to operate the Depoe Bay Park facility. Mrs. Cavin, who has operated a private concession across the highway from the State-owned facility, has indicated an interest in the State operation. Her record, he continued, is good and he recommended that the Commission allow Mr. Flaucher to sell his lease interest to Mrs. Cavin, provided she can secure the necessary bond and insurance. He also pointed out that the existing agreement extends into 1964. The Commission accepted his recommendation.

The Right of Way Engineer presented for consideration options, pages 1 through 49, secured for acquisition of real property needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 2 and 3, 1960."

The Property Manager's report covering miscellaneous sales made since the last Highway Commission meeting, and a report of rentals received for the month of April were presented by the Right of Way Engineer. He pointed out that miscellaneous sales amounted to $17,906.19 for the period covered, and that rental receipts for the month of April amounted to $6,795.06. The Commission accepted the report. The Right of Way Engineer also mentioned that sales of rental properties are being made as fast as adequate prices can be obtained in order to keep the number of rental properties at a minimum.

Authority was requested by the Right of Way Engineer to sell three parcels of property which are no longer required for highway purposes. Each parcel of property, he stated, has been carefully appraised to determine its value, and access to the properties has been allowed or denied in accord with departmental policy prevailing in the area in which the property is located. The Commission authorized public sale of the following parcels of property and thereupon adopted resolutions marked Exhibits "B-1" through "B-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 2 and 3, 1960":

a. 0.9 acre of land from the former Early property, File No. 24155, on the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill County for a minimum consideration of $5,500 without access to the Salmon River Highway or to the County road within 150 feet of the intersection of the County road with the Salmon River Highway. See Exhibit "B-1".

b. 0.63 acre of land from the former Erntson property, File No. 25101, on the North Jefferson Junction-Albany Section of the Pacific Highway East in Linn County for a minimum consideration of $14,500 without access to the Pacific Highway East or to its frontage road. Access is to be allowed to Dunlap Street and an advertising sign restriction is to be imposed. See Exhibit "B-2".

c. 0.28 acre of land from the former Boyd property, File No. 24412, on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County for a minimum consideration of $4,500 with two points of unrestricted access to the

Tualatin Valley Highway, one, 40 feet in width, the other, 30 feet in width. See Exhibit "B-3".

Two Indentures of Access were presented by the Right of Way Engineer. He explained that in each instance no additional access is being granted, but that a change in location is proposed for the safety of the traveling public and for the convenience of the property owners. The Commission approved the Indentures of Access on the following properties:

a. Stevens property, File Nos. 18382 and 19147, on the Medford-County Farm Section of the Pacific Highway in Jackson County.

b. Verbeck property, File Nos. 13898 and 13899, on the Salem-Hayesville School Section of the Pacific Highway in Marion County.

Authority was requested by the Right of Way Engineer to sell directly a parcel of land containing 1,500 square feet on the Aloha Section of the Tualatin Valley Highway in Washington County to Mr. L. P. Busch for the sum of $150. He explained that the land adjoins other property owned by Mr. Busch, and has no particular value to anyone else. The value of the land, he continued, has been determined by appraisal, and one point of unrestricted access 25 feet in width is to be allowed to the Tualatin Valley Highway. The Commission approved sale of the land.

Attention was given to a "Lease and Sale of Road Materials" agreement with Ernest W. Fisher. The Right of Way Engineer explained that the lease pertains to property on the Fisher Butte Section of the Mapleton-Eugene Highway in Lane County. Under an existing agreement, the State pays a minimum of seventy-five dollars per year and maintains the road to the quarry site. Under the terms of the proposed lease, the Fishers may allow a third party to remove material not needed or wanted by the State, thus relieving the State of the minimum payment of seventy-five dollars per year and of the obligation to maintain the roadway and the cattle guard. On his favorable recommendation, the Commission approved the revised lease agreement.

The Commission also considered a "Right-of-Entry for Construction" agreement with the U. S. Army Corps of Engineers granting to the Corps of Engineers the right to use for twelve months, beginning June 2, 1960, a 1.97 acre tract adjacent to the southerly right of way line of the Columbia River Highway in Sherman County, approximately three-fourths of a mile westerly from the proposed John Day Dam, Columbia River. The Right of Way Engineer explained that the Engineers plan to borrow material in this area and haul it across the tract owned by the State. Highway relocation will eventually render the site useless to the State and it will later be sold to the Corps of Engineers. It was his recommendation, approved by the Commission, that the agreement be approved.

A Bargain and Sale Deed was presented by the Right of Way Engineer conveying to Marion County forty-two parcels of property on the Willamette River-Gervais Road Section of the Baldock Freeway in Marion County. He explained that these parcels of property are being deeded back to the County in order to transfer to the County right of way used for County roads reconstruction in connection with construction of the Freeway. The Commission approved the deed.

A Grant of Easement to the El Paso Natural Gas Company for a right of way and easement to construct and operate a gas pipe line was presented by the Right of Way Engineer. The proposed easement, he stated, is located on the Albany-Judkins Point Section of the Pacific Highway in Linn County, covering 1.6 acres of land and contains a provision that the State is to be paid the sum of $240.00. This amount, he added, was established by appraisal, and no rights of access would accrue to this grant. The Commission approved the easement.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also presented. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions marked Exhibits "E-1" through "E-17", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 2 and 3, 1960."

(For details concerning these properties see the Chief Counsel's "Recommendations for Condemnation" dated June 2 and 3, 1960, and "Supplemental Recommendations for Condemnation" dated June 2 and 3, 1960, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

A written report of cases which have been tried in court was presented by the Chief Counsel, who commented orally on several of the cases. The Commission accepted the report which is summarized as follows:

(See following page for "Report of Condemnation Cases Tried".)

REPORT OF CONDEMNATION CASES TRIED

April 22, 1960 to May 26, 1960

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3437 Burghardt, et ux	Clackamas	Cascade Secondary	Lake Road, Oregon City	$9,200	$18,500	$11,100
L-3436 Burghardt, et ux	Clackamas	Cascade Secondary	Lake Road, Oregon City	14,000	25,000	14,000
L-3335 Stanton, et al	Hood River	Columbia River	Cascade Locks-Viento	150	16,500	1,000
L-3379 Glaser, et al	Linn	Pacific	Albany-Judkins Point	14,300	34,992	16,500
L-3077 Thiessen, et al	Marion	North Santiam	Lancaster Drive-Sublimity Gun Club	7,400	30,000	11,000
L-3439 Helliwell, et al	Multnomah	Pacific	East Bank Freeway	18,000	30,000	18,000
L-3420 Nance, et al	Multnomah	Pacific	East Bank Freeway	6,000	10,000	8,400
L-3423 Webster, et al	Multnomah	Pacific	East Bank Freeway	51,900	80,200	51,000
L-3343 Hailey, et al	Sherman	Wasco-Heppner	Wasco-Hay Canyon	1,153.90	None	1,153.90
L-3378 Hennagin, et al	Sherman	Wasco-Heppner	Wasco-Hay Canyon	3,505 without stock tube	None	2,834.37 plus 305.63 crop damage already paid 3,140 with stock tube

SUPPLEMENTAL REPORT OF CONDEMNATION CASES TRIED

May 27, 1960 to June 2, 1960

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3152 Metropolitan Development	Klamath	The Dalles-California	Klamath Falls-West Side By-Pass	$ 150	None	$ 150
L-3380 Glaser et al	Linn	Pacific	Albany-Judkins Point	15,050	34,143	20,000

For additional details see the Chief Counsel's letter dated May 25, 1960 entitled "Report of Cases Tried" and his letter dated June 1, 1960 entitled "Supplemental Report of Cases Tried" in the General Files in the Salem office.

The Commission also considered and accepted a report submitted by the Chief Counsel concerning cases which have been settled out of court. He commented briefly on some of the cases and answered questions presented by the Commission on the following summary of cases:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-29243 Compton	Benton	Corvallis-Newport	Corvallis City	$ 270	$ 1,250
R-23349 Standard Oil Co.	Clatsop	Oregon Coast	Roosevelt Drive (Seaside)	540	Exchange of property
R-29546 Schrag et ux	Coos	Powers Secondary	Hoffman Bridge-Whiskey Creek	525	754
R-29952 Smart et al	Crook	Paulina	Lost Creek-Camp Creek	3,615	3,683.50
R-28949 Oregon Conference of Free Methodist Church of North America	Hood River	Columbia River	Cascade Locks-Viento	700	1,000
R-22235 Bilyeu et ux	Marion	North Santiam	Lancaster Drive-Sublimity Gun Club	1,935	3,200

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-28224 Terry, et ux	Multnomah	Pacific	East Bank Freeway	$ 32,000	$35,000
R-28209 Motor Freight Terminals Inc., et al	Multnomah	Pacific	East Bank Freeway	60,000	71,200
R-28229 Tanaka, et al	Multnomah	Pacific	East Bank Freeway	66,900 For land and part of trade fixtures	75,000 For land and same fixtures included in offer
R-28254 Tanaka	Multnomah	Pacific	East Bank Freeway	5,250	5,250
R-28964 Knutsen, et al	Hood River	Columbia River	Cascade Locks-Viento	500	1,000

For additional details see the Chief Counsel's letter dated May 27, 1960, entitled "Report of Cases Settled" and his letter of June 1, 1960, entitled "Supplemental Report of Cases Settled" in the General Files in the Salem office.

The Chief Counsel stated that he has no report of cases pending.

A list of offers made to property owners prior to the institution of condemnation proceedings was presented by the Chief Counsel in compliance with a resolution adopted December 20, 1951. The Commission confirmed the following offers:

(See following page.)

Hunter Creek-Myers Creek Section of the Oregon Coast Highway

R-29594 - Fred Wimer, et ux. 3.00 acres for right of way purposes. Offer of $1,525 approved by Mr. McIver April 29, 1960.

R-30258 - William Hugh Henry, et al. 45.4 acres for right of way purposes. Offer of $6,100 approved by Mr McIver April 26, 1960.

R-30382 - S. O. Newhouse, et al. Parcel No. 1: 14.65 acres for right of way purposes; and Parcel No. 2: 9.9 acres for park purposes. Offer of $2,455 approved by Mr. McIver April 28, 1960.

R-30383 - John Hewitt, et ux. 20.33 acres for right of way purposes. Offer of $2,200 approved by Mr. McIver April 29, 1960.

R-30384 - John Hewitt, Jr., et al. 10.33 acres for right of way purposes. Offer of $2,030 approved by Mr. McIver April 27, 1960.

R-30385 - Oleta A. Walker, et al. Parcel No. 1: 24.07 acres for right of way purposes; Parcel No. 2: 19.07 acres for material source; and Parcel No. 3: 0.64 acre for haul road. Offer of $12,200 approved by Mr. McIver May 2, 1960.

Sumpter-McEwen Section of the Sumpter Valley Highway

R-30763 - William F. Deems, et al. Parcel No. 1: 0.78 acre for right of way purposes; and Parcel No. 2: 0.24 acre for right of way purposes. Offer of $65 approved by Mr. McIver May 23, 1960.

R-30766 - William R. Kidder, et al. 3.0 acres for right of way purposes. Offer of $1,825 approved by Mr. McIver May 24, 1960.

Sumpter-McEwen Section of the Sumpter Valley Highway - Cont.

R-30767 - Brooks Hawley, et al. Parcel No. 1: 1.05 acres for right of way purposes; Parcel No. 2: 12.1 acres for right of way purposes; and Parcel No. 3: 0.18 acre for temporary easement. Offer of $1,250 approved by Mr. McIver May 25, 1960.

R-30774 - J. E. Little, et al. Parcel No. 1: 2.36 acres for right of way purposes; Parcel No. 2: 39.40 acres for material source; Parcel No. 3: 3.60 acres for right of way purposes; and Parcel No. 4: 0.40 acre for right of way purposes. Offer of $1,100 approved by Mr. McIver May 23, 1960.

R-30781 - J. S. Dyke, et al. 23,500 square feet for right of way purposes. Offer of $275 approved by Mr. McIver May 23, 1960.

Buell Road -Willamina Section of the Willamina Sheridan Highway

R-31015 - Linda Sider Visnapu, et vir. 33,870 square feet for right of way purposes. Offer of $300 approved by Mr. McIver May 27, 1960.

R-31018 - Joseph Kochis, et al. 2,200 square feet for right of way purposes. Offer of $25 approved by Mr. McIver May 24, 1960.

Lake Road-Oregon City Section of the Cascade Secondary Highway

R-29161 - Henry A. Schmidt, et al. 1,050 square feet for right of way purposes. Offer of $200 approved by Mr. McIver May 12, 1960.

Enterprise-Lewiston Highway

R-30939 - Bonita Riley, et al. 13.95 acres for material source. Offer of $360 approved by Mr. McIver May 13, 1960.

Rock Creek Section of the Clackamas Highway

R-30936 - Jacob A. Sieben, et ux. 0.26 acre for right of way purposes. Offer of $200 approved by Mr. McIver May 24, 1960.

R-31078 - Blasdel G. Smith, et al. 0.1 acre for right of way purposes. Offer of $130 approved by Mr. McIver May 27, 1960.

North Portland Harbor-North Russell Street Section of the Pacific Highway

R-30533 - Manuel Thorsell, et al. 4,650 square feet for right of way purposes. Offer of $10,700 approved by Mr. McIver April 27, 1960.

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-29588 - Ben Gardner, et ux. 6.12 acres for right of way purposes. Offer of $2,750 approved by Mr. McIver April 27, 1960.

East Bank Freeway Section of the Pacific Highway

R-30584 - Elmer A. Flowers, et al. 825 square feet for right of way purposes. Offer of $3,750 approved by Mr. McIver May 4, 1960.

R-28245 - M. E. Paget, et al. 2,500 square feet for right of way purposes. Offer of $3,500 approved by Mr. McIver April 27, 1960.

A written report was presented by the Chief Counsel concerning orders which have been issued by the Public Utility Commissioner in which the State Highway Commission has been a party. The Commission approved the report which is summarized as follows:

PUX 337: Installation of signals at the intersection of Third and Main Streets in the City of Springfield at the crossing of the tracks of Southern Pacific Company in Lane County. The signals are located on the westbound traffic route of the McKenzie Highway, and the order was issued to provide distribution of costs; one-third by the Railroad, one-third by the City, and one-third by the State Highway Department with Southern Pacific obligated to maintain the signals.

PUX 345: Crown Zellerbach private road crossing of the Sunset Highway near Black Bridge in Clatsop County. This is an amendment to an order originally issued February 15, 1960, and corrects and adds several points not properly covered in the original order.

PUX 349: Grade crossing of the tracks of Southern Pacific Company on the Prairie County Road in Lane County, about two miles south of Junction City. This road is not under the jurisdiction of the State Highway Commission, and no objection will be made to the issuance of a proper order.

An Institution of Legal Proceedings by the Village Shops, Inc. against the State Highway Commission was reported by the Chief Counsel. He recalled that Village Shops, Inc. is located at the intersection of Murray Road with Sunset Highway in Washington County. The plaintiff claims that they were deprived of proper access to their property because of closure of Murray Road. The Chief Counsel recalled that Mr. W. T. Tripplett had appeared before the Commission at its meeting November 6, 1959, protesting the interchange as constructed.

At that time it was pointed out that plans for the interchange had been forwarded to Mr. Tripplett prior to construction, and that no objection had been made by him until after completion of the project. It seems that Mr. Tripplett interpreted the plans as providing for Murray Road to remain open to Sunset Highway. The Village Shops, Inc. is asking for the sum of $83,000 for damages, plus interest from July 20, 1959, but is not asking that Murray Road be opened. Proper action, concluded the Chief Counsel, will be taken to protect the State's interest.

The Chief Counsel reported that the Supreme Court had rendered a decision in the Stumbo case. He recalled briefly that the Stumbo's, whose property is located on the Pacific Highway in Douglas County, had sought to collect a very large amount of money for a small piece of right of way taken from their property in the construction of the highway. The Supreme Court, however, awarded them the sum of $125 and the case, he concluded, may be considered as closed.

The Commission gave attention to the matter of closing out the co-operative project between the City of Portland and the State, known as the Front Avenue Project. The Chief Counsel explained that the history of this dated back to an agreement dated July 24, 1941, supplemented by an agreement dated September 11, 1944. He recommended adoption of the auditor's report, including execution of a deed to the City of Portland and acceptance of a deed from the City in order to place all property acquired for the project--as shown by the auditor's report--in undivided ownership; 60 per cent, City; 40 per cent, State. The sum of $13,415.20 is stipulated as the full amount due the State from the City of Portland as of the date of the audit. Remaining surplus property is to be disposed of in accordance with the mutual desire of the City and State with appropriate sharing of net income. He further recommended that permanent construction easements remain as presently held, and that an agreement with the City of Portland be extended for a period of five years for the use of a parcel of land occupied by the Chamber of Commerce Information Center. The Commission approved the settlement as presented by the Chief Counsel.

The Commission gave attention to an action taken at the March 10, 1960 meeting authorizing issuance of special permits to Southern Pacific Company and Pacific Motor Trucking Company as self-insurers for movement of vehicles on State highways. The Chief Counsel explained that the proposed amending action is to allow the companies mentioned to file a certificate of insurance with the Permit Division rather than to file a certificate with each application for each individual permit. Upon his favorable recommendation the Commission approved the filing of a blanket certificate of insurance.

A report was presented by the Chief Counsel concerning a claim filed by Mr. Edward Breitenstein for injuries suffered by him when a combine he was operating turned over on the Silver Falls Highway near the Town of Shaw. The Chief Counsel pointed out that the accident occurred July 22, 1959, allegedly caused by a hole in the shoulder

hidden by deep grass. An investigation indicated that there was no evidence of negligence by employees of the Highway, and he recommended that the claim be rejected. The Commission rejected the claim.

The Chief Counsel presented a claim submitted by D. E. Turnidge in the amount of $199.60 for damage to seven lengths of aluminum pipe. Mr. Turnidge, he remarked, had secured a permit for 14-foot vertical clearance. While hauling the irrigation pipe at the junction of the Columbia River Highway and the Mt. Hood Highway near Hood River in Hood River County, he ran into a traffic sign cable ove the highway which had sagged below the 14-foot clearance. The sag in the cable, he continued, had been caused by a vehicle striking one of the anchor poles a very short time prior to Mr. Turnidge's accident. The Commission accepted his recommendation that the claim be paid.

A recommendation was made by the Chief Counsel to allow step increases for all members of the Legal staff who are entitled to the increases, with the exception of Leonard Pearlman, for whom he recommended a two-step increase. He explained that completion of the action is subject to the approval of the Attorney General, and when the Attorney General has given his consent, he will present to the Commission the names of the attorneys to receive the increase and the amounts. The Commission approved the matter as presented by the Chief Counsel.

Attention was given to a letter written by Mr. John C. Caldwell concerning possible removal of the wreck of the Peter Iredale from the ocean shore in Fort Stevens State Park in Clatsop County. The Chief Counsel said that a Mr. Hendricks has made a claim as owner of the Peter Iredale, and intends to request that a permit be issued to him for the dismantling and removal of the vessel. The Chief Counsel also pointed out that because of the length of time since the ship was wrecked and the location of the wreck, the State might well contest the ownership of the vessel. The Engineer observed that there would probably be a great number of protests from local people if any attempt is made to remove the ship. The Parks Superintendent mentioned that the old vessel is a great point of public interest and many people visit the Park in order to see the wrecked ship. The Commission instructed that Mr. Caldwell be advised that the matter is being investigated.

The Engineer reported that he had made awards of contracts referred to him to award when certain conditions had been fulfilled. 3a
These conditions, he stated, have been taken care of, and the Commission confirmed his award of the following contracts:

(See following page for award of contracts.)

(1) Grading and paving S. E. Lawrence Street in Gresham, Multnomah County. Bids received May 10, 1960. Contract awarded May 13, 1960 to Oregon Asphaltic Paving Company, Portland, low bidder.

(2) Grading and oiling on the Ochoco Jct. - Howard School Section of the Ochoco Ranger Station Road, Crook County. Bids received April 21, 1960. Contract awarded May 17, 1960 to Stanley Wilt, Corvallis, low bidder.

(3) Construction of the John Day River (Twickenham) Bridge, Wheeler County. Bids received April 21, 1960. Contract awarded May 17, 1960 to Walder & Kenworthy, Portland, low bidder.

(4) Grading and paving on the Chemawa Road - Salem Section of the North River Road, Marion County. Bids received April 21, 1960 to Salem Road and Driveway Company, Salem, low bidder.

The placing of reduced load limits on portions of State highways was reported by the Engineer. He said that due to recent thawing and removal of snow, the oiled surface on these highways is weak, and until the road has had time to dry reduced load limits have been placed allowing 11,000 pounds gross on any single axle and 20,000 pounds gross on any set of tandem axles. The Commission approved the reduced load limits on the following sections of State highways:

(1) Crater Lake-North Highway No. 232, Mile Point 0.0 to Mile Point 3.81; effective 4:00 p.m., May 19, 1960.

(2) West Diamond Lake Highway No. 233 from Mile Point 8.0, two miles east of the Jackson County-Douglas County line, to Mile Point 23.89 at its junction with Crater Lake-North Highway; effective 4:00 p.m., May 19, 1960.

(3) East Diamond Lake Highway No. 425 over its entire length; effective 4:00 p.m., May 19, 1960.

Removal of a reduced load limit on the Weston-Elgin Highway No. 330 in Umatilla County was reported by the Engineer. He commented briefly that inspection of the highway revealed that on the section between Mile Point 8.00 and Mile Point 15.33 the highway was in condition to carry legal loads and the reduced load limit imposed March 28, 1960 was removed at 8:00 a.m., May 31, 1960. The Commission confirmed removal of the reduced load limit.

The establishment of reduced speed zones where construction is under way was reported by the Engineer. He explained that establishment of these construction speed zones is necessary for the protection of the traveling public. The Commission confirmed the following construction speed zones:

(1) 35 miles-per-hour on the Cascade Locks Section of the Columbia River Highway in Hood River County; effective 8:00 a.m., May 9, 1960, between Mile Point 43.0 and Mile Point 43.8.

(2) 35 miles-per-hour on the Pacific Highway at Rock Point in Jackson County between Mile Point 294.23 and Mile Point 294.67 for southbound lanes only; effective 8:30 a.m., May 12, 1960.

(3) 35 miles-per-hour on the Siuslaw Highway at Swamp Creek in Lane County, Mile Point 42.68; at Lake Creek, Mile Point 43.87; and Lake Creek Overflow structure at Mile Point 44.00; effective 8:00 a.m., May 23, 1960. The Engineer explained that these reduced speeds are necessary because of bridge construction.

Concerning an item of unfinished business appearing on the Secretary's summary, dated April 22, 1960, the Parks Superintendent reported that he had no additional information at this time concerning negotiations for acquisition of Sea Lion Caves on the Oregon Coast Highway in Lane County.

Consideration was given to construction of the Country Club Road-Coburg Road connection at the easterly end of the Ferry Street Bridge in Eugene, Lane County, including the installation of a median barrier across the intersection of Country Club Road and Coburg Road to eliminate left-hand turns. The Engineer stated that the project which had been requested by the City of Eugene had been carefully studied and an analysis indicates a need for the improvement. He explained that the portion on the westerly side of the Ferry Street Bridge is to be built entirely by the State at a total estimated cost of $91,500 for a right of way, grading, and paving. On the easterly side of the Ferry Street Bridge, the right of way is to be contributed and the grading done by Lane County; the cost to the State for surfacing only, he estimated at $13,000. The Bureau of Public Roads local office has indicated it would participate in the project from urban funds, as it would remove an intolerable condition from a highway on the Federal-Aid Secondary System. Based on his favorable recommendation, the Commission approved the project as presented.

At the Highway Commission meeting on March 11, 1960, the Engineer recalled, the Commission had approved a State construction program in the amount of $2,564,000. Due to the fact that very favorable bids had been received for this work, there has been an underrun of $375,000 in the estimated cost of contracts. He recommended that additional work be performed consisting principally of 1½-inch asphaltic concrete resurfacing on weak sections of highways. The Commission approved for contracting the following projects recommended by the Engineer:

The Dalles-California Highway:	
Lava Butte-Lava Caves	$ 75,000
Sunset Highway:	
Quartz Creek-Tillamook County Line	165,000
Redwood Highway:	
Summit Hayes Hill-Sauers Flat	135,000
	$ 375,000

In discussing proposed highway improvements suggested by the Engineer, Chairman McIver mentioned the need for constructing additional climbing lanes on the Sunset Highway for eastbound traffic. The Engineer was instructed to investigate the matter.

The Engineer also reported that bids which had been received on special City allotment projects were running below estimated costs, and it appears that at least one more project should be approved for the 1960 program. He suggested a project in the City of Enterprise which had been requested by the City on an intersection of Third Street, estimated to cost $3,000. Although it is a worthy project, because of the small size of the job it had not been recommended for approval when other projects were considered. However, the State now has a contractor doing paving on the highway through Enterprise which should make it possible to obtain a satisfactory bid on the City project. The Commission approved the project for the City of Enterprise as outlined by the Engineer.

Acquisition of additional right of way on Barbur Boulevard in Portland from Hamilton Street to Slavin Road was recommended by the Engineer. Existing right of way is not sufficient for a third lane for southbound traffic, and it was his recommendation that sufficient right of way be acquired to provide for the third lane at an estimated cost of $30,000. The Commission approved his recommendation.

The Engineer also called attention to the great improvement in the accident record due to completion of the over-crossing of Barbur Boulevard for northbound traffic from the Beaverton-Hillsdale Highway. Accidents occurring on this section previous to the opening of the new section amounted to 65 accidents, compared to 2 accidents in a similar period of time after the new section was opened for use.

An amendment to Survey Resolution No. 208, adopted March 10, 1960, was requested by the Engineer. This resolution, he explained, covered the Cummings Hill-Fossil Section of the John Day Highway in Wheeler County. To avoid possible legal entanglements and to facilitate the handling of street closures through the City of Fossil, he recommended that Survey Resolution No. 208 be amended to declare the Cummings Hill-Fossil Section of the John Day Highway to be a throughway. The Commission approved the suggestion, and thereupon adopted a resolution marked Exhibit "G-1" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 2 and 3, 1960."

The Commission discussed with the Engineer several surveys which had been completed for reconstruction of sections of State highways. Action on these surveys, however, was deferred as delegations scheduled to appear on the following day wished to present their views concerning some of the proposed highway revisions. (See entry at end of second day for action on surveys.)

Requests from Gilliam, Polk, and Yamhill Counties for additional 1960-1961 Federal Aid County Road Secondary Projects were presented by the Engineer. He explained briefly that the projects have been investigated and are eligible for construction. On his favorable recommendation, the Commission approved the following projects:

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Funds
Gilliam	445	Shutler Road Section Oiling, 7.2 miles.	$ 37,000	1961
Polk	560	Davidson Bridge Section Grade and surface, 0.5 mile.	$ 27,000	1961
Yamhill	114	Tindle Creek Road-Willamina City Limits, Paving, 2.0 miles.	$ 51,000	1961
		TOTAL.....	$ 115,000	

SUMMARY BY FISCAL YEARS	1960	1961	Total
Available Funds	$ 3,900,000	$ 3,600,000	$ 7,500,000
Previously Approved	3,900,000	2,595,000	6,495,000
Unprogrammed Balance	$ --	$ 1,005,000	$ 1,005,000
Projects Proposed 6/2/60	--	115,000	115,000
Unprogrammed Balance	$ --	$ 890,000	$ 890,000

Attention was given to a letter signed by the Benton County Court and the Polk County Court agreeing to a transfer from Benton County to Polk County of 1961 FAS funds in the amount of $27,000 and a transfer from Polk County to Benton County of 1962 FAS funds totaling $27,000 when the 1962 funds become available. The Engineer explained that the transfer was arranged between the two counties so that Polk County could perform needed work on the Davidson Bridge and its approaches on FAS 560. He also pointed out that it had been explained to both counties that the State cannot guarantee the availability of funds for the fiscal year 1962 as these FAS funds are determined by Congressional action. The Engineer offered no objection to the transfer, and the Commission approved the matter as presented.

The City of Bend, the Engineer stated, has requested by resolution a change in the routing of The Dalles-California Highway through the City of Bend, using Third Street. The City also has agreed to the elimination of the existing route of The Dalles-California Highway in Bend from Greenwood Street northerly to the north City limits when the highway is re-routed along Third Street. The City has indicated its willingness to co-operate in the cost of this project in an amount equal to 25 per cent of the cost of right of way and construction between Franklin and Revere Streets, which unit has been estimated to cost $221,461. The Engineer requested authority to continue negotiations and to attempt to arrive at an agreement with the City of Bend and the Bureau of Public Roads with financing to be arranged later. The Commission granted the authority as requested.

The Engineer reported on the following extensions of time within which to complete highway contracts:

(1) Olson Electric Company, Contract No. 5532 for sign lighting on the Interstate Bridge across the Columbia River on the Pacific Highway; requested an extension of 136 days from December 31, 1959 to May 15, 1960 within which to complete the contract without assessment of liquidated damages. The Commission approved the Engineer's recommendation for an extension of time to May 15, 1960 without assessment of liquidated damages.

(2) Taller and Cooper, Inc., Contract No. 5468 for installation of Toll Collection System on the Interstate Bridge across the Columbia River at Portland; requested an extension of time to January 16, 1960 within which to complete the contract. The Commission approved the Engineer's recommendation for an extension of time as requested without assessment of liquidated damages.

The Engineer reported that Contract Nos. 5552, 5549, 5550, 5558, 5566, 5567, 5576, 5587, 5585, 5311, 5462, and 5610 for highway construction have been completed in accordance with requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution marked Exhibit "C," which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 2 and 3, 1960."

Expenditure of $32,500 was requested by the Engineer to landscape the interchange area of the Redwood and Pacific Highways in Grants Pass. He proposed that portions be planted in lawn and vine cover, and that a sprinkler system be installed to provide irrigation. The Commission approved the expenditure.

Authority was requested by the Engineer for an increase in project authorization in the sum of $21,000 on Contract No. 5335 for grading and paving the North Plains Interchange Section of the Sunset Highway in Washington County. He remarked that the overrun had been caused by rock with a heavy specific gravity, thus requiring more tonnage to construct the surfacing. Also, additional signing had been required. The Commission approved the increase.

Consideration was given to a request made by J. W. and Anne C. Basker for extension of an existing speed zone on the Pacific Highway south of Grants Pass in Josephine County. This request, the Engineer stated, was investigated and based on the facts disclosed he recommended that the following speed zones be established.

One-way southbound (Sixth Street) from the south city limits of Grants Pass (M. P. 279.30) to a point 50 feet west of Maple Lane (M. P. 279.79): 30 miles-per-hour.

One-way northbound (Seventh Street) from the south city limits of Grants Pass (M. P. 279.38N) to a point 50 feet west of Maple Lane (M. P. 279.76N): 35 miles-per-hour.

Two-way from a point 50 feet west of Maple Lane (M. P. 279.79 to a point 0.15 mile east of Mount Baldy Road (M. P. 281.30): 45 miles-per-hour 1/

1/ Except that between a point 500 feet west of Hamilton Lane (M. P. 280.55) and a point 500 feet east of Hamilton Lane (M. P. 280.75) the indicated

speed shall be 20 miles-per-hour during the hours of school crossings.

The Commission accepted the Engineer's recommendation and thereupon adopted a resolution relative thereto marked Exhibit "D-1" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Highway Commission Meeting of June 2 and 3, 1960."

Consideration was also given by the Commission to the Engineer's request to change an existing reduced speed zone on the Mt. Hood Highway in the community of Rhododendron in Clackamas County. The Engineer explained that about a year ago the highway in this section was reconstructed to a four-lane facility. However, the indicated speed was and still is 25 miles-per-hour. A traffic engineering investigation was conducted and although a 40 miles-per-hour speed zone would normally be recommended for this type of highway under similar conditions, because of an adverse accident record he recommended that a 35 miles-per-hour speed zone be established between a point 0.09 mile east of the Zigzag River (M. P. 43.90) and a point 100 feet east of Vine Maple Road (M. P. 44.41). The Commission accepted the Engineer's recommendation and thereupon adopted a resolution relative thereto marked Exhibit "D-2" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Highway Commission Meeting of June 2 and 3, 1960."

The Engineer recalled that on November 8, 1949, a 20 miles-per-hour speed zone had been established at the bridge over the Coast Fork of the Willamette River on the Willamette Highway in Lane County. The bridge at that time was in poor condition; however, it has been replaced and the reduced speed signs were removed several years ago, but the 20 miles-per-hour speed zone action has not been rescinded. The Commission accepted his recommendation that Speed Zone Resolution No. 34 establishing the 20 miles-per-hour speed zone at this location be rescinded and thereupon adopted a resolution relative thereto marked Exhibit "D-3" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Highway Commission Meeting of June 2 and 3, 1960."

The Commission considered a recommendation made by the Engineer that shoulder parking be prohibited on the Salmon River Highway near Fort Hill in Polk County. He explained that at this point there is a four-way intersection with three business establishments in one quadrant. Patrons often park on the highway shoulders and restrict sight distance for drivers wishing to enter the highway from the county road. He recommended that shoulder parking be prohibited on both sides of the Salmon River Highway between a point 100 feet west of the county road (M. P. 22.58) and a point 300 feet east of the county road (M. P. 22.66). The Commission approved his recommendation and thereupon adopted a resolution relative thereto marked Exhibit "F-1" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Highway Commission Meeting of June 2 and 3, 1960."

The Commission also considered a recommendation made by the Engineer that parking be prohibited on the easterly side of the newly constructed northbound leg of the Pacific Highway south of Grants Pass in Josephine County. He explained that this is at a transition point between a two-lane undivided and a four-lane divided highway. The northbound traffic traverses a curve, and parking on the inside of the curve constitutes a hazard in that a driver maneuvering in to or out of a parking stall has difficulty in seeing approaching traffic. He recommended that parking be prohibited on the northerly side of the Pacific Highway (South Seventh Street) between a point 250 feet west of Maple Lane (M. P. 279.72N) and Maple Lane (M. P. 279.80). The Commission approved his recommendation and thereupon adopted a resolution relative thereto marked Exhibit "F-2" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Highway Commission Meeting of June 2 and 3, 1960."

Attention was given to a revised Abandonment Agreement with Union County covering the old section of the Wallowa Lake Highway between Rhinehart and Elgin. The Engineer explained that a previous agreement had been approved by the Commission on September 24, 1959. However, because of a change in plans for this section of highway, it appears advisable to retain a portion of the old highway at the southerly end of the section to provide access to a quarry. Upon his favorable recommendation, the Commission approved the revised agreement.

The Commission also gave attention to a proposed Abandonment Agreement with Umatilla County and the City of Hermiston concerning the disposition of the old Hermiston-Hinkle Section of the Hermiston Secondary Highway No. 333 when the new section is constructed and open to public travel. The Umatilla County Court, the Engineer stated, has agreed to take back as a county road the existing section when it is replaced by new construction. The City of Hermiston has also agreed to take over and maintain as a city street the section of the existing highway on Hermiston Avenue between Butter Creek Road and a junction with the Umatilla-Stanfield Highway. The Commission approved the agreement.

The Engineer also presented for the Commission's consideration a proposed Abandonment Agreement with Tillamook County concerning disposition of the old portion of the Oregon Coast Highway between Garibaldi and Bay City. The County, he stated, has agreed to take over and maintain the old section as a county road when construction on the new section is completed and opened to public travel. The Commission approved the agreement.

The Engineer requested authority to attend a meeting of the Executive Committee of the American Association of State Highway Officials in Portland, Maine, June 27 and 28, 1960, at an estimated cost of $312.50. The Commission approved the out-of-state travel.

Consideration was given to a request from the Recruiting Department of the U. S. Navy for permission to erect a recruiting sign on the westerly side of the Rogue River Highway No. 60 at the southerly entrance to Grants Pass. The Engineer explained that the sign message and location have been approved, and he recommended that a permit be granted to install a sign at Highway Engineer's Station 1212+00. The Commission accepted his recommendation.

Consideration was also given to a request from the U. S. Forest Service to place an informational sign at the Blue River Ranger Station on the McKenzie Highway in Lane County. The proposed sign, the Engineer stated, is of attractive design, made of rustic cedar. The location of the sign and its message have been approved, and he recommended that a permit be granted for its installation. The Commission approved the installation.

The Engineer reported that considerable difficulty has been experienced at the intersection of Water Street and James Avenue in the City of Silverton, on the Hillsboro-Silverton Highway in Marion County, because of a conflict between vehicles making a through movement at this intersection where the Hillsboro-Silverton Highway makes a right-angle turn. The City of Silverton has asked that a "Stop" sign and "Right Turn Permitted Without Stopping" sign be installed pertaining to traffic entering the intersection from the east. The request, he stated, is valid, and to accomplish it he recommended that the Through Stop Highway Resolution enacted April 27, 1943 be amended regarding the Hillsboro-Silverton Highway No. 140, to contain the following exception: "Westbound traffic on the Hillsboro-Silverton Highway No. 140, Water Street, shall be required to stop before entering the James Avenue intersection (M. P. 51.58), except that the right turn from east to north shall be permitted without stopping." The Commission accepted the recommendation by adopting a resolution relative thereto marked Exhibit "H" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Highway Commission Meeting of June 2 and 3, 1960."

A supplemental agreement with Southern Pacific Company was considered, extending to March 31, 1961 a previous agreement which granted permission to the State to make test holes for foundation exploration on the railroad company's property along the route of the Pacific Interstate Highway on the east bank of the Willamette River in the City of Portland in Multnomah County. The Engineer stated briefly that it will not be possible to complete the exploration work before the expiration of the existing agreement which expires on June 30, 1960. His recommendation that the agreement be extended was approved by the Commission.

A resolution was presented by the Engineer redesignating portions of State highways in and near the City of Klamath Falls in Klamath County. He remarked that the resolution eliminates portions

of the old route of The Dalles-California and Lake of the Woods Highways, and extends the Klamath Falls-Malin and Klamath Falls-Lakeview Highways to integrate the highway system with the westside section of The Dalles-California Highway completed in the fall of 1959. The City officials of Klamath Falls and the Klamath County Court, he added, have consented to these changes and he recommended that they be approved by the Commission. The Commission accepted his recommendation and thereupon adopted a resolution relative thereto marked Exhibit "I" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Highway Commission Meeting of June 2 and 3, 1960."

The Commission accepted the Secretary's report on papers signed in behalf of the Commission during the period from April 18, 1960 through May 26, 1960.

The date for the next regular Highway Commission meeting was confirmed for July 7 and 8, 1960, in the Conference Room of the State Highway Building in Salem. A tentative date of August 18 and 19 was set for the following meeting. Commissioner Jackson indicated that he would attend the opening of bids in Salem on June 30, and Commissioner McIver stated that he intended to be present at the opening of bids in Salem on July 28.

The removal of restrictions on log hauling over a part of the West Diamond Lake Secondary Highway was brought up by the Engineer. He pointed out that a section consisting of 5.3 miles had been reconstructed and completed in the fall of 1959. Because of the newly constructed section he recommended that the restriction against log hauling be revised to permit the hauling of full legal loads from Mile Point 13.3 at the southerly end of the reconstructed section to the junction with the Crater Lake Highway near Union Creek. He also recommended that the section over which the hauling of full legal loads would be prohibited would extend from Mile Point 13.3 to the junction with the Crater Lake-North Highway. He also stated that a request had been received from the U. S. Forest Service to use $3\frac{1}{2}$ miles of the unreconstructed section above Mile Point 13.3 for the hauling of salvage and blowdown timber. Specifically, the Forest Service has requested that permits be issued for the period from July 15 through September 15 for the hauling of loads limited to 18,000-pound single axle and 32,000-pound tandem axle weights between Mile Point 16.8 and Mile Point 13.3. He recommended that the request be granted with the added provision that the District Maintenance Superintendent be authorized to suspend hauling if such hauling is causing damage to the highway. The Commission approved the recommendations.

Consideration was also given to a request from Mr. Wm. Wampler to haul logs over the East Diamond Lake Highway. The Engineer recalled

that in August of 1959 the Commission had authorized permits for hauling of logs over the easterly 11½-mile section of the East Diamond Lake Highway. However, the permits were not used. In view of the U. S. Forest Service request for permits to haul limited loads over a section of the West Diamond Lake Highway, and the Commission's action in granting permits to haul logs on limited basis over the East Diamond Lake Highway in 1959, he recommended that authority be granted to issue permits to Mr. Wampler's contract haulers, limiting tandem axle weights to 32,000 pounds, until October 15, unless observation indicates that damage is being done to the highway, in which case authority would be given the District Maintenance Superintendent to immediately suspend hauling. Also, if no appreciable damage is done, an extension to a later date could be considered--weather permitting. The Commission deferred action pending the appearance of Mr. Wampler on the following day. (When Mr. Wampler appeared, he was advised to make application for a permit to haul logs, which would be granted as soon as road conditions would permit.)

Mr. Carl W. Jordan, Director of Travel and Information Division, presented a progress report on operations of his Division since the first of the year. Copies were presented to the Commission. Later in the day Chairman McIver complimented Mr. Jordan on the report and requested that a similar report be rendered to the Commission each month.

The Engineer presented for the Commission's consideration a quitclaim deed to Southern Pacific Company for a parcel of land containing 1.13 acres on the Goshen-Divide Section of the Pacific Highway in Lane County. He explained that when condemnation action had been filed against Alsea Hawley for right of way and Southern Pacific Company wye relocation in 1955, the State acquired an easement for the construction and maintenance of a drainage facility to drain the relocated wye. This was beyond the agreement with Southern Pacific Company of October, 1954, and was overlooked in deeding the new wye to the Southern Pacific Company. The Southern Pacific Company has agreed to accept a $1 quitclaim deed and will continue to maintain the drainage ditch on said easement. The Commission approved the deed.

A proposed agreement with Douglas County was discussed, covering construction of the Briggs Camp-Bear Creek Section of the North Umpqua Road in Douglas County. The Engineer advised that under the terms of the agreement, the State is to prepare plans and specifications and supervise construction. All costs, including construction and engineering, are to be borne by Douglas County, who will deposit with the State the estimated amount prior to award of the contract. Upon his favorable recommendation, the Commission approved the proposed arrangement.

The Commission discussed with the Engineer matters to be presented by delegations scheduled to appear on the following day. The Engineer explained these matters in some detail, but no action was taken at this time prior to appearance of the delegations. The meeting was recessed at 11:45 a.m. and reconvened at 1:00 p.m. in the same room with the same persons present and participating.

The Engineer discussed bids received on June 1 for highway projects, and made recommendations to the Commission concerning award of contracts. The Commission signed contracts, agreements, and other papers. At 2:00 p.m. the Commission announced award of contracts as follows:

BIDS RECEIVED IN SALEM ON JUNE 1, 1960

"Construction of facilities at Farewell Bend State Park in Baker County. The Commission awarded the contract to the low bidder, Edwin Thompson, Stayton, at $15,997.50.

"Traffic signals on the Corvallis-Newport Highway (US20) at Country Club Way in Corvallis, Benton County. The Commission awarded the contract to the low bidder, Steeck Electric Company, Medford, at $10,900.

"Grading and paving on the Fifth Street-S. City Limits (Bandon) Section of the Oregon Coast Highway in Coos County. The Commission elected to accept the low bid under Alternate "A" of Woodward & Son-Barklow, Coquille, in the sum of $57,809.75 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Bandon is received and the sum of $19,300 is deposited by the City.

"Stone base and paving in Eastside ("F" Street) in Coos County. The Commission elected to accept the low bid of Robert Angell, Eastside, in the sum of $17,907, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Eastside is received and the sum of $850 is deposited by the City.

"Oiling project on six county roads in the vicinity of Redmond, Sisters, Bend and Tumalo, in Deschutes County. The Commission elected to accept the low bid of Babler Bros., Inc., Portland, in the sum of $92,815, and the State Highway Engineer is directed to award the contract to said bidder as soon as the approval of Deschutes County is received and the sum of $45,500 is deposited by the County.

"Stone base and paving in Winston (Suksdorf Street and Grape Avenue) in Douglas County. The Commission elected to accept the low bid of J. C. Compton Company, McMinnville, in the sum of $23,750.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Winston is received and the sum of $7,000 is deposited by the City.

"Oiling project on Buckhorn and Wehrli Canyon Roads in Gilliam County. The Commission elected to accept the low bid of J. C. Compton Company, McMinnville, in the sum of $15,828 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Gilliam County is received and the sum of $3,650 is deposited by the County.

"Grading, oiling, and structure on the Hanley Ranch-Forest Boundary Section of the Lake of the Woods Highway in Jackson County. The Commission elected to accept the low bid of C. R. O'Neil, Creswell, in the sum of $578,447.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grade widening on the Trail-McLeod Section of the Crater Lake Highway in Jackson County. The Commission elected to accept the low bid of Angell Bros., Portland, in the sum of $26,980 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Stone base, paving, four structures and signing on the Grants Pass-Evans Creek Section of the Pacific Highway in Josephine and Jackson Counties. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Company, Medford, at $2,388,635.50.

"Construction on the Army, Thorne and Little River Bridges on Cottage Grove-Black Butte County Road, over coast fork of the Willamette River in Lane County. Low bid was submitted by Hamilton & Thoms, Inc., Eugene, in the amount of $115,260. However, as this is a county project, all bids were referred to Lane County for award.

"Signing, illumination and traffic signal installation on the McKenzie River-Willamette River Section of the Pacific Highway in Lane County. The Commission awarded the contract to the low bidder, Trowbridge Electric, Roseburg, at $136,676.

"Construction of the Bryant Park Bridge in Linn County. Low bid was submitted by James F. Turner, Corvallis, in the amount of $55,083. However, as this is a city project, all bids were referred to the City of Albany for award.

"Grading, three bridges and power line relocation; also, materials in stockpile, on the Dodson-Bonneville Section of the Columbia River Highway in Multnomah County. The Commission elected to accept the low bid of Gibbons and Reed Company, Portland, in the sum of $1,758,023 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading on 136th Ave. -181st Ave. Section of N.E. Glisan Street in Multnomah County. The Commission elected to accept the low bid of John L. Jersey, Inc., Portland, in the sum of $253,510.25 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $53,300 is deposited by the County.

"Stone base and oiling on the West Unit, Washington State Line-Umapine Section of the Umapine-State Line County Road in Umatilla County. The Commission elected to accept the low bid of J. C. Compton Company, McMinnville, in the sum of $68,475.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Umatilla County is received and the sum of $15,600 is deposited by the County.

"Grading and oiling on the Woodell Lane Section of the Woodell Lane Road in Union County. The Commission elected to accept the low bid of Vernie Jarl, Gresham, in the sum of $113,086.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Union County is received and the sum of $25,500 is deposited by the County.

"Grading and paving in the City of Cornelius on N. W. First Avenue in Washington County. The Commission elected to accept the low bid of M & M Paving Company, Cornelius, in the sum of $20,883.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Cornelius is received and the sum of $4,350 is deposited by the City.

"Grading and oiling on the Cummings Pass-Fossil Section of the John Day Highway in Wheeler County. As the low bidder, Vernie Jarl, Gresham, qualified his bid, the Commission elected to accept the second low bid of Durbin Brothers, Eugene, in the sum of $442,463.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of the Palmer Creek Bridge in Yamhill County. The Commission elected to accept the low bid of Hamilton & Thoms, Inc., Eugene, in the sum of $69,788 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Yamhill County is received and the sum of $15,700 is deposited by the County.

"Channel dredging of the Astoria Ferry Channel in Clatsop County. The Commission awarded the contract to the low bidder, Port of Astoria, Astoria, at $21,250."

The meeting was adjourned at 2:05 p.m. to be reconvened at 10:00 a.m. on the following day.

Salem, Oregon
June 3, 1960

The Oregon State Highway Commission reconvened at 10:00 a.m. in Room 419, State Highway Building. The following persons were present:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
Walter T. Wright, Right of Way Engineer
Carl Jordan, Director of Travel Information
Floyd Query, Secretary

Mr. James F. Busch, President of the Milton-Freewater Chamber of Commerce, headed a delegation who appeared before the Commission regarding the relocation of ORE Route 11 between Blue Mountain and Athena. Also present were Frank Clark, Acting Mayor of Milton-Freewater and A. J. Beard, Chairman of the Transportation Committee of the Milton-Freewater Chamber of Commerce. Mr. Busch read a prepared statement in which he pointed out that the existing highway from Blue Mountain Station to Athena is now the poorest section of any portion of ORE 11. Several factors responsible for increasing traffic on this highway section, he continued, are (1) The improvement of the Tollgate Highway; (2) Changes in pea vining methods; (3) Lamb-Weston Corporation has increased their plant capacity during 1959; (4) Cattle, hog, and sheep feeding operations are increasing greatly; (5) Expected completion of the Lewis and Clark Highway through Idaho and Montana; (6) Development of the Port of Walla Walla and future completion of the John Day Dam; (7) Tourists attracted to the skiing and other sports in the Tollgate area; and (8) The fruit industry is beginning to produce again. He told of the vital part Lamb-Weston plays in the local economy and that satisfactory ingress and egress from the new highway should be made a part of the project. He concluded his presentation by requesting the immediate construction of the section between Blue Mountain Station and Athena, and stated that they would support the route selected by the Commission. Mr. Clark advised that although Milton-Freewater has been in complete accord with the Commission's 1960 survey, before expressing their approval of the route they waited until satisfactory access had been provided to Weston and the Lamb-Weston plant. Mr. Beard presented a number of petitions from the Milton-Freewater Chamber of Commerce requesting completion as soon as possible of the Blue Mountain-Athena Section of ORE 11 in accordance with the 1960 survey and adequate access roads to Weston and its industries. Chairman McIver thanked the group for their presentation and advised them that their request will be given consideration.

The Hood River County Chamber of Commerce appeared before the Commission regarding the improvement of the Mt. Hood Highway (ORE 35) between Parkdale and Hood River. Mr. George D. Bartch, Manager of the Hood River Chamber of Commerce, who was spokesman for the group, introduced the following members of his delegation: L. Sterling Hansel, President of Hansel Lumber Company; Arch Lester, Vice-President of Lester Auto Freight; and Walter Wells, Sr., Parner Walter Wells & Sons; all members of the Chamber of Commerce Roads and Highway Committee, and all from Hood River. Mr. Bartch read a letter from the Hood River County Chamber of Commerce stating the following position: (1) The $500,000 to $600,000 allocated for construction on ORE Route 35 be committed to the east side portion of the Mt. Hood Highway, with attention first being directed to that portion of the highway from Odell cut-off to the Y Inn; (2) The 1960 Hood River County Spring and Summer Highway Program be expedited to the fullest possible extent in order that the realignment of Fykes Corner and the removal of overhead clearance restrictions at Whiskey Creek undercrossing be completed prior to the fall harvest season; and (3) The State and County co-operate to accomplish at the earliest possible date, improvements of the Hood River (Dee) Secondary Highway and the protection of right of way for future development of a new westside route through the center of the Valley. He expressed appreciation for the work now underway on Highway 35. The above position, he continued, has been endorsed by more than 37 individuals and organizations of Hood River County, and is vitally necessary to meet the transportation requirements of existing industries and tourist travel. Chairman McIver advised the delegation that the Commission appreciates the condition of the road, and has a portion of this highway now under consideration, which will probably be discussed later in the day.

Representatives from the Bend Chamber of Commerce appeared before the Commission regarding improvements on Highway 20 between Bend and Horse Ridge and between Tumalo and Sisters. Mr. Frank Loggan, Deschutes County Commissioner, acted as spokesman and introduced the following members of the delegation: Judge D. L. Penhollow, Deschutes County Judge; Fred Shepard, Deschutes County Commissioner; Fred Meyers, Bill Niskanen, and B. A. Stover, all from the Bend Chamber of Commerce, Glenn Cushman, Editor of the Bend Bulletin; and Mrs. D. L. Penhollow; all from Bend; and Wilford Jossey, Portland. Judge Penhollow requested that the Horse Ridge-Bend Section of the Central Oregon Highway be considered as the number one priority of all highway needs in central Oregon, and that it be constructed on new alignment as early as possible. This section, he continued, is substandard, narrow, and winding, with a high crown, and during the winter months is expensive to keep sanded and clear of snow. Their second priority, he added, is for the improvement of the Tumalo-Sisters Section of US20. With the completion of both of these sections, he was of the opinion that US20 from the Cascades to the Idaho border would become one of the major highways in Oregon. Third priority

on their list, he stated, is for the improvement of the Shaniko Junction-Kent Section of US97, which project, he pointed out, should be completed in time for the opening of the bridge across the Columbia River at Biggs. Chairman McIver thanked the delegation for bringing these projects to the Commission's attention.

Mr. Larry Williams, Grant County Stock Growers, Canyon City, acted as spokesman for a delegation from Grant County who appeared before the Commission regarding improvement of US395, US26, and ORE 19 in Grant County. Also present were Al Reinertson, Secretary of the Grant County Chamber of Commerce, John Day; Leonard Carter, Grant County Farm Bureau, Long Creek; Homer Damon, Grant County Chamber of Commerce, Mt. Vernon; and Virgil P.quet, Grant County Stock Growers, Long Creek. Mr. Williams stated that they represent the Grant County Road Liason Committee, which committee is a unified group composed of the various chambers of commerce and other organizations and groups in Grant County interested in highways. He pointed out that Grant County is a livestock and timber area, and the natural place to buy all their commodities is in western or central Oregon; however, because of lack of good highways, they are forced away from the western markets and must secure their grain and other products from Boise or the Snake River Valley. He told of the great need for adequate highways in Grant County since there are no railroads or airlines serving the area. Mr. Reinertson advised that they are requesting no specific project, but would leave that matter to the Commission's discretion. Brogan Hill on US19, he continued, has caused great concern to the trucking industry. He also mentioned a substandard section on US26 between Mt. Vernon and Dayville. He concluded his presentation by thanking the Commission for work done in the John Day Fossil Beds Park, and mentioned the critical need for a park between Mt. Vernon and John Day. Mr. Piquet, who represented the Grant County stockgrowers, requested that the Commission give consideration to improvements on ORE 19 so that large trucks and trailers hauling heavy equipment, cattle, and grain can safely traverse Highway 19. Mr. Carter stated that the people living along US395 are in the same position as those using the highway along the John Day River; however, he did not wish to request improvement of US395 until ORE 19 is improved. Chairman McIver thanked the delegation for presenting the matter to the Commission.

Mr. William P. Wampler, Chiloquin, Logger; Wm. Sebers, Portland, President of Allied Truck, Inc; and Bill Wiese, Chiloquin, Bookkeeper, appeared before the Commission regarding the hauling of logs during the summer season over the East Diamond Lake Secondary Highway (ORE 230). Mr. Sebers, who was spokesman for the group, stated that he is a contract hauler for Mr. Wampler. In past years, he pointed out, loggers have hauled over a private road which parallels ORE 230 from the Diamond Lake area to US97; however, the use of this road is being discontinued as it is impractical to maintain it. He requested permission to use the East Diamond Lake Highway

under certain load and speed restrictions. It is their request, he continued, to haul until October or possibly as late as December over ORE 230 from Rock Creek Summit to US97. Chairman McIver advised the delegation to submit an application to the Permit Division for a permit to haul over this highway, and in all probability the permit would be granted with certain restrictions. Weather conditions, he continued, of course, would determine the length of the permit. The Engineer pointed out that the permit probably would be granted as soon as the road is dry enough to allow hauling.

Mr. Harold Schnitzer, Portland, Vice-President of Claremont Investment, and W. R. Nichols, Portland, and Mr. and Mrs. A. B. Webb, Beaverton, appeared before the Commission regarding the construction of the connection between the Sunset Highway and the Baldock Freeway. Mr. Schnitzer stated that his corporation owns property in Beaverton which will be taken by construction of the proposed freeway to the east of Beaverton. This location, he added, is a radical change from the proposed link shown in Technical Report No. 55-5 of 1955 wherein it was stated that the highway would by-pass Beaverton to the west. He contended that publication of Technical Report 55-5 put the public on notice regarding the location of the highway so developers could plan for the future. He recognized that certain modifications to the 1955 line might be necessary, even to moving it 1,000 feet; however, when the line was moved several miles, the developments that have occurred since that report was published are hurt. He concluded by stating that it is their intention to seek every possible explanation and justification as to why that particular highway link was moved so far to the east.

Representatives from St. Bartholomew's Episcopal Church, Beaverton, also appeared before the Commission concerning the same highway connection as it passes through Beaverton. Mr. William Campbell headed the delegation and introduced the following: Mr. A. Skey and Reverend E. James Kingsley, Minister of St. Bartholomew's Church. Mr. Campbell advised that the church property consists of 10 acres of land, including part of the adjacent property they have under option, and of that 10 acres, about two-thirds of it will be taken in a crescent shape for the proposed highway, with the greatest amount being on high ground where future development is contemplated. He told of the difficulty they experienced in finding this location for their church, and pointed out the improvements they have made. The route as planned, he continued, will eliminate entirely their 112th Street access, and in all probability their parking lot will be taken, which will leave the Church without parking facilities or any possibility for future expansion. He urged the Commission to reconsider locating the route for this connection west of Beaverton. He requested that they be permitted to work with the engineers in an effort to determine if an adjustment could be made to the route, thereby allowing them to salvage their investment.

Mr. Scott E. Foster, Jr., Beaverton, representing the Beaverton Chamber of Commerce, appeared in support of the connection between the Sunset Highway and the Baldock Freeway. Appearing with Mr. Foster were Clayton Nyberg, Hillsboro, Washington County Commissioners, and Lawrence Dinneen, Beaverton Chamber of Commerce. Mr. Foster read from a prepared statement. In this statement he pointed out that since the time the first plea was made by the Beaverton Chamber of Commerce for an access road between the Baldock and Sunset Highways, several changes have occurred which indicate an even greater need for a major road in this area. The route selected by the engineers, he continued, fulfills the requirements for access through the area; however, they wish to see the highway built as a four-lane facility with more grade separations than in the original plans, particularly at Allen Avenue and Walker Road. He suggested that current planning include the future improvement of the road as funds can be made available. The Beaverton area Chamber of Commerce, as well as the City of Beaverton, Washington County Court, and other civic organizations, has given careful study to the acceptability of the route. Early construction was urged as a highway is needed to move traffic in and out of the area. The letter inside the front cover of Technical Report No. 55-5 of 1955, he pointed out, clearly states that this is a long-range tentative plan and is not intended as a firm route. He concluded by stating that the Beaverton Chamber of Commerce is wholeheartedly in favor of the Highway Department's planning and the location of the route. Mr. Nyberg stated that the majority of the County Court is in favor of the route as planned. He spoke of the need for the highway to expedite travel from the Sunset Highway to the Baldock Freeway for the 60,000 people concentrated in the area, and of the industrial development which needs transportation out of this congested valley. He concluded by complimenting the Commission and the engineers for their efforts. Chairman McIver thanked the groups for their presentations.

The Engineer brought up for Commission action the adoption of five surveys which have been completed, concerning the relocation of several sections of State highways. In each instance, he continued, careful engineering consideration has been given to the revised route in order to provide the best possible facility commensurate with the cost involved. Upon his favorable recommendation, the Commission approved the following surveys and thereupon adopted the attached resolutions relative thereto marked Exhibits "G-2" and "G-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 2 and 3, 1960":

(1) Parkdale Section of Mt. Hood Highway, Hood River County, Drawing No. 1R-5-1408. (See Exhibit "G-2.")

(2) Hermiston-Hinkle Section of Hermiston Highway, Umatilla County, Drawing No. 1R-5-1399. A public hearing was held on this project in Hermiston on April 19, 1960. (See Exhibit "G-2.")

(3) Athena-Blue Mountain Station Section of Oregon-Washington Highway, Umatilla County, Drawing No. 1R-3-1270. A public hearing was held on this project in Weston on March 23, 1960. (See Exhibit "G-2.")

(4) Sunset Highway-Pacific Highway Section of Beaverton-Tualatin Highway, Washington County, Drawing No. 1R-3-1273. A public hearing was held on this project in Beaverton on April 12, 1960. (See Exhibit "G-2.")

(5) Biggs-Thornberry Section of Sherman Highway, Sherman County, Drawing No. 1R-5-1416. (See Exhibit "G-3.")

Mr. Carl Jordan, Director of the Travel Information Division, presented a progress report concerning the Travel Division, in which he pointed out that the 1960 advertising program consisted of both color and black and white advertisements in magazines and newspapers, and radio and television advertising. He enumerated the number of booklets, maps, and folders printed for use during this year, as well as the number that has already been distributed. The Travel Division, he added, has been represented and has distributed Oregon literature at travel shows in various parts of the United States. This year, he stated, emphasis has been placed on the State's "Intra-State Program", commonly known as the "Forty Million For One Plus", which means that if every Oregon visitor had stayed one more day last year, Oregon would have had $40,000,000 more income. Meetings, he advised, have been held throughout the State with the various chambers of commerce and other promotion agencies. In addition, small leaflets telling about Oregon have been distributed to major companies for use in mailing to their out-of-state customers. The Commission complimented Mr. Jordan on his report, and authorized him to release copies of it to the press.

There being no further business to come before the Commission, Chairman McIver declared the meeting adjourned at 11:40 a.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
July 7, 1960

The Oregon State Highway Commission met in regular session at 10:00 a.m. in the Conference Room of the State Highway Building in Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information
Floyd Query, Secretary

The Commission approved the minutes of the special meeting held on May 10, 1960.

The State Parks Superintendent reported on the following park matters:

Request of Salem Planning Commission for State participation in the development of a Marine Park on the Willamette River, northerly from Salem: This request, the Parks Superintendent explained, envisions the acquisition and development as a State park of a 400-acre tract along the westerly bank of the Willamette River, adjoining the present City park composed of approximately fifty acres. It was his opinion that cost of acquiring the tract would be near one-half million dollars. One of the most important features of the park, he continued, would be facilities for boating, and for swimming when pollution of the river is abated. He pointed out that the park is in or very close to the City of Salem, and that patrons from outside the City and its suburbs would probably be not more than fifteen per cent of the total attendance. In view of these conditions, he recommended that the request be denied. The Commission deferred action on the matter pending appearance of a delegation on the following day. (When Mr. Emmett Rogers appeared in behalf of the park, the Commission made no comment.)

Negotiations for purchase of Sea Lion Caves along the Oregon Coast Highway: The Parks Superintendent stated that his report is not ready for this meeting, but he planned to present one at the next Commission meeting.

Proposed installation of a plaque in Owyhee Lake State Park in honor of Mr. V. W. McCormack: The State Parks Advisory Committee, the Parks Superintendent stated, feels that a plaque should be installed in the area near Cherry Creek, honoring Mr. McCormack as a former member of the Parks Advisory Committee. He presented the following wording for the plaque:

McCORMACK AREA

this area of Owyhee Lake State Park
is dedicated by the State of Oregon
to the memory of
V.W McCormack
for his outstanding contribution
to the conservation and development
of Oregon's recreational resources
as a member of the State Parks
Advisory Committee

The Commission approved the wording and authorized installation of the plaque.

Request from the City of Brookings to widen Parkview Drive through the southerly part of Harris Beach State Park in Curry County: This street, the Parks Superintendent explained, is only thirty feet wide and serves an area to the east which is building up quite rapidly. The City wishes to widen the right of way to sixty feet. The additional right of way he felt would not be harmful to the park, and he recommended that a strip thirty feet wide and 490 feet long on the northerly side of Parkview Drive, be deeded to the City at cost, which amounts to nineteen dollars. The Commission approved the transfer of the property.

Proposed allocation of funds to start a recreation study of all types of park areas throughout the State: The State Parks Advisory Committee, the Parks Superintendent stated, had thought that $25,000 should be expended during 1960 for this purpose. Due to the short length of time remaining in the year, it was his feeling that probably no more than $15,000 could be expended to good advantage, and he recommended that this amount be authorized to be secured from the capital outlay item in the 1960 Parks budget. Chairman McIver inquired if the amount of $25,000 would complete the study. The Parks Superintendent replied that it would probably take about $50,000. He also commented that the State of California had set up a fund of $300,000 for a similar study, and had investigated all phases of recreation, including matters relating to local as well as county and state interest.

Commissioner Jackson inquired if this study contemplates co-ordination of park interests represented by the U. S. Forest Service, the National Park Service, and the Bureau of Land Management. The Parks Superintendent replied that such action is contemplated in order to determine the over-all parks picture in the State. Commissioner Jackson stated that, in his opinion, the study should consider city and county needs, as well as state and federal government responsibilities, so that the study could clarify and designate the responsibility of each governmental agency. He also pointed out that the matter of parks and their development is very much before the public, and that a study of all the elements involved is an important matter. It was also his thought that the 1961 session of the Legislature may have questions as to park facilities in Oregon, and that such a study, if started soon, might provide some answers. Chairman McIver inquired of the Parks Superintendent as to what, in his opinion, the purpose of the study should be. The Parks Superintendent replied that it appears that the study should be to determine what the State Parks' future responsibility is in providing outdoor recreation, including the quantity and kind of areas required, in view of what would be provided by other agencies, in order that park needs may be taken care of on an over-all basis. Commissioner Fridley remarked that the study should do as much as possible to get the federal government to take full responsibility in government-owned land areas, particularly in view of the fact that a large portion of Oregon is controlled by the federal government. After some further discussion, the Commission approved the expenditure of $15,000 for a study of park facilities in 1960, which is to outline or define the responsibility of the state, the federal government, the counties, and the cities in the development of park recreational facilities. The Commission also requested that he present to them, as soon as possible, an outline of the procedure contemplated in setting up the study. The Engineer commented that by the time the $15,000 has been expended, everyone concerned will be in a much better position to determine the amount needed to complete the study and the details to be covered by it.

The Right of Way Engineer presented for consideration options (pages 1 through 74) secured for acquisition of real property that is needed for state highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960." The Right of Way Engineer also outlined briefly the status of right of way acquisition on several projects, including the Minnesota Freeway in Portland, Table Rock Road-12th Street Section, a section of the Pacific Highway in Medford, and the Hillsboro-Reedville Section.

The Property Manager's report covering sales of miscellaneous properties made since the last meeting, and a rental report showing terminations, new rentals and total receipts for the period from May 26 to June 29, 1960, was presented by the Right of Way Engineer. He also mentioned that during the period covered by the report, miscellaneous sales had been made in the amount of $14,986.50, and $9,726.70 had been received from rentals. The Commission accepted the report.

Attention was given to an indenture of access providing for a change in location of an access on the Reho property, File No. 24678, on the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway in Multnomah County. The Right of Way Engineer explained briefly that the change in access has been requested for the convenience of the property owners and for the safety of the traveling public, but no additional access is being granted. The Commission approved the indenture of access.

A proposed agreement with Mr. and Mrs. Burdette L. Dodge, Jr., File No. 14085, on the Ramsey Canyon-Crater Lake Highway Section of the Sams Valley Highway in Jackson County, was presented by the Right of Way Engineer. He outlined briefly that in the original settlement in 1947, it was agreed to provide a sleeve to accommodate a 14-inch irrigation pipe. As the placement of a sleeve sufficiently large to provide working room for repair of the irrigation pipe is not economical, he recommended that the State assume responsibility for maintenance of the irrigation pipe through the existing 24-inch sleeve. The Commission approved the agreement.

The Commission considered the matter of deeding to the City of Newport 0.35 acre of land to be used for a National Guard Armory site on the Oregon Coast Highway in Lincoln County. The Right of Way Engineer recalled that the property had been provided originally by the City without cost, and he recommended that the property be transferred back to them without charge as it is not needed for highway purposes. The Commission accepted his recommendation.

Authority was requested by the Right of Way Engineer to offer at public sale several parcels of property which are no longer required for highway purposes. Each parcel of property, he stated, has been carefully appraised to determine its value, and access has been allowed or denied in accord with departmental policy prevailing in the area in which the property is located. The Commission authorized public sale of the following parcels of property, and thereupon adopted resolutions marked Exhibits "B-1" through "B-8", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960":

(a) 0.07 acre of land from the former Hodgen property, File No. 23264, on the Northbound Route in Ashland Section of the Pacific Highway in Jackson County, for a minimum consideration of $2,000 and with one point of access to the Pacific Highway 25 feet in width and unrestricted as to use. See Exhibit "B-1."

(b) 0.1 acre of land from the former Sheehan property, File No. 23244, on the Northbound Route in Ashland Section of the Pacific Highway in Jackson County, for a minimum consideration of $1,250 and with two points of access to the Pacific Highway 25 feet in width and unrestricted as to use. See Exhibit "B-2."

(c) 0.13 acre of land from the former Sawyer property, File No. 23241, on the Northbound Route in Ashland Section of the Pacific Highway in Jackson County, for a minimum consideration of $1,000 and with one point of access to the Pacific Highway 25 feet in width and unrestricted as to use. See Exhibit "B-3."

(d) 0.11 acre of land from the former Collinson property, File No. 5514, on the Lombard-Killingsworth Street Section of N. E. Portland Highway in Multnomah County, for a minimum consideration of $1,000 and without access restriction. See Exhibit "B-4."

(e) 3.6 acres of land from the former Andrews property, File No. 17495, on the Baldock Freeway Section of the Pacific Highway in Washington County, for a minimum consideration of $540 without access to the Pacific Highway and subject to an advertising sign restriction.

(f) 69.3 acres of land from the former Harris property, File No. 24110, on the Valley Junction-Sheridan Section of the Salmon River Highway in Polk and Yamhill Counties, for a minimum consideration of $8,000, and with one point of access to the Salmon River Highway 25 feet in width and restricted to farm and residential use. See Exhibit "B-5."

(g) 11,784 square feet of land from the former Thomas property, File No. 21009, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County, for a minimum consideration of $7,500, without access to the Pacific Highway (the property has access to S. W. Pasadena Street), and subject to an advertising sign restriction. See Exhibit "B-6."

(h) 34,798 square feet of land from the former Bleich property, File No. 26360, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County, for a minimum consideration of $6,000, and with access to S. W. Taylors Ferry Road only and subject to an advertising sign restriction. See Exhibit "B-7."

(i) 0.12 acre of land from the former Smith property, File No. 26532, on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County, for a minimum consideration of $1,900, and with two points of access to the Tualatin Valley Highway 25 feet in width and unrestricted as to use. See Exhibit "B-8."

A "Grant of Access" to the Nunn-Maddock property, File No. 27832, on the Redwood Interchange Section of the Redwood Highway in Josephine County, was presented by the Right of Way Engineer. He explained that their property located on what was formerly known as the northbound lane of the relocated Pacific Highway, due to changes in highway designations, is located on what is now known as the northbound lane of the Rogue River Highway. The Grant of Access provides for a point of ingress and egress forty feet in width, unrestricted as to use. The Grant also contains a provision that the State may construct a frontage road at a future time, and the access at that time will be to the frontage road. Upon his favorable recommendation, the Commission approved the Grant of Access.

The Commission also considered a "Waiver of Restrictions of Access" removing access restrictions on four parcels of land, File Nos. 1785, 1801, 1809, and 1806, on the Florence-Glenada Section of the Oregon Coast Highway in Lane County. The Right of Way Engineer pointed out that the practice of granting access on excess parcels of property within the City of Florence had been somewhat inconsistent. To provide uniformity of treatment, he recommended that access restrictions be removed from these four parcels to give them equal treatment with other parcels on which no access restrictions have been placed. He also called attention to the fact that access restrictions are still imposed on four parcels: two at the intersection of the Siuslaw and Coast Highways; and two adjacent to the Siuslaw River Bridge. Access control should be retained on these for safety reasons. It was his thought that future sales of excess property in Florence would be based on no access restrictions. The Commission approved the Waiver of Restrictions as presented.

Consideration was given to a "Prescription and Definition of Access" form covering property under control of the Bureau of Land Management, File No. 29454, on the Juntura-Vale Section of the Central Oregon Highway in Malheur County. In acquiring the property, the Right of Way Engineer explained, the Bureau had failed to request access, but has now made such request. The two points of access requested will not be detrimental to the State, nor to the safety of the traveling public, and he recommended that the access points be granted. The Commission accepted his recommendation.

The Right of Way Engineer presented a "Relinquishment of Title" form whereby the State transfers to the City of Portland 3,600 square feet of land in Lots 2, 4 and 6, Block A, subdivision of Lot 4, Block 27, southern Portland. The land, he stated, is not needed for highway purposes and is being transferred to the City for street purposes. The property was originally acquired under File No. 27001, Crouse. The Commission approved the Relinquishment of Title form.

Attention was also given to a "Release of Slope Easement" form upon the Junction City-Lane County Line Section of the Albany-Junction City Highway in Junction City, File Nos. 1877-1880. The Right of Way

Engineer explained that the land had been filled in and the slope easement is no longer needed. He recommended that it be released to Pacific Finance Corporation. The Commission approved the Release of Easement.

The Commission considered a "Bargain and Sale Deed," whereby the State transfers to Oregon-Washington Railroad and Navigation Company property occupied by their relocated railway facilities on the Cascade Locks-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties. The Right of Way Engineer stated that the Deed is to fulfill conditions of agreements dated 1951 and 1952, whereby the State agreed to convey to the Railroad Company the property onto which their tracks were moved in reconstruction of the Columbia River Highway. He also pointed out that the Railroad Company is to convey to the State title to the railroad right of way now occupied by the highway. Upon his favorable recommendation, the Commission approved the Deed.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "I-1" through "I-12", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated July 7 and 8, 1960, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

A written report of condemnation cases which have been tried in court since the last Commission meeting was presented by the Chief Counsel. He commented briefly on some of the cases. The Commission accepted the report, which is summarized as follows:

(See following page for "Report of Condemnation Cases Tried".)

REPORT OF CONDEMNATION CASES TRIED

June 3, 1960 to July 6, 1960

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3418 Willboard, et ux.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 1,000	Voluntary nonsuit. Will be re-filed.	
L-3300 Chatterton, et ux.	Lane	Eugene-Springfield	Ferry Street Bridge-Mohawk Road	25	None	25 (Judgment)
L-3435 Bolliger, et al.	Lincoln	Siletz	Cedar Creek-Chitwood	400	None	150 (Judgment)
L-2590 Church, et ux.	Lincoln	Oregon Coast	Neskowin-Salmon River	2,570	Voluntary nonsuit. Will be re-filed.	
L-2591 Church, et al.	Lincoln	Oregon Coast	Neskowin-Salmon River	1,010	Voluntary nonsuit. Will be re-filed.	
L-3089 Levermann, et al.	Marion	North Santiam	Lancaster Drive-Sublimity Gun Club	21,400	30,000 (Answer)	23,000
L-3432 Johnson, et al.	Multnomah	Pacific	East Bank Freeway	575	5,000 (Answer)	Property not needed. Voluntary nonsuit.
L-2902 Reed, et al.	Multnomah	Columbia River	Portland-Bonneville	12,200	27,500 (and atty. fee)	24,542
L-3430 Selberg, et al.	Multnomah	Pacific	East Bank Freeway	12,250	17,500	16,500
L-2899 Troutdale Farms, Inc. et al.	Multnomah	Columbia River	Portland-Bonneville	2,460	55,000 (Answer)	2,460

(For additional details, see the Chief Counsel's letter entitled "Report of Cases Tried July 6, 1960" in the General Files, Salem.)

The Chief Counsel also presented a written report on condemnation cases which have been settled out of court since the last Commission meeting. He commented briefly on some of the settlements and recommended that they be approved, as it was his opinion that the differences involved between the appraisal value and the amount of proposed settlement would not warrant taking the cases to court. The Commission approved the settlements, which are summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-31078 Smith, et al.	Clackamas	Clackamas	Rock Creek	$ 130	$ 130
R-28710 Port of Cascade Locks, et al.	Hood River	Columbia River	Cascade Locks-Viento	925	1,000
R-27902 Clark, et al.	Malheur	Old Oregon Trail	Ontario-Snake River	19,250	21,200
R-27006 Vaughan, et al.	Multnomah	Pacific	Harbor Drive-Barbur Boulevard	570	1,250
R-31018 Kochis, et al.	Polk	Willamina-Sheridan	Powell Road Willamina	50	200
R-26852 R-28953 Wheeler Timber Co., et al.	Wheeler	John Day	Butte Creek-Service Creek	523 includes value of timber but excludes value of sign destroyed	523 excludes value of timber but includes value of sign destroyed
R-20120 Hill, et ux.	Lane	Pacific	Linn County Line-Judkins	280 (partial)	6,800

(Report of Condemnation Cases Settled-Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-28344 Feves, et al.	Multnomah	Pacific	East Bank Freeway	$154,500 (less furnishing and fixtures)	$ 165,000 (plus value of fixtures as determined by court $250)

(For additional details see the Chief Counsel's letter dated July 6, 1960, entitled "Report of Cases Settled", in the General Files, Salem.)

A list of offers made to property owners prior to the institution of condemnation proceedings was presented by the Chief Counsel in compliance with the resolution adopted December 20, 1951. The Commission confirmed the following offers:

Deadmans Pass-Meacham Section of the Old Oregon Trail Highway

R-31243 - Cunningham Sheep Company. Parcel No. 1: 3.05 acres for right of way purposes; and Parcel No. 2: 0.05 acre for right of way purposes. Offer of $95. approved by Mr. Fridley July 6, 1960.

R-31244 - Harris Pine Mills, et al. 0.73 acre for right of way purposes. Offer of $30 approved by Mr. Fridley July 1, 1960.

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-29581 - Asa R. Renner, et ux. 0.7 acre for right of way purposes. Offer of $510 approved by Mr. Jackson June 28, 1960.

R-29590 - H. W. Crook, et ux. 4.47 acres for right of way purposes. Offer of $1,592 approved by Mr. Jackson June 27, 1960.

Cummings Pass-Fossil Section of the John Day Highway

R-30858 - L. J. Marks, et ux. Parcel No. 1: 3.2 acres for right of way purposes; Parcel No. 2: 19,200 square feet for right of way purposes; and Parcel No. 3: 0.43 acre for permanent easement. Offer of $3,870 approved by Mr. Fridley June 28, 1960.

R-30855 - Lyle R. Ostrander, et al. Parcel No. 1: 3.8 acres for right of way purposes; Parcel No. 3: 0.06 acre for permanent easement; and Parcel No. 2: 0.75 acre for right of way purposes. Offer of $1,730 approved by Mr. Fridley June 28, 1960.

Hillsboro-Reedville Section of the Tualatin Valley Highway

R-30491 - George E. Young, et al. 8,500 square feet for right of way purposes. Offer of $14,725 approved by Mr. McIver June 29, 1960.

R-30493 - Everett M. Lee, et al. 7,210 square feet for right of way purposes. Offer of $9,450 approved by Mr. McIver June 29, 1960.

R-30497 - Colleen R. Kirk, et al. 6,500 square feet for right of way purposes. Offer of $10,400 approved by Mr. McIver July 1, 1960.

R-30498 - John Howard Koffel, et al. 6,400 square feet for right of way purposes. Offer of $9,880 approved by Mr. McIver June 28, 1960.

R-30503 - Alvin M. Batchelar, et al. 0.84 acre for right of way purposes. Offer of $16,800 approved by Mr. McIver June 28, 1960.

R-30505 - Guss F. Mulkey, et al. 1.7 acres for right of way purposes. Offer of $5,375 approved by Mr. McIver June 28, 1960.

R-30523 - Odell W. Brandaw, et al. 45 square feet for right of way purposes. Offer of $35 approved by Mr. McIver June 29, 1960.

Seven Oaks-Neil Creek Section of the Pacific Highway

R-29087 - Delie M. Whisenant, et al. 8,253 square feet for right of way purposes. Offer of $22,000 approved by Mr. Jackson June 28, 1960.

Hanley Ranch-Forest Boundary Section of the Lake of the Woods Highway

R-30888 - Robert S. Gilbert, et al. Parcel No. 1: 16.4 acres for right of way purposes; Parcel No. 2: 2.4 acres for right of way purposes; Parcel No. 3: 0.12 acre for permanent easement; Parcel No. 4: 0.76 acre for permanent easement; Parcel No. 5: 0.10 acre for permanent easement; Parcel No. 6: 0.44 acre for permanent easement. Offer of $9,150 approved by Mr. Jackson June 27, 1960.

R-30889 - J. F. Wells, et al. Parcel No. 1: 1.8 acres for right of way purposes; and Parcel No. 2: 0.1 acre for permanent easement. Offer of $8,660 approved by Mr. Jackson June 27, 1960.

Judkins Point-Goshen Section of the Pacific Highway

R-27742 - Lyle Ethan Lewis, et al. 1,800 square feet for right of way purposes. Offer of $1,200 approved by Mr. McIver June 28, 1960.

Judkins Point-Goshen Section of the Pacific Highway - Cont.

R-28163 - Oscar Furuset, et ux. 0.07 acre for right of way purposes Offer of $25 approved by Mr. McIver June 28, 1960.

Rock Creek Section of the Clackamas Highway

R-31308 - A. Nesbit Tucker, et ux. 0.08 acre for right of way purposes. Offer of $7,500 approved by Mr. McIver May 27, 1960.

Lake Road-Oregon City Section of the Cascade Secondary Highway

R-28738 and R-28740 - Holger M. Christen, et al. Parcel No. 1: 0.52 acre for right of way purposes; and Parcel No. 2: 300 square feet for right of way purposes. Offer of $4,750 approved by Mr. McIver June 27, 1960.

A written report was presented by the Chief Counsel concerning orders issued by the Public Utility Commission in which the State Highway Commission has been a party. The Commission accepted his report, which is summarized as follows:

PUX 352: Rebuilding railroad crossing and relocating tracks of Southern Pacific Company at 1st Street North and Main Street in Toledo. Neither of the streets is under the jurisdiction of the Highway Commission, and no objection was made to the issuance of a proper order.

PUX 353: Industrial spur track of Southern Pacific Company across South 22nd Street in Springfield. The crossing is not under the jurisdiction of the Highway Commission, and no objection was made to the issuance of a proper order.

PUX 359: "K" - "L" Streets grade crossing in Springfield. In addition to the signalization of the crossing itself, the original application covered the installation of signals if and when roadways paralleling the railroad tracks on each side are constructed. An amendment was made to eliminate this feature so that the order covers only the connecting street between "K" and "L" Streets. The tying-in of signals on the future roadways may possibly be the subject of a future proceeding.

PUX 364: 2nd Fir Street grade crossing in Toledo. As the street is not under the jurisdiction of the Highway Commission, no objection was made to the issuance of a proper order.

The Chief Counsel reported that the City of Portland had recently filed an action against the State Highway Commission asking damages in the amount of $225,000 because of construction on the Sunset Highway adjacent to the Portland City Zoo. It is their contention that in widening the highway on the southerly boundary of the Zoo property, lateral support had been removed, causing slippage of the Zoo property during the winter months of 1958 and 1959. He pointed out that the construction work on the highway had been done at the request of and with the approval of the City. It appears that trial of the case may come up late in 1960, and all measures will be taken to protect the interest of the State. The Commission accepted the report.

Consideration was given to a claim submitted by Robert A. Sadilek for damages to his well because of construction on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County. The Chief Counsel stated that the facts of the case indicate that nothing was included in the purchase of property from Mr. Sadilek for the possibility of damage to the well. An investigation by the Engineering Division was not conclusive as to whether highway construction activities caused the loss of water, but it did verify that for years prior to construction the well produced water for irrigation, and that afterwards there was a short supply. After negotiations, he continued, Mr. Sadilek agreed to accept a compromise figure of $500 and to give a complete release for all damage. He recommended that the settlement be approved. The Commission accepted his recommendation.

The Commission considered a "Petition for Annexation" to the City of Hillsboro of a section of the Tualatin Valley Highway contiguous to the present City boundary. The Chief Counsel stated that there is nothing in the Petition which would be detrimental to the State, and the Engineer has offered no objection. Upon his favorable recommendation, the Commission approved the Petition.

The Commission also considered a petition for the vacation of portions of McCullum and Mullen Streets and Empire Avenue in Bunker Hill Addition to the City of Coos Bay (Marshfield). This matter has been investigated and the Chief Counsel stated that the proposed vacation of streets will not be detrimental to the State Highway property which is affected, and he recommended that the Commission consent to the petition. The Commission gave its consent.

Attention was given to a proposed form of lease to Humble Oil and Refining Company covering certain lands in Lake County for the purpose of drilling for and extracting oil and gas. The Chief Counsel explained that the Oil Company has leased approximately 300,000 acres in Lake County, and has executed the same kind of agreement with the State Land Board. He pointed out that under the terms of the agreement, the State receives a specified annual rental, plus land-owner royalties of one-eighth the market value of oil and gas products. He also presented

a form of "Unit Agreement" with the same company for the development and operation of the Thomas Creek Unit Area in Lake County. The terms of the lease and the agreement, he stated, are in line with standard practices in matters of this sort, and comply with provisions of section 366.395 of Oregon laws. He recommended that they be approved by the Commission. The Commission accepted his recommendation. He also pointed out that no drilling is to be done on state highway right of way, that drilling operations on other lands must start within two years, and the lease terminates at the end of ten years.

The Chief Counsel submitted a brief oral report on an action filed against the State Highway Commission by Pacific Concrete Company, et al., for additional compensation in connection with State Highway Contract No. 5107 for construction of the Sandy River Bridge on the Columbia River Highway, in Multnomah County. The contractor, he stated, is seeking payment for the use of more expensive cement than was required, and that he is requesting payment in the amount of approximately $3,700 plus some additional costs. The action, he stated, will be defended. The Commission accepted the report.

The Commission meeting was recessed for ten minutes at 11:05 a.m.

The Engineer reported that he had made award of contracts which had been referred to him to award when certain conditions had been fulfilled. These conditions, he stated, have been taken care of, and the Commission confirmed his award of the following contracts:

(1) Grading and oiling on the Sumpter-McEwen Section of the Sumpter Valley Highway, Baker County. Bids received April 19, 1960. Contract awarded June 2, 1960, to McNutt & Sons, Inc., Springfield, low bidder.

(2) Grading and paving on the Rock Creek Section of the Clackamas Highway, Clackamas County. Bids received April 19, 1960. Contract awarded June 2, 1960, to Charles T. Parker Construction Company, Portland, low bidder.

(3) Grading and paving on N. W. First Avenue in Cornelius, Washington County. Bids received June 1, 1960. Contract awarded June 6, 1960, to M & M Paving Company, Cornelius, low bidder.

(4) Grading, three bridges and power line relocation, and materials in stockpile on Dodson-Bonneville Section of Columbia River Highway, Multnomah County. Bids received June 1, 1960. Contract awarded June 7, 1960, to Gibbons & Reed Company, Portland, low bidder.

(5) Oiling project on Buckhorn and Wehrli Canyon Roads, Gilliam County. Bids received June 1, 1960. Contract awarded June 9, 1960, to J. C. Compton Company, McMinnville, low bidder.

(6) Grade widening on Trail-McLeod Section of Crater Lake Highway, Jackson County. Bids received June 1, 1960. Contract awarded June 9, 1960, to Angell Brothers, Portland, low bidder.

(7) Stone base and paving in Eastside ("F" Street) in Coos County. Bids received June 1, 1960. Contract awarded June 9, 1960, to Robert Angell, Eastside, low bidder.

(8) Winston (Suksdorf Street and Grape Avenue) stone base and paving project, Douglas County. Bids received June 1, 1960. Contract awarded June 9, 1960, to J. C. Compton Company, McMinnville, low bidder.

(9) Construction of Palmer Creek Bridge, Yamhill County. Bids received June 1, 1960. Contract awarded June 10, 1960, to Hamilton & Thoms, Inc., Eugene, low bidder.

(10) Grading and oiling on Woodell Lane Section of Woodell Lane Road, Union County. Bids received June 1, 1960. Contract awarded June 10, 1960, to Vernie Jarl, Gresham, low bidder.

(11) Grading on 136th Avenue-181st Avenue Section of N.E. Glisan Street, Multnomah County. Bids received June 1, 1960. Contract awarded June 15, 1960, to John L. Jersey, Inc., Portland, low bidder.

(12) Grading and paving Fifth Street-S. City Limits (Bandon) Section of Oregon Coast Highway, Coos County. Bids received June 1, 1960. Contract awarded June 15, 1960, to Woodward & Son-Barklow, Coquille, low bidder.

(13) Oiling project on six county roads, Deschutes County. Bids received June 1, 1960. Contract awarded June 16, 1960, to Babler Brothers, Inc., Portland, low bidder.

(14) Grading, oiling and structure on Hanley Ranch-Forest Boundary Section of Lake of the Woods Highway, Jackson County. Bids received June 1, 1960. Contract awarded June 30, 1960, to C. R. O'Neil, Creswell, low bidder.

(15) Grading and oiling on Cummings Pass-Fossil Section of John Day Highway, Wheeler County. Bids received June 1, 1960. Contract awarded June 30, 1960, to Durbin Brothers, Eugene.

A report was also submitted by the Engineer concerning the removal of protective load limits on certain sections of state highways. These load limits, he stated, were placed because of the soft condition of the road caused by thawing and melting of snow. The road beds have now dried sufficiently so that the highway sections can sustain full legal loads. The Commission confirmed the Engineer's removal of reduced load limits as follows:

(1) Crater Lake-North Highway No. 232, from Mile Point 0.0 to Mile Point 3.81, effective 5:00 p.m., June 10, 1960.

(2) West Diamond Lake Highway No. 233, from Mile Point 8.0 to Mile Point 23.89, effective 5:00 p.m., June 10, 1960.

(3) East Diamond Lake Highway No. 425, over its entire length, effective 5:00 p.m., June 10, 1960.

(4) Weston-Elgin Secondary Highway No. 330, from Mile Point 15.33 to Mile Point 37.50, effective 8:00 a.m., June 13, 1960.

The Engineer also reported that reduced speed zones had been placed on three construction projects for the protection of the traveling public. The Commission confirmed establishment of the following construction speed zones:

(1) 35 miles per hour between Mile Point 7.2 and Mile Point 8.1 on the Clackamas Highway, west of Carver, effective 8:00 a.m., June 14, 1960.

(2) 25 miles per hour between Mile Point 22.88 and Mile Point 30.88 on the Crater Lake Highway, effective 8:00 a.m., June 22, 1960.

(3) 25 miles per hour on the Fifth Street-South City Limits Section of the Oregon Coast Highway in the City of Bandon (Mile Point 274.30 to Mile Point 274.60), effective 10:00 a.m., June 21,1960.

A meeting with Bureau of Land Management officials and representatives of other public agencies regarding the formation of a "Steens Mountain Committee" for the reviewing of plans, programs, and development of the Steens Mountain area was reported by the Engineer. He explained briefly that among a number of things which would enter into the development of this area was the construction of highways. The area is far removed from any existing state highway, and he recommended that the Commission take no action in the proposed organizational development plan. His recommendation was accepted by the Commission.

Attention was given to an item of unfinished business appearing on the Secretary's Summary dated June 3, 1960, concerning status of

negotiations to acquire Sea Lion Caves along the Oregon Coast Highway in Lane County. The Parks Superintendent recalled that he had commented on this matter earlier in the day, and that he expected to have a report for the Commission at its next meeting.

The Commission discussed with the Engineer proposed Freeway routings in west Portland, concerning which a public hearing was held in Portland on June 13, 1960. The Engineer reviewed briefly the State and Federal laws concerning hearings. A transcript of the hearing, he continued, has been sent to the members of the Commission and to other interested agencies. He pointed out that at the hearing, most of the groups, including representatives of the City of Portland, favored the Stadium Freeway Route, the southerly end of which has been generally known as the Foothills Route. Exhaustive studies conducted by State Highway Engineering personnel also indicate that the Foothills Route is preferable over the Clay-Market Route, and he recommended that the Commission approve the Stadium Freeway Route (Foothills Route) in Portland, involving a depressed highway section on 13th, 14th, 15th and 16th Avenues in the northerly part of the route, subject to legal notification to the City of Portland of the Commission's action. Chairman McIver recalled that some of the people who appeared at the hearing had requested that further study be made. Mr. Fred Fowler, Highway Engineering Co-ordinator for the City of Portland, stated that in his considered opinion, further study would not cause any considerable differences in the facts already determined. The Engineer also was of the opinion that further studies would not change the fundamentals involved in determining a route. He pointed out that if the Commission took action on adoption of the Stadium Freeway Route, such action would involve only the route to be followed by the highway, and would not cover interchanges, ramps, and other details which would have to be worked out later with the City of Portland and the Bureau of Public Roads. It was his opinion that during the next two or three years, it probably will not be possible to work on the project other than to acquire rights of way. After some further discussion concerning the relative advantages of adopting a route now or delaying the matter, the Commission approved the Stadium Freeway Route and thereupon adopted a resolution, marked Exhibit "H-5", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

At this point the Engineer called attention to the fact that Mr. McIver, Chairman of the Commission, is the first Commissioner ever to be appointed for a fourth three-year term. At the present time he has served in excess of ten years as a member of the Highway Commission, and in behalf of the Highway Department he presented to Mr. McIver a ten-year pin. Chairman McIver expressed his appreciation for the emblem, and in turn presented to Mr. W. C. Williams, State Highway Engineer, and to Mr. Joseph G. Toole, Assistant Planning Engineer, pins representing forty years of service each with the State Highway Department

A report on a proposed reorganization plan for the Maintenance Division was presented by the Engineer. He pointed out that with the improvement of highways and the use of modern maintenance equipment, it appears that some of the District Maintenance Superintendents could supervise larger areas, so a consolidation of some of the District Maintenance Headquarters is in order. A careful study has been made of the matter, and he recommended that the following changes be made:

Division 1: No change at present.

Division 2: Eliminate District Maintenance Headquarters at Tillamook and divide the Division into three parts with District Maintenance Headquarters at Salem, Corvallis, and Astoria.

Division 3: Shift District Maintenance Headquarters for District 3-C from Grants Pass to Medford.

Division 4: Eliminate District Maintenance Headquarters at Bend, and divide the Division into three parts with District Maintenance Headquarters at The Dalles, Redmond, and Klamath Falls.

Division 5: Eliminate District Maintenance Headquarters at John Day, and divide the Division into three parts with District Maintenance Headquarters at Pendleton, Baker and Ontario; and move the District Maintenance Superintendent and his staff from Burns to Ontario.

It was his opinion that these changes would effect savings of approximately fifty-thousand dollars per year. Upon his favorable recommendation, the Commission approved the reorganization plan.

The Commission discussed with the Engineer bids received on June 30. The Engineer recited briefly details on the estimated cost of each of the projects, the low bid received, and his recommendation as to award. Action by the Commission on the award of contracts was deferred until 2:30 p.m.

The meeting was recessed at 11:55 a.m. and was reconvened at 1:30 p.m. in the same room with the same persons present.

Completion of surveys for relocation of several sections of state highways was reported by the Engineer. He pointed out that in each instance, careful engineering consideration had been given to provide the most adequate highway facility for the traveling public commensurate with cost. He also pointed out that on some of the proposed highway relocations, public hearings had been held in compliance with

State and Federal laws. Upon his favorable recommendation, the Commission approved the following surveys and thereupon adopted resolutions, marked Exhibit "H-1" through "H-4", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960":

(1) Westport-Clatskanie Section on the Columbia River Highway in Columbia and Clatsop Counties. A public hearing was held in Clatskanie on May 5, 1960. (See Exhibit "H-2")

(2) Sheep Creek Hill-Hayden Creek Section of the Little Sheep Creek Highway in Wallowa County. (See Exhibit "H-1")

(3) Emigrant Avenue-Frazer Avenue One-way Couplet Section of the Pendleton-John Day Highway in the City of Pendleton. A hearing was held in Pendleton on June 16, 1960, concerning this project. (See Exhibit "H-1") In discussing this project, the Commission approved incorporating in it the widening of Frazer Avenue between South Main and Southeast Third Street at an estimated cost of $7,800, thereby raising the total cost of the project to $143,000, the State's share being $107,250 and the City's share, $35,750. In addition to this work, the Engineer stated, traffic lights will be needed on the Court-Dorian Couplet Section of the old Oregon Trail, which are estimated to cost $40,000. He recommended that the traffic lights be installed with the cost of installation to be borne equally by the State and City, and with the understanding that the City is to furnish electrical energy and maintain the lights after installation. The Commission approved his recommendation.

(4) Powers Junction-Broadbent Section of the Powers Highway in Coos County. (See Exhibit "H-1")

(5) Albany-Pacific Highway Interchange Section on the Santiam Highway in Linn County. A public hearing was held in Albany on May 2, 1960. (See Exhibit "H-1")

(6) Salmon River Junction-East McMinnville Junction Section of the Three Mile Lane Highway in Yamhill County. A public hearing was held on this project in McMinnville on April 13, 1960. (See Exhibit "H-3")

(7) Rice Hill-North Oakland Junction Section of the Pacific Highway in Douglas County. A public hearing was held in Roseburg on May 4, 1960. (See Exhibit "H-4")

(8) Scott Creek-Five Rivers Section of the Alsea Highway in Lincoln County. (See Exhibit "H-1")

(9) Country Club Road-Coburg Road Section of the Country Club Road in Lane County. A public hearing was held in Eugene on June 17, 1960. (See Exhibit "H-3")

Consideration was given to a resolution from Northeast Oregon Vacationland, Incorporated, requesting construction of a road to the "geographic center of the United States". The Engineer pointed out that the geographic center of the United States is a somewhat nebulous point and has been located in several different states and various positions within the states. The center, as referred to by this group, is in the vicinity of the ghost town of Ponderosa in Baker County. As this location is not on the route of any existing state highway, he recommended that the proposed road not be placed on the highway system or that state motorist funds be spent for its improvement. The Commission accepted his recommendation.

The installation of traffic signals was considered at the intersections of Tenth Street with Riverside and Central Avenues in the City of Medford. The Engineer explained that the completion of a bridge across Bear Creek on Tenth Street will establish Tenth Street as one of the main east-west arterials in the City. He recommended that fixed-time signals be installed at the two intersections at a total estimated cost of $7,500, with the City to pay one-half the cost of installation and to provide all future maintenance and power needs. The Commission approved the signal installation.

A request for an extension of time within which to complete a highway contract was presented by the Engineer, as follows:

> Electric Corporation, Contract No. 5553, for signing, illumination and traffic signal installation on the Redwood Highway Junction Section of the Pacific and Redwood Highways, in Josephine County, requested an increase in number of workdays from 80 to 125 days within which to complete the contract without assessment of liquidated damages.

The Engineer stated that the contractor was able to complete the contract with only a ten workday overrun, and he recommended that the contractor be granted a ten workday extension without assessment of liquidated damages. The Commission approved the extension of time.

The Engineer reported that contracts numbered 5153, 5319, 5336, 5354, 5394, 5448, 5481, 5515, 5571, 5577, 5591, 5600, 5603, 5609, 5622, 5629, 5632, 5660, 5693, 5716, 5410, 5504, 5534, 5583, and 5689 for highway construction had been completed in accordance with requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

Authority was requested by the Engineer for the expenditure of an additional $10,000 on the new road now under construction to the State Park area adjacent to Owyhee Reservoir in Malheur County. He recalled that the Commission had approved a previous expenditure of $50,000 and that contract construction is progressing very well. The additional money, however, could be used to excellent advantage in extending the road a short distance, widening several narrow points, and placing a dust palliative on the finished roadway after surfacing. The Commission approved the additional expenditure.

A map and a tabulation was presented by the Engineer showing proposed additions and revisions of the Federal-Aid Secondary System in Deschutes, Hood River, Jackson, Jefferson, Malheur, Morrow, Umatilla, Wasco, and Washington Counties. These additions, the Engineer stated, have been proposed by the Counties and appear to be desirable. Upon his favorable recommendation, the Commission approved revisions in various counties as follows:

County	Local	State
Deschutes	39.1	--
Hood River	46.5	- 1.3
Jackson	24.9	--
Jefferson	9.8	--
Malheur	- 0.1	--
Morrow	45.7	--
Umatilla	2.7	- 1.0
Wasco	10.2	--
Washington	--	8.0
TOTAL	178.8 miles	5.7 miles

The Engineer explained that the saving of 1.3 miles in the State Secondary System in Hood River is caused by realignment of the Polallie Creek-Parkdale Road Section of the Mt. Hood Highway under construction by the Bureau of Public Roads. The saving of one mile on the State Secondary System in Umatilla County is caused by reconstruction of the Hermiston Secondary Highway between Hinkle and Hermiston. In Washington County the addition of eight miles to the State Secondary Highway System is caused by the new highway extending from the Bonita Road Junction with US99 to the Cedar Hills Interchange on the Sunset Highway. (For additional details concerning the description and location of the various additions and revisions, see the tabulation entitled "Proposed Additions and Revisions to FAS System" dated June 29, 1960 in the General Files in Salem.)

A tabulation was presented by the Engineer showing proposed expenditures of County Federal-Aid Secondary Highway funds in Jackson and Washington Counties. The projects have been requested by the Counties, and the Engineer recommended that they be approved by the Commission. The Commission approved the following projects:

(See the following page for Proposed County FAS Projects.)

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Funds
Jackson	559	Ruch-Little Applegate River Section. Paving, 2.75 miles.	$ 80,000	1961
Washington	628	Beaverton-Tigard Section. NOTE: This is a state highway for which Washington County has agreed to release $210,000 of Federal funds. As Federal funds represent 60% of County's total fund allocation, available total funds are being reduced $350,000.	$ 350,000	1961
		TOTAL.....	$ 430,000	

SUMMARY BY FISCAL YEARS	1960	1961	Total
Available Funds	$3,900,000	$3,600,000	$7,500,000
Previously Approved	3,900,000	2,710,000	4,610,000
Unprogrammed Balance	$ --	$ 890,000	$ 890,000
Projects Proposed 7/7/60	--	430,000	430,000
UNPROGRAMMED BALANCE	$ --	$ 460,000	$ 460,000

The Engineer brought up the matter of rescinding a 35 mile-per-hour speed zone established on the Pacific Highway September 28, 1950, in the community of Wilbur, in Douglas County. Since that time the Pacific Highway has been moved to a new location, and the section in question is now on the Oakland-Shady Highway. Also, a school zone has been established. He recommended, and the Commission approved, that the action of September 28, 1950, be rescinded and that a 35 mile-per-hour speed zone be established on the Oakland-Shady Highway between a point 100 feet north of Wilbur Road and a point 400 feet south of Wilbur Road, except that between a point 200 feet south of Garden Valley Road and a point 100 feet north of Wilbur Road the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission accepted the recommendation by adopting a resolution relative thereto, marked Exhibit "D-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

To correlate a recent action taken by the State Speed Control Board establishing certain speed zones on the Oregon Coast Highway in the City of Coos Bay, the Engineer recommended that a reduced speed zone

established September 21, 1949, be rescinded and that a 40 mile-per-hour speed zone be established between a point 0.17 mile north of Coos Bay and the north city limits of Coos Bay. The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "D-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

The Engineer stated that on or about August 1, 1960, the new section of the Pacific Highway between Lebanon-Orleans Road and the Halsey-Sweet Home Highway in Linn County will be completed and opened to traffic. It is planned to route US99 traffic south from Albany via the Freeway, and thence along the Halsey-Sweet Home Highway to its junction with the old alignment of the Pacific Highway in Halsey. The pavement on this section of the Halsey-Sweet Home Highway, the Engineer continued, is relatively narrow, and he recommended that a 50 mile-per-hour speed zone be established during the time that US99 traffic is routed over this section, which would be between the Albany-Junction City Highway (old Pacific Highway) and the Pacific Freeway. The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "D-3", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

In response to a request made by the owner of the Family Drive-In Theater in Tigard, the Engineer reported that an investigation had been made concerning the prohibition of parking on the left-turn outrigger constructed by the Theater some years ago in the community of Tigard on US99W. The investigation disclosed that a restaurant has been constructed on this left-turn outrigger, and it is anticipated that parked vehicles will have a detrimental effect on safe traffic operations. A paved parking lot is available for the restaurant patrons. He recommended that parking be prohibited along both sides of the Family Drive-In Theater left-turn outrigger from Mile Point 7.94 to Mile Point 8.01. The Commission approved the "No Parking" provision by adopting a resolution relative thereto, marked Exhibit "E-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

The Shoreline Drive-In Theater on the west side of the Oregon Coast Highway, a short distance north of Reedsport, in Lane County, is using a portion of the Theater on Sunday afternoons for a go-kart race track. The Engineer advised that the racing has caused a considerable amount of shoulder parking which reduces the effective width of the pavement and creates a pedestrian problem. As there is ample room inside the Theater to park vehicles, he recommended that shoulder parking be prohibited on both shoulders of the Oregon Coast Highway from the south end of the Smith River Bridge (Mile Point 210.61)

to a point 475 feet north of the Long Bell Lumber Company Overcrossing (Mile Point 210.78). The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "E-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

The Engineer also brought up the matter of a potentially hazardous situation caused by shoulder parking near the newly constructed go-kart race track on The Dalles-California Highway, approximately four miles south of Bend, in Deschutes County. Shoulder parking in this area creates a hazard to the traveling public as it reduces the effective width of the pavement and creates a pedestrian problem along this relatively high-speed highway section. Facilities are provided for off-street parking, and he recommended that shoulder parking be prohibited on both sides of The Dalles-California Highway from a point 0.12 mile north of Arnold Ditch (Mile Point 143.12) to a point 0.18 mile south of Arnold Ditch (Mile Point 143.42). The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "E-3", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

The Commission considered several requests for out-of-state travel expenses, and upon the Engineer's favorable recommendation approved out-of-state travel as follows:

(1) F. B. Crandall, Traffic Engineer, to attend the annual meeting of the Western Section of the Institute of Traffic Engineers in San Francisco, California, July 17-20, 1960, at an estimated cost of $150.

(2) Forrest Cooper, Deputy State Highway Engineer, to attend the Subcommittee meeting on Pavement Design Practice of the American Association of State Highway Officials in Ottowa, Illinois, August 2 and 3, 1960, at an estimated cost of $225.

(3) Kenneth A. Chatwood, Right of Way Agent, to contact property owners who reside in Marysville, Washington, on June 13-17, 1960, at the cost of $86.70. In this instance, the Engineer requested confirmation that he had given previously, as the cost of the trip was under $100.

(4) Confirmation for Edward Hanson, William Kuiper, Tom Simpson, and R. W. Anderson, Equipment Department, to go to San Francisco, California, July 5 - 8, 1960, to pick up government surplus equipment at a total expense of $223.70.

(5) Carl Jordan, Director of Travel Information Division, to attend the Pacific Northwest Travel Association Convention, September 8-10, 1960, Longview, Washington, at an estimated cost of $72

(6) Mark Astrup, Landscape Engineer, to attend the American Association of State Highway Officials Committee on Roadside Development, Chicago, Illinois, August 8-9, 1960, at an estimated cost of $240.

A proposed agreement with Wasco County was presented by the Engineer transferring ownership, operation, and maintenance of traffic signals at the junction of the Columbia River Highway and the old Dalles-California Highway. Under the agreement, he stated, the State is to operate and maintain traffic signals at the new junction of the Columbia River Highway and The Dalles-California Highway, and the County is to accept ownership and maintenance of three mercury vapor luminaires at the junction of the old Dalles-California Highway and the Columbia River Highway. The State is to continue ownership and maintenance over seven luminaires, traffic signals, and warning lights located at the junction of the Columbia River Highway with the south approach to the Wasco County Toll Bridge. Upon his favorable recommendation, the Commission approved the agreement.

Attention was given to a request made by the U. S. Forest Service for permission to erect a rustic-type sign on state highway right of way on the southerly side of the Mt. Hood Highway at Mile Point 50.11, between Rhododendron and Government Camp in Clackamas County The sign, the sign message and the location have been approved, the Engineer stated, and he recommended that a permit be granted for the sign. The Commission accepted his recommendation.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period May 27, 1960, through June 30, 1960.

The date for the next regular Commission meeting was set for August 18 and 19, 1960, in the Conference Room of the State Highway Building in Salem. A tentative date for the following meeting was set for Thursday and Friday, September 29 and 30, 1960.

The Commission considered a form of agreement with the State Game Commission covering the construction of boat launching and parking facilities on Upper Klamath Lake on the Lake of the Woods Secondary Highway in Klamath County. The Engineer stated briefly that the Game Commission desires to establish parking areas and two boat-launching ramps at Stations 1525+00 and 1536+23.62. The plans as submitted by the Game Commission have been checked and he recommended that the agreement be approved. The Commission approved the agreement.

In connection with bids received June 30, 1960, for construction of an office building in Medford, the Engineer stated that it is necessary to increase the vertical clearance of a high voltage transmission line, owned by California-Oregon Power Company, which is directly above the sight of the proposed building. A form of agreement has been prepared, he stated, and approved by the Chief Counsel, and he recommended that it be approved by the Commission. The Commission approved the agreement.

The Commission also gave attention to a form of agreement with Oregon-Washington Railroad and Navigation Company, Union Pacific Railroad Company, Lessee, covering an easement for installation and maintenance of additional culvert pipe at Railroad Station 507+70 on the Wasco-Hay Canyon Section of the Wasco-Heppner Highway in Sherman County. Upon the Engineer's favorable recommendation, the Commission approved the agreement.

An agreement with Cole and Weber covering extension of the advertising contract for the Travel Information Division was also considered by the Commission. The Director of Travel Information Division explained that this is a service contract in which the advertising agency secures its remuneration from the papers and magazines in which the advertising is placed. An extensive hearing, he continued, was held during 1959, at which time a number of advertising agents exhibited their facilities for the handling of advertising material. It is planned to hold this type of hearing at five-year intervals as it is not deemed advisable or economical to change advertising agents every year. The present agreement, he stated, expired June 30, 1960, and the proposed agreement is to cover a period of one year. The Commission accepted his recommendation that the agreement with Cole and Weber be extended.

A resolution was presented by the Engineer which would place on the State Secondary Highway System, in Washington County, the Beaverton-Tigard Secondary Highway, No. 144. He pointed out that this is the new highway connecting the Baldock Freeway (US99) and the Sunset Highway from the Bonita Road interchange on the Freeway to the Cedar Hills interchange on Sunset Highway. Washington County officials have approved the highway, and he recommended that it be approved by the Commission. The Commission accepted his recommendation by adopting a resolution relative thereto, marked Exhibit "F-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

Attention was also given to a resolution presented by the Engineer designating the connection into Springfield from the Eugene-Springfield Secondary Highway, in Lane County, as the Springfield Secondary Highway No. 228. The Engineer commented briefly that this is commonly known as the 2nd-3rd Street Couplet, and was originally approved by the Commission in December, 1958. The project has also been approved by the Bureau of Public Roads as a Federal-Aid Secondary route. Upon his favorable recommendation, the Commission approved the designation by adopting a resolution relative thereto, marked Exhibit "F-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

Revised regulations covering the transportation of logs, poles, or piling by motor vehicles were presented by the Engineer. He explained that from time to time it is necessary to reprint Form PUC 170 as the supply runs out. Recently a representative of the Public Utility Commissioner's office requested recommendations for revisions in the regulations when they are reprinted. These regulations, he continued, are attached to and made a part of each PUC Schedule B Log Hauling Permit. The necessary changes have been carefully considered, and he recommended that they be approved. The Commission approved the changes as submitted by the Engineer.

The Engineer stated that requests had been made by private individuals and companies to purchase prints of aerial photos of various cities and locations in Oregon, taken in connection with the State's aerial mapping and photogrammetry work. Prints of these photos, he continued, have been furnished at cost to other governmental agencies. Recently, however, a request had been received from the First National Bank for some three-hundred prints of the Portland area and an entire coverage of the Klamath Falls area. These orders to date have not been filled. It appears that these requests are made because the photography is of excellent quality and the prints are recent. It was his opinion that this would not be justification for supplying prints in competition with private enterprise, and he recommended that the Commission go on record as being opposed to supplying prints to individuals and companies, but that other governmental agencies be supplied as in the past. The Commission accepted his recommendation.

The Commission considered, and upon the favorable recommendation of the Engineer, approved two access road easements to the Bureau of Land Management to permit construction of timber access roads over two parcels of State-owned lands in the vicinity of Powers on the Powers Secondary Highway in Coos County.

The Commission discussed with the Engineer matters to be presented by delegations scheduled to appear on the following day. No action on these matters was taken at this time, pending the appearance of the delegations.

Chairman McIver brought up the matter of reappointment of the State Highway Engineer. He pointed out that the term of Mr. W. C. Williams, who has been serving as State Highway Engineer, will expire on August 15, 1960, and he moved that Mr. Williams be reappointed for a four-year term, beginning August 16, 1960. The Commission unanimously approved the reappointment of Mr. Williams as State Highway Engineer, and thereupon adopted a resolution, marked Exhibit "G", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

Mr. Carl Jordan, Director of the Travel Information Division, presented a report on activities of his Division. He exhibited samples of advertising material and outlined briefly the manner in which this material is handled. He also called attention to the base map used for the State Highway Map put out by the State Highway Department. The old base map, he continued, has been in use for a considerable number of years and should be replaced. Such replacement of the base map, he pointed out, will cost the same amount of money whether the State or a private concern performs the work. He presented to the Commission a type of base map used for the State of Alaska. Chairman McIver inquired as to how the base map would be secured, and if such a project could be offered for bids. Mr. Jordan replied, and Mr. Lindas, Chief Counsel, concurred, that taking of bids appeared to be feasible. The Engineer called attention to the unhappy experience of the State in receiving bids for photogrammetry work, and he suggested that if the job is put out for bids that it be submitted to a list of selected bidders who are known to be competent. The Commission instructed the Travel Information Director to look into the matter and submit a report at the next meeting.

At 2:30 p.m. the Commission announced awards of contracts as follows:

BIDS RECEIVED IN SALEM ON JUNE 30, 1960

"Grading and surfacing on the Langrell Corner-Halfway Section of the Lone Fir Road in Baker County. The Commission awarded the contract to the low bidder, Geo. E. Corliss, Bend, at $67,838.60.

"Leveling course and oiling on the Pocahontas Section of the Pocahontas Road in Baker County. The Commission rejected all bids as being too high.

"Installation of traffic signals in Corvallis (Second and VanBuren Streets), Benton County. The Commission awarded the contract to the low bidder, Steeck Electric Company, Medford, at $3,360.

"Grading and paving on the Milwaukie-Harmony Point Section of the King Road in Clackamas County. This project was withdrawn prior to letting.

"Mt. Hood Rock Production Project on two highways, near Government Camp, in Clackamas, Wasco and Hood River Counties. The Commission awarded the contract to the low bidder, Dorman Construction Company, Vancouver, at $53,750.

"Quartz Creek-Tillamook County Line Paving Project on the Sunset Highway in Clatsop County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $102,138.50.

"Construction of the Beaver Creek Bridge, grading and paving on the Oregon Coast Highway in Coos County. The Commission awarded the contract to low bidder, Johnston and Bryant, Newberg, at $238,666.20.

"Lava Butte Paving Project on The Dalles-California Highway in Deschutes County. The Commission awarded the contract to low bidder, Babler Bros., Inc., Portland, at $79,468.

"Grading on the Briggs Camp-Bear Creek Road Section of the N. Umpqua Road in Douglas County. The Commission elected to accept the low bid of Geo. E. Blaisdell and Son Construction Company and Shirley G. Stone Company, Oswego, in the sum of $224,778 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Douglas County is received and the sum of $254,900 is deposited by the County.

"Reline and construct portals of the Elk Creek Tunnel on the Umpqua Highway in Douglas County. The Commission rejected all bids as being too high.

"Construction of the Rock Creek and Eight Mile Canyon Bridges in Gilliam County. The Commission elected to accept the low bid of Harney Homes, Inc., Burns, in the sum of $31,565, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Gilliam County is received and the sum of $7,100 is deposited by the County.

"Construction of the Rogue River Bridge over Rogue River on Laurelhurst Road, and the Paul B. Rynning Bridge over S. Fork Rogue River on Butte Falls-Prospect Road in Jackson County. Low bid was submitted by S & D Construction Company, Portland, in the amount of $174,000; however, as this is a county project, all bids were referred to Jackson County for award.

"Construction of the Medford Office Building in Jackson County. The Commission awarded the contract to low bidder, Rogue Valley Construction Company, Medford, at $75,030.

"Hayes Hill-Sauers Flat Paving Project on the Redwood Highway in Josephine County. The Commission awarded the contract to low bidder, Warren Northwest, Inc., Portland, at $114,649.

"Grading and construction of three R.C.D.G. bridges on the Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County. The Commission awarded the contract to low bidder, Roy L. Houck Sons' Corporation, Salem, at $266,020.

"Construction of the Willamette River Bridge and two overflow structures on Peripheral Road, near Eugene, in Lane County. The Commission elected to accept the low bid of S & D Construction Company, Portland,

in the sum of $424,000, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Lane County is received and the sum of $95,400 is deposited by the County.

"Construction of the North Bridge over the Coast Fork of the Willamette River in Lane County. The Commission awarded the contract to low bidder, Tom Lillebo Construction Company, Reedsport, at $162,325.

"Siletz Bay Bridge Drawrest Replacement at Kernville on the Oregon Coast Highway in Lincoln County. The Commission rejected all bids as being too high.

"Oceanlake (First Street) Grading and Oiling Project in Lincoln County. The Commission awarded the contract to low bidder, Geo. E. Corliss, Bend, at $14,591.

"Albany-Grand Prairie Paving Project on the Cox Creek Road in Linn County. The Commission elected to accept the low bid of Morse Bros., Lebanon, in the sum of $27,073, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Linn County is received and the sum of $6,140 is deposited by the County.

"Brewster-Lebanon Paving Project on the Crabtree-Lebanon Road in Linn County. The Commission elected to accept the low bid of Morse Bros., Lebanon, in the sum of $65,029, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Linn County is received and the sum of $14,740 is deposited by the County.

"Harrisburg-Alford Junction Paving Project on Diamond Hill Road in Linn County. The Commission elected to accept the low bid of Roy L. Houck Sons' Corporation, Salem, in the sum of $33,945, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County is received and the sum of $7,720 is deposited by the County.

"Construction of the Bryant Park Bridge over Calapooya River on Vine Street, in Linn County. Low bid was submitted by Inter City Construction Company, Eugene, in the amount of $49,009; however, as this is a city project, all bids were referred to the City of Albany for award.

"136th Avenue-181st Avenue Paving Project on N. E. Glisan Street in Multnomah County. The Commission elected to accept the low bid of Oregon Asphaltic Paving Company, Portland, in the sum of $111,076,50, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $23,400 is deposited by the County.

"Grading and construction of detour bridges on the Page Street-Main Street Unit, East Bank Freeway Section of the Pacific Highway in Portland, Multnomah County. The Commission elected to accept the low bid of Peter Kiewit Sons' Company, Vancouver, in the sum of $1,826,728.75, and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of the Luckiamute River Bridge in Polk County. The Commission elected to accept the low bid of Orlando C. Bennard and Glenn Snook, Eugene, in the sum of $64,642, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Polk County is received and the sum of $14,600 is deposited by the County.

"Construction of the Rickreall Creek Bridge on County Road No. 7414 in Polk County. Low bid was submitted by Orlando C. Bennard and Glenn Snook, Eugene, in the amount of $39,583; however, as this is a county project, all bids were referred to Polk County for award.

"Construction of the Grass Valley Canyon Bridge on Moro-Lone Rock Road in Sherman County. The Commission elected to accept the low bid of B & H Construction Company, Boring, in the sum of $23,869, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Sherman County is received and the sum of $14,300 is deposited by the County.

"Hermiston (First Street W.) Leveling Course and Paving Project in Umatilla County. The Commission awarded the contract to low bidder, H. J and H. W. Miller, Baker, at $18,247.

"Leveling course and oiling on the Enterprise-Brock Corner and Werst Corner-Wallowa Sections of the Fish Hatchery and Werst Corner-Wallowa Roads in Wallowa County. The Commission elected to accept the low bid of Arthur Simonsen and Company, Baker, in the sum of $74,879, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Wallowa County is received and the sum of $17,000 is deposited by the County.

"Grading and paving and construction of a bridge or the Hillsboro-Reedville Section of the Tualatin Valley Highway in Washington County. The Commission elected to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $563,825, and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Signing and illumination on the Washington County Line-Highlands Interchange in Multnomah County. The Commission awarded the contract to low bidder, Electrical Products Corporation of Oregon, Portland, at $59,622.68.

"Scholls road structure, grading and paving on the Tualatin River (Scholls) Bridge Section in Washington County. The Commission awarded the contract to low bidder, George E. Berry, Beaverton, at $180,272.

"Construction of a building and installation of a filter and chlorinator system at Smith Creek Youth Camp in Silver Falls State Park in Marion County. The Commission awarded the contract to low bidder, Stevenson Construction Company, Salem, at $16,482."

The Commission also discussed with the Engineer and the Right of Way Engineer the status of projects on which bids are to be received July 28, 1960.

A proposed settlement with Portland General Electric Company, File R-28358, for property on the Washington County Line-Highlands Interchange Section of Sunset Highway, Multnomah County, (at Sylvan) was brought up by the Chief Counsel. This property, he stated, consists of 19,000 square feet of land and two houses, and has been appraised for $10,000. An offer previously was submitted in the amount of $10,300 plus $350 interest, or a total of $10,650. The Electric Company has now offered to accept the sum of $12,000 and to release several easements on property not involved in this transaction, but over which their wires pass. He recommended that the settlement be accepted, provided the Electric Company will furnish the easement releases. The Commission approved the settlement.

The Chief Counsel also brought up the matter of a deduction for gas tax refund in the amount of $1,700 made by the United States General Accounting Offices from a bill submitted by the State Highway Department. He recalled that the Department of Motor Vehicles had refused to refund this $,700, and the General Accounting Offices, believing they were exempt from the gas tax, have deducted that amount from money owed the Highway Department. The General Accounting Offices, the Chief Counsel continued, have again refused to pay this amount, and he requested authority to contact the two Oregon Senators in the United States Congress before taking further action. The Commission granted the authority.

A claim by Northwestern Ice and Cold Storage Company in the amount of $107,610 was brought up by the Chief Counsel. He explained that in preparing plans and determining the alignment of the East Bank Freeway Section of the Pacific Highway in Portland, Multnomah County, the Company had first been advised that it would be necessary to take their property. At the insistence of the Bureau of Public Roads, a change was made in the alignment, and it was determined that their property would not be needed. The damages they seek to collect now are for what they claim as out-of-pocket expenses incurred in the belief that their property would be taken for highway purposes. Chairman McIver inquired if the court granted them damages, would the Bureau of Public Roads participate in payment. The Chief Counsel replied that he believed it would be doubtful. The Commission instructed the Chief Counsel to take necessary steps to protect the interests of the State.

The Commission signed agreements, deeds, and other papers.

The meeting was adjourned at 2:25 p.m. to be reconvened on the following day at 9:30 a.m.

Salem, Oregon
July 8, 1960

The Oregon State Highway Commission reconvened at 9:30 a.m. in Room 419, State Highway Building. The following persons were present:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
Walter T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information
Floyd Query, Secretary

Mr. Emmett Rogers, Salem, appeared before the Commission regarding development of Wallace Marine Park along the Willamette River in and near Salem. The construction of dams, he pointed out, has developed wonderful waterways, but these waterways are not being enjoyed because facilities adjoining them are not available to the public. He produced petitions, signed by approximately 550 residents of Oregon, petitioning the Polk County Court, in which area the proposed park is located, to obtain approximately 400 acres of land on the westerly side of the River and north of the existing Wallace Marine Park, and to correlate the functions of existing committees in the creation of a recreational center. The proposed park area, he continued, has been submitted to Congress, the Department of the Interior, and the Army Engineers for their consideration. Oregon, he commented, is being made into a corridor state, and tourist traffic, which is one of the key industries in Oregon, is not being utilized to its fullest extent. The area

involved, he pointed out, is flood land that should be protected by a dike. He spoke of the potential power from the Willamette River, and told of the large amount of gas rebate not claimed by boat users, which money goes into the highway fund. The Oregon Marine Board, he explained, is registering all motor boats in the State, and distribution of the money is made to the counties based upon the registration of boats in each county. It is intended to seek legislation which will place such funds in the parks project. He told of a contemplated 50-year program which will include development of park facilities every 75 miles along the river waterways of Oregon, with Salem as the pilot development. He requested that consideration be given to the acquisition of land for park purposes along the rivers of the State, and that a committee be organized to develop the project. Chairman McIver thanked Mr. Rogers for his presentation.

Harold Schnitzer, Portland, President of Park Plaza Apartments, appeared before the Commission regarding the proposed Foothills Route (Stadium Freeway) as it affects his apartments. The Park Plaza, he advised, is a 150-unit apartment house on S. W. Park Avenue and Jackson Street. The Foothills Route, he continued, will take a portion of the Park Plaza's rear parking lot, will destroy part of the access to the building, and will create a noise nuisance. He pointed out that if the route could be moved away from the building, the injury to the apartment house would be lessened; however, if the Freeway goes through as planned, he believed that the noise factor would be cause for inverse condemnation. Should there be no change in the present designated route, he suggested that several blocks of the highway near the apartment house be placed in a tunnel and landscaped, which would substantially reduce the noise factor. Chairman McIver thanked Mr. Schnitzer for presenting this matter to the Commission.

Mr. Paul B Rynning, Medford, representing the Jackson County Chamber of Commerce, and Mr. R. A. Duff, City Manager of Medford, appeared before the Commission regarding the possibility of speeding up construction of the elevated freeway section of the Pacific Highway through Medford as a means of alleviating traffic congestion in the downtown area. Mr. Rynning stated that the three highway routes through the City of Medford create a traffic problem, particularly for east-west traffic. He requested that the Commission expedite construction of the freeway through Medford, pointing out that Medford is the only large city on US99 that is not by-passed or in the process of being by-passed. While it is realized that the designing of the structure will take time, he continued, they are quite anxious to have the route constructed in order to divert traffic from the congested City streets. He submitted a brief outlining his presentation. Mr Duff pointed out that next to Springfield, Medford is the most rapidly growing city in Oregon, having had a population growth of over forty per cent since 1950, which accounts for the correspondingly rapid growth in vehicular traffic. He reiterated their desire for early construction of the freeway section through Medford, and pledged the support and co-operation of the City administration in this matter. Chairman McIver thanked the delegation for bringing this matter to the Commission's attention.

Mr. Mark Schnitzer, President of Congregation Shaarie Torah, and Mr. David Robinson, a friend of the Congregation, both from Portland, appeared before the Commission regarding the Stadium Freeway Route in Portland. Mr. Robinson explained that the members of the Shaarie Torah are an Orthodox Jewish congregation, which means that they conduct their worship in the traditional manner, and they walk to their synagogue on their Sabbath. A new synagogue was recently erected at the present location because it is within walking distance of the members' homes. If the Foothills Route Section of the Stadium Freeway is constructed as presently planned, he added, their synagogue will be taken, and there is no available area where it can be relocated which would allow the members to walk to their place of worship. He requested that the Commission reexamine its plans with reference to their synagogue to see if it is not possible to arrange the route of the Freeway so as not to destroy this institution. Mr. Schnitzer pointed out that many of their congregation have lived in the same community for forty or fifty years, and they are greatly concerned about their synagogue since it is impossible to secure another location within the area. He urged the Commission to move the routing of the Stadium Freeway so that their building will not be destroyed by the construction. Chairman McIver thanked the delegation for bringing this matter to the Commission's attention.

Mr. W. H. Steiwer, Fossil, headed a delegation which appeared before the Commission to request improvement of the Service Creek-Mitchell Secondary Highway. Also present were Cecil Sly, Prineville Chamber of Commerce and Isaac Walton League, William B. Morse, Memorial Hospital in Prineville and Prineville Chamber of Commerce, and Ivan Chappell, Manager of the Prineville Chamber of Commerce, all from Prineville; Gus Hagglund, Deschutes Farmers Co-operative, Redmond; and Elmar Jackson, farmer representing Mitchell people, Mitchell. Mr. Steiwer introduced the members of his delegation and stated that the Condon and Prineville Chambers of Commerce, the Fossil Community Club, Ernie Fatland, Condon, and the Wheeler County Court all endorse the request for the improvement of this highway. He read a letter from Kinzua Corporation, Kinzua, in which they advise of their support for improvement of the Donnelly Grade Section of the Service Creek-Mitchell Highway, and state that it would benefit their corporation if this secondary highway were kept in better condition. It was his observation that with some straightening and grade improvement in the present location, the road would be serviceable for their needs. Mr. Sly spoke in behalf of the recreational facilities in the central Oregon area, pointing out that improvement of the highway would not only induce many more people from the central Oregon area to use this route, but it would also increase the tourist traffic. He told of the danger to traffic traveling over the existing highway during stormy weather. The Crook County Chamber of Commerce and the Prineville Chapter of the Isaac Walton League, he added, request that consideration be given to this highway section. Mr. Morse stated that Prineville Hospital is the only hospital in the central Oregon area, and is used by Wheeler County patients. In the wintertime, he continued, because of the bad condition of the Service Creek-Mitchell Highway, it is necessary

for patients from Fossil and Spray to travel a distance of 80 miles to the hospital over ORE 19 via Dayville; however, if the road were improved, they would have to travel only 26 miles. For the health and welfare of the community, he added, the hospital is supporting the request for this highway improvement. Mr. Hagglund told of the advantages a better road would afford to school buses, to transporters of timber and lumber, to sportsmen and tourists, and to the economic well-being of the area, particularly for cattle and grain growers. He pointed out that the Condon area is a large grain-producing area, while the Mitchell-Redmond-Prineville area is a consumer of the grain. It was his contention that development of this road would considerably lower the cost of transporting the grain into the cattle-feeding areas, thereby creating a better market for both the grain producers and the grain consumers. Mr. Chappell stated that he was interested in the road from an economic standpoint, particularly as it affects Prineville, central Oregon, and Wheeler County. The people in the Spray-Condon-Fossil area, as well as the cattle growers, he added, have expressed a desire for a better road to bring their products into the area. Mr. Jackson spoke in favor of the improvement, pointing out that at the present time the school bus transports children over a ten and one-half mile section of the Mitchell-Service Creek Highway, but in a short while it will be traveling over a longer section of that highway. Mr. Steiwer concluded their presentation by requesting improvement as soon as possible on the Donnelly Grade Section, which, in his opinion, is the worst section. Chairman McIver thanked the delegation for their presentation.

Judge Oscar Peterson, Morrow County Judge, Heppner, was spokesman for a group who appeared regarding completion of an additional five-mile section of the Heppner-Spray Highway, and improvement of the Heppner Highway. The following composed the delegation: Gene Ferguson, Heppner, and Russell Miller, Boardman, Morrow County Commissioners; O. W. Cutsforth, Lexington; and Gene Pierce, Heppner, Manager of the Bank of Eastern Oregon. Judge Peterson told of the park and recreational development under construction at Bull Prairie by the Fish and Wildlife Service, and of the money being expended by the U. S. Forest Service for re-routing roads in preparation for the recreational area. In order to complete the Spray-Heppner Highway to Bull Prairie Junction near the new park development, he requested that an additional four or five-mile section be improved at this time as a continuation of the project scheduled for completion in September. He pointed out that if this highway is improved as requested, it will also benefit the people in the Spray area and those desiring to travel to the central part of Morrow County. Mr. Pierce advised that there are no buses or trains in their area, and they must depend entirely upon private automobiles for transportation; however, they are hampered by lack of good access roads in the County. He requested additional work on the cut-off road from ORE 74 between Morgan and Arlington, and construction of a good watergrade road along Willow Creek between

Heppner and Ukiah. After completion of the John Day Dam, he added, Willow Creek will become a recreational area with many people living along it, and the road between Morgan and Arlington will be a more direct route to Highway 30, particularly for transporting wheat. Mr. Cutsforth stated that Morrow County is short of recreational areas and facilities, but with the development of a lake by the Game Commission at Bull Prairie, which will be the only lake in Morrow County, there will be a demand for its use. He pointed out that he has developed for the County a park about one mile from the Forest Service Morrow County Road, and it is their hope that if the road between Ukiah and Heppner becomes a state highway, the State will assume jurisdiction over this park. Construction of the highway up Willow Creek, he commented, will shorten the distance forty miles from Heppner to La-Grande, Baker and Boise, via Starkey and Lehman, will reduce the distance twenty miles to John Day and points south. He reiterated the sentiments expressed by Mr. Pierce concerning the shortage of roads in Morrow County, particularly from Heppner south. Messrs. Ferguson and Miller endorsed the remarks of the other speakers for early construction of the Willow Creek Road. Judge Peterson mentioned that with the release of the Boardman Bombing Range for industrial development, industry will be attracted to the area. He concluded his presentation by pointing out the potential areas in southern Morrow County which could be used for recreational development. Chairman McIver thanked the delegation for their presentation.

The Engineer brought to the Commission's attention the suggestion offered by Mr. George Williams, Deputy Commissioner of Engineering of the U. S. Bureau of Public Roads, Washington, D. C., for the employment of a firm of soil mechanics engineers to review the State's findings, to obtain additional site information and soil data, and to submit recommendations regarding the feasibility of constructing fills and structures in the vicinity of The Dalles By-Pass Section of the Columbia River Highway. He recommended the hiring of Dames and Moore, one of the outstanding firms in the West, at a fee of $2,500, and advised that the Department of Finance and Administration has approved such employment. The Commission accepted his recommendation and signed the agreement.

The Chief Counsel requested the Commission to declare by resolution the necessity of acquiring property owned by Oregon-Washington Railroad and Navigation Company, File No. R-29592, for right of way purposes, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of the property as to price, and in the event of disagreement, to proceed to acquire such property by condemnation. The Commission granted authority to condemn the property if negotiations are not successful, and thereupon adopted a resolution, marked Exhibit "I-12", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 7 and 8, 1960."

There being no further business to come before the Commission, Chairman McIver declared the meeting adjourned at 10:45 a. m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
July 28, 1960

The State Highway Commission met in special session at 12:00 noon in the Engineer's office in the State Highway Building in Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
L. I. Lindas, Chief Counsel
Floyd Query, Secretary

The Commission discussed with the Engineer bids which had been received at 9:00 a.m. on the same date. The Engineer pointed out that low bids received on the Pocahontas Section of the Pocahontas Road in Baker County; on the Rickreall-Orr Corner Section of the Pacific Highway West in Polk County; and on the Sheep Creek Hill-Hayden Creek Section of the Little Sheep Creek Highway in Wallowa County, had exceeded the estimated cost by more than ten per cent in each instance. He recommended, and the Commission approved, that all bids on these three projects be rejected as being too high. On the other bids received, the Commission authorized the Engineer to make direct award or referred the bids to the Engineer to make the award at a later date when certain conditions have been fulfilled.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions marked Exhibits "A-1" through "A-5", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1960."

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated July 28, 1960. [Letter erroneously dated July 18, 1960])

A proposed settlement of the Troy condemnation cases, File Nos. R-28965, R-28055, R-28056 and R-29175, on US30, south of Baker, in Baker County, was presented by the Chief Counsel. He explained that

after a considerable period of negotiation, the Troys have agreed to a settlement on the four cases for a total amount of $65,000. The property was appraised by the State at a valuation of $62,000, which may be increased to $63,000 when all the details have been computed. As the difference between the appraised value and the proposed settlement is not substantial and would not warrant taking the cases to trial, he recommended that the settlement be approved. The Commission approved the settlement

In the proposed construction of the Rickreall-Orr Corner Section of the Pacific Highway West in Polk County, the Chief Counsel reported that a Mr. Robert R. Rodgers has 100 tons of sacked grain stored in property which will be required for the proposed improvement. Mr. Rodgers has agreed to cancel his lease for storage of the grain and to move it for the sum of $300. The Deputy State Highway Engineer, Mr. Forrest Cooper, called attention to the fact that bids received for this project today have been rejected, and the project would probably not be readvertised until September, in which event Mr. Rodgers might be able to move his grain in the normal course of his business. The Commission approved the settlement as presented by the Chief Counsel, provided it is necessary to move the grain before Mr. Rodgers's lease expires.

The Chief Counsel also discussed briefly with the Commission a proposed bill to be submitted to the 1961 Legislature,having to do with the elimination of the requirement for paying interest on moneys which are paid into court for condemnation cases.

Formulation of a five-year highway construction program was brought up by the Engineer. He presented to the Commission a tentative draft of the program for their study. It was the opinion of the Commission, expressed in discussing the program, that actual adoption should probably be made in segments of one year, although the full five-year program should be studied as a unit.

Chairman McIver requested the Engineer to conduct a study of the Weight-Mile Tax as it affects haulers in Oregon, so that the information may be available for legislative consideration.

The meeting was recessed at 12:20 p.m. and reconvened at 2:30 p.m., at which time award of contracts was made as follows:

BIDS RECEIVED IN SALEM ON JULY 28, 1960

"Leveling course and oiling on the Pocahontas Section of the Pocahontas Road in Baker County. The Commission rejected all bids as being too high.

"Construction of the Pine Creek Bridge, east from the community of Halfway on Pine Creek Road, in Baker County. The Commission awarded the contract to low bidder, Watkins Construction Company, Boise, at $28,760.

"Grading and paving on the Milwaukie-Harmony Point Section of the King Road in Clackamas County. The Commission elected to accept the low bid of Logan, Taylor and Company, Portland, in the sum of $213,559, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Clackamas County is received and the sum of $49,000 is deposited by the County.

"Grading and paving on the New Era-Canby Section of the Pacific Highway East, northerly of Canby, in Clackamas County. The Commission elected to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $365,402, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading, surfacing and oiling on the Powers Junction-Sugarloaf Mountain Section of the Coos Bay-Roseburg Highway, in Coos County. The Commission elected to accept the low bid of Miller and Hutchins Contractors, Inc., Roseburg, in the sum of $447,123.30, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Stone base, binder, and aggregate production on the Burnt Hill-Thomas Creek Unit, Burnt Hill-Brookings Section of the Oregon Coast Highway, north of Brookings, in Curry County. The Commission awarded the contract to low bidder, Peter Kiewit Sons Company, Medford, at $373,976.50.

"Structure, grading, paving and sign installation on the McKenzie-Bend Highway Interchange Section, in Deschutes County. The Commission awarded the contract to low bidder, Babler Bros., Inc., Portland, at $149,646.

"Grading and oiling on the North Unit, Lyle Gap-Madras Section of The Dalles-California Highway, in Jefferson County. The Commission elected to accept the low bid of Earl L. McNutt Company, Eugene, in the sum of $786,577.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Roadside improvement of the North Grants Pass-"M" Street Section of the Pacific Highway, north of Grants Pass, in Josephine County. The Commission elected to accept the low bid of Ernest Ferrante and Company, Portland, in the sum of $23,274.08, and the State Highway Engineer is directed to award the contract to said bidder as soon as a sworn statement is received from Ernest Ferrante and Company.

"Construction of a K.I.D. "A" Canal Bridge on the Hope Street-County Road at the south city limits of Klamath Falls, in Klamath County.

The Commission elected to accept the low bid of Pacific Concrete Company and Otis P. Jordan, Jr., Portland, in the sum of $37,030, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Klamath County is received and the sum of $6,650 is deposited by the County.

"Construction of the Hamilton Creek Bridge, easterly of Lebanon on the Lebanon-Berlin Road in Linn County. The Commission elected to accept the low bid of Heavy Machinery Company, Inc., Salem, in the sum of $19,980, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Linn County is received and the sum of $1,900 is deposited by the County.

"Construction of the Santiam River Overflow Trestle No. 2 on the Jefferson-Albany Secondary Highway, near Jefferson, in Linn County. The Commission awarded the contract to low bidder, A. W. McCoy and Company, Hubbard, at $41,067.

"Construction of the Siletz Bay Bridge Drawrest Replacement at Kernville on the Oregon Coast Highway, in Lincoln County. The Commission awarded the contract to low bidder, Calkins Crushing Company, Oceanlake, at $17,624.

"Oiling on the S. Unit, Bomber Range Road Section of the Bomber Range Road, southeasterly of Boardman, in Morrow County. The Commission elected to accept the low bid of Newport Construction Company, Portland, in the sum of $38,083, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Morrow County is received and the sum of $8,700 is deposited by the County.

"Paving and signing on the S. W. Lowell Street-S. W. 11th Avenue Unit, Harbor Drive-Washington County Line Section of the Pacific Highway (R. H. Baldock Freeway), in Portland, Multnomah County. The Commission awarded the contract to low bidder, Roy L. Houck Sons' Corporation, Salem, at $1,238,283.90.

"Installation of the Tillamook Street Partial Viaduct in Portland on the Pacific Highway, Multnomah County. The Commission awarded the contract to low bidder, C. J. Montag and Sons, Portland, at $68,242.50.

"Grading, paving and structure on the Rickreall-Orr Corner Section of the Pacific Highway West, southerly from Rickreall, in Polk County. The Commission rejected all bids as being too high.

"Paving and four structures on the Deadmans Pass-Meacham Section of the Old Oregon Trail Highway east of Pendleton, in Umatilla County. The Commission awarded the contract to low bidder, Rogers Construction Company, Portland, at $1,387,905.

"Grading and oiling on the Sheep Creek Hill-Hayden Creek Section of the Little Sheep Creek Highway, in Wallowa County. The Commission rejected all bids as being too high.

"Grading, paving, structure and signing on The Dalles-Big Eddy Section of the Columbia River Highway, in Wasco County. The Commission elected to accept the low bid of Vernie Jarl, Gresham, in the sum of $1,108,089, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Installation of Salem Traffic Signals for S.E. Mission Street at 12th and 13th Streets, and S.E. Rural Street at 12th Street, in Marion County. Low bid was submitted by Electric Corporation, Salem, in the amount of $7,470; however, since this is a city project, all bids were referred to the City of Salem for award.

There being no other business to consider, the meeting was declared adjourned at 2:35 p.m.

State Highway Engineer

M. K. McIver, Chairman

Secretary

K. N. Fridley, Commissioner

Salem, Oregon
August 18, 1960

The Oregon State Highway Commission met in regular session at 10:00 a.m. in the Conference Room of the State Highway Building in Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Floyd Query, Secretary

The Commission approved the minutes of regular meetings held on June 2 and 3, 1960 and July 7 and 8, 1960, and a special meeting held July 28, 1960.

The State Parks Superintendent reported on the following park matters:

Resignation of Robert B. Frazier from the State Parks and Recreation Advisory Committee: The Parks Superintendent stated that Mr. Frazier had written a letter to him stating that he felt he must resign because of the pressure of other things that he is required to do. He also stated that Mr. Tugman, Chairman of the Advisory Committee, planned to be in Salem on the following day and that he wished to discuss with the Commission the replacement of Mr. Frazier. No action was taken by the Commission at this time.

Report on requested park development in Josephine County: Many requests have been received, the State Parks Superintendent stated, for development of a park in Josephine County, and considerable effort has been made to locate a suitable area. The best area available is a tract of 160 acres, located just south of Cave Junction

on the Redwood Highway and on the East and West Forks of the Illinois River. The area has considerable tree cover, and there are two streams which could provide the usual water sports of boating, fishing and swimming. A gravel crushing plant has been operating on the East Fork of the Illinois River within the area, but it was his understanding that it can be removed and unneeded roads and other unsightly features can be obliterated. The cost of developing the area and purchase of land he estimated at $28,000, with the cost of operation and maintenance at approximately $5,000 per year. There will be about 30,000 visitors per year. About half of the tract is Federal land, and half privately owned. The Commission approved his recommendation that the tract be acquired and developed as outlined above. The Commission also complimented the Parks Superintendent on the written report which he presented on this subject.

Report on plan and purpose of the Park and Recreation Study: The Parks Superintendent presented a proposed outline, dated August, 1960 and entitled "Oregon Non-Urban Park and Recreation Study". The outline, he stated, is based on information obtained from other agencies doing similar work, particularly the State of California Public Outdoor Recreation Plan. He pointed out that the outline covers all agencies interested in recreation; however, it is not intended to pursue the details of county, city, and private developments, but it is planned to go into great detail where the interests of the State are concerned. Commissioner Jackson inquired as to how long it is expected to take to complete the study. The Parks Superintendent replied that he doubted if the final report could be completed in 1961, but partial reports could be submitted at intervals. It is planned, he continued, to set up $50,000 in next year's budget for this study. He also commented that the State of California has taken three years to conduct a similar study and that they had prepared preliminary reports. Commissioner Jackson stated that there has been a great public demand for a comprehensive over-all parks and recreation plan, that the plan to be approved by the Commission should furnish definite answers to the Legislature on as many features as possible, and that the plan should be constructive and practical. Commissioner Fridley commented that the plan approved by the Commission should advise the Legislature of the State's objectives, and that it is intended to co-ordinate the resources available in the State to work on the recreational plan, including all State and Federal agencies. The Parks Superintendent pointed out that it may be advisable to set up a technical or special committee to aid in the work. Commissioner Jackson declared that the first paragraph in the proposed outline, entitled "Purpose", does not include all that is desired, and he would like to discuss this paragraph with the Parks Superintendent at a later time. Chairman McIver stated that in his opinion, a preliminary conference should be held with other agencies interested in park development, such as the United States Forest Service and the various counties and cities. It was his thought that this type of meeting should be held before the Commission adopted definite objectives for State Park development. No further action was taken at this time.

Proposed change in rules and regulations pertaining to the opening of certain areas in eastern and central Oregon for overnight camping: A considerable demand has developed for overnight camping in certain park

areas where such camping is not now permitted, the State Parks Superintendent stated. To accommodate this demand, he recommended that overnight camping be permitted in Unity and Farewell Bend Parks in Baker County; Owyhee Park in Malheur County; Chandler Park and Booth Park in Lake County; Collier Park and Kimball Park in Klamath County; Loeb Park in Curry County; Lewis and Clark Park in Multnomah County; Ben and Kay Dorris Park in Lane County; Shelton Park in Wheeler County; and Thomas Condon-John Day Fossil Beds Park and Painted Hills Park in Grant County. A charge of seventy-five cents per night is to be made on all of them, with the exception of Thomas Condon-John Day Fossil Beds and Painted Hills Parks, on which no charge is to be made until the use becomes sufficient to require daily clean-up. The Commission accepted his recommendation.

Proposal of Portland General Electric Power Company to rebuild and maintain the power line in Champoeg State Park: The Parks Superintendent stated that the State now owns the power line in the park. The Daughters of the American Revolution facilities in the park have created a demand for power which will require extension of the existing line. It has been suggested to the Power Company that they take over the entire power line. The Power Company has offered to pay the State $250 for the existing power line, and has agreed to maintain it and extend the line to the DAR building at no cost to the State. As the line has been in use for fifteen years and the cost of maintenance would be large in the near future, it was his recommendation that the line be sold to the Portland General Electric Company for $250 and that they be given a permit across the park property where the line is located for maintaining it and constructing the extension. The Commission approved the recommendation.

Chairman McIver inquired as to what progress has been made by the United States Government in constructing a building at Champoeg Park. The Parks Superintendent replied that the matter now lies in the hands of the United States Parks Service and that he would contact them in the near future.

Out-of-state expense for State Parks Superintendent: The Parks Superintendent requested authority to attend the National Conference on State Parks at Rockland, Maine, September 18-23, 1960, at an estimated cost of $400. The Commission approved the out-of-state travel.

Request of P & A Enterprises, Inc. for an extension of their lease to operate concession privileges at Rooster Rock State Park: The Parks Superintendent reported that it was his understanding that P & A Enterprises, Inc. wish to eliminate certain services that they are now required to furnish, or that they be permitted to retain an additional $1600 per year from rentals now paid. The State's income from the park in 1958, he continued, was $5,010.63, and in 1959 was $4,058.66, being twenty per cent of the gross income. The changes requested by the lessee, he continued, are considerably different from the agreement which was set up

in the proposal on which bids were received. It was his recommendation that if the lessee insists on the reduction of $1600 per year in rental, that the concession privileges be readvertised. The contract, he recalled, will expire December 31, 1960. The Commission took no action at this time, pending the appearance of the operator of the concession on the following day.

Report on negotiations for relocation of The Cove Palisades State Park because of construction of Round Butte Dam in Jefferson County: The completion of drilling of four holes to investigate stability of proposed areas on which to move State park facilities was reported by the State Parks Superintendent. The first two holes, he continued, were located on the easterly side of Crooked River and the other two on the easterly side of the Deschutes River. A desirable area is located between the Deschutes and Crooked Rivers, in which area two holes were drilled and no clay volcanic material was found. Geologists who have examined the area have expressed the opinion that this area is safe from sliding. The Portland General Electric Company, who is constructing the Round Butte Dam, has made a tentative offer to pay the State $350,000 and that the State assume all costs of re-establishing the park. It was the Parks Superintendent's opinion that the park should be relocated in the area between the Deschutes and Crooked Rivers, but that a survey should be made to determine the exact location of the facilities and the cost of installing them before final consideration is given to the offer made by the Power Company. Commissioner Fridley inquired if there is a known source of water for park use. The Parks Superintendent replied that at the present time there is none, but when the reservoir is filled with water it is anticipated that no particular trouble will be incurred in securing water from wells. Commissioner Fridley suggested that the Power Company be made responsible for furnishing water. Chairman McIver inquired if, in the Parks Superintendent's estimation, the offer of $350,000 is adequate. He replied that the value of the facilities which will be inundated is considerably less than this amount, but re-establishment of similar facilities may cost $350,000 or more. The Commission authorized the survey as recommended by the Parks Superintendent and the Engineer.

The Right of Way Engineer presented for consideration options (pages 1 through 93) secured for acquisition of real property that is needed for State highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

The Property Manager's report covering sales of miscellaneous properties and changes in rental status was presented by the Right of Way Engineer. He explained briefly that the total miscellaneous sales

made since the last Commission meeting amounted to $58,381.40, and that rental receipts for the month of July totaled $9,945.19. The Commission accepted the report.

"Indentures of Access" concerning changes in points of access to State highways were presented by the Right of Way Engineer. He pointed out that the changes have been made for the safety of the traveling public and for the convenience of the property owners. Concerning the Schlothan property, he explained that the "Indenture of Access" is given to correct an unintended inequity which was made in 1952 when a slope easement had been acquired. Upon his favorable recommendation, the Commission approved the following "Indentures of Access":

(a) Barrett property, File No. 22671, on the Buell-Salt Creek Section of the Willamina-Salem Highway, Polk County.

(b) Goslin property, File No. 20050, on the Mt. Vernon-John Day Section of the John Day Highway, Grant County.

(c) Opheim property, File No. 24399, on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway, Washington County.

(d) Crook property, File No. 25501, on the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, Curry County.

(e) Nyberg property, File No. 4844, on the Nyberg Interchange Section of the Pacific Highway, Washington County.

(f) Pacific Supply Co-operative property, File No. 23848, on the Hillsboro-One Way Street Section of the Tualatin Valley Highway, Washington County.

(g) Hall property, File No. 10464, on the Crooked River-Terrebonne Section of The Dalles-California Highway, Deschutes County.

(h) Schlothan property, File No. 18698, on the Tigard-Newberg Section of the Pacific Highway West, Washington County.

Transfer of title in its entirety of the former Mack Truck Building to the City of Portland was considered. The Right of Way Engineer explained that this property, which is located on the Interstate Avenue-Steel Bridge Section of the Pacific Highway West in Multnomah County, was acquired on a 60-40 basis with the City of Portland under the Front Avenue Project, and is outside the audit of that account which was recently settled. The building has been appraised at $99,202, and he recommended that the State's forty per cent interest in the building be transferred to the City of Portland for the sum of $39,680. The Commission approved the sale and thereupon adopted a resolution marked

Exhibit "B-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

Authority was requested by the Right of Way Engineer to offer at public sale several parcels of property which are no longer required for highway purposes. He explained that each parcel has been carefully appraised to determine its value, and access has been allowed or denied in accord with departmental policy prevailing in the area in which the property is located. The Commission authorized public sale of the following parcels of property and thereupon adopted resolutions marked Exhibits "C-1" and "C-2", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960":

(a) 1.774 acres from the former White property, File No. 11386, on the Pelican City-South Sixth Street Section of the Klamath Falls-Malin Highway, Klamath County, for a minimum consideration of $750.

(b) 1.73 acres from the former Reimer property, File No. 18158, on the Dolph Corner-Rickreall Section of the Willamina-Salem Highway, Polk County, for a minimum consideration of $250. No access is to be allowed to the relocated Willamina-Salem Highway.

(c) 26,851 square feet of land from the former McCurdy property, File No. 25929, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway, Multnomah County, for a minimum consideration of $10,500, subject to a permanent easement to maintain a drainage facility and without access to the Pacific Highway. An advertising sign restriction is to be imposed. (See Exhibit "C-1")

(d) 21.8 acres from the former Gibb-Copeland properties, File Nos. 20647 and 20352, on the Willamette River-Gervais Road Section of the Pacific Highway, Marion County, for a minimum consideration of $2,000, subject to an advertising sign restriction, a Bonneville Power easement, and a stipulation that no electronic equipment may be installed on the property. No access is to be permitted to the Pacific Highway. (See Exhibit "C-2")

Consideration was given to a "Modification of Use of Access" to Leora R. Dettrich, File No. 15783, on the Sweet Home-Foster Section of the Santiam Highway, Linn County. The Modification changes a restricted access to an access unrestricted as to use under the Commission resolution of July 31, 1958. The Modification is contingent upon completion by the owner of a revised approach, estimated to cost $1,000. Upon the Right of Way Engineer's favorable recommendation, the Commission approved the Modification of Use.

Direct sale of 1,600 square feet of excess property, File No. 13770-Lapp, located on the Front Street-Coos Bay Section of the Oregon Coast Highway, Coos County, was brought up by the Right of Way Engineer. He explained that this property is desired by the City of Coos Bay and they have indicated a willingness to pay $1,190 for the property, which is the appraised value. If the parcel is sold to the City, it would be without restriction of access to the Oregon Coast Highway and there would be no restriction in the deed regarding use of the property. The Commission approved his recommendation that the property be sold to the City of Coos Bay, and thereupon adopted a resolution, marked Exhibit "B-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

Sale of a steel tower on State property on Sand Island to the Skamania County Fire District No. 1 was brought up by the Right of Way Engineer. This property, which is located on the Tunnel Point-Bridal Veil Section of the Columbia River Highway, Multnomah County, is no longer of value to the State. He recommended that it be sold to the Fire District for not less than $50, under the condition that the tower is to be removed immediately after the sale has been completed. The Commission approved the sale.

Consideration was given to a proposed exchange of land with the Jaymar Wholesale Lumber Company of Portland. The Right of Way Engineer explained that it is proposed to acquire from the Lumber Company 102 square feet of land required for construction purposes on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway, Multnomah County, and to sell to them 1,194 square feet of land which is no longer required for highway purposes. Both parcels of property have been appraised and the Jaymar Lumber Company has agreed to pay the State the sum of $200, which is the difference in the appraised valuation of the two properties. The property to be sold is to be without access and subject to advertising sign restrictions. Upon his favorable recommendation, the Commission approved the exchange of properties as presented.

The Commission gave attention to a "Modification of Width and Use of Access" form concerning the Hambach property, File No. 18124, on the Tigard-Onion Flat Section of the Pacific Highway West, Washington County. The Right of Way Engineer explained briefly that the Modification provides for a change in width of an existing access from 25 to 40 feet and from restricted to unrestricted use. The change places the property in a comparable status with other properties in the vicinity. Upon his favorable recommendation, the Commission approved the Modification of Width and Use of Access.

Attention was given to a request from the Pacific Gas Transmission Company for a pipe line easement across a parcel of excess property on the Sherman Junction-Willowdale Section of The Dalles-California Highway, Wasco County. The Right of Way Engineer commented that the Company has offered to pay the sum of $146.50 for the 5.9 acre easement

which is the appraised value of the land they will occupy, and he recommended that the easement be granted without access to The Dalles-California Highway. The Commission approved the Grant of Easement.

The Commission also considered a "Grant of Access" on the Wade Property on the Chenoweth Park-Deady Section of the Pacific Highway, Douglas County. It was explained by the Right of Way Engineer that the original deed inadvertently contained a complete restriction of access between the right of way and relocated Pacific Highway and the owners' abutting land on the westerly side thereof. The Grant of Access, he continued, consists of two 50-foot approaches, unrestricted as to use, direct to the constructed frontage road, and he recommended that it be granted. Such instrument, he pointed out, is required because of the language of the original restriction of access taken at the time of acquisition. The Commission accepted his recommendation.

A proposed Agreement with Bonneville Power Administration was presented by the Right of Way Engineer. He explained that it is a sort of master agreement outlining policy and standards covering problems of access in which Bonneville easements and highway rights of way are involved. It was his opinion that this Agreement should simplify the handling of such matters in the future, and might serve as a basis for similar agreements with other utilities. The Agreement, he continued, has the approval of the Bonneville Power Administration and the Washington office of the Bureau of Public Roads. Upon his favorable recommendation, the Commission approved the Agreement.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "E-1" through "E-18", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnations" dated August 18 and 19, 1960, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations and Reports of Offers".)

In discussing properties which may be condemned, a question arose as to whether depositing with the Court the amount of the low appraised value is a matter of law or Commission policy. The Chief Counsel explained that the making of the deposit is a matter of Commission policy and is done to expedite payment for the property and for the good will of the Department.

A written report was presented by the Chief Counsel concerning condemnation cases which have been tried in court since the last Commission meeting. The Commission accepted the report, which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

July 8, 1960 to August 5, 1960

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3444 Morin, et ux.	Benton	Pacific West	Camp Adair-Lewisburg	$2,400	$9,327	$3,500
L-2760 Bazett, et al.	Josephine	Pacific	Jumpoff Joe Creek-Grants Pass	1,000	8,500	4,000
L-2861 Norris Paint & Varnish Co., Inc., et al.	Marion	Pacific	Salem By-Pass	265	2,000	485

(For additional details, see the Chief Counsel's letter entitled "Report of Cases Tried", dated August 5, 1960, in the General Files, Salem.)

An annual report of condemnation cases tried from July 1, 1959 through June 30, 1960 was also presented by the Chief Counsel. He called attention to the facts that 96 cases had been tried; total verdicts were fourteen per cent above offers; defense attorneys had been awarded $86,815; interest had been paid by the State in the amount of $39,564; and verdicts awarded totaled $1,116,220.27. The total demands, he added, were 137 per cent more than the verdicts, which indicate that the juries have been rendering verdicts more closely in line with the appraisals.

The Chief Counsel also presented a written report on condemnation cases which had been settled out of court since the last Commission meeting. He commented briefly on some of the cases and recommended that they be approved, as it was his opinion that the differences between appraised values and proposed settlements would not warrant taking the cases to court. The Commission approved the settlements, which are summarized as follows:

(See following page for "Report of Condemnation Cases Settled")

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30889 Wells, et al.	Jackson	Lake of the Woods	Hanley Ranch-Forest Boundary	$ 8,660	$ 8,760
R-26695 Skulason Finance Co.	Marion	Pacific	Salem By-Pass	150	150
R-30158, Kempthorn, et ux.	Multnomah	Sunset	Highlands Interchange	500	1,000
R-30503 Batchelar, et ux.	Washington	Tualatin Valley	Hillsboro-Reedville	16,800	16,800
R-30497 Kirk, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	10,400	10,400
R-30466 Medley, et ux.	Washington	Tualatin Valley	Hillsboro-Reedville	2,125	2,125
R-30487 Trachsel, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	375	375
R-30470 Carpenter	Washington	Tualatin Valley	Hillsboro-Reedville	1,170	1,170
R-30471 Carpenter	Washington	Tualatin Valley	Hillsboro-Reedville	2,600	2,600
R-30479 Carpenter	Washington	Tualatin Valley	Hillsboro-Reedville	150	500
R-30491 Carpenter	Washington	Tualatin Valley	Hillsboro-Reedville	14,725	15,980
R-30520 South	Washington	Tualatin Valley	Hillsboro-Reedville	540	640

(See following page for "Supplemental Report of Condemnation Cases Settled".)

SUPPLEMENTAL REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30781 Dyke, et al.	Baker	Sumpter Valley	Sumpter-McEwen	$ 275	$ 275
R-31317 Mitchell, et al.	Clackamas	Pacific Highway East	New Era-Canby	500	500
R-26105 Clausen, et ux.	Coos	Oregon Coast	Davis Slough-Bandon	250	350
R-20553 Hart, et al.	Polk	Pacific Highway West	Rickreall-Orr Corner	12,290	12,500
R-30513 Haverstick, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	310	410
R-30514 Lindahl, et ux.	Washington	Tualatin Valley	Hillsboro-Reedville	325	425
R-28163 Furuset	Lane	Pacific	Judkins Point-Goshen	25	125
R-30508 Spicer, et ux.	Washington	Tualatin Valley	Hillsboro-Reedville	905	1,000 (per letter of August 26, 1960)
R-30496 McCormack, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	20,350	28,000

(For additional details see the Chief Counsel's letters dated August 5 and 17, 1960 entitled "Reports of Cases Settled" in the General Files, Salem.)

A list of offers made to property owners prior to the institution of condemnation proceedings was presented by the Chief Counsel in compliance with a resolution adopted December 20, 1951. The Commission confirmed the following offers:

Hillsboro-Reedville Section of the Tualatin Valley Highway

R-30464 - Hazel L. Seymour, et al. 6,505 square feet for right of way purposes. Offer of $2,800 approved by Mr. McIver, July 19, 1960.

Hillsboro-Reedville Section of the Tualatin Valley Highway - Cont.

R-30466 - William R. Medley, et ux. 6,510 square feet for right of way purposes. Offer of $2,125 approved by Mr. McIver, July 15, 1960.

R-30470 - Jeanne Young Carpenter, et al. 8,250 square feet for right of way purposes. Offer of $1,170 approved by Mr. McIver, July 18, 1960.

R-30471 - Jeanne Y. Carpenter, et al. 10,160 square feet for right of way purposes. Offer of $2,600 approved by Mr. McIver, July 18, 1960.

R-30479 - George E. Young, et al. 6,750 square feet for right of way purposes. Offer of $150 approved by Mr. McIver, July 15, 1960.

R-30483 - Elton L. Livingston, et al. 4,125 square feet for right of way purposes. Offer of $1,635 approved by Mr. McIver, July 25, 1960.

R-30484 - Ralph H. Wilson, et ux. 3,380 square feet for right of way purposes. Offer of $2,300 approved by Mr. McIver, July 21, 1960.

R-30485 - Kenneth R. Wilcox, et al. 3,500 square feet for right of way purposes. Offer of $990 approved by Mr. McIver, July 22, 1960.

R-30487 - Carl Trachsel, et al. 9,700 square feet for right of way purposes. Offer of $375 approved by Mr. McIver, July 19, 1960.

R-30492 - Conley S. Lanham, et al. 18,850 square feet for right of way purposes. Offer of $23,200 approved by Mr. McIver, July 12, 1960.

R-30496 - E. E. McCormack, et al. 21,700 square feet for right of way purposes. Offer of $20,350 approved by Mr. McIver, July 21, 1960.

R-30502 - Valley Memorial Park, Inc., et al. 2.87 acres for right of way purposes. Offer of $14,700 approved by Mr. McIver, July 21, 1960.

R-30507 - Margaret A. Sauer, et al. 2.88 acres for right of way purposes. Offer of $6,260 approved by Mr. McIver, July 19, 1960.

R-30508 - Charles A. Spicer, et ux. Parcel No. 1: 1,810 square feet for right of way purposes; and Parcel No. 2: 43 square feet for right of way purposes. Offer of $905 approved by Mr. McIver, July 18, 1960.

Hillsboro-Reedville Section of the Tualatin Valley Highway - Cont.

R-30509 - P. D. Grimes, et al. 4,600 square feet for right of way purposes. Offer of $3,130 approved by Mr. McIver, July 21, 1960.

R-30511 - Charles W. Ketcham, et al. 1,050 square feet for right of way purposes. Offer of $160 approved by Mr. McIver, July 21, 1960.

R-30513 - Bruce Haverstick, et al. 910 square feet for right of way purposes. Offer of $310 approved by Mr. McIver, July 15, 1960.

R-30514 - Harold H. Lindahl, et ux. 990 square feet for right of way purposes. Offer of $325 approved by Mr. McIver, July 15, 1960.

R-30518 & R-30519 - Ewald Kohlmeyer, et al. Parcel No. 1: 1,030 square feet for right of way purposes; and Parcel No. 2: 1,030 square feet for right of way purposes. Offer of $645 approved by Mr. McIver, July 19, 1960.

R-30520 - Clara M. South, et al. 1,800 square feet for right of way purposes. Offer of $540 approved by Mr. McIver, July 15, 1960.

R-30522 - J. H. Bush, et al. 2,700 square feet for right of way purposes. Offer of $1,000 approved by Mr. McIver, July 20, 1960.

R-30757 - Chester D. McConnell, et al. 9,800 square feet for right of way purposes. Offer of $270 approved by Mr. McIver, July 19, 1960.

R-31335 - Robert Hockersmith, et al. 0.15 acre for right of way purposes. Offer of $3,150 approved by Mr. McIver, July 13, 1960.

New Era-Canby Section of the Pacific Highway East

R-30837 - Ross R. Mitchell, et ux. 0.75 acre for right of way purposes. Offer of $5,200 approved by Mr. McIver, July 28, 1960.

R-30844 - Nellie J. Betters, et al. 0.07 acre for right of way purposes. Offer of $690 approved by Mr. McIver, August 2, 1960.

R-30846 - Gerald Brown, et al. 0.21 acre for right of way purposes. Offer of $1,600 approved by Mr. McIver, August 2, 1960.

R-30874 - John Christensen, et al. Parcel No. 1: 1,300 square feet for right of way purposes; and Parcel No. 2: 550 square feet for permanent easement. Offer of $9,000 approved by Mr. McIver, August 8, 1960.

R-30875 - Albert A. Seida, et ux. Parcel No. 1: 1,400 square feet for right of way purposes; and Parcel No. 2: 765 square feet for permanent easement. Offer of $3,500 approved by Mr. McIver, August 2, 1960.

New Era-Canby Section of the Pacific Highway East - Cont.

R-30876 - Ellis J. Mitchell, et al. Parcel No. 1: 700 square feet for right of way purposes; and Parcel No. 2: 760 square feet for permanent easement. Offer of $1,015 approved by Mr. McIver, August 15, 1960.

R-30879 - Equitable Life Insurance Company of Iowa, et al. 700 square feet for permanent easement. Offer of $1,250 approved by Mr. McIver, August 5, 1960.

R-31317 - Ross R. Mitchell, et al. 0.65 acre for right of way purposes. Offer of $500 approved by Mr. McIver, August 2, 1960.

Lyle Gap-Madras Unit, Willowdale-Madras Section of The Dalles-California Highway

R-26746 - Joseph Quaale, et al. 5.4 acres for right of way purposes. Offer of $750 approved by Mr. Fridley, August 16, 1960.

R-26754 - Clarence S. Duling, et al. Parcel No. 1: 5.2 acres for right of way purposes; and Parcel No. 2: 0.27 acre for permanent easement. Offer of $4,500 approved by Mr. Fridley, August 17, 1960.

R-31263 - Rawleigh C. Dodson, et al. 3.7 acres for right of way purposes. Offer of $3,650 approved by Mr. Fridley, August 17, 1960.

East Bank Freeway Section of the Pacific Highway

R-28254 - Alma Anderson, et al. 3,025 square feet for right of way purposes. Offer of $5,250 approved by Mr. McIver, August 2, 1960.

R-30617 - Robert S. Rosso, et al. 1,300 square feet for right of way purposes. Offer of $7,400 approved by Mr. McIver, July 12, 1960.

Sumpter-McEwen Section of the Sumpter Valley Highway

L-3486 (R-30767) - Brooks Hawley, et al. Parcel No. 1: 1.43 acres for right of way purposes; Parcel No. 2: 12.1 acres for right of way purposes; and Parcel No. 3: 0.18 acre for temporary easement. Offer of $1,275 approved by Mr. McIver, August 2, 1960. An offer of $1,250 was previously approved by Mr. McIver on May 25, 1960. This revision is due to an increase in acreage of Parcel No. 1.

Lake Road-Oregon City Section of the Cascade Secondary Highway

R-28747 - Francis B. Kroll, et ux. 2.45 acres for right of way purposes. Offer of $8,900 approved by Mr. McIver, July 19, 1960.

Seven Oaks-Neil Creek Section of the Pacific Highway

R-29062 - The International Church of the Four Square Gospel, et al. 0.21 acre for right of way purposes. Offer of $35,500 approved by Mr. Jackson, July 21, 1960.

Rhinehart-Elgin Section of the Wallowa Lake Highway

R-30749 - James L. Roberts, et ux. 0.36 acre for right of way purposes. Offer of $125 approved by Mr. Fridley, July 7, 1960.

Cummings Pass-Fossil Section of the John Day Highway

R-30860 - Beulah A. Johnson, et vir. 3,500 square feet for right of way purposes. Offer of $1,500 approved by Mr. Fridley, July 29, 1960.

Washington County Line-Highlands Interchange Section of the Sunset Highway

R-31625 - Henry D. Ellis, et ux. 2.94 acres for right of way purposes. Offer of $9,850 approved by Mr. McIver, August 8, 1960.

Hunter Creek-Myers Creek Section of the Oregon Coast Highway

R-29580 - Glenn Dexter, et al. 2.2 acres for right of way purposes. Offer of $2,100 approved by Mr. Jackson, July 15, 1960.

R-29589 - Robert DeGross, et al. 0.989 acre for right of way purposes. Offer of $590 approved by Mr. Jackson, July 12, 1960.

Myrtle Point-Bridge Section of the Coos Bay-Roseburg Highway

R-30913 - E. F. Hoffman, et al. 1.5 acres for right of way purposes. Offer of $15,200 approved by Mr. Jackson, July 28, 1960.

R-31527 - Rose Garrett, et al. 14.8 acres for right of way purposes. Offer of $6,500 approved by Mr. Jackson, August 15, 1960.

Rickreall-Orr Corner Section of the Pacific Highway West

R-20553 - Pearl Hart, et al. 2.29 acres for right of way purposes. Offer of $12,290 approved by Mr. McIver, July 21, 1960.

R-20556 - Polk County. 1.72 acres for right of way purposes. Offer of $2,165 approved by Mr. McIver, July 21, 1960.

R-20561 - George K. Esau, et al. 1.01 acres for right of way purposes. Offer of $2,210 approved by Mr. McIver, July 22, 1960.

R-20563 - Wilbert E. Hamilton, et al. 0.41 acre for right of way purposes. Offer of $225 approved by Mr. McIver, July 21, 1960.

R-20565 - Pearl A. Teter, et al. 0.17 acre for right of way purposes. Offer of $150 approved by Mr. McIver, July 21, 1960.

Umatilla-Washington State Line Section of the Columbia River Highway

R-28945 - R. W. Richmond, et al. 1.6 acres for right of way purposes. Offer of $650 approved by Mr. Fridley, August 11, 1960.

North Portland Harbor-North Russell Street Section of the Pacific Highway

R-30309 - Lowell C. Paget, et al. 5,000 square feet for right of way purposes. Offer of $8,900 approved by Mr. McIver, July 20, 1960.

Hilgard-LaGrande Section of the Old Oregon Trail Highway

R-30446 - United States National Bank of Portland, (Oregon), et a.. 2.5 acres for permanent easement. Offer of $225 approved by Mr. Fridley, August 16, 1960.

A brief report was presented by the Chief Counsel concerning an order issued by the Public Utility Commissioner in which the State Highway Commission has been a party. The Commission accepted the report, which is summarized as follows:

PUX 347: Aumsville grade crossing signals. This matter arose upon the application of the Highway Commission for installation of automatic electric signals on Main Street in Aumsville (old route of North Santiam Secondary Highway). The order provides that Southern Pacific Company be reimbursed for ninety per cent of the cost of the acquisition and installation of the signals Future maintenance and replacement of the signals are to be the obligations of Southern Pacific Company.

Annexation of a portion of North Denver Avenue to the City of Portland was brought up by the Chief Counsel. He explained that the City Attorney for Portland had urged that early action be taken on this matter and, to expedite the matter, telephonic approval of the Commission had been received, and the "Consent of Annexation" had been signed by the Secretary prior to the Commission meeting. The Commission confirmed the transaction.

The Commission considered a petition from the City of Newport for the vacation of a portion of Third Street within the City of Newport. The Chief Counsel stated that no harm would be done to the State by the vacation and he recommended that the Commission give its consent. The Commission approved the petition.

The cancellation and abandonment of a water right, File No. R-12157, acquired on the Gates-Niagara Section of the North Santiam Highway in Marion County, was brought up by the Chief Counsel. He pointed out that the water has never been used, the Engineer has stated that it is not needed, and he recommended that the water right be cancelled. The Commission accepted his recommendation.

The matter of granting a "Permit of Entry" to the United States Government to enter upon a material and gravel site in Lake County for the purpose of prospecting for and removing oil and gas was presented by the Chief Counsel. Some years ago, he explained, the Commission received an easement from the United States Government to build a highway on certain land in Lake County. The Government at that time neglected to reserve unto themselves the mineral rights to this land, and have now requested the State to release those rights to them. A Permit of Entry containing restrictive provisions for protection of the highway has been prepared, and he recommended that the permit be granted. The Commission approved the recommendation and authorized the Secretary to sign the Permit.

A brief oral report was presented by the Chief Counsel concerning a Supreme Court decision in the case of State vs. Nelson, File No. L-2834A. The Court, he stated, ruled in favor of the State, placing the burden of proof on the land owner who claims that his land is worth more than is being offered.

A quarterly report of collections made on property damage claims from April 1 to June 30, 1960 was presented by the Chief Counsel. During this period, a total of $17,407.08 was collected and there remains pending at the end of the period 224 cases for a total of $43,529.04.

The Chief Counsel stated that a resolution had been received from the City Council of Manzanita requesting restrictions in the use of motor vehicles and aircraft on the ocean shore within the City of Manzanita. In accord with their request, a resolution has been prepared restricting motor vehicles and aircraft from using the beach at Manzanita, except for emergencies, and he recommended that it be adopted. The Commission adopted the resolution, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

A brief report was presented by the Chief Counsel concerning the case of V. M. Keppel, administratrix of the Estate of Virgil L. Peters, deceased, vs. W. C. Williams, A. E. Johnson, R. V. Cotton, et al. Legal action was taken by the complainants July 11, 1960 in which they seek $75,000 damage. This action was brought about, he continued, by the death of Virgil Peters who was riding a bicycle on the walkway of the bridge, fell into the roadway, and was run over by a car. The Commission instructed that proper action be taken to protect the interests of the defendants.

Abandonment of several claims against others for damages to highway property was requested by the Chief Counsel. These claims, he stated, date back as far as 1954 and are uncollectible because of insufficient evidence, out-of-state residence, contributory negligence on the part of a State driver, unknown address, death, and bankruptcy. The Commission approved abandonment of the following claims:

(See following page for list of claims.)

CAO 59-213 - John Milliken. On June 24, 1959, a truck driven by John Milliken burned, causing damage to the oil surface of the Central Oregon Highway, at M. P. 27.92, in the amount of $252.07.

CAO - 57-212 - Ray B. Matsen. On July 20, 1957, a car driven by Ray B. Matsen struck and collided with a guard rail, at M. P. 404.66, on the Old Oregon Trail Highway, causing damages in the amount of $113.21.

CAO - 58-186 - Carrl Purvis, Yokum & Purvis. On August 18, 1958, a truck driven by Carrl Purvis struck and collided with a Centaur Trailer Broom, at M. P. 51, on Highway 34, causing damages in the amount of $212.25.

CAO - 55-5-Robert F. McGann. On December 8, 1954, a car driven by Robert McGann struck and collided with an International dump truck belonging to the State Highway Department, causing damages in the amount of $219.05. All of the above sum, except the amount of $89.05, has been paid by Mr. McGann.

CAO - 59-134 - Leonard Carner. On December 16, 1958, at M.P. 36.60, a rock from the rear wheel of a truck driven by Mr. Carner struck and collided with the windshield of a 1957 Chevrolet Sedan owned by the State Highway Department, causing damages in the amount of $56.04.

CAO - 58 - 254 - Frank Gerard. On November 6, 1958, a car driven by Frank Gerard struck and collided with a bridge, at M.P. 1.69, of the Kings Valley Road No. 191, causing damages in the amount of $56.82.

CAO - 58 - 231 - David Kranz Lund. On October 5, 1958, a car driven by Mr. Lund struck and collided with a guard rail, at M.P. 61.70, on the Columbia River Highway, causing damages in the amount of $76.94.

CAO - 57-122 - William Jessie Darr, Richard Albert Darr, and Jack McCall. On May 26, 1957, the above three persons entered into the Honeyman Park and by vandalism caused damages in the amount of $428.39.

CAO - 56-229 - Mr. Kenneth Hendricks. On February 18, 1956, Mr. Kenneth Hendricks of Reedsport, Oregon, struck and collided with a Chevrolet dump truck belonging to the State Highway Department, causing damages in the amount of $174.45. All of this sum, except the amount of $29.45, has been paid.

(For more details, see the Chief Counsel's letter dated August 11, 1960, entitled "Report of Abandoned Claims" in the General Files, Salem.)

Attention was given to a claim made by George Kolias for damage to his property by water, mud and silt from the relocated Harbor Drive-Barbur Boulevard Section of the Pacific Highway, Portland, during the

period from July 1, 1959 to date (Right of Way File No. 30968). This claim, the Chief Counsel stated, has been investigated, and from the facts disclosed he recommended that a settlement be made in the amount of $250, which would include a grant of easement for a drainage facility to be constructed by the State and a complete release from the claimant. The Commission approved the settlement.

Also considered was a compromise settlement of the Highway Department's claim, CAO 60-43, for damages in the amount of $1,260.21 to the Harrisburg Bridge, caused by a truck driven by Odean Hall and owned by Shannon Construction Company. Subsequent investigation revealed that at the time of the accident the surface of the road was icy. The insurance company has denied liability; however, to dispose of the matter, the insurance company has offered to settle for $150. He recommended that it be accepted as, in his opinion, it would be a very difficult case to win in court. The Commission approved the settlement.

The Engineer reported that he had made award of contracts which had been referred to him to award when certain conditions had been fulfilled. These conditions, he stated, have been taken care of, and the Commission confirmed his award of the following contracts:

(1) Construction of Grass Valley Canyon Bridge on Moro-Lone Rock Road, Sherman County. Bids received June 30, 1960. Contract awarded July 8, 1960 to B & H Construction, Boring, low bidder.

(2) Grading the Briggs Camp-Bear Creek Road Section of North Umpqua Road, Douglas County. Bids received June 30, 1960. Contract awarded July 8, 1960 to George E. Blaisdell & Son Construction Company and Shirley G. Stone Company, Oswego, low bidder.

(3) Albany-Grand Prairie Paving Project on the Cox Creek Road, Linn County. Bids received June 30, 1960. Contract awarded July 8, 1960 to Morse Brothers, Lebanon, low bidder.

(4) Brewster-Lebanon Paving Project on Crabtree-Lebanon Road, Linn County. Bids received June 30, 1960. Contract awarded July 8, 1960 to Morse Brothers, Lebanon, low bidder.

(5) Construction of Rock Creek and Eight Mile Canyon Bridges, Gilliam County. Bids received June 30, 1960. Contract awarded July 8, 1960 to Harney Homes, Inc., Burns, low bidder.

(6) Leveling course and oiling on Enterprise-Brock Corner and Werst Corner-Wallowa Roads in Wallowa County. Bids received June 30, 1960. Contract awarded July 8, 1960 to Arthur Simonsen & Company, Baker, low bidder.

(7) Construction of the Luckiamute River Bridge, Polk County. Bids received June 30, 1960. Contract awarded July 11, 1960 to Orlando C. Bennard and Glenn Snook, Eugene, low bidder.

(8) 136th Avenue-181st Avenue Paving Project on N. E. Glisan Street, Multnomah County. Bids received June 30, 1960. Contract awarded July 12, 1960 to Oregon Asphaltic Paving Company, Portland, low bidder.

(9) Construction of the Willamette River Bridge and two overflow structures on Peripheral Road, Lane County. Bids received June 30, 1960. Contract awarded July 14, 1960 to S & D Construction Company, Portland, low bidder.

(10) Harrisburg-Alford Junction Paving Project on Diamond Hill Road, Linn County. Bids received June 30, 1960. Contract awarded July 18, 1960 to Roy L. Houck Sons' Corporation, Salem, low bidder.

(11) Grading and construction of detour bridges on Page Street-Main Street Unit of East Bank Freeway Section of Pacific Highway, Multnomah County. Bids received June 30, 1960. Contract awarded July 19, 1960 to Peter Kiewit Sons' Company, Vancouver, Washington, low bidder.

(12) Grading, paving and construction of a 210' RCDG bridge on the Hillsboro-Reedville Section of the Tualatin Valley Highway, Washington County. Bids received June 30, 1960. Contract awarded July 29, 1960 to Warren Northwest, Inc., Portland, low bidder.

(13) Oiling on South Unit of Bomber Range Road Section of the Bomber Range Road, Morrow County. Bids received July 28, 1960. Contract awarded August 5, 1960 to Newport Construction Company, Portland, low bidder.

(14) Construction of Hamilton Creek Bridge on Lebanon-Berlin Road, Linn County. Bids received July 28, 1960. Contract awarded August 8, 1960 to Heavy Machinery Company, Inc., Salem, low bidder.

(15) Roadside improvement on North Grants Pass-'M" Street Section of the Pacific Highway, Josephine County. Bids received July 28, 1960. Contract awarded August 8, 1960 to Ernest Ferrante and Company, Portland, low bidder.

Under authority previously granted to him, the Engineer stated that construction speed zones had been established on several contract projects for the protection of the traveling public. The Commission confirmed the following construction speed zones:

(1) 35 miles per hour on the Dodson-Bonneville Section of the Columbia River Highway, between Mile Point 34.0 and Mile Point 39.0, effective 8:00 a.m., July 7, 1960.

(2) 35 miles per hour on the Depot Slough Section of the Corvallis-Newport Highway, between Mile Point 5.50 and Mile Point 5.67, effective 9:30 a.m., July 26, 1960.

(3) 35 miles per hour at the westerly end of the Pioneer Mountain Section of the Corvallis-Newport Highway, between Mile Point 10.76 and Mile Point 11.04, effective 10:00 a.m., July 28, 1960.

(4) 20 miles per hour on the Cape Sebastian-Myers Creek Section of the Oregon Coast Highway, between Mile Point 335.00 and Mile Point 336.00, effective 11:30 a.m., July 26, 1960.

(5) 25 miles per hour on the Cape Sebastian-Myers Creek Section of the Oregon Coast Highway, between Mile Point 338.00 and Mile Point 339.00, effective 11:30 a.m., July 26, 1960.

(6) 35 miles per hour on the Buell Road-Willamina Section of the Willamina-Sheridan Highway, between Mile Point 1.59 and Mile Point 1.90, effective 9:30 a.m., July 26, 1960.

(7) 35 miles per hour on the Sutton Lake-Florence Section of the Oregon Coast Highway, between Mile Point 184.52 and Mile Point 190.29, effective 8:00 a.m., August 2, 1960.

The Commission deferred action on award of contracts on bids received in Salem August 16, 1960. (See entry ahead.)

Forfeiture of the 5-per cent bid bond submitted by A. W. McCoy and Company on Contract No. 5760 was presented by the Engineer. He explained that on July 28, 1960 bids were received for construction of an overflow trestle south of the Santiam River Bridge on the Jefferson-Albany Secondary Highway. A. W. McCoy and Company was low bidder at $41,067, which was 32 per cent below the estimated cost. Second low bid was in the amount of $50,561.55. An examination of the McCoy and Company bid, he continued, did not show any single mistake or the omission of any items, but simply that his bid items were all low, with the exception of material reinforcement. As there are apparently no grounds upon which the forfeiture can be excused, he recommended that the bid bond be declared forfeit and that the Commission accept Mr. McCoy's check which he had previously tendered in the amount of $2,035.35. The Commission accepted his recommendation.

The Engineer also reported that Roy L. Houck Sons Corporation had refused to sign Contract No. 5739 in the amount of $266,020 for grading and structures on the Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County. The contractor had stated, he continued, that his refusal to sign was because of the specifications contained in the contract as they pertained to sources of construction materials. The contractor had requested that the specifications be changed, but had been informed that under no conditions could the specifications be changed after bids had been received. The Commission instructed the Chief Counsel to take necessary action to recover on the 5-per cent bid bond submitted with this contract.

The Commission considered the following items of unfinished business appearing on the Secretary's Summary dated July 8, 1960:

(1) Report on negotiations to acquire Sea Lion Caves: The Commission ordered this item deleted from the list of unfinished business.

(2) State-wide recreation study by the State Parks Division: A report on this matter was made earlier in the day by the State Parks Superintendent, and the Commission ordered the item deleted from the list of unfinished business.

Attention was given to requests from a number of citizens in the vicinity of Oregon City and West Linn for construction of a new bridge across the Willamette River, between Oregon City and West Linn, at Singer Hill. The Engineer stated that a large number of prepared postal cards had been received, and some had been sent to Governor Hatfield. The fact that traffic congestion does exist on the present Oregon City Bridge is appreciated, he stated, and there is no doubt that additional bridge capacity is needed. The project, however, would cost several million dollars, and there are no funds available at this time, nor is there any probability of funds being available within the next few years. The Commission instructed that the persons making the request be so advised.

Confirmation of a resolution was requested appropriating to the various cities motor vehicle revenues accrued during the first half of 1960. The Engineer pointed out that the distribution of these funds is usually made early in August by the Secretary of State and, due to the fact that the allocation had not been computed at the time of the Commission meeting on July 7 and 8, it had been necessary to forward the resolution to the Commission for approval prior to the Commission meeting in August. The approved resolution, he continued, has been forwarded to the Secretary of State and distribution of funds

has been made. The Commission confirmed the previous action by adopting a resolution, marked Exhibit "F", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

Consideration was given to a resolution adopted by the Madras City Council requesting that climbing lanes be constructed on The Dalles-California Highway at Juniper Butte, a few miles north of Crooked River, in Jefferson County. The Engineer stated that an investigation had been made revealing that average daily traffic in this area is 2,500 vehicles, and the accident rate is below the State average. A rough estimate indicates that the improvement would cost approximately $175,000. Although it is a desirable improvement, it was his opinion that other sections of the highway would probably have higher priority. It was his recommendation that the City of Madras be advised that it will be necessary to consider the project at some future time when more funds are available for this type of work. The Commission approved the recommendation.

An Agreement with Idaho Power Company for furnishing electrical energy for lights and signs at two interchanges on US 30 near Ontario in Malheur County was presented and recommended by the Engineer. The Commission approved the Agreement.

The Commission discussed with the Engineer a letter from the Greater Portland Council of Churches, requesting that changes be made in the proposed Foothills Route in west Portland so as to spare the Synagogue Shaarie Torah. The Engineer presented a map of this area showing the location of the proposed highway, the Synagogue, and other property. He explained that an engineering reinvestigation had disclosed that it would not be economically feasible to change the location of the highway to avoid the Synagogue. He recommended that authority be granted to study the feasibility of moving the Synagogue to a new location nearby. He called attention to the moving of a similar large church in Salem by Lebeck and Son, and that the move had been made satisfactorily. It was his thought that moving the Synagogue could be accomplished at a somewhat lesser cost than if it is necessary to acquire and demolish it. The Commission granted the authority as requested.

Consideration of the 1961-63 biennial budget was deferred to the following day.

The Engineer reported completion of a number of location surveys for the improvement or relocation of existing sections of State highways. These surveys, he stated, have been given very careful engineering consideration in order to provide the most adequate facilities for the traveling public commensurate with the costs of construction.

Upon his favorable recommendation, the Commission approved the following surveys by adopting resolutions, marked Exhibits "M-1" through "M-4", which resolutions by this reference are made a part thereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960":

(1) Pine Street-Market Drive (Lebanon) Section of the Santiam Highway in Linn County. Public hearing held in Lebanon June 28, 1960. (See Exhibit "M-1")

(2) Bonneville Station-Patterson Avenue Section of the Willamina-Salem Highway in Polk County. Public hearing held in Salem May 3, 1960. (See Exhibit "M-2")

(3) Hobsonville-Bay City Section of the Oregon Coast Highway in Tillamook County. Public hearing held in Bay City April 28, 1960. (See Exhibit "M-2")

(4) Pine Street-Stephens Street Couplet (Roseburg) of the Oakland-Shady Highway in Douglas County. Public hearing held in Roseburg August 4, 1960. (See Exhibit "M-3")

(5) Big Eddy-Biggs Section of the Columbia River Highway in Wasco and Sherman Counties. Public hearing held in Moro May 5, 1959. (See Exhibit "M-4")

(6) Boardman Junction-Umatilla Section of the Columbia River Highway in Morrow and Umatilla Counties. Public hearing held in Irrigon July 26, 1960. (See Exhibit "M-2")

An increase in project authorization on State Highway Contract No. 5110 in the amount of $153,000 was requested by the Engineer. He explained that the overrun on this project, which is on the Lowell Street-21st Avenue Unit of the Harbor Drive-Washington County Line Section of the Pacific Highway in Multnomah County, was caused principally by slides and slope stabilization work. The increase, he added, amounts to 10.36 per cent of the project authorization. The Commission approved the increase.

The Engineer recommended approval of an expenditure of $3,777 to be paid to the Highway Research Board Correlation Service for the fiscal year July 1, 1960 to June 30, 1961. He explained briefly that valuable reports are furnished to the Highway Department by the Research Board in engineering and legal matters. The Commission approved the expenditure and authorized the Engineer to execute the subscription blank.

Attention was given to a proposed extension of the Wapinitia Road, FAS 712, in Wasco County. The Engineer commented briefly that this is a County road on the FAS system, and the County wishes to improve it southerly from Wapinitia to the Warm Springs Indian

Reservation. The proposed extension will add 5.7 miles to the County road mileage on the Federal-Aid System, and he recommended that it be approved. The Commission accepted his recommendation.

The Commission considered a list presented by the Engineer showing projects in Clatsop, Coos, Lincoln, Linn, Umatilla, Union, and Wasco Counties involving the expenditure of County Federal-Aid Secondary Highway funds. The Engineer stated that the projects have all been investigated and are eligible. The Commission approved the following projects:

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
Clatsop	607 (spur)	Neawanna Creek (12th Street) Bridge Supplemental Funds	$ 25,000	1962
Coos	251	Stringtown Road-Coquille Grading and Structure Supplemental Funds	60,000	1962
Lincoln	832	Siletz River Bridge Structure only	80,000	1961 & 1962
Linn	771	Calapooya Bridge Supplemental Funds	20,000	1962
Umatilla	760	Umatilla Ranch-Meadows Junction Grade, Surface and Oil	155,000	1961 & 1962
Union	481	Iowa School-N. Fork Indian Trail Canyon Surface and Oil	115,000	1961 & 1962
Wasco	712	Reservation Boundary-Wapmitia Grading	105,000	1961 & 1962
		TOTAL	$560,000	

SUMMARY BY FISCAL YEARS:	1961	1962	Total
Available Funds	$3,600,000	*$2,643,000	$6,243,000
Previously Approved	2,797,000	---	2,797,000
Unprogrammed Balance	**803,000	$2,643,000	$3,446,000
Projects Proposed 8/16/60	94,000	466,000	560,000
** Unprogrammed Balance	$ 709,000	$2,177,000	$2,886,000

*Represents 75-per cent of total 1962 FAS funds presently available for expenditure.
**Adjusted to conform to latest available costs for those projects which have been contracted.

The Engineer presented for approval a supplemental Agreement with the City of Portland covering maintenance and the furnishing of electrical energy for illumination and a signing installation at the Highlands Interchange on the Sunset Highway in the City of Portland. Under the terms of the agreement, he explained, the State is to maintain the project and the City is to furnish electrical energy for the portion within the City limits and the State is to furnish energy for the portion outside of the City limits. The Commission approved the Agreement.

Attention was given to an Agreement with Lake County concerning improvement of remote radio communication facilities on Black Cap Mountain near Lakeview. The Engineer explained briefly that for some time the State, Lake County, United States Forest Service, and several lumber companies have jointly occupied this site. To provide more dependable and consistent service, the Agreement provides that Lake County construct a new building to house radio transmitting equipment, purchase and install an emergency power plant, and construct a new access road to the building. For the use of these facilities the State is to pay $500 as its share of the cost of the new road. Upon the Engineer's favorable recommendation, the Commission approved the Agreement.

The Engineer reported that contracts numbered 5198, 5205, 5368, 5409, 5428, 5433, 5458, 5467, 5493, 5508, 5509, 5520, 5540, 5554, 5555. 5563, 5581, 5595, 5607, 5611, 5613, 5619, 5620, 5623, 5638, 5640, 5641, 5647, 5648, 5650, 5651, 5652, 5653, 5654, 5671, 5672,5679, 5684, 5686, 5687, 5688, 5692, 5722, and 5755 for highway construction had been completed in accordance with requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution, marked Exhibit "G", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

An Agreement with the U. S. Corps of Engineers was considered for development of viewpoints on US 730, east of Umatilla in Umatilla County. The Engineer commented briefly that several requests had been made for such development, and an investigation had disclosed four suitable areas approximately ten miles east of Umatilla which could be developed at a nominal cost. The section of highway on which these viewpoints are located was reconstructed by the Corps of Engineers and they still control the right of way on the river side of the highway. They have indicated that a perpetual easement would be given to the State for construction and maintenance of viewpoints in three areas, and in the fourth area would provide the State a fee title. The Corps of Engineers, he continued, have also indicated that they would perform riprapping to protect the viewpoints and would construct a bullrail along the edges of the viewpoints. Grading and surfacing, estimated to cost $8,000, would be performed by the State. He recommended that an Agreement covering these points be entered into with the Corps of Engineers and that the grading and surfacing work be done in 1961. The Commission approved his recommendation.

The Commission also considered an Agreement with Jackson County for improvement of the Daisy Creek Channel on the Medford-Provolt Highway, near Medford in Jackson County. This Agreement, the Engineer explained, involves replacement of a pipe culvert, installed by Jackson County, to carry Arnold Lane over Daisy Creek. The County has agreed to pay 75 per cent of the cost of building the new box culvert. Upon his favorable recommendation, the Commission approved the Agreement.

Attention was given to the need for semi-actuated traffic signals at the intersection of Winchester Avenue (Oregon Coast Highway) and 19th Street in the City of Reedsport. The Engineer reported that an investigation had disclosed the volume of traffic and other conditions warrant the installation of semi-actuated traffic signals at this location. The project is estimated to cost $5,400, and he recommended that the work be done with the understanding that the City is to pay one-half the cost of installation and provide all future maintenance and power needs. The Commission approved the project.

The establishment of speed zones on portions of State highways was presented by the Engineer. In each instance, he pointed out, traffic engineering investigation has been made and, based on the facts disclosed by these investigations, he recommended that the Commission approve the following speed zones:

(1) 45 miles per hour on the John Day Highway through the community of Ironside in Malheur County, between Mile Point 230.53 and and Mile Point 231.17, except that the indicated speed shall be 20 miles per hour between Mile Point 230.59 and Mile Point 230.83 during hours of school crossings. (See Exhibit "H-1")

(2) 70 miles per hour on the Pacific Highway, on the southerly side of Sexton Mountain in Josephine County, from a point 0.20 mile south of Sexton Mountain Loop Road to a point 0.80 mile north of the North Grants Pass Interchange, a distance of 8.74 miles. (See Exhibit "H-2")

(3) 70 miles per hour on the Columbia River Highway, between the westerly end of the Rooster Rock Park Interchange, Mile Point 22.57, and the Dodson Overcrossing, Mile Point 33.26, in Multnomah County, and that ramp speeds be established as follows:

Benson State Park:
Eastbound off ramp - 30 MPH

Multnomah Falls:
Eastbound off ramp - 25 MPH
Westbound off ramp - 25 MPH

Dodson Interchange:
Eastbound off ramp - 25 MPH
Westbound off ramp - 35 MPH

(See Exhibit "H-3")

(4) 70 miles per hour on the Pacific Highway between a point south of the Murder Creek Interchange, Mile Point 66.44, and the Willamette River Bridge at Eugene, Mile Point 108.89, in Linn and Lane Counties, when construction is completed and the highway is opened for public travel. Ramp speeds are to be established as follows:

North Albany Interchange:
Southbound off ramp - 45 MPH
Northbound off ramp - 50 MPH
Knox Butte Road
off ramp - 25 MPH

South Santiam Interchange:
Southbound off ramp - 25 MPH
Northbound off ramp - 25 MPH

Lebanon Road Interchange:
Southbound off ramp - 45 MPH
Northbound off ramp - 45 MPH

Halsey-Sweet Home Highway Interchange:
Southbound off ramp - 45 MPH
Northbound off ramp - 45 MPH

Diamond Hill Road Interchange:
Southbound off ramp - 45 MPH
Northbound off ramp - 45 MPH

Oak Grove Rest Area:
Southbound off ramp - 30 MPH
Northbound off ramp - 30 MPH

Coburg Road Interchange:
Southbound off ramp - 45 MPH
Northbound off ramp - 45 MPH

"Q" Street Interchange:
Southbound off ramp - 40 MPH
Northbound off ramp - 50 MPH

(See Exhibit "H-4")

(5) 45 miles per hour on the Clackamas Highway No. 171 in Clackamas County, from a point 0.23 mile north of River Mill Road, Mile Point 21.72, to a point 200 feet north of the irrigation ditch, Mile Point 22.58, north of Estacada. (See Exhibit "H-5")

(6) 35 miles per hour on the John Day Highway in the community of Unity, in Baker County, between a point 0.17 mile north of the County Road to Elk Creek Guard Station, Mile Point 212.26, and a point 0.10 mile east of the County Road to Job Creek, Mile Point 212.97, except that an indicated speed of 20 miles per hour shall be shown between Mile Point 212.78 and Mile Point 212.90 during the hours of school crossings. (See Exhibit "H-6")

The Commission approved the speed zones as presented by the Engineer and adopted resolutions pertaining thereto, marked Exhibits "H-1" through "H-6", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

Confirmation of an Agreement with Southern Pacific Company concerning construction on the Curry Street-Russell Street Section of the Pacific Highway in Multnomah County was requested by the Engineer. He explained that in order to expedite construction on this section, the Agreement had been sent to the Commission for signature prior to the Commission meeting, and had been signed by them. The Commission confirmed the Agreement.

Confirmation was also requested of an Encroachment Agreement with the Oregon-Washington Railroad and Navigation Company, Union Pacific Railroad Company, Lessee, the State Highway Commission, and Union County on the Perry-Hilgard Section of the Old Oregon Trail Highway in Union County. Because of urgency in getting the Agreement executed, the Engineer explained that it had been sent to the Commission for approval prior to the meeting, and had been signed by them. The Commission confirmed the Agreement.

The Engineer also requested confirmation of an Agreement with Southern Pacific Company concerning an easement for highway construction on Railroad Company property on the Hillsboro-Reedville Section of the Tualatin Valley Highway in Washington County. In order not to delay contracting operations, the Agreement had been sent to the Commission for approval prior to the Commission meeting, and had been signed by them. The Commission confirmed the Agreement.

The Engineer presented for approval a resolution covering abandonment of certain sections of The Dalles-California Highway, between Bend and Lapine in Deschutes County. He explained that these sections had been replaced by new alignment constructed a few years ago, and the old right of way is of no further value to the State. The Commission approved the abandonment by adopting a resolution pertaining thereto, marked Exhibit "I", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

Authority was requested by the Engineer for out-of-state travel for Highway personnel. The Commission granted authority as follows:

(1) J. Al Head, Assistant Traffic Engineer, to attend meeting of Institute of Traffic Engineers in Chicago, Illinois, September 9-15, 1960, at an estimated cost of $310.

(2) W. C. Williams, State Highway Engineer, to attend joint meeting of AASHO Transport Committee and AASHO Road Test Committee, September 7 and 8, 1960, at LaSalle, Illinois; and a meeting of the AASHO Executive Committee in Washington, D. C., September 12 and 13, 1960, at an estimated cost of $450.

(3) Forrest Cooper, Deputy State Highway Engineer, to attend the regional meeting of AASHO Operating Committee on Design, Salt Lake City, Utah, October 4 and 5, 1960; and a meeting of the Interim Pavement Design Committee of AASHO, also in Salt Lake City, on October 3, 1960, at an estimated cost of $185.

(4) R. L. Porter, Office Engineer, to attend the Management Conference of National Highway Users in Santa Fe, New Mexico, October 2-8, 1960, at an estimated cost of $330.

(5) The Commission confirmed previous telephonic authority authorizing Carl Jordan, Director of Travel Information, and Victor D. Wolfe, Administrative Assistant, to attend a conference called by Governor Albert D. Rosellini, Washington, regarding the Pacific Trail, in Seattle, Washington, July 19-21, 1960, at a total cost of $80.

Shoulder parking which is being practiced on The Dalles-California Highway in Klamath Falls is creating a hazard to the traveling public, the Engineer reported. The Maintenance Superintendent in that area, he stated, has reported there is a certain amount of shoulder parking on the easterly side of the highway at the junction of the Westside By-pass and the Business Route through the City. These cars create a hazard to traffic and interfere with maintenance operations. He recommended that shoulder parking be prohibited between the east side of Quarry Street, Mile Point 272.55, and the north line of "E" Street, Mile Point 272.80. The Commission approved his recommendation by adopting a resolution pertaining thereto, marked Exhibit "J", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

The Engineer presented a request made by the United States Corps of Engineers for permission to place a sign on the westerly side of the Oregon Coast Highway, at Mile Point 326.78 near Gold Beach in Curry County. The sign message, which directs attention

to construction of Rogue River Harbor, and the location of the sign have been approved and he recommended that a permit be issued to cover the sign. The Commission accepted his recommendation.

Consideration was also given to another request made by the United States Corps of Engineers for permission to place a temporary sign on the right of way of the Albany-Corvallis Highway, in Benton County, at the location of its Dixon Creek Bank Protection Project on the Willamette River. The sign message indicates location of the work and has been approved, as well as the location of the sign. It is contemplated the sign will be removed about December 1, 1960, or as soon as the work is completed. Upon the Engineer's favorable recommendation, the Commission approved a permit covering the sign.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period July 1, 1960 through August 12, 1960.

The date for the next regular Commission meeting was confirmed for September 29 and 30,1960, in the Conference Room of the State Highway Building, Salem. Tentative dates for following meetings were set for November 3 and 4, 1960, and December 12 and 13, 1960.

Revision of Loads and Hauling Resolution No. 25, adopted July 2, 1959, was brought up by the Engineer. This resolution, he stated, combines in one resolution authority for issuance of all types of transportation permits, including permits for continuous operations of overweight, overlength and overheight vehicles, and single-trip permits for oversize and overweight loads. The purpose of the change, he continued, is to expedite issuance of the permits by reducing the number of telephone calls from field offices to the Salem Permit Office. It will no longer be necessary for field offices to secure prior telephonic approval for the issuance of permits for continuous operations of overheight vehicles. Also materially revised is the policy relating to authority of field offices in issuing special, single-trip permits Field offices are now authorized to issue such permits for the movement of loads up to a maximum weight of 96,000 pounds on any Group I or Group II highway, except where structures will not permit this weight, and for load widths up to 11 feet 6 inches over any Special Group I highway on a Statewide basis without calling the Salem Permit Office for approval. The special permit policy has also been revised to provide that for load widths in excess of 11 feet 6 inches, after approval has first been secured from the Salem Permit Office, field offices may issue permits for the same load width over the same route under the same or more favorable weather, road or traffic conditions. These, he stated, are the major changes which have been approved by the Chief Counsel, and he recommended that the revisions be approved. The Commission accepted his recommendation and adopted a resolution pertaining thereto, marked Exhibit "K", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960".

The Commission discussed with the Engineer a supplemental Agreement with Union Pacific Railroad Company covering reconstruction of the north end of the Tillamook Street Partial Viaduct on the Pacific Highway in Portland. The Agreement, the Engineer stated, has been examined and he recommended that it be approved. The Commission approved the Agreement.

A change in "Through Stop Highway" Resolution, adopted September 21, 1949, as it pertains to the Three Mile Lane Highway in McMinnville, was brought up by the Engineer. This Resolution, he explained, provides that traffic entering State highways stop before entering, with certain exceptions. One such exception on the Three Mile Lane Highway provided that traffic northbound on the old route of the Three Mile Lane Highway (Irvine Street in McMinnville) shall stop before entering its intersection with Third Street in McMinnville. Because of a change in routing and in traffic conditions, it is now desirable that traffic flow through the intersection without stopping, and he recommended that the exception mentioned above be rescinded. The Commission accepted his recommendation and adopted a resolution pertaining thereto, marked Exhibit "L", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of August 18 and 19, 1960."

The Engineer reported that at a meeting of the chief administrative officials of the various states of the American Association of State Highway Officials (AASHO) at LaSalle, Illinois, the matter of extending operations on the AASHO test road from June 30 to November 30, 1960 had been considered. It was the majority opinion that the pavements, particularly Portland Cement concrete pavement, had not been subjected to a sufficient number of axle-load repetitions to provide an adequate analysis. All forty-five of the states represented voted to extend the test, which will result in an additional cost of $1,500,000. Oregon's share of the additional cost has been set at $24,399. This money, he pointed out, comes from planning funds, does not need to be matched, and is paid directly by the Bureau of Public Roads to the Highway Research Board which is in charge of the test. Based upon his favorable recommendation, the Commission approved the additional payment.

Commissioner Fridley inquired as to what action has been taken concerning requested construction of an interchange on Three Mile Lane Highway which will serve as a by-pass route to the south of McMinnville. The Engineer replied that an interchange is being studied, but it was not under consideration when the hearing was held in McMinnville on April 13, 1960.

The Commission discussed with the Engineer bids received on August 16, 1960. The Engineer pointed out for each project the amount of the estimated cost and the low bid, and gave his recommendations as to award or other disposal of bids received. The Commission approved the recommendations made by the Engineer and authorized him to announce the awards of contracts at 2:00 p.m.

The meeting was adjourned at 12:00 noon. At 2:00 p.m. Mr. Forrest Cooper, Deputy State Highway Engineer, announced awards of contracts as follows:

BIDS RECEIVED IN SALEM ON AUGUST 16, 1960

"Grading and paving on the Pleasant Valley-Hill Creek Section of the Old Oregon Trail Highway in Baker County. The Commission awarded the contract to low bidder, Keystone Construction Company, Inc., Prineville, at $1,153,851.

"Construction of the Clackamas River Bridge on the Cascade Highway in Clackamas County. The Commission awarded the contract to low bidder, C. M. Corkum Company, Inc., Portland, at $460,322.

"Construction of the Neawanna Creek Bridge on 12th Avenue at the east City limits of Seaside in Clatsop County. The Commission elected to accept the low bid of Beebe Construction Company, Portland, in the sum of $47,790.32 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Clatsop County is received and the sum of $10,800 is deposited by the County.

"Lone Ranch Creek Culvert Reconstruction, Burnt Hill-Brookings Section of the Oregon Coast Highway in Curry County. The Commission awarded the contract to low bidder, R & M Construction Company, Central Point, at $63,777.

"Construction of the Pilot Butte Canal Bridge (Redmond) on the Ochoco Highway in Deschutes County. The Commission awarded the contract to low bidder, R. L. Coats, Bend, at $33,993.

"Roadside improvement on the Redwood Highway Junction Section of the Pacific Highway in Josephine County. The Commission awarded the contract to low bidder, Ernest Ferrante and Company, Portland, at $22,412.40.

"Construction of the Butte Creek and Calapooya River Bridges on the Brownsville-Morgan School Road in Linn County. The Commission elected to accept the low bid of H. G. Carl Construction Company, Salem, in the sum of $32,187, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of Linn County is received and the sum of $7,250 is deposited by the County.

"Project on the Antelope Reservoir Road-Crooked Creek Section of the I.O.N. Highway in Malheur County. The Commission awarded the contract to low bidder, C. C. Meisel, McMinnville, at $28,768.25.

"Administration and Accounting Division Air Conditioning System in the State Highway Building, Salem, Marion County. The Commission awarded the contract to low bidder, Bowen Brothers Plumbing and Heating, Inc., Salem, at $18,855.

"Widening of four structures, grading and paving on the Amity-Rickreall Section of the Pacific Highway West in Polk and Yamhill Counties. The Commission rejected all bids as being too high.

"Construction of the Tillamook River Bridge Section of the Netarts Highway in Tillamook County. The Commission elected to accept the low bid of A. L. Harding, Inc., Stayton, in the sum of $83,340, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Delineation and signing on the Meacham-Oro Dell Section of the Old Oregon Trail Highway in Umatilla and Union Counties. The Commission awarded the contract to low bidder, Snook Brothers, Corvallis, at $39,950.70.

"Traffic signal installation in the City of Pendleton, S.W. 10th-S.E. 3rd Street Section of the Old Oregon Trail Highway in Umatilla County. The Commission elected to accept the low bid of Zephyr Electric, Inc., Pendleton, in the sum of $31,863.20, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the City of Pendleton is received and the sum of $20,100 is deposited by the City.

"Enterprise (W. Third Street) Grading and Paving Project in Wallowa County. The Commission awarded the contract to low bidder, Arthur Simonsen and Company, Baker, at $7,404.

"Construction of the Powder River Bridge (Baker) on the Old Oregon Trail Highway in Baker County. The Commission awarded the contract to low bidder, Bechtel Brothers, LaGrande, at $30,684.

"Grading, and construction of three RCDG bridges on the Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County. The Commission elected to accept the low bid of Roy L. Houck Sons' Corporation, Salem, in the sum of $320,720 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the Bureau of Public Roads is received."

The meeting was adjourned at 2:10 p.m. to be reconvened at 10:00 a.m. on the following day.

Salem, Oregon
August 19, 1960

The Oregon State Highway Commission reconvened at 9:45 a.m. in Room 419, State Highway Building, Salem. The following persons were present:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
G. E. Rohde, Assistant Chief Counsel
Walter T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Floyd Query, Secretary

The adoption of the 1961-63 biennial budget for the State Highway Department, totaling $191,311,000, which had been presented to the Commission on the previous day, was brought up by Chairman McIver. The Engineer explained that the budget provides no level-of-service increase, contains an overall reduction of one and one-quarter million dollars from the 1959-61 estimate, and has been prepared to conform to anticipated revenue limitations and to remain within the "target-budget" as established by the Department of Finance and Administration. He pointed out the necessity for the budget to reach the Department of Finance and Administration prior to September 1. After careful study, the Commission approved the budget and authorized that it be submitted through the Governor to the Department of Finance and Administration. (For details of the budget as approved, see copy in the General Files.)

Representatives from the City of Klamath Falls appeared before the Commission regarding further improvement of the Westside By-Pass Section of US 97 in the City of Klamath Falls. L. E. Slater, Mayor, introduced the following members of his delegation: Floyd Winne, City Councilman, and Jerry Vergeer, City Manager. Mayor Slater presented a brochure containing letters from the Klamath County Chamber of Commerce and the Klamath County Court supporting the southerly extension of the Westside By-Pass. Although they would like to see the By-Pass completed to a connection with ORE 66, he continued, they are particularly concerned with extension across Link River, the present terminal point. The 6 per cent highway grade at this location, he added, is hazardous, particularly during the snow season when the City finds it necessary to employ an adult guard at that intersection to protect children from skidding

automobiles. He told of a recent fatal accident at the southerly termini of the By-Pass where an automobile plunged into the River when the brakes failed. He pointed out the danger to the people using the park area below the bridge and urged the Commission to include in its next fiscal budget the construction of the section across the River. Messrs. Vergeer and Winne endorsed the remarks made by Mayor Slater in his request for the continuation of the Westside By-Pass. Chairman McIver thanked the delegation for bringing this matter to the Commission's attention and advised them that the Commission is cognizant of their needs and hopes to have money available in 1961 for work on this By-Pass.

Mr. William Tugman, Reedsport, headed a group which appeared before the Commission regarding improvement of the Elkton-Sutherlin Secondary Highway. He introduced the following members of his group: V. E. Jackson, Douglas County Judge, Huron Clough and Elmer Metsger, Douglas County Commissioners, all from Roseburg; and R. G. McBride, Sutherlin Chamber of Commerce. Mr. Tugman requested programming in the next two years of the final unit of the Elkton-Sutherlin Secondary Highway (ORE 225), which is the approximate five-mile section from Kellogg Bridge to Yellow Creek. This highway, he pointed out, is a very important link between the central part of Douglas County and the Coast Highway at Reedsport, and eventually when the North Umpqua Road is completed, a large amount of tourists and other traffic will use this road in their travels from US 97 in central Oregon, through Diamond Lake, down the Umpqua Road to Roseburg, and over ORE 225 to the Ocean at Reedsport. All of the organizations in Roseburg and Reedsport, as well as all of Douglas County, he added, support this request. Judge Jackson pointed out that ORE 225 connects Reedsport and the lower Umpqua country with the County Seat at Roseburg, and is part of the overall plan of a highway from Diamond Lake to the Ocean. The County, he commented, has spent considerable money on this Diamond Lake Road and the five-mile section is one of the last links in the connection. Chairman McIver thanked the delegation for presenting this matter and advised them that the Commission is considering the inclusion of this section in the early part of the next five-year program which is now being formulated.

Mr. Carl Butler, Roads and Highways Committee, Newberg, introduced the following members of the Newberg Chamber of Commerce who appeared regarding the Rex Hill-Newberg Section of US 99W: Dick Krohn, John Wanner, Kenneth Johnson, and Martin Redding, all from Newberg; and C. N. Windsor, Chairman of the Roads and Highways Committee, Newberg. Mr. Krohn thanked the Commission for the work that has been accomplished in their area. He requested the programming in 1961 to a four-lane facility of the section of US 99W from the top of Rex Hill to Newberg. Several factors, he stated, have caused traffic to increase steadily on US 99W, namely the accelerated construction activities and proposed plans for new residential and apartment dwellings on Springbrook Road and Villa Road, which roads intersect US 99W; the large use being made of the hospital in Newberg from people who live in the surrounding area; the expanded use by Portland residents of Champoeg Park; the great

number of people traveling US 99W from Portland to the Coast; and the many persons living in Newberg who drive over this highway each day to their jobs in Portland. There is a great accident potential, he pointed out, at the crest of Rex Hill where the highway narrows from four lanes to two lanes. He concluded his presentation by urging that consideration be given to the construction of this highway section. Chairman McIver thanked the delegation for their presentation and advised them that in the five-year program now being formulated, it is planned to complete the section from the top of Rex Hill to Newberg with construction of the project to begin possibly in 1961.

A delegation from the Highway 20 Association appeared before the Commission regarding improvements on US Route 20, particularly west of the Cascade Mountains. Mr. Frank Gilkey, Newport, Director of the Association, acted as spokesman and introduced the following members of his group: Andrew Natterlin, State Senator; Harvey Curry, Chamber of Commerce Roads Committee; James Howes, Secretary of the Assocation; and Frank Woodson, President of the Association--all from Newport; Tom McClellan, State Representative, Neotsu; Mr. and Mrs. Dale C. Hollingsworth, Director of the Association, Philomath; Roy Eams, City Manager; Dan Ashton; Dave Cooper, President of Junior Chamber of Commerce; Hobart McQueary and Harold Eishaw, Chamber of Commerce; and Reese Esgar, Director of the Association--all from Sweet Home; Mel Hammerhess, Elmer Price, and Mrs. Frank Updike--all from Toledo and the Highway 20 Association; Clay Cochran, Lebanon, Chamber of Commerce; William Bowman, City Manager; and Tom Palmer and John Brennan, both from Chamber of Commerce, Albany. Mr. Gilkey presented a brief containing the recommendations of the Highway 20 Association. He expressed appreciation for the money that has been expended on Highway 20, which totals $11,271,100, and summarized the specific amounts spent within each county. The project selected by the Association for Number One priority, Mr. Eams stated, and which is the most serious bottleneck on Highway 20, is the relocation of the ten-mile slide area between Upper Soda and Tombstone Summit, and he requested the Commission to urge the Forest Service and the Bureau of Public Roads to allocate to this project at least $1,000,000 of forest highway funds during the next fiscal year. Not only the Linn County Chamber of Commerce, he added, but other interested organizations in Linn County endorse this project. He explained that at the present time on the annual cut of forest products that are hauled over this slide area, which is in excess of 150 million board feet, the excess transportation cost is about $9,000 per mile per year. If the slide area is not reconstructed at an early date, it was his belief that both highway improvement and construction of the Foster and Green Peter Dams would create a serious problem as construction of the Dams will require rerouting of a portion of Highway 20 east of Foster. The Number Two priority recommended by the Association, he continued, is the replacement of the narrow bridge across Wiley Creek, between Sweet Home and Foster. Mr. Gilkey presented the Association's Number Three priority--construction of a new road over the

Coast Range Summit, the Little Elk Mountain, which is about midway between Corvallis and Newport. Although the Pioneer Mountain Section will be completed soon, he added, the hauling of timber products will be hampered since the highway will still be a Group II highway until the bottleneck on Little Elk Mountain is corrected. He told of the Army Engineers' plans to improve the Yaquina Bay Harbor and expressed the hope that this section will be completed by the time the Harbor is completed. He also mentioned a hazardous curve east of Newport where a recent fatality occurred. Their Number Four project, he continued, is the realignment and improvement of Gellately Canyon, which is a short section west of Wren and east of Blodgett. This section, he added, is on the original alignment of US 20, is hazardous, has many curves, is subject to ice and fog, and he urged the Commission to give consideration to the project. Senator Natterlin spoke in behalf of improvement over the Coast Range Summit between Corvallis and Newport, pointing out that when the Army Engineers have completed their twenty million dollar harbor development in Yaquina Bay, there will be a large amount of commercial traffic between the harbor and the valley points. Under present conditions, he stated, large truck transports cannot haul long loads over the highway, and he requested the Commission to give serious consideration to early improvement, including widening and elimination of curves. Chairman McIver thanked the delegation for bringing these matters to the Commission's attention.

Mr. Robert B. Rogers, Troutdale, President of the Northeast Multnomah County Community Association, was spokesman for a delegation which appeared before the Commission regarding improvement of the access to the Columbia River Highway at Bridal Veil. He introduced the following members of this group: M. James Gleason, Multnomah County Commissioner, Portland; Ray Holtgrieve, Bridal Veil, Chairman Committee of the Association; M. L. Bonta, Cascade Locks, representing the City of Cascade Locks; and Frank Mackamess, Troutdale, Secretary of the Association. Mr. Rogers stated that during the past twelve years the ramps at Bridal Veil have been used for both east and west access to the Columbia River Highway; however, since completion of the Freeway, the access to and from the east has been cut off. On a map which he displayed, he pointed out that the only access to the Freeway between Corbett Station and Dalton is at Bridal Veil. Mr. Holtgrieve who fishes commercially at Dalton Point spoke in behalf of the fishermen in the area, pointing out that since the completion of the Freeway he must travel at least twenty-two miles round trip to reach Dalton Point, while prior to the highway completion it was only a one-and-one-half mile trip. Mr. Gleason expressed the wholehearted support of the Board of County Commissioners of Multnomah County for an interchange at Bridal Veil. The following reasons prompted this endorsement: (1) Much of the industrial use of that area is tied in with the mill at Bridal Veil, and most of the timber is transported into the mill from the east; (2) During the winter months the stretch of the old Columbia River Highway between Corbett and Bridal Veil is very difficult

to maintain, which leaves the area from Crown Point east practically without access to any highway and Bridal Veil with access only to the west; (3) The State stockpile on the south side of the highway has no east access, which will probably result in extra maintenance cost. He expressed the fear that the people using the Bridal Veil Access will create a hazard by disregarding the one-way ramp and using it also for eastbound access, and he requested the Commission to give serious consideration to an east access at this location. On behalf of the City of Cascade Locks, Mr. Bonta endorsed the request for revision of the access at Bridal Veil. The facilities of the City Light Company, he added, must be serviced from the scenic route as well as from the Freeway, which not only creates a problem during adverse weather, but, because of the lack of access, necessitates additional traveling. He told of the decrease in tourist traffic since the closure of the access, and he urged the Commission to give favorable consideration to this request. Chairman McIver pointed out that this highway is on the Interstate System, and advised the delegation that every consideration will be given to their request. He thanked the group for presenting the matter to the Commission.

Mr. Paul Ail, President of the P and A Enterprises, Inc., Portland, appeared before the Commission regarding renewal of his agreement for concession privileges at Rooster Rock Park. Mr. Ail referred to a letter which he recently sent to the Commission regarding this matter, and explained the necessity for the employment of a night watchman to combat the recent outburst of vandalism. He pointed out that his Company now furnishes the clean-up service and all the facilities for the restrooms, including the hot water and lights, and requested the Commission to provide some relief from these expenses. If the Commission takes over the clean-up operation, he added, the P and A Enterprises will pay the taxes and assessments on the building. Because of the necessary expenses incurred, he estimated that his business pays to the Commission over 30 per cent of the gross income rather than the 20 per cent shown in the agreement. Chairman McIver thanked Mr. Ail for his presentation.

The Parks Superintendent brought up the matter of construction of a telephone line by the West Coast Telephone Company to service the Shore Acres State Park. The Telephone Company, he added, plans to construct this one-mile section of line on the Power Company's poles from the end of the Telephone Company's present service connection to the Shore Acres Park, at an estimated cost to the State of $1,000, and the Telephone Company has agreed to maintain the line after installation. If the State undertakes construction of this line, he estimated it would cost $1,500. During the past eight years, he explained, the State has operated under an agreement with the United States Coast Guard whereby our telephone line to the Park was attached to the Coast Guard's poles; however, the Coast Guard has now installed a line on these poles and the Telephone Company refuses to climb the poles to service the State's facility.

Since this is a necessary service for the Park and for the public, he recommended that the Commission approve this arrangement with the Telephone Company. The Commission accepted his recommendation.

The Assistant Chief Counsel presented proposed settlements of two cases: William C. Rodgers, et al. vs. State of Oregon, L-3212A; and S. P. Matheny vs. State of Oregon, L-2867A. Both of these cases, he stated, are inverse condemnation actions filed by the plaintiffs, as owners of property adjacent to the Portland-Salem Freeway, for damages to their properties caused by alleged flooding due to improper drainage of the highway. Verdicts returned by the jury in both cases, he explained, were in favor of the plaintiffs--Matheny in the amount of $12,500 and Rodgers in the amount of $7,000. At the conclusion of the Matheny trial the State presented a motion for a new trial, whereupon the plaintiff voluntarily moved to remit $2,500 of the verdict. The trial judge granted a remittitur of $2,500 and entered a judgment of $10,000. Appeals in both cases are presently pending before the Supreme Court. A settlement, he continued, has now been proposed which would cover full satisfaction of the judgments upon payment of 40 per cent of the judgments, or $4,000 in the Matheny case and $2,800 in the Rodgers case, conditioned upon the provision that there will be no allowance of costs, attorneys' fees, or interest and that the State would be granted an overflow easement over the plaintiffs' property to the extent that such overflow was due to the construction of the existing highway. Upon his favorable recommendation, the Commission approved both settlements as presented.

The Commission signed agreements, deeds and other papers.

Among the papers signed was a Throughway Agreement with the City of Medford pertaining to the establishment, construction and maintenance of the Medford Unit, Seven Oaks-Ashland Section of the Pacific Highway. The Engineer pointed out that this Agreement has been approved by the City officials and supersedes two previously approved agreements, both dated January 16, 1958, covering the same matter.

There being no further business to come before the Commission, Chairman McIver declared the meeting adjourned at 11:20 a.m.

State Highway Engineer

Secretary

Chairman

Commissioner

Commissioner

Salem, Oregon
September 29, 1960

The Oregon State Highway Commission met in regular session at 10:00 a. m. in the Conference Room of the State Highway Building, Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
C. H. Maison, Auditor
C. H. Armstrong, State Parks Superintendent
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information Division
Floyd Query, Secretary

The Commission approved the minutes of the meeting held on August 18 and 19, 1960.

The Parks Superintendent reported on the following park matters:

Proposed cooperation of the State in establishment of a park area at the reservoir on Crooked River, south of Prineville in Crook County: The Parks Superintendent stated that the dam being constructed by the U S. Bureau of Land Reclamation will soon be completed, and they have inquired by letter if the State will accept administration of the public use of the reservoir. It is anticipated that the reservoir will be filled by run-off waters in the Spring of 1961. The area, he continued, has excellent recreational possibilities, including boating, fishing, hunting, camping, picnicking, and is also a favorite area for those interested in geological formations. Crook County has indicated that they plan to build an access road to the reservoir area, there being no adequate road at this time. He pointed out that the proposal has not been considered by the State Parks Advisory Committee and that a delegation is scheduled to appear before the Commission on the following day on this matter. Commissioner Jackson inquired if the proposed site would fit in well with the over-all scheme for state parks. The Parks Superintendent replied that it would. Action was deferred at this time pending word from the State Parks Advisory Committee and the appearance of the delegation.

Status of negotiations to acquire Sea Lion Caves in Lane County: The Parks Superintendent stated that on September 9, 1960 an option was sent to the owners of the Sea Lion Caves offering them the sum of $500,000 with annual payments of $30,000 over a period of 30 years. This payment is to include principal and interest. Among conditions stipulated in the option, is the provision that the elevator is to be completed and in operating condition; otherwise, the cost of completion of the elevator is to be deducted from the last payment or payments under the contract. On September 14 a letter was received from Mr. J. C. Jacobson, one of the owners, acknowledging receipt of the option, but to date no word has been received as to whether they will accept or reject it.

Request of City of Roseburg for a three-year extension from May, 1961 for development of Gaddis Park: The Parks Superintendent commented that in transferring this land from the Veterans Administration property in Roseburg, the State was required to file a report after a period of two years setting forth use of the property during the preceding two-year period. The property, he added, was subsequently turned over to the City of Roseburg which agreed to make park improvements. The December 1958 report showed that no park developments had been made pending approval of an application by the City to construct a grade crossing of the Southern Pacific Company tracks to provide access to the park. Since then the City has installed two pit toilets and the area has been used for day camps by Campfire Girl groups. Because of the dynamite explosion in Roseburg in August, 1959, the City has requested the three-year extension within which to make the required developments. The Commission authorized the Parks Superintendent to request the National Parks Service to allow the delay as requested because of the financial condition of the City of Roseburg.

Request of P & A Enterprises, Inc., for changes in their contract to operate a concession at Rooster Rock State Park in Multnomah County: The Parks Superintendent recalled that a representative of P & A Enterprises had appeared before the Commission at its August meeting and had requested certain modifications in the existing contract. Their request, he continued, has been carefully studied, and he recommended that no change be made in the existing agreement, that P & A Enterprises be so advised, and if they do not choose to extend the existing agreement, as provided in the agreement, that the concession privileges be re-advertised for bids. The Commission approved his recommendation.

Request of Roger and Duane Wiggins, operators of the boat concession at Wallowa Lake State Park, Wallowa County for installation of gasoline tanks and electrical facilities at the dock area: The State Fire Marshall, the Parks Superintendent stated, has demanded that the gasoline storage tank be contained within a concrete pit to avoid recurrence of a situation which happened recently when the gasoline pipe was maliciously cut and approximately 800 gallons of gasoline ran into the lake. He recommended that the

concrete gasoline pit be constructed and that electric power be extended to the dock area, at an estimated cost of $1,970, which is to include a new 500 gallon gasoline tank. He also pointed out that the income from the sale of the gasoline from this tank is to be one of the items from which the State is to receive a rental percentage. In response to Commissioner Fridley's inquiry if the construction of this pit will set a precedent, the Parks Superintendent replied he did not believe it would; however, in the future when there is a concession of this type in a state park, it was his opinion that there should be included in the concession agreement provision for the construction of a similar enclosure for the gasoline tank. The Commission approved his recommendation.

Annual membership in the National Conference on State Parks: The Commission approved the Parks Superintendent's recommendation that the annual membership in this organization, from July 1, 1960 to July 30, 1961, be paid in the amount of $50.

Relocation of Cove Palisades Park in Jefferson County: The Parks Superintendent commented that a representative of the Portland General Electric Company will come before the Commission on September 30 to present an offer for re-establishment of the park because of construction of Round Butte Dam. It is expected that he will offer $355,000 for the movement of the facilities; however, such amount does not include preliminary studies or work that the State has conducted. There is a certain amount of urgency in the Portland General Electric Company's proposal as the Federal Power Commission will not allow any dam construction until an agreement has been executed between the State Highway Commission and the Portland General Electric Company. Chairman McIver inquired about water for the new park. The Parks Superintendent replied that the slide test holes are now dry but are expected to fill when the reservoir is filled. In response to an inquiry as to who owns the land on which to relocate the park, the Parks Superintendent replied that it is owned by the U. S. Bureau of Land Management who have indicated that they will deed it to the State. No action was taken.

The Right of Way Engineer presented for consideration options (Pages 1 through 66) secured for acquisition of real property that is needed for state highway right of way or for other purposes. After carefully considering the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

The Property Manager's report, covering sales of miscellaneous properties and rentals since the last Commission meeting, was presented by the Right of Way Engineer. Miscellaneous

sales during that period amounted to $23,416 and rentals paid during the month of August, 1960, totaled $5,555. The Commission accepted the report.

Indentures of access involving changes in points of access to state highways were presented by the Right of Way Engineer. He explained that all of the indentures have been carefully investigated in the field and have been approved by Highway Engineers. These changes, he continued, have been made for the convenience of the property owners and for the safety of the traveling public. The Commission approved the following indentures of access:

(1) West, Spanke and Omar property, File 18556, on the Tigard-Newberg Section of the Pacific Highway West in Washington County.

(2) Wilson property, File 25649, on the Grass Valley-Kent Section of the Sherman Highway in Sherman County.

(3) Moller and Aplet property, File 22338, on the Siletz Bay-Miner Creek Section of the Oregon Coast Highway in Lincoln County.

(4) Beall property, File 25499, on the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway in Curry County.

(5) Barnet property, File 25648, on the Grass Valley-Kent Section of the Sherman Highway in Sherman County.

(6) Reter and Premium Oil Company property, Files 18418 and 19129, on the Medford-Ashland Section of the Pacific Highway in Jackson County.

(7) Bolz property, File 18396, on the Medford-County Farm Section of the Pacific Highway in Jackson County.

Authority was requested by the Right of Way Engineer to offer at public sale several parcels of property which are no longer required for highway purposes. These parcels, he stated, have been appraised to determine their current value and access has been allowed or denied in accord with departmental procedure prevailing in the area in which the property is located. Also, advertising restrictions have been imposed on some of them where such restrictions are indicated by Commission policy. The Commission authorized public sale of the following parcels of property and thereupon adopted resolutions, marked Exhibit "B-1" through "B-5", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

(1) 0.21 acre from the former Docherty property, File 17472, on the Rowena-The Dalles Section of the Columbia

River Highway in Wasco County for a minimum consideration of $400, without access to the Columbia River Highway and with an advertising sign restriction.

(2) 1.75 acres, File 3080, on the Agency Plains-Madras Section of the Warm Springs Highway in Jefferson County for a minimum consideration of $150 and without access to the Warm Springs Highway.

(3) 115 acres, File 5027, on the Hamlet Junction Section of the Necanicum Highway in Clatsop County for a minimum consideration of $52,500. Under terms of the sale the successful bidder will be required to deposit $10,000 to guarantee fulfillment of the contract. Intermediate payments are to be made in advance of the removal of the timber, based upon a cruise of the area, and final payment is to be no later than August 1, 1961. (See Exhibit "B-1")

(4) 2.59 acres from the former Olson and Nelson properties, Files 20946 and 20948 on the Willamette River-Hayesville Section of the Pacific Highway in Marion County for a minimum consideration of $850 without access to the county road or the Pacific Highway and containing an advertising sign restriction.

(5) 3,250 square feet of land from the former Anderson property, File 15811, on the Willamette River-42nd Avenue Section of the Columbia River Highway in Multnomah County for a minimum consideration of $1,340 without access to the Columbia River Highway and containing an advertising sign restriction. (See Exhibit "B-2")

(6) 0.2 acre from the former Stokes property, File 22347, on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County for a minimum consideration of $1,000 with one 25-foot point of access to the Tualatin Valley Highway, unrestricted as to use. An advertising sign restriction is to be imposed. (See Exhibit "B-3")

(7) 4,950 square feet of land from the former Hill property, File 20120, on the Linn County Line-Judkins Point Section of the Pacific Highway in Lane County for a minimum consideration of $2,500 without access to the Pacific Highway and with an advertising sign restriction to be imposed. (See Exhibit "B-4")

(8) 7.85 acres from the former Minden property, File 22611, on the Salem-Stout Creek Section of the North Santiam Highway in Marion County for a minimum consideration of $12,000 without access to the relocated North Santiam Highway. (See Exhibit "B-5")

Direct sale of several parcels of excess property was recommended by the Right of Way Engineer. He explained that in each instance the parcel to be sold has been carefully appraised and the selling price represents its current value. These parcels, he continued, are not suitable for public sale as they are surrounded, or nearly surrounded, by adjoining, privately-owned properties. The Commission authorized direct sale of the following properties:

(1) 3,809 square feet of land from the former Johnson property, File 29109, on the Washington County Line-Highlands Interchange Section of the Sunset Highway in Multnomah County, for a minimum amount of $100, to Mr. Charles E. Jensen. The parcel is to be sold without access to the Sunset Highway and with an advertising sign restriction.

(2) 0.2 acre from the former Elliott property, File 25357, on the Albany-Judkins Point Section of the Pacific Highway in Lane County, to Mr. Roy A. Elliott for not less than $400, without access to the Pacific Highway and with the imposition of an advertising sign restriction.

(3) 2.9 acres, File 3077, on the Agency Plains-Madras Section of the Warm Springs Highway in Jefferson County, to Mr. A. B. Carlson for not less than $300 and without access to the Warm Springs Highway.

(4) 3.3 acres from the former Miller property, File 22632, on the Salem-Stout Creek Section of the North Santiam Highway in Marion County, to Mr. Henry E. Miller for not less than $450, without access to the North Santiam Highway. The State is to retain the channel easement, and purchaser is to fence the right of way.

(5) 2,750 square feet of land from the former Meaney property, File 15810, on the Banfield Expressway Section of the Columbia River Highway in Multnomah County, to Hilda Markstaller for not less than $840, without access to the Columbia River Highway and with an advertising sign restriction.

The Right of Way Engineer recommended, and the Commission approved, a "Grant of Access" to the Ashford property on the Reedsport-Coos County Line Section of the Oregon Coast Highway in Douglas County.

Consideration was given to a request from Pacific Power and Light Company for a four-year extension of a lease held by them on a parcel of property on the McKenzie Highway in Springfield, Lane County. The Right of Way Engineer explained that the land is not needed for highway purposes and has been leased to the

Power Company as a storage site for poles and materials. Under the existing lease the Power Company pays the sum of $400 annually for use of the property. Under the proposed lease they have agreed to pay $600 annually. Upon his favorable recommendation, the Commission approved a four-year extension of the lease, beginning November 1, 1960.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "C-1" through "C-19", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 28 and 29, 1960".

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation", dated September 28 and 29, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

A written report of condemnation cases which have been tried in court since the last Commission meeting was presented by the Chief Counsel. He commented briefly on some of the cases. The Commission accepted the report, which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

August 22, 1960 to September 30, 1960

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3433 William J. Dobbin, et al	Baker	Haines-Anthony Secondary	Forest Boundary-Haines	$ 1,088 (Including fencing)	$ 1,088	$ 300 (State construct fence)
L-3113 Daisy Teevin, et al	Clatsop	Oregon Coast	Roosevelt Drive	$ 325	$ 1,750	$ 1,250

(Report of Condemnation Cases Tried - Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3277 Jane Doe Bishop, et al	Columbia	Columbia River	Goble	$ 25	None	$ 25
L-3135 Dora A. Lewis, et al	Coos	Oregon Coast	Davis Slough-Bandon	$ 150	None	$ 150
L-3468 William Hugh Henry, et al	Curry	Oregon Coast	Hunter Creek-Myers Creek	$ 6,100	$49,780	$28,000
L-3461 B. A. Martin, et ux.	Curry	Oregon Coast	Myers Creek-Brookings	$10,999.75 (less a $138 credit)	Same as offer	$10,999.75 (less a $138 credit)
L-3276 S. H. & W. Lumber Co.	Josephine	Redwood	Wilderville-Grants Pass	$ 1,340	$ 7,000 (Answer)	$ 2,500

(For additional details, see the Chief Counsel's letter entitled "Report of Cases Tried", September 23, 1960, in the General Files, Salem.)

The Chief Counsel also presented a written report on condemnation cases which have been settled out of court since the last Commission meeting. He commented briefly on some of the settlements and recommended that they be approved, as it was his opinion that the differences involved between the appraised value and the amount of proposed settlement would not warrant taking the cases to court. The Commission approved the settlements, which are summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30763 William F. Deems, et al	Baker	Sumpter Valley	Sumpter-McEwen	$ 85	$ 85

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-29691 Frank W. Milliken, et al	Clackamas	Cascade	Hilda Street-Beaver Creek Road (Oregon City)	$8,850	$16,500
R-30844 Nellie J. Betters, et al	Clackamas	Pacific East	New Era-Canby	$ 690	$ 865
R-28922 Mary Conder estate, et al	Tillamook	Little Nestucca Secondary	Meda Loop	$ 910	$ 910
R-30523 Odell W. Brandaw, et al	Washington	Tualatin Valley	Hillsboro-Reedville	$ 35	$ 100
R-30757 Chester D. McConnell and Ward Wolfe	Washington	Tualatin Valley	Hillsboro-Reedville	$ 270	$ 450
R-26746 Joseph Quaale, et al	Jefferson	The Dalles-California	Willowdale-Madras	$ 750 (plus State to fence)	$ 1,634 (includes fencing allowance)
R-30397 Alice S. Getty, et al	Lane	Pacific West	Ferry Street Southbound Off-Ramp	$12,500	$12,500
R-31360 Tracy A. Stocker et al	Lane	Pacific	Goshen-Divide	$ 6,150	$ 6,300
R-26139 R-26140 Hayden Island Co., Inc.	Multnomah	Pacific	Interstate Bridge	$ 2,300	$ 2,500

September 29, 1960

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-23605 Hayden Island Amusement Co.	Multnomah	Pacific	Interstate Bridge	$72,966	$82,500
R-30446 U.S. Nat'l. Bank of Portland, et al	Union	Old Oregon Trail	Hilgard-La Grande	$ 225	$ 530
R-30939 Bonita Riley, et al	Wallowa	Enterprise-Lewiston	Enterprise-Snowhollow Hill	$ 360	$ 500

REPORT OF OTHER CASES SETTLED

Case	Plaintiff	Defendants	County	Cause of Action	Demand of Plaintiff	Settlement
L-2867A	S. P. Matheny, et al	State of Oregon by and through State Highway Commission	Marion	Inverse Condemnation-damage caused by alleged improper drainage on Portland-Salem Freeway	$12,500 Jury verdict, $2,500 remitted by Court	$4,000
L-3212A	William C. Rodgers, et al	State of Oregon by and through State Highway Commission	Marion	Inverse Condemnation-damage caused by alleged improper drainage on Portland-Salem Freeway	$ 7,000 Jury verdict	$2,800

(For additional details see the Chief Counsel's letters dated September 23 and 28, 1960, entitled "Report of Cases Settled" and "Supplemental Report of Cases Settled", in the General Files, Salem)

A list of offers made to property owners prior to the institution of condemnation proceedings was presented by the Chief Counsel in compliance with the resolution adopted December 20, 1951. The Commission confirmed the following offers:

Albany-Pacific Highway Interchange Section of the Santiam Highway

R-30970 - Marion W. Young, et al. Parcel No. 1: 325 square feet for right of way purposes; and Parcel No. 2: 1,020 square feet

for permanent easement. Offer of $1,150 approved by Mr. McIver, August 26, 1960.

R-30974 - Elizabeth L. Heider, et al. Parcel No. 1: 3,320 square feet for right of way purposes; Parcel No. 2: 645 square feet for right of way purposes; and Parcel No. 3: 1,330 square feet for permanent easement. Offer of $3,100 approved by Mr. McIver, August 26, 1960.

R-30976 - John T. Babcock, et al. Parcel No. 1: 3,080 square feet for right of way purposes; and Parcel No. 2: 771 square feet for permanent easement. Offer of $2,800 approved by Mr. McIver, August 26, 1960.

R-30977 - Andrew Kelly, et al. Parcel No. 1: 2,800 square feet for right of way purposes; and Parcel No. 2: 750 square feet for permanent easement. Offer of $2,540 approved by Mr. McIver, August 25, 1960.

R-30979 - Helen B. Taylor, et al. Parcel No. 1: 1,710 square feet for right of way purposes; and Parcel No. 2: 1,300 square feet for permanent easement. Offer of $2,120 approved by Mr. McIver, August 25, 1960.

R-30983 - Eric C. Mennis, et al. Parcel No. 1: 850 square feet for right of way purposes; Parcel No 2: 290 square feet for right of way purposes; and Parcel No. 3: 630 square feet for permanent easement. Offer of $5,250 approved by Mr. McIver, August 29, 1960.

R-30987 - Leander K. Burkhart, et al. Parcel No. 1: 4,795 square feet for right of way purposes; Parcel No. 3: 2,175 square feet for permanent easement; and Parcel No. 2: 240 square feet for right of way purposes. Offer of $2,150 approved by Mr. McIver, August 25, 1960.

R-30991 - Clarence Faulkner, et al. Parcel No. 1: 3,300 square feet for right of way purposes; and Parcel No. 2: 880 square feet for permanent easement. Offer of $2,780 approved by Mr. McIver, August 25, 1960.

R-30992 - The Oregon Christian Missionary Society, et al. Parcel No. 1: 2,000 square feet for right of way purposes; and Parcel No. 2: 1,000 square feet for permanent easement. Offer of $920 approved by Mr. McIver, August 25, 1960.

R-30993 - Rodney W. Tripp, et al. Parcel No. 1: 2,000 square feet for right of way purposes; and Parcel No. 2: 250 square feet for permanent easement. Offer of $7,445 approved by Mr. McIver, August 29, 1960.

R-30994 - Milton R. Martin, et al. Parcel No. 1: 1,000 square feet for right of way purposes; and Parcel No. 2: 500 square feet for permanent easement. Offer of $500 approved by Mr. McIver, August 25, 1960

R-30995 - W. C. Donahue, et al. Parcel No. 1: 1,000 square feet for right of way purposes; and Parcel No. 2: 500 square feet for permanent easement. Offer of $700 approved by Mr. McIver, August 25, 1960.

R-30997 - Howard Carey, et al. Parcel No. 1: 800 square feet for right of way purposes; and Parcel No. 2: 400 square feet for permanent easement. Offer of $1,040 approved by Mr. McIver, August 25, 1960.

R-30998 - George F. Halliwell, et ux. Parcel No. 1: 1,000 square feet for right of way purposes; and Parcel No. 2: 310 square feet for permanent easement. Offer of $535 approved by Mr. McIver, August 24, 1960.

R-31000 - Rodney W. Tripp, et al. Parcel No. 1: 900 square feet for right of way purposes; and Parcel No. 2: 500 square feet for permanent easement. Offer of $820 approved by Mr. McIver, August 25, 1960.

R-31001 - Lester Foss, et ux. Parcel No. 1: 975 square feet for right of way purposes; Parcel No. 2: 312 square feet for right of way purposes; and Parcel No. 3: 267 square feet for permanent easement. Offer of $3,600 approved by Mr. McIver, August 29, 1960.

R-31002 - Assembly of God, Pentecostal, of Albany, et al. Parcel No. 1: 3,612 square feet for right of way purposes; and Parcel No. 2: 1,535 square feet for permanent easement. Offer of $2,375 approved by Mr. McIver, August 24, 1960.

R-31003 - Floyd M. Carter, et al. Parcel No. 1: 1,012 square feet for right of way purposes; and Parcel No. 2: 237 square feet for permanent easement. Offer of $860 approved by Mr. McIver, August 25, 1960.

R-31005 - Stanley Martin, et al. Parcel No. 1: 1,378 square feet for right of way purposes; and Parcel No. 2: 689 square feet for permanent easement. Offer of $1,525 approved by Mr. McIver, August 25, 1960.

R-31010 - Marion E. Platt, et al. 2,580 square feet for right of way purposes. Offer of $1,490 approved by Mr. McIver, August 25, 1960.

R-31011 - Charles A. Cleland, et ux. 1,600 square feet for right of way purposes. Offer of $1,805 approved by Mr. McIver, August 25, 1960.

R-31012 - John A. Cude, et al. 60 square feet for right of way purposes. Offer of $50 approved by Mr. McIver, August 26, 1960.

Tillamook River Bridge Section of the Netarts Highway

R-27570 - James E. Pallin, et al. 3.9 acres for right of way purposes. Offer of $4,350 approved by Mr. McIver, August 24, 1960.

R-29554 - Gottfried Josi, et al. 1.95 acres for right of way purposes. Offer of $1,625 approved by Mr. McIver, August 31, 1960.

R-29555 - Tillamook Broadcasting Company, Inc. 0.05 acre for right of way purposes. Offer of $800 approved by Mr. McIver, August 30, 1960.

Wilderville-Grants Pass Section of the Redwood Highway

R-28640 - L. T. Howard, et al. Parcel No. 1: 0.78 acre for right of way purposes; Parcel No. 2: 200 square feet for temporary easement; Parcel No. 3: 210 square feet for temporary easement; and Parcel No. 4: 0.11 acre for temporary easement. Offer of $5,285 approved by Mr. Jackson, August 30, 1960.

R-30804 - George F. Fowler, et ux. 1.36 acres for right of way purposes. Offer of $310 approved by Mr. Jackson, September 2, 1960.

Smith Point-Camp Rilea Section of the Oregon Coast Highway

R-30941 - Jacob F. Von Barm, et al. 5,500 square feet for right of way purposes. Offer of $600 approved by Mr. McIver, September 23, 1960.

R-30963 - Robert L. Williamson, et al. Parcel No. 1: 3,850 square feet for right of way purposes; and Parcel No. 2: 1,800 square feet for right of way purposes. Offer of $250 approved by Mr. McIver, September 27, 1960.

Wrights Point-The Narrows Section of the Frenchglen Highway

R-31079 - Irene Church, et al. 15.91 acres for material source. Offer of $250 approved by Mr. Fridley, September 13, 1960.

R-31346 & R-31452 - Mary Kejr, et vir. Parcel No. 1: 1.0 acre for material source; Parcel No. 2: 7.22 acres for material source; and Parcel No. 3: 0.7 acre for permanent easement. Offer of $150 approved by Mr. Fridley, September 16, 1960.

R-31349 - Francis E. Griffin, et ux. Parcel No. 1: 3.1 acres for material source; Parcel No. 2: 3.0 acres for material

source; and Parcel No. 3: 4.5 acres for material source. Offer of $160 approved by Mr. Fridley, August 31, 1960.

Neskowin-Salmon River Section of the Oregon Coast Highway

R-30909 - Gus Russell, et ux. 1.43 acres for right of way purposes. Offer of $450 approved by Mr. McIver, September 21, 1960.

North Portland Harbor-North Russell Street Section of the Pacific Highway

R-29648 - Tenet Mortgage Co., et al. 5,000 square feet for right of way purposes. Offer of $3,200 approved by Mr. McIver, September 13, 1960.

Lake Road-Oregon City Section of the Cascade Secondary Highway

R-28654 - Joe Bookshnis, Inc., et al. 0.53 acre for right of way purposes. Offer of $2,000 approved by Mr. McIver, September 13, 1960.

Goshen-Divide Section of the Pacific Highway

R-31360 - Tracy A. Stocker, et al. 15.0 acres for right of way purposes. Offer of $6,150 approved by Mr. McIver, August 26, 1960.

Academy Street-Coast Junction Section of the Dallas-Rickreall Highway

R-31327 - Anne Plett George, et al. 200 square feet for right of way purposes. Offer of $50 approved by Mr. McIver, September 6, 1960.

Rhinehart-Elgin Section of the Wallowa Lake Highway

R-30750 - Robert B. Lee, et al. Parcel No. 1: 11.7 acres for right of way purposes; and Parcel No. 2: 0.3 acre for material source. Offer of $7,450 approved by Mr. Fridley, September 2, 1960.

Seven Oaks-Neil Creek Section of the Pacific Highway

R-28880 - Marie G. Vorbeck, et al. 0.87 acre for right of way purposes. Offer of $10,820 approved by Mr. Jackson, September 2, 1960.

R-30581 - J. S. Lydiard, et ux. Parcel No. 1: 0.25 acre for right of way purposes; and Parcel No. 2: 1,500 square feet for right of way purposes. Offer of $3,825 approved by Mr. Jackson, September 27, 1960.

R-31069 - Joseph E. Lester, et ux. 0.12 acre for right of way purposes. Offer of $2,060 approved by Mr. Jackson, September 23, 1960.

A written report was presented by the Chief Counsel concerning orders issued by the Public Utility Commissioner in which the

State Highway Commission has been a party. The Commission accepted his report, which is summarized as follows:

PUX 328: Barnett Road Grade Crossing. This matter arose upon the application of the City of Medford and was primarily for the extension of Barnett Road across the tracks of the Southern Pacific Company. The final order authorized the installation of the Barnett Road crossing with the signalization thereof, and the closing of a crossing at Eleventh Street. Neither of these crossings involved a road or street under the jurisdiction of the Highway Commission.

PUX 340: Train Speeds - Condon, Kinzua and Southern Railroad Company. Matter arose on Public Utility Commissioner's motion and involved the fixing of train speeds on the railroad at the intersection thereof with the route of the John Day Highway in Condon. No particular representations were made on behalf of the Highway Commission, and the maximum permissible speed for train operations was fixed at 15 miles per hour.

PUX 385: Pearl Street Grade Crossing in Eugene. This matter arose upon the application of the Southern Pacific Company for authority to construct a spur track across Pearl Street in the city limits of Eugene. The city street is not under the jurisdiction of the Highway Commission, and an answer was filed in which no objection was made to the issuance of a proper order.

PUX 390: Fielder Lane Grade Crossing. This matter arose upon the application of Jackson County and involves the widening of an existing crossing of Fielder Lane across the tracks of the Southern Pacific Company, located on the northerly side of the Rogue River west of Gold Hill. This crossing is under the jurisdiction of Jackson County, and an answer was filed on behalf of the State Highway Commission making no objection to the issuance of a proper order.

The Chief Counsel reported on an action filed by Loren H. and Carolyn Russell against The Travelers Insurance Company, involving damages to their house caused by a slide in the course of construction of the Barbur Boulevard Section of the Pacific Highway (Interstate Highway No. 5). He explained that the State required a portion of the property owned by the Russells for right of way purposes. Subsequent to negotiations for this partial taking, a slide occurred, apparently damaging the remaining property. As a result, the State acquired the entire Russell property at a fair cash market value at the time of the taking, which was immediately prior to the slide. Previous to this, the Russells sued The Travelers Insurance Company for additional money, claiming that the State purchased the property at a figure indicating its damaged value rather than its fair cash market value prior to the slide. The Travelers Insurance Company is now attempting to make the State and Henry and Ralph Hannan,

contractors, Third Party Defendants, alleging that if any money is due and owing the Russells, it would be from the State rather than from the insurance company. The Chief Counsel stated that the State paid a fair cash market value for this property, as indicated by appraisals, and it was his opinion that the Russells cannot collect from the insurance company nor can the insurance company successfully make the State a Third Party Defendant. This matter has been turned over to the Trial Section and steps will be taken to protect the interests of the State and the contractor. The Commission accepted the report.

The Commission gave consideration to Mr. Masaomi Kibe's claim in the amount of $58.40. The Chief Counsel stated that on April 17, 1960, Mr. Kibe's truck and trailer were damaged at the south end of the Interstate Bridge due to a faulty cable barrier. This matter was discussed with the Washington Toll Bridge Authority. Upon his favorable recommendation, the Commission approved payment of the claim.

Consideration was also given to a compromise settlement of the Highway Department's claim CAO-60-110 for damages in the amount of $69.55 to a guardrail at Mile Point 269.00 on the Old Oregon Trail Highway No. 6, caused by a Garrett Freight Lines truck. The Chief Counsel stated that subsequent correspondence with Garrett Freight Lines has resulted in denial of the claim. However, as a result of the State's insistence, the Garrett Freight Lines' insurance company offered to settle for $34.83. He recommended the acceptance of this amount as it would not be advisable to file an action. The Commission approved the settlement.

The Chief Counsel recommended for abandonment sixteen claims against others for damages to highway property. He stated that these claims have been filed over the past years and are noncollectible because of the defendant's absence, death, lack of funds or no liability. Further attempts to collect would only result in more expenditures by the State. The Commission approved abandonment of the following claims:

CAO No.	Name	Explanation	Claim
60-242	Fred Joe Padillo	Unable to locate. Light sign damage.	$70.73
60-159	M. C. Foster	Vehicle damage. Windshield damage.	57.01
60-160	Roy L. Houck & Sons	Vehicle damage. Windshield damage.	54.53
60-164	Eversole Motors	Vehicle damage. Our insurance company paid other party.	74.28
60-172	Mary Roa	Union Ave. Viaduct damage. Hopeless-no insurance-no money.	83.77

(Cont.)

CAO No.	Name	Explanation	Claim
59-16	Ralph H. Haynes	Guard rail damage. Unexpected slick spot-no liability.	$327.87
59-318	Del E. Gaines	Wire fence damage. Deceased.	142.97
60-86	Dean S. Wheeler	Wire fence damage. Unknown. 3rd car liability instead of Mr. Wheeler	79.53
60-226	Vao Ralston	Guard rail damage. No liability-flat tire was cause. Insurance company denies liability.	221.15
60-178	James Lanegan	Bridge damage. Damage to drawbridge. Investigation by maintenance dept. reveals damage was our fault.	22.39
60-251	Dorothy Ross	Guard rail damage. Accident. No liability. Flat tire.	73.96
57-251	Irene Franks	Bridge damage. Accident. Unexpected slippery spot. No liability for recent case.	186.23
60-167	Mabel Konkler	Guard rail damage. Hopeless, unable to locate.	69.93
59-42	Alvin J. Henry	Bridge damage. In Veteran's hospital. Personal investigation reveals poor financial situation. Hopeless.	75.25
59-257	Dale Lantto	Guard fence damage In jail. Has no money. His future looks very bleak and will no doubt take bankruptcy.	78.69
58-152	Jack McCoy	Vehicle damage. Wrong person has been contacted in Oregon. The McCoy actually involved is from out of state and previous letters sent to him result in no response.	521.86

Consideration was given to a request by Keith Johnson, District Attorney of Wallowa County, stating that a delegation of people who use the Joseph-Imnaha Highway have conferred with him concerning

the possibility of prohibiting livestock from running at large on the Little Sheep Creek Highway No. 350, from the top of Sheep Creek Hill, east of Joseph, to the town of Imnaha. The Chief Counsel stated that there are several statutes in which the legislature has prohibited the running of livestock at large on approximately ten highways within the State. Mr. Johnson asked in his letter if the Commission would have any objection if they tried to get such a law passed relative to this particular highway. The Commission indicated that it would offer no objection to such a bill in the next legislature.

The resignation of John C. McLean, Trial Attorney with the Legal Division, effective October 1, 1960, was reported by the Chief Counsel. He stated that Mr. McLean is going into private practice with a law firm in Portland. He requested authority to hire a replacement, upon the approval of the Attorney General, at a salary commensurate with experience and ability. The Commission accepted the resignation and authorized the employment of a replacement.

Authority was requested by the Chief Counsel to re-employ Robert Holland, Chief Counsel of the Department of Motor Vehicles, at his present salary of $745 per month. He explained that Mr. Holland is a very capable attorney and had been with the Highway Department's Legal Division several years prior to accepting his present position. The Commission approved the re-employment of Mr. Holland, subject to the approval of the Attorney General.

The Chief Counsel reported on 42 Vanport flood cases in Multnomah County which have been pending for a number of years. These cases have now been tried by the Supreme Court. The Supreme Court, he said, has ruled that there is no liability on the part of the State Highway Commission for the breaking of the Denver Avenue Dike. The Supreme Court held that Denver Avenue was built as a road and not as a dike. The Commission accepted the report and asked the Chief Counsel to compliment Mr. Charles Peterson and his staff for the excellent job which they have done in connection with these cases.

The Chief Counsel presented to the Commission a resolution authorizing the State Highway Engineer or, in his absence, a lawfully authorized representative, to issue pole line permits. He stated that prior to this time these permits have been signed by the Secretary. Several years ago the legislature delegated to the Highway Engineer certain duties, and in order to bring this in line with this delegation of authority he recommended that the resolution be adopted. The Commission adopted the resolution, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

The Engineer stated that he had made awards of contracts which had been referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he continued, have been fulfilled and the Commission confirmed his award of the following contracts:

(1) Traffic Signal Installation in City of Pendleton, S. W. 10th Street-S. E. 3rd Street Section of Old Oregon Trail Highway, Umatilla County. Bids received August 16, 1960. Contract awarded August 19, 1960 to Zephyr Electric, Inc., Pendleton, low bidder.

(2) Construction of Neawanna Creek Bridge on 12th Avenue near Seaside, Clatsop County. Bids received August 16, 1960. Contract awarded August 19, 1960 to Beebe Construction Company, Portland, low bidder.

(3) Construction of Butte Creek and Calapooya River Bridges, Linn County. Bids received August 16, 1960. Contract awarded August 19, 1960 to H. G. Carl Construction Company, Salem, low bidder.

(4) Grading and paving Milwaukie-Harmony Point Section of King Road, Clackamas County. Bids received July 28, 1960. Contract awarded August 19, 1960 to Logan, Taylor & Company, Portland, low bidder.

(5) Construction of the K.I.D. "A" Canal Bridge at south city limits of Klamath Falls, Klamath County. Bids received July 28, 1960. Contract awarded August 19, 1960 to Pacific Concrete Co. & Otis P. Jordan, Jr., Portland, low bidder.

(6) Grading, surfacing and oiling the Powers Junction-Sugarloaf Mountain Section of Coos Bay-Roseburg Highway, Coos County. Bids received July 28, 1960. Contract awarded August 25, 1960 to Miller & Hutchins Contractors, Inc., Roseburg, low bidder.

(7) Grading and oiling North Unit, Lyle Gap-Madras Section of The Dalles-California Highway, Jefferson County. Bids received July 28, 1960. Contract awarded August 25, 1960 to Earl L. McNutt Company, Eugene, low bidder.

(8) Grading and paving New Era-Canby Section of Pacific Highway East, Clackamas County. Bids received July 28, 1960. Contract awarded August 26, 1960 to Warren Northwest, Inc., Portland, low bidder.

(9) Grading, paving, structure and signing on The Dalles-Big Eddy Section of Columbia River Highway, Wasco County. Bids received July 28, 1960. Contract awarded August 26, 1960 to Vernie Jarl, Gresham, low bidder.

(Cont.)

(10) Grading and construction of three R.C.D.G. bridges on Goshen-Coast Fork Willamette River Section of Pacific Highway, Lane County. Bids received August 16, 1960. Contract awarded August 30, 1960 to Roy L. Houck Sons' Corporation, Salem, low bidder.

(11) Grading Tillamook River Bridge Section of Netarts Highway, Tillamook County. Bids received August 16, 1960. Contract awarded September 9, 1960 to A. L. Harding, Inc., Stayton, low bidder.

The establishment of temporary construction speed zones was reported by the Engineer who explained that, under authority previously granted by the Commission, these construction speed zones had been established on contract projects for the protection of the traveling public. The Commission confirmed establishment of construction speed zones as follows:

(1) 35 miles per hour on the Silver Creek Falls Highway, No. 163, from M.P. 3.47 to M.P. 3.92, effective 8:00 a.m., August 19, 1960.

35 miles per hour on the North Santiam Highway, No. 162, from M.P. 1.57 to M.P. 1.91, effective 8:00 a.m., August 19, 1960.

(2) 35 miles per hour on The Dalles-Big Eddy Section of the Columbia River Highway between M.P. 85.90 and M.P. 87.80, effective 2:00 p.m., August 16, 1960.

(3) 35 miles per hour on the Ca[illegible]o Adair-Lewisburg Section of the Pacific Highway Wes[illegible]om M.P. 73.8 to M.P. 76.2 and from M.P. 77.8 t[illegible]M.P. 78.0, effective 1:00 p.m., August 26, 196[illegible]

(4) 35 miles per hour on the N[illegible]w Era-Canby Section of the Pacific Highway East, bet[illegible]en M.P. 18.37 and M.P. 21 4, effective 8:00 a.m., Sept[illegible]ber 7, 1960.

The Commission discuss[illegible] with the Engineer bids received September 27, 1960. The Engineer r[illegible]wed the bids briefly, pointing out the low bidder, the estimated co[illegible]each project and his recommendation as to award or rejection. [illegible]n was deferred until 2:00 p.m.

Increases in project a[illegible]ization were requested by the Engineer for two contracts. On Con[illegible] No. 5608, for work on the Homestead-Rock Point Section of th[illegible]ific Highway, he requested an

increase of $100,000, due mainly to the development of a large slide in the Rock Point cut. On Contract No. 5477, for painting the Yaquina Bay Bridge on the Oregon Coast Highway at Newport, he requested an additional authorization of $32,300, caused by the necessity of chipping rust from the interior of the bridge columns. The Commission approved the increases as requested.

Attention was given to a request from Robert A. Finlayson, City Manager of Eugene, for the installation of traffic signals at the intersections of Sixth Avenue (Pacific Highway northbound) with Washington and Monroe Streets, and for signals at the intersection of Seventh Avenue (Pacific Highway southbound) with Washington Street. The Traffic Engineering investigation which was conducted, the Engineer stated, indicated that the installation of signals at these intersections is warranted according to national standards and would improve the over-all control of Pacific Highway traffic. Cost of signals at the three intersections he estimated at $12,000 and recommended that they be installed provided the City of Eugene would pay one half the cost of the installation and provide all future maintenance and power consumption. The Commission approved the installation as presented.

The Commission also gave attention to a request made by Mr. J. R. Kalinoski, Klamath County Engineer, concerning traffic control signals at the intersections of Summers Lane and Altamont Drive with South Sixth Street, route of Klamath Falls-Lakeview Highway and Klamath Falls-Malin Highway. The Engineer reported that these two intersections have developed exceptionally heavy traffic primarily because of the Air Base nearby. Installation of signals, he stated, is warranted by national standards and he recommended that they be installed at these two intersections at an estimated cost of $24,300. As the locations are outside the city limits of Klamath Falls the cost will be borne by the State. Upon his favorable recommendation the Commission approved installation of the signals.

A request from the City of Salem for installation of a traffic signal at the intersection of South Commercial Street (Pacific Highway East-U.S. 99 Business) and Alice Avenue was also considered. The Engineer reported that an investigation had disclosed that conditions at the intersection meet the standard warrants for installation of traffic signals, and he recommended that a fixed-time traffic signal be installed at an estimated cost of $5,000. As this signal is within the City of Salem, it is understood, he continued, that the City of Salem is to pay one half the cost of the installation and provide all future maintenance and power needs. The Commission approved the installation.

Attention was given to luminaire agreement with the City of Portland concerning the maintenance and operation of highway lighting at the Holladay Street off-ramp and the Sixteenth Avenue on-ramp to the Banfield Freeway (Columbia River Highway) in Portland. This agreement, he continued, supplements and modifies an agreement, dated May 8, 1958, and provides among other things that the

City at its own expense will provide electrical energy for operating the lights and the State will maintain them. The Commission approved the agreement.

The Engineer presented for consideration an agreement with the City of Woodburn whereby the State will install flashing advance-warning signals for the traffic signal at the intersection of Young Street with the Pacific Highway East. He commented briefly that considerable difficulty has been encountered in that vehicles run through the red light. He recommended that the signal be installed at an estimated cost of $500 with the understanding that the City is to contribute one half the cost of installation and provide all future maintenance and power needs. The Commission approved the installation.

The Commission discussed a letter from the Jackson County Court requesting improvement within the next five years on:

(1) Sams Valley Highway from Gold Hill Junction to John Day Drive.

(2) Lake of the Woods Highway from Crater Lake Highway to McAllister Springs construction.

(3) Improving alignment, widening and additional surfacing on the Medford-Provolt Highway, No. 238.

In discussing these projects it was generally agreed that they are meritorious projects but improvements cannot be undertaken at the present time due to lack of funds.

The Engineer also called attention to the County's request that Lake of the Woods Secondary Highway, No. 270 be transferred from Secondary to Primary Highway Classification. He explained that no additional funds would be available if the highway could be designated as a Primary Highway and that no higher standard of construction would be used; in other words, nothing would be gained by changing the status of the road. The Commission instructed that the Jackson County Court be advised of these facts.

The Commission also considered a letter from the Josephine County Court requesting that the Highway Commission include in its next five year construction program improvement of:

(1) The Redwood Highway; and

(2) The Williams and the Medford-Provolt Secondary Highways between Grants Pass and Medford.

After some discussion of these projects with the Engineer, the Commission instructed that the Josephine County Court be advised that the Commission recognizes the need for improving the Redwood

Highway and careful consideration will be given in formulating the next construction program. Concerning improvement of the Williams and the Medford-Provolt Secondary Highways, it was pointed out that although improvement is desirable no funds are available at this time.

The Commission gave attention to a letter signed by the Klamath County Court, Mayor of Klamath Falls and the Acting President of the Klamath County Chamber of Commerce recommending projects for a program of road improvements in the Klamath County area. The 18 projects requested, the Engineer stated, are estimated roughly to cost near $14,000,000. He recalled that when a Klamath Falls delegation had appeared before the Highway Commission at its August meeting, the delegation had been advised that the Commission planned to complete the West Side Bypass at an early date. The Engineer also pointed out that the letter had recommended that several highways be changed from Secondary to Primary classification. The shifting of highways from one classification to another, he continued, would not provide additional funds for these highways, and he could not recommend that changes in classification be made. Funds for construction of all of the projects requested are not available, although some of the projects have considerable merit. After some further discussion the Commission instructed that the senders of the letter be advised that funds are not available for all of the projects requested, but they will be considered in preparing the next five-year construction program.

In discussing projects in and near Klamath Falls, Commissioner Fridley inquired as to the priority status of completion of the West Side Bypass in Klamath Falls in comparison with reconstruction of The Dalles-California Highway along Third Street in the City of Bend. The Engineer replied that, inasmuch as the West Side Bypass has been partially constructed, it should be completed at an early date. It was his opinion that the Bend project might be completed in the next five-year program, if funds are available. The Commission accepted the Engineer's report.

The Engineer reported that yesterday a letter had been received from the Klamath County Court, signed by two Commissioners but not signed by the County Judge, offering to construct the East Side Bypass in and near Klamath Falls, using county Federal-aid Secondary funds and county equipment, provided the State would take over and maintain the section as a state highway after construction is completed. The County's letter indicated that the cost of construction would be approximately $300,000 and that the highway would be built to standard specifications. The Engineer recalled that several years ago the State had started construction of the East Side Bypass and had constructed the Esplanade Section. The County proposal would extend the constructed section southerly as a Federal Secondary Highway. He recommended that the State Highway Commission take over the section as a state

highway when it has been constructed by the County to standard specifications. The Commission approved the recommendation.

To correct an inconsistency in Survey Resolution No. 213 the Engineer presented an amended resolution changing the name of the highway from Beaverton-Tualatin Highway to Beaverton-Tigard Secondary Highway No. 144. This action, he continued, has to do with adoption of the survey for reconstruction of the highway as mentioned in the survey resolution. The Commission approved the amendatory action and thereupon adopted a resolution pertaining thereto, marked Exhibit "E", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

A list of county Federal-aid Secondary Highway projects in Clackamas, Crook, Deschutes, Douglas, Grant, Malheur, Polk, Tillamook and Yamhill Counties was presented by the Engineer. He explained that all projects were recommended by the respective County Courts, have been investigated, and are eligible projects. Upon his favorable recommendation the Commission approved the following county Federal-aid Secondary projects:

County	FAS Hwy. No.	Section and Description	Programed Amount	FAS Fund
Clackamas	134	Sunnyside Road. Grade, surface, paving & structures.	$ 170,000	'62
Crook	831	Howard School-Quants Cabins. Grade, surface & oil	$ 142,000	'61 & '62
Deschutes	891	Hamby Road Oiling 2.7 mi.		
	894	Davidson Road " 1.6 "		
	895	Cornelius Road " 2.5 "		
	897	Johnson Road " 4.7 "		
	900	Peters Road " 2.6 "		
	901	Harper Road " 2.1 "		
		16.2 mi.	$ 61,000	'62
Douglas	253	Briggs Camp-Cascade Lakes Junction. Paving.	$ 318,000	'62
Grant	453	Snowshoe Camp-Star Creek. Oiling.	$ 120,000	'61 & '62
Malheur	515	Malheur River Bridge. Supplemental funds.	$ 50,000	'62
	525	North Unit, Harper-Westfall. Grade, surface & oil.	$ 156,000	'62

(Cont.) County	FAS Hwy. No.	Section and Description	Programed Amount	FAS Fund
Polk	743	Spring Valley Creek Bridge Section. Culvert.	$ 10,000	'62
	746	Salt Creek Bridge Section. Culvert	$ 9,000	'62
Tillamook	617	Cape Lookout Section. Grading.	$ 100,000	'61 & '62
Yamhill	111 & 889	Bernard Corner-Purdy's Corner. Surface & oil	$ 145,000	'62
		TOTAL	$1,281,000	

SUMMARY BY FISCAL YEARS	1961 & 1962 (Estimated)	1963 (Estimated)	Total
Available Funds	$4,062,000	$3,500,000	$7,562,000
Previously Approved	560,000	- -	560,000
Unprogrammed Balance	$3,502,000	$3,500,000	$7,002,000
Projects Proposed 9/28/60	1,281,000	- -	1,281,000
Unprogrammed Balance	$2,221,000	$3,500,000	$5,721,000

A tabulation showing partial allocation of 1962 county Federal-aid Secondary funds was presented by the Engineer. This allocation, he stated, has been made in accord with procedure approved by the Highway Commission using a formula developed by the Association of Oregon Counties. A final allocation of 1962 funds to counties will be made when the 1960 federal census is tabulated and the balance of approximately 25 percent has been made available. The Commission approved the following allocation of FAS funds to the counties:

County	Gross Federal Funds	Less "L" Funds	Net Federal Funds	September, 1960 Total Funds Including State & County Match Money (Rounded to Thousands)
Baker	$ 25,530	$ 1,800	$ 23,730	$ 40,000
Benton	31,871	2,200	29,671	50,000
Clackamas	104,077	8,400	95,677	159,000
Clatsop	27,643	2,200	25,443	42,000
Columbia	36,095	2,300	33,795	56,000
Coos	57,111	3,400	53,711	90,000
Crook	24,913	1,700	23,213	39,000
Curry	25,609	1,350	24,259	40,000

(Cont.)

County	Gross Federal Funds	Less "L" Funds	Net Federal Funds	September, 1960 Total Funds Including State & County Match Money (Rounded to Thousands)
Deschutes	$ 28,414	$ 2,300	$ 26,114	$ 44,000
Douglas	72,696	6,900	65,796	110,000
Gilliam	17,966	1,400	16,566	28,000
Grant	22,429	1,500	20,929	35,000
Harney	25,329	- -	25,329	42,000
Hood River	25,157	1,550	23,607	39,000
Jackson	56,509	4,100	52,409	87,000
Jefferson	22,578	1,550	21,028	35,000
Josephine	32,739	1,900	30,839	51,000
Klamath	46,413	2,900	43,513	73,000
Lake	24,678	- -	24,678	41,000
Lane	107,835	7,500	100,335	167,000
Lincoln	31,799	2,500	29,299	49,000
Linn	58,094	3,850	54,244	91,000
Malheur	46,441	3,650	42,791	71,000
Marion	90,932	5,700	85,232	142,000
Morrow	24,388	2,250	22,138	37,000
Multnomah	156,160	9,000	147,160	245,000
Polk	35,446	3,050	32,396	54,000
Sherman	17,428	2,800	14,628	24,000
Tillamook	31,164	2,350	28,814	48,000
Umatilla	51,126	3,950	47,176	79,000
Union	24,562	1,650	22,912	38,000
Wallowa	23,276	2,250	21,026	35,000
Wasco	26,740	2,450	24,290	41,000
Washington	87,047	5,750	81,297	135,000
Wheeler	15,751	1,250	14,501	24,000
Yamhill	40,450	2,750	37,700	63,000
	$1,576,396	$110,150	$1,466,246	$2,444,000

SUMMARY, ENTIRE STATE - FISCAL YEAR 1962 COUNTY FAS FUNDS:

Federal Funds (50% of Ore.'s Apportionment of $3,200,805)		$1,600,402
Less Planning Survey Funds		24,006
Gross Total Federal Funds for Construction		$1,576,396
Less 50% of "L" Funds Advanced for County "D" (Crash) Projects		110,150*
Net Total Federal Funds for Construction		$1,466,246
Plus Estimated Required Match Money . . State Funds)		488,877
. . County Funds)		488,877
TOTAL COUNTY FAS FUND.		$2,444,000

September 29, 1960

(Cont.)

*Includes $6,900 "L" funds for Garden Valley Road Section in Douglas County programmed as an urban (DU) project on the urban extension of county FAS 800.

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on total county road mileage) proposed by Association of Oregon Counties and approved by Highway Commission. Federal funds are estimated to represent approximately 60% of total county road FAS fund with state and county funds estimated to be approximately 20% each.

Consideration was given to a request from the City of Newport in Lincoln County for a co-operative project on the Oregon Coast Highway, from Boundary Street north to Holly Avenue. The Engineer explained that this project is an extension of the existing 64-foot street section and is bordered by a highly developed business area. The estimated cost of the improvement is $175,000, and the City of Newport has offered to pay $43,750. He recommended that the project be performed, provided the City will pay 25 per cent of the cost. The Commission approved the project as presented.

The Commission also considered a request from the City of Rogue River in Jackson County for permission to develop as a city park a small area of State right of way between the Interstate Pacific Highway and the Rogue River. The Engineer commented that in acquiring right of way for the highway the State had purchased the entire city park. A portion of this is not required for highway purposes, and he recommended that the City be allowed to use this portion as a city park, subject to certain conditions to be outlined in a permit, such permit to be revocable at any time. The Commission approved the recommendation.

A request was considered from the U.S. Bureau of Public Roads for assistance in constructing the Neskowin-Otis Junction Section of the Oregon Coast Highway by seeding and mulching of the slopes. The estimated cost of the work, the Engineer stated, is $3,300 and under terms of an agreement with the Bureau of Public Roads the State is to be reimbursed for its expense in the seeding and mulching project. Following his favorable recommendation the Commission approved the project.

Requests for extensions of time and increases in the number of working days within which to complete State Highway contracts were presented by the Engineer. He outlined briefly the reasons for granting or denying the extensions of time and made his recommendation for each request. The Commission took action on the requests for extensions of time as follows:

(see next page)

(1) Miller & Hutchins Contractors, Inc., Contract No. 5541 for grading the East Unit, Adel-Blizzard Gap Section of the Adel-Nevada State Line Highway in Lake County, requested an increase of 30 workdays within which to complete the contract without assessment of liquidated damages. The Commission denied the request. A letter was presented from the Bureau of Public Roads concurring in the denial.

(2) Don Greene Construction Company, Contract No. 5230 for grading the Coleman Creek-Short Creek Section of the Cape Meares Loop Road in Tillamook County, requested an increase in the number of workdays from 100 days to 120 days within which to complete the contract without assessment of liquidated damages. The Commission denied the request. A letter was presented from the Bureau of Public Roads concurring in the denial.

(3) F. E. Wilburn, Contract No. 5409 for grading and oiling on the Meda Section of the Little Nestucca Highway in Tillamook County, requested an increase in the number of workdays from 90 days to 99 days within which to complete the contract without assessment of liquidated damages. The Commission approved the request and a letter was presented from the Bureau of Public Roads concurring in the extension.

(4) M. J. Brassfield Company, George E. Blaisdell and Son Construction, and Shirley G. Stone Company, Contract No. 5492 for grading and paving the Boones Ferry Road-Oswego Section of the Boones Ferry Road-Oswego Road, requested an increase in the number of workdays from 85 days to 115 days within which to complete the contract without assessment of liquidated damages. The Commission approved an increase in workdays allowed from 85 days to 107 days. A letter from the Bureau of Public Roads was presented concurring in the increase.

(5) General Construction Company, Contract No. 5205 for bridge reconstruction on the Portland-Vancouver Section of the Pacific Highway in Multnomah County, requested an extension of 13 days time, from July 31 to August 13, 1960, within which to complete the contract without assessment of liquidated damages. The Commission granted an extension to and including August 4, 1960, the date of completion of the contract without assessment of liquidated damages. A letter from the State of Washington was presented concurring in the extension of time as granted.

(6) Kuckenberg Construction Company, Contract No. 5110 for grading on the Lowell Street-21st Avenue Unit of the Pacific Highway in Multnomah County, requested an increase in the number of workdays from 180 days to 210 days within which to complete the contract without assessment of liquidated damages. The Commission granted 20 additional workdays without payment of liquidated damages. A letter from the Bureau of Public Roads was presented concurring in this action.

(7) A. L. Harding, Inc., Contract No. 5525 for grading and paving on the Smith Bridge-Kellogg Bridge Section of the Elkton-Sutherlin Secondary Highway in Douglas County, requested an increase in the number of workdays from 140 days to 160 days within which to complete the contract without assessment of liquidated damages. The Commission granted five additional workdays without assessment of liquidated damages. A letter from the Bureau of Public Roads was presented concurring in this action.

(8) C. M. Corkum Company, Inc., Contract No. 5459 for grading, paving and trestles on the Harbor Drive Section of the Pacific Highway in Multnomah County, requested an increase in the number of workdays from 165 days to 190 days within which to complete the contract without assessment of liquidated damages. The Commission granted the request. A letter from the Bureau of Public Roads concurring in this action was presented.

(9) F. H. McEwen, Contract No. 5516 for stone base and paving on the North Umpqua Junction-Diamond Lake Section of the Cascade Lakes Road in Deschutes County, requested an increase in the number of workdays from 140 days to 150 days within which to complete the contract without assessment of liquidated damages. The Commission granted an increase of three workdays without assessment of liquidated damages. A letter from the Bureau of Public Roads was presented concurring in this recommendation.

The Engineer reported that Contract Nos. 5115, 5293, 5334, 5339, 5345, 5347, 5351, 5363, 5388, 5471, 5495, 5513, 5529, 5541, 5557, 5606, 5624, 5625, 5631, 5633, 5642, 5657, 5658, 5659, 5663, 5664, 5668, 5676, 5677, 5682, 5685, 5691, 5694, 5695, 5697, 5699, 5701, 5705, 5711, 5712, 5717, 5719, 5721, 5726, 5727, 5733, 5742, 5749, 5776 for highway construction have been completed in accordance with the requirements of the contracts, or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution, marked Exhibit "F", which resolution by this reference is made a part hereof and filed in the

Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

The Engineer reported that at the present time about twenty highway construction projects on the Interstate System are being delayed because agreements with the Union Pacific Railroad Company have not been prepared. Because of construction of the Interstate Highway System the Union Pacific work load has increased to such an extent that they are unable to speed preparation of the essential agreements. The Company has now advised that their engineering budget has been reduced which will mean that longer delays can be anticipated before railroad personnel can prepare the necessary agreements. To expedite the highway construction program the Engineer recommended that an agreement be entered into with Union Pacific Railroad Company whereby an engineer will be employed by the Railroad Company to work exclusively on Oregon Highway projects that involve cooperation by the Union Pacific, and that this engineer's salary and expenses of approximately $725 per month be reimbursed by the State to the Railroad Company on monthly billings. The Commission approved the arrangement as outlined by the Engineer.

Items of unfinished business appearing on the Secretary's summary, dated August 19, 1960, were considered as follows:

(1) Appointment of a person to replace Robert B. Frazier, resigned, on the State Parks and Recreation Advisory Committee: The Parks Superintendent stated that Mr. Loren "Stub" Stewart of Cottage Grove had been recommended as a member of this Advisory Committee by the Commission and his appointment approved by the Governor effective September 26, 1960. This item is to be removed from the list of unfinished business.

(2) Proposed extension of an agreement with P & A Enterprises to operate concession at Rooster Rock State Park: A report was made earlier in the day by the Parks Superintendent and Commission ordered the item deleted from the list of unfinished business.

The Engineer reported that the survey had been completed on the Swalley Canal-East Franklin Avenue Section of The Dalles-California Highway in and near the City of Bend. He recalled that a public hearing had been held in Bend on September 8, 1960, and the Commission and others had been furnished a transcript of the hearing. All speakers at the hearing, he stated, favored the project. He recommended that the survey be approved and that authority be granted to purchase necessary right of way. The Commission approved the survey and thereupon adopted a resolution, marked Exhibit "N", which resolution

by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

A report was presented by the Engineer concerning the relocation of State Highway maintenance shops in order to more adequately and economically serve state-owned equipment. He exhibited maps, one of which showed the proposed future location of State Highway shops and which would eliminate the shops at Coquille and Klamath Falls and provide a new shop at Roseburg. This, he added, is an ultimate plan, possibly five to ten years in the future. He called attention to the fact that the shops at Coquille and Klamath Falls are near the perimeter of the State and can receive equipment from three directions only. He also presented a plan showing certain revisions of territory to be served by the existing shops; however, such a revision cannot be made, although it is economically advantageous, because the Bend shop does not have adequate facilities. He suggested that an item of $150,000 be placed in the 1961 budget to increase the facilities of the equipment shop at Bend by providing an extension to the existing shop and a bay for steel storage, both to be equipped with overhead cranes and to include heat, ventilation, et cetera. It was his opinion that by increasing the size of the Bend shop the work load could be reduced at the Salem, LaGrande, and Klamath Falls shops so that additional manpower would not be needed at those shops for some time. The Commission approved the addition to the Bend shop and the rearrangement of territories to be served by the Bend shop after the enlargement program has been completed.

The Engineer brought up the matter of establishing reduced speed zones on various sections of state highways as a result of requests from interested persons and because of action taken by the State Speed Control Board within cities. These locations, he stated, have all been carefully investigated, and from the amount of traffic, roadside culture, geographic features and other conditions, it has been determined advisable, for the safety of the traveling public, to establish reduced speed zones. Following his favorable recommendation, the Commission approved the following speed zones and adopted resolutions pertaining thereto, marked Exhibit "G-1" through "G-5", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of Highway Commission Meeting of September 29 and 30, 1960":

(1) 40 miles per hour on the Lake of the Woods Secondary Highway No. 270 between a point 2.77 miles west of the west city limits of Klamath Falls and the west city limits of Klamath Falls. (See Exhibit "G-1")

(2) 40 miles per hour on the Culver Secondary Highway No. 361 between a point 350 feet north of Dover Lane and Dover Lane at the north city limits of Metolius;

40 miles per hour between Ninth Street and a point 250 feet south of Ninth Street near the town of Metolius;

40 miles per hour between Washington Avenue at the south city limits of Metolius and a point 0.18 mile south of Washington Avenue. (See Exhibit "G-2")

(3) Reduced speed zones on the Old Oregon Trail Highway No. 6 were established as follows:

70 miles per hour between M.P. 238.18 and M.P.249.65;

60 miles per hour between M.P. 249.65 and M.P. 258.43;

Kamela Interchange: Eastbound off ramp, 45 miles per hour; Westbound off ramp, 45 miles per hour;

Glover Interchange: Eastbound off ramp, 45 miles per hour; Westbound off ramp, 35 miles per hour;

Hilgard Interchange: Eastbound off ramp, 45 miles per hour; Westbound off ramp, 45 miles per hour;

Upper Perry Interchange: Eastbound off ramp, 30 miles per hour;

Lower Perry Interchange: Westbound off ramp, 35 miles per hour.

These speed zones are to become effective when the highway is opened to public travel and the signs have been installed. (See Exhibit "G-3")

(4) 30 miles per hour on the Joseph-Wallowa Lake Highway No. 351 between a point 0.13 mile north of the road to Wallowa Lake State Park and the end of the Joseph-Wallowa Lake Highway at the turn around. (See Exhibit "G-4")

(5) 30 miles per hour speed zone on the State maintained road to Wallowa Lake State Park between the junction with the Joseph-Wallowa Lake Highway and the entrance to the Wallowa Lake State Park. (See Exhibit "G-5")

The meeting was recessed at 11:50 a.m. and reconvened at 1:30 p.m. in the same room with the same persons present.

The Engineer reported that several months ago a channelization and access control design was developed for the Eastport Plaza Shopping Center on the Cascade Secondary Highway No. 160. This project is now nearing completion and an engineering investigation has revealed that curb parking should be prohibited in order to insure proper operation of the highway design. The City of Portland has been consulted and is in agreement with the prohibition of curb parking. He recommended that curb parking be prohibited on both sides of S. E. 82nd Avenue (Cascade Highway No. 160) between M.P. 4.93 and M.P 5.24. The Commission accepted the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "H-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

The Commission considered a request from Lt. Commander Callies, of the Naval Training Center located on the Airport Road Section of the North Santiam Highway east of Salem, regarding traffic conditions in that vicinity. The Engineer reported that at the present time there is considerable angle parking in front of the Training Center, and vehicles in parking and unparking obstruct and interfere with the flow of traffic on the highway. It was his recommendation that "Parallel Parking Only" signs be installed on the westerly side of the North Santiam Highway No. 162 between the southerly end of the Shelton Ditch Bridge and the U.S. Naval Training Center driveway. The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "H-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

Consideration was given to a request from Charles H. Harbin, owner of the Charles Harbin Trading Post in the community of Clackamas, for an investigation of traffic hazards caused by truck parking on the shoulders of the Cascade Secondary Highway No. 160 in the vicinity of his establishment. The Engineer stated that an investigation disclosed that Mr. Harbin has provided an off-street parking space for customers of his business. Vehicles, particularly trucks, have been parking in front of his business, which parking restricts sight distance for vehicles entering the highway from Jannsen Road and from Harbin's parking lot. He recommended that shoulder parking be prohibited on the westerly side of the Cascade Secondary Highway between Jannsen Road and a point 250 feet south of Jannsen Road. The Commission accepted his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "H-3", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

The Commission also considered a request from Mr. A. H. Colby, City Manager of the City of Nyssa, for investigation of shoulder parking conditions on the Old Oregon Trail Highway just east of the city limits of Nyssa. The Engineer stated

that an investigation had disclosed that an organization transporting house trailers uses the shoulders of the highway at this location as a point of transferring trailers from one power unit to another. As a result house trailers have been parked on the highway shoulders for periods of time up to three days. The long-time parking of these house trailers causes an interference with highway traffic and also results in the use of State Highway right of way for business purposes. He recommended that signs bearing the message "Overnight Parking Prohibited" be erected along the southerly side of the Old Oregon Trail Highway between East First Street and East Fourth Street just east of Nyssa. The Commission approved his recommendation by adopting a resolution relative thereto, marked Exhibit "H-4", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

Out of State travel expenses were requested for State Highway personnel and approved by the Commission as follows:

(1) R. C. Dunlap, Planning Supervisor in the Parks Division, to Sacramento, California, September 6 through 8, 1960, regarding planning, at an estimated cost of $100. This is for confirmation of prior telephonic approval.

(2) J. F. Hagemann and C. M. Collins to attend the Office of Civil Defense Mobilization Radiological Meters Instructors School at the Western Training Center in Alameda, California, October 10 through 14, 1960, at an estimated cost of $140.90 for each. The Civil Defense Mobilization is to reimburse the State in the amount of $51.70 for each of the two men.

(3) W. C. Williams, State Highway Engineer, to attend AASHO Transport Committee in Chicago, Illinois, on October 25 and 26, 1960, at an estimated cost of $300.

(4) Carl Jordan, Director of Travel Information Division, to attend a meeting of Pacific Trail Association in Victoria, B. C. on October 11 through 13, 1960, at an estimated cost of $75.

(5) W. C. Williams, State Highway Engineer, Forrest Cooper, Deputy State Highway Engineer, G. S. Paxson and P. M. Stephenson, Assistant State Highway Engineers and L. I. Lindas, Chief Counsel, to attend Annual Conference of AASHO in Detroit, Michigan, November 28 through December 2, 1960, at an estimated cost for engineering personnel in the total amount of $1,505 and an estimated cost for Mr. Lindas of $370.

The Commission considered and adopted a resolution authorizing the State Highway Engineer to issue permits for the construction and maintenance of painted grill cattle guards on State Highway surfaces, marked Exhibit "I", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

A Termination Rider Form with the Union Pacific Railroad Company was presented by the Engineer. He explained that on December 16, 1959, the Railroad Company had granted the State a permit for a private crossing over which material from the Coopey quarry on the Columbia River Highway in Multnomah County was hauled. All hauling from the quarry has been completed and he recommended that the "Rider" terminating the private crossing be approved. The Commission approved the "Rider".

Three agreements with Mr. L. D. Haughton for fencing of right of way along the Central Oregon Highway west of Brothers in Deschutes County were presented by the Engineer. These agreements, he stated, are in line with agreements which have been approved in the past, whereby the State stakes the location of the fence and furnishes the steel fence posts, and the property owner provides the wire, fastenings and labor to erect the fence. The estimated cost to the State for these three agreements is $1,200. The Commission approved the agreements.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period of August 15 through September 23, 1960.

The next Commission meeting date was confirmed for November 3 and 4, 1960, in the Conference Room of the State Highway Building, Salem. A tentative date for the following meeting was set for Monday and Tuesday, December 12 and 13, 1960.

The Engineer stated that the next bid opening for highway construction will be in Salem on November 1, 1960. Commissioner Fridley stated that he planned to attend.

The Commission discussed a proposed meeting with members of the Travel Advisory and the Parks Advisory and Recreation Committees the afternoon of December 13, 1960. The Secretary was instructed to schedule all delegations prior to 11:00 a.m. on December 13.

A resolution was presented to the Commission by the Engineer extending the Fulton Canyon-Wasco Secondary Highway No. 301 in Sherman County from its present terminal point, 1.5 miles south of the Columbia River Highway, to a connection with the Sherman Highway No. 42 at Wasco, an extension of 9.31 miles. This resolution, the Engineer explained, completes the terms of an agreement entered into

with Sherman County on May 4, 1959, whereby the State agreed to extend the Secondary Highway, and the County agreed to take over as a county road the old Wasco-Hay Canyon Section of the Wasco-Heppner Secondary Highway. The Commission approved the resolution which is marked Exhibit "J", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960"

The Engineer also presented to the Commission a resolution redesignating a portion of the old route of the Old Oregon Trail Highway No. 6 near Ontario in Malheur County. He stated that completion of a new section of the Old Oregon Trail from Ontario to the Idaho state line makes it advisable to redesignate certain highways in that area Under the resolution as presented, the route of the Interstate Highway (Old Oregon Trail) will be the new section through Ontario to the Idaho line. That portion of the Old Oregon Trail from Ontario to Cairo Junction, including the Ontario Spur from Ontario to the Idaho line on the old route of the highway, will be designated as an extension of the Olds Ferry-Ontario Highway No. 455. A portion of the Old Oregon Trail from Cairo Junction to Nyssa is redesignated as an extension to the Central Oregon Highway, which will now extend from Bend to Nyssa. The Commission approved the redesignations by adopting a resolution relative thereto, marked Exhibit "K", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

The Engineer presented to the Commission three resolutions abandoning to the counties sections of state highways where these sections have been replaced by new construction. He explained briefly that the resolutions have been preceded by agreements with the various counties in which the counties agreed to take over the old sections of highway when the new sections have been completed and opened to public travel. The Commission approved the abandonment action by adopting resolutions relative thereto, marked Exhibit "L-1" to "L-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960" as follows:

(1) North Unit of the Weston-Milton Freewater Section of the Oregon-Washington Highway No. 8 in Umatilla County. (See Exhibit "L-1")

(2) The Elkton-Smith Bridge Section of the Elkton-Sutherlin Secondary Highway in Douglas County. (See Exhibit "L-2")

(3) The Wasco-Hay Canyon Section of the Wasco-Heppner Highway No. 300 in Sherman County. (See Exhibit "L-3")

Attention was given by the Commission to an agreement for "Relinquishment of Title" to the City of Albany covering Waverly Lake and adjoining property at the north edge of the City. The Engineer explained briefly that some months ago the City had agreed to take over Waverly Lake as a city park area and the agreement is to consummate the earlier understanding. The Commission approved the agreement.

In discussing transfer of the Waverly Lake property to the City of Albany, the Engineer pointed out that the City wishes to extend the city limits to include the Waverly Lake area and a small tract which is being retained by the State Highway Commission. As extension of the city limits will in no way be detrimental to the interest of the State Highway Department, he recommended that no objection be offered to extension of the city limits. The Commission approved his recommendation.

A resolution was presented by the Engineer which would designate a portion of the Cascade Secondary Highway No. 160 as a throughway. The section to be designated, he stated, extends from the Clackamas Overcrossing to the Oregon City city limits in Clackamas County. Designation of this section as a throughway is deemed advisable because of the amount of traffic that the highway carries and to facilitate legal matters, including control of access, and the handling of intersecting county roads and city streets. The Commission adopted the resolution, marked Exhibit "M", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960".

Based on the Engineer's favorable recommendation, the Commission approved an agreement with Union Pacific Railroad Company granting the State permission to enter upon the Company's right of way at the site of the Hood River Railroad Crossing of the Columbia River Highway in Hood River County in order to perform exploratory foundation drilling. This agreement, the Engineer commented, is in the form of a letter and is needed in connection with Interstate Highway construction in the area.

At 2:00 p.m. the Commission announced award of contracts on which bids had been received on September 27, 1960, as follows:

BIDS RECEIVED IN SALEM ON SEPTEMBER 27, 1960

"Roadway and sign illumination on the Corvallis-Philomath Section of the Corvallis-Newport Highway in Benton County. The Commission awarded the contract to the low bidder, L. H. Morris Electric Company, Eugene, at $15,629.

"Isthmus Slough Bridge, structure, grading and stone base on the Coos River Highway in Coos County. The Commission awarded the contract to the low bidder, Sig Andersson, Coos Bay, at $67,650.

"Grading and oiling on the Coquille Junction-Rhoda Creek Section of the Powers Highway in Coos County. The Commission awarded the contract to the low bidder, Access Construction, Ore. Ltd., Roseburg, at $166,497.

"Grading and oiling on the Buena Vista Wayside-Cape Sebastian Section of the Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Company, Medford, at $1,222,159.

"Grading and oiling on the Wrights Point-Narrows Section of the Frenchglen Highway in Harney County. The Commission awarded the contract to the low bidder, Earl L. McNutt Company, Eugene, at $234,178.

"Grading and structures on the Coast Fork, Willamette River-Cottage Grove Section of the Pacific Highway in Lane County. The Commission awarded the contract to the low bidder, Roy L. Houck Sons' Corporation, Salem, at $671,071.25.

"Roadside improvement on the North Albany Junction-Santiam Interchange Section of the Pacific Highway in Linn County. The Commission awarded the contract to the low bidder, Knight Pearcy Nursery, Salem, at $29,739.50.

"Santiam River Overflow Trestle No. 2 on Jefferson-Albany Secondary Highway in Linn County. The Commission awarded the contract to the low bidder, H. G. Carl Construction Company, Salem, at $47,895.75.

"Roadside improvement on the Lancaster Drive-Sublimity Gun Club Section of the North Santiam Highway in Marion County. The Commission awarded the contract to the low bidder, Knight Pearcy Nursery, Salem, at $8,228.10.

"Roadside improvement on the Holladay Street and 82nd Avenue connections to the Columbia River Highway in Multnomah County. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $7,925.

"Roadside improvement on the Sundial-Sandy River Section of the Columbia River Highway in Multnomah County. The Commission awarded the contract to the low bidder, Benedict Nursery Company, Portland, at $5,288.

"Rickreall Creek (Dallas) Bridge, structure, grading and paving, in Polk County. The Commission elected to accept the low bid of Ross Bros. Construction Company, Salem, in the sum of $36,674.56, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Dallas is received and the sum of $10,600 is deposited by the City.

"Grading, paving and structure in the Rickreall-Orr Corner Section of the Pacific Highway West in Polk County. The Commission awarded the contract to the low bidder, Salem Road and Driveway Company, Salem, at $201,504.60.

"Widening of four structures, grading and paving on the Amity-Rickreall Section of the Pacific Highway West in Polk and Yamhill Counties. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Company, Reedsport, at $173,623.44.

"Grading and oiling on the Sheep Creek Hill-Hayden Creek Section of the Little Sheep Creek Highway in Wallowa County. The Commission awarded the contract to the low bidder, J. F. Konen Construction Company, Inc., Lewiston, Idaho, at $221,100.35.

Commissioner Fridley inquired as to how soon work could be started on relocation of the Columbia River Highway through the City of The Dalles. The Engineer replied that it is expected that right of way acquisition can be started in about a month, and that bids for construction could be received in 1961.

The Engineer stated that many requests have been received for improvement of the Service Creek-Mitchell Secondary Highway in Wheeler County. Studies have been made as to the cost of improvement indicating that construction to modern standards would require an expenditure of approximately $3,750,000. However, the amount of traffic which the highway carries does not warrant improvement of this magnitude. He recommended that improvement be made as a State project, on about six miles of the Donnelly Grade Section by widening the grade, making minor line changes and surfacing with approximately four inches of native materials covered by a light oil treatment, at a total estimated cost of $135,000. It was his opinion that it would probably be necessary to acquire some additional right of way as the records do not indicate any formal right of way acquisition. This road, he added, was secured from Wheeler County many years ago. The Commission approved the improvement as presented.

A letter was presented by the Engineer from the Oregon Mobile Home Owners, Inc., concerning the illegal movement of 10-foot-wide house trailers over state highways. Presently, these trailers are permitted to move only over Special Group I Highways. As there is evidence that some of these house trailers have been moved without adequate insurance coverage and not in conformance with other requirements, he recommended that a change be made in the Commission's policy to the extent of authorizing issuance of permits for 10-foot-wide mobile homes over any state highway other than a Special Group I Highway subject to the present requirements as to towing vehicle, insurance, flagman-escorts, et cetera, and the further requirement that such movements be permitted only on weekdays, Monday through Friday, between the hours of 9:00 a.m. and 3:00 p.m., or during the summer months between daylight and 7:00 a.m. He also recommended that the Commission

authorize removal of the present prohibition on movements of 8-foot trailer coaches up to 45 feet in length, or 60 feet over all length in combination, during the hours of darkness and on Saturday afternoons, Sundays, or holidays. He pointed out that such movements during darkness would be subject to the usual statutory requirements with respect to lighting, and that removal of the restriction is recommended because these trailer coaches are comparable in their highway tracking ability with conventional 65-foot truck-trailer combinations which are authorized to move over the same highways twenty-four hours a day. The Commission approved the changes as presented. (For additional details see the Engineer's letter of September 28, 1960, in the General Files in Salem.)

The Engineer reported that several years ago a maximum load limit of 54,000 pounds was posted on four bridges in the State. Since that time the statutory limit has been increased to 60,000 pounds. An examination of these bridges has indicated that they are able to carry the statutory load. Upon his favorable recommendation the Commission approved the increase in load limit, from 54,000 pounds to 60,000 pounds, on the following bridges, and thereupon adopted a resolution, marked Exhibit "O", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of September 29 and 30, 1960":

Bridge Number	Mile Point	
4271	210-09.16 (Revised M.P. 09.18)	Corvallis-Eastside Secondary Highway Calapooya River
1592	260-13.37 (Reconstructed at M.P. 12.91)	Rogue River Loop Secondary Highway Rogue River
5010	291-23.80 (Reconstructed at M.P. 23.07)	Shaniko-Fossil Secondary Highway John Day River
4412	452-00.21	Adrian-Parma Secondary Highway Snake River (Adrian)

An agreement with Southern Pacific Company was presented by the Engineer and approved by the Commission granting the State access to railroad right of way to install a catch basin on the Judkins Point-Goshen Section of the Pacific Highway in Lane County.

September 29, 1960

The Commission discussed with the Engineer matters to be presented by delegations which are scheduled to appear before the Commission the following day. No action was taken on these matters pending appearance of the delegations.

The Commission also discussed with the Engineer the status of highway construction projects on which bids are to be received November 1, 1960.

At Chairman McIver's request Mr. C. H. Maison, Auditor, explained briefly the financial condition of the State Highway Department at the present time. He pointed out that it is expected there will be a balance of about $22,000,000 on hand at the end of 1960. However, large obligations are committed in contracts not yet completed so that the amount on hand is not excessive. The Engineer also pointed out that whereas expenditure in 1960 for right of way had been relatively small, it is anticipated that right of way expenditures in 1961 will be much larger.

Mr. Carl Jordan, Director of the Travel Information Division, requested that the Commission approve a part of the proposed 1961 budget for his division to cover advertising which should be undertaken immediately to meet publication deadlines. Specifically, he requested approval of the expenditure of $200,000 for printing and advertising. The Commission approved the expenditure.

Chairman McIver inquired if information is available on the number of tourists in Oregon during 1960. The Travel Information Director replied that information at this time indicates that the tourist volume will be very near what it was in 1959, the Centennial year, and will probably be larger than 1958 which would be considered as a normal year. He also commented that the annual report of the Travel Information Division would be ready within a few weeks time.

For the Commission's information, the State Parks Superintendent displayed samples of signs that will be placed on the roads approaching the state park entrances and at the park entrances.

The Commission signed agreements and other papers.

The meeting was adjourned at 2:45 p.m., to be reconvened on the following day at 10:00 a.m.

Salem, Oregon
September 30, 1960

The Oregon State Highway Commission reconvened at 10:15 a.m. in Room 419, State Highway Building, Salem. The following persons were present:

(see next page)

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
Walter T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
Gene Huntley, Director of Personnel and Public Relations
Floyd Query, Secretary

Members of the West Side Highway Association appeared before the Commission regarding improvements on US 99 W, particularly the widening of bridges, improvement between Rickreall and Amity and changing of signs at Junction City to give better directions. Judge R. E. Renne, Yamhill County, Newberg, who was spokesman for the group, introduced the following members of his delegation: James Stanard, Norris E. Johnson, Gale V. Vinton, John F. Voll, Neil Macaulay, F. C. Bachman, Leonard Gillam, Charles Teegarden, all from McMinnville Chamber of Commerce, Guy Shumley, Yamhill County Commissioner, and Joe W. Dancer, City Administration Assistant, all from McMinnville; M. E. Dunston, President of Newberg Chamber of Commerce, Carl H. Butler, K. W. Johnson, John Wanner, Chester Windson, all from Chamber of Commerce, Newberg; Floyd B. Willert, Chamber of Commerce, and R. Nelson McCollum, "Dayton Tribune" Newspaper, both from Dayton; Fred Voigt, Planning Commission (Roadside), Independence; H. W. Torbet, President of the West Side Highway Association, Salem; Judge C. M. Barnhart, Polk County, Allen Dunn and Frank Crawford, Polk County Commissioners, and A. H. Friesen, Mayor, all from Dallas; W. G. Wilmot, City Superintendent, Mrs. Lester L. Colgan, "Monmouth Herald", W. A. Martin, George Cooper, Oscar Groves, all from Chamber of Commerce, and John Dickinson, President of Chamber of Commerce, Monmouth; R. J. Ostrom, Mayor, Ivan Shields, Recorder, P E. Meeker and Ray Colton, Chamber of Commerce, Art Brown, Commercial Club, all from Amity; and L. H. Kirtley and Chuck Hammond, Chamber of Commerce, William G. Harley, and C. H. Slater, Motel Owners, all from Junction City. Judge Renne expressed appreciation for the work that has been done on US 99 W during the past few years, particularly in Yamhill County. Because of the large population and economic growth that Yamhill County is experiencing, he continued, this highway, on the section southwest of McMinnville and through the Whiteson-Amity area, is antiquated and no longer adequate. With the improvements that have been completed on US 99 W, he added, the only bottleneck remaining is the hazardous section between McMinnville and Rickreall, and he requested that consideration be given to this improvement. He expressed the fear that a serious hazard will exist when the narrow bridge has been widened near Whiteson where traffic will be traveling from a 20-foot to a 35-foot highway. He cited the traffic count at several points on Highway 99 W and pointed out the increase at the

Rickreall Junction since completion of the new highway to the Coast. Because US 99 W is a very important highway and there has been no major construction on this section within the past 30 years, he urged the Commission to give consideration to their request. In response to his question if there are any funds programmed for the section from McMinnville south through Whiteson, Amity and to Rickreall, the Engineer answered that yesterday the Commission let contracts in the amount of $300,000 for the reconstruction of the Rickreall-Orr Corner Section and to widen and straighten the narrow bridges between Amity and Rickreall. Judge Renne called attention to a four or five mile section between Holmes Gap and Rickreall where there is poor horizontal visibility. Chairman McIver stated that the Commission is considering in the next year's program construction of four lanes to Newberg and in the next two years improvement of the Newberg-McMinnville Section. Judge Renne also spoke of the hazardous condition on the section of old concrete pavement south of McMinnville caused by fog, ice and rain. Mr. Stanard expressed appreciation for the by-pass immediately south of McMinnville and for the contemplated improvement on the Amity-Rickreall Section. He called the Commission's attention to the one-mile section of US 99 W between two four-lane sections within the McMinnville city limits where there is traffic congestion. Chairman McIver advised the delegation that this one-mile section is being considered in the Commission's next two-year program. Judge Renne requested that there be added to the US 99 W sign at Junction City the word "Portland" so that tourists will be apprised of the fact that they can reach Portland via US 99 W. Chairman McIver thanked the delegation for their presentation and advised them that the Commission is looking forward to seeing US 99 W modernized to Junction City as soon as there are sufficient funds.

Mr. John Silvertooth, Antelope, acted as spokesman for a group who appeared before the Commission regarding improvement of the Shaniko-Fossil Secondary Highway (ORE 218) between Antelope and Clarno. Appearing with Mr. Silvertooth were Mr. and Mrs. Art McGreer, farmers, Antelope, and Bill Hanks, Service Station operator, Shaniko. Mr. Silvertooth told of the difficulties tourists have experienced because of the rough condition of the grade on the Antelope-Clarno Section of the Shaniko-Fossil Highway and pointed out the heavy maintenance required to keep the highway in usable condition. He requested the Commission to schedule improvement of the section in the spring of 1961 and presented a letter from Mr. Frank C. Dillard, a large cattle grower and land owner in the area, endorsing improvement of the highway section. Mr. McGreer stated that many of the people of the Fossil area are interested in giving first priority to the oiling of ORE 218 from Antelope to the John Day River. Most of the gravel, he stated, is gone from the roadbed and it is very rough. He expressed the hope that the road could be oiled soon. Chairman McIver thanked the delegation for presenting this matter to the Commission and advised them that the Commission has been unable to improve this highway because of the lack of funds.

A delegation from Crook County appeared before the Commission regarding the possibility of State cooperation in developing recreational facilities at Prineville Reservoir on Crooked River. Crook County Judge Harry C. Fowler, Prineville, headed the group, and introduced the following members: Bob Lakin and Russell Vernon, County Commissioners; Dick McRae, Mayor; Ivan Chappell, Manager of Chamber of Commerce; Mike Miksche, Chamber of Commerce; Joe Bottero and Irvin Grimes, Crook County Judge Candidates; and Cecil Sly, Isaac Walton League, all from Prineville. Judge Fowler spoke of the contemplated development of the reservoir behind the Crooked River Dam. He pointed out that Crook County plans to construct a paved 22-foot road, with 4-foot graveled shoulders, to the lake area, a distance of $12\frac{1}{2}$ miles, at a cost of between $180,000 and $200,000, and that such road will permit tourists to reach the lake in 20 minutes from Prineville. Mr. Lakin, who spoke in behalf of the Crook County Park and Recreation Committee, stated that the Committee's wish is for the State Parks Department to develop and maintain the major park and picnic area on the south side near Antelope Creek and to administer the entire area if the Parks Department will develop it on a multiple-use basis, including facilities for fishing, hunting and boating. If such an arrangement cannot be worked out satisfactorily, it is the Committee's recommendation that the Parks Department and Crook County Court join together and enter into an agreement covering the full development of the area. Mr. Sly stated that the Prineville Chapter of the Isaac Walton League believes that the Crooked River Reservoir can be developed into one of the most popular recreational areas in the Pacific Northwest, and offers the following suggestions to accomplish this goal: (1) establish a state park on a suitable site; (2) request the State Game Commission to make a study of the east end of the lake for wildlife potential; (3) set aside areas for the building of homes; (4) make provisions for private boat rentals; and (5) award management of the lake to the State Parks Department. He also brought up the possibility of joint jurisdiction of the entire area between the Parks Department and Crook County Court. Mr. Miksche too expressed the hope that an agreement could be reached for the multiple use of the Reservoir. In discussing this matter with the State Parks Superintendent this morning, Judge Fowler stated, he was informed that hunting cannot legally be permitted in any area that is under the jurisdiction of the State Parks Department. Because of this disclosure, he continued, the County will turn over to the State any area the State may wish to develop for camping and picnicking, and the County, after entering into an agreement with other interested agencies, will develop the remainder of the area and administer it. He urged that basic facilities be provided in time for next year's fishing season. One advantage, he pointed out , for the County administering a portion of the area is that the County will have legal authority to build needed roads in the area. In answer to Chairman McIver's inquiry if the distance into the area from the road near Post is the same as via the County's contemplated road, Judge Fowler stated that both roads would cost about the same. In the County's long-range plans, he added, there

is a proposal for building an improved loop road around Combs Flat. Chairman McIver advised the delegation that their request will be considered, and they will be advised shortly of the Commission's decision. Judge Fowler concluded his presentation by requesting that consideration be given to changing the designation of the Crooked River Highway (ORE 27) from a primary to a secondary highway so that it will be eligible for federal matching funds.

The Woodburn Chamber of Commerce and Clackamas County Associated Chambers of Commerce appeared before the Commission regarding the widening of US 99 E. From the Woodburn Chamber of Commerce, Woodburn, were Del Garner, Walt Scarborough, Claude H. Fryer, and Charles Cornwell. Mr. Irwin S. Adams, Milwaukie, President of the Clackamas County Associated Chambers of Commerce, introduced the members of the delegation from Clackamas County, as follows: Peyton Barnett, Palmer Larson, and Ted Loder, all from the North Clackamas Chamber of Commerce, Milwaukie; T. H. Reaves, Clackamas Chamber of Commerce; R. T. Doyke, Dale L. Dunn, H. W. Lenz, and A. Lewis, Oregon City Chamber of Commerce, Oregon City; John Rasmussen, Chamber of Commerce, Canby; and B. W. Wilson, Roads and Highway Committee of Chamber of Commerce, Portland. Mr. Garner stated that the Woodburn delegation was appearing to support the Clackamas area group in their proposal for the widening of US 99 E and to ascertain the Commission's plans in detail for this highway. In 1955, he continued, a delegation appeared before the Commission and requested a change in the route of ORE 214 (Hillsboro-Silverton Highway), between the Baldock Freeway connection west of Woodburn and the Woodburn interchange; however, the Commission decided to defer the matter until the freeway was completed and normal traffic conditions had resumed. He mentioned the senior citizens project in the Woodburn vicinity, which is expected to have a population of about 2,000. Large trucks, he pointed out, are denied use of this highway from the Baldock Freeway because the highway is narrow and the curves are sharp. He presented a fact sheet regarding this highway, a map outlining a proposed route, and requested that a survey be conducted to realign the highway from Woodburn to the Baldock Freeway access at Woodburn, either through the City of Woodburn or by-passing it. Chairman McIver advised the delegation that the Commission has already made a survey of this route and if the delegation will contact the Engineer they will be furnished the data. Mr. Adams expressed appreciation for the construction now in progress along US 99 E and stated that they wished to demonstrate their continued interest in the four-laning of US 99 E south to Hayesville. He told of the recent acquisition of 250 acres east of Clackamas by Commonwealth for an unidentified industrial development. The necessity for the four-laning of the highway, he continued, has been fully covered in previous presentations, and he read aloud a letter from the General Manager of Waldhams & Company, Portland, endorsing the request for widening of US 99 E between Oregon City and points south, and advising that a large amount of their tonnage is required to move southward over US 99 E destined for numerous communities in the Willamette Valley.

Mr. Barnett, who has a house trailer business on US 99 E nine miles south of Portland, pointed out that while most of the trailer parks and trailer dealers are on the east side of the Willamette River, the Highway Department at the present time prefers to have these trailers travel over the Baldock Freeway to Portland and back track on US 99 E nine or ten miles south of Portland to their destination. If the 21-mile section of US 99 E was widened, he continued, trailer traffic crossing the bridges from the east side to the west side of Portland would be almost eliminated.

Mr. Ralph Milsap, Vice President of Portland General Electric Company, Portland, appeared before the Commission regarding the proposed park development to replace Cove Palisades Park which will be destroyed by construction of the Round Butte Dam. Mr. Milsap stated that he has a three-fold purpose in bringing this matter before the Commission: (1) to apprise the Commission of the status of the Portland General Electric Company's plans for construction of the Round Butte Hydro-Electric Project, including the Company's construction timetable; (2) to ask for the help of the Commission and its staff in meeting that schedule; and (3) to suggest a form of agreement covering replacement of the Cove Palisades Park facilities. The Portland General Electric Company, he continued, now has a license from the Federal Power Commission and expects to secure a companion license from the State of Oregon so that they can begin preliminary construction work in the early Spring of 1961. Their target date for the filling of the reservoir, he added, is July 1, 1963, with the start of the filling commencing a half year to a year prior to that date. Since the present park facilities are in the canyon they will be affected by the early filling schedule. Testimony given at a hearing on construction of the dam indicated that State Park facilities were valued at $350,000, and Portland General Electric is willing to make a settlement on that figure. In addition, he continued, the Company will assume the cost of all prior investigative and planning work above the $350,000 valuation and the remaining planning work that will be necessary to complete final plans for letting the contract for the replacement of the park facilities. He pointed out that presently the Company is conducting negotiations with Jefferson County covering construction of a five-mile highway section and two bridges to replace existing facilities in the canyon. If the settlement as outlined is acceptable to the Commission, he suggested that the Commission's legal staff meet with the Company's lawyers to draw up an appropriate agreement. In response to Commissioner Jackson's inquiry if the Company is willing to assume any cost above normal in obtaining a satisfactory water supply for the new park, Mr. Milsap answered in the affirmative. Chairman McIver thanked Mr. Milsap for apprising the Commission of this matter and stated that the Commission's legal staff would work with the Portland General Electric in the preparation of a tentative form of agreement to be considered by the Commission at a later date.

There being no further business to come before the Commission, Chairman McIver declared the meeting adjourned at 11:25 a. m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
November 3, 1960

The Oregon State Highway Commission met in regular session at 10:00 a.m. in the Conference Room of the State Highway Building, Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information Division
Floyd Query, Secretary

The Commission approved the minutes of the meeting held on September 29 and 30, 1960.

The Parks Superintendent reported on the following park matters:

Supplemental Agreement with Taft-Nelscott-Delake Water District for furnishing water to Devils Lake State Park-Day Use Area: The Parks Superintendent explained that in the original agreement dated June 29, 1959 a surcharge of 50 percent had been made for serving areas outside the corporate limits of the city. Inasmuch as the State paid for extending the water line to the park area and as the park provides a service to the community, the Water District has agreed to charge for water at the regular rate. The Commission approved the agreement.

Request of Robert and Duane Wiggins for a five-year extension of their agreement to operate the boat concession at Wallowa Lake State Park: This boat concession, the Parks Superintendent stated, has been operated by the Wigginses for the last 13 years. They have provided adequate service to the public, and have paid to the State the sum of $5,503.69 during the last five years for the privilege of operating the concession. Their request has been made at this early date to allow them time to make plans. He recommended that the existing agreement which expires January 1, 1962 be extended for a period of five years. The Commission approved the extension.

In connection with the Wiggins' concession, Chairman McIver inquired as to where and how the new gas tank is to be installed.

The Parks Superintendent stated that it would be located farther up the hill than the old one, and would be enclosed in a concrete box.

Request of Publishers' Paper Company for lease of river frontage for log moorage in Champoeg State Park: The location of the river bank area, the Parks Superintendent stated, is on the easterly side of the river downstream from the developed park. There are no plans at present for park developments in the area requested, and he recommended that the Paper Company be allowed to use the river bank for log storage under terms similar to those under which they had leased the area from Marion County. The Company has been paying an annual rate of two cents per lineal foot of frontage, which would amount to approximately $100 per year for the frontage requested. The lease, if approved, is to cover a period of five years with the right of cancellation by either party upon giving of six months notice. The Commission approved the lease arrangement as outlined.

Supplement to Agreement No. 2 with the Corps of Engineers to include additional inventory items in Hat Rock State Park: During the current year, the Parks Superintendent stated, the Corps of Engineers added to the park, boat launching facilities, a car parking area and considerable grading and seeding of lawn. They also provided picnic tables, fireplaces and garbage cans. The existing lease from the Corps does not include facilities of this nature, and to clear their records they are asking that the Commission accept the supplemental agreement listing the items mentioned. The Commission approved the agreement.

Report on relocation of Cove Palisades State Park because of construction of Round Butte Dam in Jefferson County: The Parks Superintendent recalled that at the September meeting a representative of the Portland General Electric Company had offered the sum of $350,000 to relocate the park plus the cost of exploratory and preliminary studies. Several holes have been drilled in an area which may be used for the relocated park, but the geologist has not yet made a definite recommendation as to suitability of the area for park purposes. One of the principal reasons for drilling the holes is to determine whether the area will be subject to slides. The holes drilled so far, he continued, are all dry but have been cased as it is anticipated that they will fill with water when the reservoir is filled. In response to Chairman McIver's inquiry if the matter of the water supply for the park will be settled before the park is established or if it is anticipated to settle with the Company subject to the Company's securing water for the park, the Parks Superintendent replied that he did not believe there will be any difficulty in getting an adequate supply of water because if the seepage in the holes drilled is not suitable, then water can be acquired from the lake. Commissioner Jackson stated that it was his understanding that the Electric Company had indicated a willingness to pay extra

for the securing of water if unusual difficulties are encountered. The Parks Superintendent commented that conferences with Company officials had indicated that they would pay for out of the ordinary costs. Commissioner Fridley also commented that the agreement when it is prepared should contain provisions assuring the furnishing of an adequate water supply by the Electric Company. The Commission accepted the Parks Superintendent's report but took no action pending receipt of the geologist's final report.

Report on negotiations for acquisition of Sea Lion Caves on the Oregon Coast Highway in Lane County: The Parks Superintendent reported that negotiations had been underway for over a year and that several offers had been made to the owners of the Caves, none of which had been acceptable to them. It was his recommendation that negotiations be abandoned and that a report be made to the Legislature advising them of the negotiations which had been undertaken. It was pointed out that although the Sea Lion Caves might be a desirable feature of the park system of the State, they are at present being operated in a satisfactory manner under private ownership. The owners appear to realize the necessity of preserving the natural elements of the caves, and the viewing of them is available to the general public at a reasonable cost. The Commission approved the abandonment of negotiations to acquire the Sea Lion Caves and instructed that a letter be drafted for signature of Chairman McIver directed to the President of the State Senate advising him of the Commission's action and the reasons therefor.

Request of Mr. & Mrs. J. L. Campbell for extension of their concession lease at Silver Falls State Park Lodge for the year 1961: The present lease, the Parks Superintendent stated, expires December 31, 1960, and they wish it extended for a year on the same terms and conditions. The service provided by the Campbells, he continued, has been satisfactory, and while the income from the concession is not large, it does serve the public needs. Upon his favorable recommendation, the Commission approved a one-year extension of the lease.

A brief oral report was presented by the Parks Superintendent concerning a proposed public park area at Prineville Reservoir, on the Crooked River south of Prineville. The U. S. Bureau of Reclamation who has control of the reservoir area, he stated, is anxious to enter into an agreement with some responsible agency to administer the area. The State Parks Advisory Committee has indicated that park development at this reservoir would be a good thing. The Bureau of Reclamation has expressed a willingness to lease the easterly half to the State Game Commission and the westerly half to Crook County. The County advised they are willing to lease the area if the State will construct a park at the reservoir. Crook County has stated that the County will construct a road to the park. He recommended that the Commission approve the establishment of a State Park in the Prineville Reservoir area with the understanding that the County will enter into an agreement to construct a

road into the park area, and with the further understanding that the Bureau of Reclamation will provide safeguards for any investment that the State makes in park facilities. The Engineer pointed out that it might be wise to require that the road be constructed prior to construction of park facilities. The Commission approved the proposed park development providing the County will give assurance that the road will be built.

The budget for the Travel Information Division for the year 1961 was presented by Mr. Carl Jordan, Director. He explained briefly that the total amount of the budget is $400,000, which is $50,000 more than was approved for the year 1960. Income from tourist traffic in Oregon during 1960, he pointed out, was the second highest in the history of the State, being exceeded only by 1959, the year of the Oregon Centennial. Actually more cars and people visited Oregon in 1960 than in 1959 but spent a somewhat smaller amount of money. He introduced Mr. William Tugman, a member of the Travel Information Division's Advisory Committee, who explained details of the budget. He commented that space rates in newspapers and magazines and time rates on radio and television have increased from a year ago, and additional funds are needed to maintain the same level of advertising. He also called attention to a study which had been made, indicating that the Midwestern and Eastern areas of the United States have been somewhat neglected in the advertising of Oregon tourist attractions, and that it is planned to correct this during 1961. In contrast with the $350,000 budgeted for the Travel Information Division for 1960, he pointed out that tourists during that year had spent a total of $170,000,000 in the State, and of this amount $3,500,000 had been paid for gas tax. It is the plan of the Travel Information Division's Advisory Committee, he continued, not only to concentrate its advertising campaign on the West Coast and Western Canada but to give additional emphasis to advertising in the Midwest and the East. Commissioner Jackson inquired if the amount requested in the budget had been determined on what the traffic would bear or was it on a basis of competition with other states for tourist traffic. Mr. Tugman replied that fundamentally it is determined on the competitive level. It was his opinion that Oregon is considerably ahead of other states in the results obtained from expenditure of funds for attracting the tourists, and that an excellent advertising program has been carried on. Commissioner Jackson also inquired if any effort has been made to encourage counties and cities to correlate their tourist advertising programs with the program conducted by the State. Mr. Tugman replied that such efforts have been made. He also pointed out that the State program does not include advertising within the State, principally to avoid political implications, and that the in-State promotion is left up to the cities and counties. Commissioner Fridley inquired if it appeared that the advertising program is approaching the point of diminishing returns, and if by adding a few more dollars

to the program it would be feasible to branch out into areas other than regional in order to pull in more tourists. Mr. Tugman stated that advertising studies show that most tourists come from a radius of 600 miles and that few tourists come from a distance of more than 1,200 miles. He also pointed out that very valuable advertising has been secured without charge from radio and television stations by providing them with material for fill-in spots. In response to Commissioner Jackson's inquiry if the film that is being made by the Department of Industrial Planning and Development is being coordinated with certain material available from the Travel Information Division, the Director of that Division answered that he had no knowledge of such a film but that he would be happy to furnish whatever material they desire. He pointed out that in the booklet furnished in response to inquiries for travel information from ads in several national publications, a card will be enclosed on which can be inserted a request for business or industrial information. Such inquiries will be forwarded to the Department of Industrial Planning to determine the relationship of travel advertising with business and industrial operations. Commissioner Fridley also commented that there is a definite relationship between the easy accessibility of beautiful scenery, streams, lakes and other recreational features and the location of industrial plants. Industry is taking these factors into greater account because of the more desirable living conditions which can be provided.

Mr. Tugman speaking as Chairman of the State Parks and Recreation Advisory Committee, commented on the Parks Conference being held in Salem today. It is the purpose of this conference, he continued, to enlist the cooperation of the cities, counties and other agencies in developing adequate park facilities, and to determine the recreational functions which each agency is best equipped to handle.

Chairman McIver thanked Mr. Tugman for his and the Travel Advisory Committee's efforts. He pointed out that 25 years ago when the Travel Information Division was started tourists spent $35,000,000 in Oregon and in 1960 they have spent $170,000,000. The Commission, he stated, is proud of this accomplishment, and he complimented Mr. Carl Jordan, Director of the Travel Information Division, on his work, and asked Mr. Tugman to convey the Commission's thanks to the other members of the Travel Advisory Committee. The Commission approved the budget as presented.

The Right of Way Engineer presented for consideration options (pages 1 through 48) secured for acquisition of real property that is needed for state highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked

Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of November 3 and 4, 1960".

Concerning property to be acquired from S. N. and Nell Mayhew, File No. 20068, on 82nd Avenue-Hassalo Connection Section of the Columbia River Highway, shown on page 8 of the options presented, the Commission instructed that this item be deleted from the options approved and that condemnation proceedings be undertaken. It was pointed out that Mr. Mayhew is an employee of the Commission in the Legal and Right of Way Division, and although the price offered to him for the property appears to be fair, it was the Commission's thought that public criticism might be avoided if the value of the property is determined by the court.

In connection with parts of properties which may be considered as excess, Commissioner Fridley suggested that any excess property in The Dalles be regarded as possible trading stock in establishing a new maintenance headquarters site in The Dalles.

The Property Manager's report was presented by the Right of Way Engineer covering sales of miscellaneous properties and changes in rental status since the last Commission meeting. Miscellaneous sales during that period totaled $16,975, and rental receipts for the month of September 1960 totaled $5,349. The Commission accepted the report.

"Indentures of Access" were presented by the Right of Way Engineer covering changes in existing points of access for the safety of the traveling public and the convenience of the property owners. Concerning the access to the Hayes property he explained that condemnation proceedings were undertaken. The judgment handed down eliminated the access and $1,200 was paid for the eliminated access. The owner has now requested that the restrictions be lifted northerly of Station A 51+20 on Oakway Road, and has agreed to repay the sum of $1,200. The Commission approved the following "Indentures of Access":

(1) McCoy property, File No. 22329, on the Ochoco Dam-Mill Creek Section of the Ochoco Highway, Crook County.

(2) Humble Oil & Refining Company, File No. 22677, on the S.E. Flavel Street-S.P. Company Overcrossing Section of the Cascade Highway, Clackamas County.

(3) Lawson property, File No. 18722, on the Tigard-Newberg Section of the Pacific Highway West, Washington County.

(4) Doran property, File No. 29459, and Harding property, File No. 29460, on the Elkton-Kellogg Section of the Elkton-Sutherlin Highway, Douglas County.

(5) Hayes property, File No. 28863, on the Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway, Lane County.

Public sale of several parcels of excess property was recommended by the Right of Way Engineer who explained that in each instance the value of the property has been fixed by careful appraisal and that the property has been determined excess by the Engineer. The Commission authorized public sale of the following parcels and thereupon adopted resolutions, marked Exhibits "B-1" through "B-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of November 3 and 4, 1960":

(1) 2.05 acres from the former Wallace property, File No. 26215, and the Longview, Portland & Northern Railroad Company, File No. 26216, on the Valley Junction-Sheridan Section of the Salmon River Highway, Polk County, for not less than $300 and without access to the relocated Salmon River Highway.

(2) 4,100 square feet of land from the former City of Marshfield (Coos Bay), File No. 8061, on the North Bend-Marshfield Section of the Oregon Coast Highway, Coos County, for not less than $2,000 and without access to the Oregon Coast Highway. (See Exhibit "B-1")

(3) 1,570 square feet of land from the former Martin Candy Company property, File No. 8089, on the North Bend-Marshfield Section of the Oregon Coast Highway, Coos County, for not less than $900 and without access to the Oregon Coast Highway.

(4) 15,000 square feet of land from the former Miller property, File No. 1784, a stockpile site, on the Willamina Section of the Willamina-Sheridan Highway, Yamhill County, for not less than $500.

(5) 3.52 acres from the former Denny property, File No. 13936, on the Willamette-Hayesville Section of the Pacific Highway, Marion County, for not less than $5,500 without access to the Pacific Highway, and subject to an advertising sign restriction. (See Exhibit "B-2")

(6) 4,650 square feet of land from the former Gillmouthe property, File No. 24999, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway, Multnomah County, for not less than $600, without access to the Pacific Highway, and subject to an advertising sign restriction.

(7) 0.37 acre from the former Saucy property, File No. 25933, on the Chenoweth Creek-The Dalles Section of the Columbia River Highway, Wasco County, for not less than $3,500, without access to the relocated Columbia River Highway, and subject to an advertising sign restriction. (See Exhibit "B-3")

The proposed cancellation of a permit granting the State the right to waste excavated materials upon the lands of Mr. and Mrs. C. C. Campbell on the Nelscott Section of the Oregon Coast Highway, Lincoln County, was presented by the Right of Way Engineer. He explained that the State no longer has need for the area involved and the owners have requested that the permit be cancelled. He also pointed out that an 18-inch culvert pipe has been installed for drainage and the release is given subject to the State's right to keep and operate the culvert pipe. Upon his favorable recommendation the Commission approved cancellation of the permit.

Direct sale of a parcel of excess property to Mr. M. F. Metzger was brought up by the Right of Way Engineer. This piece of land, he continued, consists of 0.08 acre located on the Redwood Interchange Section of the Redwood Highway, Josephine County. The property has been appraised at $570 and is a part of South 7th Street in Grants Pass which was vacated by City Ordinance No. 2784 dated October 7, 1959. No access is to be permitted to the Redwood Highway. Mr. Metzger has offered to pay $975 for the property, and he recommended that it be sold to him. The Commission approved the sale.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "C-1" through "C-18", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of November 3 and 4, 1960"

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated November 3 and 4, 1960, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

A written report of condemnation cases which have been
3b tried in court since the last Commission meeting was presented by

the Chief Counsel. He commented briefly on some of the cases which have been tried in Curry County, pointing out that the verdicts rendered were usually very close to what the defendants had asked. Concerning the Hewitt case in Curry County, he stated that a motion has been made for a new trial because of what is considered as a reversible error made in the original trial. The Commission authorized appeal of this case in the event the court does not grant a new trial. He also called attention to an award of $5,650 in attorney fees on a court verdict of $34,500 in the Oleta A. Walker case, File L-3471. In the case in which the City of Portland is suing the State for alleged damages caused by highway construction on the Sunset Highway at the city zoo, he said that an answer has been filed stating that the work which was performed by the Highway Department had been done at the request of the City and that the plans for the work had been approved by the City. He also called attention to 37 long-pending suits in which the plaintiffs were seeking remuneration from the State for damages suffered during the Vanport flood. A verdict has been rendered by the court in favor of the State and no damages have been allowed. The Commission accepted the report which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

October 1, 1960 to November 3, 1960

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3503 Robert DeGross et al	Curry	Oregon Coast	Gold Beach-Cape Sebastian	$ 590	$	$ 590
L-3502 Glen Dexter, et ux	Curry	Oregon Coast	Buena Vista Wayside-Cape Sebastian	$ 2,100	$ 4,500	$ 3,000
L-3474 Ben Gardner, et ux	Curry	Oregon Coast	Gold Beach-Cape Sebastian	$ 2,750	$ 7,000	$ 5,900

(For additional details, see the Chief Counsel's letters entitled "Report of Cases Tried", dated October 28, 1960 and November 2, 1960, in the General Files, Salem.)

A written report was also presented by the Chief Counsel showing condemnation cases which have been settled out of court since the last Commission meeting. The property settlements, he stated, are on or very near appraised valuations for the property, and upon his favorable recommendation the Commission accepted the settlements which are summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-29161 Henry Schmidt, et al	Clackamas	Cascade	Lake Road-Oregon City	$ 200	$ 500

November 3, 1960

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-28534 Hudspeth Land & Livestock Co., et al	Crook	Paulina	Lost Creek-Camp Creek Unit of Post-Paulina	$ 1,000	$ 1,750

R-30464 Hazel L. Seymour	Washington	Tualatin Valley	Hillsboro-Reedville	$ 2,800	$ 3,850
R-31628 D. D. Simpson, Herman Falkenstein, et al	Lane	Country Club Road	Country Club Road-Coburg Road	$ 4,200	$ 7,300
R-30484 Ralph H. Wilson	Washington	Tualatin Valley	Hillsboro-Reedville	$ 2,300	$ 2,650
R-30483 Elton L. Livingston	Washington	Tualatin Valley	Hillsboro-Reedville	$ 1,635	$ 3,000
R-30924 Clement M. Parker (Cal. Ore. Theaters, Inc.)	Jackson	Pacific	Seven Oaks-Neil Creek	$86,750	$100,000
R-28275 Julius O. Selberg	Multnomah	Pacific	East Bank Freeway	$12,250	$16,000
R-29055 R-28887 City of Medford	Jackson	Pacific	Seven Oaks-Ashland	$160,980	$160,980

(For additional details see the Chief Counsel's letters dated October 28, 1960, entitled "Report of Cases Settled", November 2, 1960, entitled "Supplemental Report of Cases Settled" and November 9, 1960, entitled "N.O.A. Items", in the General Files, Salem.)

A list of offers made to property owners prior to the institution of condemnation proceedings was presented by the Chief Counsel in compliance with the resolution adopted December 20, 1951. The Commission confirmed the following offers:

(see next page)

(Cont.)

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-28455 - Peter R. Bateman, et ux. Parcel No. 1: 3.65 acres for right of way purposes; and Parcel No. 2: 0.73 acre for right of way purposes. Offer of $47,625 approved by Mr. Jackson, October 10, 1960.

R-28456 - Chester E. Irish, et al. 5.96 acres for right of way purposes. Offer of $31,000 approved by Mr. Jackson, September 29, 1960

R-28462 - Orrin L. Brown, et al. Parcel No. 1: 0.29 acre for right of way purposes; and Parcel No. 2: 0.04 acre for permanent easement. Offer of $10,500 approved by Mr. Jackson, October 5, 1960.

R-28891 - W. S. Gillette, et ux. Parcel No. 1: 1.12 acres for right of way purposes; and Parcel No. 2: 0.63 acre for permanent easement. Offer of $7,850 approved by Mr. Jackson, October 21, 1960.

R-29057 - Dolph E. Phipps, et al. Parcel No. 1: 1.6 acres for right of way purposes; Parcel No. 2: 0.08 acre for permanent easement; Parcel No. 3: 1.2 acres for permanent easement; and Parcel No. 4: 0.03 acre for permanent easement. Offer of $6,300 approved by Mr. Jackson, October 3, 1960.

R-30579 - Frank J. Cullen, et al. Parcel No. 1: 0.62 acre for right of way purposes; and Parcel No. 2: 0.45 acre for right of way purposes. Offer of $8,065 approved by Mr. Jackson, October 7, 1960.

R-30580 - M. M. Huggins, et al. 2.7 acres for right of way purposes. Offer of $10,800 approved by Mr. Jackson, October 14, 1960.

R-30587 - Southern Oregon Broadcasting Company, et al. Parcel No. 1: 0.01 acre for right of way purposes; and Parcel No. 2: 0.75 acre for permanent easement. Offer of $1,175 approved by Mr. Jackson, September 29, 1960.

R-30924 - Clement M. Parker, et al. Parcel No. 1: 8.86 acres for right of way purposes; and Parcel No. 2: 1.05 acres for right of way purposes. Offer of $86,750 approved by Mr. Jackson, October 10, 1960.

R-31211 - John D. Benson, et ux. 0.83 acre for exchange with the railroad. Offer of $4,460 approved by Mr. Jackson, September 30, 1960.

R-31219 - Charles Z. Boyden, et ux. Parcel No. 1: 0.75 acre for right of way purposes; and Parcel No. 2: 0.53 acre for right of way purposes. Offer of $3,300 approved by Mr. Jackson, October 5, 1960

(Cont.)

COUNTRY CLUB ROAD-COBURG ROAD SECTION OF THE COUNTRY CLUB ROAD

R-24913 - George L. Zellner, et al. Parcel No. 1: 1.45 acres for right of way purposes; and Parcel No. 2: 0.55 acre for excess taking. Offer of $30,500 approved by Mr. McIver, October 5, 1960.

R-24915 - D. D. Simpson, et al. 1.85 acres for right of way purposes. Offer of $14,450 approved by Mr. McIver, October 5, 1960.

R-31626 - Lucille E. Bavaro, et al. Parcel No. 1: 0.07 acre for right of way purposes; and Parcel No. 2: 0.02 acre for temporary easement. Offer of $675 approved by Mr. McIver, October 5, 1960.

R-31627 - Gilbert L. Garett, et al. 0.4 acre for right of way purposes. Offer of $18,000 approved by Mr. McIver, October 5, 1960.

R-31628 - D. D. Simpson, et al. Parcel No. 1: 0.42 acre for right of way purposes; and Parcel No. 2: 0.09 acre for right of way purposes. Offer of $4,200 approved by Mr. McIver, October 5, 1960.

R-31629 - Clarence M. Urey, et al. 0.08 acre for right of way purposes. Offer of $1,200 approved by Mr. McIver, October 5, 1960.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29631 - Tenet Mortgage Company, et al. 5,000 square feet for right of way purposes. Offer of $3,775 approved by Mr. McIver, October 27, 1960.

R-29700 - George J. Aha, et al. 1,450 square feet for right of way purposes. Offer of $3,000 approved by Mr. McIver, October 14, 1960.

R-29701 - Harvey S. Giffin, et al. 5,000 square feet for right of way purposes. Offer of $4,300 approved by Mr. McIver, October 10, 1960.

PARKDALE SECTION OF THE MT. HOOD HIGHWAY

R-31232 - James Davidson, et al. 0.04 acre for right of way purposes. Offer of $10 approved by Mr. Fridley, September 29, 1960.

PINE STREET-STEPHENS STREET COUPLET (ROSEBURG) OF THE OAKLAND-SHADY HIGHWAY

R-31439 - R. O. Johnson, et al. 0.4 acre for right of way purposes. Offer of $27,380 approved by Mr. Jackson, September 30, 1960.

(Cont)

ROCK CREEK SECTION OF THE CLACKAMAS HIGHWAY

R-31365 - Harry W. Larson, et ux. 500 square feet for right of way purposes. Offer of $25 approved by Mr. McIver, October 14, 1960.

LAKE ROAD-OREGON CITY SECTION OF THE CASCADE SECONDARY HIGHWAY

R-28718 - Marie Leuenberger, et al. 2.11 acres for right of way purposes. Offer of $5,000 approved by Mr. McIver, October 14, 1960.

R-31567 - Llewellyn C. Dauchy, et ux. 0.04 acre for right of way purposes. Offer of $1,000 approved by Mr. McIver, October 20, 1960.

SOUTH NEWPORT STATE PARK

R-30732 - Fred Cosentini, et ux. 5,000 square feet for park purposes. Offer of $200 approved by Mr. McIver, October 14, 1960.

NESKOWIN-SALMON RIVER SECTION OF THE OREGON COAST HIGHWAY

R-30905 - Lola O. Voigtle, et vir. Parcel No. 1: 1.84 acres for right of way purposes; Parcel No. 2: 0.48 acre for right of way purposes; and Parcel No. 3: 0.16 acre for right of way purposes. Offer of $6,200 approved by Mr. McIver, October 3, 1960.

R-30906 - Pearl Fraser, et al. Parcel No. 1: 24.5 acres for right of way purposes; Parcel No. 2: 8.9 acres for right of way purposes; Parcel No. 3: 6.5 acres for right of way purposes; Parcel No. 4: 2.05 acres for right of way purposes; and Parcel No. 5: 1.90 acres for right of way purposes. Offer of $28,900 approved by Mr. McIver, October 18, 1960.

R-31598 - Lola O. Voigtle, et al. Parcel No. 1: 0.47 acre for right of way purposes; and Parcel No. 2: 0.03 acre for right of way purposes. Offer of $4,900 approved by Mr. McIver, September 29, 1960.

CASCADE LOCKS-VIENTO SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31238 - Ray K. Yasui, et al. 5.5 acres for right of way and exchange with the railroad. Offer of $290 approved by Mr. McIver, September 30, 1960.

R-31350 - Mary Jane Lawrence, et vir. 0.5 acre for right of way and exchange with the railroad. Offer of $60 approved by Mr. McIver, September 30, 1960.

(Cont.)

RICE HILL-NORTH OAKLAND JUNCTION SECTION OF THE PACIFIC HIGHWAY

R-31251 - Fred R. Heyer, et al. 0.22 acre for right of way purposes. Offer of $100 approved by Mr. Jackson, October 20, 1960.

MYRTLE POINT-BRIDGE SECTION OF THE COOS BAY-ROSEBURG HIGHWAY

R-31638 - Marion E. Brown, et al. 4.0 acres for right of way purposes. Offer of $2,200 approved by Mr. Jackson, October 31, 1960.

R-31640 - Ernest L. Middagh, et al. 5.7 acres for right of way purposes. Offer of $7,900 approved by Mr. Jackson, November 1, 1960.

THE DALLES BY-PASS SECTION AND THE DALLES-BIG EDDY SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30557 - Oregon-Washington Railroad & Navigation Company Parcel No. 1: 1.2 acres for right of way purposes; Parcel No. 2: 6.4 acres for right of way purposes; Parcel No. 3: 54.0 acres for right of way purposes; Parcel No. 4: 1.49 acres for right of way purposes; and Parcel No. 5: 1.84 acres for right of way purposes. Offer of $92,625 approved by Mr. Fridley, November 1, 1960.

The Commission gave attention to a written report submitted by the Chief Counsel concerning orders issued by the Public Utility Commissioner in which the State Highway Commission has been a party. The Commission accepted the report which is summarized as follows:

PUX 368: Great Northern Railway grade crossing of Anderson Avenue near Klamath Falls. The Commission has no jurisdiction over the crossing and no objection was made to the issuance of a proper order.

PUX 369: Great Northern Railway grade crossing of Washburn Way near Klamath Falls. An answer was filed to the effect that Washburn Way is not under the jurisdiction of the Highway Commission, and no objection was made to the issuance of a proper order. The order stipulates that Klamath County is to provide $100,000 and the Great Northern Railway Company, $100,000. At the hearing it was specifically understood that the Highway Commission has not approved any allocation of State Highway funds for construction of either two-lane or four-lane overcrossing structure.

PUX 370: Great Northern Railway grade crossing of Midland Road near Klamath Falls. The order authorized the construction of an

additional track across the Midland Road Secondary Highway No. 420. All cost of the work and future maintenance is to be borne by the Great Northern Railway Company.

PUX 383: Grade crossings on three city streets at their intersections with Southern Pacific Railway Company in Hubbard. The Public Utility Commissioner ruled that the proposed changes and improvements do not constitute alteration of the crossings within the meaning of ORS 763.030, and the application was dismissed as being unnecessary.

PUX 389: Impaired clearance on S. E. Water Avenue at the tracks of Portland Traction Company in the City of Portland. This matter arose upon the application of the State Highway Commission in connection with construction of a ramp connection between S. E. Morrison Street and the East Bank Freeway section of the Pacific Highway in Portland. The order authorizes a permanent impaired clearance and provides that the cost of the installation of impaired clearance signs and the lighting thereof shall be borne by the Highway Commission.

The Commission considered and accepted the Chief Counsel's quarterly report of collections made from property damage claims during the period from July 1 through September 30, 1960. He pointed out that during this period a total of $13,829.22 had been collected.

Consideration was given to a request from the Bureau of Land Management to convey back to the Bureau the mineral rights to a stockpile site on the Coos County Line-Pacific Highway Junction Section of the Coos Bay-Roseburg Highway, Coos County. Upon the favorable recommendation of the Chief Counsel the Commission authorized the Secretary to sign a proper document covering this matter.

The Chief Counsel requested authority to take legal action against Lottie Maye Wright to recover the sum of $350.82 in damages caused to a State Highway vehicle in an accident which occurred September 22, 1959. He explained that the Pacific Indemnity Company, surety for Lottie Maye Wright, has offered to settle for 50 percent of the amount of damage. It was his opinion that there is considerable evidence to indicate that Lottie Maye Wright was in the wrong, and that there is a good chance of recovering the full amount. The Commission granted the request.

A report was made by the Chief Counsel concerning an action filed in Circuit Court in Columbia County wherein A. A. and Edithe Anderson seek to enjoin the State from interfering with their access to the Lower Columbia River Highway, near Goble, by reason of the road being a public road connection. The Chief Counsel explained that originally the Andersons did not have direct access to the Lower Columbia River Highway but had egress to it from under a railroad trestle that is adjacent to the highway. The State, he continued, had offered to settle for $650, which is $150 above the appraised value of the property; however, the Andersons demanded $1,500

The Andersons have now offered to settle for $500 if the State will grant them an access to the highway at another location, which location after investigation proved to be unacceptable because of the safety factor. A study, he added, is now underway to determine whether the road in question is a public road. He declined to make a recommendation until the status of the road has been clarified. The Commission accepted his report.

The employment of Mr. Jack Sollis as an Assistant Attorney to fill the vacancy caused by the resignation of Mr. John McLean was requested by the Chief Counsel. Mr. Sollis, if employed, will start at a salary of $500 per month, effective Monday, November 14, 1960. Approval of the Attorney General has been secured. The Commission approved the employment of Mr. Sollis.

Attention was given to a correction deed from Robert E. and Blanch V. Smith, conveying 4.1 acres instead of 4.4 acres originally conveyed by these individuals in a deed dated June 25, 1959 on a stockpile site on the Coaledo-Chrome Section of the Oregon Coast Highway in Coos County. Through an error, conveyance had been made in the amount of 4.4 acres, whereas there was actually only 4.1 acres to be conveyed. The Commonwealth Title Company, who insured the title to the property, will refund to the State the sum of $90, being the proportionate part of the purchase price originally paid for the 0.3 acres. The Commission approved the correction deed.

The Engineer stated that he had awarded a contract which had been referred to him by the Commission to award when certain conditions had been fulfilled. These conditions have been satisfied and the following contract has been awarded:

> Grading and paving the Rickreall Creek (Dallas) Bridge structure in Polk County. Bids received September 27, 1960. Contract awarded October 7, 1960 to Ross Brothers Construction Company, Salem, low bidder.

The Commission confirmed award of the contract.

The establishment of temporary construction speed zones was reported by the Engineer. These temporary speed zones, he explained, are placed in construction projects for the protection of the traveling public while construction is underway. The Commission confirmed the establishment of the following temporary speed zones:

(1) 35 MPH on Pacific Highway (Baldock Freeway) between Capitol Highway Interchange (M.P. 6.37) and the Haines Road Undercrossing (M.P. 8.11), effective 8:00 a.m September 26, 1960.

(Cont.)

(2) 35 MPH on Glover-Perry Section of Old Oregon Trail between M.P. 252.0 and M.P. 253.5, effective 8:00 a.m. October 6, 1960.

(3) 20 MPH on Buena Vista Wayside-Cape Sebastian Section of Oregon Coast Highway between M.P. 332 and 336, effective 8:00 a.m. October 20, 1960.

(4) 25 MPH on Coos Bay-Roseburg Highway between M.P. 22.8 and M.P. 26.2 (Powers Junction-Sugarloaf Mountain grading project), effective October 27, 1960;

also

35 MPH on Coquille Junction-Rhoda Creek Section of Powers Secondary Highway between M.P. 0.0 and M.P. 1.3, effective October 31, 1960.

An increase in project authorization on Contract No. 5564 for grading and oiling on the East Unit, Forest Boundary-Haines Section of the Haines-Anthony Highway, Baker County, was requested by the Engineer. He attributed the principal cause of the overrun to the fact that the planned eight inches of selected roadbed topping was not sufficient to carry construction traffic; also, earthwork items overran because of a greater amount of shrinkage than had been anticipated. The Commission approved an increase to cover the overrun in the amount of $50,175.41.

The Commission discussed with the Engineer bids for highway construction received November 1, 1960. The Engineer went over the projects individually and mentioned the amount of the estimated cost, the low bidder, and his recommendation as to the award of the contracts. Action on awards was deferred until 2:00 p.m.

Consideration was given to a request made by Mr. H. F. Stearns, of the Stearns Cattle Company, for improvement of the Crooked River Highway southerly from Prineville. The Engineer commented that development of the Paulina Secondary Highway has lessened the importance of the Crooked River Highway. The most recent average daily traffic count shows a maximum of 250 vehicles immediately south of Fairgrounds Avenue in Prineville; at a point approximately eight and one-half miles southerly the traffic had diminished to 60 vehicles per day; and at a point 0.10 mile north of the junction with the Central Oregon Highway the average daily traffic was only 20 vehicles. In view of the fact that improvements to the highway would be expensive and as the traffic is very light, he recommended that no substantial expenditure of construction funds be made at this time. The Commission approved his recommendation.

Attention was given to a letter submitted by the Brookings-Harbor Chamber of Commerce requesting reconstruction of the Chetco River and Winchuck River Bridges on the Oregon Coast Highway, south

of Brookings. The Engineer pointed out that a rough estimate indicated that replacement of the Chetco River Bridge would cost approximately $350,000. Cost of replacing the Winchuck River Bridge, he estimated at near $200,000 for the bridge plus approximately $250,000 for grading and paving a one-mile section of the highway which would have to be realigned if a new bridge were constructed. Both projects, he continued, have merit but as no funds are available unless diverted from other projects in Division 3, he recommended that the projects be deferred. The Commission accepted his recommendation.

The Engineer submitted for the Commission's consideration a proposed budget for the calendar year 1961. He pointed out that the total amount of the budget, $115,603,766, is the largest budget which has ever been presented to the Highway Commission for one year. He called attention to some of the major items of expenditure, including $58,850,000 for construction, $11,000,000 for purchase of right of way, and $12,250,000 for maintenance. Chairman McIver mentioned that the rate of increase in maintenance of highways has been very low. The Engineer stated that some of this low rate of increase can be attributed to the additional mileage of new highways which require less maintenance per mile than the older types and that the Maintenance Division is continually striving to improve its maintenance operations. The Engineer answered several questions directed to him by the Commission concerning details of the budget. After due consideration the Commission approved the budget for 1961, outlined as follows:

RECEIPTS:	Budget 1961
Motor vehicle revenues	$ 63,580,000
Co-operative funds	1,400,000
Interest on loan of bond funds	97,000
Federal funds	48,660,000
Other items of revenue	490,000
Gross receipts	$114,227,000
Less contributions	21,010,000
Net receipts	$ 93,217,000
Year-end balance	22,386,766
Total funds available	$115,603,766

EXPENDITURES:	
Construction	$ 58,850,000
Minor betterments	2,500,000
Purchase of right of way	11,000,000
Purchases of equipment	2,165,000

(Cont. - 1961 Budget)

EXPENDITURES: - Cont.	Budget 1961 - Cont.
Construction and improvements to buildings and areas	$ 2,127,000
Other capital outlays (net)	1,145,000
Maintenance	12,250,000
Operations	7,818,000
Service and Inventory accounts	- -
Debt service	7,355,000
Total expenditures	$105,210,000
Year-end balance	$ 10,393,766

(For additional details see the Engineer's letter to the Commission, dated October 19, 1960, and the copy of the budget filed in the General Files, Salem.)

A list of County Federal-aid Secondary Projects in Baker, Benton, Curry, Gilliam, Lane and Morrow Counties was presented by the Engineer. These projects, he stated, have been selected by the various counties and are eligible for construction. Upon his favorable recommendation, the Commission approved the following projects:

County	FAS	Section and Description	Programmed Amount	FAS Funds
Baker	506	Ebell Park-Pine Corners. Surface and oil.	$ 27,000	'62
	521	Langrell Corners-Halfway. Surface and oil	$ 30,000	'61 & '62
Benton	578	Martins Lake Road. Bundy Bridge.	$ 48,000	'61 & '62
	830	Star Creek Road-Fletcher Creek. Grade and surface.	$ 110,000	'62
Curry	881	Floras Creek. Upper Bridge.	$ 45,000	'61 & '62
Gilliam	714	Rock Creek-Shutler Road. Oiling.	$ 9,000	'62
Lane	228	Drury Creek-Marcola. Grade and surface.	$ 170,000	'62
	231	Row River Rd. Row River Bridge.	$ 90,000	'61 & '62
Morrow	552	Clark Canyon Road-Ruggs. Surface and oil	$ 95,000	'61 & '62
		TOTAL	$ 624,000	

November 3, 1960

(Cont.)

SUMMARY BY FISCAL YEARS	1961 & 1962 (Estimated)	1963 (Estimated)	Total
Available Funds	$4,078,000	$3,500,000	$7,578,000
Previously Approved	1,841,000	- -	1,841,000
Unprogrammed Balance	$2,237,000	$3,500,000	$5,737,000
Projects Proposed 11/3/60	624,000	- -	624,000
Unprogrammed Balance	$1,613,000	$3,500,000	$5,113,000

A program report was presented by the Engineer concerning projects in cities of less than 5,000 population under the Special City Allotment Fund of $250,000 appropriated by ORS 366.805. He pointed out that 47 applications had been submitted by the cities for consideration, and within the funds available it was possible to approve only 15 of them. Many of the projects which could not be approved for 1961, he stated, have considerable merit and may be considered for the following year. All of the projects were very carefully investigated, and allocations have been made to those cities which seem to best qualify. The Commission approved the following city projects which were recommended by the Engineer.

1961 PROGRAM

City	Division	Estimated Cost State	City	Total
Central Point	III	$ 14,000	$ - -	$ 14,000
Chiloquin	IV	19,500	- -	19,500
Estacada	I	13,600	- -	13,600
John Day	V	18,000	- -	18,000
Madras	IV	20,000	10,000	30,000
Milton-Freewater	V	20,000	3,300	23,300
Molalla	I	20,000	9,000	29,000
Nyssa	V	20,000	2,800	22,800
Phoenix	III	20,000	10,500	30,500
Redmond	IV	18,000	- -	18,000
Riddle	III	20,000	8,400	28,400
Saint Helens	I	20,000	3,400	23,400
Silverton	II	7,000	1,500	8,500
Sweet Home	II	20,000	8,900	28,900
Toledo	II	20,000	34,000	54,000
RECOMMENDED FOR APPROVAL (15 Cities)		$270,100	$ 91,800	$361,900

November 3, 1960

Requests for increases in number of working days within which to complete state highway contracts were presented by the Engineer. He outlined briefly the reasons for granting or denying the increases and made his recommendation for each request. The Commission took action on the requests for increase in number of working days as follows:

(1) Tom Lillebo Construction Company, Contract No. 5561, for grading and paving the Depot Slough Section of the Corvallis-Newport Highway, Lincoln County, requested an increase of 30 workdays in which to complete the contract without assessment of liquidated damages. The Commission denied the request.

(2) Snook Brothers, Contract No. 5617, for sign installation on the Hayesville-Battle Creek Section of the Pacific Highway, Marion County, requested an increase of 8 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved the request. A letter from the Bureau of Public Roads was presented concurring therein.

The Engineer reported that Contract Nos. 5249, 5459, 5477, 5492, 5498, 5516, 5517, 5525, 5537, 5538, 5539, 5542, 5546, 5551, 5556, 5560, 5578, 5593, 5602, 5626, 5635, 5675, 5680, 5681, 5683, 5702, 5706, 5709, 5720, 5723, 5724, 5734, 5736, 5738, 5741, 5745, 5748, 5751, 5766, and 5771, for highway construction have been completed in accordance with the requirements of the contracts, or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of November 3 and 4, 1960".

An agreement with Dames and Moore, Soil Mechanics Engineers, was presented by the Engineer. He explained that plans are being developed for relocation of the Westport-Clatskanie Section of the Columbia River Highway, Clatsop and Columbia Counties. This project will require relocation of approximately 1.25 miles of the Spokane, Portland and Seattle Railroad Company's tracks. The Railroad Company has questioned the foundation support for its tracks in the area considered for relocation, and has requested that a foundation investigation be made by foundation experts before it will enter into an agreement with the State. The Railroad Company has indicated that the firm of Dames and Moore is satisfactory to conduct the investigation, which the Engineer estimated will cost $4,580. Based upon his favorable recommendation, the Commission approved the agreement.

The Engineer reported that a survey for reconstruction of the Viento-Hood River Section of the Columbia River Highway, Hood River County, is now complete. He recalled that a public hearing had

been held in Hood River concerning this project on March 25, 1959 and the main problems brought up at the hearing had been worked out. He recommended that the survey be approved. The Commission approved the survey and thereupon adopted a resolution, marked Exhibit "G" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of November 3 and 4, 1960".

The Commission gave attention to two items of unfinished business appearing on the Secretary's Summary dated September 30, 1960, as follows:

(1) Request of Crook County Judge Harry Fowler that the State cooperate in developing a park area at the dam on Crooked River south of Prineville: A report on this matter was presented by the State Parks Superintendent earlier in the day and the Commission order the item deleted from the list of unfinished business.

(2) Offer of Portland General Electric Company to pay $350,000 for relocation of the Cove Palisades State Park because of construction of Round Butte Dam, Jefferson County: The Parks Superintendent earlier in the day had discussed this matter with the Commission but had deferred making a recommendation until the geologist's findings are complete.

The Commission considered and, upon the favorable recommendation of the Engineer, approved the payment of 1961 WASHO dues in the amount of $50.

Consideration was given to an agreement with the City of Medford in Jackson County covering joint occupancy of Roxy Anne Butte for the installation and maintenance of a base radio station for the radio communication system of the State Highway Department and the State Police. Upon the Engineer's favorable recommendation, the Commission approved the agreement with the City.

The Engineer presented for the Commission's consideration a proposed abandonment agreement with Josephine County concerning the disposition of the old portion of the Redwood Highway (US199) from Grants Pass westerly to Jerome Prairie. He stated that the County has agreed to take over and maintain the old section as a county road when construction of the new section is completed and opened to public travel. The Commission approved the agreement.

Out-of-State travel expenses were requested for State Highway personnel and approved by the Commission, as follows:

(1) Carl Jordan, Director of the Travel Information Division, to attend the Annual Convention of the American Convention and Travel Institute at Scottsdale, Arizona, November 27-30, 1960, at an estimated cost of $242.

(2) G. S. Paxson, Assistant State Highway Engineer, to attend a meeting of the special committee of the Highway Research Board at Washington, D. C., November 9-11, 1960, expenses to be paid by the Highway Research Board.

(3) W. C. Williams, State Highway Engineer; Forrest Cooper, Deputy State Highway Engineer; G. S. Paxson, Assistant State Highway Engineer; and Leonard I. Lindas, Chief Counsel, to attend the annual meeting of the Highway Research Board, in Washington, D. C., January 9-13, 1961, at an estimated cost of $350 each.

(4) The Commission confirmed previous telephonic approval, authorizing R. B. Sipprell, Director of Permits, to attend a meeting of Pacific Logging Congress, in Vancouver, B. C., October 25-27, 1960, at an estimated cost of $75.

The Commission approved the Secretary's report on papers signed on behalf of the Commission during the period from September 26 through October 28, 1960.

The date for the next regular Commission meeting was confirmed for December 12 and 13, 1960, in the Conference Room of the State Highway Building, Salem. A tentative date for the following meeting was set for January 26 and 27, 1961.

The Commission considered a request of the Mid-Willamette Valley Planning Council, on behalf of the Marion County Planning Commission, for concurrence in the naming of several sections of roads in Marion County, as follows:

(1) That portion of the Silver Creek Falls Highway presently known as State Street from the east city limits of Salem to Lancaster Drive be also known as State Street.

(2) That portion of the Silver Creek Falls Highway south of State Street to the new intersection of the North Santiam Highway presently called Lancaster Drive be known as Lancaster Drive.

(3) That portion of the Silver Creek Falls Highway southeast from the intersection of the new North Santiam Highway to the junction of the old North Santiam Highway (west of Shaw) presently an unnamed street also be known as the Aumsville Highway.

(4) That portion of the North Santiam Highway from the junction of the Silver Creek Falls Highway (west of Shaw) southerly to an intersection with Market Road No. 85 (east of Sublimity Gun Club at the new North Santiam Highway) presently an unnamed street be known as the Aumsville Highway.

(5) That portion of an unnamed secondary highway formerly the North Santiam Highway between Sublimity and Stayton presently an unnamed street also be known as the Cascade Highway.

The Engineer recommended approval of this action so that street addresses and post office designations may be correlated with the Marion County Planning Commission. The Commission approved the suggested road names of these five sections.

The Engineer reported that several years ago the State had improved S. W. 87th Avenue between the Tualatin Valley Highway and S. W. Canyon Drive in Washington County to provide an "outrigger" left-turn lane for vehicles wishing to make the left-turn movement from east to south at the intersection of the Tualatin Valley Highway and S. W. 87th Avenue in West Slope. He explained that although signs have been installed, the left-turn movement has not been officially prohibited. This has caused some difficulty to the State Police in law enforcement. He recommended that the left-turn movement from east to south from the Tualatin Valley Highway be prohibited at the intersection of Tualatin Valley Highway No. 29 (ORE 8) and S. W. 87th Avenue at M.P. 1.55 in the community of West Slope. The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "E", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of November 3 and 4, 1960".

Consideration was given to a request from Mrs. Roy Gayman, of Rufus, concerning protection for school children crossing the Columbia River Highway in the community of Rufus in Sherman County. The Engineer explained that an investigation has been made which has disclosed that, because of the construction of the John Day Dam, a trailer camp has been established on the northerly side of the highway in this community. The school children living in the trailer camp have to cross the highway going to and from school. Investigation also revealed that lowering the present 45-mile-per-hour speed zone would not be reasonable under existing conditions. He recommended that the 45-mile-per-hour speed zone established in this section on August 6, 1953, be amended so as to establish a 45-mile-per-hour speed zone between a point 0.14 mile west of the county road to Wasco and a point 0.18 mile east of the county road to Wasco, except that between a point 450 feet west of the county road to Wasco and a point 0.10 mile east of the county road to Wasco the indicated speed shall be 20 miles per hour during the hours of school crossing. The Commission approved the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "F-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of November 3 and 4, 1960".

The Commission considered a request from Mrs. Willard Pease, President, Wilbur-Winchester P.T.A., Roseburg, regarding the establishment of a speed zone on the Oakland-Shady Highway in and near the community of Winchester in Douglas County. The Engineer reported that a traffic engineering investigation has been made and, considering the roadside culture, accident rate, and other conditions, he recommended establishment of the following reduced speed zones in this area:

(1) 45 MPH between a point 500 feet south of Page Road (M.P. 12.58) and a point 500 feet north of Housley Avenue (M.P. 14.61).

(2) 40 MPH between a point 250 feet north of the southerly end of the North Umpqua River Bridge (M.P. 12.23) and a point 500 feet south of Page Road (M.P. 12.58).

The Commission accepted his recommendation by adopting a resolution relative thereto, marked Exhibit "F-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of November 3 and 4, 1960".

The Engineer reported that on June 2, 1960, a resolution was adopted which abandoned the old route of the Lake of the Woods Secondary Highway through Klamath Falls easterly of the West Side Bypass, which is a portion of FAS 288. This section still remains on the Federal-aid System. He recommended that this abandoned section in Klamath County from the interchange at the intersection of Oregon Avenue and the West Side Bypass to the intersection of 9th Street and Main Street in Klamath Falls be removed from the Federal-aid Highway System. The Commission approved his recommendation.

The Engineer also reported that sometime ago Klamath County officials appeared before the Commission and asked that the section of the East Side Bypass from Esplanada Street southeasterly to the intersection with South Sixth Street be placed on the Federal-aid Secondary System. This route is now on the State Highway Primary System, by resolution dated May 9, 1944, as a portion of the Klamath Falls-Malin Highway, but has not previously been placed on the Federal-aid System. Upon his favorable recommendation the Commission approved this section being placed on the Federal-aid Secondary System as an extension of FAS 419.

The Commission authorized the Engineer to make the awards of the contracts at 2:00 p.m. in accord with the recommendations he made to the Commission earlier in the session.

The meeting was recessed at 12:00 Noon and was reconvened at 2:00 p.m. in the same room.

At 2:00 P.M. the Engineer announced the award of contracts as follows:

BIDS RECEIVED IN SALEM ON NOVEMBER 1, 1960

"Extension of Overnight Camping Area in Humbug Mountain State Park on the Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, Fairy Creek Rock, Brookings, at $32,987.57.

"Grading and paving on the Douglas Avenue-South City Limits (Roseburg) Section of the Oakland-Shady Highway in Douglas County. No bids were received.

"Grading, paving, structures and signing on the Seven Oaks-Jackson Street Section of the Pacific Highway in Jackson County. The Commission elected to accept the low bid of Peter Kiewit Sons' Co. in the sum of $3,032,472.80 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Klamath Falls Traffic Signal Installation at the two intersections of South Sixth Street-Klamath Falls-Lakeview Highway, and Summers Lane-Altamount Drive in Klamath County. The Commission awarded the contract to the low bidder, Steeck Electric Company, Medford, at $21,500.

"Grading and paving on the "Q" Street-Ferry Street Bridge Section of the Coburg Road in Eugene in Lane County. The Commission elected to accept the low bid of Roy L. Houck Sons' Corporation in the sum of $61,527 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Lane County is received and the sum of $10,500 is deposited by the County.

"Grading and paving of the Albany-Santiam Interchange Section of the Santiam Highway in Linn County. The Commission awarded the contract to the low bidder, Morse Brothers, Lebanon, at $222,426.85.

"Roadside improvement on the Santiam Interchange-Halsey Interchange Section of the Pacific Highway in Linn County. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $45,660.25.

"Mayer State Park shelter latrine and facilities on the Columbia River Highway in Wasco County. All bids rejected as being too high.

"Grading and surfacing on the Service Creek-Richmond Road Section of the Service Creek-Mitchell Highway in Wheeler County. The Commission awarded the contract to the low bidder, Stanley Wilt, Corvallis, at $71,525.

The Commission considered a request from Mrs. Willard Pease, President, Wilbur-Winchester P.T.A., Roseburg, regarding the establishment of a speed zone on the Oakland-Shady Highway in and near the community of Winchester in Douglas County. The Engineer reported that a traffic engineering investigation has been made and, considering the roadside culture, accident rate, and other conditions, he recommended establishment of the following reduced speed zones in this area:

(1) 45 MPH between a point 500 feet south of Page Road (M.P. 12.58) and a point 500 feet north of Housley Avenue (M.P. 14.61).

(2) 40 MPH between a point 250 feet north of the southerly end of the North Umpqua River Bridge (M.P. 12.23) and a point 500 feet south of Page Road (M.P. 12.58).

The Commission accepted his recommendation by adopting a resolution relative thereto, marked Exhibit "F-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of November 3 and 4, 1960".

The Engineer reported that on June 2, 1960, a resolution was adopted which abandoned the old route of the Lake of the Woods Secondary Highway through Klamath Falls easterly of the West Side Bypass, which is a portion of FAS 288. This section still remains on the Federal-aid System. He recommended that this abandoned section in Klamath County from the interchange at the intersection of Oregon Avenue and the West Side Bypass to the intersection of 9th Street and Main Street in Klamath Falls be removed from the Federal-aid Highway System. The Commission approved his recommendation.

The Engineer also reported that sometime ago Klamath County officials appeared before the Commission and asked that the section of the East Side Bypass from Esplanada Street southeasterly to the intersection with South Sixth Street be placed on the Federal-aid Secondary System. This route is now on the State Highway Primary System, by resolution dated May 9, 1944, as a portion of the Klamath Falls-Malin Highway, but has not previously been placed on the Federal-aid System. Upon his favorable recommendation the Commission approved this section being placed on the Federal-aid Secondary System as an extension of FAS 419.

The Commission authorized the Engineer to make the awards of the contracts at 2:00 p.m. in accord with the recommendations he made to the Commission earlier in the session.

The meeting was recessed at 12:00 Noon and was reconvened at 2:00 p.m. in the same room.

At 2:00 P.M. the Engineer announced the award of contracts as follows:

BIDS RECEIVED IN SALEM ON NOVEMBER 1, 1960

"Extension of Overnight Camping Area in Humbug Mountain State Park on the Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, Fairy Creek Rock, Brookings, at $32,987.57.

"Grading and paving on the Douglas Avenue-South City Limits (Roseburg) Section of the Oakland-Shady Highway in Douglas County. No bids were received.

"Grading, paving, structures and signing on the Seven Oaks-Jackson Street Section of the Pacific Highway in Jackson County. The Commission elected to accept the low bid of Peter Kiewit Sons' Co. in the sum of $3,032,472.80 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Klamath Falls Traffic Signal Installation at the two intersections of South Sixth Street-Klamath Falls-Lakeview Highway, and Summers Lane-Altamount Drive in Klamath County. The Commission awarded the contract to the low bidder, Steeck Electric Company, Medford, at $21,500.

"Grading and paving on the "Q" Street-Ferry Street Bridge Section of the Coburg Road in Eugene in Lane County. The Commission elected to accept the low bid of Roy L. Houck Sons' Corporation in the sum of $61,527 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Lane County is received and the sum of $10,500 is deposited by the County.

"Grading and paving of the Albany-Santiam Interchange Section of the Santiam Highway in Linn County. The Commission awarded the contract to the low bidder, Morse Brothers, Lebanon, at $222,426.85.

"Roadside improvement on the Santiam Interchange-Halsey Interchange Section of the Pacific Highway in Linn County. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $45,660.25.

"Mayer State Park shelter latrine and facilities on the Columbia River Highway in Wasco County. All bids rejected as being too high.

"Grading and surfacing on the Service Creek-Richmond Road Section of the Service Creek-Mitchell Highway in Wheeler County. The Commission awarded the contract to the low bidder, Stanley Wilt, Corvallis, at $71,525.

The meeting was adjourned at 2:10 p.m. to be reconvened on the following day at 10:00 a.m.

Salem, Oregon
November 4, 1960

The Oregon State Highway Commission reconvened at 10:00 a.m. in Room 419, State Highway Building. The following persons were present:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
Walter T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information
Floyd Query, Secretary

Mr. John F. Porter, Chairman of the Benton County Chamber of Commerce, and Mr. Arthur Johnson, Benton County Chamber of Commerce, both from Corvallis, appeared before the Commission concerning (1) the Alsea Mountain Section of the Alsea Highway, (2) the Philomath Section of the Corvallis-Newport Highway (US20), (3) the scheduling of First Street Project in Corvallis, (4) the resurfacing of Pacific Highway West south of Monroe, and (5) planning for the westerly terminus of the Corvallis-Eastside Highway. Regarding the Alsea Cut (ORE 34), Mr. Porter stated that the completed survey indicates a 7 percent grade and a reduction of a great many curves on the highway. The traffic count on the Alsea Highway near Philomath, he continued, is higher than on US20 at Burnt Woods. He requested that this project be included in the Commission's next five-year program. He also asked that the Commission build as soon as possible the Philomath Section of US20, and if that is not feasible, to advise the City of Philomath of the Commission's plans with reference to the highway at Philomath, particularly as to whether or not a complete by-pass of the town is planned. Concerning the First Street Project at Corvallis, he pointed out that all of the right of way has been purchased for this project, the City having expended approximately $200,000. The City is interested in seeing the project scheduled in the next five-year program. He also pointed out the need for widening, surfacing and some realignment on the eight-mile section of US 99W from the end

of the presently improved section southward to Monroe. The last project, he continued, is the study and preparation of plans for the terminus of State Secondary Highway No. 210. Since completion of the Interstate Highway (US99) traffic has increased on the Corvallis-Lebanon Road because people who live in Corvallis and Lebanon are using it as an access to US 99. In response to Chairman McIver's inquiry if the order in which the projects were presented has been concurred in by the County Court and the Chamber of Commerce, Mr. Porter stated that they feel all the projects are important and they do not wish to place too much emphasis on priority. Chairman McIver advised the delegation that the first four projects mentioned have been given consideration by the Commission in its five-year program and that the planning of the terminus of State Secondary Highway 210 will be considered probably within the next year. He thanked the delegation for bringing these matters to the Commission's attention.

Judge Oscar Peterson, Morrow County, Heppner, was spokesman for a delegation which appeared regarding road problems in the Heppner area. Appearing with Judge Peterson were Milton Biegel, Irrigon, County Commissioner, and Dick Wilkinson, Chairman of the County Planning and Development Commission. Judge Peterson pointed out that the Heppner area has no through completed highways which will bring people and industry into this area. He mentioned as their principal project the proposed cutoff between Willow Creek on the Heppner Highway (ORE 74) and Arlington on the Columbia River Highway (US 30) and asked for its early programming. He requested as their number two project the early completion of the Heppner-Spray Highway (ORE 207),pointing out that since much of this is a forest highway, the Bureau of Public Roads, the U. S. Forest Service and the State Highway Commission must all cooperate in its improvement. Recreational facilities are being developed by the Forest Service and other agencies at Bull Prairie near the Wheeler-Morrow County line, he continued, which further creates a need for improvement of ORE 207. Mr. Biegel emphasized the importance of completing ORE 207 to Spray which would provide a north-south road through Morrow County. Mr. Wilkinson pointed out that through highways are essential to develop the Boardman Bombing Range as an industrial site. Heppner, he added, now is a "dead end" so far as furnishing access to various areas in Morrow County, and he reiterated their desire for improvement of ORE 207 to Spray. Chairman McIver thanked the delegation for their presentation and advised them that their requests will be given consideration.

Mr. John C. Caldwell, Attorney, Oregon City, headed a delegation that appeared before the Commission concerning the closure to vehicular traffic of a portion of the ocean beach from the south city limits of Cannon Beach to Silver Point. He introduced the following owners of beach property in the area: Mrs. Richard Caffall, Mr. and Mrs. E. S. Bouneff, Mrs. Tom Bouneff, Chris Bouneff, Mr. and Mrs. Nathan J. Heath, Mr. and Mrs. Norman Savinar, Mrs. Watson Eastman,

Helen VanBuren, and Mrs. Howard Mason, all from Portland; Mrs. Frank Schumaker, Jr., West Linn; Mrs. John C. Caldwell, Mrs. Howard Blanding, Mrs. Frank Santos, and H. E. Rhomberg, all from Oregon City; and C. C. Caffall and R. C. Caffall, both from Newberg. Mr. Bob Bouneff stated that he represented a group of property owners in Clatsop County in the Tolovana Beach area, south of Cannon Beach, who are requesting the prohibition of automotive traffic on the beach from Haystack Rock south to Silver Point. It is their contention, he continued, that during a portion of the year it is dangerous to allow traffic on the beach except for emergency vehicles or certain residents who may have business in the area. He, therefore, suggested that the beach be open to automotive traffic between October and May in order to allow the residents of the area to obtain wood but that between May and October it be closed to traffic except for emergency vehicles and other necessary vehicles that have been granted permits by the Commission. In support of this request he presented a petition signed by 311 persons. Chairman McIver stated that it is an established policy of the Commission in matters of this kind to accept the recommendation of the incorporated body of the area concerned. Mr. Caldwell pointed out that most of the area in question is not within any incorporated city and that the people he represented and the majority of those who use the beach reside in the Portland Metropolitan area and have no voting rights in Clatsop County, so, therefore, they are requesting the Commission to make this closure on behalf of the citizens of Oregon. In response to Chairman McIver's inquiry if this matter has been discussed with the Clatsop County Court, Mr. Bouneff replied in the affirmative, adding that the County Court suggested that the delegation contact the State Highway Commission. Mr. Caldwell exhibited and explained colored movies showing the traffic situation on the beach, pointing out that even automobiles traveling at the legal speed of 25 miles per hour present a danger to the people who use the beach for recreational purposes. Mrs. Santos told of a narrow escape her child had while playing on the beach. Mrs. Caffall related her experience with automobiles racing along the beach and expressed fear for her children's lives. Mr. E. S. Bouneff, who has been a property owner in the area for 16 years, stated that the beach is a public playground and does not have any definite area set aside for automobile traffic, so that such traffic is a hazard to adults and children alike. Mr. Savinar commented that the beach can be a recreational area or a highway but not both. He also told of the danger created by vehicles "squirreling" on the beach and commented that if people wish to enjoy the scenery and serenity of the beach there are many accesses to it by foot and plenty of parking spaces available for their cars. Mr. Caldwell informed the Commission that they have discussed this matter with many renters who expressed concern for their children's safety and with business people in the area who felt that they are losing business because of the hazards from vehicles driving on the beach. Mrs. Van Buren concurred in the opinions expressed by previous speakers regarding the peril to children on the beach. Chairman McIver thanked the group for apprising the Commission of this matter and told them that the Commission recognizes their problem and will

give their request every consideration. (Later in the meeting the Commission instructed the Engineer to investigate the delegation's request, to contact local officials, including the City of Cannon Beach and Clatsop County Court, and to present a report at the next meeting.)

The Chief Counsel brought to the Commission's attention the matter of a compromise settlement with Jack Bearbower for unintentional timber trespass by State Highway employees. He explained that this past summer while making a survey, the resident engineer was granted permission for a crew to enter upon certain property and remove some trees, such permission having been secured from a person believed to be the landowner; however, it was later discovered that Mr. Bearbower was the owner of the property in question, and Mr. Bearbower has now submitted a claim in the amount of $175 for the felled timber. Since the merchantable timber cut was worth $25, the Chief Counsel recommended settlement for double damages in the amount of $50, which is the amount Mr. Bearbower is entitled to under the statutes, provided that Mr. Bearbower signs a complete release of claim. The Commission accepted the Chief Counsel's recommendation.

The Engineer presented for the Commission's approval a letter addressed to the Murray B. Marsh Company, Inc., Portland, and to the Milwaukee Machinery Co., Portland, concerning the improvement of access conditions into the industrial area bordering S. W. Macadam from Thomas Street to Gibbs Street. He explained this letter is in answer to letters received from these firms complaining of the access to this industrial area since construction of the new freeway (US 99). The Commission approved the letter. (For further details see copy of the Engineer's letter dated November 10, 1960 in the General Files.)

The Commission confirmed prior approval of a widening and surfacing project on the Crater Lake Highway in the vicinity of Elk Creek and Robbers Roost in Jackson County in the amount of $50,000 and authorized the Engineer to call for bids on an equipment rental basis.

The Commission signed agreements and other papers.

There being no further business to come before the Commission, Chairman McIver declared the meeting adjourned at 11:00 a.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

November 4, 1960

Salem, Oregon
December 12, 1960

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Conference Room of the State Highway Building, Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
Gene Huntley, Director of Personnel and Public Relations
Carl Jordan, Director of Travel Information Division
Floyd Query, Secretary

Mr. C. H. Maison, Auditor, was excused because of illness.

The Commission approved the minutes of November 3 and 4, 1960.

The Parks Superintendent reported on the following park matters:

Request by City of Oceanlake that the State give to the City 0.16 acre of state-owned land north of Lake Drive: It was explained by the Parks Superintendent that in acquiring land for the Devil's Lake Park overnight camping area 0.16 acre had been purchased for right of way for a sewage pipeline from the park to the Oceanlake City sewage disposal plant, and to provide for a drainage pipe from the sewage disposal system to the Lake. The City wishes to acquire the 0.16 acre for a sewage sludge drying bed. Investigation, he continued, has indicated that the possibility of odors from the drying bed is slight, at least not enough to be disagreeable. He recommended that the 0.16 acre tract be transferred to the City of Oceanlake without charge with the understanding that the City will maintain the sewage disposal line from the Devil's Lake State Park overnight camping area, maintain the disposal line carrying the effluent from the City sewage disposal system to the Lake, and provided further that the City will raise the present drainage culvert under the road to a higher elevation and construct a ditch to the Lake. The Commission approved transfer of the property under the conditions mentioned.

Proposed extension of an agreement with the City of Oceanlake to treat sewage from the Devil's Lake State Park Overnight Camping area: For several years, the Parks Superintendent stated, the City has been

treating sewage from the overnight camping area under an agreement whereby the State pays for the treatment at the rate of 26 cents per thousand gallons, determined by 80 percent of the water metered to the park through the Taft-Delake water system. This arrangement, he stated, has proved very satisfactory, and he recommended that the agreement with the City of Oceanlake be extended to cover the year 1961. The Commission accepted the recommendation.

Proposed condemnation of lots in Pacific View and South Newport areas on the Oregon Coast Highway: The Parks Superintendent reviewed briefly that negotiation for the 1,617 lots in this area has progressed so that there remains approximately 200 still to be acquired. Some of the owners do not wish to sell, others are asking higher prices than appraisals will substantiate, and others who live out of State have failed to make any answers to offers of negotiations. These ownerships are scattered throughout the entire area, and as there is considerable demand for improvement of the area as a park, he recommended that condemnation proceedings be authorized in order to speed up development of the park. He presented a list of properties which are needed. The Commission authorized condemnation of the properties as requested but instructed that negotiations be continued as long as is reasonable. (Approval of this item was made contingent upon approval by the State Parks and Recreation Advisory Committee scheduled to meet in Portland in the afternoon. On the following day the Parks Superintendent reported that the Advisory Committee had approved the action taken by the Commission. See ahead for entry on condemnation of these properties, under the Chief Counsel's reports, agenda item 3a.)

Report on relocation of the Cove Palisades State Park facilities in Jefferson County: The Parks Superintendent recalled that at the November meeting he had reported that sub-surface investigations were underway to determine the stability of a proposed relocation area when the waters behind the Round Butte Dam have been raised to normal level. The sub-surface investigations have been completed, he stated, and the geologists report little likelihood of any movement of the area as a result of filling the reservoir. He recommended that an agreement be entered into with Portland General Electric Company, builders of the Dam, in which the Company would pay the sum of $350,000 for relocation of park facilities and in addition pay for preliminary investigation and sub-surface work. Also, the agreement should provide that the Company construct a road from near the present pool level, connecting with the existing road around and across the arm of the lake on Crooked River, to the proposed park. It was his opinion that the $350,000 payment would cover the grading for park facilities, the installation of them, and provide for overnight camping areas, a boat ramp, a swimming area, and other facilities. He recommended that the agreement be entered into with Portland General Electric Company along the lines outlined so that they may proceed with construction of the Dam and so that the State may proceed with preliminary work involved in relocation of the park. Chairman McIver and Commissioner Fridley both indicated that the Company should give assurance of an adequate supply of water for the park. The Commission approved the outlined

agreement, provided that the Electric Company will give assurance of an adequate supply of water and provided also that the outlined form of agreement is approved by the State Parks and Recreation Advisory Committee. (On the following day the Parks Superintendent stated that the Advisory Committee had approved the agreement as outlined.)

Proposed hiring of a consultant to help set up the planning and organization involved in the Oregon Non-Urban Outdoor Park and Recreation Study: It was the Parks Superintendent's opinion that Mr. Claude Greider of Pebble Beach, California, would be a competent man for this work. He pointed out that Mr. Greider is a retired employee of the National Park Service whose principal duty in that work had been recreation study and planning for the various states. He is quite familiar with Oregon as he was connected with the Portland office of the National Park Service for several years and had prepared some information on a recreation study required by the Columbia Basin Inter-Agency Sub-Committee on Recreation. He recommended that Mr. Greider be hired as a consultant under a contract for the sum of $50 per day when he is required to work, plus expenses. Commissioner Fridley commented that $50 per day is a relatively low amount for this type of work, and he questioned the advisability of tying the Commission to a $50 per day figure, pointing out that the Commission's chief concern is the performance of a satisfactory job. The Parks Superintendent explained that Mr. Greider is willing to accept a lesser amount because he is retired, and it is necessary to stipulate a specific amount in the contract for his services in order to secure approval of the Department of Finance and Administration. Commissioner Jackson commented that if this man does not prove satisfactory the matter can be brought back to the Commission for further action. The Commission approved the hiring of Mr. Greider as a Recreation Consultant as outlined by the Parks Superintendent, subject to approval of the Parks and Recreation Advisory Committee and the Department of Finance and Administration. (On the following day the Parks Superintendent reported that the Advisory Committee had approved hiring of Mr. Greider.)

Report on Economic Study of State Parks concerning their value to local communities and the State: The Parks Superintendent called attention to figures pertaining to park attendance and expenditures by visitors within a 25 mile vicinity of certain State Parks as well as other matters, as shown on Page 14 of the report. He requested authority to distribute copies of the report. Commissioner Jackson commented on what might be interpreted as discrepancies in attendance and expenditure figures as shown in the Parks report compared with statistics released by the Travel Information Division. It was his thought that the figures as shown in the statistical summary of the Park report did not show a full picture of the value of State Parks. The Commission instructed that the figures be checked with the Director of the Travel Information Division and also that the Parks and Recreation Advisory Committee give their approval of the report. (On the following day the Parks Superintendent presented to the Commission a supplementary statement showing how the statistics had been determined in the report and pointing out that factors had been considered other than those considered in the Travel Information

Division report. He also stated that the Parks Advisory Committee had approved the report with the addition of the supplementary statement. The Commission approved the report and authorized distribution with the supplementary statement to be inserted in the report.)

Proposed extension of an agreement with Crown Zellerbach Corporation to use material from a quarry near Cape Lookout State Park in Tillamook County: In the maintenance of the park it is necessary at times to add rock to the roads and trails. An agreement, the Parks Superintendent stated, was entered into with Crown Zellerbach Corporation in 1957 allowing the State to use material from their quarry. They have no objection to furnishing the material, but would like to have the matter covered by agreement. The Commission approved his recommendation that the agreement be extended for one year.

A gift of 4.7 acres of land from Clatsop County for Fort Stevens State Park: This land, the Parks Superintendent stated, lies on both sides of the Peter Iredale Road and parallel to the Ridge Road. Acquisition of the land will fit in well with development of the park and will prevent undesirable developments which might be undertaken by private enterprises. The Commission accepted the gift and instructed that the Clatsop County Court be thanked for it.

The Park Superintendent reported that he had met with the Natural Resources Legislative Interim Committee last Friday and he had a copy of legislation proposed by them pertaining to a separate Recreation Commission. The Commission requested the Chief Counsel to examine the proposed legislation.

The Right of Way Engineer presented for consideration options, Pages 1 through 45, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of December 12 and 13, 1960".

In discussing the options presented, Chairman McIver inquired of the Right of Way Engineer if he had received complaints from any property owners or tenants on the Minnesota Freeway Section of the Pacific Highway in Portland as to trouble or hardship encountered by them because of the taking of their properties. The Right of Way Engineer replied that no complaints had come to him directly, but some had been made to the Governor and had been referred to him. These complaints, however, were concerned principally with generalities. A close check, he stated, had not revealed any particular deficiencies in the acquisition program, and he had no recommendations for any changes.

The Commission discussed with the Right of Way Engineer the status of right of way acquisitions on sections on which construction is planned in the near future. Commissioner Fridley inquired if right of way acquisitions had been started on the section of the Columbia River Highway through The Dalles. The Right of Way Engineer replied that property appraisals are almost completed and negotiations for acquisition of this property have just been started.

A report was presented by the Right of Way Engineer showing sales made by the Property Manager, and a rental report covering the period subsequent to the last Commission meeting. Briefly, he pointed out that miscellaneous sales during this period had amounted to $15,740 and rental receipts for the month of October totalled $6,827.34. The Commission accepted the report.

Three indentures of access were presented by the Right of Way Engineer. On the Umpqua River Navigation Company property and the Sunderman property he stated that the changes proposed are consistent with Commission policy, have been approved by the Engineer, and are being made for the benefit of the property owners and the safety of the traveling public. Concerning the Nuttall property he explained that through a misunderstanding in acquiring the property the owner had assumed that an application for a road approach would suffice for access to the site which was sold for a grocery store. Granting of access at this location, he stated, is not inconsistent with department policy and would have been granted had the transfer been completed prior to right of way negotiations. The Commission approved the following indentures of access:

(1) Umpqua River Navigation Company property, File 30703, on the North Fork Siuslaw River Section, Siuslaw Highway in Lane County.

(2) Sunderman property, File 22356, on the Salem-Stout Creek Section of the North Santiam Highway in Marion County.

(3) Nuttall property, File 30490, on the Hillsboro-Reedville Section of the Tualatin Valley Highway in Washington County.

Public sale of several parcels of excess property was recommended by the Right of Way Engineer who explained that in each instance the minimum consideration is based upon appraised value, or upon an offer which exceeds appraised value, and that access provisions are consistent with department policy in the vicinity of each property. The Commission authorized public sale of the following parcels and thereupon adopted resolutions, marked Exhibits "C-1" through "C-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960":

(1) 4,532 square feet of land from the former Atkinson property, File 16166, on the Pine Street Section of the Pacific Highway

East in Salem, Marion County, for not less than $4,500 and without restrictions as to access or advertising as the parcel is within the city limits. (See Exhibit "C-1")

(2) 0.53 acre from the former Vandehey property, File 19836, on the Washburn-North Plains Section of the Wilson River Highway in Washington County for a minimum consideration of $250 and without access to the Wilson River Highway.

(3) 0.49 acre from the former Wadley property, File 25858, on the Ontario-Snake River Section of the Old Oregon Trail Highway in Malheur County for not less than $100, without access to the Old Oregon Trail Highway. An advertising sign restriction is to be imposed.

(4) 0.73 acre from the former Kendall property, File 25857, on the Ontario-Snake River Section of the Old Oregon Trail Highway in Malheur County for not less than $150 without access to the Old Oregon Trail Highway. An advertising sign restriction is to be imposed.

(5) 12,384 square feet of land from the former Bartel property, File 22005, on the Willamette River-42nd Avenue Section of the Columbia River Highway in Multnomah County for not less than $6,200, subject to a lease held by Associated Chemists, Incorporated in which the property serves as an access to their loading dock at the rear of the building. The purchaser is to be required to construct a catch basin to take care of drainage and the land is to be sold without access to the Columbia River Highway. (See Exhibit "C-2")

(6) Approximately 250 tons of scrap steel from the Union Avenue, Grand Avenue and 12th Avenue Bridges in Portland. The steel is to be sold within the next four months when the market seems to be most favorable.

(7) 0.63 acre from the former Erntson property, File 25101, on the North Jefferson Junction-Albany Section of the Pacific Highway East in Linn County for not less than $12,500, subject to an easement for a road approach to the frontage road across a 630-foot area. No access is to be allowed to the Pacific Highway East or to its frontage road and an advertising sign restriction is to be imposed. (See Exhibit "C-3")

Direct sale of four parcels of excess property was recommended by the Right of Way Engineer. The proposed sales, he added, have been approved by the Engineer and are consistent with Commission policy. The Commission approved the following direct sales:

(1) 270 square feet of land from the former Childs property, File 6394, on the Albany-Junction City Highway in Linn County

for the appraised value of $100 to Mr. Thomas Leonard. There are to be no access or advertising restrictions as the property is located in the City of Albany. The only abutting owner with a potential interest in the property has indicated that he has no objection to the direct sale to Mr. Leonard.

(2) Two quarry site parcels, one containing 70,310 square feet and the other two acres, from the former McCarthy property, File 19197, on the Wilsonville-Hubbard Highway in Washington County to Washington County for the sum of $1. The deed is to contain a public use clause. The quarry site is no longer needed or useful to the State.

(3) 3.57 acres of the former Keen quarry site, File 9754, on the Helix Junction-Athena Section of the Athena-Holdman Highway in Umatilla County to Umatilla County for the sum of $1. This site is no longer needed or useful to the State and the deed is to contain a public use clause.

(4) Approximately one acre from the former Benson quarry site, File 2882, on The Dalles-Eightmile Creek Section of The Dalles-California Highway in Wasco County to Wasco County for the sum of $1. The deed is to contain a public use clause. The quarry site is no longer needed or useful to the State.

A grant of access form was presented by the Right of Way Engineer to allow access to the Clarence Urie property, File 26017, on the Black Bridge-Richland Section of the Baker-Homestead Highway in Baker County. He explained that in 1959 access rights to this property had been acquired by the State for the sum of $114. After construction was completed it was found that access could safely be granted to this property, and the owner has offered to repay the sum of $114. The Commission approved his recommendation for one point of access, 25 feet in width and restricted to private residential use, provided the owner repays the amount paid to him for the access right.

A proposed grant of access was also presented by the Right of Way Engineer to the Foster property, File 17337, on the North Entrance to Grants Pass Section of the Redwood Highway (formerly Pacific Highway) in Josephine County. Field investigation, he stated, has indicated a proposed business use of the property cannot be served safely by the one point of access previously granted. The Engineer has approved the widening of one point of access from 25 feet to 40 feet and the granting of a second unrestricted access 40 feet in width. On his favorable recommendation the Commission approved the grant of access.

Authority was requested by the Right of Way Engineer to reroof a state-owned house located at 580 West Chatham Drive, Roseburg, which

is on the Garden Valley Road-Harvard Avenue Section of the Pacific Highway in Douglas County. As the Interstate Highway in this vicinity is subject to additional improvement the property on which the house sits cannot be declared excess. The house is rented for a substantial sum, and he recommended that it be reroofed for the sum of $422, which is the lowest of three bids received. The Commission authorized the reroofing.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "F-1" through "F-13", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated December 12 and 13, 1960, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

A written report of cases which have been tried in court was presented by the Chief Counsel who commented orally on some of them. The Commission accepted the report which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

November 4, 1960 to December 5, 1960

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3539 Ross R. Mitchell, et ux.	Clackamas	Pacific East	New Era-Canby	$ 5,200	$ 8,000 plus fill material	$ 15,000
L-3045 F.I. Glaser, et al.	Linn	Pacific	Albany-Judkins Point	$ 5,500	$56,399 (Answer)	$ 7,000

(Report of Condemnation Cases Tried - Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3445 Charles Fox, et al.	Benton	Pacific West	Camp Adair-Lewisburg	$ 4,850	$12,915 (Answer)	$ 7,150
L-2871 More-house Holding Co.	Multnomah	Pacific East	Grand Avenue-Union Avenue One-Way Couplet	$15,717.50	$30,000	$25,010
L-2989 Charles Parker	Lincoln	Corvallis-Newport	Toledo-Eddyville	$ 768	$ 7,000	$ 3,740
L-3338 Theresa Odalovich, et al.	Multnomah	Pacific	East Bank Freeway	$26,500	$30,000	$27,500

REPORT OF TRIAL OF OTHER CASES

Case	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict
L-2568 James W. Morrison & Lamping	State of Oregon	Marion	Claim for extra work under State Highway Contract 3956 (changed conditions clause)	$43,000	$39,000 (In Circuit Court)
L-3491 Pacific Concrete Co., et al.	State of Oregon	Multnomah	Claim for extra work under State Highway Contract 5107 (changed conditions clause)	$ - - -	Held for State
L-2273 John Anderson, et al.	State of Oregon	Multnomah	Damages arising out of Vanport flood alleged to have been a result of State failing to maintain Denver Ave. Highway fill as a dike	$85,000	None

December 12, 1960

(For additional details see the Chief Counsel's letters dated December 6, 1960 entitled "Report of Cases Tried" and December 9, 1960 entitled "Supplemental Report of Cases Tried", in the General Files, Salem.)

The Chief Counsel also presented a written report on condemnation cases which have been settled out of court since the last Commission meeting. Concerning these property settlements, he stated that each of the amounts shown is within or near enough to appraised value so as not to constitute a material increase. Upon his favorable recommendation, the Commission approved the settlements which are summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-31258 Andrew Stambuck, et al.	Douglas	Pacific	Rice Hill-North Oakland Junction	$ 1,350 (includes $352 for fencing)	$ 1,350 (includes $352 for fencing)
R-29329 S. E. Cox, et ux.	Jackson	Pacific	Seven Oaks-Neil Creek	$24,410	$24,310
R-30587 Southern Oregon Broadcasting Co., et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$ 1,175	$ 1,175
R-30992 Oregon Christian Missionary Society	Linn	Santiam	Albany-Pacific Highway Interchange	$ 920	$ 1,120
R-30617 Robert S. Rosso, et al.	Multnomah	Pacific	East Bank Freeway	$ 7,400	$ 7,400
R-20556 Polk County	Polk	Pacific West	Rickreall-Orr Corner	$ 2,165	$ 2,700
R-31244 Harris Pine Mills, et al.	Umatilla	Old Oregon Trail	Deadmans Pass-Meacham	$ 30	$ 75

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30522 J. H. Bush, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 1,000	$ 1,750
R-30505 Guss F. Mulkey, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 5,375	$ 5,500
R-30874 John Christensen, et al.	Clackamas	Pacific East	New Era-Canby	$ 9,000	$10,000
R-31638 Marion E. Brown, et al.	Coos	Coos Bay-Roseburg	Myrtle Point-Bridge	$ 2,200	$ 2,600
R-31637 John E. Koch, et al.	Coos	Coos Bay-Roseburg	Myrtle Point-Bridge	$ 250	$ 450
R-31639 John E. Koch, et al.	Coos	Coos Bay-Roseburg	Myrtle Point-Bridge	$12,000	$13,000
R-31640 Ernest L. Middagh, et al.	Coos	Coos Bay-Roseburg	Myrtle Point-Bridge	$ 7,900	$ 8,600
R-23707 Kathryn Terjeson, et al.	Umatilla	Pendleton-John Day	Emigrant Ave.-Frazer Ave. Couplet (Pendleton)	$ 435	$ 435
R-30924 Clement M. Parker, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$86,750	$100,000
R-28275 Julius O. Selberg, et al.	Multnomah	Pacific	East Bank Freeway	$12,250	$16,000

December 12, 1960

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30483 Elton L. Livingston, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 1,635	$ 3,000
R-30484 Ralph H. Wilson, et ux.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 2,300	$ 2,650
R-28887 City of Medford	Jackson	Pacific	Medford Unit, Seven Oaks-Ashland	$160,980	$160,980
R-29055 City of Medford	Jackson	Pacific	Medford Unit, Seven Oaks-Ashland		
R-30498 John Howard Koffel, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 9,880	$11,500
R-29330 Clifford Schleigh, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$ 1,400 (including $140 for fencing)	$ 1,400 (includes fencing)
R-28056 Frances M. Troy, et al.	Baker	Old Oregon Trail	Baker-Pleasant Valley	$15,000	$20,000
R-28055 Margaret Becker, et al.	Baker	Old Oregon Trail	Baker-Pleasant Valley	$20,250	$21,373.38
R-29175 Frances M. Troy, et al.	Baker	Old Oregon Trail	Pleasant Valley-Oxman	$ 410	$ 432.70
R-28965 Margaret Becker, et al.	Baker	Old Oregon Trail	Pleasant Valley-Oxman	$21,975	$23,193.92

December 12, 1960

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-27956 R-27954 R. W. Smith and Wendall Smith	Klamath	Klamath Falls-West Side By-Pass	The Dalles-California	$ 750*	$ 4,000

*Later reappraised at $3,000. Owner indicated he would ask $60,000.

(For additional details see the Chief Counsel's letters dated December 6, 1960 entitled "Report of Cases Settled" and December 9, 1960 entitled "Supplemental Report of Cases Settled", in the General Files, Salem.)

In compliance with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel presented for confirmation of prior telephonic approval a list of offers to be tendered to property owners prior to the institution of condemnation proceedings. The Commission confirmed the offers as follows:

WILDERVILLE-GRANTS PASS SECTION OF THE REDWOOD HIGHWAY

R-31978 - David E. Turnidge, et al. 20 acres for a material source. Offer of $8,000 approved by Mr. Jackson, November 14, 1960.

R-31979 - Neil M. Mayfield, et al. Parcel No. 1: 21.5 acres for a material source; and Parcel No. 2: 2.0 acres for haul road. Offer of $9,260 approved by Mr. Jackson, November 14, 1960.

RICE HILL-NORTH OAKLAND JUNCTION SECTION OF THE PACIFIC HIGHWAY

R-17543 - Andrew Stambuck, et al. Acquisition of access rights. Offer of $1,500 approved by Mr. Jackson, November 9, 1960.

R-21193 - Delmar Rice, et al. Parcel No. 1: 2.5 acres for right of way purposes; Parcel No. 2: 1.45 acres for right of way purposes; Parcel No. 3: 0.57 acre for right of way purposes; and Parcel No. 4: 0.08 acre for permanent easement. Offer of $1,670 approved by Mr. Jackson, November 15, 1960.

R-21195 - Mary Rice, et al. 0.83 acre for right of way purposes. Offer of $380 approved by Mr. Jackson, November 9, 1960.

R-24033 - Delmar E. Rice, at al. 1.05 acres for right of way purposes. Offer of $4,425 approved by Mr. Jackson, November 9, 1960.

RICE HILL-NORTH OAKLAND JUNCTION SECTION OF THE PACIFIC HIGHWAY - Cont.

R-30885 - Ralph C. Webber, et al. Parcel No. 1: 1.01 acres for right of way purposes; and Parcel No. 2: 0.2 acre for permanent easement. Offer of $655 approved by Mr. Jackson, November 7, 1960.

R-31256 - J. A. Huckaby, et al. 0.19 acre for right of way purposes. Offer of $515 approved by Mr. Jackson, November 7, 1960.

R-31257 - Leroy Churchill, et al. 6.9 acres for right of way purposes. Offer of $17,360 approved by Mr. Jackson, November 15, 1960.

R-31258 - Andrew Stambuck, et al. 5.8 acres for right of way purposes. Offer of $1,350 approved by Mr. Jackson, November 9, 1960.

R-31259 - Adrain J. Standley, et ux. Parcel No. 1: 9.4 acres for right of way purposes; and Parcel No. 2: 4.41 acres for right of way purposes. Offer of $2,875 approved by Mr. Jackson, November 9, 1960.

R-31980 - Mary Rice, et al. Parcel No. 1: 1.6 acres for right of way purposes; and Parcel No. 2: 0.44 acre for right of way purposes. Offer of $2,450 approved by Mr. Jackson, November 14, 1960.

R-31981 - Mary Rice, et al. 5.0 acres for right of way purposes. Offer of $6,000 approved by Mr. Jackson, November 14, 1960.

R-32094 - Richard Emmitt Churchill, et al. 0.67 acre for right of way purposes. Offer of $6,250 approved by Mr. Jackson, November 15, 1960

SOUTH NEWPORT STATE PARK

R-24359 - Harmon August, et al. 5,000 square feet for park purposes. Offer of $250 approved by Mr. McIver, December 2, 1960.

R-24364 - Helen M. Braddock, et al. 12,500 square feet for park purposes. Offer of $350 approved by Mr. McIver, December 2, 1960.

R-31099 - Betty Goff, et vir. 7,500 square feet for park purposes. Offer of $100 approved by Mr. McIver, November 29, 1960.

R-31128 - Hector Frank Unger, et al. 10,000 square feet for park purposes. Offer of $400 approved by Mr. McIver, November 29, 1960.

GOLD HILL SECTION OF THE PACIFIC HIGHWAY

R-31823 - Walter L. Scott, et ux. 0.09 acre for right of way purposes. Offer of $600 approved by Mr. Jackson, November 7, 1960.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-29063 - Dolph E. Phipps, et al. 0.04 acre for right of way purposes. Offer of $100 approved by Mr. Jackson, November 29, 1960.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY - Cont.

R-29329 - S. E. Cox, et ux. Parcel No. 1: 15.4 acres for right of way purposes; and Parcel No. 2: 0.09 acre for right of way purposes. Offer of $24,410 approved by Mr. Jackson, November 10, 1960.

R-29330 - Clifford E. Schleigh, et al. 1.58 acres for right of way purposes. Offer of $1,400 approved by Mr. Jackson, November 9, 1960.

R-29331 - Paul Steveson, et al. 4.25 acres for right of way purposes. Offer of $5,540 approved by Mr. Jackson, November 14, 1960.

LAURELHURST STATE PARK

R-30596 - Max Weaver, et ux. 44.74 acres for park purposes. Offer of $8,950 approved by Mr. Jackson, November 16, 1960.

MYRTLE POINT-BRIDGE SECTION OF THE COOS BAY-ROSEBURG HIGHWAY

R-31637 - John E. Koch, et al. 3.28 acres for right of way purposes. Offer of $250 approved by Mr. Jackson, November 9, 1960.

R-31639 - John E. Koch, et al. 1.5 acres (net) for right of way purposes. Offer of $12,000 approved by Mr. Jackson, November 10, 1960.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29639 - Victor Raymond Baker, et ux. 5,000 square feet for right of way purposes. Offer of $7,300 approved by Mr. McIver, November 16, 1960.

R-29657 - Fred O. Benson, et al. 5,000 square feet for right of way purposes. Offer of $3,850 approved by Mr. McIver, December 9, 1960.

R-30065 - Stanley Dale Price, et al. 5,000 square feet for right of way purposes. Offer of $9,210 approved by Mr. McIver, December 9, 1960.

R-30067 - Glenn P. Thomas, et al. 5,000 square feet for right of way purposes. Offer of $12,160 approved by Mr. McIver, December 9, 1960.

R-30090 - Edwin J. Garreau, et al. 5,294 square feet for right of way purposes. Offer of $11,600 approved by Mr. McIver, December 7, 1960.

PINE STREET-MARKET DRIVE (LEBANON) SECTION OF THE SANTIAM HIGHWAY

R-30185 - Richard M. Peters, et al. 2,720 square feet for permanent easement. Offer of $140 approved by Mr. McIver, December 2, 1960.

R-30186 - F. J. Hantze, et al. 1,150 square feet for permanent easement. Offer of $425 approved by Mr. McIver, December 6, 1960.

PINE STREET-MARKET DRIVE (LEBANON) SECTION OF THE SANTIAM HIGHWAY - Cont.

R-30190 - Harris Distributing Co. 2,800 square feet for permanent easement. Offer of $140 approved by Mr. McIver, December 9, 1960.

R-31631 - Richard M. Peters, et al. 13,667 square feet for right of way purposes. Offer of $410 approved by Mr. McIver, November 30, 1960.

EMIGRANT AVENUE-FRAZER AVENUE COUPLET (PENDLETON) SECTION OF THE PENDLETON-JOHN DAY HIGHWAY

R-23707 - Kathryn Terjeson, et al. Parcel No. 1: 130 square feet for right of way purposes; and Parcel No. 2: 25 square feet for temporary easement. Offer of $435 approved by Mr. Fridley, November 7, 1960.

R-23708 - Alan G. Weiler, et al. Parcel No. 1: 90 square feet for right of way purposes; and Parcel No. 2: 21 square feet for temporary easement. Offer of $350 approved by Mr. Fridley, November 7, 1960.

R-31748 - Cascade Natural Gas Corporation, et al. 6,700 square feet for right of way purposes. Offer of $13,050 approved by Mr. Fridley, November 14, 1960.

PINE STREET-STEPHENS STREET COUPLET (ROSEBURG) OF THE OAKLAND-SHADY HIGHWAY

R-31753 - Si Dillard Motor Co. 3,200 square feet for right of way purposes. Offer of $16,500 approved by Mr. Jackson, December 6, 1960.

BOARDMAN JUNCTION-UMATILLA SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31582 - Stephen A. Moore, et al. 0.03 acre for right of way purposes. Offer of $375 approved by Mr. Fridley, December 9, 1960.

SMITH POINT-CAMP RILEA SECTION OF THE OREGON COAST HIGHWAY

R-30958 - Henry C. Willener, et ux. Parcel No. 1: 36,400 square feet for right of way purposes; Parcel No. 2: 350 square feet for right of way purposes; Parcel No. 3: 1,640 square feet for right of way purposes; Parcel No. 4: 43,000 square feet for right of way purposes; Parcel No. 5: 10,000 square feet for right of way purposes; Parcel No. 6: 28,700 square feet for right of way purposes; Parcel No. 7: 12,100 square feet for right of way purposes; Parcel No. 8: 20,800 square feet for right of way purposes; and Parcel No. 9: 7,500 square feet for right of way purposes. Offer of $1,820 approved by Mr. McIver, December 6, 1960.

LAKE ROAD-OREGON CITY SECTION OF THE CASCADE SECONDARY HIGHWAY

R-28697 - George Harter, et ux. 0.40 acre for right of way purposes. Offer of $1,550 approved by Mr. McIver, November 16, 1960.

LAKE ROAD-OREGON CITY SECTION OF THE CASCADE SECONDARY HIGHWAY - Cont.

R-28724 - Earl D. Jamison, et al. 3.08 acres for right of way purposes. Offer of $4,400 approved by Mr. McIver, November 7, 1960.

R-28741 - Wilda R. Dunmire, et vir. Parcel No. 1: 0.21 acre for right of way purposes; and Parcel No. 2: 0.3 acre for right of way purposes. Offer of $7,500 approved by Mr. McIver, December 9, 1960.

R-28777 - Milo M. Martindale, et al. Parcel No. 1: 3.8 acres for right of way purposes; and Parcel No. 2: 0.42 acre for right of way purposes. Offer of $11,000 approved by Mr. McIver, December 9, 1960.

R-29017 - Ella J. Williams, et al. Parcel No. 1: 0.49 acre for right of way purposes; and Parcel No. 2: 0.05 acre for right of way purposes. Offer of $1,900 approved by Mr. McIver, December 7, 1960.

R-31303 - Donald M. Jenkins, et ux. 0.5 acre for right of way purposes. Offer of $100 approved by Mr. McIver, November 22, 1960.

R-31528 - Southern Pacific Company. Parcel No. 1: 0.45 acre for right of way purposes; and Parcel No. 2: 0.10 acre for right of way purposes. Offer of $3,250 approved by Mr. McIver, December 9, 1960.

R-31529 - School District No. 62 of Clackamas County, Oregon. 0.76 acre for right of way purposes. Offer of $2,100 approved by Mr. Jackson, December 9, 1960.

R-31568 - Abernathy Grange No. 346. 0.05 acre for right of way purposes. Offer of $350 approved by Mr. McIver, December 9, 1960.

R-31569 - Oscar T. Beyl, et al. 0.23 acre for right of way purposes. Offer of $6,900 approved by Mr. McIver, December 6, 1960.

R-31949 - Otto G. Muessig, et ux. 0.18 acre for right of way purposes. Offer of $400 approved by Mr. McIver, December 9, 1960.

PINE STREET-MARKET DRIVE (LEBANON) SECTION OF THE SANTIAM HIGHWAY

R-31617 - Louis Schwindt, et ux. 900 square feet for permanent easement. Offer of $90 approved by Mr. McIver, December 6, 1960.

A report was made by the Chief Counsel concerning orders enacted by the Public Utility Commissioner in which the State Highway Commission has been a party. The Commission approved the report which is summarized as follows:

PUX 355: 2nd Rhinehart Overcrossing, Oregon-Washington Railroad and Navigation Co., Union Pacific Railroad Co., Lessee. This involves an overcrossing over the railroad companies' tracks on the revised location

of the Wallowa Lake Highway between Rhinehart and Elgin. The order was issued in accord with the testimony presented at the hearing.

PUX 356: Douglas Garden Road Signals, Lane County. This is a Lane County matter, and an answer was filed in which it was represented that the Commission has no jurisdiction over the crossing, and no objection was made to the issuance of a proper order.

PUX 357: Ninth Street Grade Crossing in the City of Grants Pass. An answer was filed in behalf of the State Highway Commission in which it was represented that the Commission has no jurisdiction over the crossing, and no objection was made to the issuance of a proper order.

PUX 402: Columbia Boulevard Grade Crossing at or near N. E. 92nd Drive in Multnomah County. This matter concerns an application of Oregon-Washington Railroad and Navigation Co., Union Pacific Railroad Co., Lessee, for authority to construct an industrial spur track at grade across Columbia Boulevard at or near N. E. 92nd Drive. An answer was filed stating that the State Highway Commission has no jurisdiction over the crossing, and no objection was made to the issuance of a proper order.

The institution of legal action against the State by Con Medina was reported by the Chief Counsel. He explained that Medina alleges that he has been damaged in the amount of $2,300 because of a ditch dug upon his property, the destruction of his dam and the changing of the channel of Canyon Creek. This action was alleged to have occurred during reconstruction of the Canyon City-Seneca Section of the John Day-Burns Highway in Grant County. This project, he continued, was supervised by the Bureau of Public Roads, and the State's responsibility was acquisition of rights of way only. The interests of the State, he stated, will be protected. The Commission accepted the report.

A report was also presented concerning legal action against Ernest W. King, a Highway Department employee, and the State of Oregon by and through its Highway Commission by Albert Straus and Frank Straus for alleged damages in the sum of $50,000 plus, caused by a fire along the Oakland-Shady Highway No. 234, about five miles northeast of Gold Hill in Jackson County. The plaintiff alleges that on August 9, 1960 a fire was started on the state highway by the negligent operation of a State Highway Department rotary mower. Because of alleged negligent operation of the mower they are seeking double damages in the sum of $104,827.10. Necessary steps, the Chief Counsel stated, are being taken to protect the interests of the State.

A claim for alleged damages suffered by Rebs Garden and Hardware Store, 4094 Portland Road, Salem, was presented by the Chief Counsel. The plaintiff's claim in the amount of $33, he stated, is for the cost of glass in a shop window alleged to have been broken because of the vibration of a road roller. Investigation has revealed that the State

does not have any liability in this instance, and he recommended that the claim be denied. The Commission accepted his recommendation.

A list of claims which have been determined as uncollectible was presented by the Chief Counsel who recommended that attempts to collect them be abandoned. The Commission approved abandonment of the following claims:

CAO No.	Explanation	Claim
58-168 Arthur Long	Car damage. Futile and expensive to pursue further. Two years old.	$ 6.50
58-117 Charles Keyes	Guard rail damage. No insurance. State Police say he moved to Washington. No forwarding address.	$213.28
59-47 Harold Larsen	Guard rail damage. Mail is returned. No forwarding address. Unable to locate.	$ 75.25
59-317 Kats Suramoto	Our insurance company paid other car owner, thus indicating no liability on other car owner.	$100.24
59-227 C.E. Rhoads	Vehicle damage. Witnesses' statements make it clear there is no legal liability on part of Rhoads.	$ 21.74
58-147 Ovace Delp	Charges for towing abandoned vehicle.	$ 4.84
59-101 Edward Murray	Vehicle damage. Our insurance company paid other party. No liability on other party.	$222.85
58-187 Marvin McCormick	Guard rail damage. No liability because of flat tire.	$ 68.67
57-240 W.B. Jessen	Removal of fence. Futile and expensive to pursue further.	$ 11.29
57-228 Delores Gillis	Guard rail damage. Has gone through bankruptcy proceedings.	$ 91.96
58-141 E.O. Beleh	Vehicle damage. No liability.	$ 20.85
59-49 William Neuschulton	Guard rail damage. Stolen car. Unknown driver. Insurance does not cover stolen cars.	$124.69
58-37 James F. Clune	Vehicle damage. Insurance company denies claim based upon independent witnesses' statements.	$ 62.70

(Cont.)

CAO No.	Explanation	Claim
57-107 Charlie Cooper	Flashing installation damage. Has gone through bankruptcy proceedings.	$ 74.48
58-218 Kenneth Chowning	Lightpole installation damage. No insurance. Unable to locate. Futile and expensive to pursue further with no hope of results.	$248.58
59-14 Glenn Simpson	Hand rail damage on Willamette Bridge. Unable to locate. Futile and expensive to pursue further with no hope of results.	$171.42
59-80 Galand Odell	Sign and blinker light damage. Unable to locate. Complete check with records of Motor Vehicle Dept. resulted in no help.	$101.60
58-74 Albert Carlson	Cyclone fence damage. Unable to locate.	$ 64.94

The Commission considered the matter of increasing limits of insurance covering its officers and employees to provide $200,000/$500,000 Bodily Injury Liability and $50,000 Property Damage Liability. The Chief Counsel pointed out briefly that the increased coverage could be obtained for an additional premium cost of $720.90 for the period from November 10, 1960 to September 11, 1961. In the discussion of this matter Chairman McIver requested the Chief Counsel to investigate the possibility of securing a policy with a deductible clause similar to the type of insurance provided for automobiles, in which the owner pays the first $50 or $100 in damages. The Commission approved the increased insurance as recommended by the Chief Counsel and authorized him to explore and if possible secure a deductible clause in the insurance coverage.

Consideration was given to a request made by the United States Department of Interior, Bureau of Land Management, for relinquishment to the United States a portion of a quarry site in Government Lot 3, Section 8, Township 4 North, Range 1 West, Willamette Meridian, along the Columbia River Highway near St. Helens. This parcel, the Chief Counsel stated, consists of an area outside of the ordinary right of way and is no longer needed for highway purposes. The property in question was originally deeded to the State by the Bureau of Land Management, and its return is in line with the Commission's usual procedure. Upon his favorable recommendation, the Commission approved transfer to the U.S. Government and authorized the Secretary to execute a relinquishment of grant form.

The Engineer reported that he had awarded a contract referred to him by the Commission to award when certain conditions had been fulfilled. These conditions have been satisfied and the following contract has been awarded:

(1) Grading and paving on the "Q" Street-Ferry Street Bridge Section of Coburg Road, Lane County. Bids received November 1, 1960. Contract awarded November 30, 1960 to Roy L. Houck Sons' Corporation, Salem, low bidder.

The Commission confirmed award of the contract.

The establishment of a temporary construction speed zone was reported by the Engineer. He explained that the temporary speed zones are placed in construction projects for the protection of the traveling public while construction is in process. The Commission confirmed the following temporary speed zone:

(1) 50 MPH on Pacific Highway from south of Halsey-Sweet Home Highway Interchange (M.P. 85.00) to south end of the two-way two-lane section (M.P. 92.28) and 60 MPH from McKenzie River (M.P. 104.11) to the "Q" Street southbound off ramp (M.P. 107.02), effective 10:00 a.m. November 10, 1960.

Authority was requested by the Engineer for increases in project authorizations on the following State Highway contracts:

(1) $30,916.56 on Contract 5165 for grading, paving and construction of two reinforced concrete interchange structures on the Tigard Interchange Unit, Harbor Drive-Washington County Line Section of the Pacific Highway in Multnomah County. The overrun in base material for detour and connecting roads, additional engineering costs resulting from the strikes of 1958, and additional signing and barricading required were the principal causes of the overrun the Engineer stated.

(2) $107,799.61 on Contract 5503 for structure, grading and paving the Washington County Line-Highlands Interchange Section of the Sunset Highway in Multnomah County. The Engineer reported extremely wet sub-grade, heavy detour maintenance, and additional traffic signalizations compose the major items of the increase.

(3) $1,600.00 on Contract 5554 for latrine building for the Beaver Marsh Rest Area on The Dalles-California Highway in Klamath County. The Engineer stated that the overrun is due to the installation of a heating system, involving increased plumbing costs, which was required by the State Board of Health.

The Commission approved the increased authorizations.

The Engineer reported that a survey for the reconstruction of the Cornelius Pass Road-Multnomah County Line Section of the Sunset Highway in Washington County is now completed. A public hearing was not required on this survey, and he recommended that the survey be approved. He also recommended that the project be financed by transferring $530,000, previously approved in Program V, from the Cornell Road Interchange and that this Interchange be constructed at a later date from future funds. The Commission approved the transfer of funds and the survey, and thereupon adopted a resolution, marked Exhibit "G", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

The Commission considered a proposed two-year (1963-64) Federal-aid highway construction program. The Engineer explained that allocations within the five divisions have been made in accord with the formula used in previous years. Careful consideration over a period of six months was given in formulating the program, funds for which will be available beginning July 1, 1961, and he recommended approval. The Commission also considered a five-year (1963-67) tentative program. The Engineer suggested that this program be used only as a long-range plan and a guide for selection of future construction projects. The Commission accepted the Engineer's suggestion concerning the five-year program and approved the following two-year construction program:

PROGRAM VII
1963-1964 FEDERAL AID PROGRAM
ALLOCATION OF FUNDS
A B C
REVISED December 6, 1960

DIVISION	URBAN	PRIMARY	STATE SECONDARY	COUNTY SECONDARY	TOTAL
I	$3,365,000	$ 3,495,000	$1,160,000	$1,650,000	$ 9,670,0

December 12, 1960

The Engineer presented for the Commission's consideration a proposed forest highway construction program for the fiscal year 1962, beginning July 1, 1961. The Commission deferred action until representatives of the U. S. Forest Service and U. S. Bureau of Public Roads are present. (See entry ahead.)

Attention was given to a cooperative construction agreement with the City of Grants Pass and Josephine County covering the construction of "F" Street (Grants Pass) Section of the Redwood Highway in Josephine County. The Engineer explained that this is an access connection from Grants Pass to the Freeway known as the East Grants Pass Interchange. The County has agreed to maintain and assume jurisdiction over the approaches which are to be constructed by the State. The Commission accepted the Engineer's recommendation that the agreement be approved.

The Commission discussed with the Engineer a request from Lake County Judge C. H. Langslet that the exchange of the Winnemucca to Adel road for the Adel to Plush section of the Warner State Secondary Highway be consummated at this time as outlined in a prior agreement. The Engineer stated that the County has not completed the grading from Blizzard Gap to the top of Doherty Slide as previously agreed. The portions which have been constructed are inaccessible until the State has completed the grading contract for the section from Blizzard Cap to Adel, which project is scheduled for award later today. After discussion the Commission deferred action on this request.

The Commission confirmed the appointment of R. L. Porter as Acting State Highway Engineer during the absence of the State Highway Engineer, the Deputy State Highway Engineer and the two Assistant State Highway Engineers.

The Engineer reported on bids received in Salem on December 9. Action was deferred until 11:00 a.m. (See entry ahead.)

Requests for increases in number of working days within which to complete State Highway contracts were presented by the Engineer. He outlined briefly the reasons for granting or denying the increases and made his recommendation for each request. The Commission took action on the requests for increase in number of workdays, as follows:

(1) Rich and Sons Nursery, Contract No. 5598, for roadside improvement on the Salem Bypass Section of the Pacific Highway, Marion County, requested an increase of 20 workdays in which to complete the contract without assessment of liquidated damages. The Commission denied the request.

(2) Porter W. Yett, Contract No. 5675, for paving Portland City Streets in Multnomah County requested an increase of 4 workdays in which to complete the contract without assessment of liquidated damages. The Commission denied the request.

(3) George E. Corliss, Contract No. 5731 for grading and topping the Langrell Corner-Halfway Section of the Lone Fir Road in Baker County requested an increase of 20 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved an increase of 14 workdays without assessment of liquidated damages.

(4) C. R. O'Neil, Contract No. 5670 for grading, paving and structures on the Juntura-Horseshoe Bend Section of the Central Oregon Highway in Malheur County requested an increase of 32 workdays in which to complete the contract without assessment of liquidated damages. The Commission denied the request.

(5) John L. Jersey, Contract No. 5725 for grading the 136th-181st Street Section of N. E. Glisan Street in Multnomah County requested an increase of 30 workdays in which to complete the contract without assessment of liquidated damages. The Commission approved an increase of 5 work days.

(6) Hannan Brothers, Contract No. 5614 for off-ramp construction on the Ferry Street Southbound Off-ramp on the Pacific Highway West, Eugene, in Lane County requested an increase of 19 workdays in which to complete the contract without assessment of liquidated damages. The Commission approved an increase of 11 workdays. A letter was presented from the U. S. Bureau of Public Roads concurring in the increase.

(7) Dorman Construction Company, Contract No. 5678 for paving on the Willow Creek-Jefferson County Line Section of the Warm Springs Highway in Jefferson County requested an increase of 5 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved the request.

The Engineer reported that Contract Nos. 5111, 5165, 5219, 5230, 5300, 5333, 5423, 5496, 5505, 5559, 5569, 5586, 5599, 5610, 5617, 5628, 5637, 5645, 5661, 5665, 5674, 5678, 5700, 5704, 5713, 5725, 5728, 5752, 5757, and 5799 for highway construction have been completed in accordance with the requirements of the contracts, or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of December 12 and 13, 1960".

Consideration was given to a request from the Klamath County Court that the State Highway Department plow snow on 3.5 miles of County roads, three miles of which are in the Crescent area and one-half mile near Chemult in Klamath County. The Engineer reported that this snow plowing can be undertaken without undo interference with

State work, and the Klamath County Court understands that State plowing would have first priority. The State is to be reimbursed for the actual cost of plowing these County roads. Upon the favorable recommendation of the Engineer the Commission approved the request.

Items of Unfinished Business appearing on the Secretary's Summary, dated November 4, 1960, were considered as follows:

(1) Proposed relocation of Cove Palisades State Park because of construction of the Round Butte Dam in Jefferson County: A report was made earlier in the day by the Parks Superintendent, and the Commission ordered the item deleted from the list of unfinished business.

(2) Request of delegation concerning the closure to vehicular traffic of a portion of the ocean beach from the south city limits of Cannon Beach to Silver Point in Clatsop County: The Engineer reported that since the last Commission meeting the State has discussed this matter with the City of Cannon Beach and the Clatsop County Court, and has received official communications from the City of Cannon Beach, Clatsop County, and the Planning Commission of Clatsop County, all opposing the removal of vehicular traffic from the beach. Numerous letters, telephone calls and petitions have been received from individuals and groups for and against the closure. Some have requested that a speed limit of not to exceed 15 miles per hour be established and enforced insofar as possible; and that signs be erected at all entrances stating that it is a recreational area and that overnight camping is prohibited. This matter has also been discussed with the State Police who have indicated that they would make periodical checks of the area and would make arrests when necessary. The Clatsop County Judge has stated verbally that the County would assign a full-time deputy on weekends to patrol the beach in an unmarked car to enforce a 15-mile-per-hour speed limit. Chairman McIver inquired if there is to be a public hearing concerning this matter. The Engineer explained that the public officials in the Cannon Beach area are not in favor of holding a hearing, as the local people do not wish the traffic removed. The Engineer suggested that the Commission establish on a trial basis a 15-mile-per-hour speed zone for a one-year period and install adequate signs. Chairman McIver inquired if such a recommendation is adopted would a precedent be set for the other beaches in the State and should it be applicable to all the beaches. The Engineer replied that he believed each area should be considered on an individual basis. After considerable discussion, the Commission deferred action pending appearance of a delegation on the following day. (See entry ahead.)

Recommendations for a number of reduced speed zones were presented by the Engineer. The State Speed Control Board, he stated, recently has taken action to establish certain reduced speed zones on state highways within cities, and in order to carry these zones to a logical conclusion, he recommended that the following reduced speed zones outside of the city limits be adopted:

(1) Wallowa Lake Highway in Wallowa County:

30 MPH between a point 0.11 mile northwest of the north city limits of Lostine (M.P. 54.50) and the north city limits of Lostine (M.P. 54.61).

45 MPH between the westerly east city limits of Lostine (M.P. 55.21) and the easterly east city limits of Lostine (M.P. 55.38) 1/

45 MPH between the easterly east city limits of Lostine (M.P. 55.38) and a point 0.12 mile east of the east city limits of Lostine (M.P. 55.50). (See Exhibit "B-1")

1/ Joint Oregon State Highway Commission and State Speed Control Board jurisdiction.

(2) Weston-Elgin Highway No. 330 in Union County:

30 MPH between a point 450 feet west of the west city limits of Elgin (M.P. 40.18) and the west city limits of Elgin (M.P. 40.27). (See Exhibit "B-2")

(3) Wallowa Lake Highway in Wallowa County:

40 MPH between a point 250 feet north of the northerly north city limits of Joseph (M.P. 71.01) and the northerly north city limits of Joseph (M.P. 71.07).

40 MPH between the northerly north city limits of Joseph (M.P. 71.07) and the southerly north city limits of Joseph (M.P. 71.10) 1/ (See Exhibit "B-3")

1/ City limits are coincident with the centerline of the highway.

(4) Wallowa Lake Highway in Wallowa County:

40 MPH between a point 0.18 mile northwest of the west city limits of Wallowa (M.P. 46.28) and the west city limits of Wallowa (M.P. 46.46).

40 MPH between the south city limits of Wallowa (M.P. 47.67) and a point 150 feet south of the south city limits of Wallowa (M.P. 47.70). (See Exhibit "B-4")

(5) Wallowa Lake Highway in Union County:

35 MPH between the east city limits of Elgin (M.P. 20.60) and a point 0.15 mile east of the east city limits of Elgin (M.P. 20.75). (See Exhibit "B-5")

(6) Joseph-Wallowa Lake Highway, No. 351, in Wallowa County:

35 MPH between the south city limits of Joseph (M.P. 0.84) and a point 0.10 mile south of the south city limits of Joseph (M.P. 0.94). (See Exhibit "B-6")

The Commission approved the speed zones as presented and thereupon adopted resolutions relative thereto, marked Exhibit "B-1" through "B-6" which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

The Engineer recalled that the Commission on July 7, 1960 had adopted a 50 MPH speed zone on the Halsey-Sweet Home Highway, No. 212, from the east city limits of Halsey to the Pacific Freeway Section. The purpose of this speed zone was to control traffic on the Halsey-Sweet Home Highway during the period when Pacific Highway traffic was being routed over it. The Pacific Freeway Section has now been completed, and as there is no longer a need for the reduced speed zone, he recommended that it be rescinded. The Commission accepted his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-7" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

Attention was given to a request from the Washington State Highway Department for a study of speed zones on the Oregon side of the Interstate Bridge across the Columbia River, Portland, in order to co-ordinate with speed zones on the Washington side of the river. The Engineer stated that the existing reduced speed zones had been restudied, and in view of the facts disclosed in the study, he recommended that Speed Zone Resolution No. 45, adopted by the Commission on September 28, 1950, be rescinded and that the following speed zones be established:

<u>On Denver Ave., US 99, Northbound</u>

35 MPH between the southerly split point of the Union-Denver Avenue Interchange (New M.P. X6.00, Old M.P. X6.10) and the Toll Plaza (M.P. X6.71 New).

45 MPH between the Toll Plaza (New M.P. X6.71) and the Oregon-Washington State Line, on the Interstate Bridge (M.P. X7.17 New).

On Denver Ave., US 99, Southbound

45 MPH between the Oregon-Washington State Line (New M.P. X7.17) and a point 0.23 mile north of the Toll Plaza, on the Interstate Bridge (New M.P. X6.94).

35 MPH between a point 0.23 mile north of the Toll Plaza, on the Interstate Bridge (New M.P. X6.94) and the Toll Plaza (New M.P. X6.71).

45 MPH between the Toll Plaza (New M.P. X6.71) and the southerly split point of the Union-Denver Avenue Interchange (New M.P. X6.00, Old M.P. X6.10).

The Commission approved the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-8" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

The Engineer reported that the section of the Pacific Highway between Myrtle Creek and Canyonville in Douglas County is now constructed to interstate freeway standards, and to conform with Commission policy he recommended that a 70 MPH speed zone be established on the Pacific Highway between a point 500 feet south of the northbound off-ramp at the Myrtle Creek Interchange (M.P. 210.40) and the north city limits of Canyonville (M.P. 219.21). The Commission accepted his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-9" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

Attention was given to a request made by Mr. Victor Atiyeh, State Representative, and Mrs. Sherman Pedersen of the Broadmoor Women's Club, for a speed zone investigation on the Beaverton-Hillsdale Highway between Beaverton and Portland. The Engineer stated that an investigation had been made, and based on the facts disclosed he recommended that a previous speed zone, No. 246-a, adopted by the Commission on May 8, 1958, be rescinded and the following speed zones be established on the Beaverton-Hillsdale Highway in Washington and Multnomah Counties:

40 MPH between the east city limits of Beaverton (M.P. 1.61) and a point 250 feet west of S. W. Laurelwood Drive (M.P. 2.51, S. W. 82nd Avenue) 1/

35 MPH between a point 250 feet west of S. W. Laurelwood Drive (M.P. 2.51, S. W. 82nd Avenue) and a point 0.11 mile west of Multnomah County Line (M.P. 3.30) 2/

45 MPH between a point 0.11 mile west of Multnomah County Line (M.P. 3.30) and the west city limits of Portland (M.P. 4.97).

1/ Except that between a point 0.11 mile west of S. W. 91st Avenue (M.P. 1.96) and a point 0.12 mile east of S. W. 91st Avenue (M.P. 2.19) the indicated speed shall be 20 MPH during the hours of school crossings as per the provisions of subsection 1.a., of ORS 483.104.

2/ Except that between a point 500 feet west of S. W. 78th Avenue (M.P. 2.65) and a point 500 feet east of S. W. 78th Avenue (M.P. 2.85) the indicated speed shall be 20 MPH during the hours of school crossings as per the provisions of subsection 1.a., of ORS 483.104.

The Commission approved the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-10" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

Completion of the Redwood Highway Interchange south of Grants Pass, the Engineer stated, has changed the traffic patterns or the Williams Highway, No. 261, so that a change is needed in the existing speed zones. A Traffic Engineering investigation has been made, and based on the facts disclosed in this study, he recommended that Speed Zone Resolution No. 186, enacted April 14, 1955, be rescinded and the following speed zones be established on the Williams Highway:

35 MPH on the northbound on-ramp to the Redwood Highway from the Redwood Highway (Proposed M.P. 0.00N) to a point 100 feet north of Union Avenue (Proposed M.P. 0.25N).

35 MPH between the Redwood Highway (M.P. 0.00) and a point 0.30 mile south of the Redwood Highway (M.P. 0.30).

45 MPH between a point 0.30 mile south of the Redwood Highway (M.P. 0.30) and a point 0.14 mile north of Allen Creek (M.P. 2.30) 1/

1/ Except that between a point 500 feet north of Harbeck Road (M.P. 0.79) and a point 500 feet south of Harbeck Road (M.P. 0.99) the indicated speed shall be 20 MPH during the hours of school crossings, as per the provisions of subsection 1.a., of ORS 483.104.

The Commission approved the recommendation and thereupon adopted a resolution relative thereto marked Exhibit "B-11" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

In connection with completion of the Interchange between the Pacific Highway, Redwood Highway and the Williams Highway, south of Grants Pass, the Engineer stated that traffic patterns on the Redwood Highway have also been changed so that a change is required in speed zoning for this section of the Redwood Highway. From the facts disclosed by an engineering investigation, he recommended that Speed Zone Resolution No. 100-a, adopted July 31, 1958, be rescinded and that the following speed zones be established on the Redwood Highway at and near the Interchange:

30 MPH between the southbound junction of the Pacific Highway (US 99) at the intersection of Lewis Avenue and South Sixth Street (Old M.P. 0.00 - Proposed M.P. 0.01) to a point 350 feet west of the junction of the Williams Highway, ORE 238, (M.P. 0.29).

45 MPH between a point 350 feet west of the junction of the Williams Highway, ORE 238, (M.P. 0.29) and a point 250 feet west of Hubbard Lane (M.P. 3.06) 1/

30 MPH on the connection between the Williams Highway, ORE 238, and the one-way southbound leg of the Pacific Highway (US 99).

35 MPH on the northbound on-ramp to the Pacific Highway (US 99) from a point 0.20 mile west of the Williams Highway (ORE 238), (Old M.P. 0.35 - Proposed M.P. 0.35N) to the northbound junction of the Pacific Highway, 50 feet south of East Park Street (Proposed M.P. X0.07N).

1/ Except that between a point 50 feet west of Annabelle Lane (M.P. 1.92) and a point 500 feet west of Leonard and Dowell Roads (M.P. 2.12) the indicated speed shall be 20 MPH during the hours of school crossings as per the provisions of subsection 1.a., of ORS 483.104.

The Commission approved the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-12" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

Authority for out-of-State travel for three State Highway employees was requested by the Engineer, and approved by the Commission as follows:

(1) Oscar A. White, Assistant Materials Engineer, to attend meeting of the Highway Research Board in Washington, D. C. in January, 1961. Expenses are to be paid by the Research Board.

(2) J. Al Head, Assistant Traffic Engineer to attend meeting of Highway Research Board, Washington, D. C., January 1961. Expenses to be paid by Highway Research Board.

J. Al Head to attend Board meeting of Institute of Traffic Engineers in Washington, D. C. for two days, immediately following the Highway Research Board meeting, at an estimated cost of $40.

(3) Frank I. Towle, Engineering Investigator, Legal Division, to Los Angeles, California, and Spokane, Washington, December 12-23, 1960, at an estimated cost of $241. Purpose of the trip is to interview experts regarding use of noise recording instruments.

Disposition of a state-owned Bailey Bridge used by pedestrians over Harbor Drive in Portland was brought up by the Engineer. He recalled that just prior to the Portland Rose Festival, in June 1960, the Commission had approved the use of the Bailey Bridge for pedestrian use. Later, a request from the City to purchase the bridge had been denied. The City has now requested that the bridge be left in place until such time as it is needed by the State. An agreement covering this arrangement has been prepared, the Engineer stated, and he recommended that it be approved. The Commission approved the agreement.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period from October 31 through December 5, 1960.

The date for the next Commission meeting was set for January 27, 1961, a one-day meeting on a trial basis, with delegations to be heard in the afternoon. A tentative date for the following meeting was set up for March 9 and/or 10, 1961.

Commissioner Jackson stated that he would attend the opening of bids in Salem on January 24, 1961.

The Commission discussed with the Engineer bids received on December 9, and at 11:00 a.m. award of contracts was made as follows:

BIDS RECEIVED IN SALEM ON DECEMBER 9, 1960

"Encina and Alder Creek Road Overcrossings on the Baker-Pleasant Valley Section of the Old Oregon Trail Highway in Baker County. The Commission elected to accept the low bid of Morrison-Knudsen Co., Inc., Boise, Idaho, in the sum of $255,428 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Pleasant Valley Overcrossing of U.P.R.R. on Baker-Pleasant Valley Section of the Old Oregon Trail Highway in Baker County. The Commission elected to accept the low bid of Morrison-Knudsen Co., Inc., Boise, Idaho, in the sum of $443,856 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading, oiling and structures on the Sugarloaf Mountain-King Creek Section of the Coos Bay-Roseburg Highway in Coos County. The Commission awarded the contract to the low bidder, White Bros. Construction Co., Inc., Walla Walla, Washington, at $1,051,420.

"Grading and paving on the E. Revere Ave.-E. Franklin Ave. (Bend Section) of The Dalles-California Highway in Deschutes County. The Commission elected to accept the low bid of Babler Bros., Inc., Portland, in the sum of $170,968 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Bend is received and the sum of $49,170 is deposited by the City.

"Grading, paving and signing on the Rice Hill-North Oakland Junction Section of the Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, Roy L. Houck Sons Corp., Salem, at $1,581,649.35.

"Construction of median barrier on the Garden Valley Road-Fairgrounds (Roseburg) Section of Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, J. C. Denton and Sons, Portland, at $52,612.

"Grading and paving on the Douglas Avenue-South City Limits (Roseburg) Section of the Oakland-Shady Highway, Southbound (Pine Street) in Roseburg, in Douglas County. The Commission awarded the contract to the low bidder, Robert Angell, Eastside, at $80,920.99.

"Reedsport Traffic Signals on the Oregon Coast Highway at 19th Street in Douglas County. The Commission awarded the contract to the low bidder, Steeck Electric Co., Medford, at $5,990.

"South Rice Hill Undercrossing at South Rice Hill Interchange on the Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, Sig Andersson, Coos Bay, at $63,560.

"Grading, paving, structures and signing on the Multnomah County Line-East Cascade Locks Section of the Columbia River Highway in Hood River County. The Commission elected to accept the low bid of Vernie Jarl, Gresham, in the sum of $1,363,736 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Medford Traffic Signals on the Pacific Highway at 10th Street in Medford, Jackson County. The Commission awarded the contract to the low bidder, Trowbridge and Flynn Electric Co., Medford, at $7,480.

"Grading and structures on the Phoenix Siphon Section of the Pacific Highway in Jackson County. The Commission elected to accept the low bid of R. A. Heintz Construction Co., Portland, in the sum of $89,844 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving on the Applegate River-Grants Pass Section of the Redwood Highway in Josephine County. The Commission awarded the contract to the low bidder, Roy L. Houck Sons' Corporation, Salem, at $839,848.

"Grading and structures on the West Unit, Adel-Blizzard Gap Section of the Adel-Nevada State Line Road in Lake County. The Commission awarded the contract to the low bidder, Stanley Wilt, Corvallis, at $212,379.50.

"Eugene Traffic Signals on the Pacific Highway at Monroe Street and Washington Street in Lane County. The Commission awarded the contract to the low bidder, L. H. Morris Electric Co., Eugene, at $10,983.

"Glenn Street Bridge over Malheur River on Malheur River Bridge (Vale) Section in Malheur County. The Commission elected to accept the low bid of Morrison Knudsen Co., Inc., Boise, Idaho, in the sum of $89,116 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Malheur County is received and the sum of $20,100 is deposited by the County.

"East Portland Office Building remodelling, on N. E. Glisan Street at N. E. 58th Avenue in Portland in Multnomah County. The Commission awarded the contract to the low bidder, Mason and Brenner, Inc., Portland, at $68,539.

"Grading, paving and traffic signals on the S. E. 9th Street-S. W. 4th Street (Pendleton) Section of the Pendleton-John Day (northbound) Highway in Umatilla County. This project was withdrawn from the letting.

"Grading, paving and structure on the Rhinehart-Elgin Section of the Wallowa Lake Highway in Union County. The Commission elected to accept the low bid of White Bros. Construction Co., Inc., Walla Walla, Washington, in the sum of $547,886.50 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Mayer State Park Shelter Latrine and Facilities on the Columbia River Highway in Wasco County. The Commission awarded the contract to the low bidder, Harley E. Lowe and Rolla A. Bryant, Medford, at $18,974.

"Grade widening on Elk Creek-Robbers Roost Section of Crater Lake Highway in Jackson County. The Commission awarded the contract to the low bidder, Roy Norquist, Sweet Home, at $29,225."

Mr. Norman B. Wood, Federal Projects Engineer of the U. S. Bureau of Public Roads, and Mr. R. F. Grefe, Assistant Regional Forester of the U. S. Forest Service, were present concerning revisions in the forest highway program covering allocation of 1962 fiscal year forest funds. They requested an increase from $775,000 to $800,000 on Project 3-2 (1), Otis Junction Section of the Oregon Coast Highway, and a reduction of $25,000 in the amount of reserve. In formulating this program, Mr. Wood stated that he wished the record to show that it was intended to continue in the 1963 program a project on the Cascade Lakes Highway in Klamath and Deschutes Counties, such project preferably to start on the south end from the Willamette Highway. The Engineer recommended that the forest highway program be approved as revised. The Commission approved the revised program as follows:

OREGON FOREST HIGHWAY PROGRAM
FOR FISCAL YEAR 1962
(Beginning 7-1-61)

Unprogramed Balance available from previous fiscal years	00
F. Y. 1962 apportionment	$4,351,532
Less FY-1962 funds obligated by administrative action	- 49,532
Funds available for programing (lapsing)	$4,302,000

Route & Project No.	Route Name & Section	Type	Length (Miles)	Forest Highway Funds
WITHDRAW THE FOLLOWING PROJECT:				
FH 3-A5	Oregon Coast Hwy. Main Line 1.7 mi. interchange ramps and 0.8 mi. service roads	Grade-Base-Bit. Paving, Bridge & Overcrossing	1.0	$ +775,000
				$5,077,000
SUBSTITUTE THE FOLLOWING PROJECT:				
3-2(1)	Oregon Coast Hwy. Otis Junction Section Main Line 1.6 mi., Overcrossing ramps 1.4 mi., Service roads 0.8 mi.	Grade-Base, Bit. Paving, Bridges, Overcrossing & Service Roads	1.6	$ 800,000
				$4,277,000

December 12, 1960

(Cont.)

Route & Project No.	Route Name & Section	Type	Length (Miles)	Forest Highway Funds
				$4,277,000(Cont.)
Lump Fund Survey & Design				- 150,000
Reserve for possible overruns				- 127,000
	Total available for new Construction Projects			$4,000,000
3-2(2)	Oregon Coast Hwy. Neskowin-Southward	Base & Aggregate Production	6.4	$ 450,000
22-1(1)	McKenzie Pass Hwy. Blue River to Mill Creek	Grading-Struct. Base	5.0	$ 500,000
43-2(1)	Diamond Lake Hwy. Cascade Lakes Hwy. Jct. to US 97 Jct.	Grade-Base-Bit. Pavement	14.8	$ 650,000
47-2(1)	North Umpqua Hwy. Clearwater-Briggs Camp	Grade & Structures	7.1	$ 375,000*
	*(Douglas County cooperative funds in equal amount per letter 11-9-60 assured to finance the $750,000 estimate for this project.)			
47-1(1) PC	North Umpqua Hwy. Hog Back Slide Section	Post Construction Slide correction	0.5	$ 15,000*
	*(Douglas County cooperative funds in equal amount assured per letter 11-9-60.)			
49-1(1)	Mt. Hood Loop Hwy. (Polallie Cr.-Southward)	Grade-Base	4.0	$ 400,000
51-1(1)	Belknap Springs Hwy. Entire Route	Base & Bit. Paving	20.8	$ 700,000
52-1(1) PC	Ukiah-Starkey Hwy. Post Construction on easterly end of Route	Additional Base & Surface Repairs	2.8	$ 100,000
53-1(1)	Lake of the Woods Hwy. West Forest Boundary to Lake of Woods Jct.	Base & Bit. Surf.	16.3	$ 810,000
				$4,000,000

December 12, 1960

Attention was given to a revised agreement with the City of Medford, superseding agreements dated January 16, 1958 and August 18, 1960, concerning construction of the Medford Unit of the Seven Oaks-Ashland Section of the Pacific Highway, Jackson County. The revised agreement, the Engineer stated, has removed undesirable features previously objected to, and the agreement has been signed by City of Medford officials. Upon his favorable recommendation, the Commission approved the revised agreement.

The Commission considered a request made by the Pacific Telephone and Telegraph Company to install a public telephone booth on the northeast corner of the State Highway Division Office parking lot in Roseburg. The Engineer stated that investigation indicates there is considerable need for a telephone in this area for use of the public while making application for permits. The phone booth will not interfere with the use of State property, and as it will be of benefit to the public, he recommended that the request be approved. The Commission approved the request.

Consideration was given to "Memorandum of Understanding" with the U. S. Bureau of Land Management for use of a site on Vale Butte near Vale, Oregon, in Malheur County, on which to erect a radio installation. The prepared agreement, the Engineer stated, has been checked and found satisfactory, and he recommended that it be approved. The Commission accepted his recommendation.

An agreement with the California Pacific Utilities Company for furnishing electric power at a new truck scale on the Old Oregon Trail west of LaGrande in Union County was presented by the Engineer. He pointed out briefly that the agreement requires an annual payment of $236.89. This amount is reasonable as past records indicate that the annual cost for electric power at the old scales near LaGrande amounted to approximately $300. The new agreement would be for a five-year period, beginning December 12, 1960, and he recommended that it be approved. The Commission approved the agreement.

A street assessment from the City of Forest Grove for improvement of Filbert and Hawthorne Streets in the amount of $1,498.64 was presented by the Engineer. He explained briefly that a portion of the improvement is adjacent to highway maintenance property in the City and that investigation discloses that it is a proper assessment. Upon his favorable recommendation the Commission approved payment of the assessment.

The Commission also considered a street assessment made by the City of Newport in the amount of $1,292 for improvement of Warren and Adams Streets adjacent to highway maintenance property. The Engineer stated that an investigation indicates that it is a proper assessment, and he recommended it be paid. The Commission approved the payment.

Attention was given to a form of agreement with Medford Corporation regarding a change in the Corporation's railroad facilities required by construction of the Seven Oaks-Jackson Street Section of the Pacific Highway in Jackson County. The Engineer explained briefly that it is necessary to convert the railroad facility into a truck road to clear the site for the Crater Lake Interchange. Following his favorable recommendation the Commission approved the agreement.

At the request of the City of Eastside, the Engineer stated, an investigation had been made on the Coos River Secondary Highway, No. 241, in Coos County concerning a revision of the stop signs at the intersection of Sixth and "D" Streets in Eastside. The Engineer explained that the Coos River Highway at this point has a right-angle turn in its alignment and because of restricted sight distance, traffic on the highway should be stopped before entering the intersection from the east, thus establishing a three-way stop as stop signs are already erected for traffic entering from the north and the west. The Commission approved his recommendation that the resolution of September 21, 1949 be so amended, provided that the City of Eastside will adopt an ordinance requiring traffic to stop as outlined, and thereupon adopted a resolution relative thereto, marked Exhibit "H", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of December 12 and 13, 1960".

Two abandonment resolutions were presented by the Engineer covering disposal of old sections of state highways which have been replaced by newly completed sections. He explained that the resolutions have been preceded by agreements with the respective County Courts and that the resolutions are final actions by the Commission putting into effect the provisions of the agreements. The Commission approved the abandonment resolutions, marked Exhibits "E-1" and "E-2", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960", and summarized as follows:

(1) Corvallis Section of Corvallis-Newport Highway, Benton County to Benton County (See Exhibit "E-1").

(2) Camp Adair-Lewisburg Section of Pacific Highway West, Benton County to Benton County (See Exhibit "E-2").

The Commission considered an abandonment agreement with Umatilla County, City of Athena, and City of Weston concerning abandonment of portions of the Athena-Blue Mountain Station Section of the Oregon-Washington Highway, No. 8, when construction of the new section has been completed and open to public travel. The Engineer pointed out that the agreement provides for an extension of the Athena-Holdman Highway, No. 334, easterly to a junction with the relocated Oregon-Washington Highway, east of Athena. Also the

Weston-Elgin Highway, No. 330, is to be extended from its present terminus northeast of the City of Weston southwesterly and northerly to a junction with the relocated highway. The agreement also provides for extending the Sunnyside-Umapine Highway No. 332, from its present terminus at Sunnyside easterly to a junction with the Oregon-Washington Highway north of Milton-Freewater. Upon his favorable recommendation the Commission approved the agreement.

Direct sale to Grant County of the salvage steel from the old bridge over the John Day River on the Wasco-Heppner Highway was considered. The Engineer commented briefly that the bridge is to be replaced under contract. The old bridge is too narrow to be re-used on a state highway but would be adequate for minor county roads. Sherman and Gilliam, the adjoining Counties, have stated that they do not want the old span, but Grant County has stated it would like to purchase the bridge at the usual price of 5 cents per pound, which will amount to $5,400. The Commission approved the sale to Grant County.

The Engineer stated that requests have been received to allow 60-foot truck-trailer combinations to use the ferry M. R. Chessman at Astoria. Test runs, he stated, have indicated that this is feasible, and he recommended that these truck-trailer combinations be allowed to use the ferry for a charge of $5 per trip. The Commission accepted his recommendation.

An agreement with the City of Bend concerning abandonment of a portion of The Dalles-California Highway in Bend was presented by the Engineer. He outlined briefly that bids were received on December 9 for construction of the East Revere Avenue-East Franklin Avenue Section along Third Street in the City of Bend. When this project is completed the City has agreed to take back as a city street the old route of The Dalles-California Highway from Revere Avenue to Greenwood Street. The City has also agreed to take back the remainder of the existing route when the northerly portion of the new section is constructed and open to public travel. The agreement, he stated, also provides for extending the Century Drive Secondary Highway to East Third Street and for an extension of the Central Oregon Highway from Greenwood Street to Franklin Avenue when new construction is completed. The Commission approved the agreement.

The Engineer also presented an agreement with Linn County concerning an exchange of county roads and state secondary highways. He stated that the County has for some time urged the State to take over the Orleans-Lebanon County road as a state secondary highway. In exchange the County has agreed to take over that portion of the Corvallis-Eastside Secondary Highway, No. 210, from Orleans easterly to a junction with the Pacific Highway in Albany. Also, the County

has agreed to take over as a county road the existing Mehama-Mill City Secondary Highway, No. 213. In the proposed exchange the State is to put in adequate condition the sections of highways being turned back to the County, which includes the rebuilding of a bridge over the Calapooya River on the present Corvallis-Eastside Highway, the replacement of temporary approaches on the south end of the Mill City bridge over the North Santiam River, and patching and reoiling on the Mehama-Mill City Highway. He estimated the total cost of these items at $75,000, and recommended that the agreement be approved. The Commission approved the agreement.

The Commission discussed with the Engineer matters to be presented by delegations on the following day, but no action was taken at this time pending the appearance of the delegations.

The Chief Counsel requested authorization to institute suit against C. J. Bean and L. M. Dent for expenses and damages in the amount of $122.29. He explained briefly that Mr. Bean and Mr. Dent were towing, without permit, a vehicle on which was located a house, on the Klamath Falls-Lakeview Highway. A breakdown occurred, and it was necessary to detour traffic over a private driveway which was damaged in the amount of $122.29. The driveway was repaired by the State and Messrs. Bean and Dent have refused to pay for the damage. The Commission authorized legal proceedings.

Damages in the amount of $462.72 to the handrail on a bridge on the Clackamas Secondary Highway in Clackamas County was reported by the Chief Counsel. The damage was caused by a truck owned by the Clackamas River Sand & Gravel Company. An offer to settle the claim for half of the amount of damages has been received, and he recommended that the offer be accepted as there were no witnesses to the accident, and it would be a difficult case to try in court. The Commission approved the settlement as proposed.

The Commission signed agreements and other papers.

The meeting was adjourned at 11:40 a.m. to be reconvened at 10:00 a.m. on the following day.

Salem, Oregon
December 13, 1960

The Oregon State Highway Commission reconvened at 10:00 a.m. in Room 419, State Highway Building, Salem. The following persons were present:

K. N. Fridley, Acting Chairman
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
Walter T. Wright, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
Gene Huntley, Director of Personnel and Public Relations
Floyd Query, Secretary

Chairman M. K. McIver and Carl Jordan, Director of Travel Information Division, were excused from attending the meeting.

A delegation from Albany appeared before the Commission regarding the construction of a parallel bridge across the Willamette River at Albany to serve traffic on the Albany-Corvallis Highway (US 20). Mr. E. B. Bennett, President of the Albany Chamber of Commerce, was spokesman for the group and introduced the following members of his delegation: W. B. Bowman, City Manager; Melvin Good, Attorney; W. L. Fitzpatrick, Mayor; Glenn Chaffin, Manager of the Chamber of Commerce; and Richard Dalke, Acting City Engineer. Mr. Bowman displayed an aerial photo showing the present bridge at Ellsworth Street, and pointed out the one-way couplet -- Ellsworth Street (US 20 southbound) and Lyon Street (US 20 northbound). Because of the turning movements there have been many traffic accidents at the intersection of First Avenue and Lyon Street, and these turning movements have also caused pedestrians difficulty in crossing the intersections of First Avenue and Lyon Street and First Avenue and Ellsworth Street. Due to this hazardous condition, he continued, the city parking lot, which is located between Ellsworth and Lyon Streets, is not being used to its fullest capacity. He urged the Commission to construct a second bridge to serve this route. Mr. Good, who is President of the Cloverdale Farms, Inc., stated that his company owns property immediately across the river from Albany and he voiced concern over the possibility of a bridge being constructed at a location which would interfere with the development of their property. He suggested that advance planning and engineering studies be made outlining the bridge location and its approaches. He told of the residential and shopping center being developed in this area and pointed out the heavy volume of

traffic using the bridge, particularly when sports events are held at Oregon State College. At the request of Acting Chairman Fridley, the Engineer stated that although there is considerable merit in Mr. Good's suggestion for advance planning, the right of way could not be protected unless the State is in position to purchase it. The State at the present time, he continued, has no funds for advance purchase of right of way and furthermore no funds are available for the bridge construction within the foreseeable future. It is possible, however, to do some advance planning on the ultimate location. Mr. Good pointed out that since his company owns the property on which the bridge would be constructed, there would be no price speculation. Mr. Bowman interjected that the City of Albany will be glad to do all it can to help the State secure the necessary right of way when the State is in position to purchase it. Acting Chairman Fridley thanked the delegation for their presentation and advised them to keep in touch with the Engineer.

Mr. David H. Greenberg, Attorney, Portland, appeared before the Commission concerning the removal of all vehicular traffic from Cannon Beach and especially from the area north of Haystack Rock. Mr. Greenberg, who is a property owner at Cannon Beach, spoke for himself and for nine other property owners at Cannon Beach. People walking along the beach, he pointed out, cannot hear automobiles approaching from the rear until these vehicles are almost on top of them. These vehicles he added are endangering the lives of children who are playing in the surf as many drivers race their cars or sight-see and do not look where they are driving. He questioned the necessity for automobiles to drive on the beach. He read an editorial from a Portland newspaper endorsing the prohibition of vehicles on the beaches. The beach, he continued, is a recreational area for children and adults who desire to relax and play in the sand and should not be used as a highway; therefore, he believed that parking space should be provided outside of the beach area for these automobiles. It was his contention that if remedial action is not taken soon this traffic problem will grow worse, eventually lead to disaster and adversely affect visitations to the beaches. The Chief Counsel pointed out that the Oregon statutes declare the beach to be a public highway. In response to Acting Chairman Fridley's inquiry as to Mr. Greenberg's reaction to a 15 mile-per-hour restricted speed zone, Mr. Greenberg stated that he did not believe it would help as there is no enforcement of the present 25 mile speed zone. Commissioner Jackson commented that there are two definite differences of opinion as to the solution of this problem. A previous delegation, as well as Mr. Greenberg, he continued, has pointed out that the high speed of automobiles along this beach represents a major portion of the problem; therefore, if a speed of 10 or 15 miles was set and enforced by the County and the State it seems that the hazardous element would be eliminated. It was Mr. Greenberg's opinion that the restricted speed zone would not solve the problem because children do not look where they are running when playing on the beach and the hazard would still exist. At the request of Acting Chairman Fridley, the Engineer stated that the Commission has received letters from the City Council of Cannon

Beach and the Clatsop County Court, as well as petitions signed by many people, opposing the closure of any portion of this beach to vehicular traffic and recommending enforcement of a 15 mile-per-hour speed zone. Acting Chairman Fridley advised Mr. Greenberg that the Commission has had this problem under study for several months, but because of the conflicting points of view it appears that additional consideration and investigation is in order to provide a satisfactory decision.

Tillamook County Judge O. E. Effenberger, Tillamook, headed a delegation from the County Court Unit of the Oregon Coast Association, that appeared before the Commission regarding improvement of the Oregon Coast Highway, particularly in Tillamook County. He introduced the following members of his group: Hold Tilden and Clay Myers, Tillamook County Commissioners; Earl K. Sweet, Chamber of Commerce Highway Committee; John Gorman, "Headlight Herald", Fred Guyton, Broadcasting Company and Highway Committee of the Chamber of Commerce; T. H. Bailey, Mayor; J. S. Livingston, President of Tillamook County Chamber of Commerce; and George E. Hodges, Mayor of Rockaway, all from Tillamook; Kenneth Thompson, Curry County Commissioner, Gold Beach; L. O. Shermer, President of the Chamber of Commerce, Pacific City; Herbert W. Hutton, Mayor, Manzanita; and Vern Ayers, Manager of the Oregon Coast Association, Newport. Judge Effenberger pointed out that Tillamook County has not had a construction project on US 101 in nearly 10 years. He inquired as to the status of the Bay City-Garibaldi project on US 101. Mr. Ayers pointed out that the Oregon Coast Highway is the third most traveled highway in Oregon, being surpassed only by US 30 and US 99, and he did not believe this highway is getting its share of the funds. Fifty percent of all tourist traffic, he added, is from California, and 27 percent from Washington and British Columbia, but because of the bottleneck on US 101 in Tillamook County most of these tourists avoid that area. US 101, he continued, is vital to the economy of the Coast since industry is entirely dependent upon this highway as there are no railroads. He pointed out that due to the obsolete ferry system at Astoria, the Coast area is losing thousands of dollars each year. He expressed the belief that the Merle Chessman, which is the best ferry in use, is not up to standard, and that it will be necessary to place an additional ferry in service to properly accommodate the people desiring to use it. In answer to a question from Mr. Ayers, the Engineer stated that the money allocated to the Cascade Head project will open it to traffic even though the final pavement will be delayed until the road has settled. The Engineer pointed out that the statement which was made regarding the expenditure of $400,000,000 on Oregon highways within the past five years may be misleading since only $211,000,000 was spent on construction, and the remainder included expenditures for maintenance, rights of way, bond payments and other expenditures. In answer to Judge Effenberger's request for a survey between Neskowin and Oretown, the Engineer advised that this survey is almost complete and that $45,000 has been allocated for the purchase of rights of way from Neskowin north as soon as the survey is completed. The Engineer pointed out that the survey of the Bay City-Garibaldi Section is also nearly complete and money has been allotted for this project with construction planned to start in

May. Mr. Thompson thanked the Commission for the work that has been done in Curry County. It was his intention, he continued, to seek information regarding the scheduling of the 3.2 mile section of US 101 at Myers Creek, but he has since learned that this project will be contracted within the next two years. Mr. Livingston thanked the Commission for the consideration given to US 101 in the program adopted at yesterday's meeting. Tillamook County, he stated, cannot depend solely on dairy, timber and its related industries but must also look to the tourist trade. He offered the assistance of his organization in acquiring necessary rights of way for projects in this area. Judge Effenberger concluded by stating their desire to see some work started on the Boyer Cutoff (which is a connection between the Three Rivers Highway and the Salmon River Highway). Acting Chairman Fridley suggested that the delegation confer with the engineering staff to familiarize themselves with the Commission's new program and the budgetary problems involved. Regarding the allocation of available funds, he continued, the Commission feels that it is distributing these funds in a fair and equitable manner throughout the State; however, if members of the delegation have any suggestions regarding the distribution formula, they should discuss them with the engineering staff. The needs for highways in the State of Oregon, he added, is in excess of $500,000,000 while there is available for programming only $21,300,000. He thanked the group for apprising the Commission of their problems and told them that the Commission appreciates being advised of the project priorities in their area.

A delegation from the Eastside Commercial Club, Portland, appeared before the Commission regarding egress from the East Bank Freeway in Portland. Mr. Jack H. Burns, Chairman of the Highway Committee of this Club, was spokesman and introduced the following members of his group: K. F. Schumann, John Deere Company; J. R. Brewer and E. A. Tibbits, Sears & Roebuck; John I. Sell, First National Bank; Earl Bolliger, President of Commercial Club and representing Weatherly Building interest; Ernest Schmitz, U. S. National Bank; and Mel Gordon, Standard Battery Manufacturing Company, all from Portland. Mr. Burns displayed an aerial photo of the proposed East Bank Freeway and used it during his presentation to locate the areas he spoke about. He also displayed a plan of the new Marquam Bridge approaches. It is their contention, he stated, that the proper northbound egress from the East Bank Freeway between the Marquam and Burnside bridges should be near the Morrison Bridge area, probably under the bridge, or at Taylor or Yamhill Streets. Without the requested egress he felt that a major bottleneck will be created which will cause grave damage to the second largest business district in the Portland area - - the Central Eastside area. He presented the following information in support of his request: (1) Changes made since the public hearing in Portland in 1957 on the East Bank Freeway, including a more northerly location for the Marquam Bridge; (2) There are no northbound outlets from the freeway for a distance of 42 blocks or 2¼ miles through the largest business district served by any of the freeways in the Portland area; (3) Since this area is the immediate terminal for much of

Portland interstate and intrastate commerce, hundreds of trucks each day come into this area from the south. The two routes which these trucks will have to use to arrive at their final destination is either S. E. 8th Street off-ramp from Marquam Bridge or Harbor Drive via Clay Street ramp, Front Street and Hawthorne or Morrison Street Bridges. Each of these routes, he pointed out, is extremely hazardous for truck traffic; (4) It is vitally necessary for civilian defense purposes to have this egress; (5) The egress now being planned is not sufficient to serve the freeway passenger traffic that will be destined for the businesses and offices in the area; (6) Property values in the affected area will be substantially depressed by resulting isolation because of the lack of proper egress; and (7) When the Mt. Hood Freeway is tied into the East Bank Freeway the Central Eastside will be cut off completely from the southeast because traffic will have no egress. He read a letter from the Oregon Trucking Association concurring in the request for a northbound exit. At the request of Acting Chairman Fridley, the Engineer explained that the cost of the exit does not enter into the picture, but it is a design problem because any off-ramp in that area would have to cross at grade a number of railroad tracks where trains are continually moving; furthermore, such a ramp would not meet interstate standards required by the Bureau of Public Roads. Regarding the use of 7th and 8th Streets, the Engineer pointed out that the State originally planned to make the connection from the Freeway at Union and Grand Avenues; however, the City of Portland requested that 7th and 8th Streets be used because there was less traffic on them. Mr. C. G. Polk, Division Engineer of the Bureau of Public Roads, concurred in the Engineer's statements. Acting Chairman Fridley thanked the delegation for their presentation and advised them that the Engineering staff will take another look at the problem to see if anything can be worked out which will conform to interstate standards.

The Engineer advised the Commission that he had received a telephone call from Judge C. W. Craddock, Harney County, who because of illness postponed his appearance before the Commission until the next meeting. Judge Craddock stated that Harney County had approximately $65,000 to $75,000 of County FAS funds that they would like to turn over to the State to use on the Frenchglen State Secondary Highway provided that the State will furnish match monies. Action was deferred until Judge Craddock appears at the January meeting.

As requested on the previous day, the Chief Counsel explained briefly that the legislation proposed by the Interim Committee on Natural Resources provides an estimated $50,000 for the establishment of a five-man board who would by virtue of this bill adopt the rules and regulations under which all State agencies would have to operate in the conduct of their parks. Administration of the parks, he continued, would be under the supervision of this board although there would still be a Parks Division, and the Highway Commission would continue to furnish the money for the operation and maintenance of the

parks, including the initial $50,000. The Commission requested that they be furnished a copy of this proposed bill.

The Chief Counsel presented to the Commission a list of seven properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "F-14" and "F-15", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 12 and 13, 1960".

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated December 13, 1960, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

A proposed settlement for purchase of property from John D. Benson, L-3576, R-31211, on the Seven Oaks-Neil Creek Section of Pacific Highway, Jackson County, was brought up by the Chief Counsel. He explained that a portion of Mr. Benson's property is needed as substitute property for a railroad that the State is taking from the Medford Corporation. The question has been raised by the owner's attorney whether the State has authority to condemn Mr. Benson's property for such purposes. Mr. Benson has now indicated that he is willing to sell his entire property for $18,000, approximately $1,500 above the appraised value. Compensation and damages for the partial taking required by the State is $6,960, which amount the State would voucher. The State, however, would pay for the remainder of the property (about $11,000) and would dispose of it after construction of the highway. Since the partial taking of this property would probably involve a long drawn-out lawsuit to settle the question of the State's authority to condemn, the Chief Counsel recommended that the Commission purchase Mr. Benson's entire property in the amount of $18,000 and follow the procedure as mentioned. The Commission accepted his recommendation.

The Chief Counsel also brought up settlement of the Carl Mc D. Roe property on the Ontario-Snake River Section of the Old Oregon Trail Highway, Malheur County. He recalled that in 1958 when the State's first appraisals were made there was over a $30,000 discrepancy between the State's appraisals and those of the property owner. After a review of the appraisals, the State's appraisers changed their figures to $16,745 and $24,000. Telephonic approval was obtained from Chairman McIver to settle for $16,745 subject to approval of the Bureau of Public Roads. Originally, he explained, the property owner demanded $27,000

but has now offered to settle for $23,000. The Bureau of Public Roads indicate they will participate in the amount of $16,745. Approximately $2,500 interest is due on the property so that there is a difference of about $4,000 in which the Bureau will not participate. If the case is tried, he pointed out, attorneys' fees and costs probably will amount to a figure close to $23,000. He recommended that the Commission approve the settlement of $23,000 provided the Bureau will participate in the amount of $16,745 plus interest. The Commission accepted his recommendation.

The Chief Counsel reported on the John L. McClaskey case, L-3208, on The Dalles-Eightmile Creek Section of The Dalles-California Highway, Wasco County. He explained that Commissioner Fridley who is familiar with the McClaskey property and is acquainted with the property owner had consulted with Mr. Dick, Mr. McClaskey's attorney, regarding this property settlement. Originally the owner demanded $72,000 but has now reduced his figure to $40,000, which is $2,000 above the State's offer. In addition to the $40,000 the property owner wishes to be granted a long-term permit to harvest a cherry crop remaining within the right of way as long as the State does not need the property for highway purposes. He recommended that authority be granted to settle for $40,000 for 15 acres of land and to offer a revocable lease on an annual basis for the right to harvest cherry trees on the right of way. The Commission granted the authority requested.

The State Parks Superintendent brought up a request from Mr. Jack Flaucher, concessionnaire at the Depoe Bay Building, for approval of the sale of his lease for the Depoe Bay Building concession to Dr. J. D. Draper, of Inglewood, California. Dr. Draper has furnished a financial statement which appears to be satisfactory, and he proposes to operate the concession along the same lines as Mr. Flaucher. Upon the recommendation of the Parks Superintendent, the Commission approved the sale of this lease if the Parks Superintendent after interviewing Dr. Draper finds him to be acceptable.

There being no further business to come before the Commission, Acting Chairman Fridley declared the meeting adjourned at 12 Noon.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

December 13, 1960

Salem, Oregon
January 27, 1961

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Conference Room of the State Highway Building, Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Floyd Query, Secretary

Mr. Carl Jordan, Director of Travel Information, was excused as he was out of state.

The Commission approved the minutes of December 12 and 13, 1960 with a correction to be made on page 32930 concerning Urban and Primary Funds, in which $160,000 for the Brewery Grade Connection of the Columbia River Highway under Division IV Urban Funds is to be transferred to Division IV Primary Funds, and the N. Limits-Franklin Avenue Project on The Dalles-California Highway in Bend under Division IV Urban Funds is to be increased from $155,000 to $315,000. Under Primary Funds the N. Limits-Franklin Avenue Section in Bend is to be decreased from $590,000 to $430,000.

Chairman McIver stated that he had heard from Mr. R. H. Baldock, former State Highway Engineer, who suffered a heart attack in California recently. Mr. Baldock is recovering and has returned to his home.

The Engineer introduced Division Engineers and their Assistants who were attending a meeting at Salem on the two previous days. From the Metropolitan Division in Portland he introduced Mr. Lloyd P. Shaw, Metropolitan Engineer, Mr. Alfred Rear and Mr. A. V. Benedict, Assistant Metropolitan Engineers; from Division I in Portland he introduced Mr. A. E. Johnson, Division Engineer, Mr. Edward S. Hunter, Assistant Division Engineer; from Division II, Mr. J. D. Walker, Division Engineer, Mr. Raymond Asburry, Assistant Division Engineer, Mr. Gerald Wimer, Assistant Division Engineer; from Division III, Mr. F. D. Morgan, Division Engineer, Mr. L. R. Chandler, Assistant Division Engineer, Mr. J. F. Putnam, Assistant Division Engineer; from Division IV , Mr. Dean Swift, Division Engineer, and Mr. L. H. Warfield, Assistant Division Engineer; from

Division V, Mr. A. F. Parson, Division Engineer, and Mr. H. S. Colter, Assistant Division Engineer.

The Chief Counsel reported that in compliance with terms of an agreement previously entered into with Tillamook County Court the State is now ready to abandon a replaced portion of the Little Nestucca Highway, known as the Meda Section. The new section has been constructed and is now open to public travel. Under terms of the previous agreement the old section is to be returned to the County, and he so recommended. The Commission accepted his recommendation and thereupon adopted a resolution pertaining thereto, marked Exhibit "H-1" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

The Commission confirmed appointment of Mark H. Astrup as State Parks Superintendent, effective January 1, 1961, to replace Mr. C. H. Armstrong who retired as of December 31, 1960.

The Parks Superintendent stated that Mr. Jack Flaucher, who has been operating the concession at Vista House on the Crown Point Secondary Highway, wishes to sell his lease to Mr. Kyle S. Smith of Tacoma, Washington. Mr. Smith, he continued, has been interviewed and, according to his financial statement and reputation, appears to be capable of operating the Vista House concession in a satisfactory manner. He recommended that the transfer of the lease from Mr. Flaucher to Mr. Smith be approved, with the provision that a $5,000 bond be furnished to assure satisfactory operation. The Commission approved the transfer.

The Commission discussed with the Parks Superintendent transfer of the concession lease on the Depoe Bay Park building to Mr. & Mrs. Richard Thomas. The Parks Superintendent stated that negotiations with Mr. J. D. Draper had not been consummated as anticipated at the previous Commission meeting. However, Mrs. Richard Thomas, manager of the concession for the past year, and her husband have indicated a desire to take over the concession lease. He recommended that the lease be transferred from Mr. Flaucher to Mr. and Mrs. Thomas who have given evidence of capability and have furnished a satisfactory financial statement. He also recommended that the corporate surety bond to be furnished by the Thomases be in the amount of $1,000. The Commission approved the transfer of lease as recommended.

The installation of a bronze plaque in the Silver Falls area of Golden and Silver Falls State Park in Coos County was recommended by the Parks Superintendent. He explained that in 1935 the Weyerhaeuser Timber Company had deeded to Coos County 17.27 acres of land in the area to be used as a public park. Later the area was conveyed to the State by the County. It has come to his attention, he continued, that the Weyerhaeuser people had never received public recognition for the gift and, although the land donated by them is only a portion of the entire park, he felt it proper that their gift should be recognized by the installation of a plaque which he estimated would cost $150. He pointed out that the Parks Advisory Committee has approved such plaque. The Commission approved the installation as recommended.

The Parks Superintendent stated that in October 1951 a lease agreement had been entered into with Borax Consolidated Limited for the purpose of grazing sheep on portions of the Samuel H. Boardman Wayside in Curry County. The term of the original lease ends on the 30th day of September 1961, and as the new highway is expected to be opened about that time, and as park improvements are being made for the benefit of the public, he recommended that the existing lease be terminated September 1, 1961. This action, he added, has been approved by the State Parks Advisory Committee. The Commission approved termination of the lease as recommended.

A resolution was presented by the State Parks Superintendent covering fees and charges for the use of park facilities during the year 1961. He called attention to changes in the schedule of fees at Emigrant Springs and Battle Mt. State Parks where a $3 minimum charge is proposed for opening the kitchen and dining halls. In group use of overnight camping where water and toilet facilities are provided a minimum charge of $5 per night is proposed, payable at the time the reservation is made. Upon his favorable recommendation, the Commission adopted the resolution covering fees and charges marked Exhibit "E" which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

An agreement with Wallowa Lake Lodge, Inc. was presented by the Parks Superintendent concerning operation of the boat concession at Wallowa Lake State Park. He pointed out that the concession is being operated by the same people, Duane and Robert Wiggins, but they are now operating as a corporation. Other than this the agreement is fundamentally an extension of the existing agreement and covers a period from January 1, 1961 through December 31, 1965. The Commission approved the agreement.

The Parks Superintendent called attention to the 1960 Camper Attendance Report at Cape Lookout, Beverly Beach, Honeyman and Harris Beach State Parks, which had been kept open the entire year. Total campers in the four parks for January were 8, February - 134, March - 676, April 719, November 668 and December 226.

Concerning the proposed agreement with Portland General Electric Company for relocation of Cove Palisades State Park in Jefferson County caused by construction of Round Butte Dam, the Parks Superintendent stated that oral accord had been reached with the Power Company and that the agreement is now being prepared in written form. In answer to an inquiry from Chairman McIver regarding the water situation at the new location, the Parks Superintendent advised that the State intends to put in a filtration system; however, if this is not satisfactory and proper water cannot be obtained to comply with the State's requirements, the Power Company has agreed to provide some other system.

The Right of Way Engineer presented for consideration options, pages 1 through 59, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of January 27, 1961".

The Right of Way Engineer commented on a news story appearing recently in a Portland newspaper concerning the auction sale of 25 buildings which are to be removed from the Pacific Highway right of way in Portland. The news account, he stated, did not present a true picture of the sale of these buildings but accented rather the small amount received for some of them. The auction sale, he stated, had been properly advertised, a good crowd attended, and the over-all prices received were good.

The Property Manager's report covering sales of miscellaneous properties and rental receipts for the period subsequent to the last Commission meeting and for the year 1960 was presented by the Right of Way Engineer. He called attention to total receipts for 1960 from rentals, sale of buildings, equipment, land, timber, and transfers of property amounting to $658,647.95. The Commission accepted the report.

Indentures of access were presented by the Right of Way Engineer involving changes in existing points of access and the granting of some additional points of access. These changes or additions, he stated, are consistent with Commission policies, have been approved in the field and by staff engineers, and have been made for the safety of the traveling public as well as for the benefit of the property owners. The Commission approved the following:

(1) Hockersmith and Multi-Plots, Inc., File 30506, on the Hillsboro-Reedville Section of the Tualatin Valley Highway in Washington County, for four points of access, 40 feet in width unrestricted as to use, in lieu of three points 50 feet in width.

(2) Gilchrist Timber Company property, File 17936, on the Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County. Routine change of location.

(3) Beyer property, File 18702, on the Tigard-Newberg Section of the Pacific Highway West in Washington County. Substitution of one point of access, 40 feet in width unrestricted as to use, for a point 25 feet in width and an additional point 40 feet in width, unrestricted as to use. The additional access is consistent with the situation prevailing in this area.

(4) Weller and Gienger property, File 15758, on the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County. Routine change of location.

(5) von Borstel property, File 25644, on the Grass Valley-Kent Section of the Sherman Highway in Sherman County. Routine change of location.

(6) Buchanan property, File 22825, on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County. Change of location and widening from 25 feet to 40 feet for one point of access, and an additional point of access 40 feet in width, unrestricted as to use. This is in a commercially zoned area and is consistent with usage and other access arrangements nearby.

(7) Barnet property, File 25648, on the Grass Valley-Kent Section of the Sherman Highway in Sherman County. Routine change of location.

(8) von Borstel property, File 25646, on the Grass Valley-Kent Section of the Sherman Highway in Sherman County. Routine change of location.

(9) Carlson property, File 30194, on the Camp Adair-Lewisburg Section of the Pacific Highway West in Benton County. Routine change of location.

A "Release of Borrow Easement" form to Mr. and Mrs. J. M. Burge was presented by the Right of Way Engineer. This easement, he stated, had been secured as part of a right of way taking in 1930 for borrow purposes. The State has no further use for the borrow area, and the adjoining owner has requested that the easement be released so that the encumbrance might be removed from his title. Upon the Right of Way Engineer's favorable recommendation, the Commission approved the release.

Authority was requested by the Right of Way Engineer to offer at public sale several parcels of highway right of way that are no longer required for highway purposes. He pointed out that each parcel of property has been appraised and the minimum consideration has been based upon appraised value, or upon an offer which exceeds appraised value. Access provisions are consistent with Department policy prevailing in the vicinity of each property. The Commission authorized public sale of the following parcels and thereupon adopted resolutions pertaining thereto, marked Exhibits "F-1" through "F-5" which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961":

(1) 0.09 acre from the former Ramey property, File 2100, on the South Salem-Illahee Section of the Pacific Highway in Marion County, for a minimum consideration of $100, and without restrictions as to access or signs.

(2) 6,108 square feet of land and a 10-foot easement, File 1090-A, on the Newport-South Beach Section of the Oregon Coast Highway in Lincoln County, for a minimum consideration of $2,500, purchaser to be required to make a fill to eliminate need of the easement. The property is to be sold subject to the air, light, view and access of the adjacent owner and no access or advertising sign restrictions are to be imposed. (See Exhibit "F-1")

(3) 0.14 acre, File 3932, on the Siletz Bay-Newport Section of the Oregon Coast Highway in Lincoln County, for a minimum amount of $2,000 with one point of access to the Oregon Coast Highway 25 feet in width, unrestricted as to use; and

2.25 acres for not less than $1,500 with one point of access to the Oregon Coast Highway 25 feet in width, unrestricted as to use. (See Exhibit "F-2")

(4) 19.41 acres, File 24002, on the Buell-Mill Creek Section of the Willamina-Salem Highway in Polk County, for not less than $950, without access restrictions and subject to right of way for the County Road which crosses the northerly part of the property, as well as the previous grantor's right to move stock across land acquired under deed Q-1526.

(5) 3.0 acres, Files 21237 and 21238, on the Goshen-Divide Section of the Pacific Highway in Lane County, for not less than $1,000 without access to the Pacific Highway and with no restrictions as to advertising signs. (See Exhibit "F-3")

(6) 0.8 acre, File 26879, on the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County, for not less than $150, subject to a 20-foot private road easement along the southerly property line and without additional access to The Dalles-California Highway.

(7) 1,226 square feet of land, File 1141, on the Florence-Glenada Section of the Oregon Coast Highway in Lane County, for not less than $1,000 and without restrictions as to access or advertising signs. (See Exhibit "F-4")

(8) 1,416 square feet of land, File 1604, on the Toledo Section of the Corvallis-Newport Highway in Lincoln County, for not less than $500 and without restrictions as to access or advertising.

(9) 0.1 acre, File 9444-A, on the Eugene-Springfield Section of the McKenzie Highway in Lane County, for not less than $2,500, subject to the right to utilize an existing approach of 28 feet at Station 204+18 and to prior rights contained in an easement retained by the Eugene Power Company as recorded in Book 275, Page 66 of the Lane County Deed Records on September 22, 1944. (See Exhibit "F-5")

Direct sale of three parcels of excess property were recommended by the Right of Way Engineer. Proposed sale of these parcels is at appraised value or above, and sale has been approved by field and staff engineers. The Commission authorized direct sale of the following properties:

(1) 1,000 square feet of land, File 2561-B, on the Port Orford-Brush Creek Section of the Oregon Coast Highway in Curry County to Mr. Herman C. Price, adjoining property owner, for not less than $100, to improve sight distance for Mr. Price's access granted under Permit No. 7932.

(2) 500 square feet of land, File 4861, on the Lombard Street-Killingsworth Street Section of the Northeast Portland Secondary Highway in Multnomah County to Mr. Laurence Knez, adjoining property owner, for not less than $135 and without restriction as to access or advertising signs.

(3) 0.95 acre, File 22491, on the Crow-Gillespie Corner Section of the Territorial Highway in Lane County, to Mr. A. Sturtevant, the adjoining property owner, for not less than $309.25, without restrictions as to access.

Transfer to Clatsop County of 67,368 square feet of land on the Astoria-Seaside Section of the Oregon Coast Highway in Clatsop County was recommended by the Right of Way Engineer. This parcel of property, he stated, was formerly used for maintenance purposes, but is no longer needed or useful. As the property had been given to the State by the County, the Commission approved his recommendation that it be transferred to the County for the sum of $1.00 without a public use clause and with no restrictions as to access or advertising signs.

The Commission also considered transfer of the former Curtiss stockpile site consisting of 0.76 acre on the Seufert-Dufur Section of The Dalles-California Highway in Wasco County to Wasco County for the sum of $1.00. This property, the Right of Way Engineer stated, is no longer needed or useful for highway purposes, and he recommended that it be returned to the County. The Commission approved the transfer with a stipulation that the deed is to contain a public use clause.

Consideration was given to a "Grant of Use of Access" form to Southern Pacific Company on the Lookout Point Reservoir Section of the Willamette Highway in Lane County. Southern Pacific Company, the Right of Way Engineer explained, now holds a temporary road approach permit because the State until quite recently could not legally grant a point of access from the State right of way. Title has been secured from the U. S. Corps of Engineers and the grant of access can now be given legally. Upon his favorable recommendation the Commission approved the grant of access.

Attention was given to an option form giving Central Oregon College in Bend the right to purchase for $700 a 56-acre tract of excess property on the Pilot Butte Park Section of the Central Oregon Highway in Deschutes County. The option price, the Right of Way Engineer stated, is the cost of the land to the State. Central Oregon College proposes to develop an institution of higher education on the site. Upon his favorable recommendation, the Commission approved granting the option with the understanding that, if not exercised, the option is to expire on December 31, 1963, or sooner if the College selects another site. The option may be renewed at the election of the College for an additional two years subject to termination by the State after December 31, 1963 upon 30 days written notice to the College. The option to purchase is not to be exercised until the College can proceed immediately with construction of a permanent facility. The deed also is to contain a clause that the property is to be used only for an institution of higher education and that classroom facilities must be in use within two years from date of deed delivery. The College is to pay all expenses caused by the transfer and shall have immediate possession upon transfer of title. Following the Right of Way Engineer's favorable recommendation, the Commission approved the option.

Commissioner Fridley inquired as to status of negotiations with the Port of The Dalles concerning the construction of the Columbia River Highway through that city. He urged that the work be expedited as much as possible. The Right of Way Engineer stated that appraisals have been made and priority would be given to this project.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "G-1" through "G-12", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated January 27, 1961, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

A written report of condemnation cases and other cases which have been tried in court since the last Commission meeting was presented

by the Chief Counsel. The Commission accepted the report, which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3547 Holger M. Christen, et al.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 4,750	$ 9,000	$ 6,000
L-3542 Ellis J. Mitchell, et al.	Clackamas	Pacific East	New Era-Canby	$ 1,015	$ 5,000	$ 4,000
L-3321 John Bohnert, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$16,000 amended to $20,000 for amended complaint	None stated	$32,000 plus $ 4,442.20 for irrigation system
L-3578 Chester E. Irish, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$31,000	$62,500	$44,725
L-3520 Charles W. Ketcham, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 160	None	$ 160
L-3330 Ethel Palmer, et al.	Baker	Old Oregon Trail	Baker-Pleasant Valley	$ 102.40	None Stated	$ 100
L-3536 Gerald Brown, et al.	Clackamas	Pacific East	New Era-Canby	$ 1,600	$ 2,600	$ 2,200
L-3254 Anton Hurliman, et ux.	Tillamook	Little Nestucca Secondary	Meda	$ 4,000	$11,000 to $12,000	$ 5,000

(Report of Condemnation Cases Tried - Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3257 Clemens J. Hurliman, et ux.	Tillamook	Little Nestucca Secondary	Meda	$ 2,640	$18,000 (See remarks in letter)	$ 6,500
L-3438A Charles Parker, et ux.	Lincoln	Corvallis-Newport	Toledo-Eddyville	$ 180	$ 5,000	$ 1,000
L-3439A Ruth Helliwell, et al.	Multnomah	Pacific	East Bank Freeway	$18,000	$30,000	$18,000

Concerning the Clemens J. Hurliman property, L-3257, R-29018, the Chief Counsel explained that although the State's offer is shown as $2,600 on the above report, during the period of negotiation the State attempted to settle with Mr. Hurliman on the basis of a $2,500 payment plus the construction of a stock pass at a cost of $4,500, or a total settlement of $7,000. Since Mr. Hurliman refused to settle for such amount, the case went to trial and the jury returned a verdict of $6,500.

REPORT OF TRIAL OF OTHER CASES

Case	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict
L-2412 Art Johnson	R. H. Baldock, Loran L. Spaulding and Clifford Chipman	Marion	Suit for $60,000 damages based upon alleged conspiracy among defendants to cause revocation of plaintiff's truck operating permit	$60,000	None
L-3597 British & Overseas Insurance Co., Ltd., et al.	Pacific Powder Company, et al.	U. S. District Court of Oregon	Plaintiff seeks to require State and all other defendants to appear in Court and state the amount of damages suffered in connection with the blast in downtown Roseburg in August, 1959, so as to determine plaintiff's insurance company's total liability		Order of Court entered dismissing State Highway Commission as defendant

January 27, 1961

(For additional details see the Chief Counsel's letter of January 20, 1961, and his supplemental letter of January 26, 1961, entitled "Report of Cases Tried" in the General Files.)

A report was also made by the Chief Counsel on condemnation and other cases which have been settled out of court since the last Commission meeting. In presenting the proposed settlements he pointed out that they are within appraised value or so close as not to constitute major increases, or increases sufficient to warrant taking them into court. The Commission accepted the report which is summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30205 Chester H. Burgess, et al.	Benton	Pacific West	Camp Adair-Lewisburg	$ 4,525	$ 5,000
R-28654 Joe Bookshnis, Inc., et al.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 2,250	$ 2,250
R-31303 Donald J. Jenkins, et ux.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 100	$ 100
R-30875 Albert A. Seida, et ux.	Clackamas	Pacific East	New Era-Canby	$ 3,500	$ 4,000
R-31943 Bernard F. Vanderzander et al.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 9,950	$ 9,950
R-32094 Richard Emmitt Churchill, et al.	Douglas	Pacific	Rice Hill-North Oakland Junction	$ 6,250	$ 8,000
R-31346 & R-31452 Mary Kejr, et vir.	Harney	Frenchglen	Wrights Point-The Narrows	$ 150	$ 150
R-31979 Neil M. Mayfield, et al.	Josephine	Redwood	Wilderville-Grants Pass	$ 9,260 State to fence	$11,092 Owner to fence

January 27, 1961

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-23230 Farm & Industrial Equipment Co., (Pape Bros.)	Lane	Eugene-Springfield	Coburg Road-Pacific Freeway Junction	$90,625	$102,500
R-31582 Stephen A. Moore, et al.	Morrow	Columbia River	Boardman Junction-Umatilla	$ 375	$ 375
R-31617 Louis Schwindt	Linn	Santiam	Pine Street-Market Drive (Lebanon)	$ 90	$ 90
R-29631 Tenet Mortgage Co., et al.	Multnomah	Pacific	North Portland Harbor-North Russell Street	$ 3,775	$ 3,775
R-20561 George K. Esau, et al.	Polk	Pacific West	Rickreall-Orr Corner	$ 2,210 (See remarks in letter.)	$ 8,250
R-23708 Alan G. Weiler, et al.	Umatilla	Pendleton-John Day	Emigrant Avenue-Frazer Avenue Couplet (Pendleton)	$ 350	$ 350
R-30749 James L. Roberts, et al.	Union	Wallowa Lake	Rhinehart-Elgin	$ 125	$ 350
R-30518 & R-30519 Ewald Kohlmeyer, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 645	$ 1,200
R-28462 Orrin L. Brown, et al.	Jackson (appraised by Holbrook at $10,500 and by Goldy at $28,000)	Pacific	Seven Oaks-Neil Creek	$10,500 Plus State obligated to construct a bridge over Bear Cr. at cost of $33,100 a total of $43,600	$60,000 (See remarks in letter)
R-31978 David E. Turnicge, et al.	Josephine	Redwood	Wilderville-Grants Pass	$ 8,000	$ 8,000

January 27, 1961

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-31211 John D. Benson, et ux.	Jackson	Pacific	Seven Oaks-Neil Creek	$ 4,460 (partial taking) (See remarks in letter.)	$18,000 (entire taking)
R-26731 Carl Mc D Roe, et al	Malheur	Old Oregon Trail	Ontario-Snake River	$16,745	$23,000

The Chief Counsel called attention to the settlement of the case of Orrin L. Brown, et al., L-3590, R-28462. In order to grant access to Mr. Brown's property, he explained, it would be necessary for the State to construct a bridge across Bear Creek at a cost of $33,100. The State's high appraisal for the Brown property was $28,000, or a total cost to the State of $61,000. On the basis of this $60,000 settlement, he continued, the State will be relieved of the obligation to build the bridge. He pointed out that it is the policy of Jackson County that where one property is served at the end of a one-way road, as in this case, the landowner is required to take care of any maintenance or replacement of the structure and approaches. Because of the flood history of Bear Creek and the fact that if the case went to court the property owner undoubtedly could show that this requirement would be detrimental to him, it was the Chief Counsel's opinion that the $60,000 settlement would be in the best interest of the State.

REPORT OF OTHER CASES SETTLED

Case	Defendant	County	Cause of Action	Demands of Plaintiff	Settlement
L-2727 State Highway Commission	Alvin L. Pelky and Gary G. Morlan	Tillamook	To recover damages to guardrail, caused by defendants' automobile, in the amount of $212.46	$ 212 plus attorney fees and costs, if tried	$ 212

(For additional details see the Chief Counsel's letter dated January 20, 1961 entitled "Report of Cases Settled" and his supplemental letter on the same subject dated January 25, 1961 in the General Files.)

The Chief Counsel presented for confirmation of prior telephonic approval a list of offers to be tendered to property owners prior to the institution of condemnation proceedings. The Commission confirmed the offers as follows:

(see next page)

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-28903 - Rogue Valley Land Company, et al. 13.5 acres for right of way purposes. Offer of $22,500 approved by Mr. Jackson, January 24, 1961.

R-29313 - Martin Heitkamp, et ux. 22.35 acres for right of way purposes. Offer of $30,250 approved by Mr. Jackson, January 24, 1961.

R-29315 - James H. Nunes, et al. 11.37 acres for right of way purposes. Offer of $8,500 approved by Mr. Jackson, January 17, 1961.

R-29316 - H. H. Dietrich, et al. 11.15 acres for right of way purposes. Offer of $14,000 approved by Mr. Jackson, January 24, 1961.

R-29319 - David H. Holmes, et al. 10.5 acres for right of way purposes. Offer of $15,900 approved by Mr. Jackson, January 19, 1961.

R-29324 - Maynard O. Grove, et ux. Parcel No. 1: 8.63 acres for right of way purposes; Parcel No. 2: 0.03 acre for right of way purposes; and Parcel No. 3: 0.35 acre for permanent easement. Offer of $7,850 approved by Mr. Jackson, January 23, 1961.

R-29328 - Ila Beery, et al. 5.0 acres for right of way purposes. Offer of $4,700 approved by Mr. Jackson, December 15, 1960.

R-29335 - Bert B. Lowry, et ux. 1.17 acres for right of way purposes. Offer of $250 approved by Mr. Jackson, January 16, 1961.

R-29338 - V. L. Quackenbush, et ux. Parcel No. 1: 0.29 acre for right of way purposes; and Parcel No. 2: 1.20 acres for permanent easement. Offer of $1,245 approved by Mr. Jackson, January 20, 1961.

R-29361 - Bennie B. King, et al. 6.92 acres for right of way purposes. Offer of $11,325 approved by Mr. Jackson, January 17, 1961.

R-31137 - Clarence H. Fales, et ux. 0.15 acre for right of way purposes. Offer of $5,485 approved by Mr. Jackson, January 20, 1961.

R-31138 - Floyd January, et al. 0.29 acre for right of way purposes. Offer of $390 approved by Mr. Jackson, January 19, 1961.

R-31204 - J. P. Clark, et al. Parcel No. 1: 25.66 acres for right of way purposes; Parcel No. 2: 3.4 acres for right of way purposes; Parcel No. 3: 2.93 acres for right of way purposes; Parcel No. 4: 0.15 acre for right of way purposes; Parcel No. 5: 1.84 acres for right of way purposes; Parcel No. 6: 2.52 acres for right of way purposes; and Parcel No. 7: 0.55 acre for right of way purposes. Offer of $17,250 approved by Mr. Jackson, January 4, 1961.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY - Cont.

R-31276 - Wayne Zurflueh, et al. Parcel No. 1: 0.66 acre for right of way purposes; and Parcel No. 2: 0.18 acre for right of way purposes. Offer of $1,110 approved by Mr. Jackson, January 18, 1961.

R-31146 - Robert R. Dickey, et al. Parcel No. 1: 15.4 acres for right of way purposes; Parcel No. 2: 0.09 acre for right of way purposes; Parcel No. 3: 1.77 acres for right of way purposes; and Parcel No. 4: 0.6 acre for temporary easement. Offer of $9,600 approved by Mr. Jackson, January 23, 1961.

R-31525 - Hugh G. Simpson, et al. Parcel No. 1: 0.46 acre for right of way purposes; Parcel No. 2: 50 square feet for right of way purposes; and Parcel No. 3: 0.34 acre for right of way purposes. Offer of $550 approved by Mr. Jackson, January 25, 1961.

BOARDMAN JUNCTION-UMATILLA SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31573 - Francine Evans, et al. 0.48 acre for right of way purposes. Offer of $170 approved by Mr. Fridley, December 19, 1960.

R-31574 & R-31576 - Robert Smith, et ux. Parcel No. 1: 0.49 acre for right of way purposes; and Parcel No. 2: 25 square feet for right of way purposes. Offer of $1,000 approved by Mr. Fridley, December 13, 1960.

R-31587 & R-31592 - Jane Brownell, et al. Parcel No. 1: 0.39 acre for right of way purposes; and Parcel No. 2: 0.16 acre for right of way purposes. Offer of $910 approved by Mr. Fridley, December 23, 1960.

R-31589 - E. S. Whitman, et al. Parcel No. 1: 600 square feet for right of way purposes; and Parcel No. 2: 500 square feet for permanent easement. Offer of $840 approved by Mr. Fridley, December 12, 1960.

R-32100 - Mary Doherty, et al. Parcel No. 1: 16.0 acres for right of way purposes; Parcel No. 2: 6.6 acres for right of way purposes; and Parcel No. 3: 0.12 acre for right of way purposes. Offer of $680 approved by Mr. Fridley, January 24, 1961.

R-32102 - Paul Slaughter, et ux. 11.0 acres for right of way purposes. Offer of $870 approved by Mr. Fridley, January 24, 1961.

R-32105 - LeRoy C. Gustafson, et al. 6.8 acres for right of way purposes. Offer of $475 approved by Mr. Fridley, January 24, 1961.

R-32107 - Hilda Sharp, et al. 0.26 acre for right of way purposes. Offer of $25 approved by Mr. Fridley, January 20, 1961.

R-32110 - Arthur T. Edwards, et al. 0.46 acre for right of way purposes. Offer of $250 approved by Mr. Fridley, January 20, 1961.

BOARDMAN JUNCTION-UMATILLA SECTION OF THE COLUMBIA RIVER HIGHWAY - Cont.

R-32111 - Arthur T. Edwards, et al. 1.66 acres for right of way purposes. Offer of $920 approved by Mr. Fridley, January 24, 1961.

R-32112 - Morrow County, et al. 1.3 acres for right of way purposes. Offer of $450 approved by Mr. Fridley, January 24, 1961.

R-32113 - H. D. Reeves, et al. Parcel No. 1: 35,150 square feet for right of way purposes; and Parcel No. 2: 1,000 square feet for temporary easement. Offer of $1,000 approved by Mr. Fridley, January 25, 1961.

R-32120 - Robert L. Kress, et al. 240 square feet for temporary easement. Offer of $25 approved by Mr. Fridley, January 23, 1961.

R-32318 - Arnin Hug, et ux. 1.21 acres for right of way purposes. Offer of $355 approved by Mr. Fridley, January 20, 1961.

R-32323 - Fred Andrews, et al. 15.4 acres for right of way purposes. Offer of $308 approved by Mr. Fridley, January 23, 1961.

NESKOWIN-SALMON RIVER SECTION OF THE OREGON COAST HIGHWAY

R-24658 & R-24659 - Zane D. Church, et al. Parcel No. 1: 1.3 acres for right of way purposes; Parcel No. 2: 6.24 acres for right of way purposes; and Parcel No. 3: 1.34 acres for permanent easement. Offer of $3,870 approved by Mr. McIver, December 19, 1960. An offer of $1,010 was approved by Mr. McIver, July 18, 1956, for file No. R-24659. An offer of $2,570 was approved by Mr. McIver July 18, 1956, for File No. R-24658. This revision is due to the combination of the two files.

SHEEP CREEK HILL-HAYDEN CREEK SECTION OF THE LITTLE SHEEP CREEK HIGHWAY

R-31329 - Darlene Tucker, et al. Parcel No. 1: 9.45 acres for right of way purposes; and Parcel No. 2: 14.4 acres for material source. Offer of $2,100 approved by Mr. Fridley, December 13, 1960.

PINE STREET-STEPHENS STREET COUPLET (ROSEBURG) OF THE OAKLAND-SHADY HIGHWAY

R-31375 - J. F. Dillard, et ux. 1,600 square feet for right of way purposes. Offer of $5,100 approved by Mr. Jackson, December 23, 1960.

SMITH POINT-CAMP RILEA SECTION OF THE OREGON COAST HIGHWAY

R-30948 - Jane Doe Brown, et al. 430 square feet for right of way purposes. Offer of $50 approved by Mr. McIver December 15, 1960.

R-30949 - Aini B. Kaakinen, et al. Parcel No. 1: 2.04 acres for right of way purposes; and Parcel No. 2: 1.95 acres for right of way purposes. Offer of $2,050 approved by Mr. McIver, December 12, 1960.

SMITH POINT-CAMP RILEA SECTION OF THE OREGON COAST HIGHWAY - Cont.

R-20953 - Myrtle B. Menck, et ux. 10,000 square feet for right of way purposes. Offer of $100 approved by Mr. McIver, December 16, 1960.

R-32334 - Walter Ross, et al. 850 square feet for right of way purposes. Offer of $50 approved by Mr. McIver, December 16, 1960.

VIENTO-HOOD RIVER SECTION OF THE COLUMBIA RIVER HIGHWAY

R-16986 - Lawrence C. Johnson, et ux. Acquisition of access rights. Offer of $19,075 approved by Mr. McIver, December 29. 1960.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29707 - Cordelia Murphy, et vir. 5,000 square feet for right of way purposes. Offer of $7,550 approved by Mr. McIver, January 26, 1961.

R-29884 - Florence P. Snow, et vir. 5,000 square feet for right of way purposes. Offer of $19,150 approved by Mr. McIver, January 16, 1961.

R-29908 - Donald J. Playans, et al. 5,500 square feet for right of way purposes. Offer of $9,500 approved by Mr. McIver, December 20, 1960.

R-30064 - Karl Zitzer, et ux. 5,000 square feet for right of way purposes. Offer of $12,060 approved by Mr. McIver, December 14, 1960.

HERMISTON-HINKLE SECTION OF THE HERMISTON HIGHWAY

R-31462 - A. E. Bensel, et ux. 4.45 acres for right of way purposes. Offer of $2,900 approved by Mr. Fridley, January 3, 1961.

SOUTH NEWPORT STATE PARK

R-31116 - Ruth Calkins, et vir. 2,500 square feet for park purposes. Offer of $75 approved by Mr. McIver, December 28, 1960.

LAKE ROAD-OREGON CITY SECTION OF THE CASCADE SECONDARY HIGHWAY

R-28700 - Walter J. Roots, et ux. 6.03 acres for right of way purposes. Offer of $8,250 approved by Mr. McIver, December 13, 1960.

R-28765 - Doris Willboard, et vir. Parcel No. 1; 1,870 square feet for right of way purposes; and Parcel No. 2; 6,000 square feet for right of way purposes. Offer of $2,500 approved by Mr. McIver, December 27, 1960. An offer of $1,000 approved by Mr. McIver, September 21, 1959; this revision due to an increase of acreage in taking.

R-31301 - Southern Pacific Company, et al. 1.12 acres for right of way purposes. Offer of $8,000 approved by Mr. McIver, December 19, 1960.

LAKE ROAD-OREGON CITY SECTION OF THE CASCADE SECONDARY HIGHWAY - Cont.

R-31633 - F. H. Louise Blaue, et al. Parcel No. 1: 4.85 acres for right of way purposes; and Parcel No. 2: 0.50 acre for right of way purposes. Offer of $38,210 approved by Mr. McIver, December 27, 1960.

R-31938 - Clara D. Keeley, et vir. 9,990 square feet for right of way purposes. Offer of $5,100 approved by Mr. McIver, December 13, 1960.

R-31941 - Metha R. Anderson 1,782 square feet for right of way purposes. Offer of $1,100 approved by Mr. McIver, December 14, 1960.

R-31943 - Bernard F. Vanderzander, et ux. 11,220 square feet for right of way purposes. Offer of $9,950 approved by Mr. McIver, December 20, 1960.

The Commission considered and accepted a report made by the Chief Counsel concerning orders enacted by the Public Utility Commissioner regarding matters in which the State Highway Commission has been a party. The orders are summarized as follows:

PUX 312: Queen Avenue Grade Crossing in Albany. The proceedings have been dismissed.

PUX 358: Armitage State Park Undercrossing in Lane County. This matter arose upon application of the Highway Commission for authority to construct an additional undercrossing under the trestle of Southern Pacific Company, between the two portions of Armitage State Park, and to legalize an existing undercrossing. The order denies the contention of Southern Pacific Company that all rights of crossing be terminated if the trestle is replaced by a fill at a future date. This question was left for determination in the future. The other items of the order are in accord with the Highway Commission's petition and the testimony presented at the hearing.

PUX 360: County Road No. 589 Grade Crossing in Umatilla County. The request of the County for installation of automatic warning signals was denied.

PUX 365: Crown Zellerbach Private Road Crossing near Vollmer Creek on the Sunset Highway in Clatsop County. This matter concerns application of Crown Zellerbach Corporation to construct an entrance to the Sunset Highway at M. P. 2.22 and for a point of exit at M. P. 2.03. The Commission's answer represented that a flagman should be stationed only at the point of exit, M. P. 2.03, but the order provides that flagmen shall be stationed at both the points of entrance and exit. The request of the Highway Commission that highway signs bearing the legend "Log Trucks" should be masked when logging operations are discontinued for more than two weeks was not mentioned in the order. The order is also silent on the Commission's request that Crown Zellerbach be

responsible for maintenance of the highway between the points of entrance and exit. These matters have been called to the attention of the Public Utility Commissioner and a supplemental order may be issued.

PUX 367: Smith Point Grade Crossing, Spokane, Portland and Seattle Railway Company in Clatsop County. This matter involves a crossing at grade on the Oregon Coast Highway with the tracks of the railroad constructed on a trestle at Smith Point, between Astoria and Warrenton. The Railroad Company urged that the State assume responsibility for disturbance of the trestle for five years after construction of the highway fill and should reimburse the Railroad Company for maintenance of the automatic signals and other railroad facilities. The order limits the period of responsibility for maintenance of the trestle to one year and places maintenance of the signals and other facilities on the Railroad Company. Reimbursement for construction costs and acquisition of signals is to be made by the State to the Railroad Company.

PUX 377: Canby Grade Crossing, Pacific Highway East, Clackamas County. This matter involves crossings of two wye tracks of Southern Pacific Company caused by widening of the highway to four lanes north of Canby. The order is in accord with testimony presented at the hearing.

PUX 384: Cordes Siding Grade Crossing in Coos County. This crossing is not on any road or highway under jurisdiction of the Commission and no objection was made to the issuance of a proper order.

PUX 403: North of Madras Grade Crossing, Union Pacific Railroad Company, Jefferson County. The streets involved are not under the jurisdiction of the Commission and no objection was made to the issuance of a proper order.

A quarterly report of property damage claims collected from September 30 through December 31, 1960 was presented by the Chief Counsel During this period he mentioned that $13,975.27 had been collected and that 19 claims, totalling $1,821.33, had been abandoned. The Commission accepted the report.

A list of claims to be abandoned was presented by the Chief Counsel. He commented that further attempts to collect would most probably cause more expenditures by the State than would be received in collections. The claims proposed to be abandoned involve persons who are out of state, who have no insurance, whose addresses are unknown, instances where the perpetrator of the damage cannot be ascertained definitely, and an instance or two where it would be extremely difficult to prove liability. The Commission approved abandonment of the following claims:

CAO No.	Explanation	Claim
60-33 Ronald L. Barns	Guard rail damage. Out of State. Oregon license suspended. No insurance. Too expensive to pursue.	$ 59.72

(Cont.)

CAO No.	Explanation	Claim
59-314 L. R. Fisher	Guard rail damage. No insurance. Unable to contact. Mail returned. No Motor Vehicle Dept. record.	$195.19
58-51 Bruce Robbins	Hand rail & felloe guard rail damage on Nehalem River Bridge. Stolen car. Unknown driver.	$116.87
59-153 F. C. Robinson	Hand rail damage. This accident caused by a car & a group of beef animals. Insurance Co. denies liability & alleges it was fault of people herding beef cattle. We have no facts as to just what happened. It would not be wise to sue for as small amount as this with no reasonable certainty of winning.	$159.81
60-310 Hank Barnes	Vehicle damage. Chief of Police of Lakeview. Report indicates no liability on Barnes' part.	$211.71
59-91 Robert Earns	Guard rail damage. No insurance. License suspended. Mail returned. Futile to pursue further.	$ 76.06
60-362 Nalleys	Sign damage. Wrong party. Party causing damage unknown. Field investigation fails to reveal correct party.	$ 41.68
58-248 Yawrence Hoyt	Damage to Southbound Ramp to Harbor Drive off of Steel Bridge. (Hand rail, sidewalk curb & hand rail posts.) No insurance. License suspended. Appears useless to pursue further.	$336.58
59-7 Ray Lanceford	Right of Way fence damage. No insurance. License suspended. Appears useless to pursue further.	$ 61.89
60-209 Clarence Smith	Vehicle damage. No insurance. He is a transient. Unable to collect. No address.	$ 22.50
59-301 Pauletta Mahon	Fence & light damage. No record at Motor Vehicle Dept. Unable to contact by mail or person.	$351.66
59-24 Mike Cahill	Guard rail damage. No insurance. No accident records at Motor Vehicle Dept.	$282.29
58-140 Fred Hanson	Light pole damage. No insurance. Not working. Has no assets.	$207.60
59-264 Percival Oved	Guard rail damage. No insurance. Unable to locate or contact. License suspended.	$ 70.89
59-13 Donald James McAlpine	Guard rail damage. No insurance. License suspended. Useless to pursue further.	$108.10

January 27, 1961

Consideration was given to a proposal made by Raymond and Sandra Vance to pay to the State through Lincoln Adjustment Service the sum of $12 per month until their obligation in the amount of $325 is paid. The Chief Counsel explained that the State has a claim against the Vances who also have other debts. A consolidation of these debts has been made in which the creditors receive a prorata share through Lincoln Adjustment Service. Upon his favorable recommendation, the Commission approved the payment proposal.

Purchase of Owners', Landlords' and Tenants' Liability Policy covering liability on private dwellings and other miscellaneous type buildings acquired by the State for right of way purposes was brought up by the Chief Counsel. He pointed out that the present policy expires on February 15, 1961, and he recommended that the existing policy in the amount of $100,000/$300,000 for bodily injury liability and $100,000/$300,000 for property damage liability be renewed to February 15, 1964. The Commission approved extension of the insurance.

The Commission considered a request from the City of Portland for "Consent to Vacate" that part of N. E. Pacific Street between the west line of N. E. Occident Avenue and the easterly right of way of the Pacific Highway West. The Chief Counsel stated briefly that the proposed vacation will in no way be detrimental to the State, and he recommended that the "Consent" be approved and that authority be granted to the Secretary to sign it. The Commission accepted his recommendation.

Attention was given to a "Petition To Exclude Land From The Grants Pass Irrigation District" on the Hayes Hill-Grants Pass Section of the Redwood Highway in Josephine County. As the Highway Department does not use the irrigation facilities, excluding land from the District, the Chief Counsel pointed out, will relieve the State from the necessity of paying dues and assessments to the Irrigation District. The Commission approved the "Petition".

The Commission also considered a "Petition To Exclude Land From The Owyhee Irrigation District" on the Olds Ferry-Ontario Section of the Old Oregon Trail in Malheur County. The Chief Counsel stated that in general the same conditions prevail here as with the Grants Pass Irrigation District. The Commission approved the "Petition" and also authorized the Chief Counsel to take such action as is necessary if an objection is raised to the petition.

The Chief Counsel stated that a proposal had been made to exclude State Highway property lying within the Klamath Falls Irrigation District in Klamath County, and the Irrigation District has refused to accede to the proposal. He requested, and the Commission granted, authority to take such action toward exclusion as is provided under Oregon laws.

The Chief Counsel recalled that at the December Commission meeting the Commission had instructed him to investigate the possibility of securing a $100 deductible clause on bodily injury and property damage

liability insurance covering State Highway Department officers and employees. Investigation was made in this matter, and it was found that the premium for a three-year period with the deductible feature would be approximately $2,800 less than without the deductible clause. Investigation also showed that a considerable number of claims for less than $100 have been paid. It was his feeling that possible savings to be obtained by using the deductible clause would be slight at best, and he recommended that complete coverage be retained. The Commission accepted his recommendation.

Mr. Ted E. Barbera, Attorney in the Legal Division, the Chief Counsel stated, has been moved into the Complaint Section to take the place of John C. McLean, who has resigned. As Mr. Barbera has assumed increased duties and responsibilities, he recommended that his salary be increased from $550 to $575 per month, effective February 1, 1961. The Commission approved the increase in salary.

The Real Estate Appraisal II Course, offered by The American Institute of Real Estate Appraisers in cooperation with the General Extension Division of the University of Oregon, the Chief Counsel stated, is scheduled to be held in Portland from March 13, 1961 to March 25, 1961. This course, he pointed out, is of considerable benefit to State Highway appraisers, particularly in giving them background material and appraisal procedures, and in aiding them in appearances in court in connection with condemnation cases. The course, he stated, costs $100 for each person in attendance, and he recommended that a selected number of persons who work on right of way matters be authorized to attend the course. The Commission approved his recommendation.

The meeting was recessed at 10:15 a.m. and reconvened at 10:30 a.m.

Chairman McIver brought up the matter of a statement made recently by a delegation which appeared before members of the State Legislature, having to do with alleged inadequate estimates of cost made by the Highway Department for construction of the Oregon Coast Highway in Curry County, and at the same time a statement that it had been necessary to redesign the Thomas Creek Bridge on the same highway in Curry County because of faulty footings. He asked the Engineer to brief the Commission with the facts involved. The Engineer stated that only minor revisions had been made in the design of the Thomas Creek Bridge, not more than normally would be expected in the design of any bridge of that size, and the bridge had not been redesigned. Concerning the estimate of cost to rebuild the Oregon Coast Highway from Gold Beach to Brookings, he stated that at the request of Mr. Vern Ayers, representing the Oregon Coast Association, detailed estimates of cost had been sent to him in February, 1957, totaling $18,500,000. That estimate, he added has not been changed, although it appears that the actual cost may be somewhat less. The same information furnished to Mr. Ayers was also given to the State Legislature in April of 1957. Chairman McIver then inquired as to why the Legislature had decided to

issue bonds in the amount of $12,600,000. The Engineer stated that there was available at that time $1,400,000 from previous bond issues plus $2,000,000 Federal-aid funds in the last three years of the five-year program in effect at that time. He recalled that there may have been some confusion in the minds of some due to the fact that at an earlier date Mr. R. H. Baldock, Highway Engineer at that time, had made an estimate of the cost to construct this section of highway at $16,000,000. Due to a rise in cost of construction the estimate in 1957 was revised to $18,500,000. Chairman McIver then inquired if representatives of people in southwestern Oregon had agreed to expend from the regular allocation of funds to Division III the amount necessary to make up the difference between the sum of $12,600,000 + $1,400,000 + $2,000,000, or $16,000,000, and $18,500,000. The Engineer replied that it had been agreed that the difference could be made up out of the normal allocation of funds in Division III. He also pointed out that in 1957 he had made a public statement that the project would require five years for completion and that still appears true.

The Engineer reported that, as instructed by the Commission, he had made awards of contracts referred to him to award when certain conditions had been satisfied. These conditions have been taken care of, he stated, and the Commission confirmed awards of the following contracts:

(1) Construction of Glenn Street Bridge over Malheur River on Malheur River Bridge (Vale) Section, Malheur County. Bids received December 9, 1960. Contract awarded December 15, 1960, to Morrison Knudsen Co., Inc., Boise, Idaho, low bidder.

(2) Grading and paving on East Revere Avenue-East Franklin Avenue (Bend) Section of The Dalles-California Highway, Deschutes County. Bids received December 9, 1960. Contract awarded December 16, 1960 to Babler Brothers, Inc., Portland, low bidder.

(3) Construction of Encina and Alder Creek Road Overcrossing on Baker-Pleasant Valley Section of Old Oregon Trail Highway, Baker County. Bids received December 9, 1960. Contract awarded December 27, 1960 to Morrison Knudsen Co., Inc., Boise, Idaho, low bidder.

(4) Construction of Pleasant Valley Overcrossing of UP RR. on Baker-Pleasant Valley Section of Old Oregon Trail Highway, Baker County. Bids received December 9, 1960. Contract awarded December 27, 1960 to Morrison Knudsen Co., Inc., Boise, Idaho, low bidder.

(5) Grading, paving and structure on Rhinehart-Elgin Section of Wallowa Lake Highway, Union County. Bids received December 9, 1960. Contract awarded December 27, 1960 to White Brothers Construction Co., Inc., Walla Walla, Washington, low bidder.

(6) Grading, paving, structures and signing on Multnomah County Line-East Cascade Locks Section of Columbia River Highway, Hood River County. Bids received December 9, 1960. Contract awarded December 28, 1960 to Vernie Jarl, Gresham, low bidder.

(7) Grading and structures on Phoenix Siphon Section of Pacific Highway, Jackson County. Bids received December 9, 1960. Contract awarded January 4, 1961 to R. A. Heintz Construction Company, Portland, low bidder.

(8) Grading, paving, structures and signing on Seven Oaks-Jackson Street Section of Pacific Highway, Jackson County. Bids received November 1, 1960. Contract awarded January 11, 1961 to Peter Kiewit Sons' Company, Medford, low bidder.

The establishment of temporary construction speed zones for the protection of the traveling public during construction of state highway projects was reported by the Engineer. The Commission confirmed the following construction speed zones:

(1) 35 MPH on the Multnomah County Line-East Cascade Locks Section of the Columbia River Highway in Hood River County, between M. P. 40.22 and M. P. 43.78, effective 8:00 a.m. January 5, 1961.

(2) 35 MPH on the Garden Valley Road-Fairgrounds Section of the Pacific Highway, Douglas County, between M. P. 193.0 and 195.5, effective 8:00 a.m. January 2, 1961.

(3) 25 MPH on the Crater Lake Highway, Seven Oaks-Jackson Street Section, Jackson County, between M. P. 0.00 and M. P. 0.9, effective 8:00 a.m. January 12, 1961.

(4) 35 MPH on the Elk Creek-Robbers Roost Section of the Crater Lake Highway in Jackson County, M. P. 25.00 and M. P. 27.88, effective 8:00 a.m. January 12, 1961.

Reclassification of the Umatilla-Mission Secondary Highway No. 331 from its intersection with the Old Oregon Trail Highway to its intersection with the Oregon-Washington Highway was presented by the Engineer. He stated that a test run with the truck and semitrailer having an over-all length of 60 feet had indicated that the route could be negotiated without encroaching upon the opposing traffic lane. Upon his favorable recommendation, the Commission approved reclassification from Group III to Group I and approved as a Special Group I Highway.

Attention was given to a request made by the City of Mt. Vernon for installation of a flashing beacon at the junction of the John Day and Beech Creek Highways in the City of Mt. Vernon. An investigation was made, the Engineer stated, and it was found that a more positive stop indication is needed for traffic entering the intersection from the north. He recommended that a flashing beacon be installed, flashing amber to

traffic entering from the east and west and flashing red to traffic entering from the north and south. The Commission approved the installation at an estimated cost of $800, to be paid by the State with the understanding that the City of Mt. Vernon is to provide for all future maintenance and power consumption.

The Commission considered letters of request from the U. S. Forest Service and the U. S. Bureau of Public Roads for the addition of a 28.5-mile section of the Clackamas River Road in Clackamas County to the forest highway system in Oregon. The Engineer stated that the section requested extends from the City of Estacada to the Oak Grove Fork of the Clackamas River in Clackamas County. During the months of June, July and August, 1960, the highway carried an average daily traffic of 1,662 vehicles, of which 710 were trucks - - mostly logging trucks. In the forest highway needs study completed in 1959 the U. S. Forest Service, U. S. Bureau of Public Roads and the Oregon State Highway Department had given this route number one priority for those roads eligible to be placed on the forest highway system. It was his recommendation that necessary steps be taken to place this section of road on the forest highway system. The Engineer also pointed out that in placing the road on the forest highway system, it is contemplated that the State will assume maintenance as soon as the necessary arrangements can be made. The Commission approved the recommendation.

Attention was given to a request made by the City of Empire for a cooperative project on the Cape Arago Highway (Newmark Avenue) from Woolridge Street to Commercial Street. The proposed project, the Engineer stated, is through the business district of the City, and would be an extension of the 56-foot street section easterly from Commercial Street to the junction of the Empire-Coos Bay Highway. The present traffic on this section is in excess of 7,000 vehicles per day. The City of Empire has offered to pay $17,925 or one-fourth of the total estimated cost of $71,700. It was his opinion that this is a worthy project, and he recommended that it be approved. The Commission approved the project.

The Commission also considered a request from the City of Medford for a cooperative project to widen South Riverside Avenue from 9th Street to its intersection with South Central Avenue. The proposed improvement, the Engineer stated, is in the business district of Medford and is used as a part of the northbound one-way couplet of the existing Pacific Highway. The street at present carries approximately 12,000 vehicles per day. He recommended approval of a project which would consist of widening the existing facility to 48 feet between curbs at an estimated cost of $126,000, with the understanding that the City of Medford is to pay 25 percent of the total cost. He also recommended expenditure of an estimated $6,000 for signal revision, the cost of which is to be borne equally between the City and the State. The total project, including the signals, is estimated to cost $97,500, of which the City of Medford has agreed to pay $34,500. The Commission approved the project as presented.

The Engineer reported that surveys had been completed for the relocation and reconstruction of portions of state highways. In each instance, he stated, careful engineering consideration has been given to provide the most adequate highway facility commensurate with the cost of the project and the amount of traffic involved. Upon his favorable recommendation the Commission approved the following highway surveys and thereupon adopted resolutions pertaining thereto, marked Exhibits "L-1" through "L-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961":

(1) Biggs-Rufus Section of the Columbia River Highway in Sherman County. Public hearing concerning this project was held in the City of Moro on May 5, 1959. (See Exhibit "L-1")

(2) Rock Point-Seven Oaks Section of the Pacific Highway in Jackson County on which a public hearing was held in Medford on December 20, 1960. (See Exhibit "L-1")

(3) An amendment to Survey Resolution No. 149, adopted January 22, 1957, to correct an erroneous station number shown at the southerly end of the survey of the Seven Oaks-Neil Creek Section of the Pacific Highway in Jackson County. (See Exhibit "L-2")

(4) Amend Survey Resolution No. 211 adopted April 21, 1960, to extend for a distance of 350 feet a survey for the "E" Street and "F" Street Connection Section of the Redwood Highway in and near the City of Grants Pass in Josephine County. (See Exhibit "L-3")

Commissioner Fridley commented that the members of the Sherman County Court had made some objections to changes purportedly made in plans for the Biggs-Rufus Section of the Columbia River Highway after the hearing had been conducted. The Engineer stated that the only change that he could recall immediately was that a portion of the highway line had been moved about 50 feet closer to the Columbia River. The Commission requested him to contact the Sherman County Court concerning this matter.

A tabulation was presented by the Engineer showing a supplemental allocation of 1962 federal-aid secondary funds to counties. This supplement, the Engineer stated, represents the remaining 1962 federal-aid secondary funds to the counties. The allocation has been computed in accordance with the formula developed by the Association of Oregon Counties and the Highway Commission, and incorporates use of the 1960 official federal census. The Commission approved the following allocations:

(see next page)

County	Net Federal Funds, Supplementary Allocation	Total Supplementary Allocation Including State and County Match Money (Rounded to Thousands)	Total Fiscal-year 1962 FAS Allocation Including State and County Match Money (Rounded to Thousands)
Baker	$ 10,305	$ 17,000	$ 57,000
Benton	13,484	22,000	72,000
Clackamas	42,467	71,000	230,000
Clatsop	11,578	19,000	61,000
Columbia	8,022	13,000	69,000
Coos	18,492	31,000	121,000

Wheeler	6,342	11,000	35,000
Yamhill	16,461	27,000	90,000
	$632,211	$1,053,000	$3,497,000

SUMMARY, ENTIRE STATE - FISCAL YEAR 1962 COUNTY FAS FUNDS:

(see next page)

January 27, 1961

(Cont.)

Federal Funds (50% of Oregon's Apportionment of $4,484,481)	$2,242,240
Less Planning Survey Funds (1-½%)	33,633
Total 1962 Federal Funds for Construction	$2,208,607
Less "L" Funds Advanced for County "D" (Crash) Projects and Partial Allocation for 1962 (approved 9-29-60)	-1,576,396
Net Total Federal Funds for Construction (Supplementary)	632,211
Plus Estimated Required Match Money . . . State Funds)	210,394
. . . County Funds)	210,395
Total Supplementary Allocation	$1,053,000
Total Partial Allocation (approved 9-29-60)	2,444,000
Total 1962 FAS Allocation to Counties	$3,497,000

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on total county road mileage) proposed by Association of Oregon Counties and approved by Highway Commission. Federal funds are estimated to represent approximately 60% of total county road FAS fund with state and county funds estimated to be approximately 20% each.

The Commission considered and approved an allocation to cities of gas tax and motor vehicle revenues accruing to cities for the second half of the year 1960. The Engineer explained briefly that the amounts allocated to each city have been computed according to law, but since two sets of 1960 city census figures were furnished, the Secretary of State's office will not certify to the official city population until the Attorney General has ruled on the matter. He recommended that the Commission approve the resolution covering distribution of these funds to the various cities after February 1, 1961, with such approval to be conditioned upon certification to the Commission of the official city population. The Commission accepted his recommendation and thereupon adopted the resolution, marked Exhibit "K", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

A request from a contractor was considered for an increase in the number of workdays within which to complete a state highway contract. The Engineer reviewed briefly the reasons for granting or denying the increase, and made his recommendation on the following request:

(1) C. H. Strong, Engineering and Construction Company, Contract No. 5542, for lining the Cape Creek Tunnel on the Oregon Coast Highway in Lane County, requested an increase of 110 workdays in which to complete the contract without assessment of liquidated damages; 120 workdays were allowed in the contract and 126 workdays were required to complete the contract. The Commission approved an extension of 6 workdays without assessment of liquidated damages. A letter from the Bureau of Public Roads was presented concurring in the extension of time.

The Engineer reported that Contract Nos. 5227, 5377, 5533, 5572, 5575, 5579, 5594, 5597, 5598, 5636, 5644, 5655, 5662, 5666, 5667, 5732, 5746, 5750, 5767, 5780, 5781, and 5800 for highway construction had been completed in accordance with the requirements of the contracts, or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of January 27, 1961".

The Engineer presented a tabulation with map attachments showing extensions and additions to the federal-aid secondary county road system in Linn, Multnomah, Umatilla, Wallowa and Washington Counties. These changes, the Engineer stated, were requested by the counties and have been found eligible as additions to the county road federal-aid secondary system. He also pointed out that placing the Corvallis-Lebanon Highway on the state federal-aid secondary system has the concurrence of Linn County, and the extension of the Weston-Elgin Secondary Highway and the Sunnyside-Umapine Secondary Highway on the state federal-aid secondary system has been approved by Umatilla County. Umatilla County has also indicated its approval of an 0.8 mile extension of FAS 465 as a part of the Athena-Holdman Secondary Highway. Resolutions covering the extensions to the state secondary system will be presented to the Commission for approval at a later date. The Commission approved the following revisions to the FAS system:

Linn County

FAS 202, Corvallis-Eastside State Highway: 7.2 miles to transfer from State to County jurisdiction and 3.1 miles to be redesignated as as extension of FAS 216.

FAS 216, Orleans-Lebanon County Road: 15.1 miles to transfer from County to State jurisdiction and 3.1 miles to be extended along present FAS 202.

FAS 220, Albany-Lyons State Highway: 1.2 miles to be extended along present FAS 124.

FAS 124, Mehama-Mill City State Highway: 1.2 miles to be redesignated as an extension of FAS 220; 7.4 miles to transfer from State to County jurisdiction.

Multnomah County

FAS 646, Division Street, 8.0 miles, extending from FAP 41 (82nd Avenue) easterly to FAS 582, east of Gresham.

FAS 654, extending 122nd Avenue, 0.8 mile, beginning at the junction of the existing FAS 654 (122nd Avenue) and Sandy Boulevard, northerly to a junction with Marine Drive.

(Cont.)

Umatilla County

FAS 464, extends Sunnyside-Umapine Secondary State Highway, 0.7 mile. At the request of Umatilla County the Sunnyside-Umapine Highway is to be extended easterly from its present terminus to a junction with the Oregon-Washington Highway.

FAS 465, extends old route Oregon-Washington Highway, 4.4 miles. Includes 0.8 mile to be retained by the State as an extension of the Athena-Holdman Secondary Highway from Athena easterly to the new route of FAP 19, and 3.6 miles to be placed on the local FAS system from the new route of FAP 19 easterly and northerly into Weston.

FAS 469, extends Weston-Elgin Secondary State Highway, 1.2 miles, utilizing a short portion of former FAP 19 plus a new location to be constructed by the Highway Department northerly to a junction with the new route with the Oregon-Washington Highway.

Wallowa County

FAS 494, extends Alder Slope Road, 1.8 miles.

FAS 697, Flora Spur, 3.3 miles.

Washington County

FAS 630, S. W. 145th Avenue and Murray Road, 6.3 miles.

FAS 636, Garden Home Road, 1.2 miles.

The Engineer also presented a list showing projects in Baker, Linn and Multnomah Counties which he recommended for the expenditure of county federal-aid secondary funds. The projects have all been investigated and are eligible for construction with these funds. The Commission approved the following projects:

County	FAS	Section & Description	Programmed Amount	FAS Funds
Baker	509	Keating Bridge	$ 19,000	'62
Linn	218	Calapooya (Holley) Bridge	50,000	'62
	569	Butte Creek Bridge	12,000	
Multnomah	729	Banfield Freeway-E. Burnside St. Grade and Pave	300,000	'61 & '62
			$381,000	

(see next page)

(Cont.)

SUMMARY BY FISCAL YEARS	1961 & 1962	1963 (Estimated)	Total
Available Funds	$4,393,000	$3,681,000	$8,074,000
Previously Approved	2,516,000	- - -	2,516,000
Unprogrammed Balance	$1,877,000	$3,681,000	$5,558,000
Projects Proposed 1/26/61	381,000	- - -	381,000
Unprogrammed Balance	$1,496,000	$3,681,000	$5,177,000

The Engineer presented a form of resolution covering State Tax Street fund allocations which have accrued to various cities during the second half of 1958, first and second halves of 1959 and the first half of 1960. These amounts, he explained, have been allowed to accumulate so that larger projects can be undertaken by the cities involved. The Commission approved allocations for the following cities and thereupon adopted a resolution relative thereto, marked Exhibit "I", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961":

CITY	AMOUNT	FROM REVENUES ACCRUED DURING:
Richland	$ 983.57	Second Six Months of 1958
North Powder	1,311.52	First Six Months of 1959
Richland	879.68	" " " " "
Boardman	501.91	Second Six Months of 1959
Richland	896.27	" " " " "
Dufur	1,554.08	First Six Months of 1960
Richland	809.42	" " " " "
Yamhill	1,635.02	" " " " "

A map was presented by the Engineer showing property occupied by the Equipment Repair Shops in east Salem and properties occupied by the State Forestry Department and the U. S. Reserve Corps. Parcel No. 1, shown as State Forestry Department, he stated, is owned by the State Board of Control and leased to the U. S. Government, who is using the area for storage of surplus equipment. Their lease expires in 1962. Parcel No. 2 is a narrow strip of land, adjoining on the westerly side the present State Highway property occupied by the Equipment Division. These two parcels, he stated, are needed to take care of future expansion of the Equipment Shops. The State Board of Control, he continued, has stated that it is willing to sell the five-acre area to the Highway Department provided it is acquired at its market value and subject to existing lease. The Board of Control has proposed that the value be determined by a fee appraiser representing them, and an appraiser representing the

Highway Department, and that the selling price be determined by comparison of the appraisals. He recommended that the property be acquired as outlined. The Commission approved the recommendation.

The following item of unfinished business appearing on the Secretary's Summary, dated December 13, 1960, was brought up by the Engineer: Request of delegation to close Tolovana Beach to vehicular traffic. The Engineer presented an aerial map of a beach area covering approximately seven miles. He explained that since the last Commission meeting further investigation has been made, and the following alternatives have been considered: (1) prohibit all vehicles from the beaches; (2) allow vehicles to travel on the beaches; (3) set aside portions of the beach areas on which cars could be parked and close adjoining areas to vehicular traffic; and (4) allow vehicles on the ocean beaches under reduced speed zones and with adequate law enforcement. Item number (3), he stated, is not practical in this area because of the limited space on which cars can be parked on the beach. He recommended that cars be allowed on the beach area between Arch Cape at the south end and Elk Creek on the north end under a 15 mile-per-hour speed zone. Clatsop County has indicated that it will furnish a patrol to enforce the reduced speed zone, and the State Police have indicated that they also will do what they can to enforce it. To provide sufficient parking area off the beach in this vicinity, he estimated, would cost one-half-million dollars. Commissioner Jackson commented that the proposed action might not be the final solution, and if cars get too thick on the beach, the Commission may have to take action looking toward a more permanent solution, including the possibility of constructing off-beach parking areas. Chairman McIver suggested that the 15 mile-per-hour speed zone be placed in effect for a period of one year on a trial basis, and in the meantime that the Engineer and the Parks Superintendent investigate and report as soon as possible on the cost and feasibility of providing parking space for those who wish to visit beach areas. This study should encompass beaches all along the Oregon Coast with accent on the more heavily visited areas. After some further discussion the Commission approved the action as summarized by Chairman McIver and thereupon adopted a resolution relative thereto, marked Exhibit "B-7", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

The Engineer reported that a number of requests had been received for reduced speed zones on certain sections of state highways. These requests have been investigated, and from the facts disclosed in the investigations reduced speed zones are warranted. The Commission accepted his recommendation for the establishment of the following speed zones, and thereupon adopted resolutions relative thereto, marked Exhibits "B-1" through "B-6", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961":

(1) Alsea Highway in Benton County -- 45 MPH between a point 0.25 mile west of Gellatly Way and the Corvallis-Newport Highway

Junction. Rescinds the portion of "Speed Zone Resolution No. 169" pertaining to the Alsea Highway. (See Exhibit "B-1")

(2) Cascade Secondary Highway in Multnomah and Clackamas Counties -- 35 MPH between the south city limits of Portland and a point 0.20 mile south of the westerly leg of King Road; 45 MPH between a point 0.20 mile south of the westerly leg of King Road and a point 0.11 mile north of Jannsen Road, except between a point 500 feet north of Monterey Avenue and a point 500 feet south of Monterey Avenue the indicated speed shall be 20 MPH during the hours of school crossings; 35 MPH between a point 0.11 mile north of Jannsen Road and a point 500 feet south of the Clackamas Secondary Highway, except that between a point 300 feet north of Church Street and a point 300 feet south of Church Street the indicated speed shall be 20 MPH during the hours of school crossings; and 45 MPH between a point 500 feet south of the Clackamas Secondary Highway and the north city limits of Gladstone, except that between a point 500 feet north of Strawberry Avenue and a point 500 feet south of Strawberry Avenue the indicated speed shall be 20 MPH during the hours of school crossings. Rescinds "Speed Zone Resolution Nos. 22, 238 and 272". (See Exhibit "B-3")

(3) Lower Columbia River Highway in Clatsop County -- 45 MPH between a point 0.40 mile east of Svensen Road and a point 400 feet west of Svensen Road. (See Exhibit "B-2")

(4) Pacific Highway East access road (34th Avenue N. E.) near Salem in Marion County -- 40 MPH between the Pacific Highway East and a point 0.28 mile south of the south leg of Park Lane. (See Exhibit "B-4")

(5) Redwood Highway near Grants Pass in Josephine County -- 40 MPH between the north city limits of Grants Pass and a point 50 feet south of Morgan Lane for southbound traffic; 45 MPH between the north city limits of Grants Pass and a point 0.16 mile north of Morgar Lane for northbound traffic. Rescinds "Speed Zone Resolution No. 268". (See Exhibit "B-6")

(6) Clackamas Secondary Highway in Clackamas County -- 35 MPH between the westerly east city limits of Milwaukie adjacent to Oatfield Road and the easterly east city limits of Milwaukie near Kimbrough Road (the city limits of Milwaukie are coincident with the centerline of the highway); 35 MPH between the easterly east city limits of Milwaukie near Kimbrough Road and a point 0.14 mile east of Kimbrough Road; and 45 MPH between a point 0.14 mile east of Kimbrough Road and the Cascade Secondary Highway, except that between a point 700 feet northwesterly of Webster Road and a point 500 feet easterly of Webster Road the indicated speed shall be 20 MPH during the hours of school crossings. Rescinds "Speed Zone Resolution No. 258". (See Exhibit "B-5")

Attention was given to a request from the Principal of Langlois School for prohibition of parking on the easterly side of the Oregon Coast Highway near the Langlois School, in Curry County. The Engineer stated that an investigation disclosed that a number of trucks park on the easterly shoulder of the highway blocking the sight distance for school buses leaving the school driveway. It was his recommendation that shoulder parking be prohibited on the easterly side of the Oregon Coast Highway in the community of Langlois between M. P. 288.01 and M. P. 288.14. The Commission approved the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "C-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

The Engineer stated that the District Maintenance Superintendent in the Medford area had called attention to traffic hazards caused by vehicles parking on the easterly shoulders of the Pacific Highway near the State Highway Department and the State Police offices north of Medford. Such parking, he continued, severely restricts sight distance for drivers wishing to enter the highway from the office driveways. He recommended that shoulder parking be prohibited on the easterly side of the Pacific Highway between M. P. 307.21 and M. P. 307.37. The Commission approved his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "C-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

Out of state travel authority was requested by the Engineer for State Highway personnel, and approved by the Commission, as follows:

(1) Dennis D. Clarke and Harry Howard, Travel Information Division, to attend and care for the Division's display at the Annual Boat, Trailer and Sports Show in Seattle, Washington, February 4 to 12, 1961, at an estimated cost of $418.90.

(2) Carl W. Jordan, Director of Travel Information Division, to attend annual meeting of the Board of Directors of the Pacific Northwest Travel Association in Spokane, Washington, on January 13 to 15, 1961, at an estimated cost of $60.30. (Confirmation)

(3) Carl W. Jordan to attend Kansas City Sports and Travel Show in Kansas City, Missouri, on January 27 to February 5, 1961. All expenses to be paid by the Pacific Northwest Travel Association.

(4) Charles Peterson, Chief of the Legal Trial Section, and Frank Towle, Engineering Investigator, to Seattle, Washington, during mid February to consult with specialists concerning the A. M. Cronin case in Portland, at an estimated cost of $137.

(5) J. Al Head, Assistant Traffic Engineer, to attend meeting of National Conference on Driving Simulation at Santa Monica, California, on February 27 through March 1, 1961, at an estimated cost of $190.

The matter of payment of annual dues to the American Association of State Highway Officials for the year 1961 was brought up by the Engineer. He explained that the dues assessed to the states are based on a percentage of the amount of federal-aid received. Oregon's share for 1961, he stated, is $1,519.50, and he recommended that the Auditor be authorized to make such payment. The Commission approved the payment.

An abandonment resolution pertaining to portions of right of way on the Trail Creek Bridge Section of the Crater Lake Highway in Jackson County was presented by the Engineer. He pointed out that when this section had been reconstructed two small crescent-shaped areas were left outside of the normal 100-foot right of way. The property is of no further use to the Highway Commission now that the new road is opened to travel, and he recommended that these two areas be abandoned to the adjoining property owners. The Commission approved the abandonment and thereupon adopted a resolution relative thereto, marked Exhibit "H-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

Attention was given to a request made by the Polk County Court that the State sell to the County the existing bridge over Rickreall Creek on the Pacific Highway West in the community of Rickreall. A contract is now underway, the Engineer stated, for replacement of this bridge. The State, he continued, has no use for the old structure as it is too narrow to be reused on the state highway system, but is adequate for minor county roads. He recommended that it be sold to Polk County for the usual price of 5 cents per pound for the steel, which would amount to approximately $3,180. The Commission approved the sale.

The Commission confirmed prior approval of an agreement with Oregon-Washington Railroad and Navigation Company, Union Pacific Railroad Company, lessee, concerning the second Rhinehart Overcrossing on the Wallowa Lake Highway in Union County. The Engineer explained briefly that a contract had been awarded December 27, 1960 for reconstruction of this section of highway, and the agreement had been sent to the Commission for approval prior to the Commission meeting. The agreement grants an easement to the State for the highway construction and maintenance on railroad property.

The Commission also confirmed an agreement, signed prior to the Commission meeting, with the Oregon-Washington Railroad and Navigation Company for additional right of way upon the Eagle Creek-Cascade Locks Section of the Columbia River Highway in Hood River County.

A "Permit of Entry" agreement with the Union Pacific Railroad Company allowing the State to make sub-surface explorations at two locations for the Brewery grade structure on the Columbia River Highway at The Dalles in Wasco County was also confirmed by the Commission.

Confirmation was made by the Commission of an agreement, previously signed, with the Medford Irrigation District covering construction on the 12th Street-Valley View Road Section of the Pacific Highway, Jackson County.

The Engineer stated that the Public Utility Commissioner is required to call upon the Highway Commission at intervals for recommendations in connection with permits issued by his office for the transportation of logs, poles and piling by motor trucks. Due to changes in highway designations, abandonment of highways, and relocations since the last printing of the Schedule "B" form, he recommended that the changes be made in the form and sent to the Public Utility Commissioner. The Commission approved the revisions as presented in the Schedule "B" form. (For details concerning these revisions see the Engineer's letter dated January 17, 1961 to the Commission, in the General Files, to which is attached a copy of Schedule "B" showing the revisions.)

The Commission accepted the Secretary's report on papers signed in behalf of the Commission during the period of December 6, 1960 through January 20, 1961.

The date for the next regular Commission meeting was set for March 10, 1961, a one day meeting with delegations to be heard in the afternoon. A tentative date for the following meeting was set for April 14, 1961.

The Commission considered a request received from the Spores Pioneer Association to name the new McKenzie River Bridges on the Pacific Highway in honor of Jacob C. Spores. The Engineer commented that an investigation had disclosed considerable historical interest in this matter and Tam McArthur, in his "Geographic Names", gave Jacob Spores full recognition as one of the first pioneers to settle in Lane County. Mr. Spores, it was found, arrived in Oregon in 1847 and started a ferry near Coburg across the McKenzie River in 1848, continuing its operation for some thirty years. He recommended that signs be erected at appropriate ends of the new twin bridges reading: "Spores Bridge - McKenzie River". The Commission approved the recommendation, contingent upon approval by the Oregon Historical Society.

Consideration was given to an agreement with Portland Traction Company granting the State permission to enter upon the Company's property to make test borings to determine foundation requirements for the proposed East Bank Freeway Section of the Pacific Highway in Portland. Upon the Engineer's favorable recommendation the Commission approved the agreement.

A resolution was presented by the Engineer concerning redesignation and exchange of highways with Linn County involving the Corvallis-Eastside Secondary Highway, the Mehama-Mill City Secondary Highway, No. 213, and the Albany-Lyons Secondary Highway, No. 211, portions of which highways are to revert to Linn County in exchange for the State taking over as a Secondary Highway the County road from Orleans to Lebanon, to be known as the Corvallis-Lebanon Secondary Highway, No. 210. The Engineer explained briefly that this matter had been considered at the December 12, 1960 meeting and at that time the Commission had approved an agreement with Linn County covering the details. Upon his favorable

recommendation the Commission adopted a resolution, marked Exhibit "J", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of January 27, 1961".

The Engineer stated that standard pedestrian signals, as adopted by the American Association of State Highway Officials and which apply to the Interstate Highway System, have been changed from the signals set up in the Oregon Law, ORS 483.134. To bring the revised signals under the Oregon law, he proposed a minor amendment to be presented to the Oregon Legislature. The Commission approved submission of the amendment.

Attention was given to a notice of street improvement assessment from the City of Madras levied against the State Highway Maintenance Station in Madras. The assessment, in the amount of $752.53, the Engineer stated, has been checked and found in order. Upon his favorable recommendation, the Commission approved payment of the assessment.

The Commission also considered a notice of street assessment submitted by the City of Woodburn for street improvements on McKinley Street adjacent to the State Highway Maintenance Station in the City of Woodburn. The Engineer stated that this assessment, in the amount of $3,577.75, had also been investigated and found to be in order. Following his favorable recommendation the Commission approved payment of the assessment.

The Commission discussed with the Engineer bids received January 24, 1961. At 11:15 a.m. the Commission awarded contracts as follows:

BIDS RECEIVED IN SALEM ON JANUARY 24, 1961

"Grading and paving on the Clackamas Overcrossing-Park Place Section of the Cascade Highway in Clackamas County. The Commission awarded the contract to the low bidder, C. R. O'Neil and Dorman Construction Company, Creswell, at $1,016,932.30.

"Tumalo State Park Overnight Camp Extension on McKenzie-Bend Highway in Deschutes County. The Commission awarded the contract to the low bidder, Rex Kimsey, Stayton, at $25,156.25.

"Paving, structure widening, and signing on the Evans Creek-Rock Point Section of the Pacific Highway in Jackson County. The Commission awarded the contract to the low bidder, Roy L. Houck Sons' Corporation, Salem, at $1,555,686.55.

"Reconstruct three structures, grading and paving on the Goshen-Coast Fork Willamette River Section of Pacific Highway in Lane County. The Commission awarded the contract to low bidder, Inter-City Construction Company, Eugene at $129,797.20

"Grading, paving and structure on the Pine Street-Market Drive Section of the Santiam Highway in Lebanon, Linn County. The Commission awarded the contract to the low bidder, Morse Bros., Lebanon, at $198,866.00.

"Grading and paving the Harrisburg (LaSalle Street) Section in Linn County. The Commission elected to accept the low bid of Roy L. Houck Sons' Corporation, Salem, in the sum of $12,580.90 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Detroit Lake State Park Overnight Camp Extension on the North Santiam Highway in Marion County. The Commission awarded the contract to the low bidder, Rex Kimsey, Stayton, at $25,376.50.

"Paving the Willamette River Bridge-Woodburn Interchange Section of the Pacific Highway in Marion and Clackamas Counties. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $275,450.30.

"Grading and paving the Irrigon-Umatilla Section of the Columbia River Highway in Morrow and Umatilla Counties. The Commission elected to accept the low bid of R. E. Hall Construction Company, Pendleton, in the sum of $317,094.50, and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Roadside improvement on the Highlands Interchange Section of the Sunset Highway in Multnomah County. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $14,213.20.

"Overcrossing structure over Union Pacific Railroad tracks, grading, surfacing, and signing, on Structure "A", Banfield Interchange, East Bank Freeway Section of the Pacific Highway in Multnomah County. The Commission elected to accept the low bid of Kuckenberg Construction Company, Inc., Portland, in the sum of $991,434.10 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

The meeting was recessed at 11:45 a.m. for lunch and was reconvened at 1:00 p.m. in the same room.

The Commission signed agreements and other papers.

Harney County Judge C. W. Craddock, Burns, headed a delegation that appeared before the Commission concerning improvements to the Frenchglen Secondary Highway between Burns and Frenchglen. Judge Craddock introduced the following members of his group: M. O. Timms, Chairman of the County Highway Committee of the Chamber of Commerce, and P. Tiller and Warner Arntz, County Commissioners, all from Burns. Harney County, he pointed out, has approximately $85,000 of FAS funds. He offered to give to the State $80,000 of these funds, which he requested be matched with a similar or larger amount of State funds for improvement of the Frenchglen State Secondary Highway. The County plans to keep the remaining $5,000 for a County FAS project. Harney County Court as well as the Roads Committee of the Harney County Chamber of Commerce, he stated, have approved such disposition of these FAS funds. In response to an inquiry from Commissioner Jackson, the Engineer explained that of the approximate 60 miles of the Frenchglen Highway a little more than one-third of it has been reconstructed, and he estimated the cost to complete the remaining 40-mile section to Frenchglen at $1,200,000. The average construction cost per mile on this highway, he continued, is near $30,000, so that if $200,000 were allocated, approximately seven miles could be constructed. Chairman McIver thanked the Judge for his offer, and instructed the Engineer to submit a report on what might be done.

Members of the Heppner-Morrow County Chamber of Commerce appeared before the Commission regarding improvement of ORE 207 between Heppner and Spray. Mr. Gene Pierce, Chairman of the Road Committee of the Chamber of Commerce, who was spokesman for the group, introduced the following members of his Chamber of Commerce: O. W. Cutsworth, Royce Fulleton, and Robert VanHoute, all from Heppner. Mr. Pierce, who also represented the Morrow County Court, told of the vital need of ORE 207 to the economy of the area. Since this highway has been changed to a Group I classification and recent improvements made by the U. S. Forest Service, he continued, traffic has increased greatly, including log and lumber trucks. The 20-mile gravel section between the forest boundary and Spray not only is narrow in spots but is the worst section on this highway, and he requested the Commission to give earnest consideration to programming for early construction. Mr. Cutsworth pointed out that there is no road into the southern end of Morrow County that is passable during the entire year. Although Heppner is becoming a shopping center for the southern end of the County, it is not getting the business it should due to the lack of good roads. At the present time, he continued, the only route into Heppner for people living in the Monument, Spray and Long Creek areas is the long route over ORE 19 via Condon or over US 395 via Ukiah. The development of Morrow County, including recreational facilities, he commented, has been hampered by inadequate roads. Mr. Fulleton, a garage owner in Heppner, pointed out the mechanical difficulties encountered by trucks in traveling over ORE 207 between Heppner and Spray because of the rough condition of the highway. Mr. VanHoute stated that the southern end of Morrow County has great potential for recreational development, and he told of the $190,000 recreational area planned by the Forest Service at Bull Prairie in Grant County, near the Wheeler-Morrow County line. It was his opinion that if the Heppner-Spray road were improved, it

would make an easier access to that recreational development. Children living along ORE 207 at the Morrow County line, he continued, must travel 34 miles by bus over that highway to attend schools in Heppner. He urged the Commission to give consideration to improvement of this highway in the formulation of next year's forest highway program. Mr. Pierce told of the logging operations in the Kinzua area and of the contemplated timber sales by the Forest Service near the Bull Prairie area which will increase truck traffic on ORE 207 to the new mill at Heppner. He presented a brief from the Chamber of Commerce, including a map, in support of their request. Chairman McIver thanked the delegation for their presentation and told them that the Commission will give their request every consideration.

There being no further business to come before the Commission, Chairman McIver declared the meeting adjourned at 1:30 p.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

January 27, 1961

Salem, Oregon
March 10, 1961

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Conference Room of the State Highway Building, Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
Floyd Query, Secretary

The Commission approved the minutes of the meeting held January 27, 1961.

The Engineer presented for the Commission's consideration five location surveys on various sections of state highways. These surveys for relocation and reconstruction of state highways, he stated, have been made with careful engineering consideration in order to provide the most adequate highway facility commensurate with the cost. The Commission approved the surveys as listed below, and thereupon adopted resolutions pertaining thereto, marked Exhibits "H-1" through "H-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961":

(1) Sheep Gulch-Vance Creek Unit, Canyon City-Seneca Section of John Day-Burns Highway in Grant County. (See Exhibit "H-1")

(2) Wildcat Creek-Walton Section of Mapleton-Eugene Highway in Lane County. (See Exhibit "H-1")

(3) Harbor Drive-Ash Street Connection of Pacific Highway West in Multnomah County. Public Hearing held in Portland on January 25, 1961. (See Exhibit "H-2")

(4) Cottage Grove-Divide Section of Pacific Highway in Lane County. Public Hearing held in Cottage Grove on December 16, 1960. (See Exhibit "H-2")

(5) Harper Junction-Burrell Ranch Unit, Juntura Vale Section of Central Oregon Highway in Malheur County. (See Exhibit "H-3")

The Parks Superintendent reported on the following park matters:

Three bids had been received on February 15, 1961, the Parks Superintendent reported, for the lease of concession privileges at Rooster Rock State Park in Multnomah County. Mr. Otho A. Jones, of Portland, had submitted a high bid of 20 per cent of the total gross sales and receipts. The two lower bidders had submitted bids of 15 per cent and 11 per cent. It was his recommendation, approved by the Commission, that the concession lease be awarded to Mr. Otho A. Jones under the terms outlined in the proposal on which he bid.

Concerning the advertising for the concession lease at Fort Stevens State Park, Clatsop County, the Parks Superintendent reported that no bids had been received on March 1, 1961 for this lease, and that it would be readvertised at a later date.

The formal designation by name of the Koberg Point area along the Columbia River about three miles east of Hood River was considered. The Parks Superintendent stated that it is planned to make wayside developments in this area, including picnic tables, water, and rest rooms. He recommended that the area be named "Koberg Beach Wayside". The Commission accepted his recommendation and thereupon adopted a resolution, marked Exhibit "K", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

A brief report was also submitted by the Parks Superintendent regarding recent damage to Ecola Park in Clatsop County caused by a large slide. Nearly all of the developed area, including the parking strip, he stated, has settled from 40 to 60 feet and continues to move slowly. However, the caretaker's house has not been damaged, nor the source of the water supply to the park, but the rest rooms have gone down with the slide. An investigation will be made of the slide by the geologist, he pointed out, and a report on the results with a recommendation will be submitted to the Commission.

The Right of Way Engineer presented for consideration options, pages 1 through 58, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

The Property Manager's report on sales of miscellaneous properties and rentals of State-owned properties was presented by the Right of Way Engineer. He commented briefly that miscellaneous sales since the last Commission meeting amounted to $30,205.26, and that rental receipts for January, 1961 totalled $4,766.50. The Commission accepted the report.

An "Indenture of Access", File 28792, was presented by the Right of Way Engineer with the United States National Bank of Portland, trustee for the estate of Roy J. Baker, on the Grass Valley-Kent Section of the Sherman Highway in Sherman County. The indenture covers a routine change in location of access and no additional access is being granted. The Commission approved the "Indenture of Access".

Attention was given to a "Grant of Access" to Dunbar and Morris, File No. 12553, on the Detroit-Niagara Section of the North Santiam Highway in Marion County. The Right of Way Engineer stated that the proposed access is in line with the access policy used for other properties in this section. In the acquisition of lands in the reservoir area, he explained, several private owners were inadvertently left without access, and this action is to correct that situation. The access is for residential purposes subject to stipulation that the road approach shall be constructed by the owner at his expense and in conformity with state highway standards. The Commission approved the "Grant of Access".

The Commission also considered and approved a "Grant of Easement and Access" to Oleta A. Walker on the Cape Sebastian-Myers Creek Section of Oregon Coast Highway, Curry County. The Right of Way Engineer pointed out that the property is isolated between the relocated Oregon Coast Highway and the ocean, the only feasible access being through an existing State-owned parcel of property. Under this "Grant" the 25-foot access will follow an old wagon road and will be restricted to residential purposes.

Authority was requested by the Right of Way Engineer to offer at public sale a number of excess parcels of highway property. Each of these parcels, he stated, has been cleared through the Engineering Division as to its being needed for state highway purposes. Access provisions are consistent with Department policies as practiced in the vicinity of each parcel. The minimum consideration in each instance is based upon appraised value or upon an offer which exceeds the appraised value. Upon his favorable recommendation, the Commission authorized public sale of the following parcels and thereupon adopted resolutions relative thereto, marked Exhibits "D-1" through "D-5", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

(1) Vannice property, File No. 25665, and Quimby property, File No. 25667, on the Albany-Judkins Point Section of the Pacific Highway, Linn County, consisting of three parcels as follows: Parcel 1 - 11.18 acres for a minimum consideration of $1,900; Parcel 2 - 51 acres for a minimum consideration of $5,000; and Parcel 3 - 16.6 acres for a minimum consideration of $2,850. No access is to be granted to the Pacific Highway on any of these parcels, and an advertising sign restriction is to be imposed on all of them. (See Exhibit "D-1")

(2) 8,481 square feet of land, File No. 26467, on the Willamette River-42nd Avenue Section of the Columbia River Highway, Multnomah County, for not less than $17,000. No access is to be permitted to the Columbia River Highway, and an advertising

sign restriction will not be imposed. (See Exhibit "D-2")

(3) 4,650 square feet of land, File No. 9486 and No. 9524, on the North Bend-Coos Bay Section of the Oregon Coast Highway, Coos County, for not less than $4,000. No access or advertising sign restriction is to be imposed. (See Exhibit "D-3")

(4) 2.1 acres of land, File No. 23318, on the Grants Pass Interchange Section of the Pacific Highway, Josephine County, for not less than $2,500. No access is to be permitted to the Pacific Highway and an advertising sign restriction is to be imposed. (See Exhibit "D-4")

(5) 14,084 square feet of land, File No. 27272, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway, Multnomah County, for not less than $9,500. No access is to be permitted to the Pacific Highway and an advertising sign restriction is to be imposed. (See Exhibit "D-5")

Direct sale of a parcel of land to Klamath County was recommended by the Right of Way Engineer. This parcel of property, he stated, consists of 38 acres on the Pelican City-South Sixth Street Section of the Klamath Falls-Malin Highway, Klamath County, about one thousand feet easterly from the Klamath Falls city limits. The County wishes to acquire the property as a site for a juvenile home. He recommended that it be sold to the County for $7,600 which is at the rate of $200 an acre, the original purchase price. The Commission approved the sale with the stipulation that the deed is to contain a public use clause, and thereupon adopted a resolution relative thereto, marked Exhibit "E", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

Consideration was given to a proposed lease agreement with Josephine County covering 2.93 acres on the Williams Secondary Highway to be used for a stockpile site for a period of ten years. The Right of Way Engineer commented that the lease to the County is to be on a gratis basis, cancellable on 30 days' notice. Following his favorable recommendation the Commission approved the lease.

The Commission considered a trust agreement with Bonneville Power Administrator covering the cost of revising BPA facilities on the Boardman Junction-Irrigon Section of the Columbia River Highway, Morrow County. The Right of Way Engineer commented briefly that two highway crossings of BPA structures are involved, and it is their intention to replace the single towers with double towers. Total cost of the project is estimated at $41,200, and under the usual procedure in dealing with Bonneville Power Administrator in these matters, it is required that the State place the estimated cost in a trust fund. Based upon his favorable recommendation, the Commission approved an agreement covering this transaction.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "J-1" through "J-19", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated March 10, 1961, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

The Chief Counsel requested, and the Highway Commission approved, condemnation of the Oleta Walker property, File No. R-32522, on the Hunter Creek-Myers Creek Section of the Oregon Coast Highway, Curry County, to take care of a slide area. This authority was granted if negotiations are not successful. (See Exhibit "J-20")

A written report of condemnation cases and other cases which have been tried in court since the last Commission meeting was presented by the Chief Counsel. The Commission accepted the report which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendent's Demand	Verdict
L-2888 Alvin Eri, et al	Clackamas	Mt. Hood	Sandy-Forest Boundary	$1,000	$ 7,500	$ 3,350 plus $ 311
L-3558 W. C. Donahue, et al	Linn	Santiam	Albany-Pacific Highway Interchange	$ 700	$ 3,500	$ 2,000
L-3560 Milton R. Martin, et al	Linn	Santiam	Albany-Pacific Highway Interchange	$ 500	$ 2,225	$ 1,250
L-3562 Marion E. Platt, et al	Linn	Santiam	Albany-Pacific Highway Interchange	$1,490	$ 3,000	$ 2,000

(Report of Condemnation Cases Tried - Cont.)

Case	County	Highway	Section	State's Offer	Defendent's Demand	Verdict
L-3327 Martha Lee Vance, et al	Malheur	Old Oregon Trail	Ontario-Snake River	$ 100	$ 2,400 approximately	$ 2,000
L-3594 Harney S. Giffin, et al	Multnomah	Pacific	North Portland Harbor-North Russell Street	$ 4,300 revised upward $ 200	$ 6,950	$ 6,000
L-3480 Linda Sider Visnapu, et vir	Polk	Willamina-Sheridan	Buell Road-Willamina	$ 300	$ 1,100	$ 750
L-3255 Walter C. Bodyfelt, et al	Tillamook	Little Nestucca Secondary	Meda	$ 5,900	over $12,000	$15,570
				(Motion for a new trial pending)		
L-3078A Adrian Kromwall, et ux	Marion	Santiam	Lancaster Drive-Sublimity Gun Club	$ 9,800	$13,000	$ 9,800
				(Remanded to Circuit Court for new trial)		
L-3395A William C. Ralston, et ux	Multnomah	Pacific	Hamilton Street-Slavin Road	$ 1,000	$10,000 (Answer)	$ 2,000
				(Judgment in lower court reversed and remanded for new trial.)		

(For additional details see the Chief Counsel's letter of March 3, 1961, entitled "Report of Cases Tried" and a letter of correction dated March 14, 1961, in General Files.)

The Chief Counsel reported briefly on the recently received verdict concerning the Roger Von der Hellen, et al case, File No. L-3318, R-28413, on the Seven Oaks-Neil Creek Section of the Pacific Highway in Jackson County. The State's highest testimony, he stated, was $23,340 and a verdict was returned in the amount of $24,690.

Concerning the Walter C. Bodyfelt, et al case, File L-3255, R-28924, the Chief Counsel pointed out that the State believes a reversible error was made by the Judge, and a motion for a new trial has been filed, after which the State will file a notice of appeal.

March 10, 1961

For the Commission's information, the Chief Counsel explained that occasionally on the "Report of Condemnation Cases Tried" the State's offer is less than the State's highest testimony. This is due to the fact that subsequent to the filing of an action it is often necessary to make changes in highway construction plans, including the granting, revision or removal of access, or the acquisition of additional land. The letter of offer must be mailed prior to the filing of the action so once the State has filed the action it cannot send out a new letter of offer.

A report was also presented by the Chief Counsel on condemnation and other cases which have been settled out of court since the last Commission meeting. He presented in brief oral detail some of the facts connected with the Morehouse Holding Company case, File No. L-2871, with the Coos Bay Oyster Co-op, and others. The Commission accepted the report, which is summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-28741 Wilda R. Dunmire, et vir	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 7,500	$ 7,500
R-32332 Morris Adair, et al	Clatsop	Oregon Coast	Astoria-Camp Rilea	$ 50	$ 50
R-32334 Walter Ross, et al	Clatsop	Oregon Coast	Smith Point-Camp Rilea	$ 50	$ 50
R-24033 Mary F. Rice, et vir	Douglas	Pacific	Rice Hill-Oakland Junction	$ 4,425	$ 4,700
R-31079 Irene Church, et al	Harney	Frenchglen	Wrights Point-The Narrows	$ 250	$ 501
		(25-year lease for removal of materials taken instead of fee title. Mineral, oil and gas rights reserved by owner and materials not to be used outside Harney County.)			
R-30581 J. S. Lydiard, et ux	Jackson	Pacific	Seven Oaks-Neil Creek	$ 3,825	$ 6,300
R-31276 Wayne Zurflueh, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$ 1,110 including fencing	$ 1,110 including fencing

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30993 Rodney Tripp, et al	Linn	Santiam	Albany-Pacific Highway Interchange (See remarks in letter)	$ 7,445	$ 8,000
R-31000 Rodney Tripp, et al	Linn	Santiam	Albany-Pacific Highway Interchange (See remarks in letter)	$ 820	$ 1,000
R-31573 Francine Evans, et al	Morrow	Columbia River	Boardman Junction-Umatilla (Settled by option dated December 20, 1960. Option varies from offer and complaint in that additional accesses granted in option and approved by Right of Way Engineer.)	$ 170	$ 25
R-32323 Fred Andrews, Jr., et ux	Morrow	Columbia River	Boardman Junction-Umatilla	$ 308	$ 308
R-20563 Wilbert E. Hamilton, et ux	Polk	Pacific West	Rickreall-Orr Corner	$ 225	$ 315
R-29648 Tenet Mortgage Co., et al	Multnomah	Pacific	North Portland-North Russell St. (See remarks in letter)	$ 3,200	$ 4,250
R-23708 Alan C. Weiler, et al	Umatilla	Pendleton-John Day	Emigrant Avenue-Frazer Avenue Couplet (Pendleton) (See remarks in letter)	$ 350	$ 240
R-26871 Morehouse Holding Co.	Multnomah	Pacific	Grand Avenue-Union Avenue One-Way Couplet (See remarks in letter)	$15,717.50 on basis of taking slope easement	$19,000.00
R-31592 Jane Brownell, et al	Umatilla	Columbia River	Irrigon-Umatilla	$ 910	$ 910

March 10, 1961

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-3393 United Grocers, Inc.	Multnomah	Pacific	East Bank Freeway	$36,000 prior to revision of taking	$55,000

(This settlement voids that approved by Commission under date of March 10, 1960. Previous settlement was made on plans and appraisals which had not taken into consideration the closure of an adjacent street by an off ramp of Morrison Street Bridge. Before closing of previous settlement these facts became known and settlement never consummated. Reappraisal on final plans is as indicated and settlement considered not substantially above.)

REPORT OF OTHER CASES SETTLED

Case & Plaintiff	Defendant	County	Cause of Action	Demand of Plaintiff	Settlement
L-3413 Carrie Marolf	State Highway Commission	Tillamook	Inverse Condemnation (See letter)	$ 10,000	$ 750

(Besides the settlement figure State is to grant plaintiff access to Oregon Coast Highway, 25 feet in width, on easterly side at Station 137+50 for farm and residential use only. Also State is to convey to plaintiff 1 acre of excess land on northeasterly side of highway in northeast corner of Section 17, Township 2 South, Range 9 West.)

L-2819 Coos Bay Oyster Coop. for itself and as assignee of Herman A. Hahn, et al, R.W. Hellman, et al, Paul D. Sigloh, et al, Mertice B. Buchner, et al, May F. Padrick, et al	State of Oregon	Coos	Inverse Condemnation (See letter) (See remarks in letter)	$156,000	$ 7,500

(For additional details see the Chief Counsel's letter of March 3, 1961, "Report of Cases Settled", and his letter of March 9, 1961, "Supplemental Report of Cases Settled", in the General Files in Salem.)

March 10, 1961

Confirmation was requested by the Chief Counsel for telephonic approval given by members of the Commission on offers to be tendered to property owners prior to the institution of condemnation proceedings. The Commission confirmed the offers as follows:

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-28890 - Richard T. Childress, et al. Parcel No. 1: 0.42 acre for right of way purposes; and Parcel No. 2: 0.55 acre for permanent easement. Offer of $3,315.00 approved by Mr. Jackson, February 9, 1961.

R-28896 - George L. Wing, et ux. 0.22 acre for right of way purposes. Offer of $400.00 approved by Mr. Jackson, February 23, 1961.

R-29063 - Dolph E. Phipps, et al. Parcel No. 1: 0.04 acre for right of way purposes; and Parcel No. 2: 0.60 acre for permanent easement. Offer of $250.00 approved by Mr. Jackson, February 10, 1961. An offer of $100.00 was approved by Mr. Jackson, November 29, 1960. This increase is due to the addition of Parcel No. 2.

R-29068 - Mary Lytle, et al. Parcel No. 1: 0.8 acre for right of way purposes; and Parcel No. 2: 0.68 acre for right of way purposes. Offer of $20,150.00 approved by Mr. Jackson, February 20, 1961.

R-29316 - H. H. Dietrich, et al. Parcel No. 1: 11.15 acres for right of way purposes; and Parcel No. 2: 0.25 acre for permanent easement. Offer of $14,100.00 approved by Mr. Jackson, February 23, 1961. An amount of $14,000.00 was approved by Mr. Jackson, January 24, 1961. This revised amount is due to the addition of Parcel No. 2.

R-29325 - Martin Detlef Schnack, et al. Parcel No. 1: 2.88 acres for right of way purposes; and Parcel No. 2: 3.06 acres for right of way purposes. Offer of $5,280.00 approved by Mr. Jackson, January 27, 1961.

R-29335 - Bert B. Lowry, et ux. 0.08 acre for right of way purposes. Offer of $100.00 approved by Mr. Jackson, February 14, 1961. An amount of $250.00 was approved by Mr. Jackson, January 16, 1961. This revised amount is due to a reduction in acreage.

R-29336 - Walter S. Germer, et ux. 8.06 acres for right of way purposes. Offer of $13,300.00 approved by Mr. Jackson, February 7, 1961.

R-29337 - Sarah I. Pinelli, et al. Parcel No. 1: 11.43 acres for right of way purposes; Parcel No. 2: 0.6 acre for right of way purposes; Parcel No. 3: 23.3 acres for right of way purposes; and Parcel No. 4: 0.37 acre for permanent easement. Offer of $25,150.00 approved by Mr. Jackson, February 23, 1961.

R-29339 - Norman Glascock, et ux. Parcel No. 1: 4.6 acres for right of way purposes; and Parcel No. 2: 0.94 acre for material source. Offer of $8,250.00 approved by Mr. Jackson, February 9, 1961.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY - Cont.

R-29345 - Scott B. Zackary, et al. Parcel No. 1: 4.68 acres for right of way purposes; Parcel No. 2: 0.53 acre for right of way purposes; and Parcel No. 3: 0.30 acre for temporary easement. Offer of $18,225.00 approved by Mr. Jackson, January 27, 1961.

R-29352 - Earl T. Newbry, et al. Parcel No. 1: 0.42 acre for right of way purposes; Parcel No. 2: 0.38 acre for right of way purposes; and Parcel No. 3: 0.5 acre for temporary easement. Offer of $4,800.00 approved by Mr. Jackson, February 23, 1961.

R-30044 - Frank L. Earhart, et ux. 3.15 acres for right of way purposes. Offer of $16,950.00 approved by Mr. Jackson, February 14, 1961.

R-31132 - Ruby Lee Taylor, et al. 1.93 acres for right of way purposes. Offer of $2,450.00 approved by Mr. Jackson, February 15, 1961.

R-31133 - Gordon LeManquais, et al. 9.27 acres for right of way purposes. Offer of $23,350.00 approved by Mr. Jackson, January 29, 1961.

R-31136 - Earnest G. Childreth, et al. 0.02 acre for right of way purposes. Offer of $2,300.00 approved by Mr. Jackson, March 1, 1961.

R-31143 - Harvey J. Peterson, et al. Parcel No. 1: 0.12 acre for right of way purposes; and Parcel No. 2: 0.34 acre, acquisition of owners' interests for right of way purposes. Offer of $6,130.00 approved by Mr. Jackson, February 7, 1961.

R-31144 - Perry D. Spence, et al. Parcel No. 1: 0.01 acre for right of way purposes; Parcel No. 2: 0.03 acre for right of way purposes; Parcel No. 3: 50 square feet for right of way purposes; and Parcel No. 4: 0.34 acre, acquisition of owners' interest for right of way purposes. Offer of $3,550.00 approved by Mr. Jackson, February 7, 1961.

R-31206 - Louise L. Serpa, et al. Parcel No. 1: 2.8 acres for right of way purposes; and Parcel No. 2: 0.11 acre for right of way purposes. Offer of $900.00 approved by Mr. Jackson, January 27, 1961.

R-31469 - George E. Nerton, et al. Parcel No. 1: 9.7 acres for right of way purposes; Parcel No. 2: 4.0 acres for right of way purposes; and Parcel No. 3: 0.1 acre for right of way purposes. Offer of $23,300.00 approved by Mr. Jackson, February 27, 1961.

BOARDMAN JUNCTION-UMATILLA SECTION OF THE COLUMBIA RIVER HIGHWAY

R-32106 - Terteling Land Company. 3.25 acres for right of way purposes. Offer of $135.00 approved by Mr. Fridley, March 6, 1961.

BOARDMAN JUNCTION-UMATILLA SECTION OF THE COLUMBIA RIVER HIGHWAY-(Cont)

R-32108 - West Extension Irrigation District. Parcel No. 1: 2.8 acres for right of way purposes; Parcel No. 2: 1.2 acres for right of way purposes; and Parcel No. 3: 1.5 acres for right of way purposes. Offer of $220.00 approved by Mr. Fridley, February 14, 1961.

R-32319 - Port of Morrow. 1.0 acre for right of way purposes. Offer of $25.00 approved by Mr. Fridley, February 14, 1961.

R-32321 - Umatilla Electric Cooperative Association. Parcel No. 1: 0.06 acre for right of way purposes; and Parcel No. 2: 0.44 acre for permanent easement. Offer of $50.00 approved by Mr. Fridley, February 14, 1961.

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY

R-30748 - O. D. Dickerson, et ux. 0.25 acre for right of way purposes. Offer of $5,650.00 approved by Mr. McIver, March 3, 1961.

R-32092 - George G. Lowe, et ux. 0.05 acre for right of way purposes. Offer of $150.00 approved by Mr. McIver, February 23, 1961.

R-32093 - Eugene Clower, et ux. 0.08 acre for right of way purposes. Offer of $80.00 approved by Mr. McIver, February 10, 1961.

HERMISTON-HINKLE SECTION OF THE HERMISTON HIGHWAY

R-31456 - Ella A. Sharp, et al. 1.05 acres for right of way purposes. Offer of $2,700.00 approved by Mr. Fridley, February 10, 1961.

R-31459 - H. George Gettman, et al. Parcel No. 1: 2.88 acres for right of way purposes; and Parcel No. 2: 5.0 acres for right of way purposes. Offer of $5,850.00 approved by Mr. Fridley, February 6, 1961.

R-31460 - Ethel Frances Borthwick Neace, et al. 1.9 acres for right of way purposes. Offer of $1,592.50 approved by Mr. Fridley, February 9, 1961.

FREMONT INTERCHANGE-MARQUAM BRIDGE SECTION OF THE STADIUM FREEWAY

R-32351 - Gordon E. Brown, et al. 7,000 square feet for right of way purposes. Offer of $31,500.00 approved by Mr. McIver, February 23, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29794 - Leonard K. Stohr, et ux. 5,000 square feet for right of way purposes. Offer of $17,000.00 approved by Mr. McIver, February 17, 1961.

R-30230 - Alex Lukas, et ux. 8,090 square feet for right of way purposes. Offer of $9,975.00 approved by Mr. Mc Iver, February 23, 1961.

BAKER-PLEASANT VALLEY SECTION OF THE OLD OREGON TRAIL HIGHWAY

R-32405 - Doris Macomber, et al. 13.0 acres for slide control. Offer of $65.00 approved by Mr. Fridley, February 20, 1961.

NEWPORT-TOLEDO SECTION OF THE CORVALLIS-NEWPORT HIGHWAY

R-24857 - John W. Goodyear, et ux. Parcel No. 1: 0.12 acre for right of way purposes; and Parcel No. 2: 1,000 square feet for permanent easement. Offer of $100.00 approved by Mr. McIver, February 17, 1961.

BIG EDDY-BIGGS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-32434 - Sandra Kay Carlisle, et al. 11.20 acres for stock pile and material source. Offer of $280.00 approved by Mr. Fridley, February 7, 1961.

T. H. BANFIELD EXPRESSWAY

R-20068 - S. N. Mayhew, et ux. 2,875 square feet for storm sewer pipe line. Offer of $350.00 approved by Mr. McIver, February 23, 1961.

NESKOWIN-SALMON RIVER SECTION OF THE OREGON COAST HIGHWAY

R-30443 - Lawrence Gnos, et ux. 0.61 acre for right of way purposes and slide control. Offer of $50.00 approved by Mr. McIver, March 2, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31719 - Cora M. Kiernan, et vir. 3,440 square feet for right of way purposes. Offer of $200.00 approved by Mr. McIver, February 20, 1961.

MYRTLE POINT-BRIDGE SECTION OF THE COOS BAY-ROSEBURG HIGHWAY

R-31437 - W. L. Bell, et al. 4.27 acres for right of way purposes. Offer of $1,800.00 approved by Mr. Jackson, February 14, 1961.

A report was made by the Chief Counsel and accepted by the Commission concerning orders enacted by the Public Utility Commissioner in which the State Highway Commission has been a party. The orders are summarized, as follows:

PUX 363: LaSalle Street Crossing Signals, Harrisburg. This concerned application of the City of Harrisburg for an order to require Southern Pacific Company to install electric signals at the crossing of Southern Pacific's main line track and LaSalle Street in Harrisburg. A motion was made and allowed to withdraw the petition without prejudice.

March 10, 1961

PUX 366: Warrenton Grade Crossing, Oregon Coast Highway, Spokane, Portland and Seattle Railway Company, Clatsop County. This matter arose upon application of the Highway Commission for authority to construct a signalized grade crossing on the revised location of the Oregon Coast Highway. The issue was resolved in favor of the Highway Commission. A motion to amend the order has been filed to allow construction of 10-foot widths of pavement for stopping lanes, and to change the type of signaling.

PUX 367: Smith Point Grade Crossing, Oregon Coast Highway, Spokane, Portland and Seattle Railway Company, Clatsop County. Motion to amend order 37512, issued January 6, 1961, has been made to allow the State to construct additional 10-foot widths of pavement for stopping lanes, and to change the type of signal.

PUX 371: Weyerhaeuser Truck Road Crossing near Bly, Klamath Falls-Lakeview Highway. Concerns private truck road crossing across the highway near Bly. No costs were imposed upon the Highway Commission.

PUX 373: 2nd Hood River Overcrossing, Columbia River Highway, Hood River. This involves the second overcrossing of the tracks of Union Pacific Railroad. The order was issued in accordance with the petition and the testimony presented at the hearing.

PUX 378: State Street Grade Crossing, Silver Creek Falls Highway, Salem. This involves application of the Highway Commission to improve the existing grade crossing and change the location of the signals on the highway where it crosses the tracks of the Southern Pacific Company, near the State Highway Shops. The order was issued in accordance with the petition and testimony presented at the hearing.

PUX 381: Hocken Street Grade Crossing, Beaverton. This concerns improvement of an existing crossing of the tracks of Southern Pacific Company in Beaverton. The order provides for installation of automatic electric signals at the railroad grade crossing and the installation of traffic signals at the crossing of the Tualatin Valley Highway. The installation and maintenance of the highway traffic signals is to be the responsibility of the City of Beaverton.

PUX 386: Three Mile Lane Overcrossing, Southern Pacific Company, on the Salmon River Junction-West McMinnville Junction Section of the Three Mile Lane Highway in Yamhill County. This concerns an application of the Highway Commission for an overcrossing of the tracks of Southern Pacific Company. The order was issued in accord with the petition and testimony presented at the hearing.

PUX 391: Madras Overcrossing Widening, concerning an application by the State Highway Commission for the widening of an existing overcrossing structure over the Oregon Trunk Railway on the Warm Springs Highway, north of Madras. The order is in accord with the petition and testimony presented at the hearing.

PUX 392: Medford Corporation Private Truck Road Crossings, Medford. This matter involves construction of approximately 1.3 miles for private truck road to be used by Medford Corporation in lieu of an abandoned portion of its private logging railroad. Expense of the revision is to be borne by the State.

PUX 398: Medrord Corporation Private Truck Road Crossing of existing Pacific Highway at Medford. Medford Corporation is to bear the cost of the conversion, including installation and maintenance of electric signals. This conversion is a part of the over-all plan under PUX 392, above.

PUX 400: Sherman Highway Overcrossing, West of Biggs. Concerning an application of the State Highway Commission for an overcrossing of the tracks of Union Pacific Railroad on a revised location of the Sherman Highway. The revised location will provide a connection with the bridge being constructed across the Columbia River. The order was issued in accord with the petition and testimony presented at the hearing.

PUX 401: Sherman Highway Overcrossing, South of Biggs. Involving an application of the State Highway Commission for an overcrossing of the tracks of Union Pacific Railroad on a revised location of the Sherman Highway. The revised location will provide a connection with the bridge being constructed across the Columbia River. The order was issued in accord with the petition and testimony presented at the hearing.

A list of claims to be abandoned was presented by the Chief Counsel. He explained that the Legal and Right of Way Division has been going through its files of claims against others, and a number have been found in which collection appears to be hopeless. He pointed out that among some of the reasons for non-collection are bankruptcy, no insurance, no address, and small claims not worth collecting in court. The Commission approved abandonment of the following claims:

CAO No.	Name	Amount of Claim
59-256	Edward K. Kosak	$ 120.42
60-258	Veryl A. McFadden	158.84
60-124	Ralph D. Thomas	30.35
59-254	Leonard W. Bennett	154.43
58-228	Earl B. Jones	90.22
59-135	Thomas Amweg	245.00
59-97	William B. Wisor	36.20
60-132	Howard M. Humpage	225.46
58-169	George Shipp	20.55
58-26	Arthur Blick	53.51
58-19	James L. Hobbs	24.00
58-107	Harold D. Good	24.70
58-89	John W. Smith	61.04
60-97	Clay Thomas	231.00
58-108	Dean Warfield	36.83
58-159	Thomas G. Elliot	30.00
57-245	Gerald Duane Mendorff	98.97

(For additional details see the Chief Counsel's letter of March 3, 1961, entitled "Report of abandoned claims" in the General Files.)

The Chief Counsel brought up the matter of a legal action filed by Albert Straus and Frank Straus for damages in the amount of $102,000 caused by the alleged starting of a fire by a highway employee operating a mower on the Sams Valley Highway No. 271, about five miles northeast of Gold Hill. A rewritten complaint, he stated, has now been served in which the amount of damages asked is $79,000. Appropriate action, he stated, will be taken to defend the interest of the State. The Commission accepted the report.

The Commission considered a petition from Vernon D. Scott to vacate a portion of 15th Avenue East in Eugene, between Blocks one and two of Victoria Heights Addition to Eugene, extending from the center line of Maple Street (vacated) in an easterly direction to the northwest boundary of Birch Lane, the easterly terminus of said 15th Avenue East. The petition has been investigated, the Chief Counsel stated, and the vacation will not be detrimental to the State. He recommended that it be approved by the Commission, and that the Secretary be authorized to sign the "Consent to Vacate". The Commission approved the recommendation.

Consideration was given to a claim made by Cal-Pac Utilities Company for damages caused by water in offices below the Resident Engineer's office in the Rand Building in Baker. The Chief Counsel stated that because of a malfunction of equipment water had overflowed in the Resident Engineer's office June 23 and 24, 1960, and had damaged the utilities offices below in amount of $632. He recommended that the Commission pay damages in the amount of $500, the maximum permissible in an instance of this sort, provided the Utilities Company would give proper release. The Commission approved the payment.

Consideration was also given to a claim in the amount of $122.29 against L. M. Dent for labor furnished by the State for flagging traffic near the junction of the Green Springs and Siskiyou Highways in Jackson County. The Chief Counsel explained briefly that the expenses had been incurred when traffic had been detoured because of the house-mover's breakdown on January 8, 1959, but the insurance company had refused to pay the full amount and had offered to pay the sum of $50. Upon his favorable recommendation, the Commission authorized the compromise settlement in the sum of $50.

The Chief Counsel requested, and the Commission granted, authority to take legal action to recover damages on the following claims:

(1) Claim CAO 58-129, Harold H. Buessow in amount of $134.63 for damage to guardrail.

(2) Claim CAO 56-329, John Earl Shaffer in amount of $907.16 for damage to State equipment in automobile collision.

A brief oral report was presented by the Chief Counsel concerning the status of the case of Elmer Hyppa vs. State Highway Commission, The Grand Aerie, et al. He recalled that this case involved vehicular accidents which occurred a year or so ago on the Salem By-pass Section of the Pacific Highway. The case, as it now stands, has excluded the Highway Commission, but the State Highway Engineer is still involved. The insurance company apparently plans to make a settlement. The Commission accepted the report.

The Commission considered appointment of a Chief Counsel. Upon motion of Commissioner Fridley, seconded by Commissioner Jackson and declared unanimous by Chairman McIver, the Commission reappointed Mr. Leonard I. Lindas as Chief Counsel for a term of four years, beginning April 1, 1961, and thereupon adopted a resolution, marked Exhibit "I", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

The Engineer reported that he had made awards of contracts which had been referred to him by the Commission to award when certain conditions had been taken care of. The Commission confirmed award of the following contracts:

(1) Grading and paving the Irrigon-Umatilla Section of the Columbia River Highway, Morrow and Umatilla Counties. Bids received January 24, 1961. Contract awarded February 23, 1961 to R. E. Hall Construction Company, Pendleton, low bidder.

(2) Grading and paving the Harrisburg (LaSalle Street) Section in Linn County. Bids received January 24, 1961. Contract awarded March 2, 1961 to Roy L. Houck Sons' Corporation, Salem, low bidder.

The Commission considered the following item of unfinished business which appeared on the Secretary's Summary as of January 27, 1961: Offer of Harney County Judge C. W. Craddock to use County FAS funds for work on the Frenchglen State Secondary Highway No. 440: The Engineer recalled that at the previous meeting the offer had been presented by a delegation, including a request that the Commission also make available all additional funds possible. The Commission had instructed him to determine what work might be done. Harney County, he stated, has approximately $60,000 that they can apply on the Frenchglen Secondary Highway. He recommended the undertaking of a seven or eight mile job at an estimated cost of $250,000 to be financed with $60,000 County Federal-aid Secondary money, $40,000 State matching money, and $150,000 to be transferred from the Crane-Scotts Butte Highway in Program VII. He pointed out that although the transfer of funds would reduce the amount of money for work on the Crane-Scotts Butte Highway there would still remain enough from the original allocation of $405,000 in Program VII to resurface the most critical parts of the highway. He also mentioned the possibility of the State securing some Federal lands highway money on this project. The Commission approved the project as presented.

The placement of temporary construction speed zones was reported by the Engineer and approved by the Commission, as follows:

(1) 35 MPH on the Columbia River Highway, US 730, between M.P. 175.90 and M.P. 181.34 in Morrow and Umatilla Counties, effective 8:00 a.m. February 6, 1961.

(2) 35 MPH on the Goshen-Coast Fork Section of the Pacific Highway in Lane County, from M.P. 134.07 to M.P. 134.27; from M.P. 136.25 to M.P. 136.45; and from M.P. 137.75 to M.P. 137.95, effective 8:00 a.m. February 2, 1961.

(3) 30 MPH on the Rogue River Highway, near Homestead Overcrossing in Jackson County, between M.P. 12.44 and M.P. 12.94, effective 8:00 a.m. February 28, 1961.

The placing of a reduced load limit on the Elkton-Sutherlin Highway, No. 231, between M.P. 4.22 and M.P.7.09 was reported by the Engineer. This reduced limit, he stated, allows 11,000 pounds gross on any single axle and 20,000 pounds gross on any tandem axle, effective 8:00 a.m. February 17, 1961, and is necessary until the roadbed becomes drier and more stabilized.

He also reported that the condition of the roadbed on the Elkton-Sutherlin Highway, No. 231, had improved to such an extent that a reduced load limit, which had been placed February 17, was removed 1:30 p.m., February 24, 1961, between M.P. 4.22 and M.P. 7.09. The Commission approved the Engineer's actions.

Installation of a traffic signal at the intersection of the Tualatin Valley Highway and Hocken Street in the City of Beaverton was considered. The Engineer explained that Hocken Street leads from the industrial area occupied by Textronics, Inc. and that completion of this street will result in a great deal of industrial traffic entering and crossing the Tualatin Valley Highway. Also, the proximity of the Southern Pacific Railroad on the southerly side of the Tualatin Valley Highway presents a hazardous condition. He recommended that a fully-actuated traffic signal be installed at the intersection, at an estimated cost of $15,000, to be interconnected with flashing light railroad signals which are to be installed at the railroad crossing. He pointed out that his recommendation is contingent upon the installation of the flashing light railroad signals. The City of Beaverton, he continued, has indicated its willingness to pay one-half of the cost of the installation of the traffic signal and to provide for all future maintenance and power consumption. Upon his favorable recommendation the Commission approved the project as presented.

The Engineer reported that about twenty years ago traffic signals were installed at certain intersections on North Interstate Avenue (Pacific Highway) in the City of Portland. The signals now are antiquated, worn out, and do not meet present standards. He recommended that traffic signals be revised at the following intersections on North Interstate Avenue:

(See following page)

North Russell Street
North Greeley Avenue
North Shaver Street
North Going Street
North Alberta Street
North Killingsworth Street
North Ainsworth Street
North Portland Boulevard
North Denver-Argyle Avenue

He estimated the total cost of the revision at $20,000 and stated that the City of Portland has indicated its willingness to pay one-half the cost of the installation and to continue to maintain the signals and pay for electrical energy used. The Commission approved the project.

Attention was given to a request from Mr. Albert Streiff, Portland, and others, for the installation of traffic signals at the intersection of the Beaverton-Hillsdale Highway and Shattuck Road, west of Portland. The Engineer stated an investigation disclosed that the accident record at this intersection has been relatively high and the traffic volumes exceed the warrants required for the installation of signals. He recommended that a two-phase, fully actuated traffic signal be installed at an estimated cost of $10,000 to be paid for with State funds as the intersection is outside of the City. The Commission approved the project.

The Commission also considered a request made by Mr. Bill Love, S. E. 112th Avenue and Powell Boulevard, Portland, for the installation of traffic signals at that intersection. The intersection, the Engineer stated, is a part of the Mt. Hood, Highway and an investigation conducted by the Traffic Engineer indicated that traffic conditions at this intersection do not meet the standard warrant for the installation of traffic signals; however, the accident record in the past five years has been bad, and the Engineer recommended that a flashing beacon be installed at an estimated cost of $1,000 to be paid for with State funds. The Commission approved the installation.

The matter of releasing to the City of Portland the Highway Commission's interest in the ornamental street lighting district along N. E. Grand Avenue, from N. E. Everett Street to N. E. Holladay Street, was discussed. The Engineer stated that the City is planning to take over the lighting system and integrate it with the over-all City system, to be operated at City expense. A "Form of Conveyance" has been presented for the Commission's approval releasing to the City the Highway Commission's interest in the lighting system. It was his recommendation that the conveyance be approved. The Commission accepted his recommendation.

Consideration was given to a letter from H. F. Logue, Secretary of the Ontario Chamber of Commerce, requesting that the road serving the Owyhee Reservoir area be oiled. This road, the Engineer commented, is approximately 16 miles in length and is in bad condition; however, it is not a state highway. He also commented that the number of people traveling the road to visit the Owyhee Reservoir area has increased greatly,

particularly during the last year. He requested, and the Commission granted, authority to conduct an investigation as to the cost of improving the road to a suitable standard and to discuss the matter with the Malheur County Court as to what cooperation they can provide.

A cooperative project with the City of Bandon was presented by the Engineer concerning improvement of the Oregon Coast Highway from Michigan Avenue to Grand Avenue in the City. For some time, he explained, negotiations have been underway with the City for widening this section, which is approximately 0.38 mile in length. The project would consist of grading, drainage, curbs, paving, et cetera, at a total estimated cost of $117,000. Included in the $117,000 estimate is the cost of replacing a structure over Ferry Creek estimated to cost $12,000 which he felt should be an obligation of the State. He recommended that the Commission approve the project, provided that the City will pay 25 per cent of $105,000, or $26,250. This, he pointed out, is in line with a long established policy of the Commission that such improvements be undertaken if the City will provide 25 per cent of the cost. The Commission approved the project as presented.

An agreement with the U.S. Corps of Engineers was presented, covering construction of four viewpoints on the Columbia River Highway, about 10 miles east of Umatilla in Umatilla County. The Engineer recalled that negotiations had been underway for some time, and the Commission at its meeting of August 19, 1960 had authorized entering into an agreement. The agreement provides that the Federal Government will grant an easement to the State on three parcels and fee title to a fourth, construct bull rails and place riprap as needed. The State is to do the necessary grading and surfacing on the viewpoints, at an estimated cost of $8,000, and is to maintain them after construction. Based on his favorable recommendation, the Commission approved the agreement.

The Commission considered a request for an extension of time within which to complete a highway construction contract. The Engineer explained the conditions which prevailed during the contract and made his recommendation on the following request:

(1) Earl L. McNutt Company, Contract No. 5445, for grading and structures on the West Unit, Siuslaw River-Walton Section of the Mapleton-Eugene Highway No. 220 in Lane County, requested an increase from 170 days to 225 days within which to complete the contract without assessment of liquidated damages. The Commission approved an extension of 29 workdays.

The Engineer reported that Contract Nos. 5057, 5408, 5424, 5425, 5553, 5561, 5562, 5605, 5621, 5698, 5731, 5763, 5773, 5774, 5778, and 5779 for highway construction have been completed in accordance with requirements of the contracts or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

A petition, containing approximately 1,950 signatures from the Mt. Hood Pow-Wowers, was presented by the Engineer. The petition, he stated, requests early completion of the modernization of the Mt. Hood Highway between Portland and Mt. Hood, particularly a six-mile section from the end of the new construction, east of Sandy, easterly to the Forest Boundary. The Engineer pointed out that highway funds for the present biennium are already obligated, but he felt that serious consideration should be given to the project in the next biennium. The Commission discussed with the Engineer the relative values of future improvements on the Mt. Hood Highway between Sandy and Portland, and easterly from Sandy. The Engineer pointed out that another point had been brought up by the petitioners that if construction of the six-mile section easterly from Sandy cannot be undertaken in the next two years, could the Commission complete the survey and acquire the right of way for the improvement so that the property owners could make developments accordingly. After some further discussion the Commission instructed the Engineer to determine the feasibility of acquiring the necessary right of way on the unimproved six-mile section east of Sandy and to submit a recommendation to the Commission.

Attention was given to a request made by the City of Hood River for a one-block extension of the Second Street spur from Cascade Avenue to Oak Avenue. The Engineer explained that the Second Street spur had been built following a request from a Hood River delegation made in February, 1951. The spur was constructed in 1952. The one-block extension, he stated, is on a steep grade, does not comply with highway standards, and would require considerable maintenance, such as snowplowing and sanding. He pointed out that if the Commission approved this request it would be setting a precedent in many cities. The usual procedure is to provide a spur connection from the highway to the nearest city streets, and as this has been done, he recommended that the request for the spur extension be denied. The Commission accepted his recommendation.

A supplemental throughway agreement with the Lane County Board of County Commissioners covering the Coast Fork, Willamette-Divide Section of the Pacific Highway in Lane County was presented by the Engineer. The agreement, he stated, is needed in order to comply with legal requirements. The Commission approved the agreement.

A tabulation was presented by the Engineer showing eight projects in Columbia, Curry, Hood River, Lake, Linn, and Multnomah Counties. These projects, he stated, involve expenditure of $635,000 county FAS funds on county roads and have been requested by the various counties. The projects have been investigated and are eligible for construction with these funds. He also called attention to the cancellation of a project in Coos County and one in Curry County. The Commission approved projects as follows:

(See following page)

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Funds
Columbia	610	Beaver Creek Bridge	$ 35,000	'62
	817	South Fork Scappoose Creek Bridge	18,000	'62
Curry	881	Langlois-Russell Bridge Section, 1.6 miles. Grade and surface	$ 72,000	'61 & '62
Hood River	302 334	Reservoir Road-Oak Grove, & Saddle Club Road-Barrett Road, 2.5 miles. Grade & surface	$ 90,000	'61 & '62
Lake	407	Dry Creek Bridge	$ 30,000	'62
Linn	212	Grant Street Bridge	$ 55,000	'62
	769	Powers Slough Bridge	18,000	'62
Multnomah	654	Sandy Boulevard Overcrossing & OWR&N Overcrossing	$250,000	'61 & '62
Tillamook	617	Cape Lookout Section, grading	$ 67,000	'62
		SUBTOTAL, ADDITIONAL PROJECTS		$635,000
Previously Approved Projects Proposed for Cancellation				
Coos	806	Middle Fork Coquille River Bridge at Bridge, '61 funds	$ 75,000	
Curry	881	Floras Creek Bridge, '61 funds	$ 45,000	
		LESS PROJECTS APPROVED FOR CANCELLATION		$120,000
		TOTAL ADDITIONAL COUNTY FAS FUNDS		$515,000

SUMMARY BY FISCAL YEARS	1961 & 1962	1963 Estimated	Total
Available Funds	$4,295,000	$3,681,000	$7,976,000
Previously Approved	2,897,000	--	2,897,000
Unprogrammed Balance	$1,398,000	$3,681,000	$5,079,000
Projects Proposed 3/9/61	515,000	--	515,000
Unprogrammed Balance	$ 883,000	$3,681,000	$4,564,000

March 10, 1961

The Engineer presented requests for the prohibition of parking on highway shoulders on several sections of state highways. The conditions in each instance, he stated, were carefully investigated by the Traffic Engineering Division. Based on the facts determined from these investigations, he recommended that shoulder parking be prohibited, as follows:

(1) Cascade Secondary Highway No. 160 on both sides of the highway between a point 0.25 mile north of Redland Road, M.P. 14.12, and a point 225 feet north of Redland Road, M.P. 14.33, near Oregon City in Clackamas County. (See Exhibit "B-1")

(2) Willamina-Salem Highway on both sides of the highway between a point 0.22 mile east of State Farm Road, M.P. 21.41, and Riggs Street, M.P. 21.67, west of Salem in Polk County. (See Exhibit "B-2")

(3) Scholls Secondary Highway, No. 143 on both sides of the highway between a point 0.12 mile southwest of Montclair Drive, M.P. 11.88, and a point 200 feet northeast of Montclair Drive, M.P. 12.04, near the Raleigh School in Washington County. (See Exhibit "B-3")

(4) Pacific Highway East on the west side of the highway between a point 370 feet south of Oak Grove Boulevard, M.P. 7.95, and a point 0.12 mile south of Oak Grove Boulevard, M.P. 8.00, in Clackamas County. (See Exhibit "B-4")

The Commission accepted the Engineer's recommendation by adopting resolutions, marked Exhibits "B-1" through "B-4", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

The Engineer recommended, and the Commission approved, out-of-state travel expenses for the following personnel:

(1) W. C. Williams, State Highway Engineer; Forrest Cooper, Deputy State Highway Engineer; P. M. Stephenson, Assistant State Highway Engineer; Tom Edwards, Construction Engineer; I. A. DeFrance, Maintenance Engineer; L. I. Lindas, Chief Counsel; and C. H. Maison, Auditor, to attend Annual Conference of WASHO in Las Vegas, Nevada, on April 24-28, 1961. Estimated cost $225 each.

(2) Ed Rief and David Berger, Bridge Division, to Auburn, Washington, on February 6 and 7, 1961 concerning inspection of state bridges. Estimated total cost $60. Confirmation.

(3) Forrest Cooper, Deputy State Highway Engineer, to attend national meeting jointly sponsored by AASHO and Better Highways Information Foundation in Washington, D. C. on March 27-29, 1961. Estimated cost $375.

(4) W. H. Kosesan, Agronomist, to attend meeting of Western Weed Control Conference in Salt Lake City, Utah, on March 21-22, 1961. Estimated cost $130.

Consideration was given to a form of agreement with the City of Aumsville concerning a change of grade for a short distance on each side of the Southern Pacific Railroad crossing on the old route of the North Santiam Highway in Aumsville. The Engineer explained briefly that the existing track is considerably above the general highway level causing an abrupt rise at the railroad tracks. He recommended that work be done with State maintenance forces to reduce the abruptness of the rise so as to provide a safer highway facility. The Commission approved the project.

A recess was declared by Chairman McIver for 10 minutes beginning at 10:20 a.m.

The Commission also considered a construction agreement and an easement agreement with Southern Pacific Company pertaining to widening of the North Clackamas Overcrossing structure on the Cascade Secondary Highway No. 160 in Clackamas County. The agreement forms, the Engineer stated, are necessary in the reconstruction of this section of highway, and he recommended that they be approved. The Commission approved the agreements.

Also considered was a construction agreement and an easement agreement with Southern Pacific Company concerning an overcrossing of the railroad tracks on the McMinnville By-pass Section of the Salmon River Highway in Yamhill County. These agreements, the Engineer stated, are necessary in the improvement of the highway in that area. Upon his favorable recommendation the Commission approved the agreement forms.

Installation of a historical marker at Emigrant Springs State Park on the Old Oregon Trail Highway in Umatilla County was considered. The text of the marker, the Engineer stated, has been approved by the Memorials Committee of the Oregon Historical Society. Cost of the installation of the marker he estimated at $500 and recommended that it be approved. The Commission approved installation of the marker to be inscribed with the following wording:

EMIGRANT SPRINGS
STATE PARK

EARLY PIONEERS OBTAINED WATER FROM A SPRING HERE AND CAMPED IN THE VICINITY OF THE PRESENT PARK ON THEIR WAGON ROUTE KNOWN AS THE OREGON TRAIL. THE SURROUNDING BLUE MOUNTAINS WERE NAMED FOR COLOR OF THE FOREST-COVERED SLOPES SEEN FROM A DISTANCE.

THE FIRST PARTY OF WHITE MEN TO CROSS THE BLUES COMPRISED SOME SIXTY MEMBERS OF THE WILSON PRICE HUNT PARTY SENT WEST BY JOHN JACOB ASTOR AND THE PACIFIC FUR COMPANY IN 1811. NATHANIEL J. WYETH ALSO USED THIS ROUTE IN 1832 AND 1834.

WHEELED CARTS WERE FIRST DRIVEN ACROSS THE MOUNTAINS IN 1840 AND SMALL PARTIES USED THE TRAIL, 1839-1842. IN 1843 OVER 900 PERSONS TRAVELED THIS ROUTE AND REACHED THE DALLES WITH THEIR WAGONS. THE OREGON TRAIL WAS THUS SUCCESSFULLY OPENED FOR FUTURE WESTERN PIONEERS.

The Commission approved a tabulation of voucher lists signed by the Secretary in behalf of the Commission during the period January 23 through March 3, 1961.

The Commission confirmed the date for the next Commission meeting for April 14, 1961 in the Conference Room of the State Highway Building in Salem. Chairman McIver indicated that he would attend the opening of bids in Salem on April 11, 1961. A tentative date for the following meeting was set for May 26, 1961 following the opening of bids on May 23. As Chairman McIver expects to be out of the state at that time, it was planned that Commissioners Fridley and Jackson would make award of contracts and take care of such items on the agenda as are required. The regular meeting date with all three commissioners in attendance was scheduled for June 9, 1961 in Salem.

A notice of street assessment from the City of North Bend in the amount of $12,047.72 was presented by the Engineer. He explained that the assessment is the State's share of street improvements adjacent to maintenance station property in the city. The improvement project has been investigated, he stated, and the assessment for paving and curbing appears to be in order. Based upon his favorable recommendation, the Commission approved payment of the assessment.

A form of resolution pertaining to permits which would allow the placement of pipe lines along State right of way was presented by the Engineer. He explained briefly that the new permit form has been revised to waive the insurance and bond requirements when the permittee is a federal, state, county or city agency if all work covered by the permit is performed by employees of those agencies. Such action will require the rescinding of a previous resolution dealing with this subject, specifically "Miscellaneous Resolution No. 191a". The Commission approved the new permit form as presented by the Engineer, including the rescinding of "Miscellaneous Resolution No. 191a", and thereupon adopted a resolution, marked "Exhibit "F", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

An agreement with the Klamath County Court was presented by the Engineer concerning construction of the Eastside By-pass in the city of Klamath Falls. The Engineer recalled that at a previous meeting the County had proposed that it construct the by-pass route, using its own or federal-aid secondary funds, after which the Highway Commission would take over the completed sections for maintenance. This proposal in its outlined form was approved by the Commission. The agreement being presented concerns the details of the proposal and refers only to that portion of the Eastside By-pass from Shasta Way to the Klamath Falls-Lakeview Highway (East 6th Street), 0.63 mile. He pointed out that the agreement does not obligate the County in any way on the balance of the 2.73-mile section except for that portion between Shasta Way and Sixth Street. The Commission accepted his recommendation that the agreement be approved.

An increase in authorization was requested by the Engineer for Contract No. 5492 on the Boones Ferry Road-Oswego Section on a Clackamas County road near the Lake Oswego Country Club. The overrun, he stated, was due to an increase in the amount of base rock needed to obtain a stable roadbed and because of an unusual amount of engineering detail. Upon his recommendation, the Commission approved an increase of $30,000, approximately 7 per cent above the contract authorization.

The Engineer recalled that on January 27, 1961 the Commission had approved "Abandonment and Retention Resolution No. 356a", abandoning to the adjoining property owners certain parcels of land on the Trail Creek Bridge Section of the Crater Lake Highway in Jackson County. Subsequently, it was found that part of the abandoned property should be retained to provide parking space, and it was also found that an access road leads through a portion of the abandoned property. A new "Abandonment and Retention" resolution has been prepared, and he recommended that the old one, adopted January 27, 1961, be rescinded and that the new resolution be adopted. The Commission rescinded "Abandonment and Retention Resolution No. 356a" and adopted a superseding resolution relative thereto, marked Exhibit "G", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of March 10, 1961".

The Commission discussed with the Engineer construction plans for the Highlands Interchange-Stadium Freeway Section in West Portland. The Engineer stated that the United States Bureau of Public Roads has approved the plan to 14th Street, and it is planned to ask them to approve it from there to the Fremont Bridge. Chairman McIver expressed the opinion that approval should be secured from both the City of Portland and the Bureau of Public Roads on the entire project in order to avoid complaints from property owners. The Engineer stated that he felt the matter could be resolved within 60 to 90 days.

The Commission discussed with the Engineer matters to be presented by delegations scheduled to appear in the afternoon. No action was taken on any of these matters at this time.

The acquisition of St. Helens Hall on the Stadium Freeway Section in Portland was discussed briefly. Chairman McIver stated that the St. Helens Hall people have purchased other property near Beaverton and have requested that they be advised of the approximate amount that the State will pay them for their property. They want this information so that they will know how much money they will need to raise to construct the new school. The appraisals which have been furnished, he stated, are understood by them to be estimates only. These right of way estimates vary from $736,000 to $900,000.

At 11:00 a.m. the Commission announced awards of contracts, bids for which had been received on March 7, as follows:

(See following page)

BIDS RECEIVED IN SALEM ON MARCH 7, 1961

"Grading on the North Unit, Astoria-Camp Rilea Section of the Oregon Coast Highway in Clatsop County. The Commission elected to accept the low bid of The Umpqua River Navigation Company, Reedsport, in the sum of $979,868.40 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Fort Stevens State Park Overnight Camping Area in Clatsop County. The Commission awarded the contract to the low bidder, Grimstad & Vanderveldt, Inc., Astoria, at $76,935.50.

"Paving on the Warren Section of the Columbia River Highway in Columbia County. The Commission awarded the contract to the low bidder, B & K Paving Company, Kelso, Washington, at $34,834.40.

"Paving and material in stockpile on the Vesper-Mist and Columbia County Line-Pebble Creek Road Section of the Nehalem Highway in Columbia and Washington Counties. The Commission awarded the contract to the low bidder, Acme Construction Company, Redmond, Washington, at $142,452.00.

"Two bridges and an interchange structure on the Powers Junction-Sugar Loaf Mountain Section of the Coos Bay-Roseburg Highway in Coos County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Company, Reedsport, at $399,818.85.

"Paving on the South Two Mile Creek-Langlois Section of the Oregon Coast Highway in Coos and Curry Counties. This project was withdrawn.

"Grading, oiling and two RCDG bridges on the East Unit, Post-Camp Creek Section of the Paulina Highway in Crook County. The Commission elected to accept the low bid of Durbin Bros., Eugene, in the sum of $378,312.00 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Port Orford-Euchre Creek Rock Production Project on the Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, Barney Helser Rock Productions, Beaverton, at $32,500.00.

"Sisters Rock Production Project on three highways in Deschutes County. The Commission awarded the contract to the low bidder, Saxton-Stevenson, Inc., Salem, at $22,000.00.

"Paving on the Jack Creek-Drain Section of the Umpqua Highway in Douglas County. The Commission awarded the contract to the low bidder, J.C. Compton Company, McMinnville, at $93,495.00.

"Paving on the John Day-Prairie City Section of the John Day Highway in Grant County. The Commission awarded the contract to the low bidder, E.H. Itschner Company, Molalla, at $122,445.00.

March 10, 1961

"Paving on the Hood River-Windmaster Corner Section of the Hood River Highway in Hood River County. The Commission awarded the contract to the low bidder, B & K Paving Company, Kelso, Washington, at $25,470.00.

"Clayton Creek-Bear Gulch Rock Production Project on the Pacific Highway in Jackson County. The Commission awarded the contract to the low bidder, Hughes & Dodd Company, Medford, at $31,575.00.

"Paving and crushed material in stockpiles on the Emigrant Reservoir Section of the Green Springs Highway in Jackson County. The Commission awarded the contract to the low bidder, Acme Construction Company, Redmond, Washington, at $95,754.00.

"Phoenix (Fourth Street) Grading and Paving Project in Jackson County. The Commission awarded the contract to the low bidder, M. C. Lininger & Sons, Medford, at $22,103.50.

"Leveling Course and oiling on the Iris Drive and Jericho Lane Sections on FAS Route 836, near Culver, in Jefferson County. The Commission elected to accept the low bid of Babler Bros., Inc., Portland, in the sum of $63,306.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Jefferson County is received and the sum of $14,300.00 is deposited by the County.

"Paving on the Culver Junction-Crooked River Section of The Dalles-California Highway in Jefferson County. The Commission awarded the contract to the low bidder, Arthur Simonsen and Company, Baker, at $74,180.00.

"Chiloquin (Yahooskin Street & 2nd Avenue) Paving Project in Klamath County. The Commission awarded the contract to the low bidder, Asphalt Paving Company, Klamath Falls, at $14,667.50.

"Paving on the Williamson River-Modoc Point Section of The Dalles-California Highway in Klamath County. The Commission awarded the contract to the low bidder, Rogue River Paving Company, Medford, at $75,190.00.

"Grading and paving on the Leaburg Dam-Dorris Park Section of the McKenzie Highway in Lane County. The Commission awarded the contract to the low bidder, Wildish Construction Company, Eugene, at $130,323.00.

"Mapleton-Triangle Lake Rock Production Project on the Siuslaw Highway in Lane County. The Commission awarded the contract to the low bidder, F. H. McEwen, Eugene, at $58,464.00.

"Honeyman State Park Overnight Camping Area on the Oregon Coast Highway in Lane County. The Commission awarded the contract to the low bidder, Harley E. Lowe and Rolla A. Bryant, Medford, at $56,003.00.

"Albany (Willamette River) Bridge Illumination in Linn and Benton Counties. The Commission awarded the contract to the low bidder, Marion Electric Company, Salem, at $8,480.00.

"Commercial Street (Salem) Traffic Signal Installation in Marion County. The Commission awarded the contract to the low bidder, Electric Corp., Salem, at $3,280.00.

"Ontario-Idaho Line Roadside Improvement Project on the Old Oregon Trail Highway in Malheur County. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $97,261.50.

"Paving on the N.E. 71st Ave.-N.E. 99th Ave. (Portland) Section of the Sandy Boulevard Highway in Multnomah County. The Commission awarded the contract to the low bidder, Porter W. Yett, Oreg. Ltd., Portland, at $33,306.00.

"Paving on the Clatsop County Line-Washington County Line Section of the Sunset Highway in Tillamook County. The Commission awarded the contract to the low bidder, K. F. Jacobsen Company, Inc., Portland, at $69,419.00.

"Dufur-Maupin Rock Production Project on The Dalles-California Highway in Wasco County. The Commission awarded the contract to the low bidder, Cody Logging Company, Tygh Valley, at $21,900.00.

"Paving and material in stockpiles on the South Unit, Shaniko-The Dalles-California Junction Section of the Sherman Highway in Wasco County. The Commission awarded the contract to the low bidder, E. H. Itschner Company, Molalla, at $80,213.00.

"Paving and signing on the Baker-Pleasant Valley Section of the Old Oregon Trail Highway in Baker County. The Commission awarded the contract to the low bidder, Frank G. Baulne, Inc., Yardley, Washington, at $996,460.81.

"Bullards Bridge Maintenance Painting on the Oregon Coast Highway in Coos County. The Commission awarded the contract to the low bidder, Tri-State Painting Company, Portland, at $16,400.00.

"Siuslaw River and Scottsburg Bridges Painting, on the Oregon Coast Highway and the Umpqua Highway, in Lane and Douglas Counties. The Commission awarded the contract to the low bidder, William A. Efraimson, Portland, at $19,163.00.

"Weiser Junction-Ontario Paving and Rock Production Project on the Olds Ferry-Ontario Highway in Malheur County. The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at $93,955.00."

The Engineer stated it appears that after the Highway bid opening in May practically all available highway construction funds will be obligated until July 1, 1961.

Chairman McIver read a letter from Morrow County Judge, Oscar E. Peterson, in which the Judge asked the Commission to give early consideration to improvements on the Heppner-Spray project. The Engineer commented

that there is a possibility when a new forest highway program is arranged this Fall with the Forest Service and the Bureau of Public Roads, a project might be included on that section.

Chairman McIver inquired of the Auditor as to the status of Highway funds. The Auditor replied that there is on hand at this time an amount slightly less than $14,000,000. Gasoline revenue compared to last year, he continued, is up approximately 10 per cent, but motor carrier receipts, as well as motor vehicle licenses, have decreased, so that the overall receipts are about the same.

The Director of the Travel Information Division commented briefly on the status of his division in connection with proposed re-organization bills in the Legislature. Senate Bill 222, he stated, had been amended to leave the Travel Information Division under the jurisdiction of the State Highway Commission.

The Parks Superintendent, upon inquiry by Chairman McIver, stated that there is a bill in the State Legislature which would provide $25,000 matching funds, for a total of $50,000, to conduct a State-wide study of State Parks and Recreational developments. He stated that excellent cooperation had been received from other governmental agencies.

The Commission complimented Mr. Carl Jordan, Director of Travel Information Division, on his excellent presentation at the Governor's Conference concerning tourist matters in Oregon

The meeting was recessed at 11:40 a.m. and reconvened at 1:30 p.m. in the same room with the same persons present and participating.

The Commission signed a number of deeds, agreements and other papers.

Mr. Wesley S. Hamilton, Superintendent of Pilot Rock School District No. 2U, Pilot Rock, was spokesman for a group that appeared before the Highway Commission to request a traffic signal installation on the Pendleton-John Day Highway (US 395) at the Pilot Rock School. He introduced the following members of his group: Ralph Hutchison, Chairman of the School Board, and Mrs. Lois Luck, City Council Member, both from Pilot Rock. Mr. Hamilton exhibited pictures and a map of the area in question. He explained that the two elementary schools which are located at the south end of Pilot Rock, one on each side of US 395, have their facilities so divided that it is necessary for approximately 638 children to cross the highway each day between the schools. Because of the sharp curve and 6 per cent grade immediately south of the schools a hazard is created as the school crosswalk is visible to approaching northbound traffic for a distance of only 60 feet. The survey taken by the Highway Department in January, 1960, he pointed out, did not

reflect the 182 daily trips the log trucks now make over this highway. According to a traffic count recently conducted by the local police, he added, 223 vehicles travelled US 395 during the noon hour when the children were crossing the street. He requested that an amber flashing light be installed at the intersection of US 395 and N.W. Birch Street, with a remote control device that could be turned red to traffic on US 395 during the time the children are crossing the highway. The City of Pilot Rock has offered to pay for the maintenance and electrical energy used should the installation be approved. Mrs. Luck explained that when the City submitted its request for the installation of three traffic signals it neglected to list this light near the schools as its first priority. Mr. Hutchison, whose home is located south of the schools, stated that many times he has observed traffic approach the curve near the school at high speeds. He urged the Commission to approve this installation before a disaster occurs. Chairman McIver thanked the delegation for advising the Commission of their problem, and told them that they will be informed of the Commission's decision. (Later in the session the Commission instructed the Engineer to conduct a further investigation and to submit a report on his findings.)

Mr. W. H. Steiwer, Sr., representing the City of Fossil, appeared before the Commission with a delegation to request improvements to the Service Creek-Mitchell Secondary Highway (ORE 207). He introduced the following members of his group: Elmer Jackson, Farmer, Mitchell School Board; Lawrence Sigfirt, City Councilman; and John Collins, Wheeler County Commissioner, all from Mitchell; Gus Hagglund, Deschutes Farmer's Coop, Redmond; Russ Vernon, Mayor, Ivan Chappell and R. W. Lakin, Prineville Chamber of Commerce, Prineville. Mr. Steiwer thanked the Commission for the work that is being accomplished on the Donnelly Grade Section. The next important section of this highway, he continued, is the portion from Mitchell to Girds Creek. In support of his request, he filed with the Commission nine letters from various businesses and groups in Prineville which urged the completion of ORE 207. Mr. Lakin stated that the Prineville Chamber of Commerce is most anxious to see this highway improved. Mr. Jackson pointed out that the Mitchell-Girds Creek Section has been one of the key factors in the school reorganization in the area, and any information regarding the improvement of the section would be helpful in resolving their problems. He complimented the maintenance men for the good job they have done on this highway section. Mr. Collins congratulated the Highway Department on the fine publicity Oregon had received in a recent national magazine. The County, he added, is now building roads connecting to the Service Creek-Mitchell Highway which will accommodate trucks and trailers transporting livestock; however, the highway section mentioned above does not meet the necessary qualifications for log hauling and is dangerous for trucks and trailers. People in Redmond are particularly interested in the improvement of ORE 207, Mr. Hagglund advised, because if the cattle and grain markets can be brought closer together it will affect the economy by lowering costs to both grain growers and cattlemen. Mr. Sigfirt spoke in behalf of the businessmen in Mitchell, pointing out their desire for the straightening of the crooked, slick, and dangerous ten-mile section from Mitchell north. Messrs. Vernon and Chappell concurred in the remarks of the other speakers. Chairman McIver thanked the delegation for their presentation. (Later in the session the Engineer was instructed to look into the matter of making further improvements on this highway and to submit a report to the Commission.)

The Commission discussed with the Engineer the procedure followed in furnishing statistics and information to the Legislature, particularly on the proposed interstate bridge at Astoria. At the request of Commissioner Fridley, the Engineer explained briefly the features of the bill now in the Washington Legislature regarding the proposed Astoria Bridge.

A delegation from Grant County Chamber of Commerce, headed by Mr. Joe Oliver, Rancher from John Day, appeared before the Commission concerning further improvements to the John Day Highway. Mr. Joe Oliver introduced the following members of his group: from John Day-- Herman Oliver, Mayor; Gene Sharp, City Councilman; Al Reinertson, Henry Gohring, Robert Larkin, Frank Sorenson, Bert Tallman, all from Grant County Chamber of Commerce; T. W. Smith, President of the Grant County Chamber of Commerce; Eugene Mulcare, Assistant Postmaster; and Hollis Owens, Freight Lines; from Mt. Vernon-- Jim Damon, Telephone Company; Al Freauff, Restaurant man; Leslie Holland, County Judge; Homer Damon, Herman DeSouza, Robert C. Ellis, Laurence G. Smith, Vernon Rehder, Donald Gates, Jack McKenna, and Harold Castle, all from Chamber of Commerce; from Long Creek-- Leonard Carter, Rancher and Chamber of Commerce, and Virgil Piquet, President of the Grant County Stock Growers; from Canyon City-- Bill Gardner and Erb McGetrick, both from Chamber of Commerce; and from Dayville--James Driscoll, Chamber of Commerce. Mr. Smith stressed the importance of the John Day Highway since it is the only available form of transportation in and out of the area. Mr. Joe Oliver displayed a map on which was outlined the highway sections he discussed. Improvement of the roads in the area, he pointed out, will have a definite influence on the freight truck rates in the vicinity. He requested improvement of (1) the sharp curves near Brogan Hill on US 26, (2) the section along the John Day River on US 19 from Spray south, excluding a short section near Kimberly, and (3) the Field Creek Section on US 26. He expressed appreciation for the work that has been done on the Cummings Hill Section of the John Day Highway. He requested information on the Commission's schedule of work in their area. In answer to Chairman McIver's inquiry as to what is their number one priority project, Mr. Oliver replied that it would be the Field Creek Section. The Engineer, in response to Chairman McIver's request, explained that the Commission has been trying to allocate at least one-half million dollars a year on ORE 19; however, in the next two year program $1,375,000 has been allocated on that highway which is one-third of all primary moneys available in Division 5. It was the Commission's understanding from previous delegations, he continued, that the money should be spent on the Spray-Ochoco Junction and on the Condon-Fossil Sections. In accordance with such understanding, the Commission has allocated all available money on these two sections of ORE 19 -- $520,000 on the Ochoco Junction Section and $815,000 on the Thirtymile Creek-Platill Creek Section, which is between Fossil and Condon. The Field Creek Section, he added, is not in the next two-year program. Mr. Oliver pointed out that the delegation does not want to jeopardize the present projects that are now scheduled on ORE 19; however, they wish to know if the Commission has future plans for the Field Creek Project. Chairman McIver replied in the negative. Mr. Oliver stated their desire to have included in the next five-year program the Beech Creek and the Long Creek Mountain Sections of US 395. The Engineer pointed out that the road between Beech Creek and Mt. Vernon is not a state highway but a county road over which US 395 traffic is temporarily routed. The designated route of US 395 via John Day, he advised, has not been construct-

ed. Mr. Piquet told of the difficulty encountered by livestock haulers on the crooked, narrow roads and of the money that could be saved were the roads improved. Mr. Damon submitted a petition, signed by approximately 954 persons in Grant County, requesting reconstruction of US 395 from Mt. Vernon north. It is their opinion, he continued, that the area would be better served by designation of the Beech Creek Secondary Highway as the permanent route of US 395 and improving it from Mt. Vernon north approximately 5¼ miles. He presented letters from the Mt. Vernon City Council and the Grant County Chamber of Commerce supporting this position and asked that a survey be made of this highway and that it be improved. In response to Chairman McIver's inquiry if the petitioners wish this project considered before the others mentioned by the Engineer, Mr. Damon answered negatively. Mr. Herman Oliver pointed out that the John Day Highway was built 40 years ago by a Grant County bond issue and that portions of it are still in its original state without any improvement. He concluded by requesting the Commission to step up the programming of the John Day Highway. Chairman McIver thanked the delegation for their presentation.

There being no further business to come before the Commission Chairman McIver declared the meeting adjourned at 2:35 p.m.

TABLE OF CONTENTS

Page	Date 1961	Subject
33029	Apr. 14	SECRETARY REPORTS:
		MINUTES of March 10, 1961, approved.
		PARKS SUPT. REPORTS:
		PARKS ADVISORY COMMITTEE. Name change proposed to "State Parks & Recreation Advisory Committee".
		CLATSOP COUNTY. Fort Stevens State Park concession privileges. No bids received April 4, 1961.
33030		JACKSON COUNTY. Pacific Hwy. White property. Establishment of park progress report given.
		STATEWIDE STUDY of Parks & Recreation. Progress report given.
		RIGHT OF WAY ENGINEER REPORTS:
		REAL PROPERTY acquisition approved.
		R/W ACQUISITION. Status report given.
		MULTNOMAH COUNTY. Laurelhurst Route. No plans for r/w acquisition at present.
		JACKSON COUNTY. Pacific Hwy. 7 Oaks-Ashland Section. Quackenbush property option rejected.
		MISCELLANEOUS SALES & RENTALS REPORT accepted.
		MULTNOMAH COUNTY. Minnesota Freeway. Public sale of property. Report accepted.
33031		PUBLIC SALE OF PROPERTY authorized as follows:
		WASHINGTON COUNTY. Wilson River Hwy. Washburn-North Plains Section. Files: #19836-#19838.
		MARION COUNTY. Silver Creek Falls Hwy. File #S-571.
		MULTNOMAH COUNTY. Columbia River Hwy. 42nd Ave. - 92nd Ave. Section. File #14857.
		WASHINGTON COUNTY. Sunset Hwy. Vadis-Gardner Ranch Section. File #6543.
		CLATSOP COUNTY. Oregon Coast Hwy. Roosevelt Drive Seaside. File #23379.
		MULTNOMAH COUNTY. Pacific Hwy. East. 17th St. - Union Ave. Section. Portland. File #2865.
		MULTNOMAH COUNTY. Pacific Hwy. East. 17th St. - Union Ave. Section. Portland. File #2870
		DOUGLAS COUNTY. Pacific Hwy. Deady-Shady Section. File #17850.
33032		COOS COUNTY. Oregon Coast Hwy. Hauser-North Bend Section. File #18809.
		MULTNOMAH COUNTY. Columbia River Hwy. 42nd Ave. - 82nd Ave. Section. Portland. File #14882.
		YAMHILL COUNTY. Salmon River Hwy. Valley Jct. -Sheridan Section. Yoder property. Access granted.
		MALHEUR COUNTY. Owyhee Project. Stockpile site. Lease of tract from Bureau of Reclamation approved.
		MULTNOMAH COUNTY. Pacific Hwy. East Bank Freeway. Oregon Investment Co. Warehouse property. Wall removal agreement approved.

Page	Date 1961	Subject
33032	Apr. 14	RIGHT OF WAY ENGINEER REPORTS: (Cont.)
		MULTNOMAH COUNTY. Pacific Hwy. East Bank Freeway. Lots 2-7. Removal agreement for 4-story wall approved.
33033		INDENTURE OF ACCESS as follows:
		COOS COUNTY. Oregon Coast Hwy. Forest Boundary-Hauser Section. Lewis property.
		DIRECT SALE OF PROPERTY approved as follows:
		DOUGLAS COUNTY. Oakland-Shady Hwy. Roseburg-Yoncalla Section. Stockpile site. File #9461.
		LINN COUNTY. Santiam Hwy. Lebanon-Sweet Home Section. 1st Ave. -"M" St. Jct. Transfer of property to Sweet Home approved.
		LANE COUNTY. Siuslaw Hwy. Goldson Maintenance Site Section. Cline property. Easement approved.
		JACKSON COUNTY. Pacific Hwy. Evans Creek-Rock Pt. Section. Contract #5834. Gold extraction agreement with contractor approved.
33034		CHIEF COUNSEL REPORTS:
		CONDEMNATION OF REAL PROPERTY. Authority granted.
		BAKER COUNTY. Sumpter Valley Hwy. Sumpter-McEwen Section. Little property.
		CONDEMNATION CASES TRIED. Report accepted.
33036		MULTNOMAH COUNTY. Pacific Hwy. Harbor Drive-Barbur Blvd. Section. Russell property. Report given.
33037		CONDEMNATION CASES SETTLED. Report accepted.
33039		CONDEMNATION CASES. Offers for property confirmed.
33041		PUC MATTERS RE HIGHWAY COMMISSION. Report accepted.
33042		TILLAMOOK COUNTY. Manzanita. Ocean beach traffic from 9/15 to 5/15 discussed.
		PROPERTY DAMAGE CLAIMS COLLECTED. Quarterly report accepted.
		DESCHUTES COUNTY. Terrebonne. "H" Avenue and 9th St. Vacation of streets approved.
33043		UMATILLA COUNTY. Oregon-Washington Hwy. Milton-Freewater. Portion of hwy. annexation to City approved.
		JACKSON COUNTY. Sams Valley Secdy. Hwy. Gold Hill NE. Straus fire damage case #2.
		JEFFERSON COUNTY. The Dalles-California Hwy. North Unit Irrigation District. Hwy. exclusion approved.
		LEONARD W. PEARLMAN resignation reported.
		JEFFERSON COUNTY. Cove Palisades State Park relocation. Agreement with PGE re Round Butte Dam approved.
		ABANDONMENT OF 16 CLAIMS approved.
33044		ENGINEER REPORTS:
		JEFFERSON COUNTY. The Dalles-California Hwy. Warm Springs Hwy. Jct. Island improvement-"Blue Star Memorial" marker placement authorized.
		AWARD OF CONTRACTS confirmed.

Page	Date 1961	Subject
33045	Apr. 14	ENGINEER REPORTS: (Cont.)
		UNFINISHED BUSINESS as follows:
		MALHEUR COUNTY. Owyhee Reservoir Access Road. Cooperative improvement agreement approved.
		CLACKAMAS COUNTY. Mt. Hood Hwy. Sandy-east Section. Survey now underway
		UMATILLA COUNTY. Pendleton-John Day Hwy. Pilot Rock School District. Flashing beacon approved

Salem, Oregon
April 14, 1961

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Conference Room of the State Highway Building, Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
Floyd Query, Secretary

The Commission approved the minutes of the meeting held March 10, 1961.

The Engineer introduced Mr. A. R. Rao, Executive Engineer, Orissa Highway Department, India, who is studying highway construction and maintenance methods in the State of Oregon.

The State Parks Superintendent proposed that the name of the State Parks Advisory Committee be changed to "State Parks and Recreation Advisory Committee", and that the terms of the members be staggered so as to provide a continuity of organization and experience. It was his suggestion that the maximum term be for a period of four years. In discussing this matter Chairman McIver mentioned the possibility of including within the same resolution the members of the Travel Advisory Committee. The Engineer commented that the Travel Advisory Committee has status established by law whereas the State Parks Advisory Committee is an outgrowth of a practice started by Governor Paul Patterson. The Commission deferred action on the matter and instructed that an investigation be made as to the legal aspects of the change in name and length of terms for both committees, and that a report be presented at the next meeting.

The State Parks Superintendent also reported that no bids had been received at the bid opening scheduled for April 4, 1961, for operation of the concession privilege at Fort Stevens State Park, Clatsop County. He pointed out that bids have been called for twice within the last few months and no bids were received at either time. It was his opinion that the concession would not be operated by the State Parks and Recreation Division. He also commented that the park season will begin April 18 and eight state parks with overnight camping facilities will be open to the public on that date to

accommodate particularly those who wish to use them for the opening of the fishing season on April 22.

Chairman McIver inquired as to what progress is being made for establishment of a state park previously authorized on the White property along the Rogue River in Jackson County. The Parks Superintendent replied that plans are being prepared for both day and overnight facilities and that an application for a railroad crossing at grade had been initiated.

In reply to an inquiry from Commissioner Jackson, the Parks Superintendent stated that the state-wide study of parks and recreation is progressing satisfactorily and that excellent cooperation is being received from both federal and state agencies.

The Right of Way Engineer presented for consideration options, pages 1 through 53, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

In connection with the options presented, Chairman McIver inquired concerning the status of right-of-way acquisition for future construction projects. The Right of Way Engineer replied that acquisition is on schedule. The Chairman also inquired as to the status of plans for freeway construction in the City of Portland as far as right of way is concerned. The Engineer replied that no plans had been developed for the Laurelhurst Route, but good progress is being made for acquisitions on other routes which have been authorized by the Commission.

The Right of Way Engineer requested that the Commission reject the option taken from V. L. Quackenbush, File R-29338, on the 12th Street (Medford)-Valley View Road Unit, Seven Oaks-Ashland Section of the Pacific Highway, in the amount of $1,490. Although an agreement had been reached on the price of the land, he pointed out, the owner had insisted that certain restrictions be incorporated into the option. He explained that the option had been presented, knowing that it would not be acceptable, because the property owner had requested that it be presented to the Commission. The Commission rejected this option as requested.

The Property Manager's report covering sales of miscellaneous properties and rentals of state-owned property was presented by the Right of Way Engineer. Since the last Commission meeting, he stated, miscellaneous sales have been made totaling $26,159.50, and rental receipts for February and March totaled $6,851.82. The Commission accepted the report. The Right of Way Engineer also reported that 337 houses on the Minnesota Freeway Section of the Pacific Highway in Portland had been sold for an average amount of $571 each.

Authority was requested by the Right of Way Engineer to offer at public sale a number of parcels of excess highway property. Each parcel, he stated, has been cleared through the Engineering Division as to its need for highway purposes. Access provisions are consistent with Department policies as practiced in the vicinity of each parcel and the minimum consideration is based upon appraised value or upon an offer which exceeds appraised value. Upon his favorable recommendation, the Commission authorized public sale of the following parcels of real property and thereupon adopted resolutions relative thereto, marked Exhibits "E-1" through "E-6", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

(1) Three parcels of property, Files No. 19836 and 19838, on the Washburn-North Plains Section of the Wilson River Highway in Washington County, for a minimum consideration of $1,075. No access is to be allowed to the Wilson River Highway. (See Exhibit "E-1")

(2) 1.4 acres, File No. S-571, a stockpile site on the Silver Creek Falls Highway in Marion County, for not less than $1,250, with no access to the Silver Creek Falls Highway. (See Exhibit "E-2")

(3) 3,450 square feet of land, File No. 14857, on the 42nd Avenue-92nd Avenue Section of the Columbia River Highway in Multnomah County, for not less than $1,725, with no access to the Columbia River Highway, and with an advertising sign restriction to be imposed. (See Exhibit "E-3")

(4) 2.88 acres, File No. 6543, on the Vadis-Gardner Ranch Section of the Sunset Highway in Washington County, for not less than $1,000, without access to the Sunset Highway. (See Exhibit "E-4")

(5) 1,742 square feet of land, File No. 23379, on the Roosevelt Drive Section of the Oregon Coast Highway in Seaside, Clatsop County, for not less than $200, and with no access to Roosevelt Drive.

(6) 2,054 square feet of land, File No. 2865, on the 17th Street-Union Avenue Section of the Pacific Highway East in Portland, Multnomah County, for not less than $750 and with no access to the Pacific Highway East.

(7) 1,300 square feet of land, File No. 2870, on the 17th Street-Union Avenue Section of the Pacific Highway East in Portland, Multnomah County, for not less than $500, and without access to the Pacific Highway East.

(8) 24,829 square feet of land, File No. 17850, on the Deady-Shady Section of the Pacific Highway in Douglas County, for not less than $950, with no access to the Pacific Highway, and with an advertising sign restriction to be imposed.

(9) 1.9 acres, File No. 18809, on the Hauser-North Bend Section of the Oregon Coast Highway in Coos County, for not less than $2,000 and with no access to the Oregon Coast Highway. (See Exhibit "E-5")

(10) 0.42 acre, File No. 14882, on the 42nd Avenue-82nd Avenue Section of the Columbia River Highway in Portland, Multnomah County, for not less than $10,000, with no access to the Columbia River Highway and with an advertising sign restriction to be imposed. (See Exhibit "E-6")

Attention was given to a form of permit granting to Mr. & Mrs. Roman Yoder the right to cross state highway property on the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill County, adjacent to the county road easterly from Sheridan. The Right of Way Engineer explained briefly that in a real property transaction in August, 1960, access to a public road had been inadvertently denied the Yoders. The permit allows them to cross a 160-foot strip until the strip is utilized for a grade separation approach, at which time the strip retained by the State will be deeded to the County, thus giving the Yoders direct access to a public road and terminating all rights granted in this permit. Upon his favorable recommendation, the Commission approved the permit.

The matter of leasing a 0.9 acre tract of land from the Bureau of Reclamation, Owyhee Project, Malheur County, for a stockpile site was brought up by the Right of Way Engineer. The site, he stated, is located approximately two miles south of Nyssa and was used previously under permit from the Bureau of Reclamation. No consideration is involved. Upon his favorable recommendation, the Commission approved the lease for a period of ten years, beginning April 14, 1961.

The Commission considered a proposed agreement with Fern Meltzer, trustee, for removal of an existing party wall from the present four-story level down to the two-story height of the adjacent building on the East Bank Freeway Section of the Pacific Highway, Multnomah County. The Right of Way Engineer explained that the four-story building formerly owned by the Oregon Investment Company Warehouse is on highway right of way and will be removed under the Morrison Street Bridge structure contract. As the wall is no longer of any value to the State, the agreement transfers to the adjacent owner all the State's right, title and interest in the remaining wall, including the responsibility for the ownership and maintenance. Following his favorable recommendation the Commission approved the agreement.

The Commission considered a similar agreement with Sam Tonkin for removal of an existing party wall from the present four-story level to the single-story height of the adjacent building. The Right of Way Engineer explained that the previously considered agreement with Fern Meltzer provided for removal of the party wall to the two-story level as it pertained to Lots 3 and 6. The agreement under consideration covers the portion of the wall between Lots 2 and 7. The party wall is no longer of value to the State and the agreement transfers to the adjacent owner all right, title, and interest in the remaining wall, including responsibility for ownership and

maintenance. He also mentioned that the party wall agreements supersede the original agreement, dated August 31, 1908. Upon his favorable recommendation, the Commission approved the agreement.

An indenture of access to the Win Lewis property on the Forest Boundary-Hauser Section of the Oregon Coast Highway in Coos County was presented by the Right of Way Engineer. He explained briefly that the indenture provides for a change in point of access from Highway Engineer's Station 417+70 to an access at Engineer's Station 418+50. This change, he stated, is requested for the convenience of the property owner and for the safety of the traveling public. The Commission approved the indenture of access.

Direct sale of 1.34 acres of a former stockpile site, File No. 9461, on the Roseburg-Yoncalla Section of the Oakland-Shady Highway, Douglas County, was brought up by the Right of Way Engineer. The property, he stated, is almost surrounded by property owned by F. R. Hunt who wishes to purchase it. The property has been appraised at $870 and he recommended that it be sold to Mr. Hunt for that amount, with two points of access, 25 feet in width and unrestricted as to use, to the Oakland-Shady Highway. The Commission approved the sale.

The matter of deeding to the City of Sweet Home 0.0162 acre on the Lebanon-Sweet Home Section of the Santiam Highway, Linn County, was considered. The Right of Way Engineer explained that the small parcel is located on the southeast corner of First Avenue and "M" Street, and is a part of the highway maintenance headquarters. The City plans to improve the intersection of First Avenue and the Santiam Highway, and the tract is needed to provide a workable curb radius. The Commission approved transfer of the property to the City.

A Grant of Easement to L. Z. and Lillian D. Cline to construct, operate, and maintain a roadway over and across state highway property on the Goldson Maintenance Site Section of the Siuslaw Highway, Lane County, was discussed. The Right of Way Engineer explained that prior to the State's acquiring a maintenance site at Goldson, a public roadway existed along the easterly side of the property which had been used by the Clines for service of their property. The proposed easement, he stated, is to make the roadway a matter of public record. It also provides that the Clines are to erect a Type II fence along the westerly side of the 20-foot roadway easement and to perpetually maintain the fence. Following his favorable recommendation, the Commission approved the easement.

An agreement with Roy L. Houck Sons' Corporation was presented concerning recovery of precious metals in connection with the Houck's prosecution of the Evans Creek-Rock Point paving project on the Pacific Highway in Jackson County, Contract No. 5834. The Right of Way Engineer explained briefly that the contractor is of the opinion that there may be gold in sufficient quantities to warrant extraction from materials used in the contract, and that a form of agreement has been worked out whereby the State will participate in any financial returns derived from the extraction of precious metals. The agreement, he stated, has been approved by the Engineering Division, and he recommended that it be approved by the Commission. The Commission accepted his recommendation.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "H-1" through "H-20", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated April 14, 1961, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

The Chief Counsel also requested, and the Commission granted, authority to condemn if necessary the J. E. Little property (Northwest Development Company), File No. R-30774, on the Sumpter-McEwen Section, Sumpter Valley Highway, Baker County, and approved amended condemnation resolutions, as follows:

Parcel No. 5: 0.94 acres, temporary easement for removal of roadbuilding materials to April 14, 1961.

Parcel No. 6: 1.36 acres, temporary easement for stock pile site to end December 31, 1961.

Parcel No. 7: 0.27 acre, temporary easement for haul road to extend to April 14, 1961.

A report of cases tried since the last Commission meeting was presented by the Chief Counsel and accepted by the Commission. He commented briefly on some of the cases which are summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3640 Milo M. Martindale, et al	Clackamas	Cascade Secondary	Lake Road-Oregon City	$10,100	$25,300 (Answer)	$13,660
L-3546 Rose Garrett, et al	Coos	Coos Bay-Roseburg	Myrtle Point-Bridge	$ 6,500	$12,000	$ 8,890

(Report of Condemnation Cases Tried - Continued)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3318 Roger von der Hellen, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$21,240	$44,428 (Answer)	$24,690
L-3587 Clarence M. Urey, et al	Lane	Country Club Road	Country Club Road-Coburg Road	$ 1,200	$ 1,200	$ 1,200
L-3475 Elmer A. Flowers, et al	Multnomah	Pacific	East Bank Freeway	$3,750	$ 3,750	$ 3,750
L-3534 Beulah A. Johnson, et vir	Wheeler	John Day	Cummings Pass-Fossil	$ 1,500	$10,000 (Answer)	$ 2,000
L-3493 L. J. Marks, et ux	Wheeler	John Day	Cummings Pass-Fossil	$ 3,870	$ 8,000	$ 8,000 plus $ 1,790 fencing
L-3479 Christena Sieben	Clackamas	Clackamas	Rock Creek	$ 200	None	$ 200 Judgment
L-3651 Henry C. Willener, et al	Clatsop	Oregon Coast	Smith Point-Camp Rilea	$ 1,820	$ 4,386.77	$ 2,432.27 including Timber
L-3641 Myrle B. Menck, et vir	Clatsop	Oregon Coast	Smith Point-Camp Rilea	$ 100	None	$ 100
L-3596 Gus Russell, et ux	Lincoln	Oregon Coast	Neskowin-Salmon River	$ 500	$ 1,500	$ 2,200
L-3553 Assembly of God Pentecostal of Albany, et al	Linn	Santiam	Albany-Pacific Highway Interchange	$ 2,375	$ 4,300	$ 3,792.75

April 14, 1961

REPORT OF TRIAL OF OTHER CASES

Case	Defendant	County	Cause of Action	Demand of Plaintiff	Verdict
L-3588 Albert Straus, et al	Ernest King, et al	Jackson	Damages by reason of fire alleged to have been started on State Highway right of way due to failure to equip state-owned tractor with spark arresters and failure to extinguish or control the fire.	$104,827.10	None
L-2735 Joseph Cereghino, et al	State of Oregon	Multnomah	Water damage case	$ 10,000	$ 4,250
L-2739 William E. Tegart, et ux	State of Oregon	Multnomah	Water damage case	$ 7,500	$ 3,500
L-2740 S. B. Hall, et al	State of Oregon	Multnomah	Water damage case	$ 13,500	$ 5,500
L-3627 State of Oregon	Lottie Mae Wright	Klamath	To recover damages to State vehicle resulting from automobile accident	$ 350.82	None

Concerning the von der Hellen case, L-3318, the Chief Counsel stated that the State's highest witness' figure was caused by additional appraisals made subsequert to the offer and an additional factor involving re-establishment of irrigation facilities, the cost of which had been estimated in the offer. The actual cost, however, was $4,340.00, or more than $1,000 above the original estimate. Concerning the Tegart, Hall, and Cereghino cases, he stated that evidence was submitted to a jury in the Cereghino case, and in the cases of Tegart and Hall evidence was presented to Judge Crawford without a jury. Appeals are contemplated in all three cases on the form of judgment.

(For additional details see the Chief Counsel's letter of April 7, 1961, and his supplemental letter of April 13, 1961, entitled "Report of Cases Tried" in the General Files.)

Concerning the case of Loren Russell vs. State, File L-3569, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway, Multnomah County, the Chief Counsel reported that after acquisition of a portion of Mr. Russell's property a slide occurred and the State acquired his entire property for $18,500. Subsequent to this settlement Mr. Russell sued the

insurance company who in turn has made the State a party defendant and asked for an additional $10,000 on the theory that the State bought the property in its damaged condition rather than in its condition before the taking. Without prior knowledge of the State's attorneys, the case was dismissed before it came to trial, apparently because the insurance company reached a settlement with the land owner. The State, however, has made no settlement because it dealt in good faith with the property owner and paid him the true market value for his property.

A report of cases settled was also presented by the Chief Counsel and approved by the Commission, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30885 Ralph C. Webber, et al	Douglas	Pacific	Rice Hill-North Oakland Junction	$ 655	$ 1,000
R-31238 Ray T. Yasui, et al	Hood River	Columbia River	Cascade Locks-Viento	$ 290	$ 500
		(Owner submitted appraisal by Mr. Kolberg in amount of $500 and review appraiser approves.)			
R-31146 Robert R. Dickey, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$9,650	$9,650
R-31132 Ruby Lee Taylor, et al	Jackson	Pacific	Seven Oaks-Ashland	$2,450	$2,600
R-30997 Howard Carey, et al	Linn	Santiam	Albany-Pacific Highway Interchange	$1,040	$1,300
R-30186 F. J. Hantze, et al	Linn	Santiam	Pine Street-Market Drive (Lebanon)	$ 425	$ 425
R-23477 William C. Ralston, et ux	Multnomah	Pacific	Hamilton Street-Slavin Road	$1,000	$2,650 (See remarks in letter)
R-30879 Equitable Life Insurance Co. of Iowa, et al	Clackamas	Pacific East	New Era-Canby	$1,250	None
		(Original complaint called for the taking of a slope easement. Settlement involves instead the construction of a curb and installation of two catch basins and re-establishing approaches for which defendant has agreed to dismissal of case without compensation.)			

April 14, 1961

(Report of Condemnation Cases Settled - Continued)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-31823 Walter L. Scott, et ux	Jackson	Pacific	Gold Hill	$ 600	$ 2,500
		(Subsequent to letter of offer, appraisals revised to include damages not originally considered.)			
R-32092 George K. Lowe, et ux	Lane	Pacific	Judkins Point-Goshen	$ 150 (including fencing)	$ 150 (including fencing)
R-29123 Pacific Builders Supply Co., et al	Multnomah	Pacific	East Bank Freeway	$49,000	$65,000
		(Prior approval of Bureau of Public Roads obtained.)			
R-27929 Malcolm S. Rasmussen, et al	Multnomah	Pacific West	Hamilton Street-Slavin Road	$ 5,130 (original taking of 0.07 acre plus 460 square feet)	$ 900
		(Telephonic approval of M.K. McIver April 6, 1961)			
R-20408 John L. McClaskey, et al	Wasco	The Dalles-California	The Dalles-Eight Mile Creek	$30,000	$40,000
		(Although a deposit of $30,000 was made, interest in the amount of $1,325.00 would be built up on difference between deposit and State's appraisal and for period prior to deposit.)			

In the case with Pacific Builders Supply Co., revised appraisals indicate that the property has a value of approximately $61,000, which includes about $3,500 interest due. The Bureau of Public Roads, the Chief Counsel stated, has agreed to approve the settlement in the amount of $65,000. In the John L. McClaskey case, he pointed out that the property owners had originally asked $101,000. He felt that the State's highest appraisal, including interest, in the amount of $33,290 is not substantially out of line with the amount of settlement at $40,000. The Commission approved the settlements as presented.

(For additional details see the Chief Counsel's letter dated April 7, 1961, entitled "Report of Cases Settled", and his supplemental letter on the same subject dated April 13, 1961, in the General Files.)

Confirmation of telephonic approval by members of the Commission was requested by the Chief Counsel on offers made to property owners prior to the institution of condemnation proceedings. The Commission confirmed offers, as follows:

BIGGS-THORNBERRY SECTION OF THE SHERMAN HIGHWAY

R-31787 - Lulu B. Fulton, et al. 1.26 acres for right of way purposes. Offer of $1,860 approved by Mr. Fridley, March 16, 1961.

BOARDMAN JUNCTION-UMATILLA SECTION OF THE COLUMBIA RIVER HIGHWAY

R-32100 - Mary Doherty, et al. Parcel No. 1: 16.0 acres for right of way purposes; Parcel No. 2: 6.6 acres for right of way purposes; and Parcel No. 3: 0.12 acre for right of way purposes. Offer of $1,150 approved by Mr. Fridley, March 13, 1961. An offer of $680 was approved by Mr. Fridley, January 24, 1961. This revised amount is due to the elimination of a construction item. (stock under pass)

R-32319 - Port of Morrow. Parcel No. 1: 1.0 acre for right of way purposes; and Parcel No. 2: 0.98 acre for right of way purposes. Offer of $75 approved by Mr. Fridley, March 13, 1961. An amount of $25 was approved by Mr. Fridley, February 14, 1961. This increase is due to the addition of Parcel No. 2.

CORNELIUS PASS ROAD-MULTNOMAH COUNTY LINE SECTION OF THE SUNSET HIGHWAY

R-32964 - Eleanor M. Rich, et al. 80 square feet for right of way purposes. Offer of $100 approved by Mr. McIver, April 10, 1961.

COTTAGE GROVE-DIVIDE SECTION OF THE PACIFIC HIGHWAY

R-32438 - Lawrence I. Chestnut, et al. 0.23 acre for right of way purposes. Offer of $450 approved by Mr. Jackson, April 12, 1961.

FREMONT INTERCHANGE-MARQUAM BRIDGE SECTION OF THE STADIUM FREEWAY

R-32083 - Gordon Brown, et al. 3,400 square feet for right of way purposes. Offer of $5,100 approved by Mr. McIver, April 10, 1961.

HOBSONVILLE-BAY CITY SECTION OF THE OREGON COAST HIGHWAY

R-32236 - Hayes Oyster Company, et al. 15,350 square feet for right of way purposes. Offer of $465 approved by Mr. McIver, April 5, 1961.

R-32241 - William Weber, et ux. 8,000 square feet for right of way purposes. Offer of $480 approved by Mr. McIver, April 5, 1961.

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY

R-27727 - Pape' Bros. Inc. Parcel No. 1: 3.66 acres for right of way purposes; Parcel No. 2: 0.31 acre for right of way purposes; and Parcel No. 3: 1.43 acres for permanent easement. Offer of $15,000 approved by Mr. Jackson, March 30, 1961.

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY - Cont.

R-27741 - Ethan R. Lewis, et ux. 1.05 acres for right of way purposes. Offer of $4,600 approved by Mr. Jackson, April 5, 1961.

R-28785 - Kenneth W. Bales, et al. 2,205 square feet for right of way purposes. Offer of $500 approved by Mr. McIver, March 20, 1961.

R-31826 - Knute K. Folgedalen, et ux. 0.67 acre for right of way purposes. Offer of $1,350 approved by Mr. McIver, March 20, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29680 - Charles N. Walker, et al. 3,333 square feet for right of way purposes. Offer of $5,500 approved by Mr. McIver, March 21, 1961.

R-29743 - Edward E. Jarvi, et al. 10,000 square feet for right of way purposes. Offer of $35,750 approved by Mr. McIver, March 24, 1961.

R-29746 - Ben W. Marley, et al. 5,000 square feet for right of way purposes. Offer of $25,400 approved by Mr. McIver, March 21, 1961.

R-32213 - Virgil E. Davis, et ux. 2,125 square feet for right of way purposes. Offer of $865 approved by Mr. McIver, April 5, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31722 - Leonard M. Thompson, et al. Parcel No. 1: 400 square feet for right of way purposes; and Parcel No. 2: 293 square feet for permanent easement. Offer of $275 approved by Mr. McIver, March 20, 1961.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-28375 - Frank L. Earhart, et al. Parcel No. 1: 3.48 acres for right of way purposes; and Parcel No. 2: 0.24 acre for right of way purposes. Offer of $14,500 approved by Mr. Jackson, March 13, 1961.

R-28877 - Frances Earhart, et vir. Parcel No. 1: 2.0 acres for right of way purposes; Parcel No. 2: 2.02 acres for right of way purposes; and Parcel No. 3: 0.56 acre for permanent easement. Offer of $23,500 approved by Mr. Jackson, March 13, 1961.

R-29341 - Harry and David. Parcel No. 1: 8.5 acres for right of way purposes; and Parcel No. 2: 6.0 acres for material source. Offer of $18,900 approved by Mr. Jackson, March 14, 1961.

THE DALLES BY-PASS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30537 - E. R. Smart, et al. 1.0 acre for right of way purposes. Offer of $23,450 approved by Mr. Fridley, March 30, 1961.

WESTPORT-CLATSKANIE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31548 - Edwin L. Kleger, et al. 2.0 acres for right of way purposes. Offer of $610 approved by Mr. McIver, March 20, 1961.

R-31551 - Ralph J. Kleger, et al. 1.8 acres for right of way purposes. Offer of $540 approved by Mr. McIver, March 20, 1961.

R-31552 - Zita B. Clifford, et vir. 1.89 acres for right of way purposes. Offer of $615 approved by Mr. McIver, April 3, 1961.

R-31561 - Vincent K. Tichenor, et al. 6.8 acres for right of way purposes. Offer of $450 approved by Mr. McIver, April 12, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31654 - Dorothy Butler, et vir. 9,645 square feet for right of way purposes. Offer of $2,000 approved by Mr. McIver, April 6, 1961.

A written report was presented by the Chief Counsel, and accepted by the Commission, concerning orders received from the Public Utility Commissioner regarding matters in which the State Highway Commission has been a party. These orders are summarized as follows:

PUX 150: Train Speeds - Rogue River, Jackson County. The order authorizes an increase of speed from 35 to 50 miles per hour. As the Highway Commission has no direct interest in the matter, no representations were made as to the advisability of the revised speeds.

PUX 388: Hermiston-Hinkle Grade Crossing, Union Pacific Railroad Co., Umatilla County. This concerns an application to construct a crossing at grade over railroad tracks on the Hermiston Secondary Highway No. 333, between Hermiston and Hinkle. The petition proposed that signals be installed at the crossing. Contentions made by the Railroad Company were denied, and the order was issued in accordance with the testimony presented at the hearing.

PUX 394: Clackamas Overcrossing widening over the tracks of Southern Pacific Company on the Cascade Secondary Highway No. 160, north of Clackamas in Clackamas County. This matter involves widening of an existing crossing constructed under an order issued in 1940. The order is in accord with testimony presented at the hearing.

PUX 397: Dee Grade Crossing on a county road at Dee in Hood River County. The crossing is not on any highway under the jurisdiction of the Highway Commission, and no objection was made to the issuance of a proper order.

PUX 399: Bay City Overcrossing of the tracks of Southern Pacific Company on revised location of the Oregon Coast Highway between Garibaldi and Bay City, Tillamook County. The order was issued in accord with the testimony presented at the hearing.

PUX 404: Adams Street Grade Crossing of the tracks of Southern Pacific Company in Milwaukie, Clackamas County. As the crossing is not on a street under the jurisdiction of the Highway Commission, no objection was made to the issuance of a proper order.

PUX 409: Garibaldi (South) Grade Crossing of the tracks of Southern Pacific Company on revised location of the Oregon Coast Highway between Garibaldi and Bay City, Tillamook County. This matter arose upon application of the Highway Commission for authority to construct a signalized grade crossing of the tracks of Southern Pacific Company. The order was issued in accord with testimony presented at the hearing.

Consideration was given to a request from the City of Manzanita for an amendment to "Miscellaneous Resolution No. 231" in order to allow motor vehicular traffic on the ocean beach during the period from September 15 to May 15. The Chief Counsel explained that the original resolution, adopted August 18, 1960, provided for closure of the beach to vehicular traffic and landing of aircraft, except in emergencies, during the entire year. The Engineer commented that the revision as requested would allow vehicles to drive upon the ocean beach during the fall and winter months when few people are on the beach. The requested procedure will allow persons to salvage driftwood from the beach. He could see no real objection to the request, but it would cause some inconvenience in administration and in the masking or removal of signs on the beach. Commissioner Jackson pointed out that closure of the beach is not needed for the safety of pedestrians on the beach during the fall and winter months, and he felt that the request should be granted as the request for modification comes from the same source as the original request for closure. Commissioner Fridley inquired whether such closure might be construed as a Commission policy for other beaches in the State. The Engineer pointed out he could see no particular objection to the City's request, except for enforcement of the restriction during the summer months. After some further discussion, the Commission instructed the Engineer to study the matter and submit a report to the Commission in August, or near that time.

A quarterly report of property damage claims collected during the first three months of 1961 was presented by the Chief Counsel. He mentioned briefly that during this period the sum of $13,898.83 had been collected. The Commission accepted the report.

Attention was given to a request, made by Lee R. Miller, that the State consent to vacation of "H" Avenue and Ninth Street in the town of Terrebonne in Deschutes County. This petition, the Chief Counsel explained, had been directed originally to the Deschutes County Court, but as the Highway Commission owns property in Block 81 and Block 82 which abuts on the streets to be vacated, it is necessary that the Commission give its approval. This request has approval of the Engineering Department. As the State will not suffer any loss or inconvenience because of the vacation requested, he

recommended that it be approved. The Commission approved the consent to vacate.

The Commission also considered a request from the City of Milton-Freewater for annexation within the city limits of Milton-Freewater of a portion of the Oregon-Washington Highway No. 8, between the existing city limits south of the Little Walla Walla River and the East-West centerline through Section 1, T5N, R35 E.W.M. The proposed annexation, the Chief Counsel stated, will not be detrimental to the interests of the State and he recommended that it be approved. The Commission approved the annexation.

A brief report was presented by the Chief Counsel concerning Albert Straus and Frank Straus and Grange Mutual Insurance Company vs. Ernest W. King, Louis Thelien and the State Highway Commission. The Chief Counsel stated that this is a companion case to the Straus brothers case previously filed, in which they sued for damages caused by a fire allegedly started by operation of a Highway Department vehicle on Secondary Highway No. 271, Jackson County. Allegations in this case are identical to those in the Straus brothers case. The matter, he stated, has been reviewed by staff attorneys and such action as is necessary to protect the interests of the State and the Highway Commission will be taken. The Commission accepted the report.

The matter of excluding 182.86 acres of right of way on The Dalles-California Highway from the North Unit Irrigation District in Jefferson County was discussed. The Chief Counsel presented a form of Petition directed to the Board of Directors of the Irrigation District requesting that the lands be excluded from the district thereby relieving the Highway Department from future assessments and charges. Upon the Chief Counsel's favorable recommendation the Commission approved the petition.

The Chief Counsel reported that Mr. Leonard W. Pearlman, Staff Attorney, will resign in the near future to accept employment with the State Fish Commission at a considerably increased salary. He requested, and the Commission granted, authority to hire an attorney to replace Mr. Pearlman.

An "Addendum" Agreement with Portland General Electric Company pertaining to the Round Butte Dam Project on the Deschutes River in Jefferson County was presented by the Chief Counsel. He recalled that an agreement had been approved by the Commission with the Portland General Electric Company concerning relocation of Cove Palisades State Park, which will be necessary when the dam is constructed and the reservoir filled. In the original agreement a parcel of land had been omitted, consisting of approximately one acre. In the "Addendum" Agreement this parcel is to be conveyed by the State to the Portland General Electric Company. Upon his favorable recommendation the Commission approved the agreement.

A list of claims was presented by the Chief Counsel which he requested be abandoned because collection is either impossible or not worthwhile. Among the reasons for abandonment, he cited lack of legal liability, out of state residence, inability to locate persons who caused the damage, no insurance, bankruptcy, and death.

(Continued on following page)

CAO No.	Date	Name	Amount
60-24	December 9, 1959	Lloyd Hayes	$160.20
59-4	July 27, 1958	G. P. Whatley	53.60
59-311	October 31, 1959	William C. Mobry	313.05
57-237	October 9, 1957	Dorris O'Neal	713.98
60-84	February 8, 1960	William H. Torrence	240.00
60-20	December 26, 1959	Dean Wheeler	79.55
60-48	August 5, 1959	Dorothy McQuiston	70.89
58-271	November 22, 1958	Jean Marsellis	741.60
58-166	June 22, 1958	Marla Harris	53.34
58-257	November 12, 1958	J. H. Calhoun	52.26
58-180	July 28, 1958	Charles T. Welch	180.27
58-69	February 1, 1958	Forrest Rosenberry	17.79
58-193	July 22, 1958	James Beeler	39.67
58-17	December 28, 1957	Jack R. Prock	120.82
58-179	July 6, 1958	Leonard Zacker	259.24
59-259	August 7, 1959	Edward Neylon	405.31

The Commission approved abandonment of the claims.

(For additional details see the Chief Counsel's letter of April 13, 1961, entitled "Report of abandoned claims" in the General Files.)

The Engineer presented a request from Mrs. John L. Campbell, in behalf of the Jefferson County Garden Club, for improvement of the island at the north edge of Madras, at the junction of The Dalles-California Highway (US 97) and the Warm Springs Highway (US 26), and for authorization to place a "Blue Star Memorial" marker in this island. This request, he pointed out, has been investigated by the Parks Division. The Commission approved the Engineer's recommendation for the improvement of the island at an estimated cost of $5,895 and granted the Garden Club permission to install the "Blue Star Memorial" marker.

The Engineer reported that, as instructed by the Commission, he had made awards of contracts referred to him to award when certain conditions had been satisfied. These conditions have been taken care of, he stated, and the Commission confirmed awards of the following contracts:

(1) Overcrossing structure over Union Pacific Railroad tracks, grading, surfacing, and signing on the Structure "A", Banfield Interchange, East Bank Freeway Section of Pacific Highway, Multnomah County. Bids received January 24, 1961. Contract awarded March 14, 1961 to Kuckenberg Construction Co., Inc., Portland, low bidder.

(Continued on next page.)

(2) Leveling course and oiling on Iris Drive and Jericho Lane Sections on FAS Route 836, near Culver, Jefferson County. Bids received March 7, 1961. Contract awarded March 14, 1961 to Babler Brothers, Inc., Portland, low bidder.

(3) Grading, oiling and two 120' RCDG bridges on East Unit, Post-Camp Creek Section of the Paulina Highway, Crook County. Bids received March 7, 1961. Contract awarded April 4, 1961 to Durbin Brothers, Eugene, low bidder.

(4) Grading the North Unit, Astoria-Camp Rilea Section of Oregon Coast Highway, Clatsop County. Bids received March 7, 1961. Contract awarded April 6, 1961 to The Umpqua River Navigation Co., Reedsport, low bidder.

The Commission considered the following items of unfinished business which appeared on the Secretary's summary as of March 10, 1961:

(1) Request from H. F. Logue, Secretary of the Ontario Chamber of Commerce, for oiling the road leading to Owyhee Reservoir: The Engineer reported that an agreement has been worked out with Malheur County to oil surface the county road leading to Owyhee Reservoir recreational area. This agreement calls for a 20-foot roadway with adequate crushed rock base, and for the County to award all contracts or perform all work with its own forces and to supervise construction of the project. All costs of the project will be paid initially by the County. The State agrees to pay to the County $35,000 upon commencement of the job and an additional $35,000 on completion. The agreement also states that when the work has been completed the County will assume maintenance of and jurisdiction over the project at its sole expense. Upon the favorable recommendation of the Engineer, the Commission approved the agreement. This item is to be removed from the list of unfinished business.

(2) Request from Mt. Hood Pow-Wowers for early completion of the Mt. Hood Highway, particularly the six-mile section from the new construction east of Sandy to the forest boundary; or if construction is not feasible, the possibility of acquiring rights of way: The Engineer explained that the survey on this section is now underway but it will be some time before it will be completed and the appraisal of the rights of way made. He suggested that this item be removed from the list of unfinished business and that it be presented at a future date when the survey is completed and an estimate of the cost of the right of way is available. The Commission accepted the Engineer's suggestion and ordered the item removed from the list of unfinished business.

(3) Request of Pilot Rock School District delegation for a traffic signal on the Pendleton-John Day Highway (US 395) at the school in Pilot Rock: Further investigation, the Engineer explained, had disclosed that the traffic signal is not warranted; however, he did recommend the installation of overhead "School Crossing" signs with flashing beacons at a cost of approximately $400. The school officials, he continued, will be responsible for the operation of the flashing beacons only during the periods when the

crosswalks are being utilized by the school youngsters. After installation of the signs the City of Pilot Rock and/or the School District will care for maintenance and power consumption costs. The School District has indicated its approval of this arrangement. The Commission approved the sign installation as recommended. The item is to be removed from the list of unfinished business.

(4) Request of W. H. Steiwer, Sr., and others, for additional improvement to the Service Creek-Mitchell Secondary Highway (ORE 207): Additional study has been made, the Engineer stated, regarding Mr. Steiwer's request, and it was ascertained that improvement of this highway north of Mitchell to a modern standard would be quite costly. No formal estimate of the construction cost has been made, but it would probably cost about $15,000 per mile to do even a minimum job. Upon the Engineer's recommendation, the Commission deferred action on this request due to the many requests for funds and the uncertainty of the availability of funds in the future. The item is to be removed from the list of unfinished business.

Consideration was given by the Commission to an agreement with the Oregon, California, and Eastern Railway Company covering a cooperative Illumination project at the crossing of the railroad tracks with the Klamath Falls-Lakeview Highway near the town of Olene in Klamath County. The Engineer advised that numerous complaints have been received concerning this crossing because most of the railroad traffic consists of logging cars which are hard to see at night. The State has been negotiating with the Railway Company for illumination at this crossing, and they have agreed to pay one half the cost of the installation. The State would assume the other half of construction and all of the maintenance and operation. The total estimated cost of the illumination is $950, with the State's share being $475. The Commission accepted his recommendation that the agreement be approved.

Installation of a flashing beacon on the Mt. Hood Highway at the intersection of Boring Road, east of Gresham, in Multnomah County, was considered. The Engineer reported that due to the relatively high accident record a traffic engineering investigation was made of this intersection. The investigation revealed that the accidents occurring at this location involve stop sign and passing violations which indicate a lack of advance warning signs, and the number of nighttime accidents further indicates the need for a flashing beacon. Upon the Engineer's favorable recommendation, the Commission approved installation of additional stop indications and a flashing beacon at the Boring Road intersection, at an estimated cost of $700.

Upon the recommendation of the Engineer, the Commission approved a supplemental agreement with the Southern Pacific Company covering rearrangement of signals on the Orr Corner Crossing Section of US 99W in Polk County.

The Engineer reported that surveys had been completed for the relocation and reconstruction of portions of state highways. In each instance, he stated, careful engineering consideration has been given to provide the most adequate highway facility commensurate with the cost of the project and the amount of traffic involved. Upon his favorable recommendation, the Commission approved the following highway surveys and thereupon adopted resolutions

pertaining thereto, marked Exhibits "I-1" through "I-3", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961":

(1) First Avenue-Coburg Road Section of the Eugene-Springfield Highway in Lane County. Public hearing concerning this project was held in the City of Eugene on January 31, 1961. (See Exhibit "I-3")

(2) Siletz to Corvallis-Newport Highway Section of the Siletz Highway in Lincoln County. (See Exhibit "I-1")

(3) Highlands Interchange-Stadium Freeway Section of the Sunset Highway in Multnomah County. Public hearing concerning this project was held in the City of Portland on February 26, 1961. (See Exhibit "I-2")

(4) Bridge-Frenchie Creek Section of the Coos Bay-Roseburg Highway in Coos County. (See Exhibit "I-1")

The Commission considered cooperating with other agencies in conducting a transportation study in the Salem area, as recommended in a report submitted by the Intergovernmental Cooperative Council. The Engineer explained that this Council is composed of Judge Rex Hartley, Chairman, representing Marion County; Governor Hatfield, State agencies; Judge C. M. Barnhart, Polk County; Harry Scott, Salem School District; and Mayor Russell Bonesteele, City of Salem. The State is presently conducting such studies in the Portland and Eugene areas. It is anticipated that in the next ten years studies of this type will be accomplished in all cities over 10,000 population in the State, in accord with the Bureau of Public Roads' memorandum that complete and comprehensive transportation planning be accomplished prior to the expenditure of federal-aid funds in urban areas. As recommended by the Engineer the Commission adopted recommendations 1, 3, and 4 as contained on Page 5 of the report. Action was deferred on item 2 which has to do with the cost to each agency. (For details concerning the Salem Area Transportation Study, see the report dated March 15, 1961, in the General Files.) Costs are to be prorated over the calendar years 1961, 1962, and 1963. The monies can be taken from 1½% of Highway Planning Survey Funds. $5,500 is to be expended on Stage II of the project from the 1961 Highway Planning Survey Budget during the calendar year. It is anticipated that $60,000 will be expended in 1962, and $101,500 in 1963. The Commission approved the State's participation with the other agencies in the Salem Area Transportation Study as presented by the Engineer and as outlined in the report.

The Engineer reported that the Chief U.S. Forester had stated that Federal Forest funds would be made available in 1961 to improve the road to Mt. Ashland Ski Resort in Jackson County. This, however, would be contingent upon someone removing the snow during the winter months. This road, approximately 7 to 8 miles in length, is a county road. Jackson County does not have a rotary plow of the type necessary to remove the heavy snow in this area which is approximately 7,500 feet elevation. Commissioner Jackson mentioned that

this is a very popular winter resort area and it is quite an asset to the State of Oregon. The ski area is similar to the Mt. Hood and Bend areas. After considerable discussion the Engineer recommended that an agreement be worked out with Jackson County and the U.S. Forest Service to the effect that the State would remove the snow only when the County could not handle it with their own equipment. The Commission approved the plan as recommended by the Engineer.

The Commission considered a request from the City of Ontario for a cooperative project to widen North Oregon Street from Idaho Avenue to West First Street North in the City of Ontario. The Engineer stated that this was the route of US 30 and is the present access from the freeway to Ontario from the north. The present average daily traffic on this facility is 4,000 vehicles and the over-all length of the project is 0.73 mile. This is the type of project in which the City pays 25% of the cost and the State the remainder. However, in this case, the City of Ontario has offered to do the general excavation, drainage and construct the curb and gutters, estimated to cost $46,000, which is approximately 35½% of the total. The State would do the surfacing in the amount of $84,000, or 64½%. Upon the favorable recommendation of the Engineer, the Commission approved the project.

Consideration was given by the Commission to an addition of 13.8 miles (FAS 647) in Multnomah County to the Federal-Aid Secondary System. The Engineer explained that this section, known as Marine Drive, has been investigated and is eligible. Multnomah County and the U.S. Bureau of Public Roads have also approved it. The Commission accepted the Engineer's recommendation that this section be added to the Federal-Aid Secondary System.

The Engineer reported that in the reconstruction of the Oregon Coast Highway in 1952 in the vicinity of Hauser in Coos County the State entered into an agreement with the North Slough Diking District to build a culvert to which tide gates could be attached. Due to the design of these gates they have been damaged by driftwood and it has become necessary to replace them. The original agreement provided that the District pay the installation cost and maintain the tide gates. As the original gates were designed by the State, he recommended that the District and the State each pay one half the cost, estimated at $1,000. The Commission approved this expenditure and signed an agreement covering the matter.

Upon the favorable recommendation of the Engineer the Commission approved a construction agreement between the State and the Southern Pacific Company covering the Morrison Street Interchange on the East Bank Freeway in the City of Portland.

Requests for increases in number of working days within which to complete state highway contracts were presented by the Engineer. He outlined briefly the reasons for granting or denying each request. The Commission took action on the requests as follows:

(1) Kuckenberg Construction Co., Inc., Contract No. 5548, for the construction of the S.W. Corbett Avenue Undercrossing on the Harbor Drive-Washington County Line Section of the Pacific Highway

in Multnomah County, requested an increase of 30 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved an increase of 15 workdays without assessment of liquidated damages. The U.S. Bureau of Public Roads has concurred in the increase.

(2) R. A. Heintz Construction Co., Contract No. 5830, for grading and structures on the Phoenix-Siphon Section of the Pacific Highway in Jackson County, requested an extension of time from April 1, 1961 to April 22, 1961, in which to complete the contract without assessment of liquidated damages. The Commission approved the request, which has the concurrence of the U.S. Bureau of Public Roads.

The Engineer reported that Contract Nos. 5243, 5296, 5510, 5690, 5797, 5817, and 5823 for highway construction had been completed in accordance with the requirements of the contracts, or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of April 14, 1961".

The Engineer reported that a Traffic Engineering investigation has revealed a dangerous traffic accident pattern on the McKenzie Highway (US 126) between Judkins Point and the Willamette River in Lane County. This covers a 0.09 mile section through the Glenwood community. He explained that during a 23-month period, starting January 1, 1959, there were 181 reported accidents, mostly rear-end collisions. At the present time traffic is controlled through this area by three traffic signals, and the traffic volume is 18,000 vehicles per day. In order to improve the flow of traffic and reduce accidents, he proposed to construct a 14-foot jiggle-bar median, with left-turn refuges at cross streets. No additional width between curbs will be provided. However, parking will be eliminated to provide sufficient cross section. It is hoped that it will not be necessary to reinstall the traffic lights. However, if the need becomes apparent, it may be necessary to place one or two lights. The estimated cost of the project is $15,000. The Commission approved the project following the favorable recommendation of the Engineer.

The Commission also took action to eliminate parking on a section of the McKenzie Highway between M.P. 0.36 and M.P. 1.19 on the north side, and from M.P. 0.36 to M.P. 1.15 on the south side by adopting a resolution, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

The Commission deferred action on report of bids received for highway construction on April 11, 1961. (See entry ahead).

The Engineer also reported that the collection of data for the Portland-Vancouver Metropolitan Transportation Study has been completed. The preliminary analysis can be accomplished only to a limited degree with

the State-owned IBM 650 computer. He stated that the final analysis and computation of data will have to be accomplished on a larger computer. The Bureau of Public Roads has developed computer programs for an IBM 704, which has been used in transportation studies in other states. Investigation has revealed that there are no IBM 704 computers with time available in the Western Region. However, there are IBM 704 computers available through the General Electric Company in Washington, D. C. The Bureau of Public Roads has recommended that the State contract for these services through the General Electric Company as it has developed an experienced and well-trained staff to handle these studies. It is estimated that the total minimum contract cost will be $9,000. This cost would be increased, dependent upon the number of times that the systems were altered, with an ultimate cost of approximately $20,000. He stated that there are sufficient funds in the 1961 Highway Planning Survey Budget to meet the anticipated expenditures for 1961. The balance of the necessary funds would be included in the 1962 budget. The Engineer requested that permission be granted to negotiate with the General Electric Company and the Department of Finance and Administration covering the computer analysis required for the Portland-Vancouver Metropolitan Transportation Study. The Commission approved the request as outlined by the Engineer.

The Commission gave consideration to a cooperative project with the City of Corvallis covering the widening of 4th Street, between "A" Street and "C" Street, on the Corvallis-Newport Highway in Corvallis. The Engineer reported that the cost has been estimated at $8,000 and the City of Corvallis has agreed to pay 40 per cent of the cost and do the work with its own forces or by contract. The State's share of the work would be $4,800 and the City's $3,200. He recommended that the Commission enter into an agreement with the City of Corvallis covering this project. The Commission accepted his recommendation.

Attention was given to an agreement with the West Extension Irrigation District of Irrigon, granting the State the right to cross the District's facilities and to construct the required structures on the proposed Boardman-Irrigon Section of the Columbia River and Old Oregon Trail Highways in Morrow County. Upon the favorable recommendation of the Engineer the Commission approved the agreement.

The establishment of a temporary construction speed zone for the protection of the traveling public during construction of a state highway project was reported by the Engineer. The Commission confirmed the following construction speed zone:

(1) 25 MPH on Sugarloaf Mountain-King Creek Section of the Coos Bay-Roseburg Highway, between M.P. 25 and M.P. 29, effective 8:00 a.m., April 11, 1961.

Establishment of a reduced speed zone on the McVay Secondary Highway No. 225 in the community of Glenwood was presented by the Engineer. He recommended that "Speed Zone Resolution No. 201", dated June 30, 1955, be rescinded and a new resolution adopted to take care of a change in the location of a school crossing, as follows: 25 miles per hour between the junction with the McKenzie Highway and a point 0.25 mile south of 19th Street, except that between a point 200 feet south of 19th Street and a point 0.16 mile south of 19th Street the indicated speed shall be 20 miles per hour during the hours of school crossings; 40 miles per hour between a point 0.25 mile south of 19th Street and a point 0.37 mile north of McVay Overcrossing. The Commission approved the reduced speed zones by adopting a resolution relative thereto, marked Exhibit "B-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

To correlate with action taken by the State Speed Control Board on the Corvallis-Newport Highway, No. 33, in the City of Corvallis, the Engineer recommended that the reduced speed zone be extended into the rural area west of Corvallis by establishing a 45 mile-per-hour zone between a point 150 feet east of S.E. 40th Avenue and a point 50 feet west of Brook Lane, the west city limits of Corvallis. The Commission approved the speed zone by adopting a resolution relative thereto, marked Exhibit "B-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

Out-of-state travel expenses were recommended by the Engineer and approved by the Commission, as follows:

(1) G. S. Paxson, Assistant State Highway Engineer, to attend regional meetings of AASHO National Committee on Bridges in four regions of the United States for a two week period beginning May 15, 1961; Expenses to be paid by AASHO, except for meeting in San Francisco, estimated to cost $50.

(2) Ivan Merchant, Bridge Engineer, and T. C. Roake, Assistant Bridge Engineer, to attend Western Regional Meeting of the Bridge Committee of AASHO in San Francisco, California, May 25 and 26, 1961, at an estimated cost of $120 each.

(3) J. Al Head, Assistant Traffic Engineer, to attend meeting of Board of Directors of Institute of Traffic Engineers in Washington, D.C. May 5 and 6, 1961, at an estimated cost of $300.

(4) F. D. Morgan, Division Engineer, and Glenn Roberts, Resident Engineer, to Salinas, California, April 10-12, 1961, to observe full-width concrete paving operations, at an estimated cost of $75 each. The Commission confirmed telephonic approval for this trip.

(5) L. I. Lindas, Chief Counsel, W. T. Wright, Right of Way Engineer, Tom Edwards, Construction Engineer, to attend American Right of Way Annual Seminar in Seattle, Washington, May 15-19, 1961, at a total estimated cost of $350.

(6) Mr. Robert Eaton, Radio Engineer, to attend WASHO meeting on Communications in Reno, Nevada, April 19-21, 1961, at an estimated cost of $150.

(7) Mr. Victor D. Wolfe, Administrative Assistant, to attend AASHO-NHJC National Highway Management Conference at Santa Fe, New Mexico, June 11-17, 1961, at an estimated cost of $200.

The Commission confirmed approval of an agreement previously sent to them for signature between the City of Springfield, Lane County, and the State pertaining to a project in the vicinity of the "Q" Street Interchange, east of Eugene. The Engineer commented briefly that in constructing the canal the agreement provides that the Highway Department is to allow the depositing of approximately 90,000 cubic yards of material on the easterly extension of the connection between the "Q" Street Interchange and Springfield. This material, the Engineer stated, would otherwise have to be borrowed and hauled under contract for highway embankment. The Commission confirmed the agreement.

Attention was given to a request from William D. Bollman, City Manager of Albany, that an air easement adjacent to the Albany Airport be granted to the City. The Engineer commented briefly that the City's request is a result of a requirement made by the Federal Aviation Agency. No damage or inconvenience will be caused the State and he recommended that the easement be approved. The Commission approved the easement.

A resolution was presented by the Engineer extending the Weston-Elgin Highway No. 330, the Sunnyside-Umapine Highway No. 332, and the Athena-Holdman Highway No. 334. He explained that these extensions are in accord with an agreement entered into previously with Umatilla County and the Cities of Athena and Weston concerning the Athena-Blue Mountain Station Section of the Oregon-Washington Highway in Umatilla County. It is proposed to extend the Weston-Elgin Highway along a portion of the existing Oregon-Washington Highway and a county road to a new terminus with the relocated Oregon-Washington Highway northwest of Weston, and to extend the Athena-Holdman Highway easterly along a portion of the existing Oregon-Washington Highway to a junction with the new line. The Sunnyside-Umapine Highway is to be extended from the Freewater Highway easterly along the Sunnyside county road to a junction with the Oregon-Washington Highway north of Milton-Freewater. The Commission approved the changes by adopting a resolution relative thereto, marked Exhibit "F-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

The Commission also considered a form of resolution providing for an extension of the Clackamas Secondary Highway No. 171 in Clackamas County. The Engineer recalled that the Highway Commission at its meeting in January, 1961, had approved placing the 28.5-mile extension on the Forest Highway System. The resolution presented at this time places this section of highway on the State Secondary Highway System. Upon his favorable recommendation the Commission approved the addition to the Clackamas Secondary Highway by adopting a resolution relative thereto, marked Exhibit "F-2", which resolution

by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

An abandonment agreement with Lane County was presented by the Engineer covering abandonment of portions of the North Fork Siuslaw River section of the Siuslaw Highway in Lane County when the new highway section is completed and opened to public travel. The Engineer pointed out that the section being replaced is no longer needed as a part of the State Highway system, but will serve as a part of a county road extending into North Fork Valley. The agreement has been approved by Lane County officials and he recommended that the Commission approve it. The Commission approved the agreement.

Confirmation of an agreement with the Spokane, Portland, and Seattle Railway Company pertaining to construction of the North Unit, Astoria-Camp Rilea Section of the Oregon Coast Highway in Clatsop County was requested by the Engineer. He explained that it had been necessary to send the agreement to the Commission for signature prior to the Commission meeting as award of the contract for construction on this section could not be made until an executed copy of the agreement was in the railroad company's hands. The Commission confirmed the agreement.

Confirmation was also requested by the Engineer of prior approval of a supplemental throughway agreement with Jackson County covering the Kane Creek Interchange of the Pacific Highway in Jackson County. The Commission confirmed the agreement.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period March 6 through April 7, 1961.

The next Commission meeting date was set for May 26, 1961, in the Conference Room of the State Highway Building in Salem, with Commissioners Fridley and Jackson to be in attendance. The purpose of the meeting is to make award of contracts on bids received May 23 and to take care of such items of business as may be necessary.

The following Commission meeting date was set for June 9, 1961, in the State Highway Building in Salem at which time all three Commissioners are to be present.

Commissioner Jackson indicated he would be in attendance at the May 23 bid letting.

There was some discussion concerning a Commission field trip to be taken late in June or in late July. The Engineer is to look into the possibility of a Commission trip starting about July 24.

A resolution was presented by the Engineer to place the "E" Street-"F" Street extension of the Redwood Highway in Grants Pass on the highway system, and to remove the "M" Street Section from the system. This action, he stated, is necessary to complete the records as to designated highways in

this area. Upon his favorable recommendation, the Commission approved a resolution relative thereto, marked Exhibit "G", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of April 14, 1961".

An easement agreement with Oregon-Washington Railroad and Navigation Company, Union Pacific Railroad Company, Lessee, for easements in the vicinity of Celilo and Rufus was presented by the Engineer. These easements, he stated, are necessary in construction of the Columbia River Highway. The Commission approved the easement agreement.

An agreement with Southern Pacific Company concerning highway construction on the Mistletoe Undercrossing, south of Ashland on the Pacific Highway in Jackson County, was presented by the Engineer. This agreement, he stated, is also needed for highway construction in conjunction with railroad property in this area. The Commission approved the agreement.

The Commission considered an "Amendment of Oregon State-Wide Forest Highway Cooperative Agreement, dated August 13, 1959", with the U.S. Bureau of Public Roads, covering correction of minor discrepancies in route names and to make the federal forest highway routes conform to the "as constructed" projects. Upon the Engineer's favorable recommendation the Commission approved the agreement.

The Commission discussed with the Engineer matters to be brought up by delegations scheduled to appear in the afternoon. No action was taken pending the appearance of the delegations.

The Commission also discussed with the Engineer bids for highway construction which had been received on April 11. The Engineer outlined briefly the amount of the low bid on each project, the estimated cost, and his recommendation as to award. At 11:00 a.m. the Commission announced awards of contracts, as follows:

BIDS RECEIVED IN SALEM ON APRIL 11, 1961

"Marine Insurance for Astoria-Megler Ferry Vessels, Clatsop County. The Commission elected to accept the low bid of Jewett, Barton, Leavy & Kern, Portland, in the sum of $6,764.09 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Director of the State Department of Finance and Administration is received.

"Liability Insurance for the "Steel Bridge" (Portland), Multnomah County. Chairman McIver inquired if representatives from Dooly & Company and Cole, Clark and Cunningham, Inc. were present. The Secretary stated that both companies had been contacted and had indicated a willingness that the Chairman toss a coin to decide as to which of the two companies would receive the bid. Chairman McIver called "heads" for Dooly and Company and "tails" for Cole, Clark and Cunningham, Inc. On the flip of the coin "heads" turned up. The Commission elected to accept the bid of Dooly & Company, Portland, in the sum

of $881.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the Director of the State Department of Finance and Administration is received.

"Soap Creek Bridge on farm access road at O.S.U. Camp Adair Agriculture Experiment Station in Benton County. The Commission referred all bids to the State Board of Higher Education.

"Estacada (Broadway) Paving Project in Clackamas County. The Commission awarded the contract to the low bidder, Charles T. Parker Construction Company, Portland, at $14,491.00.

"Remodel and widen 60-foot R.C.D.G. Wildcat Creek (Boulder Creek) Bridge on the Mt. Hood Highway in Clackamas County. The Commission awarded the contract to the low bidder, A. T. Burnhardt, Gates, at $14,150.00.

"Stone base, oiling, and aggregate production on the Cape Sebastian-Myers Creek Section of the Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, J. N. Conley, Portland, at $232,755.00.

"Deschutes County Roads Oiling Project in vicinities of Terrebonne, Tumalo, and Bend in Deschutes County. The Commission elected to accept the low bid of Babler Bros., Inc., Portland, in the sum of $65,463.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Deschutes County is received and the sum of $16,100.00 is deposited by the County.

"Redmond (Canal Boulevard & Glacier Avenue) Grading and Oiling Project, in Deschutes County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $15,174.00.

"Construction of reinforced concrete addition to Equipment Repair Shop in Bend, in Deschutes County. The Commission awarded the contract to the low bidder, Schrader Construction Company, Inc., Portland, at $173,657.00.

"Paving on the Briggs Camp-Cascade Lakes Junction Section of the North Umpqua Road, in Douglas County. The Commission elected to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $315,595.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Douglas County is received and the sum of $106,000.00 is deposited by the County.

"Riddle ("R" Street) Grading and Paving Project, in Douglas County. The Commission awarded the contract to the low bidder, Roseburg Paving, Inc., Roseburg, at $16,489.90.

"Grading and structures on the 12th Street-North Ashland Interchange Section of the Pacific Highway in Jackson County. The Commission elected to accept the low bid of R. A. Heintz Construction Company and Rogers Construction, Inc., Portland, in the sum of $2,408,331.00 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Jackson Street-12th Street Section, Pacific Highway, Medford Viaduct, in Jackson County. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Company, Medford, at $1,675,988.00.

"Pacific Highway Overcrossing of McAndrews Road, in Jackson County. The Commission awarded the contract to the low bidder, Pacific Concrete Company, Portland, at $103,000.00.

"Fourth Street Bridge over Bear Creek in the City of Medford, in Jackson County. The Commission referred all bids to the City of Medford.

"Madras (4th & "J" Streets) Leveling Course and Oiling Project, in Jefferson County. The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at $6,774.50.

"Olene-Bly Rock Production Project on the Klamath Falls-Lakeview Highway, in Klamath County. The Commission awarded the contract to the low bidder, C. C. Meisel, McMinnville, at $61,400.00.

"Klamath County Line-Silver Lake Rock Production Project on the Fremont Highway, in Lake County. The Commission awarded the contract to the low bidder, M. C. Lininger & Sons, Medford, at $19,500.00.

"Fourth Street-Boundary Street (Newport) Grading, Paving, and Rock Production Project on the Oregon Coast Highway, in Lincoln County. The Commission awarded the contract to the low bidder, Road & Driveway Company, Newport, at $111,441.20.

"Grading and paving on the Buford Hill Slide Section of the Corvallis-Newport Highway in Lincoln County. The Commission elected to accept the low bid of E. A. White Company, Newport, in the sum of $49,938.00 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Calapooya River Bridge on Corvallis-Eastside Highway, in Linn County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $58,935.00.

"Vale-West Rock Production Project on the Vale-West Highway, in Malheur County. The Commission awarded the contract to the low bidder, C. E. Leseberg, Nyssa, at $19,840.00.

"Leveling Course and oiling on the South Unit, Jordan-Ruggs Section of the Rhea Creek Road, in Morrow County. The Commission elected to accept the low bid of C. C. Meisel, McMinnville, in the sum of $72,244.50 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Morrow County is received and the sum of $15,500.00 is deposited by the County.

"Morrison Bridge Interchange, East Bank Freeway Section of the Pacific Highway in Portland, in Multnomah County. The Commission awarded the contract to the low bidder, J. N. Conley and Hannan Bros. Company, Portland, at $2,519.836.00.

"Paving on the Rooster Rock State Park Parking Area Extension, in Multnomah County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $17,345.00.

"Talbot State Park, standard latrine, on Crown Point Secondary Highway, in Multnomah County. The Commission awarded the contract to the low bidder, Earl S. Christensen, Portland, at $5,779.00.

"Grading, Paving, Signing, and Traffic Signals on the S. E. 9th Street - S. W. 4th Street (Pendleton) Section of the Pendleton-John Day (Northbound) Highway, in Umatilla County. The Commission awarded the contract to the low bidder, S. D. Spencer & Son, Vancouver, Washington, at $114,427.00.

"Milton-Freewater (S. E. 9th Avenue) Paving Project, in Umatilla County. The Commission awarded the contract to the low bidder, Baldwin & Sutherland, Walla Walla, Washington, at $16,662.50.

"Pendleton Rock Production Project on four state highways, in Umatilla County. The Commission awarded the contract to the low bidder, E. H. Itschner Company, Molalla, at $73,140.00.

"Grading and oiling on the Bally Mt. Road-Meadow Creek Section of the Ukiah-Hilgard Highway, in Union County. The Commission awarded the contract to the low bidder, R. E. Hall Construction Company, Pendleton, at $158,852.00.

"Stone base and oiling on the West Ranch-Iowa School Section of the Island City-Summerville Road, in Union County. The Commission elected to accept the low bid of J. F. Konen Construction Company, Inc., Lewiston, Idaho, in the sum of $109,309.06 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Union County is received and the sum of $25,000.00 is deposited by the County.

"Forest Boundary-John Day River Rock Production Project on the Ochoco Highway in Wheeler and Grant Counties. The Commission awarded the contract to the second low bidder, C. C. Meisel, McMinnville, at $26,225.00, the low bidder (E. H. Itschner Company, Molalla) having qualified his bid."

The Engineer stated that Mr. George Henderson, Vice President of the First National Bank of Portland, had suggested to him that the bank be allowed to install equipment in the State Highway Building in Salem which would allow State employees to do their banking business by mail. The Secretary of State was contacted and he had stated that he did not favor the plan. The Engineer pointed out that there are several banks within easy walking distance from the State Highway building and if facilities as requested were allowed for one bank it would be hard to deny the same sort of facilities for other business establishments. The Commission declined Mr. Henderson's offer and instructed that a letter of thanks be sent to him.

The Commission gave attention to a letter written by the Sherman County Court suggesting that the State improve and use for a detour a county road between Rufus and Wasco while construction is underway on the Spanish Hollow Section of the Sherman Highway between Wasco and Biggs. The Engineer

stated that specifically the County had requested that the State place crushed base rock on the road prior to using it as a detour. The Engineer stated that he would investigate the matter and submit a report at the next meeting.

A proposed condemnation settlement with W. S. Gillette, File R-28891, for property on the Seven Oaks-Neil Creek Section of the Pacific Highway in Jackson County was presented by the Chief Counsel. The State had offered $7,850 for this property which had been refused, but the property owner has now offered to settle for the sum of $8,300. He recommended that settlement be approved. The Commission accepted his recommendation.

Settlement of a claim against The Convoy Company, Inc., for damages which occurred in 1957 to the old bridge over the Snake River at Nyssa, in Malheur County, in the amount of $1,000 was also presented by the Chief Counsel. Surety for The Convoy Company, Inc., he stated, has denied the claim but has offered to settle for $500. Because of difficulty in presenting proof in court he recommended that the settlement be accepted. The Commission approved the settlement.

Authority was requested by the State Parks Superintendent to perform leveling of the boat launching ramp and the swimming beach at Prineville Reservoir on the Crooked River south of Prineville prior to the filling of the reservoir behind the dam. He recalled that the agreement with Crook County does not allow work by the State in the park area until the County completes its work on the road to the park. The County, however, has made very good progress in construction of the road and it would be impossible to do the leveling and grading after the lake has reached its ultimate level, which is expected this year. The Commission granted authority to perform the work as requested.

The Commission signed the following agreements, deeds, and other papers:

"Permit to Cross Real Property" to Roman Yoder to cross State property on Valley Junction-Sheridan Section of Salmon River Highway, Yamhill County.

"Lease of Stockpile Site" covering leasing from U.S. Bureau of Reclamation 0.9 acre tract located approximately 2 miles south of Nyssa, Malheur County, for stockpile site.

"Agreement" with Fern Meltzer covering removal of an existing party wall from the present four-story level to the two-story height of the adjacent building, on East Bank Freeway Section of Pacific Highway, Multnomah County.

"Agreement" with Sam Tonkin covering removal of an existing party wall from the present four-story level to a single story height of the adjacent building, on East Bank Freeway Section of Pacific Highway, Multnomah County.

"Indenture of Access" to the Win Lewis property on the Forest Boundary Section of the Oregon Coast Highway, Coos County.

"Quitclaim Deed" to City of Sweet Home for property on Lebanon-Sweet Home Section of Santiam Highway, Linn County.

"Grant of Easement" to L. Z. and Lillian D. Cline, owners of property adjacent to Highway Maintenance site at Goldson on Siuslaw Highway, Lane County.

"Consent to Vacate" covering petition of Lee R. Miller for vacation of "H" Avenue and 9th Street in Terrebonne.

"Consent of Annexation" covering request of City of Milton-Freewater for annexation to the City of a portion of the right of way of the Oregon-Washington Highway.

"Petition" to Exclude Land from the North Unit Irrigation District", covering matter of excluding 182.86 acres of rights of way of The Dalles-California Highway from North Unit Irrigation District, Jefferson County.

"Addendum Agreement" with Portland General Electric Company covering Cove Palisades State Park.

"Agreement" with Malheur County covering the oiling of road leading to the Owyhee Reservoir recreational area.

"Agreement" with Oregon, California & Eastern Railroad Company covering cooperative illumination project at crossing of railroad tracks with Klamath Falls-Lakeview Highway near town of Olene, Klamath County.

"Agreement" with Southern Pacific Company covering installation of signals on Orr Corner Crossing Section of US 99W, Polk County.

"Agreement" with North Slough Diking District covering replacement of tide gates to culvert on US 101 in vicinity of Hauser, Oregon Coast Highway.

"Agreement" with Southern Pacific Company covering construction of Morrison Street Interchange on East Bank Freeway in Portland, Multnomah County.

"Agreement" with West Extension Irrigation District of Irrigon granting State the right to cross the District's facilities and to construct required structures on Boardman-Irrigon Section of Columbia River and Old Oregon Trail Highways, Morrow County.

"Air Easement" to City of Albany adjacent to Albany Airport.

"Agreement" with Lane County covering abandonment of portions of North Fork Siuslaw River Section of Siuslaw Highway, Lane County.

"Agreement" with O.W.R.R. & N. Co. covering the Celilo-Rufus Section of Columbia River Highway, Wasco and Sherman Counties.

"Agreement" with Southern Pacific Company covering Mistletoe Undercrossing of Pacific Highway, Jackson County.

"Agreement" with George K. and Katherine Esau covering property on Rickreall-Orr Corner Section of Pacific Highway West. (Approved January 27, 1961.)

"Agreement" with Roy L. Houck Sons' Corp. re recovery of precious metals from materials site on Evans Creek-Rock Point Paving project in Jackson County.

"Agreement" with Douglas County covering the Briggs Camp-Cascade Lakes Junction Section of FAS 253. (Approved September 29, 1960)

"Agreement" with City of Silverton covering Special City Allotment project on South Center Street in Silverton. (Approved November 3, 1960)

"Bargain & Sale Deed" to Robert A. and Frank Bitar for a parcel of land on Willamette River-42nd Avenue Section of Columbia River Highway, Multnomah County. (Approved March 10, 1961)

"Bargain & Sale Deed" to David C. and Evelyn R. Malpass for a parcel of land on Albany-Judkins Point Section of Pacific Highway, Linn County. (Approved May 10, 1960)

"Bargain & Sale Deed" to Jay F. and Achsa Oldham for a parcel of land on Eugene-Springfield Section of McKenzie Highway, Lane County. (Approved January 27, 1961)

"Correction Bargain & Sale Deed" to Robert A. and Frank Bitar for a parcel of land on the Harbor Drive-Barbur Boulevard Section of Pacific Highway, Multnomah County. (Approved November 3, 1960)

At 11:35 a.m. the three members of the State Highway Commission went to Governor Hatfield's office in the Capitol Building so that the Governor could administer the oath of office to Mr. K. N. Fridley, Commissioner, for his second term, from April 1, 1961 to March 31, 1964.

The meeting was reconvened at 1:30 p.m. in the same room with the same persons present, with the exception of Chairman McIver who was excused. Commissioner Fridley presided as Acting Chairman.

Mr. Richard D. Bennett, Municipal Judge, and Mr. Al Barzee, Chief of Police, Oceanlake, came before the Commission to request removal of shrubbery from the divider in the middle of the four-lane section of the Oregon Coast Highway at the north end of the City of Oceanlake. Mr. Bennett recalled that in previous discussions with highway engineers on this matter he had been advised that the shrubbery delineated the median and acted as a barrier to prevent head-on collisions. It was his opinion that the concrete curbs outlining the medians would serve the same purpose and that the shrubbery is not needed. Concerning the glare of opposing headlights, he pointed out that this section of Oceanlake is well illuminated with street lights, and headlight glare is not an important factor in this instance. Colored motion pictures were presented showing north and south traffic on the highway section in conjunction with the median shrubbery. He pointed out that under certain conditions cars in the opposing traffic lane are hidden from view and that

vehicles entering the highway at certain intersections are handicapped in not being able to see highway traffic. He requested that the Commission remove the shrubbery and pave the median strip within the curbs, except for planting areas about 30 feet apart and not to exceed three or four feet in width which could be utilized for some type of grass or low-growing plants, such as azaleas or rhododendrons. He also pointed out that it is quite expensive to the Highway Department to trim the median shrubbery each year. Mr. Barzee emphasized that pedestrians wishing to cross the street can not always see vehicles approaching in the opposite lane, and he mentioned an instance in which a woman came very near being struck by an auto. It was his opinion that it would be helpful to the Police Department to be able to see and identify vehicles in the opposing traffic lane. Mr. Bennett added that city officials favor removal of the shrubbery. Commissioner Fridley advised the delegation that the Engineer would be requested to study their presentation and submit a report to the Commission.

A delegation representing the Ontario Chamber of Commerce Highway Committee came before the Commission to urge construction of a second bridge across the Snake River east of Ontario. Present were Mr. J. Phillips, Chairman Ontario Chamber of Commerce Highway Committee; Mr. Fred Kinney and Mr. John Easly representing the Ontario Chamber of Commerce Highway Committee, all from Ontario. Mr. Phillips, acting as spokesman, pointed out that the existing bridge across the Snake River was built in 1921, is 810 feet long, has a vertical clearance of 14½ feet and a roadway width of 18 feet, which is quite hazardous. At the present time, he stated, this bridge is carrying approximately 4,800 vehicles per day, which is a much higher count than other bridges across the Snake River in this area. He exhibited pictures of traffic on the bridge, emphasizing the narrow roadway width, and presented letters from the Malheur County Court, the Vale Chamber of Commerce, the Vale Justice of the Peace, the Superintendent of the Ontario Public Schools, the Ontario City Council, the Malheur County Development Association, the Ontario Chamber of Commerce, the Ontario Kiwanis Club, the Malheur County Planning Commission, the Ontario Branch of the US National Bank, the Ontario Branch of the First National Bank of Oregon, the Nyssa Chamber of Commerce, the Pacific Trailways, the Ore-Ida Potato Products, Inc., the Idaho Power Company, Armco Drainage & Metal Products, Inc., Farmers Co-operative Creamery Company, Jaekel & Rogers Packers and Shippers, Ontario Produce Company, Ontario Grocery Company, Ontario Livestock Commission Company, Consolidated Freightways, Van Petten Lumber Company, Ontario Lions Club, Pacific Supply Cooperative, Vogt Transfer and Storage Company, Andy's Trailer Sales, Superior Block, and Ontario Planning Commission. These letters emphasized the deficiencies of the existing bridge and the need for a more adequate structure. Mr. Easly commented that much of the Ontario trade is with Idaho and that the narrow bridge acts as a bottleneck and is detrimental to development of retail trade in the Ontario area. Mr. Kinney also emphasized the importance of the Idaho trade and that in reality Ontario acts as a gateway to Eastern Oregon. He also pointed out that Nyssa and Vale are interested in securing a better bridge. He mentioned that the combined amount of traffic over the three Snake River Bridges at Weiser, Payette, and Nyssa is about the same as the traffic which uses the existing structure east of Ontario. Commissioner Fridley stated that the request would be referred to the Engineer. Mr. Phillips commented that the group would like to

have an answer concerning the construction of a new bridge. The Engineer, at Commissioner Fridley's suggestion, pointed out that the existing bridge, due to its width and type of construction, would not be suitable for one-way traffic. A new bridge, accommodating four lanes of traffic, he estimated, would cost about $800,000. The deficiencies of the present bridge are recognized, however. All available funds have been allocated for 1961 and 1962, and he stated that he could make no prediction as to the availability of funds beyond that time.

The Commission discussed with the Engineer a form of press release, and after a few revisions approved one concerning Senate Bill 32 having to do with a reduction in road use taxes on large trucks.

The Commission authorized a request to call for bids for the purchase of a large, four-door sedan in the Buick, Chrysler or Oldsmobile class.

The Chief Counsel presented a proposed settlement in the case of State vs. Fred R. Heyer, et al, File L-3606. He stated that Heyer had demanded the sum of $300 for his property, whereas he had been offered $100. As the difference between the State's offer and the amount of settlement is only $200 he recommended that the settlement be approved. He pointed out that the testimony of an expert witness would cost $100 per day and that attorney fees would probably be $150 to $200. The Commission approved the settlement.

The Chief Counsel also brought up the matter of abandoning a service road adjoining the Banfield Expressway between 122nd Street and 132nd Street in the easterly part of Portland. A real estate development company has purchased all of the property served by the service road and they have asked that it be abandoned. The proposed abandonment, he stated, has been checked and approved by the Engineer. He recommended that two paved sections be quitclaimed to Multnomah County, that one section be transferred to Joe Gerry, who owns adjoining property, and that one section be sold by Bargain and Sale Deed to the development company. Such action would relieve the State of all obligation to maintain the service road. The Commission accepted his recommendation.

The meeting adjourned at 2:35 p.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

April 14, 1961

Salem, Oregon
May 26, 1961

The Oregon State Highway Commission met in regular session at 9:00 a.m., Standard Time, in the Conference Room of the State Highway Building, Salem. Present were:

K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
Floyd Query, Secretary

Chairman McIver was excused as he was out of the State. Commissioner Fridley acted as Chairman.

The Commission approved the minutes of the meeting held April 14, 1961.

The State Parks Superintendent presented a report recommending that the State Parks Advisory Committee's name be changed to "State Parks and Recreation Advisory Committee" to conform with the official name of the group. He also proposed the appointment to the Advisory Committee of Mr. Don McGregor, a Grants Pass merchant, and Mr. Lestle J. Sparks, Head of the Department of Physical Education, Willamette University, Salem, to fill vacancies caused by the death of William M. Tugman and resignation of Sidney Bazett. These two men, he stated, were approved by the Advisory Committee at its meeting on April 21. It was his suggestion that the new appointments be for a term of four years, and that existing members of the Advisory Committee determine their remaining tenure in office. The Commission approved submission of the names of Mr. McGregor and Mr. Sparks to the Governor for his approval, and they also approved the change in the name of the Advisory Committee as outlined above. No action was taken concerning the terms of the Advisory Committee members.

A request from a number of residents in the vicinity of Neahkahnie, Nehalem, and Rockaway on the Oregon coast for the installation of a television translator station on Neahkahnie Mountain was presented by the Parks Superintendent. Installation of the station, he stated, will improve reception in the area. The station will consist of a small building and two antennas about twenty feet high. Construction of an access road and the installation of a power line or buried cable will also be required. He called attention

to the existence of a similar installation at Depoe Bay, and stated that the Neahkahnie installation can be made without disfiguring the mountain and with a minimum disturbance to park values. He recommended that their request be granted, subject to the issuance of a permit by the Federal Communication Commission and subject to the securing of adequate financing. The Commission accepted his recommendation.

Authority was requested by the Parks Superintendent to secure an appraisal and to negotiate for the purchase of additional property at Mayer State Park in Wasco County. He explained that when property fronting on the Columbia River was acquired in 1956, the deeds described the property to include only that property above the existing lake which was formed by construction of Bonneville Dam in the 1930's. The Corps of Engineers acquired only flowage easements for the dam so that property which was inundated is not held in the public. This means that the public when engaged in water skiing, swimming, or other water activity in the park is trespassing. To protect public use of the lake and to prevent possible fencing off of the area, he recommended that authority be granted to secure the appraisal and to negotiate for the property. The Commission granted the authority as requested. The owner, he added, has asked $21,850 for 38 acres, 26 of which are inundated.

The Commission considered acceptance of a gift from Anton A. and Joseph H. Lausmann consisting of 126 acres of land for park purposes in the Columbia River Gorge. The Parks Superintendent explained that the land offered will fit in well with park plans in the vicinity of Seneca Fouts and Wygant State Parks in Hood River County. The land, he continued, has no productive value except for growing timber and preservation of the scenery, and although development for park use is not contemplated at this time, the property can be used for park purposes later. The gift was given through the Columbia River Gorge Commission and involves no expense to the State as the Lausmanns have provided the Gorge Commission with funds for a memorial. The Commission accepted the gift with thanks, and thereupon adopted a resolution naming the area "Vinzenz Lausmann Memorial Park", marked Exhibit "J", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961."

Consideration was given to granting to Deschutes County a sixty-foot easement through Tumalo State Park for a revised alignment of an existing county road, known as Johnson Road. The Parks Superintendent stated that Johnson Road is located in the extreme northwesterly part of the park and connects with the Reservoir Market Road. The Commission approved the easement which covers approximately 0.78 acre.

The Engineer remarked that several letters have been received from residents in the vicinity of Cannon Beach, in Clatsop County, protesting nighttime activities on the beach and requesting that the beach be closed to vehicular traffic from 10:00 p.m. to 5:00 a.m. The Commission requested that he investigate the matter and present a report to the Commission as soon as possible.

Commissioner Jackson inquired of the Parks Superintendent as to progress on the State-wide park and recreational study. He also inquired as to what contacts had been made with the Department of the Interior and Department of Agriculture, Washington, D. C., to co-ordinate the State's activities with these policy-making departments in order to find out what the Federal objectives are going to be in line with what the State is attempting to do. He indicated that if a policy statement could be secured from the Washington, D. C. administrators as to their attitude in the development of recreational facilities in Oregon, it would expedite the study being conducted in Oregon. It was his opinion that the Federal Government should develop, along with the state, counties, and cities, those recreational facilities over which the Federal Government has control. No action was taken at this time as the Commission indicated that they wished to discuss the matter with the Parks Superintendent later. In the discussion of Federal policy in recreational development, Commissioner Fridley stated that the administrative policy concerning parks established by the U. S. Corps of Engineers should be challenged.

The Right of Way Engineer presented for consideration options, pages 1 through 85, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961."

In connection with one of these options, the Right of Way Engineer presented a "Ground Lease" from Cyril A. and Gertrude C. Van Dyke on the Nehalem Secondary Highway, Washington County. This lease, he explained, covers 0.746 acre for a period of three years, beginning June 7, 1961, with a rental of $75. The land is to be used by the State for stockpiling crushed rock, gravel, and other road-building materials. Upon the Right of Way Engineer's favorable recommendation, the Commission approved the lease.

Authority was requested by the Right of Way Engineer to offer at public sale a number of parcels of excess highway property. Each parcel, he stated, has been cleared through the Engineering Division as to its need for highway purposes. Access provisions are consistent with Department policies as practiced in the vicinity of each parcel, and the minimum sale price is based upon appraised value or upon an offer which exceeds appraised value. Based on his favorable recommendation, the Commission authorized public sale of the following parcels of real property, and thereupon adopted resolutions relative thereto, marked Exhibits "D-1" and "D-2", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961."

(1) 2.85 acres, Files 18068 and 21082, on the Blackwell Hill-Seven Oaks Section of the Pacific Highway, Jackson County, for not less than $997.50, with no access to the Pacific Highway and with an advertising sign restriction to be imposed.

(2) 0.27 acre, File 8588, on the Madras-Crooked River Section of The Dalles-California Highway, Jefferson County, for not less than $300, and with one access point to The Dalles-California Highway, 25 feet in width and restricted to agricultural and ordinary residential use.

(3) 0.56 acre, File 5882, on the Albany Section of the Albany-Junction City Highway, Linn County, for not less than $14,850. From the eventual sale price is to be deducted the cost of replacing a drainage ditch, the work to be performed by State Highway forces. Two points of access are to be allowed to the Albany-Junction City Highway, 30 feet in width and unrestricted as to use. (See Exhibit "D-1.")

(4) 7.65 acres, File 8862, on the Eugene Section of the Pacific Highway, Lane County, for not less than $92,500 with 8 points of unrestricted access, 25 feet in width, to the 7th Avenue leg of the one-way couplet and with no advertising sign restriction. (See Exhibit "D-2.")

Direct sales of two parcels of excess highway property were recommended by the Right of Way Engineer. In both instances the sales have been approved by the Engineering staff, and terms and conditions of the sales are consistent with Commission policies. The Commission approved the following sales:

(1) 0.09 acre, File 16773, on the Prineville-Post Section of the Paulina Secondary Highway, Crook County, to Crook County for the sum of $1.00 for use by the County as part of their right of way for a road to be constructed from the Paulina Highway to a proposed State park on the Prineville Reservoir on Crooked River.

(2) 45.787 acres, Files Q-90, Q-100, and Q-253, on the Vale-Cairo Junction Section of the Central Oregon Highway in Malheur County to Malheur County for $100 for the three parcels. This land, he explained, has been used as a road-building material source, has been depleted of aggregate, and is no longer of any use to the Highway Department.

A "Grant of Easement" to Multnomah County for an interceptor sewer on a portion of the right of way of the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway, Multnomah County, was presented by the Right of Way Engineer. He explained briefly that in order for the County

to qualify for Federal financing on their sewer project, it is necessary that they be able to show something more than permissive evidence of title to accommodate their sewer facility. This Easement, he continued, requires the County to obtain a standard Highway Department pipe line permit. Based on his favorable recommendation, the Commission approved the "Grant of Easement."

The Commission also considered a "Grant and Indenture of Access" to Hult Timber Company and the State Board of Forestry to authorize construction by the Bureau of Land Management of a timber access road connection to the Siuslaw Highway at the summit of Low Pass, Lane County. The Right of Way Engineer commented briefly that in constructing the Low Pass Section of the Siuslaw Highway a deep cut eliminated the existing access point. The Bureau of Land Management wishes now to rebuild the access road at a new location. The Commission approved the "Grant and Indenture of Access."

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "H-1" through "H-24", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961."

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated May 26, 1961, in the Secretary's Office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers.")

A written report dated May 19 and May 25, 1961, of cases tried in court since the last Commission meeting was presented by the Chief Counsel and accepted by the Commission. He offered brief explanatory comments concerning several of the cases, which are summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3486 Brooks Hawley, et al.	Baker	Sumpter Valley	Sumpter-McEwen	$ 1,250	$ 2,500 (Trial time)	$ 1,500

(Report of Condemnation Cases Tried - Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3484 J. E. Little et al.	Baker	Sumpter Valley	Sumpter-McEwen	$ 1,100	$ 2,000	$ 1,000 (Stipulated Judgment)
L-3632 Oscar T. Beyl, et al.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 6,900	$ 8,500	$ 7,500
L-3656 F. H. Blaue, et al.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$38,210	$50,000	$36,160
L-3658 Clara D. Keeley, et vir.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 5,100	$ 6,000	$ 5,500
L-3556 Clarence Faulkner, et al.	Linn	Santiam	Albany-Pacific Highway Interchange	$ 2,780	$ 5,000	$ 4,516
L-3631 Richard M. Peters, et al.	Linn	Santiam	Pine Street-Market Drive	$ 410	$75,000 (Answer)	$ 3,250
L-3712 S. N. Mayhew, et ux.	Multnomah	T. H. Banfield Expressway	- - - - - -	$ 140	$ 140	$ 350 (Judgment)
L-3519 Robert Hocker-smith, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 3,150	$ 4,200	$ 3,500

REPORT OF TRIAL OF OTHER CASES

(See next page)

REPORT OF TRIAL OF OTHER CASES

Case	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict
L-3452 Elmer Hyppa	Fraternal Order of Eagles, M.K. McIver, Robert B. Chessman, Kenneth N. Fridley, Charles H. Reynolds, Ben R. Chandler, W. C. Williams	Multnomah	Tort - Negligence	$300,000	- - - - (Demurrer on behalf of the members of the Highway Commission and its employes sustained)
L-3473 The Village Shops	State of Oregon	Washington	cul-de-sac (See remarks in May 19 letter)	$ 83,000	for defendant

SUPPLEMENTAL REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3636 Ella J. Graves, et al.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 1,900	$ 4,500	$ 2,750
L-3616 George Harter, et ux.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 1,550	$ 3,500	$ 1,400
L-3659 Doris Willboard, et al.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 2,500	$ 4,500	$ 2,500
L-3581 R. O. Johnson, et al.	Douglas	Oakland-Shady	Pine Street-Stephens Street Couplet	$27,380	$52,200 (Answer)	$38,000
L-3674 Hugh G. Simpson, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$ 550	$ 1,000	$ 1,500

May 26, 1961

Supplemental Report of Condemnation Cases Tried - Cont.

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3313 Kenneth H. Wylie, et ux	Lane	Pacific	Albany-Judkins Point	$74,060	$125,000	$77,000
L-3138 The Unknown Heirs of Charles Emison, deceased	Malheur	Old Oregon Trail	Ontario-Snake River	$ 50	None	$ 50

In discussing cases tried, the Chief Counsel mentioned that in the Village Shops (Triplett) case the jury had found that the State owed them nothing. The attorney for Village Shops has asked the State to cancel an item of some $80 which is the cost allowed to the defendant, the State, and in return Village Shops agrees to waive its right to appeal for a new trial. Upon the favorable recommendation of the Chief Counsel, the Commission approved cancellation of $80 in court costs.

(For additional details see the Chief Counsel's letter of May 19, 1961, and his letter of May 25, 1961, entitled "Supplemental Report of Cases Tried" in the General Files.)

A written report of cases settled out of court, dated May 19 and May 25, 1961, was presented by the Chief Counsel and approved by the Commission. He stated that all of the settlements are within appraised values or so close thereto as not to comprise substantial increases in values.

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-31941 Metha R. Anderson, et vir	Clackamas	Cascade Secondary	Lake Road-Oregon City	$1,100	$1,100

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-32787 Henry C. Kelley, et ux	Harney	Burns-Crane	------	$ 250	$ 250

(For additional details see the Chief Counsel's letter dated May 19, 1961, entitled "Report of Cases Settled" and his supplemental letter on the same subject dated May 25, 1961, in the General Files.)

Confirmation of telephonic approval by members of the Commission on offers made to property owners prior to the institution of condemnation proceedings was requested by the Chief Counsel. The Commission confirmed the following offers:

CORNELIUS PASS ROAD-MULTNOMAH COUNTY LINE SECTION OF THE SUNSET HIGHWAY

R-32078 - Ernest Lehman, et ux. Parcel No. 1: 0.6 acre for right of way purposes; and Parcel No. 2: 0.11 acre for right of way purposes. Offer of $5,750.00 approved by Mr. Fridley, May 16, 1961.

R-32313 - Elizabeth B. Westhoff Allen, et al. Acquisition of access only. Offer of $1,200.00 approved by Mr. Fridley, May 16, 1961.

R-32314 - Thea Grunbaum, et al. 0.63 acre for right of way purposes. Offer of $1,200.00 approved by Mr. Fridley, May 17, 1961.

R-32682 - Lydia Bauer, et al. 0.21 acre for right of way purposes. Offer of $13,000.00 approved by Mr. Fridley, May 17, 1961.

R-32893 - George Teufel, et ux. Acquisition of access; and 1,200 square feet for temporary easement. Offer of $3,630.00 approved by Mr. Fridley, May 17, 1961.

R-33034 - Ruhl N. Morgan, et al. Parcel No. 1: 0.45 acre for right of way purposes; and Parcel No. 2: 660 square feet for right of way purposes. Offer of $20,000.00 approved by Mr. Fridley, May 19, 1961.

R-33035 - Rose Biggi, et vir. Parcel No. 1: 0.14 acre for right of way purposes; and Parcel No. 2: 880 square feet for right of way purposes. Offer of $8,300.00 approved by Mr. Fridley, May 19, 1961.

R-33037 - Karl J. Granquist, et al. 0.01 acre for right of way purposes. Offer of $180.00 approved by Mr. Fridley, May 15, 1961.

R-33038 - Bruce Kelly, et al. 0.07 acre for right of way purposes. Offer of $1,310.00 approved by Mr. Fridley, May 15, 1961.

CORNELIUS PASS ROAD-MULTNOMAH COUNTY LINE SECTION OF THE SUNSET HIGHWAY - Cont.

R-33330 - Prescott Corporation, et al. Parcel No. 1: 3.64 acres for right of way purposes; Parcel No. 2: 3.53 acres for right of way purposes; and Parcel No. 3: 0.17 acre for right of way purposes. Offer of $22,500.00 approved by Mr. Fridley, May 17, 1961.

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY

R-27730 - Duane Crabtree, et ux. 0.35 acre for right of way purposes. Offer of $3,850.00 approved by Mr. McIver, April 21, 1961.

R-27740 - W. W. McDonald, et ux. Parcel No. 1: 2.1 acres for right of way purposes; and Parcel No. 2: 2.1 acres for right of way purposes. Offer of $8,935.00 approved by Mr. Jackson, April 17, 1961.

BIG EDDY-BIGGS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31292 - Columbia-Deschutes Power Company. Parcel No. 1: 18.75 acres for material source; and Parcel No. 2: 3.41 acres for material source. Offer of $2,550.00 approved by Mr. Fridley, May 3, 1961.

R-32742 - River Terminals Company, et al. Acquisition of interests in easement (7.1 acres). Offer of $1,600.00 approved by Mr. Fridley, April 17, 1961.

WESTPORT-CLATSKANIE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31538 - Clifford Salmi, et al. 7.9 acres for right of way purposes. Offer of $2,375.00 approved by Mr. Jackson, April 26, 1961.

HOBSONVILLE-BAY CITY SECTION OF THE OREGON COAST HIGHWAY

R-32220 - Crown Zellerbach Corporation. 6.6 acres for right of way purposes. Offer of $150.00 approved by Mr. Fridley, April 17, 1961.

R-32239 - Clarence Trelstad, et ux. 900 square feet for right of way purposes. Offer of $550.00 approved by Mr. McIver, April 14, 1961.

EAST BANK FREEWAY SECTION OF THE PACIFIC HIGHWAY

R-29489 - Frank H. Hilton, et al. 15,000 square feet for right of way purposes. Offer of $15,000.00 approved by Mr. Jackson, May 12, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31658 - Archdiocese of Portland in Oregon. 13,000 square feet for right of way purposes. Offer of $3,700.00 approved by Mr. Fridley, May 3, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29801 - Marvin F. Rogers, et al. 5,000 square feet for right of way purposes. Offer of $13,500.00 approved by Mr. Fridley, May 3, 1961.

BURNS-CRANE HIGHWAY

R-32787 - Henry C. Kelley, et ux. Parcel No. 1: 10.0 acres for material source; and Parcel No. 2: 1.25 acres for permanent easement. Offer of $250.00 approved by Mr. Fridley, May 15, 1961.

LAKE ROAD-OREGON CITY SECTION OF THE CASCADE SECONDARY HIGHWAY

R-32462 - William C. Henderson, et ux. 2,750 square feet for right of way purposes. Offer of $7,000.00 approved by Mr. Jackson, May 10, 1961.

THE DALLES-BIG EDDY SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30553 - Claude L. Finley, et al. 11,100 square feet for right of way purposes. Offer of $17,750.00 approved by Mr. Fridley, May 15, 1961.

SHEEP GULCH-VANCE CREEK UNIT, CANYON CITY-SENECA SECTION OF THE JOHN DAY-BURNS HIGHWAY

R-32585 - L. Lee Williams, et al. 0.95 acre for right of way purposes. Offer of $110.00 approved by Mr. Fridley, May 18, 1961.

R-32588 - Joseph E. DeMarsh, et al. 3.66 acres for right of way purposes. Offer of $2,065.00 approved by Mr. Fridley, May 15, 1961.

A written report was presented by the Chief Counsel listing cases before the Public Utility Commission in which the State is respondent. The Commission accepted the report. (For details, see the Chief Counsel's statement dated May 1, 1961, entitled "PUC Cases Where State Is Respondent" in the General Files of the Salem office.)

A report of legal action taken by Dolan Construction Company against the State of Oregon was presented by the Chief Counsel. Dolan Construction Company, awarded Contract No. 5629, has alleged that additional costs were incurred in performance of the contract in the amount of $27,199.81. The contractor, the Chief Counsel continued, alleges that these costs were caused because the Whobrey Gravel Bar in Coos County was not suitable for the production of road materials, and the contractor was forced to seek another source of material. This matter is being referred to a staff attorney to protect the interests of the State.

The Chief Counsel also presented a report on a legal action filed by Donna Larson and an action filed by Charles R. Mathis against R. P. Bewley, et al, who is the employer of Frank Dollarhide, logging truck operator, and Delbert Anderson, a State weighmaster, in connection with an automobile-truck

collision on the Pacific Highway near the State scales, about five miles north of Roseburg. The complaint alleges that the defendant, Delbert Anderson, was negligent in requiring the driver of the logging truck to reweigh the truck, in failing to advise the log truck driver the proper manner of returning to the scales for reweighing, and in failing to provide proper signaling on the highway. This matter, he stated, has been turned over to the State's insurance carrier.

A report was submitted by the Chief Counsel on legal action brought by Lois Laushway and an action by John E. Richard vs. Fred H. Slate, et al, W. C. Williams, G. S. Paxson, and the resident engineer named as John Doe in the complaint. The plaintiff, John E. Richard, alleges damages in the amount of $20,000 and the plaintiff, Lois Laushway, alleges $75,000 damages arising from an accident which occurred October 18, 1959, caused by alleged negligence in the performance of highway construction by the contractor, Fred H. Slate, on the Middleton-Yamhill County Line Section of the Pacific Highway West in Washington and Yamhill Counties, Contract No. 5338. This matter, the Chief Counsel stated, has been referred to a staff attorney for attention and notification to the proper insurance company.

Attention was given to a report by the Chief Counsel concerning legal action filed by Kay Osborn, et al, against Junior R. Miles, a State Highway employee. This action, he stated, arose from an accident which occurred September 15, 1960, when Mr. Miles was operating a power-driven broom on a highway approximately 47 miles south of Burns. The plaintiff alleges negligence in that the truck operating the broom caused great quantities of dust to arise, and that no warning signs had been placed. This matter has been turned over to the vehicular insurance carrier for the State.

A relinquishment form in favor of the United States Bureau of Land Management covering 3.75 acres for a material source in the SW¼NE¼NW¼SE¼ and the NW¼SE¼NW¼SE¼ of Section 19, Township 33 South, Range 1 West, W.M., on the Douglas County Line-Trail Section of the Tiller-Trail Highway in Jackson County, was presented by the Chief Counsel. He explained that a permit had recently been obtained from the Bureau of Land Management; but upon receipt of the permit, it was discovered that the site covered by it was unsuitable and another material site has been located. He recommended that the Secretary be authorized to sign the relinquishment form. The Commission approved the recommendation.

The Chief Counsel reported that recently a parcel of property on the Deady-Shady Section of the Pacific Highway in Douglas County, File No. 17850, had been offered for public sale. The high bidder offered to pay $2,100.00 for the property. Subsequent to receipt of the bids, the local school district, which owns land adjoining the property offered for sale, stated that they wished to buy the property as it is needed for school purposes, and offered to pay the amount of the high bid. He recalled that in some instances in the past public bodies, such as cities, counties, or school districts, had been granted the privilege of buying State property for the amount of the high bid. To do this, he stated, it would be necessary for the Commission to reject all bids received at the auction, and if the Commission so desired, they could then sell the property to the school

district. The Commission instructed that all bids be rejected and that the property be sold to the school district for the amount of the high bid, $2,100.

A legal action filed by Albert Straus, Frank Straus, and Donna Straus against Ernest W. King and Louis Thelien, State employees, was reported on by the Chief Counsel. This case, he stated, concerns alleged negligence by the employees in starting a fire on the Sams Valley Secondary Highway. Defense of the employees has been turned over to the insurance carrier. On April 13, 1961, the circuit court judge in the County of Jackson sustained a motion to quash service of summons and complaint upon the State Highway Commission, and on May 11, 1961, another circuit court judge in the County of Jackson sustained a similar motion to quash in the case of Albert Straus and Donna Straus vs. Ernest W. King, et al. These cases, he stated, may be considered as terminated insofar as the State Highway Commission is concerned.

The Chief Counsel presented for the Commission's consideration an "Agreement for Carrying Out the National Policy Relative to Advertising Adjacent to the National System of Interstate and Defense Highways", a "Plan for Controlling Outdoor Advertising in Areas Adjacent to the National System of Interstate and Defense Highways in the State of Oregon", and a form entitled "Oregon Highway Commission Rules and Regulations for Controlling Outdoor Advertising in Areas Adjacent to the National System of Interstate and Defense Highways in Oregon". These papers, he stated, need to be acted on by the Bureau of Public Roads, Washington, D. C., and are in conformity with legislation passed by the 1961 State Legislative Assembly. He requested that the Commission sign the Agreement and that authority be granted the Secretary to sign the other two papers in behalf of the Commission. The Commission approved the Agreement, granted authority to sign the papers, and adopted a resolution pertaining to the Plan, Rules and Regulations for outdoor advertising, marked Exhibit "E", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961".

The Chief Counsel stated that on August 25, 1959, the following legal cases had been reported to the Commission: Dewey M. Kleng, et ux vs. Walter J. Durbin, et al; Ralph O. Trow, et ux vs. Walter J. Durbin, et al; and Charles J. Ossenkop, et ux vs. Walter J. Durbin, et al, involving blast damage in the area of LaGrande and Perry-Oro Dell. All of these cases have been settled out of court, and it appears that they are terminated.

Termination of an Oil and Gas Lease with Humble Oil and Refining Company, File No. R-31575, on the Lakeview-Burns Highway, Fremont Highway, and the Klamath Falls-Lakeview Highway was reported by the Chief Counsel. He explained that a lease had been granted to the refining company, dated July 7, 1960, to explore for and develop oil and gas resources under certain sections of the highways named above. The company, he stated, is now exercising a provision in the lease giving them the right to terminate the lease. The Commission approved the termination.

Upon inquiry made by Commissioner Fridley concerning right of way progress in The Dalles, the Chief Counsel explained briefly that portions of the right of way had been staked. Two out-of-state appraisers, he pointed

out, have been employed by the Port of The Dalles, and as soon as they have finished their appraisals of the Port's property, the Port will negotiate with the State. If a satisfactory settlement cannot be reached, the Port officials have requested that the matter be set down immediately for trial. He also mentioned that three Public Utility Commission hearings have been held in connection with the Union Pacific Company's three grade crossings, two of which have been approved by the PUC and the third crossing, Brewery Grade, the PUC has under advisement.

The Engineer reported that he had made award of contracts referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he stated, have been taken care of. The Commission confirmed his award of the following State Highway contracts:

(1) Stone base and oiling the West Ranch-Iowa School Section of Island City-Summerville Road, Union County. Bids received April 11, 1961. Contract awarded April 17, 1961 to J. F. Konen Construction Co., Inc., Lewiston, Idaho, low bidder.

(2) Paving on Briggs Camp-Cascade Lakes Junction Section of North Umpqua Road, Douglas County. Bids received April 11, 1961. Contract awarded April 18, 1961 to Warren Northwest, Inc., Portland, low bidder.

(3) Deschutes County Oiling Project in vicinities of Terrebonne, Tumalo, and Bend. Bids received April 11, 1961. Contract awarded April 24, 1961 to Babler Brothers, Inc., Portland, low bidder.

(4) Leveling course and oiling on South Unit, Jordan-Ruggs Section of Rhea Creek Road, Morrow County. Bids received April 11, 1961. Contract awarded April 25, 1961 to C. C. Meisel, Mc-Minnville, low bidder.

(5) Grading and paving on Buford Hill Slide Section of Corvallis-Newport Highway, Lincoln County. Bids received April 11, 1961. Contract awarded April 28, 1961 to E. A. White Company, Newport, low bidder.

(6) Grading and structures on 12th Street-North Ashland Interchange Section of Pacific Highway, Jackson County. Bids received April 11, 1961. Contract awarded May 10, 1961 to R. A. Heintz Construction Company and Rogers Construction, Inc., Portland, low bidder.

The following items of unfinished business appearing on the Secretary's summary dated April 14, 1961 were considered by the Commission:

(1) Proposed change of name of Parks Advisory Committee and proposed staggering of terms of members of this Committee: This matter was considered earlier in the day in a report presented by the Parks Superintendent. The Commission ordered the item deleted from the list of unfinished business.

(2) Request from the City of Manzanita for an amendment to Miscellaneous Resolution No. 231, concerning closing to vehicles the beach area adjacent to the City, so as to allow vehicles on the beach between September 15 and May 15: Because of the closeness of the summer season, the Commission deferred action on the request until sometime late in summer--probably August or September. The Commission ordered the item deleted from the list of unfinished business and brought up as new business when the report is ready in August or September.

(3) Request of Oceanlake delegation that shrubbery be removed from the median strip on the Oregon Coast Highway in the City of Oceanlake: The Engineer reported that personal investigation by the Parks Superintendent and Division Engineer, J. D. Walker, indicates that there is considerable difference of opinion among the residents of Oceanlake as to whether the shrubbery should be removed or not. The median strip has been sprayed with chemicals to remove undesirable weeds and grass. As the reason for planting the shrubbery in the first place is still valid, he recommended that no action be taken to remove it. The Commission accepted his recommendation and ordered the item removed from the list of unfinished business.

For the protection of the traveling public through highway construction projects, the Engineer reported that the following temporary construction speed zones had been placed in effect:

(1) 35 MPH on the Rice Hill-North Oakland Junction Section of the Pacific Highway in Douglas County, between M.P. 171.0 and M.P. 179.0, effective 8:00 a.m., May 1, 1961.

(2) 35 MPH on the Fourth Street-Boundary Street Section of the Oregon Coast Highway in the City of Newport, Lincoln County, between M.P. 139.03 and M.P. 139.99, effective 8:00 a.m., May 10, 1961.

(3) 35 MPH during working hours and 45 MPH at other times on the Willamette River Bridge-Woodburn Interchange Section of the Pacific Highway in Marion County, between M.P. 18.42 and M.P. 29.34, effective 8:00 a.m., May 4, 1961.

(4) 35 MPH on the Davis Slough-Bullards Bridge Section of the Oregon Coast Highway in Coos County, between M.P. 244.8 and M.P. 258.9, effective 8:00 a.m., May 16, 1961.

The placement of reduced load limits on sections of State highways was reported by the Engineer under authority granted by resolution on June 19, 1958. These load limits are necessary because of soft highway surfaces due to melting of snow and ice. The Commission confirmed the following reduced load limits:

(1) East Diamond Lake Highway No. 425, entire length: 11,000 pounds gross on any single axle and 20,000 pounds gross on any tandem axles, effective 8:00 a.m., April 20, 1961. This action was modified later to allow only 5,000 pounds gross on any single axle and 10,000 pounds gross on any tandem axles, effective noon, April 24, 1961. Effective 2:00 p.m., PST, May 23, 1961, the load limit was raised to allow 11,000 pounds gross on any single axle and 20,000 pounds gross on any tandem axles.

(2) Sun Mountain Highway No. 428 in Klamath County, M.P. 0.0 to M.P. 24.42: 11,000 pounds gross on any single axle and 20,000 pounds gross on any tandem axles, effective 8:00 a.m., April 17, 1961. This load limit was removed at 8:00 a.m. on May 15, 1961.

(3) Lewis and Clark Park Road in Multnomah County: 5,000 pounds gross on any single axle and 10,000 pounds gross on any tandem axles, effective 8:00 a.m., April 28, 1961. This load limit was placed because the base and surface of the road are not adequate to carry unrestricted loads.

(4) Crater Lake North Highway No. 232, M.P. 0.0 to M.P. 3.81: 11,000 pounds gross on any single axle and 20,000 pounds gross on any tandem axles, effective 2:00 p.m., PST, May 23, 1961.

(5) West Diamond Lake Highway No. 233, M.P. 8.0 to M.P. 23.89: 11,000 pounds gross on any single axle and 20,000 pounds gross on any tandem axles, effective 2:00 p.m., PST, May 23, 1961.

Authority for increases on contract project authorizations was requested by the Engineer on the following State Highway contracts:

(1) Contract No. 5823 on the Elk Creek-Robber Roost Section of the Crater Lake Highway in Jackson County: an increase of $6,997.42. The Engineer explained briefly that the contract involved equipment rental hours to widen cuts and fills, and State forces to widen the pavement and add base rock and culverts as required. Because of excellent progress under the contract, it was necessary to extend the work performed by State forces.

(2) Contract No. 5784 on the Powers Junction-Sugarloaf Mountain Section of the Coos Bay-Roseburg Highway in Coos County: an increase of $96,556.40. The overrun was caused by slide conditions which occurred during construction.

(3) Contract No. 5825 on the East Revere Avenue-East Franklin Avenue project in Bend, Deschutes County: an increase of $22,072.48. This overrun was caused by increased work required at street connections and road approaches, and an overrun in the cost of the City of Bend's water line adjustment because of rocky excavation.

(4) Contract No. 5758 on the Burnt Hill-Thomas Creek Unit of the Oregon Coast Highway in Curry County: an increase of $40,822.50 because of slide conditions during construction.

The Commission approved the increases as requested.

Acquisition of additional property for enlargment of the Equipment Shop yards at LaGrande was requested by the Engineer. He recalled that in 1959 the Commission had given permission to acquire additional property, and he exhibited a map showing parcels which have been acquired. It had been planned to purchase only a portion of the property owned by Mr. and Mrs. F. C. Hunt; however, the owners have refused to sell a part and will consider only sale of the entire property. To secure sufficient property to justify a request to the City to vacate Jefferson Avenue and a portion of Box Elder Street, it is necessary to secure the property owned by the Hunts. The Commission granted authority to purchase the Hunt property at the appraised value of $11,000. The Engineer commented briefly that the property includes a house valued at $8,900 which can be used for storage or it can be rented to a highway employee.

Attention was given to a resolution, adopted by the Albany City Council, requesting widening to four lanes of the old route of the Pacific Highway (presently designated Albany-Junction City Highway) between the North Albany Interchange and the northerly end of the four-lane section previously constructed through Albany. This section, the Engineer stated, is in the vicinity of Waverly Lake and carries an average daily traffic of 8,800 vehicles. Traffic prior to opening the freeway section was 12,000. Cost of constructing a four-lane section he estimated at $120,000; however, no funds are available. The Commission deferred action due to lack of funds.

The Engineer requested authority to reimburse Southern Pacific Company for their cost, estimated at $1,720, for watchmen and flagmen to protect their traffic while the railroad crossing on LaSalle Street in Harrisburg is being improved. The project, the Engineer added, is a City street project financed from the special City street improvements fund. The Commission approved payment as recommended.

Attention was given to letters from Jackson County Judge Earl M. Miller and from L. B. Mayfield, Superintendent of Medford Public Schools, and a petition, signed by a number of residents of Jackson County, requesting improvement of the Medford-Provolt Secondary Highway between Ruch and Jacksonville. The Engineer stated that the average daily traffic on this section is 1,300 vehicles, and the accident rate is considerably below the state average for rural roads on the secondary system. A rough estimate of the cost of the requested improvement would be about $1,100,000. This improvement, he continued, is desirable but no funds are available at this time. He

recommended that the interested persons be advised that the project must be deferred until funds are available. The Commission accepted his recommendation.

Requests for increases in number of working days within which to complete state highway contracts were presented by the Engineer. He explained briefly the reasons for his recommended actions. The Commission took action on the requests as follows:

(1) Roy L. Houck Sons' Corporation, Contract 5608, for grading and structures on the Homestead-Rock Point Section of the Pacific Highway, Jackson County, requested an increase from 170 days to 270 days within which to complete the contract without assessment of liquidated damages. The Commission approved an increase of 60 workdays without assessment of liquidated damages. A letter was presented from the Bureau of Public Roads concurring therein.

(2) Sierra Electric Company, Inc., Contract 5646, illumination installation on the North Ontario and Idaho Avenue Interchanges on the Old Oregon Trail Highway, Malheur County, requested an increase from 20 days to 142 days within which to complete the contract without assessment of liquidated damages. The Commission approved an increase of 72 workdays without assessment of liquidated damages. A letter was presented from the Bureau of Public Roads concurring therein.

(3) R. A. Heintz Construction Company, Contract 5830, for grading and structures on the Phoenix-Siphon Section of the Pacific Highway, Jackson County, requested an extension of time within which to complete the contract without assessment of liquidated damages from April 22, 1961 to April 28, 1961. The Commission approved the extension as requested. A letter was presented from the Bureau of Public Roads concurring therein.

The Engineer reported that Contract Nos. 5141, 5412, 5445, 5548, 5574, 5588, 5589, 5646, 5673, 5737, 5761, 5772, 5783, 5790, 5804, 5805, 5806, 5820, 5822, 5859, 5864, and 5889 for highway construction had been completed in accordance with the requirements of the contracts, or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of May 26, 1961".

A request from the Bureau of Public Roads for a program change in the latest approved Forest Highway Program was considered. The Engineer explained that on the Mt. Hood Highway near Polallie Creek $50,000 additional funds are needed to provide a bridge. It is proposed that some of the unprogrammed balance be used for this purpose, thus increasing the authorization for this project from $400,000 to $450,000, leaving $231,467 as the unprogrammed balance. The Commission approved the revision.

The Engineer reported an extremely high accident record at the intersection of the Pacific Highway West and Seavy Road, north of Corvallis. From January 1, 1956 to February 28, 1961 there were 32 reported accidents at this location. Twenty-five persons were injured but there were no fatalities. It was his judgment that the accident potential could be materially decreased by the installation of a flashing beacon, with flashing red to those vehicles entering from Seavy Road and flashing amber to vehicles travelling on the Pacific Highway West. He recommended that the flashing beacon be installed at an estimated cost of $800. The Commission approved the installation.

A proposed illumination agreement with the City of Portland covering the Southwest City Limits-Harbor Drive Section of the Pacific Highway in Portland was presented by the Engineer. This agreement provides that the State install the lights at its expense and also provide maintenance. The City is to pay for all electrical energy required. Upon the Engineer's favorable recommendation, the Commission approved the agreement.

The Commission discussed with the Engineer a letter from the City of Pendleton requesting a surfacing project on S.W. 20th Street in Pendleton. The Engineer explained that the City's request referred to an agreement made in 1941 in which the State had contributed $3,721 on S.W. 20th Street which is not a part of the State Highway System. This agreement, he pointed out, was prior to the enactment of the law that set up a Special City Allotment Fund for expenditure of funds upon city streets not a part of the State Highway System which are receiving excessive wear through sudden increase in population or heavy or unusual traffic. Under present policy the Special City Allotment Fund is restricted to cities of less than 5,000 population, and since Pendleton has in excess of 15,000 population, it would not qualify for the allocation of these funds. The Engineer also pointed out that in view of the scarcity of highway funds he could not recommend use of funds other than on the State Highway System. He recommended that the request be denied. The Commission accepted his recommendation.

A proposed agreement with the Rogue River Valley Irrigation District covering relocation by the State of the weir in Bear Creek within the City of Medford on the Pacific Highway was discussed. The Engineer explained that in construction of the Pacific Interstate Highway through Medford it will be necessary to reconstruct the weir in Bear Creek to provide proper service for the Irrigation District. The agreement provides that it is the obligation of the State to relocate the weir and to provide right of way for the relocated facilities. It is the obligation of the Irrigation District to operate and maintain these facilities. Following his favorable recommendation, the Commission approved the agreement.

The Engineer presented a tabulation showing construction projects in Coos, Josephine, Klamath and Marion Counties as requested by these counties for expenditure of Federal-aid Secondary Funds. He also called attention to the cancellation of a project in Yamhill County as the County has decided to construct with its own forces. The projects, he pointed out, have been investigated and are eligible for these funds. The Commission approved the following Federal-aid Secondary projects:

County	FAS Hwy No.	Section & Description	Programmed Amount	FAS Funds
Coos	677	Beaver Lookout-Chrome Plant Overcrossing, East Unit. Grading, 1.04 miles.	$ 192,000	'62
Josephine	594	Alameda Mine-Dean Placer Section. Grading, 2.7 miles.	$ 168,000	'62
Klamath	415	Shasta Way-South 6th Street. Paving, 0.77 mile.	$ 75,000	'62
	842	Little Deschutes River Bridge. Structure.	$ 25,000	'62
Marion	733	Abiqua Creek Bridge. Structure.	$ 35,000	'62
		SUBTOTAL, ADDITIONAL PROJECTS		$495,000
Previously Approved Project Proposed for Cancellation				
Yamhill	114	Tindle Creek Road-Willamina Section	$ 51,000	
		LESS PROJECT PROPOSED FOR CANCELLATION		$-51,000
		TOTAL ADDITIONAL COUNTY FAS FUNDS		$444,000

SUMMARY BY FISCAL YEARS	1962	1963 Estimated	Total
Allocated Funds	$3,497,000	$3,681,000	$7,178,000
Previously Approved	2,782,000	--	2,782,000
Unprogrammed Balance	$ 715,000	$3,681,000	$4,396,000
Projects Proposed 5/26/61	444,000	--	444,000
Unprogrammed Balance	$ 271,000	$3,681,000	$3,952,000

The Engineer reported that surveys have been made for relocation and reconstruction on sections of three state highways. These surveys were made with the view of providing the most adequate highway facilities commensurate with the costs involved. Following his favorable recommendation, the Commission approved the following location surveys and thereupon adopted resolutions, marked Exhibits "I-1" through "I-3", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Commission Meeting of May 26, 1961".

(See following page.)

(1) S.W. Hamilton Street-S.W. Slavin Road Section of Pacific Highway West in Multnomah County. (See Exhibit "I-1".)

(2) Arlington-Boardman Junction Section of Columbia River Highway in Gilliam and Morrow Counties. (See Exhibit "I-2".)

(3) Fikes Corner-Hood River Section of Mt. Hood Highway in Hood River County. In adopting this survey resolution the Commission also ordered that the section of the Mt. Hood Highway from Wapinitia Junction to the City of Hood River be designated as a throughway. (See Exhibit "I-3".)

The Engineer made a report on the status of the Winnemucca-to-the-Sea Route from Adel to the Nevada State Line. With completion of a grading contract underway from Adel easterly, the road will be graded for a distance of 15½ miles (Adel to Blizzard Gap). The section from Blizzard Gap easterly has been partially graded by Lake County; however, there are many deficiencies and the road is not suitable for travel. The overall length of this inadequate section is 13 miles. He recommended that a contract project be undertaken or an equipment rental basis, similar to the one at Owyhee Lake, at a cost of approximately $150,000, using State funds. It was his thought that bids could be received on June 27, 1961. He also recommended a stage construction surfacing project on the section between Adel and Blizzard Gap, with placement of a light oil mat as a wearing surface. He estimated the cost of this work at $225,000. On completion of the work recommended, he pointed out that the remaining work will consist of surfacing approximately 21 miles from Blizzard Gap to the Nevada State Line which could be considered at a later date. He also recommended that effective July 1, 1961 the exchange of highways be effected as previously agreed between Lake County and the State, whereby the State is to take over as a state secondary highway the section from Adel to the Nevada State Line and the County is to take over as a county road the existing Warner State Secondary Highway from Adel to Plush. The Commission approved the recommendations as presented by the Engineer, and thereupon adopted a resolution, marked Exhibit "K", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Commission Meeting of May 26, 1961".

The Commission discussed with the Engineer and the Chief Counsel the sale of $8,000,000 of highway bonds authorized by the 1961 State Legislative Assembly. The Engineer pointed out that, although it does not so state in the bond acts, it was the intention of the Legislature that $4,000,000 of the bond money be spent on the Coos Bay-Roseburg Highway (ORE 42) and $4,000,000 on The Dalles-California Highway (US 197). He recommended that the Chief Counsel be granted authority to make necessary arrangements for sale of the bonds. The bonds, however, cannot be sold prior to August 10, 1961 as no emergency clause was attached to the Legislative act. The Commission granted authority as requested.

Attention was given to a request made by the principal of the Durham School on the Beaverton-Tualatin Highway for a reduced speed zone. The Engineer stated that a traffic engineering investigation had been made, and in view of the facts disclosed he recommended that Speed Zone Resolutions Nos. 187 and 271, dated April 14, 1955, and January 21, 1958, respectively, be rescinded, and that the following speed zones be established on the Beaverton-Tualatin Highway between Tigard and Tualatin:

(1) 35 MPH between the Pacific Highway West Junction and a point 450 feet south of Burnham Street.

(2) 45 MPH between a point 450 feet south of Burnham Street and a point 150 feet south of Southern Pacific Railroad crossing, except that between a point 450 feet east of S.W. 85th Avenue and a point 150 feet east of S.W. 79th Avenue the indicated speed shall be 20 MPH during the hours of school crossings.

(3) 30 MPH between a point 150 feet south of Southern Pacific Railroad crossing and the north City Limits of Tualatin.

(4) 40 MPH between the northerly south City Limits of Tualatin and the easterly west City Limits of Tualatin.

The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "B-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961".

The Commission also considered requests from the Sandy Chamber of Commerce and from residents in and near Sandy for a speed zone on the Sandy-Alder Creek Section of the Mt. Hood Highway other than the speed of 55 MPH referred to in the Basic Rule. The Engineer pointed out that this section of highway, 7.85 miles in length, is four lanes in width and was completed in 1960. Speed checks indicated that the speed at or below which 85 per cent of the vehicles traveled was 59.83 miles per hour. In view of this fact and other facts disclosed in a traffic engineering investigation, he recommended that a 60 MPH speed zone be established on the Mt. Hood Highway between the east City Limits of Sandy and a point 50 feet west of Alder Creek. The Commission accepted his recommendation, and thereupon adopted a resolution relative thereto, marked Exhibit "B-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961".

The Engineer requested and the Commission approved out-of-state travel authorization for the following personnel:

(1) Gene Huntley, Director of Personnel and Public Relations, to attend the Western Association of Highway Personnel Directors Conference in San Francisco, California, June 28-30, inclusive, at an estimated cost of $134.40.

(2) W. C. Williams, State Highway Engineer, to attend the annual summer meeting of the American Association of State Highway Officials Executive Committee meeting in Louisville, Kentucky, June 28, 1961, at an estimated cost of $275.

(3) Richard McCash, Parks Planning Supervisor, to attend the meeting of the Columbia Basin Inter-Agency Committee at Coeur d'Alene, Idaho, May 4, 1961, at an estimated cost of $75. This is confirmation of prior approval.

(4) Joe Shaw, Right of Way Agent, to go to the Indian Reservation at Marysville, Washington, to secure signature of an Indian owner whose land is held in trust by the Federal Government. Estimated cost, $70. This is confirmation of prior approval.

(5) L. E. George and William R. Zirbes, Traffic Engineering Division, to go to Sacramento, California for two days to study procedures used by California for measurement of sound before and after highway construction. Total estimated cost, $160.

(6) Carl Jordan, Director of Travel Information Division, to attend the Pacific Northwest Regional Meeting of the National Association of Travel Organizations in Seattle, Washington, June 1, 1961, at an estimated cost of $71.

Consideration was given to a proposed Joint-Use Agreement with Baker County and Frank D. Baird and Emma A. Baird, owners of the land, and the State Highway Department, lessee, granting Baker County permission to place radio transmitting equipment in the State building formerly occupied by the Bureau of Land Management on Coyote Peak near Baker, in Baker County. The Engineer explained briefly that the arrangement will not be detrimental to the State, and he recommended that it be approved. The Commission approved the Agreement.

Also considered was a Joint-Use Agreement with the City of Medford and the United States Forest Service granting the Forest Service permission to use 36 square feet of space in the State's proposed radio transmitter building on Roxy Ann Butte, near Medford. Use of the facility by the Forest Service, the Engineer stated, will not be detrimental to the State's interest, and he recommended that the Agreement be approved. The Commission approved the Agreement.

For the benefit of the traveling public, to facilitate the acquisition of right of way and closing of roads and streets, the Engineer recommended that the Mohawk Road-McKenzie Highway Section of the Eugene-Springfield Secondary Highway be designated as a throughway. The Commission approved his recommendation, and thereupon adopted a resolution relative thereto, marked Exhibit "F-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961".

For similar reasons the Engineer also recommended that the Pendleton-Milton Freewater Section of the Oregon-Washington Highway in Umatilla County be designated as a throughway. The Commission accepted the recommendation by adopting a resolution relative thereto, marked Exhibit "F-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961".

The matter of fire insurance on the State Highway Office Building in Salem was discussed. The Engineer pointed out that fire insurance policies totaling $1,486,800 are now in effect, but will expire June 4, 1961. As the State Restoration Fund has now been built up to the maximum amount of $3,000,000, he recommended that the policies be allowed to lapse and that the building be insured under coverage of the State Restoration Fund. The Commission approved the recommendation.

Attention was given to an agreement form with the City of Roseburg whereby the City agrees to reimburse the State for the actual cost of supervision of construction of a bridge over the South Umpqua River in the City of Roseburg. The Engineer commented briefly that bids were received on May 23 for this project, and that the City is to deposit $15,000 with the State to cover the estimated cost of supervision. Following his favorable recommendation, the Commission approved the agreement.

A request from Deschutes County was considered for connecting Seventh Street in Lapine to The Dalles-California Highway at Highway Station 705+87. The Engineer commented that as Lapine is an unincorporated town, the streets are under the jurisdiction of the county. He could see no objection to the request, and recommended that it be approved. The Commission approved the request and thereupon adopted a resolution relative thereto, marked Exhibit "G", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of May 26, 1961".

The Commission gave attention to a request from the Mid-Willamette Valley Planning Council through Mr. Robert C. Gallop that the Commission approve the naming of certain frontage roads adjacent to the Pacific Highway near Salem. The Engineer explained that the action is requested so that the official names of these roads will conform to the street naming and house numbering system approved by the Marion County Court and also for Post Office use. The Commission approved the following names:

(1) West Frontage road between the Sunnyside-Turner Interchange and the North Jefferson Interchange, to be known as 25th Drive, S.E.

(2) East Frontage road from the Sunnyside-Turner Interchange to the North Jefferson Interchange, to be known as 26th Drive, S. E.

(3) Frontage road on the westerly side of the Pacific Highway between 34th Avenue, N. E. and Hyacinth Avenue, N. E., to be known as 34th Avenue, N. E.

The Commission considered, and upon the favorable recommendation of the Engineer, approved an Easement and Construction Agreement with Southern Pacific Company pertaining to use of the Railroad Company's properties in connection with highway construction on the Garibaldi-Bay City Section of the Oregon Coast Highway in Tillamook County.

At 11:00 a.m. Acting Chairman Fridley announced award of contracts, as follows:

BIDS RECEIVED IN SALEM ON MAY 23, 1961

"Leveling course and oiling on the Baker County Roads Oiling Project on three county roads in vicinity of Baker, Halfway and Richmond in Baker County. The Commission awarded the contract to the low bidder, Babler Bros, Inc., Portland, at $50,082.00.

"Maiden Gulch-Copperfield Rock Production Project on the Baker-Homestead and Halfway-Cornucopia Highways in Baker County. The Commission awarded the contract to the low bidder, N. A. Toole Construction, Ontario, at $90,048.75.

"Three structures, Clackamas Overcrossing-Park Place Section of Cascade Highway, in Clackamas County. The Commission awarded the contract to the low bidder, Inland Construction Co., Milwaukie, at $225,805.00.

"Molalla (5th St.) Grading and Paving Project in Clackamas County. The Commission elected to accept the low bid of The Dutton & Adkins Construction Co., Molalla, in the sum of $23,216.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Molalla is received and the sum of $7,400.00 is deposited by the City.

"Replace Pier Fenders, Lewis and Clark Bridge, Astoria-Seaside Section of Oregon Coast Highway, in Clatsop County. The Commission awarded the contract to the low bidder, General Construction Company, Seattle, Washington, at $18,585.80.

"St. Helens (Columbia Blvd. & N. Vernonia Road) Paving Project in Columbia County. The Commission elected to accept the low bid of B & K Paving Co., Kelso, Washington, in the sum of $19,079.90 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of St. Helens is received and the sum of $2,100.00 is deposited by the City.

"Bridge and grading on the Stringtown Road Bridge Section, Myrtle Point-Coquille Road, in Coos County. The Commission elected to accept the low bid of Sig Andersson, Coos Bay, in the sum of $156,863.50 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Coos County is received and the sum of $35,500.00 is deposited by the County.

"Paving on the Burnt Hill-Brookings Section of the Oregon Coast Highway, in Curry County. The Commission awarded the contract to the low bidder, Dorman Construction Company, Vancouver, Washington, at $494,603.00.

"Roseburg Traffic Signals, Washington St.-Haynes St. Section of the Oakland-Shady Highway, in Douglas County. The Commission awarded the contract to the low bidder, Madson & Stokes, Roseburg, at $16,475.00.

"Washington Avenue Bridge in City of Roseburg, in Douglas County. All bids were referred to the City of Roseburg for award.

"Oiling on the Snowshoe Camp-Star Creek Section of the Paulina-Logdell Road, in Grant County. The Commission elected to accept the low bid of Russell Olson Construction Co., Inc., Pendleton, in the sum of $110,776.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Grant County is received and the sum of $25,200.00 is deposited by the County.

"Long Creek-Beech Creek Summit Rock Production Project on the Kimberly-Long Creek and Pendleton-John Day Highways, in Grant County. The Commission awarded the contract to the low bidder, Arthur Simonsen & Co., Baker, at $39,610.00.

"Canyon Creek Bridge on S.W. 4th Avenue in City of John Day, in Grant County. The Commission awarded the contract to the low bidder, Lundmark Bros., Colton, at $15,944.00.

"Division No. 4 Oiling Project on the Ochoco, Redmond-Bend, Lakeview-Burns, and Fremont Highways in Harney, Klamath, Deschutes and Crook Counties. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $89,240.25.

"Princeton-Scotts Butte Oiling Project on the Crane-Scotts Butte Highway in Harney and Malheur Counties. (This job was withdrawn prior to the opening of bids.)

"Paving on the Ruch-Little Applegate River Section on a county road (FAS Rt. No. 559), in Jackson County. The Commission elected to accept the low bid of Rogue River Paving Company, Medford, in the sum of $62,562.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County is received and the sum of $14,100.00 is deposited by the County.

"Central Point (Pine Street) Grading and Paving Project in Jackson County. The Commission awarded the contract to the low bidder, M. C. Lininger and Sons, Medford, at $15,583.00.

"Evans Creek Bridge on Evans Creek Road, in Jackson County. All bids were referred to Jackson County for award.

"Santiam Junction-Suttle Lake Rock Production Project in Jefferson and Linn Counties. The Commission awarded the contract to the low bidder, Saxton-Stevenson, Inc., Salem, at $32,000.00.

"Car Storage Shed on State Highway Property in Grants Pass, in Josephine County. The Commission awarded the contract to the low bidder, Cummings Construction Company, Grants Pass, at $7,865.00.

"Paving on the Goshen-Cottage Grove Section of the Pacific Highway in Lane County. The Commission awarded the contract to the low bidder, Roy L. Houck Sons' Corporation, Salem, at $1,335,701.00.

"Grading and structure on the CottageGrove-Divide Section of the Pacific Highway in Lane County. All bids were rejected as being too high.

"Row River Bridge, RCDG structure on Row River Road, in Lane County. The Commission awarded the contract to the low bidder, Inter City Construction Co., Eugene, at $58,426.50.

"Toledo ("A" Street Extension) Grading and Paving Project, in Lincoln County. The Commission awarded the contract to the low bidder, Smith Transfer, Toledo, at $52,261.90.

"Sweet Home ("L" Street) Paving Project,in Linn County. The Commission elected to accept the low bid of Morse Bros., Lebanon, in the sum of $23,570.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Sweet Home is received and the sum of $7,100.00 is deposited by the City.

"Nyssa (Park Avenue) Grading and Oiling Project, in Malheur County. The Commission elected to accept the low bid of Ontario Asphalt Paving Co., Ontario, in the sum of $19,113.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Nyssa is received and the sum of $2,300.00 is deposited by the City.

"Cairo Junction-Homedale Rock Production Project on the Central Oregon and Nyssa-Adrian Highways, in Malheur County. The Commission awarded the contract to the low bidder, N. A. Toole Construction, Ontario, at $30,000.00.

"Silverton (South Center Street) Grading and Paving Project, in Marion County. The Commission elected to accept the low bid of Salem Road and Driveway Co., Salem, in the sum of $7,947.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Silverton is received and the sum of $900.00 is deposited by the City.

"Remodel existing radio building at Salem Shops, in Marion County. The Commission awarded the contract to the low bidder, Mills Construction Co., Salem, at $26,750.00.

"Grading, paving and structures on the Boardman Junction-Irrigon Section of the Old Oregon Trail and Columbia River Highways, in Morrow County. (This job was withdrawn prior to the opening of bids.)

"Roadside improvement on the S.W. 19th Avenue-Tigard Interchange Unit, Harbor Drive-Washington County Line Section of the Pacific Highway, in Multnomah County. (This job was withdrawn prior to the opening of bids.)

"Roadway Illumination on the Harbor Drive-Washington County Line Section of the Pacific Highway, in Multnomah County. The Commission awarded the contract to the low bidder, Trowbridge Electric, Roseburg, at $163,000.00.

"Traffic Signal Installation on the Beaverton-Hillsdale Highway at Shattuck Road, in Multnomah County. The Commission awarded the contract to the low bidder, W. R. Grasle Co., Portland, at $9,480.00.

"Salt Creek Box Culvert and Spring Valley Creek Box Culvert on the Enterprize and Lincoln-Zena Roads, in Polk County. The Commission awarded the contract to the low bidder, Braun Bros., Eugene, at $14,922.50.

"Grading, paving and structures on the Biggs-Mud Hollow Road Section of Sherman and Columbia River Highways, in Sherman County. The Commission awarded the contract to the low bidder, C. R. O'Neil, Creswell, at $624,079.30.

"Grading and oiling, with bridge, on Tillamook River Bridge Section on Netarts Highway, in Tillamook County. The Commission awarded the contract to the low bidder, George E. Berry, Beaverton, at $250,483.00.

"McNamars Camp-Washburn Rock Production Project on the Wilson River Highway, in Tillamook and Washington Counties. The Commission awarded the contract to the low bidder, Vanaken Sand & Gravel, Forest Grove, at $56,633.00.

"Washington State Line-S. Forest Boundary Rock Production Project on the Enterprise-Lewiston Highway, in Wallowa County. The Commission awarded the contract to the low bidder, W. R. Sutherland, Wilbur, Washington, at $54,096.00.

"Bear Springs Rock Production Project on the Warm Springs and Wapanitia Highways, in Wasco County. The Commission awarded the contract to the low bidder, Cody Logging Company, Tygh Valley, at $29,700.00.

"Grading and paving on the Cornell Road-Barnes Road Section of the Sunset Highway, in Washington County. The Commission elected to accept the second low bid of Erland & Blickle Co., Portland, in the sum of $460,816.64 (the low bidder, C. R. O'Neil, Creswell, having qualified his bid) and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Beaverton Traffic Signal Installation on the Tualatin Highway at Hocken Street, in Washington County. The Commission awarded the contract to the low bidder, Ace Electric Company, Portland, at $9,076.00.

"Mistletoe Undercrossing of S.P.R.R., in Jackson County. The Commission awarded the contract to the low bidder, R & M Construction Company, Central Point, at $154,289.40."

The Commission considered an Agreement and Easement form with Oregon, Pacific Eastern Railroad Company pertaining to the use of railroad right of way in construction of the Pacific Highway, east of the City of Cottage Grove in Lane County. The Engineer stated briefly that in 1954 an easement had been granted by the railroad to the State for construction of an overhead crossing. It is now proposed to construct an additional overhead crossing for additional traffic lanes as a part of the Pacific Highway, and the agreement and easement pertain to such construction. The Commission approved the Agreement and Easement.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period from April 10 through May 19, 1961.

The next Commission meeting date was confirmed for Friday, June 9, 1961, in the State Highway Building in Salem. A tentative date for the following meeting was set for July 21, 1961. The Commission discussed briefly with the Engineer a proposed Commission field trip through western and southern Oregon starting July 24. Final action on the trip was deferred until the June 9 meeting.

The Commission confirmed prior approval of the following agreements:

(1) Agreement with Union Pacific Railroad Company concerning a one-way couplet project on the Pendleton-John Day Highway in the City of Pendleton, Umatilla County.

(2) Agreement with Union Pacific Railroad Company concerning construction on the Biggs Junction-Mud Hollow Section of the Sherman Highway in Sherman County.

(3) Supplemental Throughway Agreement with Jackson County covering the Seven Oaks-Ashland Section of the Pacific Highway in Jackson County.

(4) Throughway Agreement with the City of Ashland covering construction on the Seven Oaks-Ashland Section of the Pacific Highway in the City of Ashland, Jackson County.

Attention was given to an agreement with Union Pacific Railroad Company concerning construction on the Weston-Milton Freeway Section of the Oregon-Washington Highway as this construction pertains to railroad property. The Engineer pointed out that the agreement is a combined Easement and Construction Agreement, and it is necessary for construction of the highway. The Commission approved the Agreement.

The Engineer presented a request from the Eugene Fruit Growers Association to lease highway property under and adjacent to the Ferry Street ramps in the City of Eugene. This property is not being used by the State, and an agreement has been reached whereby the Association will improve the property for a parking lot for its customers and employees and pay to the State the sum of $50 per year for the lease. He recommended that the lease be approved for a term of five years, beginning May 26, 1961, with a 60-day

cancellation clause at the option of the lessor. The Commission approved the lease.

The Engineer also presented a contract with the United States Corps of Engineers concerning relocation or alteration of the Columbia River Highway (US 730) between Boardman Junction and Irrigon because of the John Day Lock and Dam Project. He pointed out that the contract has been written to pay the State of Oregon the sum of $283,960, based upon a flow of 720,000 cubic feet per second in the Columbia River, and an additional amount of $123,883 in the event the treaty with Canada is not ratified within five years from the date of this contract. He explained that US 730 will be constructed on new alignment and the Corps of Engineers have agreed to pay the State the amount of money it would have cost the Corps to raise US 730 above the pool elevation if the road had been retained in its present location. The Commission approved the contract.

The Engineer proposed sale of a corner of the stockpile site near the Longview Bridge in West Rainier on the Columbia River Highway, Columbia County, to Rainier Drainage District for the sum of $50. Sale of the property, he stated, will not be detrimental to the State's use of the remaining property and will allow the Drainage District to properly rearrange its drainage facilities. The Commission approved the sale.

The Engineer reported that an approximate $13,000,000 of additional Federal Interstate funds have been released and that it is now possible to receive bids in June for about $4,200,000 in highway construction. It is planned to receive bids on June 27, and he asked if it would be possible for two Commissioners to be present so that award of contracts could be made that day. Determination of which of the Commissioners will attend was deferred to the June 9 meeting.

Acting Chairman Fridley requested that a resolution be drawn for the Commission's signature expressing appreciation for services rendered to the Highway Department by William M. Tugman, recently deceased member of the Travel Information Advisory Committee and Chairman of the Parks and Recreation Advisory Committee.

The Commission signed the following agreements, deeds and other papers:

"Ground Lease" with Cyril A. and Gertrude C. VanDyke covering the leasing of 0.746 acre of land in Washington County on the Nehalem Highway, for a period of three years with a rental of $75.00.

"Grant of Easement" to Multnomah County for an interceptor sewer on Washington County Line-Hillsdale Section adjacent to Beaverton-Hillsdale Highway in Multnomah County.

"Revised Oregon Forest Highway Program" re increasing the authorization from $400,000 to $450,000 on the Mt. Hood Highway in the vicinity of Polallie Creek.

"Illumination Agreement" with City of Portland covering the S.W. City Limits-Harbor Drive Section of the Pacific Highway in the City of Portland.

"Agreement" with the Rogue River Valley Irrigation District covering the reconstruction of the weir in Bear Creek within the City of Medford.

"Joint-Use Agreement" with Baker County and Frank D. Baird covering installation of some equipment in our radio building on Coyote Peak near Baker, in Baker County.

"Joint-Use Agreement" with City of Medford and U.S. Forest Service for the use by the Forest Service of City property on Roxy Ann Butte.

"Agreement" with the City of Roseburg covering construction of a bridge over the South Umpqua River in the City of Roseburg.

"Easement and Construction Agreement" with the Southern Pacific Company covering the Bay City Overcrossing of the Southern Pacific Company tracks on the Garibaldi-Bay City Section of the Oregon Coast Highway in Tillamook County.

"Agreement" with Union Pacific Company and Umatilla County covering an easement and construction on the Weston-Milton Freeway Section of the Oregon-Washington Highway in Umatilla County.

"Contract No. DA-45-164-CIVENG-61-265" with U.S. Corps of Engineers for relocation or alteration of Columbia River Highway affected by the John Day Lock and Dam Project.

"Construction Agreement" with City of Portland covering the Harbor Drive-Ash Street Connection of the Pacific Highway West in the City of Portland. (Authorized 3-10-60)

"Throughway Agreement" with Polk County covering the West Salem Section of the Willamina-Salem Highway in Polk County. (Authorized 12-12-58 and 12-12-60)

"Cooperative Construction Agreement" with City of Corvallis covering the 4th Street Widening Project on the Pacific Highway West in City of Corvallis. (Authorized 4-14-61)

"Agreement" with Grant County covering the Snowshoe Camp-Star Creek Section of FAS 453 in Grant County. (Authorized 9-29-60)

"Agreement" with Baker County covering the Baker County Roads Oiling Project on FAS 521, 511 and 506 in Baker County. (Authorized 11-5-59 and 11-3-60)

"Lease Agreement" with the Eugene Fruit Growers Association covering a lease of some property under and adjacent to the Ferry Street ramps in Eugene.

"Agreement" with Lane County covering the construction of the Row River Bridge on FAS 231 in Lane County. (Authorized 11-3-60)

"Traffic Signal Agreement" with City of Beaverton covering the Tualatin Valley Highway and Hocken Street in the City of Beaverton. (Authorized 3-10-61)

"Construction and Easement Agreement" with Oregon, Pacific Eastern Railway Company relative to the overhead crossing over and across Railroad's property in the vicinity of Knox Hill east of the City of Cottage Grove in Lane County.

"Agreement" with Jackson County covering the Ruch-Little Applegate River Section of FAS 559 in Jackson County. (Authorized 7-7-60)

"Agreement" with Coos County covering the Stringtown Road Bridge Section of FAS 251 in Coos County. (Authorized 1-28-60)

"Agreement" with Polk County covering the Salt Creek and Spring Valley Creek Box Culverts on FAS 746 and 743 in Polk County. (Authorized 9-29-60)

"Agreement, Rules and Regulations, and Plans" for controlling outdoor advertising in areas adjacent to The National System of Interstate and Defense Highways.

"Bargain and Sale Deed" to Alvin and Carol Meeuwsen for a parcel of land lying in Lots 1 and 2 of Block 7, Wilkesboro situated in the SE¼ of Section 31, Township 2 North, Range 3 West, W.M., Washington County. (Authorized 4-14-61.)

"Bargain and Sale Deed" to Eugene W. Lowe for a parcel of land lying in Lot 1, Block 7, Bradbury's Addition to Ocean Grove in the City of Seaside, Clatsop County. (Authorized 4-14-61)

"Bargain and Sale Deed" to James H. Vannice for a parcel of land on the Albany-Judkins Point Section of the Pacific Highway in Linn County. (Authorized 3-10-61)

"Bargain and Sale Deed" to Ladislav Holemar and Anna Holemar for a parcel of land on the Eugene-Goshen Section of the Pacific Highway in Lane County. (Authorized 9-29-60)

"Bargain and Sale Deed" to Weyerhaeuser Company for a parcel of land lying in Lots 5 to 9 inclusive of Block 32, Coos Bay, Plat B Addition to North Bend, Coos County. (Authorized 3-10-61)

"Bargain and Sale Deed" to Sidney Bazett and Norma J. Bazett for a parcel of land on the Jump-off-Joe Creek-Grants Pass Section of the Pacific Highway in Josephine County. (Authorized 3-10-61)

"Bargain and Sale Deed" to Belleview Mfg. Co., Inc. for a parcel of land on the 17th Street-Union Avenue Section of the Pacific Highway East in Multnomah County. (Authorized 4-14-61)

"Bargain and Sale Deed" to S. R. Hunt and Lois A. Hunt for a parcel of land on the Roseburg-Yoncalla Section of the Oakland-Shady Highway in Douglas County. (Authorized 4-14-61)

"Release and Easement" to Coos Bay Oyster Cooperative to property on Haynes Slough or Inlet just north of North Bend-Coos Bay Bridge in Coos County.

"Release and Easement" to May F. Padrick to property on Haynes Slough or Inlet just north of North Bend-Coos Bay Bridge in Coos County.

"Release and Easement" to R. W. Heilman, William Heilman and Anna Heilman to property on Haynes Slough or Inlet just north of North Bend-Coos Bay Bridge in Coos County.

"Release and Easement" to Herman A. Hahn and Leona Hahn to property on Haynes Slough or Inlet just north of North Bend-Coos Bay Bridge in Coos County.

"Release and Easement" to Mertice B. Buchner to property on the Haynes Slough or Inlet just north of North Bend-Coos Bay Bridge in Coos County.

There being no other business to consider the meeting was adjourned at 12:00 Noon.

State Highway Engineer

Acting Chairman

Secretary

Commissioner

May 26, 1961

Salem, Oregon
June 9, 1961

The Oregon State Highway Commission met in regular session at 9:30 a.m., Pacific Standard Time, in the Conference Room of the State Highway Building, Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
Floyd Query, Secretary

Mr. W. C. Williams, State Highway Engineer, was excused because of illness.

The Commission considered a recommendation by the Parks Superintendent that five timbered tracts located along the old route of the Oregon Coast Highway, north of Brookings, be cruised and the timber and land offered at public sale subsequent to the opening of the new US 101. He pointed out that the timber, which now is worth approximately $250,000, was purchased in 1942 for fifty cents per thousand board feet for the preservation of timbered waysides. When the new highway is completed these tracts will be a number of miles off the new route and the need for the timbered waysides will no longer exist; also, the ground on which the timber is located is not suitable for park or wayside development. Commissioner Fridley inquired if it was planned to use the receipts from the sale for the purchase or development of other park properties. The Parks Superintendent replied in the affirmative. In the discussion which followed, the Auditor pointed out that it is against budgetary principles to earmark receipts from sales as an increase to a previously approved budget. Commissioner Jackson mentioned that the State Parks and Recreation Advisory Committee had recommended that the receipts be used for park use and that some means should be found so they could be used for that purpose. After some further discussion, the Commission approved the sale as recommended by the Parks Superintendent and decided that receipts from this sale should go into the general highway fund, such receipts to be earmarked for consideration when the 1962 Parks budget is prepared.

The Parks Superintendent stated that Portland General Electric Company wishes to acquire a 40-acre tract of land in Cove Palisades State Park, located approximately one-quarter mile east of the Round Butte Dam site, in Jefferson County. They wish to construct an electric switching station on

the property and have offered to purchase it at its appraised value or trade it for property owned by the Company. In exchange for the State-owned tract they have offered a tract of 140.57 acres located on the south bank of the Metolius River, about six miles upstream from the mouth of the river. Approximately 79 acres of this land will be inundated by the Round Butte Dam Reservoir, leaving about 61 acres with approximately three-quarter mile of lake frontage. Although the property offered does not adjoin existing park lands it was the Parks Superintendent's opinion that it would probably have future value for public use and might be used as possible trading stock with the U. S. Forest Service as it does adjoin their land. The 40-acre tract owned by the State is located above the rim of the escarpment above the dam and is of questionable value for park purposes. He recommended that the exchange of lands be approved. The Commission accepted his recommendation.

The Right of Way Engineer presented for consideration options, pages 1 through 31, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of June 9, 1961".

The Property Manager's report covering sales of miscellaneous properties, changes in rental status, and rental receipts since the last Commission meeting was presented by the Right of Way Engineer. He commented briefly that sales of miscellaneous properties totalled $81,568 and that rental receipts for the month of April amounted to $3,746.22. The Commission accepted the report.

"Indentures of Access" covering changes in points of access on a number of properties were presented by the Right of Way Engineer. He explained that the proposed changes are consistent with Commission policy, have been approved by the Engineering Division, and have been made for the safety of the traveling public as well as for the benefit of the property owners. The Commission approved the following "Indentures of Access":

(1) Guy Roberts Lumber Company, File 26237, on the Toledo-Eddyville Section of the Corvallis-Newport Highway, Lincoln County, for a change in location of two points of access, 25 feet in width, restricted to the production and transportation of timber products and ordinary residential use.

(2) Cook property, File 26239, on the Toledo-Eddyville Section of the Corvallis-Newport Highway, Lincoln County, for change in location of three points of access, 25 feet in width, restricted to the production and transportation of timber products and ordinary residential use.

(3) Dickson property, File 26241, on the Toledo-Eddyville Section of the Corvallis-Newport Highway, Lincoln County, for change in location of one point of access, 25 feet in width, restricted to ordinary residential use.

(4) Lee property, File 26242, on the Toledo-Eddyville Section of the Corvallis-Newport Highway, Lincoln County, for change in location of one point of access, 25 feet in width, restricted to the production and transportation of timber products and ordinary residential use.

(5) Stout property, File 30854, on the Mayville-Fossil Section of John Day Highway, Wheeler County, for change in location of one point of access, 25 feet in width, unrestricted as to use.

(6) Martin property, File 27528, on the Myers Creek-Brookings Section of Oregon Coast Highway, Curry County. In the original settlement for this property two points of access, 25 feet in width, were granted, restricted to residential use and for the production and transportation of timber products. Mr. Martin, he stated, has complied with the terms of the Commission's resolution, adopted July 31, 1956, and has deposited the necessary money to cover the cost of conversion of two points of access to 35 feet in width and unrestricted as to use.

(7) Martin property, File 27528, on the Myers Creek-Brookings Section of Oregon Coast Highway, Curry County, for change in location of one point of access, 25 feet in width, restricted in use to the production and transportation of agricultural and timber products and ordinary residential use.

(8) Richfield Oil Corporation property, File 30490, on the Hillsboro-Reedville Section of Tualatin Valley Highway, Washington County, for change in location of two points of access, 40 feet in width, unrestricted as to use.

(9) Newhouse, Young, and Wiancko property, Files 30382 and 31924, on the Hunters Creek-Myers Creek Section of Oregon Coast Highway, Curry County, for change in location of two points of access, 25 feet in width, one for residential use only, and the other to be used for production and transportation of timber products and ordinary residential use.

A "Grant of Access" to R. M. Knox and Son, Inc., owners of property on the Greggs Creek-Wedderburn Section of the Oregon Coast Highway, Curry County, was presented by the Right of Way Engineer. He explained briefly that the property was originally served by a public road which was severed by the new highway construction. When the new section was constructed by the Bureau of Public Roads, an approach was constructed and a gate placed in the right of way fence, but the original transaction did not make provision for this point of access. The "Grant of Access" as presented confirms the right to use the point of access previously constructed. The Commission approved the "Grant of Access".

Consideration was given to an agreement with the Bonneville Power Administration covering use of their right of way on the Chenoweth Creek-The Dalles Section of the Columbia River Highway in Wasco County. The Right of Way Engineer commented that the agreement gives the State authority to construct the freeway across Bonneville's property and also provides relinquishment on the part of Bonneville of all rights of direct access from the main travelled portion of the freeway. Access for the Bonneville Power Administration will hereafter be from a frontage road on the southwest side of the freeway and from the present Columbia River Highway on the northeast side of the freeway. Upon his favorable recommendation, the Commission approved the agreement.

The Commission also considered a "Grant of Access" and a form of resolution relinquishing access restrictions to a frontage road on the westerly side of the Pacific Highway (Baldock Freeway) between Boones Ferry Road and Boeckman Road in Clackamas County. In acquiring property for the original highway construction, acquisitions were made on the westerly side of the highway with complete denial of access to the highway. A frontage road was subsequently constructed along the westerly side of the freeway and the adjacent owners were without legal rights of access to the frontage road. The "Grant of Access" and the resolution, he stated, have been prepared so that these people may have legal access to the frontage road. The Commission approved the agreement and adopted a resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of June 9, 1961".

The Right of Way Engineer stated that in negotiations with the City of Grants Pass for construction of the Hayes Hill-Grants Pass Section of the Redwood Highway, in Josephine County, a considerable section of the right of way of the defunct California and Oregon Coast Railroad was acquired. Portions not utilized in highway construction were conveyed to Josephine County with a public use restriction. The County now wishes to improve a portion of the Jerome Prairie Road, and in negotiating for right of way for this project it is necessary that they obtain a release concerning the public use clause originally imposed. He recommended that the Commission approve a quitclaim deed releasing the public use restriction as it affects the area which the County desires. The Commission approved the release.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "F-1" through "F-5", which resolutions by this reference are made a part

hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 9, 1961".

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated June 9, 1961, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers", and also his letter of June 19 listing the Schrimpf, Christensen, and Wallace properties which were presented orally as items not on the Agenda.)

A report of cases tried in court since the last Commission meeting was presented by the Chief Counsel and accepted by the Commission. He commented briefly and explained details on some of the cases, which are summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3635 Otto G. Muessig, et ux	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 400	$ 750	$ 500 Stipulated Judgment
L-3679 Scott B. Zachary	Jackson	Pacific	Seven Oaks-Neil Creek	$18,225	$34,000	$30,000

REPORT OF TRIAL OF OTHER CASES

Case	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict
L-3599 Con Medina	State of Oregon	Grant	Damage (Inverse condemnation)	$2,300	$ 600 Stipulated Judgment
L-3745 City of Portland	Oregon Sign and Neon Corp., and State of Oregon	Multnomah	Condemnation by City for Urban Renewal Project. State's interest is slope easement for Front Avenue	Judgment of fee simple title	Dismissed as to State

(For additional details see the Chief Counsel's letter of June 8, 1961 entitled "Report of Cases Tried" in the General Files.)

The Chief Counsel also presented a report of cases which have been settled out of court. The Commission approved settlements which have been summarized as follows:

(See following page)

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-24857 John W. Goodyear, et ux	Lincoln	Corvallis-Newport	Newport-Toledo	$ 100 (0.12 acres)	$ 500
		(Settlement based on revised description of 0.15 acres, whereas, original taking was 0.12 acres. Revised taking creates severance damage not included in original taking.)			
R-30190 Harris Distributing Co., et al	Linn	Santiam	Pine Street-Market Drive (Lebanon)	$ 140	$ 140
R-32110 R-32111 Arthur T. Edwards, et al	Morrow	Columbia River	Boardman Junction-Umatilla	$1,170	$1,170.25
R-31574 R-31576 Robert C. Smith, et al	Morrow	Columbia River	Boardman Junction-Umatilla	$1,000	$1,860
		(Review appraiser found that fee appraisal omitted $395 for improvements and $108 for fencing.)			
R-32241 William Weber, et ux	Tillamook	Oregon Coast	Hobsonville-Bay City	$ 480	$ 480
R-31539 E. S. Whitman, et al	Umatilla	Columbia River	Boardman Junction-Umatilla	$ 840	$ 990
R-30507 Margaret A. Sauer, et al	Washington	Tualatin Valley	Hillsboro-Reedville	$6,260	$17,000
		(Original offer based on appraisals which erroneously contemplated such number of accesses necessary to fully develop 1800 feet of frontage near city limits of Hillsboro. Actually access was being limited to two points and settlement based on re-appraisal on proper access basis. Settlement is on appraisal as reviewed.)			
R-33035 Rose Biggi	Washington	Sunset	Cornelius Pass Road-Multnomah County Line	$8,300	$8,750
		(For Record only. Approved NOA at the May 26, 1961, Commission meeting.)			

(For additional details see the Chief Counsel's letter dated June 8, 1961, entitled "Report of Cases Settled" in the General Files.)

Confirmation of prior telephonic approval by members of the Commission on offers made to property owners prior to commencement of condemnation proceedings was requested by the Chief Counsel. The Commission confirmed offers as follows:

BIG EDDY-BIGGS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-32794 - Isami Tsubota, et ux. Acquisition of interests in an easement. Offer of $650 approved by Mr. Fridley, June 5, 1961.

CORNELIUS PASS ROAD-MULTNOMAH COUNTY LINE SECTION OF THE SUNSET HIGHWAY

R-32074 - Adele Guerber, et vir. 0.28 acre for right of way purposes. Offer of $3,465 approved by Mr. Fridley, June 2, 1961.

HOBSONVILLE-BAY CITY SECTION OF THE OREGON COAST HIGHWAY

R-32223 - Robert John Pollock, et ux. 10,000 square feet for right of way purposes. Offer of $150 approved by Mr. Fridley, May 25, 1961.

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY

R-20082 - L. J. Geiger, et al. Parcel No. 1: 0.28 acre for right of way purposes; Parcel No. 2: 0.2 acre for right of way purposes; Parcel No. 3: 0.5 acre for right of way purposes; and Parcel No. 4: 938 square feet for right of way purposes. Offer of $2,000 approved by Mr. Jackson, June 7, 1961.

R-27729 - Hannah E. Hawkins, et al. Parcel No. 1: 0.92 acre for right of way purposes; and Parcel No. 2: 0.67 acre for right of way purposes. Offer of $5,190 approved by Mr. Jackson, June 5, 1961.

R-30223 - Marcia A. Stevens, et vir. Parcel No. 1: 2.73 acres for right of way purposes; Parcel No. 2: 0.18 acre for right of way purposes; and Parcel No. 3: 1.0 acre for right of way purposes. Offer of $4,890 approved by Mr. Jackson, June 1, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29729 - Egon D. Arend, et al. 40,000 square feet for right of way purposes. Offer of $167,500 approved by Mr. Fridley, May 25, 1961.

R-29735 - Mary J. Clifton, et al. 10,000 square feet for right of way purposes. Offer of $16,730 approved by Mr. Fridley, May 25, 1961.

R-30304 - Charles N. Walker, et al. 5,000 square feet for right of way purposes. Offer of $9,100 approved by Mr. McIver, June 8, 1961.

R-32204 - Missouri Villa, Inc., et al. 10,000 square feet for right of way purposes. Offer of $62,900 approved by Mr. Fridley, May 25, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31673 - Joseph Illias, et al. 500 square feet for right of way purposes. Offer of $200 approved by Mr. McIver, June 8, 1961.

R-31679 - Multnomah County, et al. Parcel No. 1: 1,487 square feet for right of way purposes; and Parcel No. 2: 1,488 square feet for permanent easement. Offer of $6,480 approved by Mr. McIver, June 8, 1961.

R-31710 - Robert M. Nixon, et ux. 4,350 square feet for right of way purposes. Offer of $2,500 approved by Mr. McIver, June 8, 1961.

R-31720 - Jacob R. Treber, et ux. 8,300 square feet for right of way purposes. Offer of $9,000 approved by Mr. Fridley, May 25, 1961.

R-31721 - Earl W. Caldwell, et al. 3,225 square feet for right of way purposes. Offer of $2,750 approved by Mr. McIver, June 8, 1961.

R-31733 - Thomas G. Elliott, et al. 2,880 square feet for right of way purposes. Offer of $430 approved by Mr. McIver, June 5, 1961.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-31180 - Gust R. Ekdahl, et ux. 0.02 acre for right of way purposes. Offer of $380 approved by Mr. Jackson, June 5, 1961.

S. E. FLAVEL ST.-LAKE ROAD SECTION OF THE CASCADE STATE SECONDARY HIGHWAY

R-32653 - J. Lynn Walters, et ux. 0.22 acre for right of way purposes. Offer of $900 approved by Mr. McIver, June 5, 1961.

R-32890 - Howard Martin, et ux. 0.15 acre for right of way purposes. Offer of $2,250 approved by Mr. McIver, June 5, 1961.

THE DALLES BY-PASS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30539 - Jacob G. Sherrer, et al. Parcel No. 1: 0.29 acre for right of way purposes; and Parcel No. 2: 1.04 acres for right of way purposes. Offer of $24,500 approved by Mr. Fridley, June 5, 1961.

WESTPORT-CLATSKANIE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31536 - Richard Kent Magruder, et al. 1.78 acres for right of way purposes. Offer of $4,400 approved by Mr. Fridley, May 31, 1961.

R-31552 - Zita B. Clifford, et vir. 2.08 acres for right of way purposes. Offer of $670 approved by Mr. Fridley June 6, 1961. An offer of $615 was approved by Mr. McIver, April 3, 1961. This revised amount is due to an increase in the acreage of the taking.

A brief written report was presented by the Chief Counsel concerning orders received from the Public Utility Commissioner in which the State Highway Commission has been a party. The Commission accepted the report which is summarized, as follows:

PUX 334, Order No. 37790: Swisshome Grade Crossing, Southern Pacific Company, Lane County. This involves a county road crossing of the railroad at grade. An answer was filed stating that the Highway Commission has no jurisdiction over the road involved.

PUX 367, Order No. 37829: Smith Point Grade Crossing, Spokane, Portland and Seattle Railway Company, Oregon Coast Highway in Clatsop County. This matter arose upon the petition of the Highway Commission to allow installation of Standard No. 2-B signals in lieu of Standard No. 2 flashing signals. The order by the Public Utility Commissioner has been received allowing the change in the type of signals to be installed.

PUX 396, Order No. 37818: Spokane, Portland and Seattle Railway crossing of a Clatsop County road near Seaside. An answer was filed stating that the Highway Commission has no jurisdiction over the road involved and no objection was made to the issuance of an order.

PUX 406, Order No. 37835: The Dalles (West) Overcrossing of the Union Pacific Railroad Company on the Columbia River Highway in Wasco County. Authority was issued to construct an overcrossing in accord with the petition and testimony presented at the hearing.

PUX 407, Order No. 37830: The Dalles (East) Overcrossing of the Union Pacific Railroad Company on the Columbia River Highway in Wasco County. An order was issued authorizing construction of the overcrossing in accord with the petition and testimony presented at the hearing.

PUX 408, Order No. 37823: Clarke Overcrossing of the Union Pacific Railroad Company on the Columbia River Highway in Morrow County. Authority was granted to construct an overcrossing in conformity with the petition and testimony offered, except that the order recited that the structure would be located approximately thirty (30) miles west of Irrigon and five (5) miles east of Boardman, where, in fact, the proposed structure is to be located 6.9 miles west of Irrigon and 3.7 miles east of Boardman. Supplemental Order No. 37875 has been issued to make this correction, and it also provides for furnishing by the Railroad of engineering and inspection services.

PUX 410, Order No. 37861: Mistletoe Undercrossing of the Southern Pacific Company tracks on the Pacific Highway in Jackson County. An order was issued allowing the overcrossing in accord with the petition and testimony presented at the hearing.

PUX 413, Order No. 37843: West Salem Overcrossing of the Southern Pacific Company tracks on the Willamina-Salem Highway in Polk County. The order issued allows the overcrossing in accord with the petition and testimony offered at the hearing.

PUX 429, Order No. 37873: Application to construct a spur track across Sage Road, a Jackson County Road. An answer was filed stating that the Highway Commission has no jurisdiction over Sage Road, and no objection was made to the issuance of an order.

A revised pay plan for attorneys in the Legal and Right of Way Division was presented by the Chief Counsel. He explained briefly reasons for the increases and stated that the proposed schedule has been approved by the Attorney General, the Civil Service Commission, and the Department of Finance and Administration. The Commission approved the following pay plan for attorneys:

NAME	GRADE		RANGE		SALARY	
	Pres.	Prop.	Pres.	Prop.	Pres.	Prop.
Lindas	VI	VI	34	37	$990	$1,110
Rohde	VI	VI	34	37	950	1,070
Peterson	V	V	31	34	880	990
McKinney	V	V	31	34	880	990
Patterson	IV	IV	28	31	775	880
Hampton	IV	IV	28	31	775	880
Bemis	IV	IV	28	31	625	745
Anderson	IV	IV	28	31	745	845
Mansfield	IV	IV	28	31	685	775
Kuhn	IV	IV	28	31	775	880
Sorensen	IV	IV	28	31	685	775
Viducich	II	III	22	28	575	655
Barbera	II	III	22	28	550	685
Nuttman	III	III	25	28	655	745
Sollis	II	II	22	23	500	550
Hershberger	II	II	22	23	550	6 months period up 11/1/61

(For additional details, see the Chief Counsel's letter dated June 1, 1961 entitled "Pay Raises" in the General Files.)

Consideration was given to a request made by E. H. Itschner Company, a co-partnership, for assignment of contracts which have been awarded to them, to E. H. Itschner Company, a corporation. The Chief Counsel stated that the proposed assignment of contracts from the partnership to the corporation has been carefully checked. The liability of the partnership has not been released in the assignment, and he recommended that the Commission approve the assignment, subject to approval by the surety companies which have provided performance bonds for the contracts involved. The Commission accepted the recommendation.

The Chief Counsel suggested that action be deferred on the sale of $8,000,000 of bonds authorized by the 1961 Legislative Assembly until the States of Oregon and Washington have completed an agreement regarding this matter. The Commission approved the suggestion.

Reappointment of Mr. George E. Rohde as Assistant Chief Counsel for a 4-year period beginning June 27, 1961, was recommended by the Chief Counsel. The Commission approved the reappointment of Mr. Rohde as recommended, and thereupon adopted a resolution relative thereto, marked Exhibit "E-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 9, 1961".

The Commission reconsidered an Agreement, Plan, Rules and Regulations pertaining to advertising on Interstate and Defense Highways previously approved by the Commission on May 26, 1961. The Chief Counsel advised that subsequent to Commission approval word had been received from Mr. Robert May, of the Legal Division of the Bureau of Public Roads, Washington, D. C., that some changes would be necessary in the papers to meet requirements of the Bureau of Public Roads. These changes, the Chief Counsel continued, are technical revisions not materially affecting the original action taken by the Commission. Upon his favorable recommendation the Commission approved the revised Agreement, Plan, Rules and Regulations and adopted a resolution relative thereto, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 9, 1961", and authorized the Secretary to execute the papers in behalf of the Commission.

A report was made by the Chief Counsel on the filing of an action by the City of Portland naming the State Highway Commission as defendant, along with the Oregon Sign and Neon Corporation, in the Circuit Court for Multnomah County. This action, he continued, is to condemn a tract of land owned by the Corporation in connection with the Urban Renewal Project in Southwest Portland. The State's interest consists of a slope easement. After consultation with city attorneys, the City has entered an order for dismissal as to the State Highway Commission so that the City will take the property subject to State's interest. The Commission accepted the report.

Consideration was given to a request by Mr. and Mrs. E. Phillips and Alta N. Phillips, dba Jayhawk Trailer Sales Company, that the State consent to assignment to the Phillips of a land sales purchase contract for land sold by the Commission to W. J. and Betty J. Sargent, recorded in Volume 522, page 57 of the Deed Records of Marion County and on which there is due $7,244.55. The Chief Counsel explained that the State sold land to the Sargents who in turn wish to sell it to the Phillips. No harm will accrue to the State by reason of this assignment, and he recommended that it be approved. The Commission accepted his recommendation.

The Chief Counsel requested, and the Commission granted, authority to withdraw an appeal made in the case of the State vs. Walter C. Bodyfelt, et al., L-3255A. He explained that upon further examination of the evidence there is no basis for appeal on a reversible error.

Authority was requested by the Chief Counsel, and granted by the Commission, to demand the removal of a warehouse building from right of way on the N. E. Union Avenue-Fremont Bridge Section of the Pacific Highway in Portland. Such action, he stated, is in accord with terms of the deed from the Administrator of General Services, United States of America, to the Highway Commission, dated June 16, 1950.

A petition was presented by the Chief Counsel which would exclude land owned by the State Highway Commission for highway purposes from the Rogue River Valley Irrigation District. If the lands are excluded, he explained, the Highway Department cannot be assessed by the Irrigation District. The Commission approved the action to remove the right of way from the District.

Chairman McIver inquired as to status of a damage suit instituted by the City of Portland against the State for damages to the Portland Zoo area caused by an earth slide for which the City claims that the State is responsible because of highway construction nearby on Canyon Road. The Chief Counsel explained that the State's defense in this case is that the work performed was done at the City's request, that the entrance to the Zoo was built according to a plan submitted by the City and approved by the State, and that the City participated to the extent of approximately $50,000 in the construction of portions of the road from the interchange to the Zoo. An offer has been made to split the damages on a 60-40 basis, 60 per cent to be paid by the State and 40 per cent to be paid by the City. Chairman McIver inquired as to how the amount of damages had been determined. The Chief Counsel replied that an engineering concern has submitted to the State an itemized list of work performed by the City to correct the slide condition; however, he pointed out that the State has not rendered any bill to the City for work the State has done. The Commission instructed the Chief Counsel to defend the suit.

The Chief Counsel remarked that in compliance with a request made by the Commission at the meeting May 26 he is preparing forms and procedures so that the Secretary to the Commission or the Assistant Secretary may sign agreements, contracts, and other papers in behalf of the Commission. The Commission approved the procedure.

The meeting was recessed at 10:40 a.m. and reconvened at 10:55 a.m. in the same room with the same persons present.

The Deputy Highway Engineer reported that the Engineer had made awards of contracts which had been referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he continued, have been satisfied and the Commission confirmed award of the following contracts:

(..) Grading and paving 5th Street in Molalla, Clackamas County. Bids received May 23, 1961. Contract awarded May 29, 1961 to The Dutton and Adkins Construction Co., Molalla, low bidder.

(2) Paving "L" Street in Sweet Home, Linn County. Bids received May 23, 1961. Contract awarded May 29, 1961 to Morse Bros., Lebanon, low bidder.

(3) Grading and oiling Park Avenue in Nyssa, Malheur County. Bids received May 23, 1961. Contract awarded May 29, 1961 to Ontario Asphalt Paving Co., Ontario, low bidder.

(4) Grading and paving project on South Center Street in Silverton, Marion County. Bids received May 23, 1961. Contract awarded May 29, 1961 to Salem Road and Driveway Co., Salem, low bidder.

(5) St. Helens (Columbia Boulevard and North Vernonia Road) Paving Project, Columbia County. Bids received May 23, 1961. Contract awarded to B & K Paving Co., Kelso, Washington, low bidder, on May 31, 1961.

(6) Bridge and grading the Stringtown Road Section of Myrtle Point-Coquille Road, Coos County. Bids received May 23, 1961. Contract awarded June 2, 1961 to Sig Andersson, Coos Bay, low bidder.

(7) Paving Ruch-Little Applegate River Section on county road (FAS Rt. No. 559), Jackson County. Bids received May 23, 1961. Contract awarded June 5, 1961 to Rogue River Paving Company, Medford, low bidder.

Consideration was given to a proposal made by Klamath County that the State Highway Commission cooperate in construction of a grade separation on Washburn Way southeasterly from Klamath Falls. The Deputy Highway Engineer recalled that in January, 1960, a delegation had appeared before the Commission requesting financial assistance on this project. No action was taken at the time, but it was suggested that the County seek funds from the Federal Government under the Defense Access Road program. A hearing was held in June, 1960, before the Public Utility Commissioner and in October, 1960, he issued an order for the grade separation construction, based to some extent upon statements that finances had been arranged. Subsequently, the County's request for Defense Access Road funds was denied. The total cost of the structure he estimated at $300,000. The County and the Great Northern Railroad Company have apparently agreed to contribute $100,000 each, and the State has been requested to finance the balance of the cost above $200,000 which, he estimated, would be near $100,000. He pointed out that this project is not on a state highway and, as the need for improvements on existing secondary highways both in the Division and in the immediate area far outruns the available funds, he recommended that the request be denied. In response to Commissioner Fridley's inquiry if the Klamath County officials have been asked to place a priority on the projects they have requested, the Deputy Highway Engineer replied that at Commissioner Jackson's suggestion he met with these people and they stated their preference for the Westside By-pass. The Deputy Highway Engineer also recommended that no exchange of roads be made with the County, which would place the grade separation on the highway system, as the present secondary highway in that area is quite adequate. (Action was deferred pending appearance of a Klamath County delega-

tion later in the day. When the delegation appeared they were advised that, although the project is worthy, no funds are available.)

The Commission discussed with the Deputy Highway Engineer a resolution adopted by the Springfield Chamber of Commerce requesting that construction of the "Q" Street project northerly from Springfield, in Lane County, be expedited by use of urban funds. The Deputy Highway Engineer stated that there may be some confusion in the minds of the Chamber of Commerce members concerning highway finances as there seems to be a general misconception that urban funds are granted to the states over and above their regular highway allotments. This, he stated, is not true and under existing regulations the State is not permitted to use secondary funds in urban areas. He explained that because of recent changes in the Springfield area it will be necessary to use more urban funds than was originally contemplated. Construction is planned in this area in the Fall of 1961, by which time it is expected that a drainage district project will be completed. He suggested that a letter be written to the Chamber of Commerce explaining to them the financial setup. The Commission approved the suggestion and also instructed that someone familiar with the matter explain it to the Chamber of Commerce personally.

An agreement, covering analysis of soils samples, with Oregon State University, in cooperation with the U. S. Bureau of Public Roads, was considered. The Deputy Highway Engineer explained that for the last year a cooperative endeavor has been underway testing soils gathered by the U. S. Soil Conservation Service. This is a program which the State was requested to undertake by the BPR and may be of value to the State in highway work. The proposed agreement continues the program for another eight months with a maximum expenditure of $5,600. Upon his favorable recommendation the Commission approved the agreement.

The Deputy Highway Engineer reported that surveys had been completed covering the relocation and reconstruction of several sections of state highways. The proposed surveys, he continued, have been given very careful engineering consideration in order to provide the most adequate highway facility commensurate with the needs of the traveling public and the costs involved. Following his favorable recommendation, the Commission approved the following surveys by adopting resolutions pertaining thereto, marked Exhibits "G-1" and "G-2", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 9, 1961":

(1) Rufus-Arlington Section of the Columbia River Highway in Sherman and Gilliam Counties. In connection with this survey the Deputy Highway Engineer requested, and the Commission granted, authority to enter into an agreement with the U. S. Corps of Engineers concerning right of way acquisition, and to acquire any isolated parcels of right of way in which the Corps of Engineers may not be involved. See Exhibit "G-1".

(2) Florence-Cushman Section of the Siuslaw Highway in Lane County. See Exhibit "G-2".

The Commission considered a request from Rogers Construction Company for an extension of 17 days' time within which to complete Contract No. 5412 for grading on the Deadmans Pass-Meacham Section of the Old Oregon Trail Highway in Union County without assessment of liquidated damages. The Deputy Highway Engineer reported that because of conditions not the fault of the contractor the 17 days could be justified, but, as the contractor overran his time limit only 15 days, he recommended an extension of time of 15 days be granted without assessment of liquidated damages. Approval has been given by the Bureau of Public Roads. The Commission accepted his recommendation.

The Deputy Highway Engineer reported that contract numbers 5809, 5815, 5821, 5849, 5860, 5862, 5865, and 5878 for highway construction have been completed in accordance with requirements of the contracts and modifications thereof and said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution, marked Exhibit "B", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Commission Meeting of June 9, 1961".

The next regular Commission meeting was confirmed for July 28 in the Conference Room of the State Highway Building in Salem. A tentative date for the following meeting was set for September 8. The Commission also confirmed the dates of July 24, 25, and 26 for a Commission inspection trip of highways in western and southwestern Oregon. The Deputy Highway Engineer reported that bids are to be opened in Salem for highway construction projects on June 27 and again on July 27. In order to make awards on the bids received June 27 he inquired if two of the Commissioners could be present to make awards of the contracts that day. Commissioner Fridley stated that he could be present and either Chairman McIver or Commissioner Jackson would arrange also to be present.

The establishment of a 35 mile-per-hour temporary construction speed zone for the protection of the traveling public while highway construction is underway was reported by the Deputy Highway Engineer, and confirmed by the Commission, as follows:

> 35 miles per hour between M.P. 45.35 and M.P. 50.20 on the Umpqua Highway in Douglas County, effective 8:00 a.m., June 3, 1961.

A request from the Bureau of Public Roads for a change in the forest highway program to provide additional funds on existing jobs was considered by the Commission. The Deputy Highway Engineer stated that the request provides additional funds for the Crater Lake Section of the Crater Lake Highway near Prospect. The original allocation provided $10,000 for right of way and $290,000 for grading, base and structures on this section. Upon completion of the survey it was found that this allocation was insufficient, and an increase has been requested to $110,000 for right of way and $600,000 for grading, base and structures. The project length has also been increased from four to seven miles. Other changes in this program, he continued, are as follows: McKenzie Highway, grading, base and bridges project, for which an allocation of $500,000 was set up, has been withdrawn; the "FHA Routes, Lump

Fund Surveys", have been increased from $150,000 to $200,000 and the "Unprogramed balance (lapsing)" has been increased from $83,281.30 to $123,281.30. The Commission approved the revision as requested.

Attention was given to a request made by the South Tillamook Road Committee that the Little Nestucca Secondary Highway be paved or oiled from the end of the existing oil at M.P. 2.25 to M.P. 5.00. The Deputy Highway Engineer reported that the request has merit, but demands for improvements on highways in Division 2 far exceed the available funds. He also pointed out that the traffic on this highway is relatively light, being only 60 vehicles per day at the low point. It was his recommendation, approved by the Commission, that the Committee be advised no funds are available and consideration will have to be deferred.

The Commission considered a cooperative construction agreement with the City of Eugene covering Riverview Street, 16th Avenue and Augusta Street on the Judkins Point-Goshen Section of the Pacific Highway. The Deputy Highway Engineer explained that in revising the interchange plans for the Pacific Highway south of Judkins Point an over-all savings of $65,000 was achieved. As a part of the revised plan it was necessary that the State improve Augusta Street in order that proper access could be provided to an area which would have been served by the former interchange. The City of Eugene has now indicated that it wishes to improve Augusta Street beyond the standards needed for access purposes, and has proposed that if the State will pay to the City the amount the State would have spent for improvement to an access standard, that the City will perform all of the work and relieve the State of further liability. The access type construction, the Deputy Highway Engineer stated, has been estimated to cost $15,000, and he recommended that this amount be paid to the City of Eugene and that they make the improvement as outlined. The Commission approved the recommendation.

Out of state travel expenses were recommended by the Deputy Highway Engineer and approved by the Commission, as follows:

(1) R. B. Sipprell, Director of Permits and legislative liaison official, to attend meeting of Western Regional Conference of the Council of State Governments in San Francisco, California, on July 16 to 19, 1961, at an estimated cost of $135.

(2) G. S. Paxson, Assistant State Highway Engineer, to attend meeting of the Bridge Committee for the Illinois test road in Chicago, Illinois, for three days in July, 1961. Cost will be paid by Highway Research Board.

The Deputy Highway Engineer called to the Commission's attention that the Auditor's appointed term ends July 21, 1961. He recommended that Mr. C. H. Maison be reappointed as Auditor for the State Highway Department for a four-year term, ending July 21, 1965. The Commission approved the reappointment and thereupon adopted a resolution relative thereto, marked Exhibit "E-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 9, 1961". Chairman McIver complimented Mr. Maison

on the manner in which he has fulfilled the duties of his office.

The matter of allowing the Commission for the Blind to establish a coffee shop and snack bar in the headquarters building of the Metropolitan Division in Portland was brought up by the Deputy Highway Engineer. He explained briefly that a similar setup is being operated in the State Highway Building, Salem, and has proven very satisfactory. The agreement covering the coffee shop and snack bar in Portland provides that the State Highway Department will furnish all utilities necessary for operation of the coffee shop and snack bar, such as water, electricity, heat, janitor service, and the Blind Commission will provide all fixtures, fittings, etc., to operate the shop, and agrees to pay as rent 1½% of the gross receipts or $20 per month, whichever is greater. Upon his favorable recommendation, the Commission approved the arrangement as outlined.

The matter of a salary increase for the Secretary, Mr. Floyd Query, was considered. The Deputy Highway Engineer recommended that the Secretary's salary be increased from $810 to $880 per month, effective July 1, 1961. He also commented that no increase had been granted in this position since the present Secretary was appointed in November, 1958. The Commission approved the increase.

An increase in salary for the State Highway Engineer was also considered by the Commission. The Deputy Highway Engineer stated that a letter has been received from the Department of Finance and Administration stating that under the provisions of a law enacted by the 1961 Legislative Assembly the State Highway Engineer's salary had been established on four steps, the first step of which was $16,500 per year and the fourth step at $18,300 per year. Chairman McIver recommended that the Engineer be paid at the rate of $18,300 per year. The recommendation was unanimously approved by the Commission, effective July 1, 1961.

Chairman McIver stated that he had noticed that violations for overloads on trucks had decreased, and he inquired as to the contributing factors. The Deputy Highway Engineer pointed out that more scales are being used by truck haulers to weigh their loads before going onto the highways and that this has been particularly true among log haulers.

Chairman McIver also called attention to complaints that he had received concerning overnight activities and hazardous operation of vehicles on Cannon Beach and on the beach near Tolovana Park. He recalled that Commission action taken a few months ago establishing a 15 mile-per-hour limit on the beach in this area had been taken on a one year trial basis. He requested that an investigation be made concerning operation of vehicles on the beach and overnight activities. Several letters, he mentioned, had been received requesting that the beach be closed to vehicles from 10:00 p.m. to 5:00 a.m. The report when presented, he continued, should contain pictures of conditions that are found.

The Chief Counsel brought up the matter of renewing fire insurance on State-owned buildings on highway right of way. The present policy, he stated, expires August 15, 1961, and he requested authority to take such

action as is necessary to keep adequate insurance on the buildings. The Commission granted the authority.

The meeting was recessed at 11:45 a.m. and reconvened at 1:00 p.m. in the same room and with the same persons present.

A delegation from Portland representing the American Institute of Architects, garden clubs, building owners, and others, came before the Commission to protest the present plans for construction of the Ash Street-Harbor Drive Overpass on the Pacific Highway in the City of Portland. The following people, all from Portland, were present: Ken Maher, State Representative; Lewis O'Donnell, visiting; Daniel McGoodwin, Mr. and Mrs. Lewis Crutcher, Howard Leonard Glazer, American Institute of Architects; Donald Confrey, building owner; Walter W. MacMonies, Warren A. MacMonies, Doris Wood, building owners, Metzger Parker Company: and Glen Holden, President, Helm Investment Company. Chairman McIver explained to the group that their appearance at this time will be quite limited due to lack of time for presentation of arguments by those favoring the Ash Street Overcrossing and those protesting. He suggested that if the group desires additional time for a full discussion of the matter that they request an appearance before the Highway Commission at its meeting July 28, when an opportunity to be heard can be offered to those protesting and those favoring the plan. Mr. Daniel McGoodwin stated that he feels the protesting group has good public support. He read a statement that a large majority of Portland residents do not want traffic and highway engineers alone to make plans for projects, such as the Ash Street-Harbor Drive Overpass, which is in effect a City planning decision. He pointed out that the Portland City Planning Commission had not been consulted in this matter and requested that any final action on the overpass matter be preceded by a report and recommendation from them. Mr. Walter MacMonies called attention to the "awful things" in Seattle and San Francisco which he said are similar to the Ash Street structure. It was his feeling that a meeting, as suggested by Chairman McIver, would be a good thing. He commented that he must have answered several hundred phone calls in protest of the existing plans, and several organizations in the area asked him to request that action be delayed. State Representative Ken Maher stated that he wished to protest the proposed plan personally and also as a State Legislative Representative. He urged that an opportunity be offered for full-scale hearing and that further studies be made of a feasible method to bring cars into the downtown area by some means other than the view-blocking overpass. It was his thought that there is much public opinion against the proposed ramp, and he cited some of the objections; namely, loss of the water front area, the Skidmore Fountain area, and some of the old pioneer buildings. Some feared that the ramp would preclude visits to naval vessels during Rose Festival Week, others had expressed concern that the ramp would serve as a "wino" jungle for vagrants, and many were afraid that there would be a great number of speeding cars entering the narrow and congested streets from the ramp. Before departing, a member of the delegation presented pictures of the area in question. Chairman McIver thanked the group for coming and advised them that they could be heard in more detail, if they desired, at the Commission meeting on July 28.

Mr. Frank F. Ganong, Klamath County Commissioner, and Mr. Jack R. Kalinoski, Klamath County Engineer, appeared before the Commission to request financial assistance in construction of a railroad overpass on Washburn Way, a County road southeasterly of Klamath Falls. Mr. Kalinoski stated that the Public Utility Commissioner, in October, 1960, had ordered Klamath County to begin construction on the overpass within three years. Cost of constructing a two-lane facility, he stated, has been estimated at $295,600, and $415,900 for four lanes. As a follow-up to previous discussions with the Highway Commission in this matter, he stated that the County Court had made a request to the United States Air Force for Defense Access Road Funds as the road serves the airbase, but the request had been denied. Under the proposed construction plan, the Great Northern Railroad is to pay $100,000 and Klamath County is to pay $100,000 using County FAS funds. He requested that the Highway Commission contribute the balance required, or approximately $100,000 for a two-lane facility. Chairman McIver pointed out that all funds available to projects of this sort in Division 4 have been allocated. The Commission, he continued, realizes that the project has merit, but there are no funds available.

A delegation representing the County Courts of Morrow and Wheeler came before the Commission to request improvements on the Heppner-Spray Secondary Highway. Those appearing were the following: O. E. Mathews, Wheeler County Judge, Fossil; Raymond Gates, Wheeler County Commissioner, Fossil; Oscar Peterson, Morrow County Judge; Gene Pierce, Vice-President of Bank of Eastern Oregon, Heppner; and Milton Biegel, Morrow County Commissioner. Mr. Pierce emphasized the need for improvement on the highway within the National Forest area, not only because of the large amount of log hauling now underway and which probably will increase in the future, but also because of the recreational potential when Bull Prairie Dam is completed and opened to fishing and camping next year. Wheeler County Judge O. E. Mathews urged that the road be improved in order to aid the economy of Wheeler and Morrow Counties. Wheeler County Commissioner Raymond Gates stated that the existing highway is either muddy or dusty, and much livestock is hauled over the road to the closest market which is at Hermiston. He also pointed out that the nearest hospital is in Heppner and travel over the existing road is difficult for those who are ill. Milton Biegel, Morrow County Commissioner, emphasized the need for improvement to the highway because of log, grain, and cattle hauling. Morrow County Judge Oscar Peterson pointed out the need for completion of an improved north-south highway between Heppner and the John Day Highway. At the request of Chairman McIver, the Deputy Highway Engineer reviewed the program of improvements on this highway, beginning about thirteen years ago, which improvements extend southerly from Hardman. There is, he continued, a section of about seventeen miles within the National Forest which should be improved, and he suggested that improvement be considered in setting up the next forest highway program, which should be sometime in the fall or early winter of 1961.

A delegation representing the US Highway 26 Association urged the Commission to make improvements on US Highway 26 between Mitchell and Dayville. The following persons were present: Geo. M. Schnee, J. M. Norton, Earl Smith, Lawrence Sigfrit, Millard Webb, Clarence Jones, Jim Huddleston--all from Mitchell; Robert Lakin, Prineville; Russ Vernon, Mayor of the City of Prineville; and Ben Smith, Redmond. Mr. Earl Smith called attention to the need

for improving a section of approximately 7.3 miles east of Mitchell. Traffic, he stated, is increasing and the road is becoming more hazardous. Mr. Lakin also emphasized the need for improving this section, which he referred to as the Mitchell Hill Section, and mentioned that several persons had been killed in this vicinity. He called attention to the logs and lumber that are being hauled over this section and to the bottleneck created by these large trucks. He also called attention to US Highway 26 being designated as an emergency defense route. Mr. Earl Smith commented that much livestock is hauled over this highway to market in Portland and improvement of the highway would aid the economic condition of the area. Mr. Ben Smith, in speaking of livestock hauling, mentioned that the crooked and, in some places, rough road causes shrinkage in weight and bruises on the livestock. Mr. Russ Vernon, Mayor of Prineville, pointed out that there is much of scenic value in this portion of Central Oregon, and improvement of the highway would aid in securing tourist traffic. Mr. Millard Webb, Superintendent of Schools at Mitchell, stated that the school bus travels over this section four times a day during school months. In some places the road is too narrow and crooked to meet or pass safely other large vehicles, such as log trucks. Mr. Earl Smith remarked that the highway section under discussion had been built in 1930, and on one short section he counted fifty curves. Chairman McIver told the group that every possible consideration would be given by the Commission when formulating the next construction program.

Mr. Robert E. Veatch, Mayor of Klamath Falls, Mr. Deb Addison, Chairman of the Klamath Falls Chamber of Commerce Roads and Highways Committee, Mr. Jack R. Kalinoski, Klamath County Engineer, and Mr. Frank F. Ganong, Klamath County Commissioner, all of Klamath Falls, appeared before the Commission to request a change in designation of the Klamath Falls-Lakeview Highway (ORE 66) from a Federal-Aid Secondary to a Federal-Aid Primary Highway. Mr. Addison read a statement pointing out comparison of the volume of traffic on the Klamath Falls-Lakeview Highway and on other Eastern Oregon primary highways. He also called attention to the fact that this highway will serve as a portion of the so-called Winnemucca-to-the-Sea route which is being completed easterly to the Nevada State Line. This highway, he pointed out, is of great importance for export of Southern Oregon livestock, forest products, and farm crop products to eastern markets, and it also connects two county seats - Klamath Falls and Lakeview. Commissioner Jackson inquired of the Deputy Highway Engineer if the change in designation as requested would provide any additional funds for the highway. The Deputy Highway Engineer replied that no additional money would become available and he mentioned that the overall percentage of deficiency in the primary highway system is greater than in the secondary highway system. The Commission, he explained, when making up a highway program allocates money to the various areas by a formula. Such formula, however, does not take into account the type of money being allocated to the area, only the total amount; so the change in classification of this highway would not increase the funds. Mr. Addison stated that it was felt that the change in designation, even though it would not provide additional funds, would please a large number of people in South Central Oregon. Commissioner Jackson commented that the volume of traffic using the highway would be a factor in making a change and in future allocation of funds to the highway. No action was taken.

At the request of Commissioner Fridley the Deputy Highway Engineer reviewed briefly the proposed A.B.C. funds which may be made available by the National Congress during the next biennium. It appears that Oregon may receive about $300,000 in additional funds.

Chairman McIver read a telephone message received from Mr. William A. Bowes, City Commissioner of Public Works, Portland, concerning a course of action in connection with the controversy on the Ash Street Ramp. Mr. Bowes suggested that representatives be selected as follows: One professional man other than a member of the Highway staff, to be appointed by and represent the Highway Commission; One representative to be selected by the City of Portland; and one representative each to be selected by "The Oregonian" and the "Oregon Journal" newspapers. He suggested that these four representatives meet to review the studies of an underpass or overpass at Ash Street on Harbor Drive in Portland. After some discussion, the Commission instructed that Mr. Forrest Cooper, Deputy State Highway Engineer, select a man to represent the State Highway Department and that he talk to Commissioner Bowes regarding this matter.

Chairman McIver presented a pin to Mr. Mark Astrup, Parks Superintendent, for 15 years of service with the State Highway Department. He also presented a 30-year pin to Mr. Floyd Query, Secretary.

The Commission signed the following agreements, deeds, and other papers:

"Indenture of Access" to the Guy Roberts Lumber Co. property on the Toledo-Eddyville Section of the Corvallis-Newport Highway, Lincoln County.

"Indenture of Access" to the Ernest H. and Mabel J. Cook property on the Toledo-Eddyville Section of the Corvallis-Newport Highway in Lincoln County.

"Indenture of Access" to the Marguerite Dickson and A. J. Dickson property on the Toledo-Eddyville Section of the Corvallis-Newport Highway in Lincoln County.

"Indenture of Access" to Charles Lee and Lorena Lee property on the Toledo-Eddyville Section of the Corvallis-Newport Highway in Lincoln County.

"Indenture of Access" to the J. E. Stout and Jewel M. Stout property on the Mayville-Fossil Section of the John Day Highway in Wheeler County.

"Indenture of Access" to the B. A. Martin and Nettie C. Martin property on Myers Creek-Brookings Section of Oregon Coast Highway, Curry County. (Highway Engineer's Station 1003+32 and 1119+50)

"Indenture of Access" to the B. A. Martin and Nettie C. Martin property on Myers Creek-Brookings Section of Oregon Coast Highway, Curry County. (Highway Engineer's Station 993+40)

"Indenture of Access" to the Richfield Oil Corporation property on Hillsboro Reecville Section of Tualatin Valley Highway, Washington County.

"Inderture of Access" to S. O. Newhouse and Corinne K. Newhouse, C. H. Young and Marie Young; Thomas H. Wiancko and Sibyl S. Wiancko property on Hunters Creek-Myers Creek Section of Oregon Coast Highway, Curry County.

"Grant of Access" to R. M. Knox and Son, Inc. property on the Greggs Creek-Wedderburn Section of Oregon Coast Highway, Curry County.

"Right to Use Power Line Easement and Right of Way Agreement" with Bonneville Power Administration covering use of their right of way on Chenoweth Creek-The Dalles Section of Columbia River Highway, Wasco County, for highway purposes and elimination of direct access from Columbia River Highway to their right of way.

"Grant of Access and Resolution" covering relinquishment of access restrictions to frontage road on westerly side of Baldock Freeway between Boones Ferry and Boeckman Roads, Clackamas County.

"Quitclaim Deed" to Josephine County for a parcel of land on the Hayes Hill-Grants Pass Section of the Redwood Highway in Josephine County.

"Lease and Sale of Road Materials Agreement" with Oswald Quaale for a parcel of land on the Lyle Gap-Madras Unit, Willowdale-Madras Section of The Dalles-California Highway in Jefferson County.

"Petition to Exclude Land" from the Rogue River Valley Irrigation District, Jackson County.

"Agreement" with the Oregon State University re soil testing for the U. S. Bureau of Public Roads.

"Letter Type Agreement" with Bureau of Public Roads for a change in the Forest Highway Program so as to provide additional funds on existing jobs, particularly to increase money allocated to the Crater Lake Section in vicinity of Prospect.

"Cooperative Construction Agreement" with City of Eugene covering Riverview Street, 16th Avenue, and Augusta Street on the Judkins Point-Goshen Section of the Pacific Highway in the City of Eugene.

"Agreement" with Yamhill County covering the Bernards Corner-Purdys Corner project on FAS 111 and 889. (Authorized 9-29-60)

"Cooperative Construction Agreement" with City of Ontario covering the N.W. 1st Street-N.W. 2nd Avenue Section of the Olds Ferry-Ontario Highway in the City of Ontario. (Authorized 4-14-61)

"Cooperative Construction Agreement" with the City of Portland covering the West City Limits-St. Johns Bridge Section of the Columbia River Highway in the City of Portland. (Authorized 12-12-58 and 1-28-60)

"Letter" considering matter of salary of the State Highway Engineer.

"Bargain & Sale Deed" to Millard E. Christal and Verna M. Christal for a parcel of land lying in Lots 1 and 2, Block 1, of Rosemont Addition to East Portland, situated in Section 32, Township 1 North, Range 2 East, W. M., Multnomah County. (Authorized 4-14-61)

"Bargain & Sale Deed" to Clarence A. and Lila M. Soderback for a parcel of land on the Vadis-Gardner Ranch Section of the Sunset Highway in Washington County. (Authorized 4-14-61)

"Bargain & Sale Deed" to Anders C. and Katharine E. Christensen for a parcel of land on the Albany-Judkins Point Section of the Pacific Highway in Linn County. (Authorized 5-26-61)

"Agreement" with Oregon State Commission for the Blind to operate a snack bar in the East Portland State Office Building, in Portland, Oregon.

"Agreement" between State, Marion County, Polk County, City of Salem, and Mid-Willamette Valley Planning Council and the Intergovernmental Cooperation Council for comprehensive planning for community development of the entire Salem urban area within Marion and Polk Counties having common or related urban development problems.

"Agreement" with the Federal Highway Administrator for carrying out the National Policy relative to Advertising adjacent to the National System of Interstate and Defense Highways.

There being no other business to consider, the meeting was adjourned by Chairman McIver at 2:25 p.m.

Deputy State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

June 9, 1961

Salem, Oregon
June 27, 1961

The Oregon State Highway Commission met in a special session at 8:00 a.m. Pacific Standard Time in the Conference Room of the State Highway Building, Salem. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
C. W. Head, Assistant Secretary

Commissioner Glenn L. Jackson and W. C. Williams, State Highway Engineer, were excused from this meeting. Floyd Query, Secretary, was excused as he was on vacation.

The Parks Superintendent reported on the following park matters:

Consideration was given to a request from the Three Rivers Girl Scout Council for a five-year extension of a lease agreement for a portion of the Jessie M. Honeyman Memorial State Park in Lane County. The Parks Superintendent explained that the original lease expired June 25, 1961, and covered a small section of the park adjoining their campsite, leased from the Forest Service. Upon the favorable recommendation of the Parks Superintendent, the Commission approved a five-year extension of the lease agreement, commencing June 25, 1961.

The Commission considered Amendment No. 10 to the Master Agreement with Central Lincoln People's Utility District covering the extension of a line to serve the State's new overnight camp development in the Jessie M Honeyman Memorial State Park in Lane County. The Parks Superintendent stated that the minimum annual charge for this service will be $186.00, which is reasonable and conforms to prior approvals. The Commission approved the amendment to the Master Agreement as outlined by the Parks Superintendent.

The Right of Way Engineer presented for consideration options, pages 1 through 13, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is

made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 27, 1961".

The Right of Way Engineer requested authority to sell two parcels of excess property, Parcel No. 1 at public sale and Parcel No. 2 to the adjoining property owner, File Nos. 21877, 21878, 26441, and 26892. These parcels are located on the S. E. Flavel Street-Southern Pacific Overcrossing Section of Cascade Highway in Clackamas County. These parcels he stated, have been cleared through the Engineering Division as to their need for highway purposes. Access provisions are consistent with Department policies as practiced in the vicinity of the parcel and the minimum sale prices are based upon appraised value or upon an offer which exceeds appraised value. Based on his favorable recommendation, the Commission authorized public sale of Parcel No. 1 and direct sale of Parcel No. 2, as follows, and thereupon adopted a resolution relative thereto, marked Exhibit "F", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 27, 1961":

(1) Parcel No. 1--11,935 square feet, for not less than $24,500, and with one unrestricted access to be permitted to S. E. 82nd Avenue, 35 feet in width; and two points of unrestricted access, 35 feet in width, to be permitted to Price-Fuller Road. No access will be permitted to S. E. King Road, nor will any access be allowed within 50 feet of the southerly right of way line of that road.

(2) Parcel No. 2--125 square feet, to Rita Gallerini for the sum of $175.00. No access restrictions will prevail for this parcel.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions, marked Exhibits "E-1" through "E-10", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 27, 1961".

(For details concerning these properties, see the Chief Counsel's "Recommendations for Condemnation" dated June 27, 1961, in the Secretary's office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers".)

The Chief Counsel requested confirmation of telephonic approval of the settlement of two cases. He stated that these settlements are within appraised values or so close thereto as not to comprise substantial increases in values. The Commission confirmed the following settlements:

L-3717 R-30230 Alex Lukas, et ux.
North Portland Harbor-North Russell Street Section
Pacific Highway
Right of Way - 8,090 square feet.
Offer: $9,975.00
Highest Appraisal: $9,975.00
Settlement: $10,475.00

R-30305 John Pesola, et ux.
North Portland Harbor-North Russell Street Section
Pacific Highway
Right of Way - 5,000 square feet.
Offer: $10,840.00
Highest Appraisal: $11,650.00
Settlement: $11,350.00

The Commission considered a request from Coast Business Brokers, Inc., of Florence, for "Consent to Vacate" that portion of Oak Street adjacent to the highway right of way in the City of Florence, Lane County. The Chief Counsel stated that the proposed vacation will in no way be detrimental to the State, and has been approved by the Engineering Division. He recommended that the "Consent of Vacation" be approved and that authority be granted to the Secretary to sign it on behalf of the Commission. The Commission accepted his recommendation.

Attention was given to a "Petition To Exclude Land From the Hermiston Irrigation District" on portions of the Hermiston Secondary Highway in Umatilla County. The Chief Counsel explained that this land is to be used for rights of way and the Highway Department will not use the irrigation facilities. The Commission approved the petition.

Consideration was given to a request from Shell Oil Company and Tidewater Oil Company for "Consent to Petition to Vacate" a portion of Newmark Street in North Bend, Coos County. The Chief Counsel stated that the State's property is a block away from the vacation; however, the State is affected in that all property owners in a certain area must sign a "Consent to Vacate" if the vacation is to be granted. The Engineering Department has approved this proposed vacation, and he recommended approval. The Commission approved the "Consent" as outlined and authorized the Secretary to sign it.

The Commission considered a resolution whereby no permits for overweight or overwidth vehicles shall be issued by the Highway Department that would be in contravention of any of the provisions of Title 23, United States Code, Section 127. The Chief Counsel explained that this action is required by the Bureau of Public Roads before apportionment is made of the Federal-Aid Interstate Highway funds for the fiscal year 1963. Upon his favorable recommendation, the Commission adopted a resolution relative thereto, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 27, 1961".

The Deputy Highway Engineer reported that the Engineer had made award of one contract referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he stated, have been taken care of. The Commission confirmed the Engineer's award of the following State Highway contract:

(1) Grading and paving Cornell Road-Barnes Road Section of Sunset Highway, Washington County. Bids received May 23, 1961. Contract awarded June 14, 1961, to Erland & Blickle Company, Portland.

A report was submitted by the Deputy Highway Engineer concerning the removal of protective load limits on certain sections of state highways. These load limits, he stated, were placed because of the soft condition of the roads caused by thawing and melting of snow. The roadbeds have now dried sufficiently so that the highway sections can sustain full legal loads. The Commission confirmed removal of reduced load limits as follows:

(1) Crater Lake-North Highway No. 232, from M.P. 0.0 to M.P. 3.81, effective 8:00 a.m., June 19, 1961.

(2) West Diamond Lake Highway No. 233, from M.P. 8.0 to M. P. 23.89, effective 8:00 a.m., June 19, 1961.

(3) East Diamond Lake Highway No. 425, over its entire length, effective 8:00 a.m., June 19, 1961.

The Deputy Highway Engineer reported on changes made in temporary construction speed zones that have been revised as follows:

(1) 35 MPH during working hours, 45 MPH where actual work is not underway but where conditions are hazardous, and 55 MPH on those sections of minor hazard on the Willamette River Bridge-Woodburn Interchange Section of the Pacific Highway in Marion County, between M.P. 18.42 and M.P. 29.34, effective 12:00 noon, June 15, 1961.

(2) 45 MPH on the Pacific Highway between Capitol Highway Interchange, M.P. 6.37, and Haines Road Undercrossing, M.P. 8.11, in Multnomah and Washington Counties, effective 8:00 a.m., June 12, 1961.

For the protection of the traveling public through highway construction projects, the Deputy Highway Engineer reported that the following temporary construction speed zones had been placed:

(1) 35 MPH on the Glover-Perry Section of the Old Oregon Trail Highway in Union County, between M.P. 248.25 and M.P. 255.59, effective 8:00 a.m., June 20, 1961.

(2) 30 MPH on the Emigrant Reservoir Section of the Green Springs Highway in Jackson County, between M.P. 4.30 and M.P. 8.84, effective 8:00 a.m., June 22, 1961.

Commissioner Fridley inquired when the paving would be completed on the Deadmans Pass-Meacham Section project in Umatilla County. The Deputy Highway Engineer stated that it is anticipated that the paving operations will be completed in September, 1961. However, this is contingent on the strike situation.

Authority was requested by the Deputy Highway Engineer, and approved by the Commission, for increases in project authorizations on the following State Highway Contracts:

(1) $5,230.37 on Contract No. 5856 on the Clayton Creek-Bear Gulch Rock Production project on the Pacific Highway in Jackson County. The Deputy Highway Engineer explained that the Maintenance Division had requested that an additional 600 cubic yards of crushed material be stockpiled for use in plant patching by State forces.

(2) $21,876.15 on Contract No. 5809 on the Service Creek-Richmond Road grading and surfacing project on the Service Creek-Mitchell Highway in Wheeler County. The Deputy Highway Engineer stated that the overrun was caused by a slight extension at the south end of the project to eliminate some bad alignment; also, the surfacing and oiling work done by State forces cost more than had been anticipated.

Attention was given to a letter received from C. M. Barnhart, Polk County Judge, Dallas, and a petition, signed by two hundred property owners, requesting the installation of a flashing beacon at the intersection of the Salem-Dayton Highway and Orchard Heights Road, near the north city limits of Salem, in Polk County. The Deputy Highway Engineer stated that a Traffic Engineering investigation revealed heavy left-turn movements from south to east at this three-way intersection. There were eight reported accidents from January 1, 1956, to March 31, 1961, in which one person was injured. There are sufficient funds in the 1961 Minor Betterment Budget for traffic signal projects and he recommended the installation of a flashing beacon at this intersection at an estimated cost of $800. The Commission accepted his recommendation.

Consideration was given to a letter received from John V. Mulcahy, Chief, Branch of Land, Bonneville Power Administration, Department of Interior, concerning a land slide which is endangering their transmission line south of Reedsport in Coos County. The Deputy Highway Engineer reported that the slide is on the Clear Lake-Forest Boundary Section of the Oregon Coast Highway. The line was located on private property prior to the construction of the existing highway. The State reimbursed the Bonneville Power Administration about a year ago for approximately $5,000 for corrections to this line due to the same slide. During the past year there has been a rapid expansion of the slide which has further endangered the Bonneville facilities. This area has been investigated by the State Soils and Geology Division and their reports substantiate the contention of the BPA that one pole is in immediate danger and should be removed from the slide area in order to assure continued service. This matter has been discussed with the BPA and, considering the slide and the importance of the transmission line which serves the major portion of the Coos Bay area, the Deputy Highway Engineer recommended the relocation of

approximately 4,500 feet of transmission line beyond the limits of the existing slide. He stated that the BPA estimate for relocation, less the salvage of the present line will amount to approximately $40,000. It is the State's obligation to reimburse the BPA for slide involvements with its lines in this area. The Commission approved the recommendation and the setting up of a trust agreement between the State and the Bonneville Power Administration covering the relocation of the transmission line.

A request for an increase in the number of working days within which to complete a State Highway contract was presented by the Deputy Highway Engineer. He explained briefly the reasons for his recommendation. The Commission took action on the request, as follows:

(1) Blaisdell & Stone, Contract No. 5747, for grading the Briggs Camp-Bear Creek Road Section of the North Umpqua Road in Douglas County, requested an increase from 90 days to 120 days within which to complete the contract without assessment of liquidated damages. The Commission approved an increase of 30 workdays without assessment of liquidated damages.

The Deputy Highway Engineer reported that Contract Nos. 5708, 5710, 5753, 5777, 5789, 5833, 5837, 5845, 5851, 5856, 5887, and 5912 for highway construction had been completed in accordance with the requirements of the contracts, or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 27, 1961".

Attention was given to a letter received from Mr. William D. Bollman, City Manager, Albany, reiterating the City's request concerning widening to four lanes of the old route of the Pacific Highway (presently designated as the Albany-Junction City Highway) between North Albany Interchange and the northerly end of the four-lane section previously constructed through Albany. The Deputy Highway Engineer estimated the cost of this improvement at $100,000. At its May 26, 1961, meeting the Commission deferred action on a similar request due to lack of funds. The Deputy Highway Engineer reported that there are still no funds available for this proposed project. The Commission again deferred action due to lack of funds.

The Commission considered a request from R. A. Granger, Joseph, for the establishment of a 25 MPH speed limit on the Joseph-Wallowa Lake Highway in the vicinity of the Chief Joseph Monument south of Joseph, in Wallowa County. The Deputy Highway Engineer reported that a Traffic Engineering investigation revealed that the 1959 average daily traffic on this section was 675 vehicles, and the accident rate per million vehicle miles was 4.14 as compared with the suburban secondary state highway rate of 9.48. Speed checks indicated that the speed at or below which 85 per cent of all vehicles traveled this section was 44.50 miles per hour. He recommended that Speed

Zone Resolution No. 338, dated December 12, 1960, be rescinded and a new resolution be adopted, as follows:

(1) 35 MPH between the south city limits of Joseph and a point 0.10 mile south of the south city limits of Joseph.

(2) 45 MPH between a point 0.10 mile south of the south city limits of Joseph and a point 0.44 mile east of Chief Joseph Monument.

The Commission approved the speed zones by adopting a resolution relative thereto, marked Exhibit "B-1", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 27, 1961".

Consideration was given to a request received from Judge L. L. Rafferty, Justice Court, Josephine County, concerning the 40 MPH speed zone on US 99 through Wolf Creek, in Josephine County. The Deputy Highway Engineer stated that a Traffic Engineering report disclosed that 45 per cent of the vehicles traveling this highway section were exceeding the existing 40 MPH speed limit. He recommended that Speed Zone Resolution No. 48-a, dated March 10, 1960, be rescinded and a new resolution be adopted, as follows:

(1) 45 MPH between a point 0.31 mile north of Wolf Creek and a point 0.16 mile south of Wolf Creek, except that between a point 0.18 mile north of Wolf Creek and a point 100 feet south of Wolf Creek the indicated speed shall be 20 miles per hour during the hours of school crossings.

The Commission accepted his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-2", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 27, 1961".

To correlate with action taken by the State Speed Control Board on the Pendleton-John Day Highway in Pendleton, in Umatilla County, the Deputy Highway Engineer recommended that Speed Zone Resolution No. 306, dated August 13, 1959, be rescinded and a new resolution be adopted as follows:

(1) 35 MPH between a point 400 feet north of Hailey Avenue S. W. and the city limits of Pendleton.

(2) 35 MPH between a point 150 feet south of S. W. Olson Avenue, south city limits of Pendleton, and a point 300 feet south of Lower McKay Creek Road, except that from a point 200 feet south of S. W. Ladow Avenue and Lower McKay Creek Road, the indicated speed shall be 20 MPH during the hours of school crossings.

The Commission approved the speed zones by adopting a resolution relative thereto, marked Exhibit "B-3", which resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of June 27, 1961".

Confirmation was requested by the Deputy Highway Engineer of prior approval for the sale of the 100-foot steel pony span that was removed from the Scholls Bridge site in Washington County. Grant County has paid the usual rate of 5 cents per pound for the steel at the bridge site, amounting to $4,191.25. Washington County advised the State that they were not interested in purchasing this span. The Commission confirmed the sale of the steel to Grant County.

Out-of-state travel expenses were recommended by the Deputy Highway Engineer and approved by the Commission, as follows:

(1) Forrest Cooper, Deputy State Highway Engineer, to attend the meeting of AASHO Committee on Interim Pavement Design in El Paso, Texas, July 10 and 11, 1961, at an estimated cost of $242.00.

(2) R. B. Sipprell, Director of Permits, to attend the meeting of the Permit Directors of fourteen Western States in Denver, Colorado, July 6 and 7, 1961, at an estimated cost of $161.00.

(3) J. Al Head, Assistant Traffic Engineer, to attend the 31st Annual meeting of the Institute of Traffic Engineers and the First World Traffic Engineering Conference, in Washington, D. C., August 20-26, 1961, at an estimated cost of $425.00.

Chairman McIver inquired as to the amount of money on hand in connection with the out-of-state travel expenses. The Deputy Highway Engineer stated that it appears there will be a small amount remaining in the 1961 budget; however, beginning with July 1, which is the start of the new fiscal year, the Highway Department will be operating on a reduced budget.

The Commission considered a request from City officials of Corvallis concerning the extension of Route ORE 34 from Philomath to Lebanon over the recently designated Corvallis-Lebanon Secondary Highway. The Deputy Highway Engineer reported that this request has been investigated and has merit because this section of highway is carrying an increased volume of traffic between Corvallis and Lebanon. Upon his favorable recommendation, the Commission approved the extension of the Route of ORE 34, as follows:

> "Beginning at the present junction of ORE 34 with the Corvallis-Newport Highway, US 20, approximately one mile west of Philomath; thence easterly over the Corvallis-Newport Highway to the Pacific Highway West, US 99W, in Corvallis (common with US 20); thence northerly over the Pacific Highway West in Corvallis to the Corvallis-Lebanon Highway (common with US 99W and US 20); thence easterly over the Corvallis-Lebanon Highway to its junction with the Santiam Highway, US 20, in Lebanon."

Consideration was given to an agreement with the Union Pacific Railroad Company covering encroachments and easement for an overcrossing of the railroad's tracks on the Juntura-Horseshoe Bend Section of the Central Oregon Highway in Malheur County. The Deputy Highway Engineer stated that this agreement is needed for highway construction. The Commission approved the agreement.

An easement agreement with the Oregon-Washington Railroad and Navigation Company covering properties on the Banfield Expressway easterly from N. E. 7th Avenue in the City of Portland was presented by the Deputy Highway Engineer. He stated that this grant of easement conforms to the agreement with the Railroad company dated September 9, 1955. The Commission approved the easement.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period May 22 through June 20, 1961.

The Commission confirmed the date of July 28, 1961, for the next meeting, which is to be held in the State Highway Building in Salem. They also confirmed the date of September 8, 1961, for the next following meeting.

The Commission considered the construction of a permanent left-turn refuge on McLoughlin Boulevard at Holgate Street in the City of Portland. The Deputy Highway Engineer stated that there had been a meeting with officials of the City of Portland, and the City has agreed to contribute $3,500 or 25 per cent of the cost, whichever is the lesser amount. The estimated cost of this project is $14,000, which will include surfacing of the shoulders and highway. Upon the Deputy Highway Engineer's recommendation, the Commission approved construction of the refuge and entering into an agreement with the City.

Consideration was given to the matter of converting the two elevators in the State Highway Building in Salem from manual to automatic operation. The Deputy Highway Engineer reported that the 1961 Legislature made funds available for the conversion of the elevators in all other State buildings in the Mall area from manual to automatic operation. The estimated cost to convert to automatic operation is $25,100 for both elevators. He also stated that this conversion to automatic operation would eliminate the necessity of hiring two full-time operators, with a resultant saving to the State of $7,535 a year. The Secretary of State has agreed to include conversion of the Highway Building elevators in the same contract for elevator conversion in other buildings. The Commission approved the conversion of elevators as outlined by the Deputy Highway Engineer.

Attention was given to a request from the Oregon State Board of Forestry for permission to erect a sign on State highway right of way on the easterly side of the Lower Columbia River Highway near the west city limits of Portland. The Deputy Highway Engineer stated that this is a type of informational sign to indicate that burning permits are required and where such permits may be obtained. Upon the favorable recommendation of the Deputy Highway Engineer, the Commission approved the request.

An agreement with the Union Pacific Railroad Company covering construction of the Clarke Overcrossing on the Columbia River Highway, between Boardman and Irrigon in Morrow County, was presented by the Deputy Highway Engineer. He stated this agreement is needed for the new US 730 highway construction in conjunction with railroad property in this area. The Commission approved the agreement.

The Commission discussed the lawsuit which was instituted by the City of Portland against the State concerning damages caused by an earth slide on Canyon Road in the Portland Zoo area. The Chief Counsel stated that at the last Commission meeting he had reported on the City of Portland's offer to make a settlement of the damage claim on a 60-40 basis, 60 per cent to be paid by the State and 40 per cent by the City, and the City now wishes to be advised of the Commission's decision. After considerable discussion, the Commission denied the City of Portland's proposed settlement.

Consideration was given to a letter received from A. D. Addison, Chairman, Roads and Highways Committee, Klamath County Chamber of Commerce, requesting reconsideration for a change in classification of the Klamath Falls-Lakeview Highway from a Federal-aid Secondary to a Federal Aid Primary highway. The Commission again discussed this proposed change and deferred action as this would in no way make additional funds available to the Commission for improvements.

The Commission signed the following agreements, deeds and other papers:

"Lease Agreement" with Three Rivers Girl Scout Council for lease of a portion of Jessie M. Honeyman Memorial State Park for an additional five-year period.

"Amendment No. 10 to the Master Agreement No. 2055" with Central Lincoln People's Utility District covering extension of a line to serve the State's new overnight camp development in Jessie M. Honeyman Memorial State Park in Lane County.

"Petition" for exclusion of land in Hermiston, Umatilla County, from Hermiston Irrigation District.

"Agreement" with the Union Pacific Railroad Company covering encroachment and easement for an overcrossing of the Railroad's tracks on the Juntura-Horseshoe Bend Section of the Central Oregon Highway in Malheur County.

"Grant of Easement" to OWRR & N Company covering properties on the Banfield Expressway east of N. E. 7th Avenue, Portland.

"Permit" to Oregon State Board of Forestry for permission to erect a sign on the state highway right of way on the easterly side of the Lower Columbia River Highway near the west city limits of Portland, Milepost 9.51.

"Permit" to Oswald Quaale to construct fence within the 400-foot right of way the State secured through Government land by an application to the Bureau of Land Management, on the Willowdale-Madras Section of The Dalles-California Highway. (Authorized 12-12-60)

"Relinquishment of Title" to City of Portland for the 42nd Avenue-92nd Avenue Section of the Columbia River Highway, Multnomah County. (Authorized 12-11-53 and 3-10-60)

"License Agreement" with Crook County covering the proposed development of the Prineville Reservoir area as a state park. (Authorized 4-14-61)

"Bargain and Sale Deed" to Lawrence Gray for a parcel of land on the Midland-Mac's Store Section of the Lower Klamath Lake Highway in Klamath County.

"Consent to Street Vacation" by City of Florence to a portion of Oak Street in Florence.

"Consent to Petition for Vacation" by Shell Oil Company and Tidewater Oil Company for the vacation of a portion of Newmark Street in North Bend, Coos County, Oregon.

"Agreement" with Union Pacific Railroad Company relative to the construction of the Clarke Overcrossing on the Boardman-Irrigon Section, Morrow County.

Chairman McIver announced, prior to the opening of bids, that the State Highway Engineer is authorized and directed to award the contracts as approved by the Highway Commission, and the Secretary of the Commission is authorized and directed to sign said approved contracts for and on behalf of the Highway Commission.

Bids for highway construction were opened and read aloud at 9:00 a.m. The Engineer announced that award of contracts would be made at 2:30 p.m. today in the Highway Engineer's Office. Bids received were as follows:

BENTON COUNTY: Paving on Hughes Road-Monroe Section of the Pacific Highway West.

Morse Bros., Lebanon	$ 107,307.00
Acme Construction Co., Redmond, Wn.	109,867.40
Warren Northwest, Inc., Portland	112,093.40

BENTON-LINN COUNTIES: Clean and paint Corvallis Bridge over Willamette River. Corvallis-Lebanon Secondary Highway.

William A. Efraimson, Portland	$ 11,740.00
Tri-State Painting Company, Portland	15,900.00
J. E. Brown Co., Portland	20,585.00
C. H. Savage Co., Portland	23,530.00
A. H. Barbour & Son, Inc., Portland	34,868.00

HARNEY COUNTY: Burns-Crane Rock Production Project on the Burns-Crane Highway.

Arthur Simonsen & Co., Baker	$ 67,320.00
Lee F. Philpott, Eugene	70,002.00
Barney Helser Rock Productions, Beaverton	81,000.00

JACKSON AND DOUGLAS COUNTIES: Union Creek Rock Production Project on Crater Lake and West Diamond Lake Highways.

Barney Helser Rock Productions, Beaverton	$ 37,850.00
M. C. Lininger & Sons, Medford	41,162.50

LAKE COUNTY: Stone base and oiling on Adel-Blizzard Gap Section of the Adel-Nevada State Line Road.

Babler Bros., Inc., Portland	$ 247,767.00

LAKE COUNTY: Grading on Blizzard Gap-Doherty Slide Section of the Adel-Nevada State Line Road.

Babler Bros., Inc., Portland	$ 167,670.00
Durbin Bros., Eugene	177,800.00
C. R. O'Neil, Creswell	183,800.00

LANE COUNTY: Grading, paving and 4 structures on Judkins Point-Goshen Section of the Pacific Highway.

Roy L. Houck Sons' Corporation, Salem	$1,576,921.60
Kuckenberg Construction Co., Inc., Portland	1,635,567.70
R. A. Heintz Const. Co. and Rogers Const., Inc., Portland	1,893,452.60

LINN COUNTY: Grading and paving on Crabtree Corner-Lebanon Section of the Santiam Highway.

Morse Bros., Lebanon	$ 118,700.50
Acme Construction Co., Redmond, Wn.	135,156.50

MALHEUR COUNTY: Ontario Office Building

(Job withdrawn)

MALHEUR-HARNEY COUNTIES: Paving on Follyfarm Section of the Crane-Scotts Butte Highway.

Warrer Northwest, Inc., Portland	$ 217,000.00
J. C. Compton Company, McMinnville	224,050.00
Babler Bros., Inc., Portland	229,760.00
Acme Construction Co., Redmond, Wn.	256,170.00

MORROW COUNTY: Grading, paving and structures on the Boardman Jct.-Irrigon Section of the Old Oregon Trail and Columbia River Highways.

R. A. Heintz Const. Co. and Rogers Const., Inc., Portland	$1,139,675.25
Peter Kiewit Sons' Co., Omaha, Neb.	1,151,229.80
Babler Bros., Inc., Portland	1,171,811.00
Warrer Northwest, Inc., Portland	1,193,030.05
Acme Construction Co., Redmond, Wn.	1,194,447.35
DeAtley-Overman, Inc., and McAtee & Heathe, Inc., Spokane, Wn.	1,241,840.35

(Continued on following page)

Morrow County, Boardman Jct.-Irrigon Section (Continued)

Fred H. Slate Co. and E. C. Hall Const. Co., Portland	$1,242,669.75
White Bros. Construction Co., Inc., Walla Walla, Wn.	1,245,230.80
Charles T. Parker Construction Co., Portland	1,274,339.45
Earl L. McNutt Co., Eugene	1,284,484.10
Crick & Sons and Materne Bros. Co., Yardley, Wn.	1,284,698.15
Hamer Corporation, Roseburg	1,287,776.60
Roy L. Houck Sons' Corporation, Salem	1,311,710.30
Kuckenberg Construction Co., Inc., Portland	1,319,346.41

MULTNOMAH COUNTY: Roadside Improvement Project on S.W. 19th Ave.-Tigard Interchange Unit, Harbor Drive-Washington County Line Section of the Pacific Highway.

Solomon Aichele, Portland	$ 54,523.30
E. P. Baltz and Son, Portland	67,589.00

YAMHILL COUNTY: Stone base and oiling on Bernards Corner-Purdys Corner Section of FAS Routes 889 and 111.

C. C. Meisel, McMinnville	$ 140,786.00

CLATSOP COUNTY: Foundation investigation at the site of the proposed Columbia River and Youngs Bay Bridges at Astoria.

A. M. Jannsen Drilling Co., Aloha	$ 69,350.00

After discussing with the Deputy Highway Engineer bids received at 9:00 a.m. this day the Commission authorized the Engineer to award contracts as approved by the Commission.

The meeting adjourned at 10:10 a.m.

At 2:30 p.m. the Engineer awarded the contracts, as follows:

"Paving on the Hughes Road-Monroe Section of the Pacific Highway West in Benton County. The Commission awarded the contract to the low bidder, Morse Bros., Lebanon, at $107,307.00.

"Clean and paint Corvallis Bridge over Willamette River, Corvallis-Lebanon Secondary Highway at Corvallis, Benton-Linn Counties. All bids were rejected as being too high.

"Burns-Crane Rock Production Project on the Burns-Crane Highway in Harney County. The Commission awarded the contract to the low bidder, Arthur Simonsen & Co., Baker, at $67,320.00.

"Union Creek Rock Production Project on Crater Lake and West Diamond Lake Highways in Jackson and Douglas Counties. The Commission awarded the contract to the low bidder, Barney Helser Rock Productions, Beaverton, at $37,850.00.

"Stone base and oiling on the Adel-Blizzard Gap Section of the Adel-Nevada State Line Road in Lake County. The Commission awarded the contract to the only bidder, Babler Bros., Inc., Portland, at $247,767.00.

"Grading on the Blizzard Gap-Doherty Slide Section of the Adel-Nevada State Line Road in Lake County. All bids were rejected as being too high.

"Grading, paving and 4 structures on the Judkins Point-Goshen Section of the Pacific Highway in Lane County. The Commission elected to accept the low bid of Roy L. Houck Sons' Corporation, Salem, in the sum of $1,576,921.60 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving on the Crabtree Corner-Lebanon Section of the Santiam Highway in Linn County. The Commission awarded the contract to the low bidder, Morse Bros., Lebanon, at $118,700.50.

"Ontario Office Building in Malheur County. This project was withdrawn prior to the letting.

"Paving on the Follyfarm Section of the Crane-Scotts Butte Highway in Malheur-Harney Counties. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $217,000.00.

"Grading, paving and structures on the Boardman Junction-Irrigon Section of the Old Oregon Trail and Columbia River Highways in Morrow County. The Commission elected to accept the low bid of R. A. Heintz Construction Co. and Rogers Construction, Inc., Portland, in the sum of $1,139,675.25 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads is received.

"Roadside Improvement Project on the S. W. 19th Avenue-Tigard Interchange Unit, Harbor Drive-Washington County Line Section of the Pacific Highway in Multnomah County. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $54,523.30.

"Stone base and oiling on the Bernards Corner-Purdys Corner Section of FAS Routes 889 and 111 in Yamhill County. The Commission elected to accept the bid of C. C. Meisel, McMinnville, in the sum of $140,786.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Yamhill County is received and the sum of $38,700.00 is deposited by the County.

"Foundation investigation at the site of the proposed Columbia River and Youngs Bay Bridges at Astoria, Clatsop County. The Commission rejected the one bid received as being too high."

Deputy State Highway Engineer

Chairman

Assistant Secretary

Commissioner

June 27, 1961

Salem, Oregon
July 28, 1961

The Oregon State Highway Commission met in regular session at 9:00 a.m., Pacific Standard Time, in the Conference Room of the State Highway Building. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
Floyd Query, Secretary

The Commission approved the minutes of meetings held on May 26 and June 9, 1961.

The placement of a bronze plaque honoring Samuel C. Lancaster on the Columbia River Highway in the Columbia River Gorge was considered by the Commission. The Parks Superintendent stated that the Columbia River Gorge Commission has long advocated a memorial to Mr. Lancaster and has recommended installation and wording for a 16" by 30" plaque. The State Parks and Recreation Advisory Committee at their meeting on December 12, 1960 also recommended that an appropriate plaque be placed on the stone abutment east of the south entrance door to the Vista House. He estimated that the plaque will cost approximately $510, but the wording as suggested by the Gorge Commission will need to be shortened in order to fit on that size of plaque. The Commission approved the installation and instructed that the wording to be used be worked out with the Columbia River Gorge Commission and checked with the Oregon Historical Society.

An agreement with the Apple Growers Association of Hood River covering the taking of water from a spring on their property on the Hood River-Mosier Section of the Columbia River Highway, Hood River County, was presented by the Parks Superintendent. He explained briefly that the agreement provides water for use at Koberg Beach Wayside, and he recommended that it be approved. The Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

The Commission considered a resolution authorizing negotiations for a contract between the State Highway Commission and the State Department of Planning and Development to obtain a grant of federal funds to be used in the Non-urban Park and Recreation Study. The Parks Superintendent explained that the study is estimated to cost a total of $109,000, and it is anticipated that it will be completed by September 1962. The resolution, he continued, provides that State Highway funds shall be pledged in the amount of $18,000, and if the Federal funds are granted, the Highway Department is to be reimbursed in the amount of $36,000, $6,000 of such amount to be retained by the Department of Planning and Development for administrative costs. He also pointed out that much work has already been done by the State on this study, and it is anticipated that $10,000 additional funds will be needed in 1962. To cover expenses for this year an additional authorization of $22,000 is needed which includes the $18,000 pledged in the proposed resolution. Commissioner Fridley inquired if there is a clear prospectus or outline of the purposes of the study and the goals which it attempts to achieve. The Parks Superintendent replied that such purposes and goals have been clearly outlined. Upon the favorable recommendation of the Parks Superintendent, the Commission approved the additional authorization and thereupon adopted a resolution relative thereto marked Exhibit "F", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

The Right of Way Engineer presented for consideration options, pages 1 through 61, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

In discussing the options presented, Chairman McIver inquired if many problems have been encountered concerning persons whose properties had been purchased on the Minnesota Freeway Section of the Pacific Highway in Portland and who had been required to move. The Right of Way Engineer replied that very few complaints have been received. It was his feeling that the fact that the property owners had been granted a considerable amount of time in which to move had materially reduced hardship cases and complaints. Upon inquiry by members of the Commission, the Right of Way Engineer also explained the status of right of way negotiations on several other sections of state highways.

Chairman McIver inquired about securing for an overnight camping area a material source on the bank of the Rogue River near Gold Hill, Jackson County, which is currently used by Peter Kiewit Sons' Company. The Commission instructed the Engineer to investigate the possibility of purchasing this area if it is feasible for use as an overnight camping site, and to submit a report.

The Property Manager's report covering sales of miscellaneous properties and changes in rental status since the last Commission meeting was presented by the Right of Way Engineer. He pointed out briefly that total miscellaneous sales in that period amounted to $28,127.50, and rental receipts for the month of May were $3,641.08 and for the month of June $4,684.50. The Commission accepted the report.

Authorization for public sale of excess parcels of property was requested by the Right of Way Engineer. He explained that in each instance the parcels had been cleared through the Engineering Division as to their need for highway purposes. Access provisions are consistent with department policies as practiced in the vicinity of each parcel, and the minimum sale price is based on appraised value or on an offer which exceeds appraised value. Based upon his favorable recommendation, the Commission authorized public sale of the following parcels of real property and thereupon adopted resolutions relative thereto, marked Exhibits "D-1" through "D-4", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961":

(1) 0.15 acre, File No. 5199, on the Berger Ranch-Barnes Road Section of the Sunset Highway, Washington County, for not less than $150 and without access to the Sunset Highway.

(2) 8,785 square feet of land, File Nos. 9524, 9528, 9529 and 9530, on the North Bend-Coos Bay Section of the Oregon Coast Highway, Coos County, for not less than $9,000 without access restrictions and subject to a sewer line easement. (See Exhibit "D-1")

(3) 6,324 square feet of land, File No. 9527, on the North Bend-Coos Bay Section of the Oregon Coast Highway, Coos County, for not less than $6,500, without access restrictions and subject to a sewer line easement. (See Exhibit "D-2")

(4) 1.4 acre, File No. 26808, on the Pleasant Hill-Creswell Section of the Springfield-Creswell Highway, Lane County, for not less than $500 and without access to the Springfield-Creswell Highway.

(5) 4,364 square feet of land, File Nos. 5067, 5068 and 5069, on the Interstate Avenue-Denver Avenue Section of the Pacific Highway West, Multnomah County, for not less than $2,400 and without access to the Pacific Highway West. (See Exhibit "D-3")

(6) 9.6 acres, File No. 25674, on the Albany-Judkins Point Section of the Pacific Highway, Linn County, for not less than $2,000, without access to the Pacific Highway and with an advertising sign restriction. (See Exhibit "D-4")

The Right of Way Engineer presented to the Commission a number of "Indentures of Access" to properties adjoining various state highways. The changes in access, he stated, are routine ones, and have been made for the convenience of the property owners and for the benefit of the traveling public. Upon his favorable recommendation, the Commission approved "Indentures of Access", as follows:

(1) Osborn property, File 26742, on the Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

(2) Oswald Quaale property, File No. 26745, on the Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

(3) Emil Quaale property, File No. 26750, on the Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

(4) Townsend property, File No. 26752, on the Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

(5) Colegrove property, File No. 27543, on the Myers Creek-Brookings Section of the Oregon Coast Highway, Curry County. This change, he explained, under the provisions of Commission Resolution dated July 31, 1958, widens one point of access, 25 feet in width and restricted to the production and transportation of agricultural and timber products and ordinary residential purposes only, to a new width of 35 feet without use restriction. The owner has deposited the sum of $1,940.65 to cover the cost of design features deemed necessary for traffic safety.

(6) Loos (Hamilton) property, File No. 26526, on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway, Washington County.

(7) Tucker property, File No. 29209, on the Weston-Weston Mountain Section of the Weston-Elgin Highway, Umatilla County.

(8) The First National Bank of Oregon property, File Nos. 23243, 23244 and 23246, on the Northbound Route of the Pacific Highway in Ashland, Jackson County. This instrument changes the location and widens from 25 feet to 35 feet one point of access which is unrestricted as to use, and also grants an additional point of access, 35 feet in width, and unrestricted as to use. The grant of a second point of access, he explained, enhances the flow of traffic in a more safe and orderly manner to the commercial establishment which is situated on the property.

(9) Cattron property, File No. 31335 (L-3519), on the Hillsboro-Reedville Section of the Tualatin Valley Highway, Washington County.

(10) Poulin (Hambach) property, File No. 18124, on the Tigard-Onion Flat Section of the Pacific Highway West, Washington County.

(11) Conway property, File No. 5230-A, on the Sunset Camp-Manning Section of the Sunset Highway, Washington County. This indenture covers the change of location and substitution of one point of access, 30 feet in width, for two points of access, 25 feet in width, restricted in use to production and transportation of agricultural and forest products from the owner's remaining land and private residential use only.

Authority to reroof a State-owned house located at 7th and Madison Streets in Cottage Grove, Lane County, was requested by the Right of Way Engineer. The house, he stated, has been rented continuously since October 1954, and because of present construction in the area, it is not contemplated that the house will be sold in the near future. Three bids were received for reroofing, and he recommended that the low bid of $260, submitted by Acme Roofing Company, Eugene, be accepted. The Commission accepted the low bid and authorized reroofing of the house.

The matter of transferring to Multnomah County title to the area occupied by the relocated connection between S. W. 55th Avenue and Pasadena Street, which is on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County, was brought up by the Right of Way Engineer. In the original agreement with Multnomah County, he explained, the State was obligated to reconstruct the connection between these two streets, and the County was to maintain the connection; however, the transfer of title was not covered in the agreement. Multnomah County desires to have fee ownership, and as it is in the best interest of the State to relinquish title to Multnomah County, he so recommended and presented a form of "Relinquishment of Title." The Commission approved the relinquishment as recommended.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions relative thereto marked Exhibits "I-1" through "I-23", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

(For details concerning these properties see the Chief Counsel's "Recommendations for Condemnation" dated July 28, 1961, in the Secretary's Office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers.")

A written report of cases tried in court, dated July 21 and July 27, 1961, was presented by the Chief Counsel and accepted by the Commission. The Chief Counsel pointed out that three of the verdicts were less than the offers, and explained briefly the details on some of the cases, which are summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3505 Frances B. Kroll, et ux.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 8,900	$17,500	$ 6,050
L-3680 W. L. Bell, et al.	Coos	Coos Bay-Roseburg	Myrtle Point-Bridge	$ 1,800	$10,500	$ 5,000
L-3666 Lawrence C. Johnson, et ux.	Hood River	Columbia River	Mosier-Hood River	$19,075	None	$30,000
L-3683 George L. Wing, et ux.	Jackson	Pacific	Seven Oaks-Neil Creek	$ 400	None	$ 400
L-1345 A. N. Arnold et al. (Retrial)	Klamath	The Dalles-California	Chemult-Diamond Lake	$ 1,725	None	$ 100
L-2497 Lawrence Gnos, et al.	Lincoln	Pioneer Coast	Neskowin-Salmon River	$ 7,275	$15,000	$ 8,500
L-959 Charles Parker et al. (Retrial)	Lincoln	Corvallis-Newport	Pioneer Summit	$ 782	$ 3,750	$ 684
L-3674 Marion W. Young, et al	Linn	Pacific	Albany-Pacific Highway Interchange	$ 1,150	None	$ 1,800

(Report of Condemnation Cases Tried - Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3078 Adrian Kromwall, et ux. (Retrial)	Marion	North Santiam	Lancaster Drive-Sublimity Gun Club	$ 9,800	$13,000	$10,500
L-3507 Kernan Livestock Farm, Inc.	Multnomah	Pacific	North Portland Harbor N. Russell St.	$190,000	None	$194,500
L-3567 Anne Plett George, et al.	Polk	Dallas-Rickreall	Academy St.-Coast Junction	$ 50	None	$ 50
L-2972 Kermit Ardell Braden, et al.	Union	Old Oregon Trail	Hilgard-LaGrande	$ 50	None	$ 50
L-3045A F. T. Glaser, et al.	Linn	Pacific	Albany-Judkins Point	(Trial on the merits reported December 12 & 13, 1960)	This was appeal from award of attorney fees. Supreme Court will not disturb finding of lower court unless it can be said no evidence to support award. Court states if awards are causing undue drain on public funds, should try to obtain relief from Legislature.	
L-3379A F. T. Glaser, et al.	Linn	Pacific	Albany-Judkins Point	(Trial on the merits reported June 2 & 3, 1960)		
L-3380A F. T. Glaser, et al.	Linn	Pacific	Albany-Judkins Point	(Trial on the merits reported June 2 & 3, 1960)		
L-3408A Walter W. Kendrick, et al.	Hood River	Columbia River	Cascade Locks-Viento	(Trial on the merits reported April 21 & 22, 1960)		

REPORT OF TRIAL OF OTHER CASES

Case	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict
L-3452 Elmer Hyppa	Fraternal Order of Eagles, M. K. McIver, Robert B. Chessman, Kenneth N. Fridley, Charles H. Reynolds, Ben R. Chandler, W. C. Williams	Multnomah	Tort Negligence. The alleged negligence was the failure to maintain the highway so that it did not become slippery during wet weather and further negligence in building the highway of materials which would become slippery in wet weather	$300,000	- - - (Order dismissing complaint with prejudice entered July 17,1961.

July 28, 1961

Concerning an appeal of nine cases to the Supreme Court from award of attorney fees the Chief Counsel reported that the Supreme Court has handed down a decision that it will not disturb findings of the lower courts on the award of attorney fees if there is any evidence in support. The Supreme Court suggested that relief from the payment of attorney fees should be sought by Legislative means because this is not a court prerogative. He requested, and the Commission granted, authority to dismiss the five pending cases under appeal concerning the same matter.

The Chief Counsel also presented a written report of cases which have been settled out of court since the last Commission meeting as outlined in his letters dated July 21 and July 27, 1961. All of the property settlements, he stated, are within appraised values or so close thereto as not to comprise substantial increases in values. The Commission approved the following settlements:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-32462 William C. Henderson, et ux.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 7,000	$ 7,500
R-28700 Walter J. Roots, et al.	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 8,250	$ 8,750
R-29324 Maynard O. Grove, et ux.	Jackson	Pacific	Seven Oaks-Neil Creek	$ 7,850 (Revised State appraisal indicates value of property at $16,000)	$16,500
R-32093 Eugene Clower, et ux.	Lane	Pacific	Judkins Point-Goshen	$ 80	$ 80
R-27740 W. W. McDonald, et ux.	Lane	Pacific	Judkins Point-Goshen	$ 8,935	$11,000
R-30443 Lawrence Gnos, et ux.	Lincoln	Oregon Coast	Neskowin-Salmon River	$ 50	$ 100
R-32236 Hayes Oyster Company, et al.	Tillamook	Oregon Coast	Hobsonville-Bay City	$ 465	$ 750
R-30493 Everett Lee, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 9,450	$10,500

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-30230 Alex Lukas, et ux.	Multnomah	Pacific	No. Portland Harbor-No. Russell St.	$ 9,975	$10,475
R-30305 John Pesola, et ux.	Multnomah	Pacific	No. Portland Harbor-Russell St.	$10,840	$11,350
R-32897 Elsie M. Potter, et al.	Linn	Lyons-Mill City Road	Mill City Bridge	$ 50	$ 50
R-31552 Zita B. Clifford, et vir.	Columbia	Columbia River	Westport-Clatskanie	$ 670	$ 670
R-21193 Delmar Rice, et al.	Douglas	Pacific	Rice Hill-North Oakland Jct.	$ 1,470	$ 2,000
R-21195 Mary Rice, et al.	Douglas	Pacific	Rice Hill-North Oakland Jct.	$ 380 (including $128 for fencing)	$ 415 (State to fence)
R-30509 P. D. Grimes, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 3,130	$ 3,790
R-30511 Charles W. Ketcham, et al.	Washington	Tualatin Valley	Hillsboro-Reedville	$ 160	$ 350
R-28207 United Grocers, Inc. et al.	Multnomah	Pacific	East Bank Freeway	(See prior report of March 10, 1961)	$55,000 per March 10, 1961 Revised settlement $47,860

(For additional details see the Chief Counsel's letter dated July 21, 1961, entitled "Report of Cases Settled" and his supplemental letter on the same subject dated July 27, 1961, in the General Files.)

Confirmation of telephonic approval by members of the Commission on offers made to property owners prior to the institution of condemnation proceedings was requested by the Chief Counsel. The Commission confirmed the following offers:

HOBSONVILLE-BAY CITY SECTION OF THE OREGON COAST HIGHWAY

R-32218 - Estber Mills, et al. 4.7 acres for right of way. Offer of $200 approved by Mr. McIver, July 21, 1961.

HOBSONVILLE-BAY CITY SECTION OF THE OREGON COAST HIGHWAY - Cont.

R-32219 - Alfred F. Coats, et al. Parcel No. 1: 9.1 acres for right of way purposes; and Parcel No. 2: 1.44 acres for right of way purposes. Offer of $2,150 approved by Mr. McIver, July 25, 1961.

R-32222 - Dorothy Logan Benson, et al. 13.4 acres for right of way purposes. Offer of $525 approved by Mr. McIver, July 18, 1961.

R-32224 - A. Paquet, et al. 3.0 acres for right of way purposes. Offer of $300 approved by Mr. McIver, July 17, 1961.

R-32239 - Clarence Trelstad, et ux. 4,500 square feet for right of way purposes. Offer of $680 approved by Mr. McIver, July 24, 1961. On April 14, 1961, Mr. McIver approved an amount of $550. This revision is due to an increase in taking.

R-32480 - Ruth C. Plastino, et al. 1.0 acre for right of way purposes. Offer of $200 approved by Mr. McIver, July 7, 1961.

SHEEP GULCH-VANCE CREEK UNIT, CANYON CITY-SENECA SECTION OF THE JOHN DAY-BURNS HIGHWAY

R-32584 - E. W. Cresap, et al. 0.2 acre for right of way purposes. Offer of $550 approved by Mr. Fridley, July 19, 1961.

R-32587 - Pearl Tracy, et al. 1.10 acres for right of way purposes. Offer of $660 approved by Mr. Fridley, July 19, 1961.

R-32977 - E. W. Cresap, et al. 2.37 acres for right of way purposes. Offer of $1,130 approved by Mr. Fridley, July 19, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSEL STREET SECTION OF THE PACIFIC HIGHWAY

R-29745 - Edward A. L. Hughes, et ux. 10,000 square feet for right of way purposes. Offer of $10,000 approved by Mr. McIver, June 28, 1961.

R-29795 - E. H. Sivyer, et al. 5,000 square feet for right of way purposes. Offer of $13,500 approved by Mr. McIver, June 9, 1961.

R-31877 - Harry V. Benson, et al. 2,880 square feet for right of way purposes. Offer of $4,950 approved by Mr. McIver, July 7, 1961.

R-32027 - Rodney E. Rogers, et al. 3,500 square feet for right of way purposes. Offer of $11,110 approved by Mr. McIver, June 22, 1961.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-31183 - M. A. Ring, et ux. Parcel No. 1: 7.4 acres for right of way purposes; Parcel No. 2: 0.13 acre for right of way purposes; and Parcel No. 3: 0.1 acre for temporary easement. Offer of $22,550 approved by Mr. Jackson, June 9, 1961.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY - Cont.

R-31202 - Clair Ewart, et al. 5.95 acres for right of way purposes. Offer of $9,750 approved by Mr. Jackson, June 20, 1961.

MILL CITY BRIDGE SECTION OF THE LYONS-MILL CITY ROAD

R-32895 - Harry Brown, et al. 0.38 acre for right of way purposes. Offer of $200 approved by Mr. McIver, June 22, 1961.

R-32897 - Elsie M. Potter, et al. 1,600 square feet for right of way purposes. Offer of $50 approved by Mr. McIver, June 14, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31655 - Ruth E. Doyle, et al. Parcel No. 1: 16,500 square feet for right of way purposes; and Parcel No. 2: 103,400 square feet for right of way purposes. Offer of $4,520 approved by Mr. McIver, June 29, 1961.

R-31700 - Emil Klipphahn, et ux. 808 square feet for right of way purposes. Offer of $3,740 approved by Mr. McIver, June 29, 1961.

R-31718 - Marion Handler Cornwall, et al. 5,600 square feet for right of way purposes. Offer of $500 approved by Mr. McIver, June 22, 1961.

R-31734 - R. C. Bowden, et ux. 14,000 square feet for right of way purposes. Offer of $7,580 approved by Mr. McIver, June 28, 1961.

R-33039 - W. Vassar Richardson, et al. 5,000 square feet for right of way purposes. Offer of $3,000 approved by Mr. McIver, June 28, 1961.

RHINEHART-ELGIN SECTION OF THE WALLOWA LAKE HIGHWAY

R-33597 - Claude M. Noyes, et ux. 2.1 acres for slide correction. Offer of $225 approved by Mr. Fridley, July 25, 1961.

MYRTLE POINT-BRIDGE SECTION OF THE COOS BAY-ROSEBURG HIGHWAY

R-32884 - Frank D. Williams, et al. 1.9 acres for right of way purposes. Offer of $2,080 approved by Mr. Jackson, July 7, 1961.

NORTH BEND SECTION OF THE CAPE ARAGO HIGHWAY

R-31485 - R. H. Gollihur, et ux. Parcel No. 1: 30 square feet for right of way purposes; and Parcel No. 2: 990 square feet for permanent easement. Offer of $100 approved by Mr. Jackson, July 17, 1961.

R-31491 - Frances Ferguson, et al. Parcel No. 1: 200 square feet for right of way purposes; and Parcel No. 2: 225 square feet for permanent easement. Offer of $375 approved by Mr. Jackson, July 19, 1961.

NORTH BEND SECTION OF THE CAPE ARAGO HIGHWAY

R-31497 - E. L. Clark, et ux. Parcel No. 1: 1,480 square feet for right of way purposes; and Parcel No. 2: 408 square feet for permanent easement. Offer of $420 approved by Mr. Jackson, July 18, 1961.

R-31498 - Everett V. Richardson, Jr., et al. Parcel No. 1: 1,350 square feet for right of way purposes; and Parcel No. 2: 3,060 square feet for permanent easement. Offer of $4,850 approved by Mr. Jackson, July 11, 1961.

R-31505 - James P. Rusow, et ux. Parcel No. 1: 350 square feet for right of way purposes; and Parcel No. 2: 300 square feet for permanent easement. Offer of $400 approved by Mr. Jackson, July 18, 1961.

R-31507 - Ross E. Costello, et al. Parcel No. 1: 350 square feet for right of way purposes; and Parcel No. 2: 967 square feet for permanent easement. Offer of $220 approved by Mr. Jackson, July 18, 1961.

R-31508 - R. H. Gollihur, et ux. Parcel No. 1: 1,225 square feet for right of way purposes; and Parcel No. 2: 408 square feet for permanent easement. Offer of $400 approved by Mr. Jackson, July 18, 1961.

CORNELIUS PASS ROAD-MULTNOMAH COUNTY LINE SECTION OF THE SUNSET HIGHWAY

R-32825 - Ben Croeni, et ux. 0.06 acre for right of way purposes. Offer of $200 approved by Mr. McIver, June 29, 1961.

FREMONT INTERCHANGE-MARQUAM BRIDGE SECTION OF THE STADIUM FREEWAY

R-32385 - Ray Hall Marks, et al. 10,000 square feet for right of way purposes. Offer of $72,500 approved by Mr. McIver, July 7, 1961.

ROCK POINT-SEVEN OAKS SECTION OF THE PACIFIC HIGHWAY

R-32530 - Winnie Jewel Byrns, et al. 0.27 acre for right of way purposes. Offer of $1,000 approved by Mr. Jackson, July 24, 1961.

R-32531 - Elton Morton, et al. 0.02 acre for right of way purposes. Offer of $25 approved by Mr. Jackson, July 11, 1961.

R-32532 - Vernon Walter Czmowski, et al. Parcel No. 1: [illegible] square feet for right of way purposes; and Parcel No. 2: 200 square feet for right of way purposes. Offer of $2,155 approved by Mr. Jackson, July [illegible], 1961.

R-32534 - LaRue Morris, et al. 1.2 acres for right of way purposes; and acquisition of access rights. Offer of $3,300 approved by Mr. Jackson, July [illegible], 1961.

ROCK POINT-SEVEN OAKS SECTION OF THE PACIFIC HIGHWAY

R-32820 - Theodore R. Klein, et al. Parcel No. 1: 0.09 acre for right of way purposes; Parcel No. 2: 0.43 acre for right of way purposes; Parcel No. 3: 0.01 acre for right of way purposes; and Parcel No. 4: 0.01 acre for right of way purposes. Offer of $1,600 approved by Mr. Jackson, July 21, 1961.

R-33312 - Sunny-Cal Ranch Corporation, et al. 1.09 acres for right of way purposes. Offer of $110 approved by Mr. Jackson, July 18, 1961.

R-33322 - Sunny-Cal Ranch Corporation, et al. 0.63 acre for right of way purposes. Offer of $75 approved by Mr. Jackson, July 7, 1961.

COTTAGE GROVE-DIVIDE SECTION OF THE PACIFIC HIGHWAY

R-32832 - Robert B. Merrick, et al. Access Control Offer of $600 approved by Mr. Jackson, July 5, 1961.

THE DALLES BY-PASS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30555 - Port of The Dalles, et al. Parcel No. 1: 0.19 acre for right of way purposes; and Parcel No. 2: 23.0 acres for right of way purposes. Offer of $90,165 approved by Mr. Fridley, June 8, 1961.

ATHENA-BLUE MOUNTAIN STATION SECTION OF THE OREGON-WASHINGTON HIGHWAY

R-32149 - Verva Stockstill, et al. 1.78 acres for right of way purposes. Offer of $2,075 approved by Mr. Fridley, June 29, 1961.

R-32153 - E. Earl Dudley, et al. 12.25 acres for right of way purposes. Offer of $7,350 approved by Mr. Fridley, July 24, 1961.

R-32155 - George H. Sheard, et al. 6.3 acres for right of way purposes. Offer of $5,615 approved by Mr. Fridley, July 6, 1961.

R-32305 - Frances Fitzsimmons, et al. Parcel No. 1: 14.8 acres for right of way purposes; and Parcel No. 2: 0.07 acre for permit of entry. Offer of $14,175 approved by Mr. Fridley, June 26, 1961.

R-32310 - Blanche Staggs Beamer, et al. Parcel No. 1: 0.6 acre for right of way purposes; and Parcel No. 2: 1.6 acres for right of way purposes. Offer of $1,170 approved by Mr. Fridley, July 24, 1961.

ATHENA-BLUE MOUNTAIN STATION SECTION OF THE OREGON-WASHINGTON HIGHWAY AND OREGON-WASHINGTON HIGHWAY-WESTON SECTION OF THE WESTON-ELGIN HIGHWAY

R-32474 - J. C. Price, et al. 0.6 acre for right of way purposes. Offer of $300 approved by Mr. Fridley, July 26, 1961.

WESTPORT-CLATSKANIE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31538 - Clifford Salmi, et al. Parcel No. 1: 7.9 acres for right of way purposes; and Parcel No. 2: 0.23 acre for right of way purposes. Offer of $2,500 approved by Mr. McIver, July 20, 1961. An amount of $2,375 was approved by Mr. Fridley on April 26, 1961, this increase is due to the addition of Parcel No. 2.

R-31544 - Edith Ward, et al. 0.3 acre for right of way purposes. Offer of $50 approved by Mr. McIver, July 24, 1961.

R-31554 - Edna M. Johnson, et vir. Parcel No. 1: 5.25 acres for right of way purposes; and Parcel No. 2: 0.5 acre for right of way purposes. Offer of $3,280 approved by Mr. McIver, July 13, 1961.

R-32892 - Albert Y. Townsend, et al. 2.44 acres for right of way purposes. Offer of $732 approved by Mr. McIver, July 18, 1961.

THE DALLES BY-PASS SECTION AND THE DALLES-BIG EDDY SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30557 - Oregon-Washington Railroad & Navigation Company, et al. Parcel No. 1: 1.2 acres for right of way purposes; Parcel No. 2: 6.3 acres for right of way purposes; Parcel No. 3: 54.0 acres for right of way purposes; Parcel No. 4: 0.43 acre for right of way purposes; Parcel No. 5: 1.7 acres for right of way purposes; Parcel No. 6: 500 square feet for right of way purposes; Parcel No. 7: 0.7 acre for permanent easement; Parcel No. 8: 0.89 acre for permanent easement; Parcel No. 9: 1.9 acres for permanent easement; Parcel No. 10: 0.25 acre for permanent easement; Parcel No. 11: 2.45 acres for temporary easement; and Parcel No. 12: 0.7 acre for temporary easement. Offer of $73,785 approved by Mr. Fridley, March 29, 1961. An amount of $92,625 was approved by Mr. Fridley November 1, 1960. This revised amount is due to change in access provisions.

A written report was submitted by the Chief Counsel concerning orders received from the Public Utility Commissioner regarding highway crossing matters in which the State Highway Commission has been a party. The report is summarized as follows:

PUX 405: Brewery Overcrossing, The Dalles, Union Pacific Railroad Co., Columbia River Highway, Wasco County. The order allowing the overcrossing was issued in accordance with the petition and testimony presented at the hearing.

PUX 415: Morse Brothers' application for Private Road Crossing of the Pacific Highway East near Harrisburg, Lane County. The order allowing the crossing was in accordance with stipulations made by the Highway Commission and the testimony presented at the hearing.

PUX 417: Weyerhaeuser Company application for authority to construct a private Logging Railroad across a county road in Lane County. The State Highway Commission has no jurisdiction over the road involved.

PUX 426: Installation of signals in Tigard on the Beaverton-Tualatin Highway at its crossing with Southern Pacific Company railroad. The Highway Commission filed an answer. The Railroad moved to strike the answer of the Highway Commission on the grounds that the Highway Commission was not a proper party to the proceedings. The order upheld the contention of the Railroad Company and the answer of the Highway Commission was stricken.

PUX 427: Installation of signals in Tigard at the crossing of the Beaverton-Tualatin Highway with Oregon Electric Railway Company. The Highway Commission filed an answer. The Railway Company moved to strike the answer of the Highway Commission on the grounds that the Highway Commission was not a proper party to the proceedings. The order upheld the contention of the Railway Company and the answer of the Highway Commission was stricken.

PUX 437: West Salem Service Road Grade Crossing of Southern Pacific Company in Polk County. The Highway Commission's request to have this application withdrawn was allowed.

A list of claims on which collection has not been made was presented by the Chief Counsel. He pointed out that these claims, which extend back into early 1958, are uncollectible because of the cost of collection in ratio to the size of the claim, inability to locate the claimant, indefiniteness of evidence as to who caused the damage, and financial insolvency. Based on his favorable recommendation, the Commission approved abandonment of collection efforts on the following claims:

CAO No.	Name	Amount of Claim
58-138	William Deschamps	$ 16.80
61-27	Albert May	175.55
60-218	Ted Wright	30.01
60-283	Joseph Grandy	94.08
59-236	Henry Girtz	136.33
59-61	Patrick Cosgrove	111.79
60-320	R. L. Houck & Sons	159.20
60-21	T. J. Preslar	200.29
60-231	Lowell E. Davenport	92.37
56-176	George Carlson	48.28
60-4	Richard Martin	109.35
58-101	Paul Sample	49.75
61-120	Robert Lockyear	175.89
61-38	William Schoning	131.84
60-103	S. R. Howell	93.92

(For additional information see the Chief Counsel's letter, dated June 27, 1961, on "Report of Abandoned Claims" in the General Files.)

A quarterly report of property damage claims collected during the period from April 1, 1961 through June 30, 1961 was presented by the Chief Counsel. He pointed out briefly that during this period of time 80 claims had been collected, totalling $8,689.06 and 15 claims had been abandored, totalling $3,188.96. The Commission accepted the report.

The Commission considered a "Grant of Easement" for livestock and farm equipment to Joseph A. Bucher and wife in connection with Right of Way Settlement L-3106, R-28041, on the Dodson Interchange Section of the Columbia River Highway in Multnomah County. The Chief Counsel explained briefly that the easement is effective only as long as the property of Mr. Bucher on either side of the highway remains in a single ownership. The easement also involves a release on Mr. Bucher's part of a stockpass granted him by the Commission on August 17, 1945. The Engineering Department, he pointed out, has approved this easement. Upon his favorable recommendation, the Commission approved the easement.

A petition to exclude approximately four acres of land devoted to highway purposes from the Hermiston Irrigation District on the Hermiston Highway in Umatilla County was presented by the Chief Counsel. The highway property, he stated, will not be benefited by the irrigation service available, and he recommended that the petition be approved. The Commission approved the petition.

The Commission also considered and approved a petition to exclude approximately 150 acres of land from the Medford Irrigation District in Jackson County. The Chief Counsel explained briefly that it is not necessary that any water from the irrigation system be used upon the land, and that it will not be benefited by irrigation as the property is permanently devoted to state highway purposes.

Consideration was given to a "Relinquishment of Title" whereby the State Highway Department relinquishes to Multnomah County a parcel of land consisting of 1.3 acres on N. E. 122nd Avenue, and a parcel of land consisting of 0.51 acre on N. E. Rose Parkway. The Chief Counsel explained that this transaction is necessary because the original quitclaim deed contained errors in description, which errors are corrected by the relinquishment of title presented. Upon his favorable recommendation, the Commission approved the relinquishment of title.

An item concerning a proposed agreement with F. H. Louis Blaue regarding house encroachment on Cascade Secondary Highway in Clackamas County was removed from the agenda because Mr. Blaue has not returned the signed agreement.

The Commission considered an amendment to a lease given to the State by the United States Government for land to be used as a part of Cove Palisades State Park in Deschutes County. The Chief Counsel explained

that the State previously entered into an agreement with the Portland General Electric Company whereby the State conveyed to the Company its interest in property needed in connection with construction of Round Butte Dam and relocation of Cove Palisades State Park. Under terms of the original lease agreement between the United States Government and the State, he continued, the State is not allowed to convey any interest in this property without the consent of the Government. By this proposed amendment certain parcels of land are deleted from the lease with the Government, thus allowing the Government to convey the property in question directly to the Portland General Electric Company. Based on his favorable recommendation, the Commission approved the amendment and authorized the Secretary to sign it on behalf of the Commission.

A report of legal action by F. H. McEwen against the State in connection with State Highway Contract No. 5516 was presented by the Chief Counsel. This contract, he stated, involved work on the North Umpqua Junction-Diamond Lake Section of the Cascade Lakes Road in Douglas County. The contractor seeks to collect $34,873.28 on three counts, alleging that they were ordered to place the material in two stockpiles instead of one, that extra work had been performed in constructing a leveling course, and that the Highway Department pay the retained percentage which was withheld. The claim, the Chief Counsel advised, has been rejected as being without foundation and is being turned over to the Trial Section for proper legal action. The Commission accepted the report.

Attention was given to a "Flowage Easement" form granting to the Idaho Power Company flowage rights on four parcels of land along the Brownlee Pool in the Snake River on the Lime-Porter Ferry Section of the Old Oregon Trail in Baker County. The Chief Counsel explained that the flowage easement allows the Power Company to overflow, flood or cover the land, and to have rights of ingress and egress to the land for the purpose of keeping it clear of trees, brush and other materials, and has been approved by the Engineering Department. Based on his favorable recommendation, the Commission approved the easement.

The Chief Counsel recommended a settlement on the condemnation case with Mr. and Mrs. E. G. McKenzie, File L-3010, R-25283, on the Albany-Judkins Point Section of the Pacific Highway, Lane County. This property, he stated, involves 19.97 acres which had been appraised at $5,000 and an offer made in the same amount. The owners demanded $15,000 originally, but have now agreed to settle for the sum of $5,350. Upon his favorable recommendation, the Commission approved the settlement.

The Chief Counsel stated that a request had been received from the City of Pendleton for annexation to the City of a portion of Oregon-Washington and Old Oregon Trail Highways located at the east end of the city. No harm will be caused to the highway by such annexation, and he recommended that it be approved and the Secretary authorized to sign the "consent" after the Engineering Department has approved it. The Commission accepted the recommendation.

The Deputy Highway Engineer reported that the Engineer had made awards of contracts referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he continued, have been taken care of. The Commission confirmed award of the following contracts:

(1) Grading, paving and four structures on Judkins Point-Goshen Section of Pacific Highway, Lane County. Bids received June 27, 1961. Contract No. 5945 awarded July 6, 1961 to Roy L. Houck Sons' Corporation, Salem, low bidder.

(2) Stone base and oiling on Bernards Corner-Purdys Corner Section of FAS Routes 889 and 111, Yamhill County. Bids received June 27, 1961. Contract No. 5946 awarded July 10, 1961 to C. C. Meisel, McMinnville, low bidder.

The Commission considered, as an item of unfinished business, protests which had been received concerning the use of motor vehicles on Cannon Beach and requesting the closure of the beach during the night. The Deputy Highway Engineer stated that as previously instructed by the Commission a careful investigation had been made. The State Police had advised that regular patrols are made along this beach and that the enforcement problem is less than on other comparable beaches. It was their feeling that it would not be practical to close the beach at night as it would be very difficult to clear the beach in the evening and lock the gates. The Clatsop County Sheriff's Office stated that they also patrol the beach frequently during weekends and holidays, and it was their opinion that the enforcement problem is less critical than at other beaches in the area. The Deputy Highway Engineer pointed out that the 15 mile-per-hour restriction on the speed of vehicles has been favorably received by a great many people. In view of these findings, he recommended that no action be taken to change the regulations now in effect. The Commission accepted his recommendation.

For the protection of the traveling public on sections of highways where construction is underway, the Deputy Highway Engineer stated that under authority previously granted, temporary construction speed zones had been placed as follows:

(1) 35 MPH on Columbia River Highway between M.P. 103.0 and M.P. 103.2 in Sherman County, effective 8:00 a.m., August 1, 1961.

(2) 35 MPH on Burnt Hill-Brookings Section of Oregon Coast Highway, Curry County, between M.P. 353.91 and M.P. 355.91, effective 8:00 a.m., July 1, 1961.

(3) 35 MPH on Heppner-Spray Highway between M.P. 19.38 and M.P. 23.39, Morrow County, effective 8:00 a.m., July 17, 1961.

(4) 35 MPH on Clear Lake-Belknap Springs Highway between M.P. 4.56 and M.P. 12.13, Linn County, effective 8:00 a.m., July 18, 1961.

The Commission confirmed the construction speed zones.

Consideration was given to a request from the Klamath County Court, through its County Engineer Mr. J. R. Kalinoski, for an exchange of Klamath County roads for state highways in Klamath County. The Deputy State Highway Engineer stated that the Klamath County Court had offered to assume jurisdiction over the Sun Mountain Secondary Highway from Mazama Junction to Fort Klamath Junction, a distance of 27 miles, and over the Modoc Point Secondary Highway between Klamath Agency and Modoc Point, a distance of 12.9 miles. In exchange they requested the Commission to assume jurisdiction over the Sprague River County Road from Chiloquin to its junction with the Klamath Falls-Lakeview Highway, a distance of 33.5 miles, and over the Keno-Worden Road between Keno on the Green Springs Highway and Worden on The Dalles-California Highway, a distance of 7.7 miles. He pointed out that the Sun Mountain Secondary and the Modoc Point Secondary Highways require little maintenance. On the Sprague River County Road there is a section of 4.7 miles in the Chiloquin vicinity which has an inadequate surface and grade. To improve this section he estimated would cost approximately $250,000. In the event that the Sprague River Road might be designated as a part of the Winnemucca to the Sea Route, he pointed out that it would probably be requested that the road be extended from its westerly termini at Chiloquin around the northern end of Upper Klamath Lake via Rocky Point to a junction with the Lake of the Woods Road. This project he estimated would cost near $3,000,000. As there are not sufficient funds to construct as rapidly as desired those projects to which the Commission is committed in this area, he recommended that the request be denied. The Commission accepted his recommendation.

The Deputy State Highway Engineer reported that surveys had been completed for the relocation and reconstruction of certain sections of state highways. These surveys, he stated, have been given very careful engineering consideration in order to provide the most adequate highway facility commensurate with the needs of the traveling public and cost of construction. Upon his favorable recommendation the Commission approved the following surveys and thereupon adopted resolutions relative thereto, marked Exhibits "K-1" through "K-4". which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961":

(1) Polk Station-Dallas Section of the Kings Valley Secondary Highway No. 191 in Polk County. The resolution also designates this section as a throughway and as an extension to the existing Kings Valley Secondary Highway. Polk County has agreed to take over the Dolph Corner-Dallas Highway, and the State will assume jurisdiction over the Polk Station Road. A public hearing was held in Dallas August 9, 1960. The Deputy Highway Engineer explained that $150,000 has been programmed for this project; however, because it is believed desirable to use a slightly higher design standard than originally planned, the present estimate is $205,000. To obtain the additional $55,000 needed, he recommended, and the Commission approved, the transfer to this project of $25,000 of urban funds from the Salmon River Junction-East McMinnville Section of the Three Mile Lane Highway as approved in Program 5 and $30,000 from the secondary reserve of Program 6. (See Exhibit "K-2")

(2) The Sunset Highway-Pacific Highway Section of the Beaverton-Tigard Highway in Washington County. A public hearing was held April 12, 1960. The resolution designates this highway as a throughway. (See Exhibit "K-3")

(3) Anderson Road-Duncan Road Section of the Mt. Hood Highway in Multnomah and Clackamas Counties. (See Exhibit "k-1")

(4) Pelican City-South Sixth Street Section of the Klamath Falls-Malin Highway in Klamath County. The resolution revises Survey Resolution No. 1, adopted May 9, 1944, as to the terminal point at the southerly end of the section. The resolution also designates as a throughway the section of highway covered by the survey. (See Exhibit "K-4")

The Commission considered an Agreement with the City of Grants Pass covering the maintenance and operation of traffic signals and illumination at the Redwood Highway Junction Interchange on the Pacific and Redwood Highways in Josephine County. The Deputy Highway Engineer explained briefly that when the Interchange was constructed it was not within the city limits, and maintenance and operation of the illumination were performed by the State. Since that time, the area has been annexed to the City, and the City has agreed to take over the maintenance and operation of the illumination. The State, however, will continue to maintain and operate the traffic signals. Upon his favorable recommendation the Commission approved the Agreement and authorized the Secretary to sign it in behalf of the Commission.

Authority for increases in two project authorizations was requested by the Deputy Highway Engineer on the following State Highway contracts:

(1) Contract 5857, for paving and crushing material in stockpile on the Emigrant Reservoir Section of the Green Springs Highway in Jackson County. The Deputy Highway Engineer stated that the highway showed distress under heavy traffic in a section 126 stations long, and it is proposed to lay pavement to a thickness of 3½ inches in lieu of the specified 2 inches of thickness. The Commission approved an over-run of $21,725.07, or 20 per cent.

(2) Contract 5838, for paving the Willamette River Bridge-Woodburn Interchange Section of the Pacific Highway in Marion and Clackamas Counties. The Deputy Highway Engineer stated that the over-run was caused by the need for additional patching material to bring the existing pavement to grade. Since this is an interstate project, approval of the Bureau of Public Roads has been secured. The Commission approved an over-run of $28,243.11, or 8.95 per cent.

Maps and descriptions of additions and revisions to the County Federal-aid Highway System were presented by the Deputy Highway Engineer. He explained that the additions and revisions were requested by the counties

and have been approved. Based on his favorable recommendation, the Commission approved the following revisions to the County Federal-aid System:

County	FAS		Miles
Clackamas	117	Extension	4.7
Clackamas	135		2.5
Clackamas	812	Extension	4.0
Crook	399		12.8
Gilliam	442		15.1
Harney	450	Revision	-1.0
Harney	824	Extension	0.9
Josephine	594	Extension	7.2
Klamath	427	Extension	1.0
Linn	761	Extension	0.5
Marion	158		8.3
Marion	591	Extension	3.4
Marion	812	Extension	2.2
			+61.6

The Deputy Highway Engineer also brought up highway system changes proposed in Polk and Tillamook Counties. In Polk County, the State plans to construct a new road from Dallas to Polk Station as an extension to the Kings Valley Secondary Highway, which now ends in Dallas. This would add 3.3 miles to the State Secondary System, 0.7 miles being now a part of the Dallas-Rickreall Highway, FAS 123. Upon completion of the extension to the Kings Valley Secondary Highway, the present FAS 137, extending from Dallas to Dolph Corner, will be turned back to Polk County.

In Tillamook County, he continued, the Bay City-Garibaldi Section of the Oregon Coast Highway will be connected temporarily to the existing Coast Highway at the southerly city boundary of Garibaldi. To construct this connection it will be necessary that it be placed on the Federal Secondary Highway System. It is proposed that the loop around Miami River Cove, which will be replaced by the extension of the Bay City-Garibaldi Section, be designated as FAS 611 and added to the County Federal-aid Highway System. The road, he continued, will be operated and maintained by the State until such time as the extension of the Bay City-Garibaldi Section is made. The Commission approved the changes.

Two County Federal-aid secondary projects, one in Harney and one in Klamath County, were presented by the Deputy Highway Engineer. Concerning the Harney County project, he pointed out that a transfer of Harney County federal funds in the amount of $60,000 has been made to be used on the Frenchglen State Secondary Highway. The Klamath County project for the Washburn Way Overcrossing has been investigated and is eligible for construction. Following his favorable recommendation, the Commission approved the projects listed, as follows:

(See following page)

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Funds
Harney	450	Narrows-Saddle Butte Section. Transfer of county FAS funds to state highway project.	$ 100,000	'62
Klamath	434	Washburn Way Overcrossing. Structure only.	$ 160,000	'62
		Total	$ 260,000	

SUMMARY BY FISCAL YEARS	1962	1963 Estimated	Total
Allocated Funds	$3,497,000	$3,681,000	$7,178,000
Previcusly Approved	3,226,000	- - -	3,226,000
Unprogrammed Balance	$ 271,000	$3,681,000	$3,952,000
Projects Proposed 7/28/61	260,000	- - -	260,000
Unprogrammed Balance	$ 11,000	$3,681,000	$3,692,000

A resolution was presented by the Deputy Highway Engineer apportioning to the various cities motor vehicle revenues accrued during the first half of 1961. These allocations, he stated, have been made according to law, and he recommended that they be approved by the Commission. The Commission approved the apportionments as presented and thereupon adopted a resolution relative thereto, marked Exhibit "E", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

Requests for increase in number of working days within which to complete state highway contracts were presented by the Deputy Highway Engineer. He explained briefly the pertinent facts concerning each request. The Commission took action on the requests as follows:

(1) S. D. Spencer & Son, Contract 5644, for rock production on the Sutton Lake-Crater Lake Section of the Oregon Coast Highway, Lane and Douglas Counties, requested an increase from 75 days to 116½ days within which to complete the contract without assessment of liquidated damages. The Commission denied the request.

(2) R. E. Hall Construction Company, Contract 5840, for grading and paving the Irrigon-Umatilla Section of the Columbia River Highway, Morrow and Umatilla Counties, requested an increase from 85 days to 115 days within which to complete the contract without assessment of liquidated damages. The Commission approved the request subject to concurrence of the Bureau of Public Roads.

The Deputy Highway Engineer reported that Contract Nos. 5536, 5584, 5590, 5614, 5643, 5649, 5707, 5744, 5794, 5802, 5825, 5842, 5844, 5846, 5861, 5866, 5869, 5870, 5872, 5885, 5890, 5895, 5899 and 5930 for highway construction had been completed in accordance with the requirements of the contracts, or modifications thereof, and the said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted the contracts by adopting a resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

The Deputy Highway Engineer reported that the State Police had called to his attention a hazardous condition on the Pacific Highway West, just north of Eugene, caused by trucks parking along the narrow dividing island between the highway and the frontage road. A fatal accident occurred in this vicinity recently in which restricted sight distance had been a contributing factor. He recommended that parking be prohibited on the easterly side of the Pacific Highway West from the north end of the frontage road, M.P. 121.04, to the northerly edge of Roosevelt Boulevard at M.P. 121.14. The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "B", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

Abandonment of several sections of old highways was recommended by the Deputy Highway Engineer. He explained that the sections to be abandoned are no longer required or needed as parts of the highway system because they have been replaced by newly constructed sections, which are now open to the traveling public. The Commission approved the abandonment of the following highway sections by adopting resolutions relative thereto, marked Exhibits "G-1" through "G-3" and "H", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961":

(1) Abandonment of a portion of the Revere Avenue-Franklin Avenue Section of The Dalles-California Highway in Bend, Deschutes County. This resolution also designates other portions of this highway section as an extension to the Central Oregon Highway and the Century Drive Highway, and designates Revere Avenue from East Third Street to East First Street as a temporary route of The Dalles-California Highway. (See Exhibit "H")

(2) Abandonment to abutting property owners of several short sections on the Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County. (See Exhibit "G-1")

(3) Abandonment of a portion of the old Sandy-Alder Creek Section of the Mt. Hood Highway in Clackamas County, three parts being abandoned to Clackamas County and a portion to revert to abutting property owners. (See Exhibit "G-2")

(4) Abandonment to the U. S. Government of the old right of way on the Dexter Reregulating Dam Section of the Willamette Highway in Lane County. (See Exhibit "G-3")

Attention was given to a resolution presented by the Deputy Highway Engineer amending "Through Highways and Stop Signs" Resolutions Nos. 13 and 13g, dated September 21, 1949, and May 8, 1958, respectively, as they pertain to the Lexington-Echo Highway in Umatilla County. The Deputy Highway Engineer stated that traffic conditions in the City of Echo have changed, and for the safety of the traveling public he recommended the following revisions:

(1) Westbound traffic on the Lexington-Echo Highway No. 320 shall be required to stop at the junction of the Hermiston Highway No. 333, ORE 207, M.P. 27.24.

(2) Eastbound traffic on the Lexington-Echo Highway No. 320 in the City of Echo shall be required to stop before entering the Thielson Street intersection, M.P. 35.70, except that the right turn from west to south shall be permitted without stopping.

(3) Westbound traffic on the Lexington-Echo Highway No. 320 in the City of Echo shall be required to stop before entering the Thielson Street intersection, M.P. 35.87, except that the right turn from east to north shall be permitted without stopping.

The Commission approved the changes as recommended and thereupon adopted a resolution pertaining thereto, marked Exhibit "L-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

The Commission also considered an amendment to "Through Highways and Stop Signs" Resolutions Nos. 4 and 4f, dated April 27, 1943, and January 28, 1960, respectively, as they pertain to the Klamath Falls-Malin Highway in Klamath County. The Deputy Highway Engineer stated that construction of the Klamath Falls Eastside Bypass will extend the highway and require revisions in regard to through-stop regulations. To care for the revisions in the highway, he recommended that Resolution No. 4f, dated January 28, 1960, be amended to read as follows:

Highway No. 50 - The Klamath Falls-Malin Highway (between M.P. X6.82, The Dalles-California Highway, and M.P. 27.10, the California State Line).

Exception - That traffic moving from Highway No. 50, Klamath Falls-Malin Highway, northerly onto Highway No. 4, The Dalles-California Highway, may do so without stopping;

That all traffic on Highway No. 50, Klamath Falls-Malin Highway, shall stop at its junction with the Esplanade Spur in Klamath Falls at M.P. X4.97, except that the right turn from north to west may be made without stopping;

That traffic southbound on Highway No. 50, Klamath Falls-Malin Highway, shall stop for Highway No. 20, Klamath Falls-Lakeview Highway, at M.P. X2.24;

That traffic northbound on Highway No. 50, Klamath Falls-Malin Highway, shall stop for Highway No. 20, Klamath Falls-Lakeview Highway, at M.P. X0.00.

The Commission approved the amendment and thereupon adopted a resolution relative thereto, marked Exhibit "L-2", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

Attention was given to a throughway agreement with the City of Portland covering the North Russell Street-Columbia Slough Section of the Pacific Highway in Portland (Minnesota Freeway). The Deputy Highway Engineer explained that the throughway agreement is presented in order to determine the things to be done by the State and by the City and to provide particularly for the closure of certain city streets. Upon his favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it on behalf of the Commission.

The Commission considered an agreement with the advertising firm of Cole & Weber, extending for one year to June 30, 1962, an agreement for advertising services for the Travel Information Division. The Deputy Highway Engineer stated that Cole & Weber have provided very satisfactory services, and the extension of the agreement has been approved by Mr. Freeman Holmer, Director of the Department of Finance & Administration. Upon the Deputy Highway Engineer's favorable recommendation, the Commission approved the agreement, and authorized the Secretary to sign it on behalf of the Commission. In discussing the agreement with Cole & Weber, Chairman McIver inquired if it is the practice to allow various advertising firms to make a full presentation of their services at intervals of around five years. The Travel Information Director stated that it has been the practice in the past to call for such full-scale presentations at intervals of five years. These presentations, he stated, are quite costly to the advertising firms, and they have indicated that they do not wish to change contracting agencies each year.

An agreement with the Spokane, Portland and Seattle Railroad Company covering an easement on railroad property for construction of the easterly unit of the Clatskanie-Westport Section of the Columbia River Highway in Columbia County was presented by the Deputy Highway Engineer. Based upon his favorable recommendation, the Commission approved the agreement.

The Commission also considered and, following the Deputy Highway Engineer's favorable recommendation, approved an agreement with the Union Pacific Railroad Company covering an easement on railroad property for highway construction on the Hermiston-Hinkle Section of the Hermiston Highway in Umatilla County.

In connection with reconstruction of the Rock Point-Seven Oaks Section of the Pacific Highway in Jackson County, the Deputy Highway Engineer stated that it is necessary to enter into an agreement with Southern Pacific Railroad Company for construction of an overcrossing structure paralleling the existing structure. The details concerning this structure, he stated, have been reduced to agreement form, and he recommended that the indenture and agreement form be approved. The Commission approved the form.

A request from the U. S. Bureau of Indian Affairs to place two signs upon the right of way of the Warm Springs Highway in Wasco and Jefferson Counties was considered. The Deputy Highway Engineer stated that the signs are attractive and call to the attention of the public the need to help in preventing forest fires. The location and sign message, he stated, have been approved, and he recommended that authority be granted to install two signs, one at M.P. 78.30 and the other at M.P. 98.90. The Commission approved their installation and authorized the Secretary to sign the permit in behalf of the Commission.

An agreement with Mr. J. T. Brown to relinquish a cattle pass was presented by the Deputy Highway Engineer. The cattle pass, he stated, has never been used and has deteriorated to the point where it will soon be necessary to replace it. Following the Deputy Highway Engineer's favorable recommendation, the Commission approved the agreement for relinquishment of the cattle pass at M.P. 11.94 on the Sherars Bridge Secondary Highway No. 290 in Sherman County and authorized the Secretary to sign the agreement in behalf of the Commission.

The Deputy Highway Engineer reported that in construction on the Rhinehart Elgin Section of the Wallowa Lake Highway, Union County, it is necessary that considerable embankment material be hauled across the Union Pacific Railroad tracks. The Railroad Company has prepared an agreement covering a temporary haul-road crossing, which he recommended be approved. The Commission approved the agreement.

To provide a suitable roadway connection between the two portions of Armitage State Park that are separated by the Southern Pacific Railroad tracks, the Deputy Highway Engineer stated that it is necessary to secure an easement from the Railroad Company and to arrange for some changes in the timber trestle adjacent to the McKenzie River Bridge. The Railroad Company has granted an easement provided the State will pay the cost of revising the Railroad Company's bridge approach structure to accommodate the road, at an estimated cost of $1,270. The Commission approved the easement and authorized the expenditure of $1,270.

The Deputy Highway Engineer recommended, and the Commission approved, a pipe line crossing agreement with Union Pacific Railroad Company covering a water pipe line to serve the proposed development at Koberg Beach Wayside in Hood River County.

An invoice from the City of Portland in the amount of $46.40 for damages to a city water pipe was considered. The Deputy Highway Engineer explained that a maintenance crew while ditch cleaning on the Lower Columbia River Highway at N. W. 39th Avenue had ruptured the water pipe. As this type of damage is not covered by the State's comprehensive liability insurance, he recommended that the invoice be paid. The Commission approved the payment.

A resolution was presented by the Deputy Highway Engineer revoking and superseding "Loads and Hauling" Resolution Nos. 24c and 24d, dated January 22, 1959 and July 2, 1959, respectively. This resolution, he stated, which will be effective August 8, 1961, pertains to the operation, without permit, of overweight combinations of vehicles and overlength and overheight vehicles and combinations of vehicles over certain highways so as to comply with and incorporate changes made by the 1961 State Legislature. Following the favorable recommendation of the Deputy Highway Engineer, the Commission adopted a resolution relative thereto, marked Exhibit "J-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

The Commission also considered a resolution revising "Loads and Hauling" Resolution No. 25a, dated August 18, 1960, so as to incorporate changes made by the 1961 State Legislature, such resolution to be effective August 8, 1961. Upon the Deputy Highway Engineer's favorable recommendation, the Commission adopted a resolution relative thereto, marked Exhibit "J-2", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of July 28, 1961".

The Commission approved the Secretary's report of papers signed in behalf of the Commission during the period June 21 through July 21, 1961.

In response to an inquiry from Commissioner Jackson concerning the Secretary signing agreements on behalf of the Commission, the Chief Counsel explained that the Secretary should be authorized to sign in behalf of the Commission all agreements and contracts approved by the Commission, except for those documents that are filed in the court, such as, petitions, easements or deeds which the Commission is required to sign. The Legal Division, he pointed out, is presently following this procedure in the preparation of legal documents; however, some of the agreements initiated by the various railroad companies may still be prepared for the Commission's signature. The Chief Counsel also pointed out that the Secretary should indicate on the Commission's agenda for each meeting if the Commission will sign an agreement or if the Secretary can be authorized to sign it.

The next regular Commission meeting date was set for September 15, 1961 in the Conference Room of the State Highway Building in Salem. A tentative date for the following meeting was set for October 20, 1961.

In discussing these Commission meeting dates, the Deputy Highway Engineer commented that if Federal funds are released, it is planned to call for bids on a large number of projects for highway construction on September 13.

The Deputy Highway Engineer reported that the 1961 State Legislature had revised the law concerning vehicles stopping when a school bus has stopped to load and unload children. The new law, he stated, becomes effective August 9, 1961, and requires that a vehicle stop for a school bus only if the red lights on the bus are flashing. To care for this change in the law, he recommended a change in the standard sign concerning school bus stops to read "UNLAWFUL TO PASS SCHOOL BUS WHEN RED LIGHTS FLASH". The Commission approved the change which is to be incorporated in the Oregon Manual on Uniform Traffic Control Devices.

The Commission considered an easement and construction agreement with Union Pacific Railroad Company pertaining to the Grande Ronde River Overcrossings on the Old Oregon Trail Highway between Perry and LaGrande in Union County. The Deputy Highway Engineer commented briefly that the agreement is needed in connection with construction and allows collection of federal aid. Following his favorable recommendation, the Commission approved the agreement.

Consideration was given to an agreement with Deschutes Railroad Company, Oregon-Washington Railroad and Navigation Company, Union Pacific Company, Oregon Trunk Railway, and the Great Northern Railway Company concerning widening of the Madras overcrossing on the Warm Springs Highway in Jefferson County. Upon the Deputy Highway Engineer's favorable recommendation, the Commission approved the agreement.

The matter of an audit by an outside firm concerning highway accounting and procedures was brought up by the Deputy Highway Engineer. Chairman McIver stated that in his opinion the audit should be a public audit by an outside agency and should be detailed enough to assure that Highway funds are being handled properly. Included in the audit should be recommendations on efficiency of methods. No action was taken at this time. Later in the day the matter was again considered, and, after some discussion, Chairman McIver dictated the following statement concerning the study, which was approved by Commissioners Fridley and Jackson: "The State Highway Commission instructs the State Highway Engineer to do that which is necessary to employ a recognized certified public accounting firm to make a public audit of the financial affairs of the Highway Department and to make a study of methods that may improve efficiency and promote economy, and make such recommendation to the Highway Commission as may be pertinent."

The Commission authorized the following personnel to attend the AASHO Meeting in Denver, Colorado, October 9-14, 1961: W. C. Williams,

State Highway Engineer; Forrest Cooper, Deputy State Highway Engineer; G. S. Paxson, Assistant State Highway Engineer; and L. I. Lindas, Chief Counsel. The Commission approved an authorization of $265 to cover the expenses of each person, with the exception of Mr. Paxson whose authorization was increased to $325 as he will stay three days longer than the others to present a paper at the Prestressed Concrete Institute Meeting. The Commission also authorized the Director of the Travel Information Division, Mr. Carl Jordan, to attend a meeting of the Pacific Northwest Travel Association and the National Convention of Travel Officials in Yellowstone National Park, September 13-16, 1961, at an estimated cost of $272.

Correction of a drainage condition in the City of Cascade Locks was brought up by the Deputy Highway Engineer. He explained that over the years changes were made in the existing drainage pattern without adequate provisions. The situation, he pointed out, was aggravated by construction of the Cascade Locks By-pass Section of Interstate Highway No. 80N, and investigation reveals that the Highway Department has an obligation in this matter. Negotiations have been underway with city officials to effect a satisfactory solution, and an agreement has been arrived at for the installation of a 30-inch storm sewer beginning at a point southeasterly of the Cascade Locks School and extending across the town to the Cascade Locks abandoned ship locks where the water will be discharged into the Columbia River. A field estimate, he stated, indicates that the total cost of the project will be approximately $22,000, plus possible right of way costs. The City of Cascade Locks has agreed to participate in the amount of $4,000 and furnish required rights of way and easements. Verbal information has been received from the U. S. Bureau of Public Roads that they will participate with interstate funds in the amount of $13,000. The State Highway share would be approximately $5,000. In discussing the matter with the City, he stated that they have requested that the agreement provide that the City pay the sum of $2,500 on commencement of the work, and the remaining $1,500 to be paid January 2, 1962. The Commission approved the project as presented and authorized the Secretary to sign the agreement in behalf of the Commission.

The Deputy Highway Engineer stated that a request had been made by the City of Salem that the State acquire a strip of land outside the highway right of way between the proposed highway construction and Edgewater Street in West Salem. This request, he stated, is in connection with proposed reconstruction of the Salem-Willamina Highway in West Salem and westerly a short distance. He exhibited a map and explained that the City wishes to acquire immediately property between McNary Street and Rosemont Street, and acquire later the strip between Edgewater Street and the proposed highway from Wallace Bridge to Patterson Avenue. Acquisition cost of this property he estimated would be near $72,000. Securing of the excess property, he continued, would be advantageous to the City for beautification purposes, but is not required for highway use, thus eliminating federal participation in the cost. He also pointed out that condemnation proceedings could not be undertaken by the Highway Department because the property is not required for highway use. He mentioned that highway construction in West Salem will cost considerably more than anticipated because

of the construction of an interchange at Rosemont Street, which was requested at the public hearing. As there are no funds available for purchase of the land requested by the City, he recommended that the request be denied. The Commission accepted his recommendation.

The Commission discussed with the Deputy Highway Engineer bids for highway construction received July 27, 1961. The Deputy Highway Engineer pointed out the low bid for each project and the Engineer's estimated cost of each. At 11:00 a.m., the Commission awarded contracts, as follows, and authorized the Secretary to sign the contracts in behalf of the Commission:

BIDS RECEIVED IN SALEM ON JULY 27, 1961

"Furnishing for a three-year period liability insurance for State Highway Department Officers, Agents and Employees. The Commission awarded the insurance contract to the low bidder, W. C. Dyer & Sons Insurance Agency, Inc., Salem, at $3,514.05 for the three year period, subject to concurrence of the Department of Finance & Administration.

"Marys River Bridge, 0.5 mi. south of Philomath on County Road No. 25, Benton County project. The Commission referred all bids to Benton County for award.

"Beaver Creek Bridge on Quincy-Mayger Road, north from Clatskanie, in Columbia County. Federal-aid project. The Commission elected to accept the low bid of C. J. Montag & Sons, Portland, at $27,214.75, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Columbia County is received and the sum of $6,200.00 is deposited by the County.

"Grading, surfacing, oiling and two structures on the King Creek-Bridge Section of the Coos Bay-Roseburg Highway east of Myrtle Point in Coos County. Federal-aid project. The Commission awarded the contract to the low bidder, Selmar A. Hutchins, Roseburg, at $878,405.70.

"Grading and oiling on the Narrows-Saddle Butte Section of the Frenchglen Highway north of Frenchglen in Harney County. Federal-aid project. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $247,891.50.

"Koberg Beach Wayside Park facilities east of Hood River on the Columbia River Highway in Hood River County. State project. The Commission rejected all bids as being too high.

"Shasta Way-South 6th Street Section of the Klamath Falls-Malin Highway east of Klamath Falls in Klamath County. Federal-aid project. (This job was withdrawn prior to the opening of bids.)

"Stone base and paving on the 8th Avenue-2nd Avenue (N. Ontario) Section of the Olds Ferry-Ontario Highway in Malheur County. State project. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $61,382.50.

"Paving, two structures and signing on the Dodson-Bonneville Section of the Columbia River Highway east of Portland in Multnomah County. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, Rogers Construction Co., Portland, at $869,252.00.

"Reinforced concrete box girder structures on the Flint Avenue, Vancouver Avenue Undercrossings on East Bank Freeway Section of Pacific Highway (Portland) in Multnomah County. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, Kuckenberg Construction Co., Inc., Portland, at $587,640.35.

"Prestressed beam structure on the Hassalo and Holladay Streets Overcrossing, East Bank Freeway Section of Pacific Highway (Portland) in Multnomah County. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, C. J. Montag & Sons, Portland, at $288,420.00, on Alternate "B".

"Deadman's Pass-Meacham signing, Old Oregon Trail Highway in Union and Umatilla Counties. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, Highway Steel Contracting Co., Portland, at $33,170.30.

"Foundation investigation at site of proposed Columbia River and Youngs Bay Bridges at Astoria in Clatsop County. State project. One bid was submitted at $62,360.00. The Commission rejected it as being too high.

"Hermiston Office Building, Umatilla County. State project. The Commission awarded the contract to the low bidder, The Timber Co., Hermiston, at $14,554.00.

The Auditor reported that for the first six months of this year gasoline tax revenues have shown an increase while vehicle registration fees have decreased. It was his opinion that the procedure followed in the transfer of funds to the Highway Department is the cause of this variance.

Chairman McIver commented that he noticed there has been an increase of 79,039 visitors to the state parks this year over last year's total for the same period.

Chairman McIver requested the Engineer to make a study and submit a report at the September 15 Meeting concerning the possibility of establishing a long-range right of way acquisition program on the ABC system, excluding the Interstate system. In the discussion of this matter, Chairman McIver requested that the establishment of a trust fund arrangement be considered as one means of acquiring right of way for projects in the future.

The Commission considered and, following the favorable recommendation of the Deputy Highway Engineer, approved an agreement with Columbia

County covering construction of the Beaver Creek Bridge on FAS 610 in Columbia County. The Secretary was authorized to sign the agreement in behalf of the Commission.

The Commission approved and signed or authorized the Secretary to sign in their behalf the following agreements, deeds and other papers:

"Indenture of Access" to the Max Osborn and Jeannetta Osborn property on the Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

"Indenture of Access" to the Oswald Quaale property on the Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

"Indenture of Access" to the Emil and Ruby Quaale property on the Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

"Indenture of Access" to the Earl E. and Elva L. Townsend property on the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County.

"Indenture of Access" to the Delmer Colegrove, Jr. and Laura Colegrove property on Myers Creek-Brookings Section of the Oregon Coast Highway in Curry County.

"Indenture of Access" to the Donald and Sara Jean Loos property on Forest Grove-Hillsboro Section of the Tualatin Valley Highway, Washington County.

"Indenture of Access" to the Wendell D. and Eudine L. Tucker and to Juanita Tucker property on the Weston-Weston Mountain Section of Weston-Elgin Highway in Umatilla County.

"Indenture of Access" to The First National Bank of Oregon property on the Northbound Route of Pacific Highway in Ashland, Jackson County.

"Indenture of Access" to the Mark Thomas and Helen J. Cattron property on Hillsboro-Reedville Section of Tualatin Valley Highway, Washington County.

"Indenture of Access" to the Arthur J. and Esther L. Poulin property on the Tigard-Onion Flat Section of Pacific Highway West, Washington County.

"Indenture of Access" to the Morrison A. Conway and Mary Caroline Conway property on Sunset Camp-Manning Section of Sunset Highway, Washington County.

"Relinquishment of Title" to Multnomah County re transfer of title to the area occupied by the relocated connection between S. W. 55th Avenue and Pasadena Street (Harbor Drive-Barbur Boulevard Section of Pacific Highway), Multnomah County.

"Grant of Easement" to Joseph A. Bucher and Elma B. Bucher for livestock and farm equipment in connection with Right of Way Settlement on the Dodson Interchange Section of Columbia River Highway, Multnomah County.

"Flowage Easement" to Idaho Power Company granting Company flowage rights on four parcels of land along the Brownlee Pool on Lime-Porter Ferry Section of Old Oregon Trail Highway, Baker County.

"Agreement" with Spokane, Portland & Seattle Railway Company covering an easement on the Railway property for construction of the easterly unit of Clatskanie-Westport Section of Lower Columbia River Highway.

"Agreement" with the Union Pacific Railroad Company covering construction easement on Hermiston-Hinkle Section of Hermiston Highway, Umatilla County.

"Agreement" with Southern Pacific Company covering construction of a parallel overcrossing structure in connection with reconstruction to four lanes of the Rock Point-Seven Oaks Section of Pacific Highway, Jackson County.

"Agreement" with Union Pacific Railroad Company covering a temporary haul-road crossing of railroad property in connection with construction of Rhinehart-Elgin Section of Wallowa Lake Highway in Union County.

"Indenture" with Southern Pacific Company granting an easement across railroad property so that the State can provide a suitable roadway connection between the two portions of the Armitage State Park, Lane County.

"Pipe Line Crossing Agreement" with OWRR & N Company covering installation of water line across railroad property to Koberg Beach State Park.

"Agreement" with Union Pacific Company relative to improving and relocating a portion of Old Oregon Trail Highway between Perry and LaGrande in Union County.

"Agreement" with Deschutes Railroad Company, OWRR & N Co., Union Pacific Company, Oregon Trunk Railway and Great Northern Railway Co. relative to widening of the Madras Overcrossing in Jefferson County.

"Petition" for exclusion of land devoted to Highway purposes, from Hermiston Irrigation District, Umatilla County.

"Petition" to exclude land devoted to highway purposes from Medford Irrigation District, Jackson County.

"Relinquishment of Title" to Multnomah County for 2 parcels of land; 1 parcel lying in Section 23, Township 1 North, Range 2 East, W. M., Multnomah County. 1 parcel lying in the $S\frac{1}{2}SW\frac{1}{4}$ of Section 23 and in the $E\frac{1}{2}NW\frac{1}{4}$ of Section 26, Township 1 North, Range 2 East, W.M., Multnomah County.

"Quitclaim Deed" to Arthur C. Simonson and Gerhard Stavney for a parcel of land lying in $E\frac{1}{2}NW\frac{1}{4}$ of Section 26, Township 1 North, Range 2 East W.M., Multnomah County.

"Bargain & Sale Deed" to Robert M. Crawford and Eunice J. Crawford for a parcel of land on the Rice Hill-N. Oakland Jct. Section of the Pacific Highway in Douglas County. (Authorized 5-26-61)

"Bargain & Sale Deed" to School District No. 4 of Douglas County (Roseburg), for a parcel of land on the Deady-Shady Section of the Pacific Highway. (Authorized 4-14-61)

"Bargain & Sale Deed" to City of Portland for a parcel of land on the S.W. Hamilton St.-Slavin Road Section of Pacific Highway West. (Authorized 10-23-58 Agreement)

"Bargain & Sale Deed" Harry Freudenberg, W. R. Freudenberg and Cora Freudenberg Edward Freudenberg and Joyce Freudenberg for a parcel of land on the Sheep Creek Hill-Hayden Creek Section of the Little Sheep Creek Highway Wallowa County. (Authorized 5-26-61)

"Bargain & Sale Deed" to S. R. and Lois A. Hunt for a parcel of land on the Roseburg-Yoncalla Section of the Oakland-Shady Highway in Douglas County. (Authorized 4-14-61)

"Bargain & Sale Deeds" (two) to Portland General Electric Co. for property in the Cove Palisades State Park Section in Jefferson County. (Authorized 2-14-61 & 4-14-61)

"Bargain & Sale Deed" to Charles V. and Louise O. Stripling for a parcel of land on the Blackwell Hill-Seven Oaks Section of the Pacific Highway in Jackson County. (Authorized 5-26-61)

"Bargain & Sale Deed" to Shirley W. Bordwell and Louise E. Bordwell for a parcel of land on the Madras-Crooked River Section of The Dalles-California Highway in Jefferson County. (Authorized 5-26-61)

"Agreement" with Apple Growers Association of Hood River covering the taking of water from a spring on their property on the Hood River-Mosier Section of the Columbia River Highway for use at Koberg Beach Wayside.

"Throughway Agreement" with City of Portland covering the North Russell Street-Columbia Slough Section of the Pacific Highway in Portland,(Minnesota Freeway).

"Agreement" with Cole & Weber extending for one year an agreement for advertising services for the Travel Information Division.

"Agreement" with J T. Brown in which he relinquishes rights to a cattle pass at M.P. 11.94 on Sherars Bridge Secondary Highway in Sherman County.

"Permit" to Bureau of Indian Affairs for permission to place two signs upon right of way of the Warm Springs Highway at M.P. 78.30 and M.P. 98.90 between junction of Wapinitia Highway and Warm Springs.

"Agreement" with Columbia County covering construction of the Beaver Creek Bridge on FAS 610 in Columbia County.

"Agreement" with the City of Grants Pass covering maintenance and operation of traffic signals and illumination of Redwood Highway Junction Interchange in Josephine County.

July 28, 1961

The meeting was recessed at 11:45 a.m. and reconvened at 1:30 p.m. in the same room with the same persons present, except for Commissioner Jackson who was excused.

To the several groups who were present concerning the proposed Ash Street Overpass on Harbor Drive in Portland, Chairman McIver pointed out that the meeting this afternoon is not a public hearing, as a formal public hearing, as required by law, had been held in Portland in January, but is a courtesy meeting because of the demand of opponents and proponents of the overcrossing to be heard again. The ramp, he continued, was instigated by businessmen and the City of Portland. He pointed out specifically that the State Highway Commission, as far as this project is concerned, is acting only as an agent in arranging for federal and state funds to construct the ramp, and that the determination as to whether the ramp is to be constructed does not rest with the State Highway Commission.

A delegation, representing the Portland Retail Trade Bureau, consisting of the following persons, was present in favor of the proposed Ash Street Overpass: Larry Hayteas, spokesman, Chairman of the Traffic & Transportation Committee for the Retail Bureau; Gene Nudelman, Secretary of the Bureau; Jim Sechser, Retail Trade Bureau; A. W. Gentner, Portland Hotel Association Secretary; William Ellis and Richard Brand, Portland Hotel Association. Mr. Hayteas emphasized the need for additional access from the north-south route to the downtown core area of Portland since there is only one way to get to this area from the new freeway. He pointed out that in all cities the size of Portland if you miss the first access as you approach the city center, there is always a second access so tourists can drive into the core area. Tourists expect easy egress and ingress. The Retail Trade Bureau, he stated, has considered the merits of an overpass versus an underpass, and it appeared that even if an underpass were constructed, an overpass would still be necessary for pedestrian use. Mr. Gentner stated that he represented 3,000 hotel rooms in the downtown Portland area. Convention business to the hotels is an extremely important matter, and he urged that the Ash Street Overpass be constructed to allow better access to the downtown hotels.

Representatives of General Teamsters Local No. 162 and Teamsters and Chauffeurs Local Union No. 281 appeared in favor of the proposed Ash Street Overpass. Mr. Joe Edgar, Business Representative for Local No. 162, read a statement in favor of the Ash Street Overpass compared to an underpass. He pointed out that ramp construction appears to be simpler, cheaper, and more practical than an underpass, and that the approach to the underpass would be hazardous because there would be an 11 per cent grade. He also pointed out that a separation of traffic is badly needed as accidents in this area are increasing rapidly. Mr. Jim Haggin, Secretary-Treasurer of Local No. 281, mentioned the problems and hazards of taxi, ambulance and other service vehicles in attempting to make a left turn from Harbor Drive across southbound traffic. Cab customers, he mentioned, have complained because the cab meter continues to run while the cab is standing still waiting to get across the street -- from 10 to 15 minutes during peak hours. Most of these people, he stated, have an appreciation for beauty, but the

demands of traffic indicate that a ramp is badly needed. Mr. Richard E. Moore, Professional Drivers Safety Committee, stated that his appearance is solely in the interest of safety, and that his organization favors the proposed Ash Street Overpass.

Several members of the Portland Traffic Safety Commission and other officials of the City of Portland appeared before the Commission in favor of the proposed Ash Street Overpass. The following persons were present: John Deines, Chairman, and Peter DenHamer, member of the Commercial Vehicle Committee of the Portland Traffic Safety Commission and National Association of Police Supervisors; William A. Bowes, Portland City Commissioner, W. J. Weller, Traffic Engineer for Portland; J. R. Pittenger, Portland City Police Department; F. T. Fowler, Highway Coordinator for Portland; L. H. Rosenthal, City Engineer; and Howard Simmons, President of National Association of Fleet Supervisors, Portland Chapter. Mr. DenHamer emphasized the need for the overpass in the interest of safety to the traveling public. It was his opinion that an overpass would greatly reduce the accidents in this area and also relieve the courts of many damage and accident cases. Mr. Rosenthal stated that in his professional opinion he felt that the overpass would be the best and least expensive solution to take care of the traffic problem. It was his feeling that the underpass construction, which would cost four times as much as the overpass, would be more dangerous to traffic than an overpass, and that construction of the overpass would not hurt the pedestrians view of the riverfront. Mr. Fowler read and presented a statement outlining the history of the proposed overpass. He pointed out that for several years there has been considerable agitation for construction of the overpass to relieve the traffic problem on Harbor Drive. A public hearing was held in Portland on January 25, 1961, and only a few minor objections were made. Subsequently, the City Council authorized the signing of an agreement with the State covering this project. At the present time approximately 4,500 vehicles daily make the left-turn movement at the location of the proposed overpass, and within the not distant future when the Baldock Freeway extension is opened to traffic this number will be increased to 7,000. Should this access be closed, he believed there would be an impossible congestion on the Clay Street Ramp. It was his opinion that there is no reason to delay construction as the engineering facts are well known and have been carefully investigated. The City Government, he stated, favors an early start on construction.

A group of people representing the American Institute of Architects, Portland Association of Garden Clubs, Portland Junior Chamber of Commerce, Portland Beautification Committee, Landscape Architects Society, Oregon Technical Council, and Oregon Building Congress came before the Commission to protest the proposed construction of the Ash Street Overpass in Portland. The following persons were present: American Institute of Architects: Mr. Daniel McGoodwin; Mr. & Mrs. Lewis Crutcher; Mr. Howard Glazer; Mr. Neil Farnham; Mr. John Kemp; Mr. Alex Pierce; Mr. Everet B. Franks; and Mr. Burton Goodrich. Portland Association of Garden Clubs: Mrs. Saul S. Dorfman, District Director of Portland, Oregon State Federation of Garden Clubs; Mrs. George Voss; Mrs. Theodore Nicolai; Mrs. Victor Strode; and Mrs. Thomas Greer.

Portland Junior Chamber of Commerce: Mr. Frank Ashton. Portland Beautification Committee: Mr. James Mount. Oregon Society of Landscape Architects: Mr. W. K. Huntington. Oregon Roadside Council: Mrs. Howard Wall and Mrs. James G. Robbins. Portland Art Commission: Mrs. Elinor McMonies. Oregon Building Congress: Mr. Harold Halvorsen.

Mr. Daniel McGoodwin, representing the American Institute of Architects, called attention to the fact that at the request of the City of Portland the Portland Planning Commission made a study and report which resulted in a 9 to 0 vote by the Planning Commission to delay action on the construction of the Ash Street Overpass and for cooperation to work out an interim plan. He presented a petition, which he stated was signed by 445 people, against construction of the ramp. He read aloud and presented a number of letters from businesses in the downtown area in opposition to the ramp. It was his opinion that action should be delayed until consideration can be given to the recommendations of the Portland Planning Commission. Using a map of the City of Portland, he pointed out the probable future traffic pattern and needs. Mr. Crutcher exhibited films of waterfront areas in other cities and also pictures of the Portland river front, pointing out that the only remaining open view of the river is the area where the proposed ramp is to be constructed. The City of San Francisco, he mentioned, had rehabilitated a number of the old buildings on the waterfront and used them for tourist attractions. Portland, he continued, is following the same procedure, and either an overpass or underpass would destroy the use of the area. Mr. McGoodwin stated that the group he is with represents a segment of the public, including businessmen, who are interested in retaining as much beauty as possible along Portland's waterfront for posterity. He discussed the report and read the recommendations of the Portland Planning Commission. It was his opinion that construction of the overpass would destroy the beauty of this section of the river frontage. Completion of the freeway routes in Portland, he said, would do much to alleviate the existing traffic condition on Harbor Drive and provide better access to downtown Portland.

At this point, Mr. Jim Haggin, representing the Teamsters and Chauffeurs Local Union No. 281, stated that the Radio Cab Company, who had been scheduled to appear at 2:15 p.m., had allocated its time to him, and that he would relinquish this time to Chairman McIver to use as he wished. Chairman McIver told Mr. McGoodwin's group to continue.

Mr. Harold Halvorsen, representing the Oregon Building Congress, stated that his group had recommended that construction of the Ash Street Overpass be deferred until further studies could be made. They suggested: (1) the studies should include the Origin and Destination Survey now being made in the Portland area and the Metropolitan Planning Commission Study on Land Use; (2) during interim period use of traffic signals at Ash Street at peak hours; and (3) eventual grade separation between Harbor Drive and Front Street.

Mrs. Saul Dorfman stated that she represented 1,575 members of the Portland Federation of Garden Clubs, and this group felt that the ramp should not be built.

Mr. James Mount, Portland Beautification Committee, observed that an organization of people was formed to encourage those who are interested in retaining the beauty features of the City of Portland. This organization, he stated, urges that no construction be started until the matter has been given further study, and an agreement reached between the Portland Planning Commission and the State. It was his feeling that some other solution could be found to resolve the situation without damaging the water front.

Mr. Frank Ashton, representing the Portland Junior Chamber of Commerce, stated that his group is working actively for civic improvement, including the preservation of cultural and historical value. Construction of the Ash Street Overpass would destroy the value of the Skidmore Fountain Area, and he asked that the Commission consider some other solution and that another public hearing be held.

Mrs. Howard Wall, representing the Oregon Roadside Council, pointed out that the corner under consideration is clogged with traffic during early morning and late evening hours but not during the hours when tourists are usually traveling this section. It was her contention that if the recommendation of the Planning Commission is followed for one-way traffic on Front Street, it would give people 5 or 6 exits into the City. She felt that the Ash Street Overpass is not the best possible solution, and pointed out that, contrary to some claims, there are many of the Portland downtown merchants who do not favor construction of the ramp.

Mrs. Elinor McMonies, representing the Art Commission of Portland, commented that little of Portland's waterfront remains as an attraction to tourists, and that cars as they drive by do not contribute to the City's economy, but purchases are made only when they stop. She expressed some surprise at Commissioner Bowes' attitude, stating that he had previously favored beautification measures.

Chairman McIver advised the group that before the Highway Commission takes any action they would consider carefully the Portland Planning Commission's report.

The Honorable Kenneth Maher, State Representative from Multnomah County, spoke against construction of the Ash Street Overpass. People of the City of Portland, he stated, wish to retain the Skidmore Fountain Area and as much of the harbor area as possible without it being cut up and defaced with concrete structures. He felt that construction of the overpass would make it very difficult for pedestrians to visit naval vessels, and that more concrete highway structures would tend to create a "wino" jungle. He asked that the opinion of the people of Portland who are opposed to this ramp be considered when a decision is reached.

Mr. Eugene Allen, Executive Secretary of Downtown Portland, Inc., appeared before the Commission. He called attention to the acuteness of the traffic problem at Harbor Drive and Oak Street and urged that the Ash Street Overpass be constructed in order to provide safe and easy access to Downtown Portland.

A group representing the Portland Traffic Safety Commission appeared in favor of the Ash Street Overpass. The following persons were present: Mr. William A. Bowes, Commissioner, City of Portland; Mr. W. J. Weller. Portland Traffic Engineer; Mr. J. R. Pittenger, Portland City Police Department; Mr. F. T. Fowler, Highway Coordinator, City of Portland; Mr. L. H. Rosenthal, City Engineer; Mr. Howard Simmons, President, National Association of Fleet Supervisor, Portland Chapter; Mr. John Deines, Chairman, and Mr. Peter DenHamer, member, Commercial Vehicle Committee of the Portland Traffic Safety Commission.

Mr. John Deines, Chairman of the Commercial Vehicle Committee, stated that construction of the overpass will solve the acute traffic problem caused by left-turn movements, and he urged that early action be taken to that end.

Captain J. R. Pittenger, Portland City Police Department, urged early construction of the overpass. He also pointed out that at present the only way for sightseers to get to the waterfront is by using the Bailey Bridge which temporarily has been erected over Harbor Drive.

City Commissioner William A. Bowes read a letter from City of Portland Mayor, Terry Schrunk, stating that the Portland City Council has not changed its position in favor of the Ash Street Overpass. It is impractical to make Front Avenue a one-way street, he stated, because the fire station, which is on this street, must have a two-way facility. He pointed out that when the formal public hearing was held in January, 1961, concerning this matter, only one objection had been made from a property owner. Since that time, however, it was his opinion that there has been more discussion and difficulty over construction of the overpass than there has been over the $22,000,000 City sewer project. He recited the past history of the proposed development of the buildings in waterfront area. Construction of the overpass, he continued, which has been under study for five years, is greatly needed, and the ramp will actually provide a better view of the riverfront than now exists.

Mr. McGoodwin, American Institute of Architects, offered the opinion that a suitable overpass to deliver traffic to downtown Portland could be constructed at Glisan Street near the Steel Bridge. It was his feeling that further study of the matter could provide a better solution than has been offered so far.

Mr. Howard Glazer, American Institute of Architects, stated that the Portland Planning Commission has recommended that neither the Ash Street Overpass nor any overpass be constructed until the Origin and Destination Survey of the Portland area has been completed. It was his feeling that additional time spent in study would provide a more acceptable solution. Concerning development of old buildings along the waterfront, he pointed out that several hundred thousand dollars have already been spent and more expenditures are contemplated in fixing up the old waterfront buildings.

Mr. Francis Murnane, a Portland longshoreman, stated that when the public hearing was held in January, 1961, concerning the Ash Street Overpass most people were not aware of what its construction would do to the waterfront area. Much interest now is being shown by Portland property owners in restoring a number of the old waterfront landmarks. He suggested that the money allocated to the Ash Street Ramp be used instead to construct overpasses or underpasses north of and including the Steel Bridge to allow emergency vehicles to rapidly reach the waterfront. He warned that a bad fire on the waterfront could wipe out the freight terminals because trains constantly block fire trucks on Front Avenue and prevent their movement. The Embarcadero Freeway in San Francisco, he stated, had created much public dissatisfaction because it is not solving the traffic situation there.

Mr. K. H. Siecke, Consulting Engineer, offered the suggestion that the installation of traffic signals might provide an answer to the problem, and he asked that consideration be given to this. He expressed the opinion that the traffic problem on Harbor Drive is of a temporary nature because when the proposed freeways in Portland are completed, traffic on Harbor Drive will be materially reduced.

When no one else indicated a desire to speak, Chairman McIver adjourned the meeting at 3:25 p.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

July 28, 1961

Salem, Oregon
September 15, 1961

The Oregon State Highway Commission met in regular session at 9:00 a.m., Pacific Standard Time, in the Conference Room of the State Highway Building. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
Floyd Query, Secretary

(Commissioner Jackson came in at 10:25 a.m. The plane in which he flew from Medford to Salem was not allowed to land at the Salem airport because of fog. The landing was eventually made at Corvallis and he traveled from Corvallis to Salem by car.)

The Commission approved the minutes of meetings held on June 27 and July 28, 1961.

The Right of Way Engineer presented for consideration options, pages 1 through 79, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

The Property Manager's report covering sales of miscellaneous properties and changes in rental status since the last Commission meeting was presented by the Right of Way Engineer. He mentioned briefly that miscellaneous sales since the last Commission meeting totaled $47,259, and that rental receipts for the month of July amounted to $3,851.85 and $3,088.50 for the month of August. The Commission accepted the report.

A number of "Indentures of Access" were presented for the Commission's consideration. The Right of Way Engineer explained that the indentures provide in most instances for routine changes in access for the

convenience of property owners and for the safety of the traveling public. Upon his favorable recommendation, the Commission approved "Indentures of Access", as follows:

(1) Shepeard property, File No. 26748, on Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

(2) Weber property, File No. 19696, on Tigard-Newberg Section of Pacific Highway West, Washington County.

(3) Breuer property, File No. 31272, on Myrtle Point-Bridge Section of Coos Bay-Roseburg Highway, Coos County.

(4) Metzgus property, File No. 27548 (L-3031), on Myers Creek-Brookings Section of Oregon Coast Highway, Curry County.

(5) Dodson property, File No. 26754, on Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

(6) General Development Company property, File No. 20821, on Blackwell Hill-Seven Oaks Section of Pacific Highway, Jackson County.

(7) Curry County Fair Board of Curry County property, File No. 25505, on Gold Beach-Cape Sebastian Section of Oregon Coast Highway, Curry County.

(8) Rynning property, File No. 18428, on Medford-County Farm Section of Pacific Highway, Jackson County.

(9) U. S. Forest Service property, File No. 26747, on Willowdale-Madras Section of The Dalles-California Highway, Jefferson County. Grant to the U.S. Forest Service three points of access, 25 feet in width, and restricted to production and transportation of forest products and ordinary U.S. Forest Service administrative purposes only. This grant permits service to lands under administration of Forest Service from which access was inadvertently withheld at the time of negotiation.

(10) Wysock (White) property, File No. 21370 (L-2209), on Goble- St. Helens Section of Columbia River Highway, Columbia County.

(11) Bjornstad (Linkey) property, File No. 13886, on Salem-Hayesville School Section of Pacific Highway East, Marion County. Change of location of one point of access, 30 feet in width and unrestricted as to use, and granting of a second point of access of the same specifications.

Direct sale of two parcels of land was recommended by the Right of Way Engineer. Concerning the Schuler property, to be sold to Mr. M. A. Scupien for $75.00, he explained that the valuation was determined by appraisal, and because of the location of the land in relation to other

properties, it could not be sold advantageously by public sale. Sale of the gravel pit to the State Game Commission is for the accommodation of the Game Commission as the property has no further value to the State Highway Department. The Commission approved the following direct sales:

(1) To M. A. Scupien, 0.146 acre of land on Medford-Ashland Section of Pacific Highway, Jackson County. Price $75.

(2) To Oregon State Game Commission, 18 acres of a former gravel pit on Forest Boundary-Haines Section of Haines-Anthony Highway, Union County. Price $1.00. Deed to contain a public use clause.

Public sale of excess parcels of property was recommended by the Right of Way Engineer. He explained that each parcel of property had been cleared through the Engineering Division as to its need for highway purposes. Access provisions are consistent with departmental policies as practiced in the vicinity of each parcel, and the minimum sale price is based on appraised value or on an offer which exceeds appraised value. Based upon his favorable recommendation, the Commission authorized public sale of the following parcels of real properties and thereupon adopted resolutions relative thereto, marked Exhibits "F-1" through "F-8", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961":

(1) 4.15 acres, File No. 27722, on the Salem-Stout Creek Section of the North Santiam Highway, Marion County, for not less than $1,250, and without access to the North Santiam Highway. (See Exhibit "F-1")

(2) 10.6 acres, File No. 5211, on Berger Ranch-Barnes Road Section of Sunset Highway, Washington County, for not less than $14,500, and without access to the Sunset Highway. (See Exhibit "F-2")

(3) 14.35 acres, File Nos. 17499 and 17500-A, on Barbur Boulevard-Marion County Line Section of Pacific Highway, Marion County, for not less than $7,500, such price to include a $300 allowance to cover the cost of moving the fence to the new right of way line. This property is to be sold without access to the Pacific Highway, and with an advertising sign restriction. (See Exhibit "F-3")

(4) 22.26 acres, File No. 18128, on Mosier-The Dalles Section of the Columbia River Highway, Wasco County, for not less than $800, without access to the Columbia River Highway and with an advertising sign restriction. There will be no restrictions imposed on access to the old Columbia River Highway.

(5) 8,750 square feet of land, File No. 22561, on Harbor Drive-West Portland Junction Section of Pacific Highway, Multnomah County, for not less than $5,000, and with an advertising sign restriction. (See Exhibit "F-4")

(6) 25,000 square feet of land, File No. 1003, on Redmond-Bend Section of The Dalles-California Highway, Deschutes County, for not less than $500, and without access restrictions.

(7) 17.41 acres, File No. 25285, on Albany-Judkins Point Section of Pacific Highway, Lane County, for not less than $3,500, without access to the Pacific Highway, with an advertising sign restriction and subject to a 16-foot roadway easement of access along the easterly property line previously granted to R. P. Stolsig. (See Exhibit "F-5")

(8) Two parcels of property, File Nos. 22485 and 21683, on Harbor Drive-Barbur Boulevard Section of Pacific Highway, Multnomah County, one parcel containing 10,000 square feet for not less than $1,000, and the other parcel containing 315 square feet for not less than $100, without access to the Pacific Highway and with an advertising sign restriction. (See Exhibit "F-6")

(9) 16,000 square feet of land, File Nos. 16538 and 16539A, on North Roseburg-Winchester Section of old Pacific Highway, Douglas County, for not less than $7,500, with two points of access to the old Pacific Highway 30 feet in width and unrestricted as to use. (See Exhibit "F-7")

(10) 4.02 acres, File No. 27564, on Umpqua Bend-Canyonville Section of Pacific Highway, Douglas County, for not less than $1,000, without access to the Pacific Highway and with an advertising sign restriction. (See Exhibit "F-8")

Authority to repair a State-owned residence at 3215 N. E. Clackamas Street in Portland (12th Avenue-42nd Avenue Section of Columbia River Highway, Multnomah County) was requested by the Right of Way Engineer. He stated that this land cannot be declared excess until the Laurelhurst Freeway Route has been determined, and the house when renovated can be rented for about $85 a month. Repairs proposed will cost approximately $725. The Commission granted authority to make the repairs as requested.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions relative thereto, marked Exhibits "E-1" through "E-26", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

(For details concerning these properties see the Chief Counsel's "Recommendations for Condemnation", dated September 15, 1961, in the Secretary's Office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers.")

A written report of cases tried in court from July 28 to September 8, 1961 was presented by the Chief Counsel and accepted by the Commission, as follows: (The Chief Counsel stated that the small number of cases tried was due to the fact that the courts have been on vacation.)

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3689 Richard T. Childress, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$3,315	$4,250	$3,850
L-3724 Darlene Tucker, et al	Wallowa	Little Sheep Creek	Sheep Creek Hill-Hayden Creek Section	$2,100	$2,100	$2,100

The Chief Counsel also presented a written summation of condemnation cases which have been tried in court for a period of one year, from July 1, 1960 through June 30, 1961. The Commission accepted the report.

The Chief Counsel pointed out that of the 64 condemnation cases tried, 34 involved trials in which the State's offers to the landowners were $2,500 or less and in which the verdicts ran about 70% over the offers. This report, he commented, had been sent to the U. S. Bureau of Public Roads with a request that they liberalize their interpretation of what constitutes a "substantial increase" in the valuation, particularly on properties of small value. The Bureau, he advised, had given a "no" answer to the request and stated that cases in which the increase does not meet Bureau standards must be tried in court. Chairman McIver inquired if the Chief Counsel had a record of the amount of interest and attorney fees which had been paid during the period covered by the report. The Chief Counsel replied that, as he recalled, approximately $60,000 had been paid during this period for attorney fees and interest. He also explained that it is and has been the customary practice on condemnations of substantial amounts to pay into the court, when possession of the property is taken, the amount of the State's offer for property which payment stops the accruing of interest on that amount; however, the State still will have to pay interest on the difference between the amount paid to the court and the verdict.

A written report was presented by the Chief Counsel on condemnation cases which he recommended be settled out of court. All of the proposed settlements, he stated, are within appraised values or so near thereto as not to comprise substantial increases in values. The Commission approved the following settlements:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-32653 J. Lynn Walters, et ux.	Clackamas	Cascade Secondary	S.E. Flavel Street-Lake Road	$ 900	$ 1,375
R-31350 Mary Jane Lawrence, et vir.	Hood River	Columbia River	Cascade Locks-Viento	$ 60	$ 250
R-29361 Bennie B. King, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$11,325	$13,872.50
R-27727 Pape' Bros. Inc.	Lane	Pacific	Judkins Point-Goshen	$15,000	$15,000
R-30977 Andrew Kelly, et al.	Linn	Santiam	Albany-Pacific Highway Interchange	$ 2,540	$ 3,250
R-30185 Richard M. Peters, et al.	Linn	Santiam	Pine Street-Market Drive	$ 140	$ 300
R-31721 Earl W. Caldwell, et al.	Multnomah	Columbia River	Sauvie Island Bridge-St. Johns Bridge	$ 2,750	$ 3,000
R-29743 Edward E. Jarvi, et al.	Multnomah	Pacific	North Portland Harbor-North Russell Street	$35,750	$38,250
R-29746 Ben W. Marley, et al.	Multnomah	Pacific	North Portland Harbor-North Russell Street	$25,400	$27,750
R-33039 W. Vassar Richardson, et al.	Multnomah	Columbia River	Sauvie Island Bridge-St. Johns Bridge	$ 3,000	$ 3,300
R-29801 Marvin F. Rogers, et al.	Multnomah	Pacific	North Portland Harbor-North Russell Street	$13,500	$14,250
R-32313 Elizabeth B. Westhoff Allen, et al.	Washington	Sunset	Cornelius Pass Road-Multnomah County Line	$ 1,200	$ 1,200

September 15, 1961

REPORT OF CONDEMNATION CASES SETTLED (Continued)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-25283 E. G. McKenzie, et al.	Lane	Pacific	Albany-Judkins Point	$ 5,000	$ 5,350
R-33191 John V. Steidl, et al.	Deschutes	The Dalles-California	Swalley Canal-East Franklin Avenue	$ 400	$ 400
R-29458 International Paper Co.	Douglas	Elkton-Sutherlin	Elkton-Kellogg	$ 140	$ 200
R-31180 Gust R. Ekdahl, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$ 380	$ 380
R-31116 Ruth Calkins, et vir.	Lincoln	South Newport	State Park	$ 75	$ 150
R-32113 H. D. Reeves, et al.	Morrow	Columbia River	Boardman Junction-Umatilla	$ 1,000	$ 1,250
R-31720 Jacob R. Treber, et ux.	Multnomah	Columbia River	Sauvies Island Bridge-St. Johns Bridge	$ 9,000	$ 9,750
R-32474 J. C. Price, et al.	Umatilla	Oregon-Washington	Athena-Blue Mountain Station	$ 300	$ 400
R-29316 H. H. Dietrich, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$14,100	$15,950
R-20082 L. J. Geiger, et al.	Lane	Pacific	Judkins Point-Goshen	$ 2,000	$ 2,100
R-32106 Terteling Land Company	Morrow	Columbia River	Boardman Junction-Umatilla	$ 135	$ 135

September 15, 1961

REPORT OF CONDEMNATION CASES SETTLED (Continued)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-29336 Walter S. Germer, et ux.	Jackson	Pacific	Seven Oaks-Neil Creek	$13,300	$22,000
Subsequent to formal offer and filing complaint, the owner contracted a sale of 10 acres of his remaining land, for $1,000 per acre, to a gravel dealer as a source of supply. The land in the right of way being acquired is the same kind of land. Upon verification of the sale the State's appraisers revised their figure upward and the Appraisal Review Section has approved an appraisal at $25,150 for negotiation purpose.					
R-31153 Edward V. Grimm	Jackson	Pacific	Seven Oaks-Neil Creek	$ 3,535 (including fencing)	$ 3,855
R-33597 Claude M. Noyes, et ux.	Union	Wallowa Lake	Rinehart-Elgin	$ 225	$ 500
Caused by a large slide as result of previous taking and construction of highway.					

(For additional details, see the Chief Counsel's letter, dated September 8, 1961, entitled "Report of Cases Settled", and his letter of September 14, 1961, entitled "Supplemental Report of Cases Settled" in the General Files in Salem.)

Confirmation of telephonic approval given by members of the Highway Commission on offers made to property owners prior to the institution of condemnation proceedings was requested by the Chief Counsel. The Commission confirmed the following offers:

ATHENA-BLUE MOUNTAIN STATION SECTION OF THE OREGON-WASHINGTON HIGHWAY

R-32147 - Athena Pea Growers Association. 2.9 acres for right of way purposes. Offer of $1,565 approved by Mr. Fridley, August 9, 1961.

R-32154 - Harold R. Barnett, et ux. 24.4 acres for right of way purposes. Offer of $15,320 approved by Mr. Fridley, August 8, 1961.

R-32156 - Stella Kershaw, et al. 6.8 acres for right of way purposes. Offer of $6,400 approved by Mr. Fridley, August 3, 1961.

R-32304 - Virginia Key Rosewall, et al. Parcel No. 1: 15.12 acres for right of way purposes; and Parcel No. 2: 0.36 acre for temporary easement. Offer of $8,230 approved by Mr. Fridley, August 15, 1961.

ATHENA-BLUE MOUNTAIN STATION SECTION OF THE OREGON-WASHINGTON HIGHWAY
and OREGON-WASHINGTON HIGHWAY-WESTON SECTION OF THE WESTON-ELGIN HIGHWAY

R-32307 - Lysle Webb, et al. Parcel No. 1: 24.7 acres for right of way purposes; Parcel No. 2: 8.25 acres for right of way purposes; and Parcel No. 3: 0.45 acre for right of way purposes. Offer of $22,380 approved by Mr. Fridley, September 1, 1961.

BIG EDDY-BIGGS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-32432 - Lulu B. Fulton, et al. 15.93 acres for stock pile site and material source. Offer of $400 approved by Mr. Fridley, August 7, 1961.

BIGGS-RUFUS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-33631 - Richard J. Enos, et al. 2,500 square feet for right of way purposes. Offer of $750 approved by Mr. Fridley, August 22, 1961.

BONNEVILLE STATION-PATTERSON AVENUE SECTION OF THE WILLAMINA-SALEM HIGHWAY

R-29512 - Jo Ann Jantze, et al. 13,000 square feet for right of way purposes. Offer of $12,750 approved by Mr. McIver, August 18, 1961.

R-29513 - Marlin D. Karnes, et al. 3,000 square feet for right of way purposes. Offer of $1,450 approved by Mr. McIver, August 16, 1961.

R-29515 - Ralph W. Taylor, et al. 4,900 square feet for right of way purposes. Offer of $2,700 approved by Mr. McIver, July 31, 1961.

R-29516 - Edith C. Rhodes, et vir. 2,300 square feet for right of way purposes. Offer of $1,450 approved by Mr. McIver, July 31, 1961.

R-29517 - Claude M. Henderson, et al. 2,100 square feet for right of way purposes. Offer of $1,500 approved by Mr. McIver, August 30, 1961.

R-29518 - Dean W. Tucker, et al. 2,100 square feet for right of way purposes. Offer of $1,500 approved by Mr. McIver, August 16, 1961.

R-29520 - Allen C. Jones, et al. 1,600 square feet for right of way purposes. Offer of $1,200 approved by Mr. McIver, August 3, 1961.

R-32577 - Fred Gibson, et ux. Parcel No. 1: 1.55 acres for right of way purposes; and Parcel No. 2: 830 square feet for right of way purposes. Offer of $9,275 approved by Mr. McIver, August 7, 1961.

CORNELIUS PASS ROAD-MULTNOMAH COUNTY LINE SECTION OF THE SUNSET HIGHWAY

R-32071 - Carl Eggiman, et al. 0.08 acre for right of way purposes. Offer of $3,450 approved by Mr. McIver, September 11, 1961.

"E" STREET AND "F" STREET CONNECTION SECTION OF THE REDWOOD HIGHWAY

R-32630 - LeRoy McDonald, et ux. Parcel No. 1: 0.02 acre for right of way purposes; and Parcel No. 2: 800 square feet for temporary easement. Offer of $105 approved by Mr. Jackson, September 1, 1961.

R-32632 - William F. Johnson, et al. Parcel No. 1: 1.4 acres for right of way purposes; and Parcel No. 2: 350 square feet for temporary easement. Offer of $5,400 approved by Mr. Jackson, August 16, 1961.

R-32645 - L. B. Johnson, et al. Parcel No. 1: 0.62 acre for right of way purposes; and Parcel No. 2: 0.14 acre for right of way purposes. Offer of $1,980 approved by Mr. Jackson, September 1, 1961.

HILLSBORO-REEDVILLE SECTION OF THE TUALATIN VALLEY HIGHWAY

R-30512 - Jeanie J. Crawford, et al. 850 square feet for right of way purposes. Offer of $305 approved by Mr. McIver, August 15, 1961.

HOBSONVILLE-BAY CITY SECTION OF THE OREGON COAST HIGHWAY

R-33699 - Emma W. Coats, et al. 2.7 acres for right of way purposes. Offer of $800 approved by Mr. McIver July 28, 1961.

MYERS CREEK-BROOKINGS SECTION OF THE OREGON COAST HIGHWAY

R-30262 - Clayton L. Long, et ux. 6.7 acres for right of way purposes. Offer of $8,000 approved by Mr. Jackson, September 12, 1961.

R-30264 - Kenneth Hyatt, et al. 0.85 acre for right of way purposes. Offer of $1,210 approved by Mr. Jackson, September 13, 1961.

MYRTLE POINT-BRIDGE SECTION OF THE COOS BAY-ROSEBURG HIGHWAY

R-32702 - Ada L. Heller, et al. 5.0 acres for right of way purposes. Offer of $5,200 approved by Mr. Jackson, July 31, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29669 - Nora M. Becker, et al. 10,000 square feet for right of way purposes. Offer of $80,000 approved by Mr. McIver, August 7, 1961.

PINE STREET-STEPHENS STREET COUPLET (ROSEBURG) OF THE OAKLAND-SHADY HIGHWAY

R-32482 - Carl W. Christensen, et ux. Parcel No. 1: 3,546 square feet for right of way purposes; and Parcel No. 2: 2,651 square feet for right of way purposes. Offer of $620 approved by Mr. Jackson, July 28, 1961.

ROCK POINT-SEVEN OAKS SECTION OF THE PACIFIC HIGHWAY

R-33608 - Chavner Thompson, et ux. 10.0 acres for right of way purposes. Offer of $3,500 approved by Mr. Jackson, August 10, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31695 - Frank Patella, et al. 2,500 square feet for right of way purposes. Offer of $15,500 approved by Mr. McIver, August 25, 1961.

R-31735 - General Construction Company. 62,800 square feet for right of way purposes. Offer of $27,000 approved by Mr. McIver, August 9, 1961.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-31153 - Edward Victor Grimm, et al. 2.63 acres for right of way purposes. Offer of $3,535 approved by Mr. Jackson, August 30, 1961.

R-31163 - Alvin Athanas, et ux. Parcel No. 1: 12.4 acres for right of way purposes; and Parcel No. 2: 0.32 acre for right of way purposes. Offer of $9,070 approved by Mr. Jackson, August 21, 1961.

R-31169 - Walter H. Jones, et al. 31.0 acres for right of way purposes. Offer of $13,000 approved by Mr. Jackson, September 1, 1961.

R-31173 - J. P. Warren, et al. Parcel No. 1: 7.17 acres for right of way purposes; Parcel No. 2: 0.13 acre for right of way purposes; and Parcel No. 3: 0.09 acre for temporary easement. Offer of $11,050 approved by Mr. Jackson, August 16, 1961.

R-31175 - Theodore Bohnenkamp, et al. Parcel No. 1: 0.67 acre for right of way purposes; and Parcel No. 2: 0.04 acre for right of way purposes. Offer of $1,250 approved by Mr. Jackson, August 15, 1961.

R-31187 - Herbert D. Wyckoff, et al. 0.46 acre for right of way purposes. Offer of $24,500 approved by Mr. Jackson, September 13, 1961.

R-32402 - M. A. Ring, et al. 4.8 acres for right of way purposes. Offer of $5,600 approved by Mr. Jackson, August 7, 1961.

SWALLEY CANAL-EAST FRANKLIN AVENUE SECTION OF THE DALLES-CALIFORNIA HIGHWAY

R-33191 - John V. Steidl, et ux. 0.8 acre for right of way purposes. Offer of $400 approved by Mr. Fridley, August 8, 1961.

R-33193 - Clarence C. Howe, et ux. 17,575 square feet for right of way purposes. Offer of $900 approved by Mr. Fridley, August 7, 1961.

R-33194 - Clarence M. Phelps, et ux. 14,000 square feet for right of way purposes. Offer of $100 approved by Mr. Fridley, August 3, 1961.

SWALLEY CANAL-EAST FRANKLIN AVENUE SECTION OF THE DALLES-CALIFORNIA HIGHWAY: (Continued)

R-33197 - Henslee Mobile Homes Mfg. Inc., et al. 29,700 square feet for right of way purposes. Offer of $225 approved by Mr. Fridley, August 9, 1961.

R-33200 - John M. McCarthy, et ux. 10,500 square feet for right of way purposes. Offer of $150 approved by Mr. Fridley, August 7, 1961.

R-33201 - Gordon W. Tracie, et ux. 500 square feet for permanent easement. Offer of $25 approved by Mr. Fridley, August 10, 1961.

THE DALLES BY-PASS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30543 - Arthur N. Muller, et ux. 0.14 acre for right of way purposes. Offer of $9,250 approved by Mr. Fridley, August 8, 1961.

VIENIO-HOOD RIVER SECTION OF THE COLUMBIA RIVER HIGHWAY

R-16998 - Ralph A. Carter, et al. Acquisition of access. Offer of $25 approved by Mr. McIver, August 30, 1961.

WESTPORT-CLATSKANIE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-32708 - John J. Luoto, et al. 4.0 acres for right of way purposes. Offer of $4,525 approved by Mr. McIver, August 31, 1961.

R-32717 - Harry A. Howe, et ux. 0.01 acre for right of way purposes. Offer of $25 approved by Mr. McIver, August 16, 1961.

R-32723 - Robert Edward Jackson, et al. 2.98 acres for right of way purposes. Offer of $300 approved by Mr. McIver, August 18, 1961.

R-32724 - Merwin A. Blackmore, et al. 9.55 acres for right of way purposes. Offer of $1,800 approved by Mr. McIver, August 18, 1961.

R-32729 - E. G. Campbell, et ux. 0.06 acre for right of way purposes. Offer of $50 approved by Mr. McIver, August 8, 1961.

WILDCAT CREEK-WALTON SECTION OF THE MAPLETON-EUGENE HIGHWAY

R-32542 - Globe Lumber Company, et al. 4.8 acres for right of way purposes. Offer of $480 approved by Mr. Jackson, August 23, 1961.

R-32549 - Sidney Meacham, et al. 2.2 acres for right of way purposes. Offer of $1,935 approved by Mr. Jackson, August 11, 1961.

A report was also presented by the Chief Counsel and accepted by the Commission concerning orders received from the Public Utility Commissioner regarding crossing matters in which the State Highway Commission has been a party. These orders are summarized as follows:

PUX 255: Aumsville Grade Crossing, Southern Pacific Company, North Santiam Secondary Highway, Marion County. PUC 2-B signals equipped with flashing lights and gongs were made necessary by the addition of a ten-foot stopping lane on each side of the crossing. The order allowing the new signals is in accordance with the petition and testimony presented at the hearing.

PUX 411: Second East Cottage Grove Overcrossing, Pacific and Eastern Railway Company, Pacific Highway, Lane County. This matter involves construction of an overcrossing over the right of way of the railroad company. The order was issued in accordance with the petition and testimony presented at the hearing.

PUX 414: Bay City Industrial Spur, Southern Pacific Company, Oregon Coast Highway, Tillamook County. This order involves widening of an existing crossing of the SP tracks and an additional crossing of the relocated Bay City Industrial Spur track. The order is in accordance with the petition and testimony presented at the hearing.

PUX 416: Second Seven Oaks Overcrossing, Southern Pacific Company, near Central Point, Pacific Highway, Jackson County. The order allowing the overcrossing was issued in accordance with the petition and testimony presented at the hearing.

PUX 430: Rogue River Park Crossing, Southern Pacific Company, near Rogue River, Jackson County. This order pertains to a crossing at grade with the railroad tracks for development of park property along the Rogue River. The order was issued in accordance with the petition and testimony presented at the hearing.

PUX 435: "C" Street Bay City Grade Crossing, Southern Pacific Company, Oregon Coast Highway, Tillamook County. The widening of the crossing was made necessary by reason of the relocation of a portion of the Oregon Coast Highway. The order was issued in accordance with the petition and testimony presented at the hearing.

The Chief Counsel stated that Mr. Charles Peterson, Chief of the Trial Section in the Legal and Right of Way Division, resigned September 1, 1961 to go into private practice. He asked the Commission to confirm the appointment of Mr. J. Robert Patterson, who has been working with the Legal and Right of Way Division for several years, as Chief of the Trial Section at a salary of $950 per month. He also recommended that Mr. Robert Holland, who has worked previously as an attorney for the Highway Department but for the last few years has been working as an attorney for the Motor Vehicles Division, be hired to take Mr. Patterson's place at a salary of $845 per month. Mr. Holland, he stated is to start working September 25. The Commission confirmed Mr. Patterson's appointment and approved the employment of Mr. Holland.

The employment of Mr. Charles Peterson as a special assistant in the cases of Cronin versus State Highway Commission, and the City of Portland versus State Highway Commission was recommended by the Chief Counsel. He explained that Mr. Peterson, prior to his leaving State employment September 1, had been very active in assembling material to be used in defending the State in these cases, and his employment would be of great benefit. The Commission approved Mr. Peterson's employment for these two cases.

In discussing the Cronin case the Chief Counsel stated that stakes had been set up so that earth movement in this area could be observed. He also commented that Mr. Cronin had also sued the General Insurance Company for damages to his house but the court had ruled that the cracks in the foundation and such other damage as had been claimed was caused by conditions other than a landslide.

Confirmation of the payment of $210 to Mrs. Cordelia Murphy in connection with her bid for the purchase of a house on the North Portland Harbor-North Russell Street Section of the Pacific Highway in Portland was brought up by the Chief Counsel. He explained that the State's appraisal of the fair market value of the house did not include the new wall-to-wall carpeting, and when the house was sold it was not known to the Property Manager that the wall-to-wall carpeting was not to be included in the sale. Therefore, the house was sold with the carpeting, and as a result it was necessary for Mrs. Murphy to bid in the house at a price of $510. The second bidder, Mr. H. R. Teeple, has provided a written statement that his bid was $500 with the carpet, but without it his highest bid would have been $300. Mrs. Murphy is willing to accept the difference in the amount of $210. The Commission confirmed the payment.

A report of claims to be abandoned was presented by the Chief Counsel. After diligent effort to collect these claims it has been found that further action to collect is not worthwhile because of the small size of the claim or for other reasons, such as out-of-State residence, inability to locate the person causing the damage, lack of proof of liability, bankruptcy or inability to identify who caused the damage. The Commission approved abandonment of the following claims:

CAO No.	Name	Amount of Claim
61-45	Byron Russell	$149.55
59-189	Edgar Stubbs	$ 95.63
60-188	Daniel Nez	$223.23
59-32	Mrs. Clifford Dawson	$221.22
59-275	Janet Mattin	$135.51
60-351	Louis Robinet	$148.41
60-208	James Meade	$773.89
59-140	Billy Joy	$279.59
61-101	Jessie Sulkey	$ 83.70
57-257	Samuel Starmer	$ 72.02
59-249	Buster Cowens	$ 49.96
60-131	Donald Mills	$ 58.59
61-79	Michael Murray	$ 32.83
60-293	Jose Permo	$312.88
61-78	James Combs	$ 40.00

Attention was given to a request made by the Menasha Wooden Ware Corporation, North Bend, to be released from its obligation under agreement of March 10, 1960, to maintain a road connection to the Oregon Coast Highway at Engineer's Station 203+71. The Chief Counsel explained briefly that the road leading to the connection was a private road owned by the Menasha Corporation at the time of the agreement, but it has since been accepted as a county road. Based on his recommendation, the Commission approved release of the Corporation from the obligations covered in the agreement of March 10, 1960.

Upon the favorable recommendation of the Chief Counsel, the Commission approved a "Deed of Dedication" covering 1.98 acres as a public road in the E½ of Section 3, Township 39 South, Range 1 East, W.M., Jackson County, being the Applegate property on the Seven Oaks-Neil Creek Section of the Pacific Highway in Jackson County. He explained briefly that the dedicated public road will allow access to a Mr. Jones' land which will be isolated and landlocked by highway construction, and by such access will considerably reduce the damages to his property.

Attention was given to an agreement with F. H. Louis Blaue covering encroachment of his house on the Lake Road-Oregon City Section of the Cascade Secondary Highway in Clackamas County, File L-3656. Mr. Blaue, the Chief Counsel stated, wishes to purchase the house and maintain it in its present location and has offered to pay the sum of $1,500. The encroachment, he stated, is about three feet upon highway right of way, and as the right of way is not needed for highway purposes immediately, he recommended that the agreement be approved with the condition that if the right of way is needed within five years the State can purchase the property for the same price. The Commission approved the agreement.

A petition by Weyerhaeuser Company for vacation of certain streets in the City of North Bend, Coos County, was presented by the Chief Counsel. The proposed vacation, he stated, has been approved by the Engineering Division, will not be detrimental to the interests of the State, and he recommended that it be approved. The Commission approved the "Consent for Vacation", and adopted a resolution relative thereto, marked Exhibit "I", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Highway Commission Meeting of September 15, 1961."

A proposed settlement of a condemnation case with Egon D. Arend, et al., File L-3780, R-29729, on the North Portland Harbor-North Russell Street Section of the Pacific Highway in Multnomah County was presented by the Chief Counsel. The property involved, he stated, consists of three buildings in which there are twenty-four apartments. Outside appraisals made in 1959 indicated a value between $165,500 and $167,500, with the State's offer being $167,500. Another independent appraisal made in 1961 indicated a value of $178,500. He proposed a settlement in the amount of $187,000 with the furniture and fixtures value to be stipulated and payment

to be made in accord with the decision of the Feves case, which is forthcoming soon.

Concerning the condemnation case with Missouri Villa Inc., et al, which also involves an apartment house owned by Mr. Arend, on the North Portland Harbor-North Russell Street Section of the Pacific Highway in Multnomah County, File L-3781, R-32204, the Chief Counsel stated that independent appraisals made in 1959 indicated a value between $60,000 and $62,900, and an offer had been made in the amount of $62,900. The owners have agreed to accept the sum of $68,000 with the value of the furniture and fixtures to be stipulated and payment to be in accord with the decision of the Feves case. Upon the Chief Counsel's favorable recommendation, the Commission approved both settlements, on the condition that the owners vacate the tenants, give possession of the properties immediately, and allow the State to advertise for the sale of the buildings before possession is granted. The Chief Counsel also pointed out that if these properties can be secured within three months there are good prospects that the buildings can be sold for a salvage value of $15,000 to $25,000.

In the condemnation case of State vs. E. W. Cresap, et al., File L-3790, R-32584, on the Canyon City-Seneca Section of the John Day-Burns Highway in Grant County, the Chief Counsel proposed a settlement of $778.50, with the owner to provide fencing estimated to cost $213.50. An offer had been made in the amount of $550.00 with the State to do the fencing. The Commission approved the settlement in the amount of $778.50 with the owner to furnish the fence.

A 15-minute recess was declared by Chairman McIver at 9:40 a.m.

Consideration was given to an offer made by Harlan D. Ellmaker to deed to the State for park purposes approximately 80 acres located in Lincoln County on the Corvallis-Newport Highway (US 20), about one mile west of Burnt Woods. The Parks Superintendent stated that the highway cuts through the southwest corner of the tract. The land is well located for park purposes and is traversed by a small stream which could be dammed easily to provide fishing for children. He also pointed out that there are no other park facilities on the highway between Corvallis and Newport, and he recommended that the land be accepted for a state park, to be named "Ellmaker State Park". The Commission accepted the gift with thanks to Mr. Ellmaker and thereupon adopted a resolution relative thereto, marked Exhibit "N", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

Authority was requested to call for bids and to award a contract to increase the size of the boat ramp and parking facilities and deepen the channel at Wallowa Lake State Park this fall. The Parks Superintendent explained that money for this work has been recommended in the proposed 1962 Budget for Parks, but to make the improvements to the boat ramp it is necessary to do the work this fall while the water is low; otherwise, it will have to be deferred for a year. The total cost of the project, he

stated, is estimated at $25,000. Upon his favorable recommendation the Commission approved the project as presented.

Attention was given to a request made by Tillamook County Court to prohibit parking of vehicles on a 300-foot section of the beach immediately south of Cape Kiawanda. The Parks Superintendent explained that this particular area is much used by salmon fishermen for launching dory-type boats through the surf to fish in the ocean and as a landing place for these boats. The congestion of parked automobiles and trailers, combined with launching and landing activities of the boats, has created a hazardous condition. He pointed out that the public will not be inconvenienced by a parking restriction because there is a public parking area immediately south of this location, and he recommended that parking be prohibited on this 300-foot beach section. The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "C-5", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

The Commission considered a resolution adopted by the Manzanita City Council on September 6, 1961, requesting that the Manzanita beach be opened to vehicular traffic with a speed limit of not to exceed 15 miles per hour. The Engineer recalled that at the request of the City of Manzanita the Commission, on August 18, 1960, had adopted a resolution prohibiting vehicles on the beach within the city limits of Manzanita. The City, however, has reconsidered and now asks that the restriction be removed and the speed of vehicles be limited. Upon his favorable recommendation, the Commission approved the opening of the beach to vehicles on a year-round basis and restricted to a speed of 15 miles per hour, and thereupon adopted a resolution relative thereto, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

Consideration was given to the purchase of a 50-foot strip of land to be used for a park road along the west boundary of the Maud Williamson State Park in Yamhill County, and the purchase of a rectangular parcel of land to square up the southwestern park boundary. The Parks Superintendent stated that the 50-foot strip is needed to provide a roadway in order to open up a new picnic area, which is needed because of the increased use of the present facilities. The purchase of the rectangular parcel of land will be valuable in development of the park. The total area to be acquired is approximately four acres, which he estimated would cost $300 per acre. The Commission approved the acquisition of the land as presented.

Chairman McIver inquired if there had been any further developments concerning requests for restriction of vehicular traffic on Cannon Beach. The Engineer replied that the 15 mile-per-hour speed zone established by the Commission is working very well, and that when traffic on the beach had been checked recently no violations of the existing regulations had been noted.

The Engineer reported that he had awarded contracts which had been referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he stated, have been taken care of. The Commission confirmed award of the following contracts:

(1) Grading, paving and structures on the Boardman Junction-Irrigon Section of the Old Oregon Trail and Columbia River Highways, Morrow County. Bids received June 27, 1961. Contract No. 5955 awarded August 1, 1961 to R. A. Heintz Construction Company and Rogers Construction, Inc., Portland, low bidder.

(2) Beaver Creek Bridge on Quincy-Mayger Road, Columbia County. Bids received July 27, 1961. Contract No. 5956 awarded August 4, 1961 to C. J. Montag & Sons, Portland, low bidder.

Commissioner Fridley commented that it appears that adequate provision has not been made for access from the Arlington vicinity to the Columbia River Pool, after it is elevated by construction of the John Day Dam. The Deputy Highway Engineer pointed out that access has been provided at Rufus and at Blalock.

The Commission gave attention to an item of unfinished business as shown on the Secretary's Summary of Unfinished Business, dated July 28, 1961, concerning the proposed establishment of a trust fund for acquisition of right of way for highways on the ABC System. The Engineer stated that the investigation, which is underway, has disclosed some complex problems which have not yet been resolved. The Commission ordered the item removed from the list of unfinished business, to be considered as new business when the Engineer's report is presented.

Under authority previously granted by the Commission, the Engineer reported placement of the following temporary construction speed zones for the protection of the traveling public:

(1) 35 MPH on Ukiah-Hilgard Highway, between M.P. 27.17 and M.P. 34.25, in Union County, effective 8:00 a.m., August 4, 1961.

(2) 35 MPH on Applegate River-Grants Pass Section of Redwood Highway, between M.P. 6.75 and M.P. 7.35, in Jackson County, effective 8:00 a.m., August 14, 1961.

(3) 35 MPH on Old Oregon Trail, between M.P. 165.7 and M.P. 168.0, in Morrow County, effective 12 Noon, August 25, 1961.

(4) 35 MPH on Columbia River Highway, between M.P. 174.0 and M.P. 176.0, in Morrow County, effective 12 Noon, August 25, 1961.

(5) 35 MPH on Judkins Point-Goshen Section of Pacific Highway, between M.P. 127.09 and M.P. 130.61, in Lane County, effective 8:00 a.m., September 6, 1961.

The Commission confirmed the construction speed zones.

The Commission confirmed the action of the Engineer in placing signs near each end of the East Diamond Lake Highway and the West Diamond Lake Highway in Klamath, Douglas, and Jackson Counties, limiting axle and tandem axle weights to 18,000 and 32,000 pounds, respectively. This action, the Engineer explained, was taken under authority granted by the Commission in Miscellaneous Resolution No. 94-a, adopted February 27, 1958, and amended by Resolution No. 94-b, adopted June 19, 1958. The action was taken because of relatively weak highway surfaces.

Attention was given to an agreement with the City of Eugene whereby the City agrees to take over at its own expense the maintenance and operation of signals and illumination at the Ferry Street Interchange on the Eugene-Springfield Highway. The Engineer explained that the contract for installing the signals and illumination was awarded when the location was outside the City of Eugene and City cooperation was not involved. The area, however, has since been annexed to the City. The Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

The Commission also considered an agreement with Southern Pacific Company covering a change in the location of traffic signals at the grade crossing of the North Santiam Highway with the Railroad Company's tracks near Aumsville. The Engineer explained that the signals were originally installed for a two-lane crossing. It is now construction policy to provide additional lanes at railroad grade crossings so that vehicles which are required by law to stop may pull out of the traveled roadway to make their stops. Upon his favorable recommendation, the Commission approved the agreement.

Increases in project authorizations on the following state highway contracts were requested by the Engineer and granted by the Commission:

(1) $12,917.66 on Contract No. 5792 for grading and oiling on the Coquille Junction-Rhoda Creek Section of the Powers Highway in Coos County. The increase, he stated, is approximately 6.67 per cent of the original authorization and was caused principally by extensive drainage corrections to take care of large amounts of ground water. Additional base rock was also required.

(2) $23,784.71 on Contract No. 5840 for grading and paving the Irrigon-Umatilla Section of the Columbia River Highway in Morrow and Umatilla Counties. The overrun of approximately 6.58 per cent, the Engineer stated, was caused primarily by additional sprinkling water needed to control the dust; also, a grade change to improve drainage required that extra borrow be made.

(3) $18,322.70 on Contract No. 5807 for grading and paving the Albany-Santiam Interchange Section on the Santiam Highway in Linn County. The overrun of approximately 7.1 per cent, the Engineer stated, was caused principally by soft spots in the subgrade which required subexcavation and backfilling with rock.

The Engineer recommended cancellation of an agreement with Tillamook County, dated May 27, 1958, covering joint use and maintenance of a truck scale located near M.P. 2.17 on the old section of the Wilson River Highway in Tillamook County. He explained that, because of a change in the pattern of truck hauling, use of the scale has declined considerably, and he proposed that the agreement be cancelled, thereby relinquishing to Tillamook County all claim and title to the truck scale building, mechanism and appurtenances, without cost to the County. Necessary documents to effect the cancellation and transfer of title will be prepared by the Legal Division. The Commission accepted the recommendation.

The Commission confirmed telephonic authority previously granted for payment of $5,476.00 to the Highway Research Board Correlation Service for one year's dues from July 1, 1961 to June 30, 1962.

The Engineer presented a tabulation showing a partial allocation of approximately 75 per cent of the 1963 Federal-Aid Secondary Funds to the individual counties of the State. This allocation, he stated, has been computed in accordance with the formula developed by the Association of Oregon Counties, using the 1960 Federal Census and 1961 county road mileages. The remaining 25 per cent of the allocation, he continued, has been withheld by the Federal Government pending a compilation of the postal road mileages. The Commission approved the tabulation as presented and authorized the Secretary to sign the necessary agreements with the counties when they are prepared.

PARTIAL ALLOCATION, FISCAL YEAR 1963 FAS FUNDS TO COUNTIES

County	75% Allocation Federal Funds	August, 1961 75% Allocation Total FAS Funds Including State & County Match Money (Rounded to Thousands)
Baker	$ 27,020	$ 45,000
Benton	33,741	56,000
Clackamas	110,680	184,000
Clatsop	29,440	49,000
Columbia	38,412	64,000
Coos	60,612	101,000
Crook	26,382	44,000
Curry	27,169	45,000
Deschutes	29,984	50,000
Douglas	77,121	129,000
Gilliam	19,063	32,000
Grant	23,342	39,000
Harney	26,857	45,000
Hood River	26,680	44,000
Jackson	59,993	100,000
Jefferson	24,108	40,000
Josephine	34,831	58,000
Klamath	49,136	82,000
Lake	26,246	44,000

(Continued on following page)

PARTIAL ALLOCATION, FISCAL YEAR 1963 FAS FUNDS TO COUNTIES (Cont.)

County	75% Allocation Federal Funds	August, 1961 75% Allocation Total FAS Funds Including State & County Match Money (Rounded to Thousands)
Lane	$ 114,441	$ 191,000
Lincoln	33,800	56,000
Linn	61,557	103,000
Malheur	49,075	82,000
Marion	96,543	161,000
Morrow	25,780	43,000
Multnomah	166,242	277,000
Polk	37,588	63,000
Sherman	18,394	31,000
Tillamook	33,151	55,000
Umatilla	54,490	91,000
Union	26,019	43,000
Wallowa	24,654	41,000
Wasco	28,343	47,000
Washington	92,393	153,000
Wheeler	16,745	28,000
Yamhill	42,902	72,000
	$1,672,934	$2,788,000

SUMMARY, ENTIRE STATE - FISCAL YEAR 1963 COUNTY FAS FUNDS:

Federal Funds (50% of Oregon's Apportionment of $3,396,819)	$1,698,410
Less Planning Survey Funds	25,476
	$1,672,934
Net Total Federal Funds for Construction	$1,672,934
Plus Estimated Required Match Money . . . State Funds)	557,644
. . . County Funds)	557,645
TOTAL COUNTY FAS FUND . . .	$2,788,223

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on total county road mileage) proposed by Association of Oregon Counties and approved by Highway Commission. Federal funds are estimated to represent approximately 60% of total county road FAS fund with state and county funds estimated to be approximately 20% each.

The Commission considered and upon the favorable recommendation of the Engineer, approved county Federal-Aid Secondary projects with Lincoln, Polk, Wallowa, and Yamhill Counties, as follows, and also authorized the Secretary to sign the agreements in behalf of the Commission when they are prepared:

(See following page for tabulation.)

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Funds
Lincoln	585	Depot Slough Bridge. Structure	$ 98,000	1963
Polk	750	McTimmonds Corner-Maple Grove. Grade & Surface, 3.6 miles.	$ 128,000	1963
Wallowa	487 489	Wallowa-Whiskey Creek. Grade, Surface, & Oil, 1.7 miles.	$ 80,000	1963
	468	East Unit, Diamond Prairie Road. Surface & Oil, 1.2 miles.	25,000	1963
		Subtotal, Wallowa County	$ 105,000	
Yamhill	753	Lambert Slough Bridge. Structure & Grading	$ 87,000	1963
		TOTAL	$ 418,000	

SUMMARY BY FISCAL YEARS	1963 Estimated	Total
Allocated Funds	$3,692,000	$3,692,000
Previously Approved	--	--
Unprogrammed Balance	$3,692,000	$3,692,000
Projects Proposed 9/15/61	418,000	418,000
Unprogrammed Balance	$3,274,000	$3,274,000

Agreements covering Federal-Aid Secondary construction projects in Wasco, Klamath, Lane, Malheur, Columbia, Lincoln, and Lake Counties were considered by the Commission. The Engineer explained that authorizations covering these projects had been approved by the Commission previously. The Commission approved the agreements and authorized the Secretary to sign them in behalf of the Commission.

(1) With Wasco County covering the North Unit, Wapinitia-Forest Boundary Section of FAS 712.

(2) With Klamath County covering the Shasta Way-South Sixth Street Section of FAS 415.

(3) With Lane County covering the Marcola-Drury Creek Section of FAS 228.

(4) With Malheur County covering the North Unit, Westfall-Harper Section of FAS 525.

(Continued on following page.)

(5) With Columbia County covering the South Fork Scappoose Creek Bridge on FAS 817.

(6) With Lincoln County covering the Siletz River Bridge on FAS 832.

(7) With Lake County covering the Dry Creek Bridge on FAS 407.

The Engineer presented for the Commission's consideration surveys for relocation or reconstruction of several sections of state highways. He explained briefly that careful engineering consideration has been given to provide the most adequate facility for the traveling public commensurate with the cost involved. He also mentioned that public hearings have been held concerning some of the surveys when such hearings were required by either Federal or State law. The Commission approved the following surveys and thereupon adopted resolutions relative thereto, marked Exhibits "J-1" through "J-7", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961":

(1) Grand Avenue Overcrossing of SP Railroad and Division Street, Grand Avenue Section of Pacific Highway East, Multnomah County. (See Exhibit "J-7")

(2) Butler Canyon-White River Section of The Dalles-California Highway, Wasco County. (See Exhibit "J-4")

(3) Yoncalla-Rice Hill Section of Pacific Highway, Douglas County. (See Exhibit "J-6")

(4) Bellows Street-Madrone Street (Roseburg) Section of FAS Route 241, Douglas County. (See Exhibit "J-5")

(5) Amend "Survey Resolution No. 1a", adopted July 28, 1961, so as to declare as a throughway the Pelican City-South Sixth Street Section of Klamath Falls-Malin Highway, Klamath County. (See Exhibit "J-1")

(6) Amend "Survey Resolution No. 238", adopted July 28, 1961, so as to declare as a throughway the Polk Station-Dallas Section of the Kings Valley Highway, Polk County. (See Exhibit "J-2")

In connection with the survey for the Butler Canyon-White River Section of The Dalles-California Highway the Engineer recommended, and the Commission approved, transfer of $230,000 from the North Unit, Lyle Gap-Madras Section to the Butler Canyon-White River Section. In discussing the Yoncalla-Rice Hill Section of the Pacific Highway the Engineer recalled that at the hearing held June 1, 1961 two diamond-type interchanges, approximately 300 feet apart, were discussed. It appeared that the northerly interchange was preferred but some spoke in favor of utilizing the existing underpass. Either plan could be used, but as the northerly interchange appears to offer the best service over a period of years he recommended that it be constructed. The Commission approved his recommendation.

Consideration was given to the Engineer's report on proposed work on the Alsea-Deadwood Secondary Highway in Benton County. The Engineer stated that he had made an inspection of the road, which is a stub of about ten miles, and found that the highway is not adequate for the daily traffic of approximately 300 vehicles, with a high percentage of log and lumber trucks. To make a full-scale improvement he estimated would cost approximately $150,000. It was his opinion that the road could be improved materially with some widening work to be performed by State forces, the placing of a four-inch crushed rock cushion course, and placing a binder and oil mat, the work to be performed in 1962. He recommended that the work be performed as outlined, at a cost of approximately $55,000. The Commission approved the project.

The Commission discussed with the Engineer a letter from the City of Burns regarding a proposed alternate location of the Central Oregon Highway in the westerly part of Burns. The Engineer recalled that this matter had come up previously and the people of Burns had not been able to decide conclusively as to whether a new route should be constructed or the old one continued in use. There appears to be no justifiable reason for changing the location, and he recommended that the highway remain in its present location. The Commission accepted his recommendation.

The Commission also considered a letter from S. Eugene Allen, Executive Secretary, Downtown Portland Inc., requesting that the Oak Street left-turn ramp in the City of Portland be allowed to remain open for a period of at least six months. The Engineer stated that the letter submitted by Mr. Allen had urged this delay to allow the Portland City Planning Commission time in which to find an alternate solution. In discussing this matter, the Commission indicated that no action would be taken by the Highway Commission until such time as a request is received from the City of Portland.

Attention was given to a form of agreement with the City of Portland rescinding an agreement dated May 26, 1961 between the City of Portland and the State Highway Commission, pertaining to construction of the Ash Street off-ramp from Harbor Drive. The Engineer recalled that considerable opposition had been raised against the Ash Street off-ramp, and the proposed agreement provides for cancelation of the project. The Commission approved the agreement.

A request was considered from the U. S. Bureau of Public Roads that the State crush 25,000 cubic yards of material for use on a Bureau of Land Management project near the Marcola-Drury Creek county project in Lane County. The Engineer explained briefly that under the terms of the agreement the Bureau of Public Roads is to reimburse the State for the cost of producing this material, bids for which were received on September 13, 1961. Upon his favorable recommendation the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

The Commission discussed with the Engineer a proposed Lease Agreement with the U.S. Corps of Engineers covering the lease of 15.39 acres to the State on which to relocate The Dalles Maintenance Headquarters. The proposed lease, the Engineer stated, is to run for a 50-year period at $500 per year rental. He also requested authority to construct a new maintenance headquarters building on the site at an estimated cost of $50,000 and an office building estimated to cost $90,000. Commissioner Fridley stated that it was his understanding that the Corps of Engineers had donated to Wasco County a similar tract of land to the east of this property and at one time the County held the land without the payment of any rental. Chairman McIver inquired as to how the Corps of Engineers arrived at the rental figure of $500 per year. After some further discussion, the Commission deferred action on the matter pending an explanation as to the determination of the rental rate in view of the purported donation of land to Wasco County.

The Engineer presented for the Commission's consideration requests from contractors for increases in number of workdays within which to complete construction of contracts. These requests, he stated, have been given careful consideration, and his recommendations have been made in compliance with the terms of each contract. The Commission took action on the requests, as follows:

(1) Acme Construction Co., Contract No. 5850, for paving and rock production on the Vesper-Mist and Columbia County Line-Pebble Creek Road in Columbia and Washington Counties, requested an increase from 65 to 78 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved an extension of 5 days without assessment of liquidated damages.

(2) Roy L. Houck Sons' Corp., Contract No. 5627, for grading and structures on the Evans Creek-Homestead Section of the Pacific Highway in Jackson County, requested an increase from 195 days to 200 days within which to complete the contract without assessment of liquidated damages. The Commission denied the request.

(3) R. E. Hall Construction Co., Contract No. 5894, for grading and oiling the Bally Mountain Road-Meadow Creek Section of the Ukiah-Hilgard Highway in Union County, requested an increase from 85 days to 115 days within which to complete the contract without assessment of liquidated damages. The Commission denied the request.

The Engineer reported that Contract Nos. 5564, 5615, 5634, 5639, 5670, 5735, 5740, 5747, 5759, 5782, 5803, 5830, 5841, 5847, 5848, 5853, 5855, 5875, 5876, 5880, 5883, 5892, 5900, 5907, 5919, 5923, 5925, 5931, 5932, and 5933 for highway construction had been completed in accordance with the requirements of the contracts or modifications thereof, and said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution

relative thereto, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

The Commission gave attention to a request from the City of Springfield for an easement to construct a 15-inch sanitary sewer line across a Highway Department stockpile site on 54th Street in Springfield. The Engineer stated that the site is along the McKenzie Highway, and the request will not be detrimental to the State. Based upon his favorable recommendation the Commission approved the easement as requested.

The Engineer presented to the Commission several proposed reduced speed zones on sections of State highways. He explained that these had all been carefully investigated by the Traffic Engineering Division to provide for the safety of the traveling public, to take care of changes in traffic conditions, and to be compatible with speed zoning established by the State Speed Control Board within cities. The Commission approved the following speed zones by adopting resolutions relative thereto, marked Exhibits "B-1" through "B-6", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961":

(1) "Speed Zone Resolution No. 354" rescinding "Speed Zone Resolution No. 288" and re-establishing certain speed zones on the Olds Ferry-Ontario Highway No. 455 north and west of the City of Ontario, Malheur County. (See Exhibit "B-1")

(2) "Speed Zone Resolution No. 355" rescinding "Speed Zone Resolutions Nos. 50, 78, and 266" and re-establishing certain speed zones on the Sunset Highway No. 47 between the junction of the Oregon Coast Highway and the southwest city limits of Portland, Tillamook, Clatsop, Washington, Columbia, and Multnomah Counties. Primarily this resolution designates a 60 mile-per-hour speed limit on the Sunset Highway. (See Exhibit "B-2")

(3) "Speed Zone Resolution No. 356" rescinding "Speed Zone Resolution No. 257" and establishing a 35-mile-per-hour speed zone on the Cascade Highway No. 160 in the community of Mulino, Clackamas County. (See Exhibit "B-3")

(4) "Speed Zone Resolution No. 357" establishing a 45 mile-per-hour speed zone on the Corvallis-Lebanon Highway No. 210 immediately west of the west city limits of Lebanon, in Linn County. (See Exhibit "B-4")

(5) "Speed Zone Resolution No. 358" establishing a 35 mile-per-hour speed zone on the Green Springs Highway No. 21 in the community of Keno, Klamath County, including a 20 mile-per-hour school crossing exception. (See Exhibit "B-5")

(Continued on following page)

(6) "Speed Zone Resolution No. 359" rescinding "Speed Zone Resolution No. 154" and re-establishing a 35 mile-per-hour speed zone and a 45 mile-per-hour speed zone on Oregon Caves Highway No. 38 east of Cave Junction, Josephine County. (See Exhibit "B-6")

Attention was given to a request made by the Attorney for the Confederated Tribes of the Warm Springs Reservation of Oregon for parking regulations on the Warm Springs Highway near the Warm Springs Reservation, just north of the Deschutes River Bridge, in Jefferson County. The Engineer reported that a traffic engineering investigation disclosed considerable parking of vehicles on the shoulders which severely restricts sight distance for drivers moving out of the parking area from the service station and cafe located on the westerly side of the highway. Upon his favorable recommendation, the Commission prohibited shoulder parking on both sides of the Warm Springs Highway No. 53 between M.P. 105.07 and M.P. 105.20 at the northern end of the Deschutes River Bridge, and thereupon adopted a resolution relative thereto, marked Exhibit "C-2", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

The Commission considered a report made by the Engineer concerning parking of vehicles on the shoulders of the Santiam Highway near Lost Lake in Linn County. He pointed out that because of the narrow shoulder width, vehicles cannot park on the shoulders without encroaching on the traveled roadway, thereby creating a hazard to the traveling public. He recommended that shoulder parking be prohibited on the southerly side of the Santiam Highway No. 16 between M.P. 76.30 and M.P. 76.89 and on the northerly side of the highway between M.P. 76.41 and M.P. 76.89. He also recommended that parallel parking only be permitted on the northerly side of the highway between M.P. 76.30 and M.P. 76.41. The Commission approved his recommendations, and thereupon adopted resolutions relative thereto, marked Exhibits "C-3" and "C-4", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Highway Commission Meeting of September 15, 1961".

The Engineer recommended the prohibition of shoulder parking by vehicles on both sides of the Oakland-Shady Highway No. 234 between a point 400 feet south of Davis Creek and a point 0.33 mile south of Davis Creek, north of Roseburg, Douglas County. He explained briefly that a "Go Kart" race track is located in this area and a number of people have been parking along the highway shoulders, thereby creating a hazard to the traveling public. The Commission approved the recommendation by adopting a resolution relative thereto, marked Exhibit "C-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

Out-of-State travel expenses were recommended by the Engineer and approved by the Commission, as follows:

(1) Roy C. Edgerton, Research Engineer, to attend meeting of Surface Drainage Committee of the Highway Research Board at Fort Collins, Colorado, on November 16 and 17, 1961 at an estimated cost of $180.

(2) Confirmed attendance of W. C. Williams, State Highway Engineer, at the AASHO Test Road Advisory Committee Meeting in Chicago, Illinois, on September 11 and 12, 1961, at an estimated cost of $265.

(3) Mark Astrup, State Parks Superintendent, to attend 41st Annual Meeting of the National Conference on State Parks at Lake Texoma, Oklahoma, on September 24-29, 1961 at an estimated cost of $380.

The Engineer reported that a request had been received from the U. S. Forest Service for a permit to install a sign on the easterly side of the Lake of the Woods Highway, between Lake Creek and the Jackson-Klamath County line, at M.P. 27.05. This sign, he explained, is one which indicates the degree of danger from forest fires, and because of the dry weather they had been allowed to install the sign. He requested that his action be confirmed and that the Secretary be authorized to sign the permit in behalf of the Commission. The Commission approved his request.

Consideration was given to a request from Columbia County for permission to install three "Building Permits Required" signs at the entrances to Columbia County on the (1) Columbia River Highway at M.P. 18.39, which is the Multnomah-Columbia County line, (2) Nehalem Highway at M.P. 37.73, which is the Clatsop-Columbia County line, and (3) Nehalem Highway at M.P. 67.72, which is the Washington-Columbia County line. The Engineer stated that the sign messages and locations have been approved, and he recommended that permission be granted to install the signs on highway right of way and that the Secretary be authorized to sign the permits in behalf of the Commission. The Commission approved the recommendation.

A request was considered from the Commanding Officer of the Umatilla Ordnance Depot, near Hermiston, for permission to install a sign on the northerly side of the Old Oregon Trail Highway, at M.P. 177.31 in Umatilla County. This sign, the Engineer stated, is to indicate the location of the Umatilla Ordnance Depot. The sign message and location have been approved, and he recommended that permission be granted to erect the sign and that the Secretary be authorized to sign the permit. The Commission accepted the recommendation.

Consideration was given to an agreement with the Oregon Trunk Railway covering the Third Street Overcrossing of The Dalles-California Highway, north of Bend, in Deschutes County. The Engineer explained briefly that the agreement is necessary in connection with reconstruction of the Highway in that vicinity. The Commission approved the agreement.

A resolution was presented by the Engineer incorporating certain changes in "Loads and Hauling Resolution No. 24f", adopted July 28, 1961, and authorizing the operation of certain overlength, overweight and overheight combinations of vehicles on designated highways. The Engineer also presented a resolution amending "Loads and Hauling Resolution No. 25b", adopted July 28, 1961, which authorizes the issuance of various forms of transportation permits. He explained briefly that the revision in Resolution No. 24f is to incorporate changes in the coverage provided, and amendments to Resolution No. 25b provide a minor change in the coverage of

certain permit forms to comply with laws passed by the 1961 Legislature. Upon his favorable recommendation the Commission adopted resolutions relative thereto, marked Exhibits "G-1" and "G-2", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

The Commission confirmed approval of a revised agreement with the U. S. Army Corps of Engineers covering viewpoints along the Columbia River Highway (US 730) within the McNary Lock and Dam Project in Umatilla County.

The Commission considered agreements with Lake and Harney Counties covering the Adel-Nevada State Line Road, known as a part of the Winnemucca-to-the-Sea Route. The Engineer recalled that verbal and letter agreements had been reached with the Counties previously and discussed with the Commission. These agreements have now been resolved to formal written form. Briefly, the agreement with Lake County provides that the County take over as a county road that section of the Warner Secondary Highway from Adel northerly to Plush, and that the State will place upon the State Highway System the Adel-Nevada State Line Section, which will become a part of the Warner State Secondary Highway, No. 431. The agreement with Harney County simply states that the County approves extension of the Warner Secondary Highway through the southwestern corner of Harney County and relinquishes all County claim to the right of way occupied by the Highway. He also explained that all provisions of the agreements have been met, except that portion pertaining to transfer of right of way from the County to the State, some sections of which have not been cleared. He recommended that the Commission approve the agreements contingent upon receipt of evidence that all necessary right of way has been properly transferred to the State. The Commission approved the agreements on that basis, and thereupon adopted a resolution formally effecting the transfer of the highways, marked Exhibit "M", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

Consideration was given by the Commission to throughway agreements covering sections of three State highways on which construction projects are to be undertaken. The Engineer explained briefly that the throughway agreements are necessary to take care of city and county road closures and connections in performance of the construction work. Upon his favorable recommendation the Commission approved the following throughway agreements and authorized the Secretary to sign them in behalf of the Commission:

(1) With Umatilla County covering Athena-Blue Mountain Station Section of Oregon-Washington Highway, Umatilla County.

(2) With City of Bend covering Swalley Canal-East Revere Avenue Section of The Dalles-California Highway, Deschutes County.

(3) With Klamath County covering Shasta Way-South Sixth Street Section of Klamath Falls-Malin Highway, Klamath County.

An agreement with the Deschutes Reclamation and Irrigation Company concerning highway construction on the Revere Street-Swalley Canal Section of The Dalles-California Highway in and north of Bend, in Deschutes County, was considered. This agreement, the Engineer stated, is needed because of highway construction which crosses the Canal. He recommended that the agreement be approved and that the Secretary be authorized to sign it in behalf of the Commission. The Commission accepted his recommendation.

The Commission also considered an agreement with Central Oregon Irrigation District concerning highway construction on the Swalley Canal-Revere Street Section of The Dalles-California Highway in and north of Bend, in Deschutes County. This agreement, the Engineer stated, is needed because the highway construction requires a crossing of the North Unit Main Canal and Ditch Rider Road of the Irrigation District. Upon his favorable recommendation the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

Attention was given to an agreement with the Magruder Drainage District involving highway construction between Woodson and Clatskanie on the Columbia River Highway, in Columbia County. As the highway under construction crosses property within boundaries of the Drainage District, it is necessary that the agreement be executed, the Engineer stated. The Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

An agreement with Southern Pacific Company on the New Era-Canby Section of the Pacific Highway East, in Clackamas County, was discussed. The Engineer pointed out that in construction of the New Era-Canby Section it is necessary to connect some of the highway drainage to a culvert under the Railroad Company's tracks, which this agreement covers. Upon his favorable recommendation the Commission approved the agreement.

A resolution was presented by the Engineer renaming the old route of the North Santiam Secondary Highway, in Marion County, from the junction with Silver Falls Highway, at M.P. 8.81 west of Shaw, easterly through Aumsville, Sublimity, Stayton to a junction with the North Santiam Highway near the old fish hatchery west of Mehama, as the Aumsville-Mehama Highway No. 165. The newly constructed section of the North Santiam Highway, from the Salem By-pass easterly to the Gun Club, has been completed and opened to public travel, thus completing the construction on the westerly end of the North Santiam Highway. The Commission approved the designation of the Aumsville-Mehama Highway by adopting a resolution relative thereto, marked Exhibit "K", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

The Engineer reported that highway construction had been completed on several sections of State highways, and that these new sections are now open to public travel. To fulfill terms of agreements previously entered into with the various counties, he recommended that the Commission adopt resolutions formally abandoning the sections of old highways which have been replaced by the newly constructed sections. The Commission approved the

recommendation and thereupon adopted resolutions relative thereto, marked Exhibits "H-1" through "H-3", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961", as follows:

(1) Old route of the North Unit, Lyle Gap-Madras Section of The Dalles-California Highway in Jefferson County, to be abandoned to Jefferson County. (See Exhibit "H-1")

(2) Old route of the Perry-Oro Dell Section of the Old Oregon Trail Highway in Union County, which is to be removed from the highway system but retained by the Highway Commission for public purposes. (See Exhibit "H-2")

(3) Certain portions of the North Fork, Siuslaw River Section of the Siuslaw Highway in Lane County, to be abandoned to Lane County. (See Exhibit "H-3")

Consideration was given to a supplemental agreement with the City of Roseburg, in Douglas County, covering construction on the Douglas Avenue-South City Limits Section of the Oakland-Shady Highway in Roseburg. The Engineer explained that the original agreement provides for one-way couplet construction over sections of Stephens Street, Pine Street, and certain connecting links. The supplemental agreement provides that the City shall install no parking and parallel parking zones in certain areas and move, at its own expense, the west curb line on Pine Street for a distance of 150 feet southerly from the south curb line of Mosher Street. Following his favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it on behalf of the Commission.

Railroad agreements required in highway construction were presented by the Engineer. The Commission approved the following agreements:

(1) Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, concerning the second Hood River Overcrossing of the UP Railroad on the Columbia River Highway, Hood River County.

(2) Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, concerning the Haines Grade Crossing on the Haines-Anthony Secondary Highway, Baker County.

(3) Southern Pacific Company concerning the West Salem Overcrossing of the Willamina-Salem Highway, immediately west of West Salem, Polk County.

(4) Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, concerning the construction on the Willamette River-42nd Avenue Section of the Columbia River Highway (T. H. Banfield Expressway), Multnomah County.

The Commission considered a petition from residents and business people in the north Eugene area in Lane County requesting that signs designating the route of US99 be erected to indicate the old highway through Eugene and Harrisburg. The Engineer pointed out that agitation has been underway on this matter for more than a year, and it has been studied carefully. It was his opinion that to approve the request would be a disservice to the traveling public, in that some might be misguided into using the old highway. The Commission approved his recommendation that the request be denied.

The Commission also considered a petition from residents of Malheur County and others requesting that the designating and signing of US30 be restored to the old route of the Old Oregon Trail Highway, from Olds Ferry Interchange to Ontario. The Engineer commented that the purpose of highway signing is to direct the traveling public, and to do as requested would be a disservice to the traveling public, some of whom might be misguiced over the old route. Upon his adverse recommendation, the Commission denied the petition.

Attention was given to a letter, written by Mr. Ronald L. Schippers to Governor Mark O. Hatfield which was referred by Governor Hatfield to the Highway Department, requesting that action be taken to reduce traffic hazards at the intersection of the Northeast Portland Highway with Fairview Avenue in Portland. The Engineer stated that a traffic engineering investigation had been made which disclosed that changes should be made in the placement of stop signs at this intersection. It was his recommendation that all traffic entering the intersection be required to stop, with the exception of traffic moving from west to south. The Commission approved his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "L", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

The Engineer reported that the 1961 State Legislature had authorized use of the "Yield Right of Way" sign. As the use of all signs and other highway markers must be approved by the State Highway Commission, he recommended that the Commission approve this particular sign so that it could be placed in the "Oregon Manual on Uniform Traffic Control Devices". The Commission approved the sign.

The filling of a vacancy on the Travel Information Division Advisory Committee was discussed. The Engineer recalled that consideration had been given previously to the appointment of William Manion of Seaside, but no official action had been taken. Mr. Manion, he stated, is well acquainted with the work of the Travel Information Division and has had many years' experience in the Oregon Coast Association, the Seaside Chamber of Commerce, and other travel promotion organizations. The Commission appointed Mr. Manion as a member of the Travel Information Division Advisory Committee.

An agreement with Douglas County was presented by the Engineer granting County use of State-owned property to increase the size of the County picnic area on the Oakland-Shady Secondary Highway at M.P. 12.17. He explained briefly that the County has been using a parcel of land in this area for several years and has now requested the use of additional land to increase the size of the picnic area, to permit the construction of a launching ramp for small boats, and to allow an access road to the picnic area. Proposed use of the land as outlined in the agreement will not be detrimental to the State, and he recommended that the agreement be approved. The Commission approved the agreement and authorized the Secretary to sign it on behalf of the Commission.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period July 24 through September 8, 1961.

The Commission confirmed the next meeting date for October 20, 1961, in the Conference Room of the State Highway Building in Salem. A tentative date for the following meeting was set for December 8, 1961.

A Joint Use Agreement with the City of Medford and the U. S. Forest Service was presented by the Engineer. This agreement, he stated, allows the Forest Service to install and operate radio facilities in a building constructed under an agreement between the City of Medford and the State of Oregon on Roxy Anne Butte in Jackson County. The agreement will not be detrimental to the interests of the State, and he recommended that it be approved. The Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

Attention was given to a form of Indenture Easement in which Southern Pacific Company grants to the State certain slope and drainage encroachments on Railroad property on the Judkins Point-Goshen Section of the Pacific Highway in Lane County. The Engineer stated that the Indenture Easement form is necessary in highway construction in that area. The Commission approved the Indenture and authorized the Secretary to sign it in behalf of the Commission.

Consideration was also given to a form of agreement with the Gold Hill Irrigation District concerning crossing of drainage facilities by highway construction on the Rock Point-Seven Oaks Section of the Pacific Highway in Jackson County. Upon favorable recommendation by the Engineer the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

An agreement with the U. S. Bureau of Reclamation and the North Unit Irrigation District concerning the crossing of the North Unit Main Line Canal was discussed. The Engineer explained that in construction of the Swalley Canal-East Revere Avenue Section of The Dalles-California Highway in and north of Bend, it is necessary to cross the Main Line Canal, and the agreement provides for such crossing. Based on his favorable recommendation, the Commission approved the agreement.

The Commission at this time discussed the possible acquisition for park purposes of a material source located along the Rogue River, a few miles east from Grants Pass. The Engineer recalled that at the Highway Commission meeting on July 28, 1961 the Commission had requested that an investigation be made concerning the feasibility of acquiring this piece of property, currently being used by Peter Kiewit Sons' Company, contractor. Investigation disclosed that the property is not owned by Peter Kiewit Sons' Company, but is under lease from Romie Ullian on a royalty basis. It appears that a considerable amount of usable material will be available on the site after the contractor completes his current project, and the Engineer was doubtful that the property could be acquired at a reasonable price.

The sale of bonds authorized by the 1961 Legislature was brought up by the Engineer. An agreement has been prepared covering construction of the Columbia River Bridge at Astoria, and he recommended that it be signed by the Highway Commission and that authority be granted to the Chief Counsel to arrange for the sale of bonds for the Astoria Bridge and the other two Highway bond issues as authorized by the 1961 Leglislature. The Chief Counsel pointed out that in order to prepare a resolution to authorize sale of bonds it is necessary to know the date of the bonds, when they are to be sold, and certain other details. He suggested that the Commission grant him authority to prepare the resolution to be acted on by the Commission at a later date, probably at the October meeting. In discussing the information to be placed in the resolution, Chairman McIver instructed that contact be made with representatives of some of the large banks, with the Auditor for the State Highway Department, with the State Treasurer's Office and with a responsible bond attorney. The Commission approved and signed the agreement with the State of Washington concerning the Columbia River Bridge at Astoria and authorized the Chief Counsel to prepare a resolution covering the sale of Highway bonds.

The Engineer stated that in order to protect the traveling public he had ordered the establishment of construction speed zones on the following sections of State highways:

(1) 35 MPH on the Cornell Road-Barnes Road Section of the Sunset Highway, between M.P. 65.42 and M.P. 68.62, in Washington County, effective 8:00 a.m., September 14, 1961.

(2) 25 MPH on the King Creek Bridge Project on the Coos Bay-Roseburg Highway, in Douglas County, between M.P. 29.3 and M.P. 32.5, effective 8:00 a.m., September 13, 1961.

The Commission confirmed the Engineer's action.

The Engineer recalled that the Commission on May 26, 1961 had adopted a resolution covering the survey of the Fikes Corner-Hood River Section of the Mt. Hood Highway, in Hood River County. He requested that the Survey Resolution be amended to designate the highway as a throughway. The Commission approved his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "J-3", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of September 15, 1961".

An agreement with Union Pacific Railroad was presented by the Engineer concerning construction of the interchange between the Banfield Expressway Section of the Columbia River Highway and the Pacific Highway in the City of Portland. Upon his favorable recommendation the Commission approved the agreement.

The Commission discussed with the Engineer bids for highway construction which were opened on September 13. The Engineer pointed out the low bid on each project, the amount of the estimated cost of the project, and made recommendations concerning award. At 11:00 a.m. the Commission awarded contracts as follows and authorized the Secretary to sign the contracts in behalf of the Commission:

BIDS RECEIVED IN SALEM ON SEPTEMBER 13, 1961

"Pine Creek Bridge on County Road, approximately 2 miles southeasterly of Halfway, Baker County. The Commission referred all bids to Baker County for award.

"Richland Sand Shed in Baker County. The Commission awarded the contract to the low bidder, Lloyd C. Spikes Construction and Weber English, Elgin, at $12,083.57.

"Necanicum River (First Ave.) Bridge in Seaside, Clatsop County. The Commission referred all bids to the City of Seaside for award.

"Stone base, oiling and signing on the Powers Junction-Sugarloaf Mountain Section of the Coos Bay-Roseburg Highway, Coos County. The Commission rejected the one bid received as being too high.

"Grading and paving on 16th Street-Lewis Street (North Bend) Section of the Cape Arago Highway, Coos County. The Commission elected to accept the low bid of Bay Pavers, Inc., North Bend, in the sum of $63,226.10 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of North Bend is received and the sum of $18,300.00 is deposited by the City.

"Grading and paving on the Woodson-Clatskanie Section of the Columbia River Highway, Columbia County. The Commission rejected all bids as being too high.

"South Fork, Scappoose Creek Bridge on Watts Road, Columbia County. The Commission elected to accept the low bid of George E. Berry, Beaverton, in the sum of $15,282.50 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Columbia County is received and the sum of $3,500.00 is deposited by the County.

"Ochoco Lake State Park Latrine on Ochoco Highway, Crook County. The Commission awarded the contract to the low bidder, Harley E. Lowe, Ashland, at $9,151.50.

"Grading, paving, structures and signing on the Swalley Canal-East Revere Ave. (Bend) Section in Deschutes County. The Commission awarded the contract to the low bidder, R. L. Coats, Bend, at $292,038.80.

"Koberg Beach Wayside Park Facilities on Columbia River Highway, Hood River County. The Commission awarded the contract to the low bidder, Interstate Paving Co., The Dalles, at $34,075.00.

"Grading, paving and signing on the Rock Point-Seven Oaks Section of the Pacific Highway, Jackson County. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Co., Vancouver, Wn., at $1,152,715.00

"Roadside improvement project on Evans Creek-Rock Point Section of Pacific Highway, Jackson County. The Commission awarded the contract to the low bidder, Knight Pearcy Nursery, Salem, at $33,372.50.

"Laurelhurst State Park Latrine on Crater Lake Highway, Jackson County. The Commission awarded the contract to the low bidder, Harley E. Lowe, Ashland, at $8,555.00.

"Central Point Maintenance Building, Jackson County. The Commission awarded the contract to the low bidder, Don L. Jacobs, Medford, at $24,651.00.

"Grading, paving and structure on the U.P. Overcrossing-Madras Section of the Warm Springs Highway, Jefferson County. The Commission rejected the one bid received as being too high.

"Paving on the Shasta Way-South 6th Street Section of the Klamath Falls-Malin Highway, Klamath County. The Commission elected to accept the low bid of Page Paving Co., Salem, in the sum of $60,750.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Klamath County is received and the sum of $14,000.00 is deposited by the County.

"Collier Memorial State Park Standard Latrine, on The Dalles-California Highway, Klamath County. The Commission awarded the contract to the low bidder, Harley E. Lowe, Ashland, at $8,932.75.

"Dry Creek Bridge on Westside County Road, Lake County. The Commission elected to accept the low bid of Ausland Construction Co., Grants Pass, in the sum of $11,835.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Lake County is received and the sum of $2,700.00 is deposited by the County.

"Grading and structure on the Cottage Grove-Divide Section of the Pacific Highway, Lane County. The Commission awarded the contract to the low bidder, L. S. Matusek, Portland, at $350,692.30.

"Grading and stone base on the Marcola-Drury Creek Section of FAS Route 228, Lane County. The Commission elected to accept the low bid of F. H. McEwen, Eugene, in the sum of $208,722.25 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Lane County is received and the sum of $46,600.00 is deposited by the County. (McEwen qualified his bid that he would make a reduction of $5,000 in this bid if he is also awarded the Mohawk Rock Production Project.)

"Mohawk Rock Production Project on B.L.M. 34Q Timber Access Roads, Lane County. The Commission elected to accept the third low bid of F. H. McEwen, Eugene, in the sum of $62,500.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads is received. (In figuring the combination bids for these two projects McEwen was low bidder by $5,090.)

"Grading, oiling and structures (2) on E. Unit, Siuslaw River-Walton Section of the Mapleton-Eugene Highway, Lane County. The Commission awarded the contract to the low bidder, Stanley Wilt, Corvallis, in the sum of $536,748.50.

"Camas Swale Bridge Extensions on the Goshen-Cottage Grove Section of the Pacific Highway, Lane County. The Commission awarded the contract to the low bidder, Pacific Concrete Co., Portland, at $56,333.00.

"Red Cabin Bridge over Row River on Sharps Road, Lane County. The Commission referred all bids to Lane County for award.

"Siletz River Bridge on Sams Creek Road, Lincoln County. The Commission elected to accept the low bid of Walder & Kenworthy, Portland, in the sum of $106,540.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Lincoln County is received and the sum of $24,000.00 is deposited by the County.

"Mill Creek Bridge on County Road 307, Lincoln County. The Commission referred all bids to Lincoln County for award.

"Tunnel liner plate on the Butte Creek Overflow Culvert on the Pacific Highway, Linn County. The Commission awarded the contract to the low bidder, Armco Drainage and Metal Products, Inc., Portland, at $26,889.14.

"Albany Office Building, Linn County. The Commission awarded the contract to the low bidder, Herbert Dalke, Salem, at $67,308.00.

"Grading on the N. Unit, Westfall-Harper Section of FAS Route 525, Malheur County. The Commission elected to accept the low bid of Grimstad & Vanderveldt, Inc., Astoria, in the sum of $100,823.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Malheur County is received and the sum of $23,000.00 is deposited by the County.

"Ontario Office Building, Malheur County. The Commission rejected all bids as being too high.

"Clarke Overcrossing of Union Pacific Railroad, Boardman Junction-Irrigon Section of the Columbia River Highway, Morrow County. The Commission awarded the contract to the low bidder, R. A. Heintz Construction Co. and Rogers Construction, Inc., Portland, at $78,090.00.

"Roadside improvement on Harbor Drive-Lowell Street Unit, Harbor Drive-Washington County Line Section of the Pacific Highway in Portland, Multnomah County. The Commission awarded the contract to the low bidder, Staabs Nursery, Portland, at $65,955.85.

"Williams Ave. Structure, Eastbank Freeway - Broadway, Williams, and Weidler traffic over Freeway, Multnomah County. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Co., Vancouver, Wn., at $363,140.00.

"Paving on Holgate Street Channelization Section of Pacific Highway East in Portland, Multnomah County. The Commission awarded the contract to the low bidder, Cascade Construction Co., Portland, at $6,089.00.

"Grading and structure on the Garibaldi-Bay City Section of the Oregon Coast Highway, Tillamook County. The Commission elected to accept the low bid of Fred H. Slate and E. C. Hall Co., Portland, in the sum of $753,104.75 and directed the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and oiling the Cold Springs Junction Truck Scale Site on Columbia River Highway, Umatilla County. The Commission rejected all bids as being too high.

"Addition to Meacham Maintenance Building, Umatilla County. The Commission awarded the contract to the low bidder, McCormack Construction Co., Pendleton, at $12,479.00.

"Grading and structure on the N. Unit, Wapinitia-Simnasho Section of FAS Route 717, Wasco County. The Commission elected to accept the low bid of J. M. Purcell Construction Co., Salem, in the sum of $96,987.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Wasco County is received and the sum of $22,000.00 is deposited by the County."

Concerning the project for the Woodson-Clatskanie Section of the Columbia River Highway, Columbia County, the Engineer explained that additional federal funds now have been released, and he requested authority to include in the project when it is readvertised for bids the complete section between Westport and Clatskanie, which will increase the mileage approximately 3½ miles, for a total mileage of about 9 miles. The Commission granted the request.

The Chief Counsel presented an "Assignment of Lease" to Oregon Mobile Radio Company held by the State from the U.S. Bureau of Land Management of a radio transmission site in the Southwest Quarter of the Southeast Quarter of the Southeast Quarter of Section 9, Township 36 South, Range 3 West, Jackson County. The "Assignment of Lease", he explained, will be subject to the Radio Company securing approval for this assignment from the Bureau of Land Management. He also presented a "Bill of Sale" for the radio building located on the property described above. Upon his favorable recommendation the Commission approved the "Assignment of Lease" and the "Bill of Sale" for the building for the sum of $1,100 and authorized the Secretary to sign them in behalf of the Commission.

The proposed settlement of a damage claim, made by Mr. and Mrs. Stanley Garwood, caused by flooding on Butte Creek on the Lebanon Road-Saddle Butte Section of the Pacific Highway, Linn County, was brought up by the Chief Counsel. The claim for damage, he stated, is based on flooding, caused by a faulty drainage condition of a culvert, which damaged their seed. The Highway Department has corrected this condition, and he recommended that the Garwoods be paid the sum of $1,500 to cover release of the State's liability from all flood damages to personal and real property. The Commission approved the payment.

The Director of the Travel Information Division stated that, although tourist information statistics are not complete for the season, all reports so far indicate a substantial increase in tourist traffic this year over last year and previous years. He also commented that the Travel Advisory Committee is to meet September 22, at which time it is expected they will make recommendations on the Travel Information Division budget, including the advertising schedule, for 1962.

Upon inquiry by Chairman McIver, the Auditor reviewed briefly the financial condition of the State Highway Department. He mentioned that although the total gas tax for July was slightly lower than expected, the total income from gas tax so far this year is higher than last year. It appears that the Highway Department will have approximately $15,000,000 on hand at the end of the year.

The Highway Commission considered and approved a revised Organization Chart, dated September 1961, for the State Highway Department in which the Parks Superintendent is to report to the Assistant State Highway Engineer.

The Highway Commission instructed the Engineer to prepare for local distribution a photograph-type map to indicate what would appear to be a feasible route for the Oregon Coast Highway immediately north of Neskowin, in Tillamook County. No location surveys have been completed and adopted in this area, but it was the Commission's feeling that a map indicating a feasible route would be helpful to the local residents and property owners.

The Commission approved and signed, or authorized the Secretary to sign in their behalf, the following agreements, deeds, and other papers:

"Indenture of Access" to the Bert K. and Marie A. Shepeard property on the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County.

"Indenture of Access" to the Everett and Carol Weber property on the Tigard-Newberg Section of the Pacific Highway West in Washington County.

"Indenture of Access" to the Paul E. Breuer and Eva M. Breuer property on the Myrtle Point-Bridge Section of the Coos Bay-Roseburg Highway in Coos County.

"Indenture of Access" to the Fred and Byrdie B. Metzgus property on the Myers Creek-Brookings Section of the Oregon Coast Highway in Curry County.

"Indenture of Access" to the Rawleigh C. and Verna Mae Dodson property on the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County.

"Indenture of Access" to the General Development Company for a parcel of land on the Blackwell Hill-Seven Oaks Section of the Pacific Highway in Jackson County.

"Indenture of Access" to the Curry County Fair Board of Curry County for a parcel of land on the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway in Curry County.

"Indenture of Access" to the Paul B. and Ivy P. Rynning property on the Medford-County Farm Section of the Pacific Highway in Jackson County.

"Indenture of Access" to the U.S. Forest Service for property on the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County.

"Indenture of Access" to the William A. and Hazel C. Wysock property on the Goble-St. Helens Section of the Columbia River Highway in Columbia County.

"Deed of Dedication" to dedicate a public road, 1.98 acres acquired from Roscoe and Luella S. Applegate by deed recorded in Jackson County Deed Records (R-33490).

"Agreement" with F. H. Louis Blaue covering house encroachment on right of way of Cascade Secondary Highway (Lake Road-Oregon City Section), Clackamas County.

"Agreement" with Southern Pacific Company covering change in location of signals at the grade crossing of the Company's tracks near Aumsville in order to provide additional traffic lanes.

"Agreement" with City of Portland rescinding agreement of May 26, 1961, pertaining to the construction of the Ash Street off ramp from Harbor Drive.

"Agreement" with Oregon Trunk Railway covering the Third Avenue Overcrossing north of Bend.

"Agreement" with Lake and Harney Counties and adoption of a resolution covering the Adel-Nevada State Line Road, known as the Winnemucca-to-the-Sea Route; Lake County to take over as a County road the Adel-Plush Section of Warner Highway and the State to take over the Adel-Nevada State Line Section as part of Warner Highway. Harney County concurs in extension of Warner Secondary Highway through southwestern corner of Harney County.

"Agreement" with Southern Pacific Company covering connection of State's drainage to a culvert under the SP Company's tracks on New Era-Canby Section of US 99E.

"Easement and Construction Agreement" with O.W.R.R. & N. Company covering the Second Hood River Overcrossing of U.P. Railroad on Columbia River Highway in Hood River County.

"Agreement" with O.W.R.R. & N. Company covering the Haines grade crossing on Haines-Anthony Highway in Baker County.

"Easement and Construction Agreement" with Southern Pacific Company covering West Salem overcrossing in Polk County.

"Supplemental Agreement" with O.W.R.R. & N. Company covering construction on Willamette River-42nd Avenue Section of T.H. Banfield Expressway in Multnomah County.

"Crossing Agreement" with the Bureau of Reclamation and the North Unit Irrigation District covering crossing of the North Unit Main Line Canal, which is owned and operated by the Bureau and the District, in connection with construction of Swalley Canal-East Revere Avenue Section of The Dalles-California Highway in and near Bend.

"Easement" to Garrett Wendel Hopper covering property on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County.

"Agreement" with the State of Washington covering construction of a new interstate bridge across the Columbia River between Astoria and U.S. Highway 101 on the north bank of the Columbia River, near Point Ellice and Megler, Washington.

"Agreement" with Union Pacific Railroad Company relating to the Interchange between the Banfield Expressway and Pacific Highway in Multnomah County. (File # 29592)

"Agreement" with Southern Pacific Company covering the granting to State of an easement in connection with construction of the Juckins Point-Goshen Section of Pacific Highway in Lane County.

"Agreement" with City of Eugene covering maintenance and power consumption for signals and luminaire units at the Ferry Street Interchange on the Eugene-Springfield Highway in Eugene.

"Permit" to the U.S. Forest Service to install a sign on the highway right of way on easterly side of Lake of the Woods Highway at M.P. 27.05.

"Agreement" with Bureau of Public Roads requesting that State crush 25,000 yards of material for use on a Bureau of Land Management project near Marcola-Drury Creek County secondary project in Lane County.

"Agreement" with Wasco County covering the North Unit, Wapinitia-Simnasho Section of FAS 712 in Wasco County.

"Agreement" with Klamath County covering the Shasta Way-South Sixth Street project on the Klamath Falls-Malin Highway, FAS 415, in Klamath County.

"Agreement" with Lane County covering the Marcola-Drury Creek Section of FAS 228 in Lane County.

"Agreement" with Malheur County covering the North Unit, Westfall-Harper Section of FAS 525 in Malheur County.

"Agreement" with Columbia County covering the South Fork Scappoose Creek Bridge on FAS 817 in Columbia County.

"Agreement" with Lincoln County covering the Siletz River Bridge on FAS 832 in Lincoln County.

"Agreement" with Lake County covering the Dry Creek Bridge on FAS 407 in Lake County.

"Agreement" with Douglas County covering use of additional State-owned property to increase the size of the County's picnic area on the Oakland-Shady Highway at M.P. 12.17.

"Joint-Use Agreement" with the City of Medford and the U.S. Forest Service covering radio facilities on Roxy Anne Butte in Jackson County.

"Permit" to Columbia County for permission to install three "Building Permits Required" signs at the entrance to Columbia County -- one on the Columbia River Highway at M.P. 18.39 and two on the Nehalem Highway at M.P. 37.73 and at M.P. 67.72.

"Permit" to Commanding Officer of the Umatilla Ordinance Depot, near Hermiston, for permission to install a sign on the northerly side of the right of way of US 30 at M.P. 177.31.

"Agreement" with Gold Hill Irrigation District covering project for Rock Point-Seven Oaks Section of Pacific Highway in Jackson County.

"Throughway Agreement" with Umatilla County covering Athena-Blue Mountain Station Section of Oregon-Washington Highway in Umatilla County.

"Throughway Agreement" with City of Bend covering the Swalley Canal-East Revere Avenue Section of The Dalles-California Highway in Deschutes County.

"Throughway Agreement" with Klamath County covering Shasta Way-South Sixth Street Section of the Klamath Falls-Malin Highway, Klamath County.

"Agreement" with The Deschutes Reclamation and Irrigation Company covering construction on Revere Street-Swalley Canal Section of The Dalles-California Highway north of Bend.

"Agreement" with Central Oregon Irrigation District covering construction on Swalley Canal-Revere Street Section of The Dalles-California Highway north of Bend.

"Agreement" with the Magruder Drainage District covering the proposed construction between Woodson and Clatskanie on Columbia River Highway in Columbia County.

"Agreement" with City of Roseburg covering Douglas Avenue-South City Limits (Roseburg) Section of Oakland-Shady Highway in City of Roseburg in Douglas County.

"Assignment and Bill of Sale" in which the State assigns to the Oregon Mobile Radio Company all its rights, title and interest in an easement granted to the Oregon State Highway Department by the Bureau of Land Management on June 1, 1957.

"Minutes" for meetings of June 27, 1961 and July 28, 1961.

The meeting was recessed at 12:00 Noon.

The Morrow County Court and Heppner-Morrow County Chamber of Commerce, scheduled to appear before the Commission at 1:30 p.m., had on September 13 canceled their appearance.

The Sutherlin Chamber of Commerce, scheduled to appear before the Commission at 1:45 p.m., concerning improvement of the Elkton-Sutherlin Highway, did not appear.

There being no further business to conduct, the meeting was declared adjourned by Chairman McIver.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

September 15, 1961

Salem, Oregon
October 20, 1961

The Oregon State Highway Commission met in regular session at 9:00 a.m., in the Conference Room of the State Highway Building. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
Floyd Query, Secretary

The Commission approved the minutes of the meeting held on September 15, 1961.

The Right of Way Engineer presented for consideration options, pages 1 through 70, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part thereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961". Approval on the Jackson Mattie property, File 33848 on page 41, was contingent upon approval by the U. S. Bureau of Public Roads.

In discussing the options presented, Chairman McIver inquired if any particular problems had arisen in the moving of families from homes being acquired in the North Portland Harbor - Russell Street Section of the Pacific Highway in Portland. The Right of Way Engineer replied that no particular problems have been apparent due principally to the fact that considerable time had been allowed for people to make moves.

The Property Manager's report covering sales of miscellaneous properties and changes in rental status since the last Commission meeting was presented by the Right of Way Engineer. He pointed out briefly that during this period miscellaneous sales amounted to $15,263 and rental receipts for September, 1961 amounted to $4,008.25. The Commission accepted the report.

Direct sale of 948 square feet of land to the Seventh Day Adventist Church for the sum of $500 was recommended by the Right of Way Engineer. This property, he stated, is known as the Kibler property, File No. 28848, on the S. W. Hamilton Street - Slavin Road Section of the Pacific Highway West in Multnomah County. The property is no longer needed for highway purposes and because of its location has no particular value other than to the adjacent owner which is the Seventh Day Adventist Church. The price, he stated, is based on appraised value. The Commission approved the sale.

Public sale of several parcels of excess property was recommended by the Right of Way Engineer. He explained that the need for highway purposes for each parcel had been cleared through the Engineering Division. Access provisions as proposed are consistent with department policy as practiced in the vicinity of each parcel, and the recommended minimum sale price is based on appraised value or on an offer which exceeds the appraised value. Upon his favorable recommendation, the Commission authorized public sale of the following parcels of real property and thereupon adopted resolutions relative thereto, marked Exhibits "E-1" through "E-5", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

(1) 6,000 square feet of land, File No. 5098, on the North Bend - Marshfield Section of the Oregon Coast Highway in Coos County, for not less than $4,500 and without access to the Oregon Coast Highway. (See Exhibit "E-1".)

(2) 3,000 square feet of land, File No. 9520 and No. 9521, on the North Bend Section of the Oregon Coast Highway in Coos County, for not less than $2,500 and subject to sewer line and building encroachment easements. No access restrictions are to be imposed. (See Exhibit "E-2".)

(3) 38,000 square feet of land, File No. 14721, on the 39th Avenue-102nd Avenue Section of the Columbia River Highway in Multnomah County, for not less than $7,000 without access to the Columbia River Highway and with an advertising sign restriction to be imposed. (See Exhibit "E-3".)

(4) 1.6 acres of land, File No. 23713, on the Hayes Hill-Grants Pass Section of the Redwood Highway in Josephine County, for not less than $1,750 and with no access restrictions. (See Exhibit "E-4".)

(5) 14.95 acres of land, File No. 3645, on the Tigard Junction Section of the Pacific Highway in Washington County, for not less than $25,500 with an advertising sign restriction to be imposed and without access to the Pacific Highway (Baldock Freeway). (See Exhibit "E-5".)

"Indentures of Access" were presented by the Right of Way Engineer for the Commission's consideration. He explained that the two indentures presented covered routine changes in location of access only for the convenience of the property owners and for the safety of the traveling public. Following his favorable recommendation, the Commission approved the following indentures:

(1) Laurel C. and Virginia Dennis, File No. 22822 and No. 22823, on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County

(2) Donald R. and Peggy M. Loving property, File No. 18855, on the 102nd Avenue-Sundial Road Section of the Columbia River Highway in Multnomah County.

Consideration was given to a proposed "Grant of Access" to Frank I. and Margaret A. Willson on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County. The proposed access, the Right of Way Engineer explained, will provide for a width of 30 feet unrestricted as to use and allows the State the right to build at any time a frontage road or roads. The type of access being granted, he stated, is consistent with accesses provided for other properties in this area. The Commission approved the access.

A "Modification of Use of Access" form to R. J. Tweedy on the Rocky Point-Gold Beach Section of the Oregon Coast Highway in Curry County, was presented by the Right of Way Engineer. He explained that in acquiring this property, the owner was permitted to cross under the reconstructed Oregon Coast Highway at the north approach of the highway bridge crossing Myrtle Creek. The crossing right was restricted to farm purposes only and the modification presented allows unrestricted use of the crossing. This action, he added, is in line with other access provisions granted to property owners in this area. The Commission approved the modification

The Commission also considered a "Release of Access Restrictions" to restore to the owners, Chester J. and Opal L. McGriff, access to S. W. 95th Avenue on the Denny Road-Pacific Highway West Section of the Beaverton-Tigard Highway in Washington County. The Right of Way Engineer explained that, because of an error in the option form and the deed access had been denied. Access control provisions set up for highway construction in this area specifically permitted access and negotiations had been carried on with the owners on that basis. Based upon his favorable recommendation, the Commission approved the "Release of Access Restrictions" form

The lifting of access restrictions on the Russell County Road, which connects to and is a part of the Sanitary Fill Interchange on the North Santiam Highway east of Salem in Marion County, was presented by the Right of Way Engineer. He commented that in securing the property on which to place the relocated county road, all rights of access to the road were acquired. As the State does not normally control access to a county road, he recommended that access be allowed. The Commission accepted the recommendation and thereupon adopted a resolution relative thereto, marked

Exhibit "I", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

In connection with a United States Bureau of Land Management timber sale, the Right of Way Engineer stated that the Bureau had called to his attention the need to cross a State-owned stockpile site at M.P. 37.21 on the Siuslaw Highway in Lane County, File No. 6452. The easement to cross the stockpile site will not damage the State, and he recommended that an easement of access be approved. The Commission accepted his recommendation.

A "Release of Slope Easement" to Shell Oil Company on the Crooked River-Prineville Section of the Ochoco Highway in Crook County, was brought up by the Right of Way Engineer. The slope easement, he stated, is no longer needed as the abutting property has been brought up to the level of the highway grade. Based upon his favorable recommendation, the Commission approved the Release of Slope Easement

---

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions relative thereto, marked Exhibits "F-1" through "F-20", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

(For details concerning these properties see the Chief Counsel's "Recommendations for Condemnation" dated October 20, 1961, in the Secretary's Office under the heading "Right of Way Resolutions, Condemnations, and Report of Offers")

A report of cases which have been tried in court since the last Commission meeting was presented by the Chief Counsel. He made some brief oral comments on these cases. The Commission accepted the report summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

(See next page)

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3670 James H. Nunes, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$8,500	$37,500 (Answer)	$24,500
L-3729 Kenneth W. Bales, et al	Lane	Pacific	Judkins Point-Goshen	$ 500	$ 1,250	$ 450

REPORT OF TRIAL OF OTHER CASES

Case	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict
L-3702 State of Oregon	Harold H. Buessow	Lane	Guardrail Damages	$ 134.63	$134.63 Default Judgment
L-3756 F. H. McEwen	State of Oregon	Marion	Damages arising out of State Highway Contract by reason of Department requiring the segregation of aggregate as per specifications but which contractor claimed was waived by Resident Engineer	1st Cause of Action $28,868.37 2nd Cause of Action $ 2,118.75	1st Cause of Action Nothing 2nd Cause of Action $ 2,118.75

(For additional details see the Chief Counsel's letter of October 19, 1961 entitled, "Report of Cases Tried" in the General Files in Salem.)

In discussing cases tried, the Chief Counsel also mentioned the A. M. Cronin III case, L-3450, on the Highlands Interchange Section of the Sunset Highway in Portland, Multnomah County, in which the owner sued the State claiming damages because of earth movement. In a prior suit in which Mr. Cronin sued his insurance carrier, the Chief Counsel stated, the Judge had ruled that earth movement was not the cause of whatever damages there may have been. This decision made it possible for the dismissal of the case against the State.

A report of cases settled out of court since the last Commission meeting was also presented by the Chief Counsel. The Commission approved the settlements, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-33194 Clarence M. Phelps, et ux	Deschutes	The Dalles-California	Swalley Canel-East Franklin Avenue	$ 100	$ 300
R-29590 H. W. Crook, et al	Curry	Oregon Coast	Gold Beach-Cape Sebastian	$ 1,592	$ 1,592
R-28455 Peter R. Bateman, et al	Jackson	Pacific	Seven Oaks-Table Rock Road	$47,625 See remarks following.	$ 62,500
R-32531 Elton Morton, et al	Jackson	Pacific	Rock Point-Seven Oaks	$ 25	$ 100
R-30128 Charles W. Parker, et ux	Lincoln	Siletz	Cedar Creek-Chitwood Creek	$ 180	$ 200
R-32213 Virgil E. Davis, et ux	Multnomah	Pacific	North Portland Harbor-North Russell Street	$ 865	$ 1,000
R-31163 Alvin Athanas, et ux	Jackson	Pacific	Seven Oaks-Neil Creek	$ 9,070 (including fence)	$ 9,750
R-30304 Charles N. Walker, et al	Multnomah	Pacific	North Portland Harbor-North Russell Street	$ 9,100	$ 10,000
R-32223 Robert John Pollock	Tillamook	Oregon Coast	Hobsonville-Bay City	$ 150	$ 150
R-31456 Ella A. Sharp, et al	Umatilla	Hermiston	Hermiston-Hinkle	$ 2,700	$ 5,000
State's high appraisal revised subsequent to offer based on sales of comparable property which took place subsequent to original appraisals.					
R-32016 [illegible] Central Co.	Multnomah	Pacific	North Portland Harbor-North Russell Street	$ 4,000	$ 4,000

REPORT OF CONDEMNATION CASES SETTLED (Continued)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-29639 Victor Raymond Baker	Multnomah	Pacific	North Portland Harbor-North Russell Street	$ 7,300	$ 7,330
R-32224 A. Paquet, et al	Tillamook	Oregon Coast	Hobsonville-Bay City	$ 300	$ 300
R-32584 E. W. Cresap, et al	Grant	John Day-Burns	Canyon City-Seneca	$ 550 (State to fence)	$ 775.80
R-29729 Egon D. Arend, et al	Multnomah	Pacific	North Portland Harbor-North Russell Street	$167,500	$255,000
R-32204 Missouri Villa, Inc.	Multnomah	Pacific	North Portland Harbor-North Russell Street	$62,900	

Approved NOA at September 15, 1961 Commission Meeting at which time Mr. Lindas explained justification of Settlement.

R-32724 Merwin A. Blackmore, et al	Columbia	Columbia River	Westport-Clatskanie	$ 1,800	$ 1,800
R-33201 Gordon W. Tracie, et ux	Deschutes	The Dalles-California	Swalley Canal-East Franklin Avenue	$ 25	$ 25
R-30044 Frank L. Earhart	Jackson	Pacific	Seven Oaks-Neil Creek	$14,950	$ 19,000
R-28877 Frances Earhart	Jackson	Pacific	Seven Oaks-Neil Creek	$26,500	$ 25,000
R-28875 Frank L. and Frances Earhart, tenants in common	Jackson	Pacific	Seven Oaks-Neil Creek	$14,500	$ 16,000

These three cases are all part of a single settlement in the amount of $60,000 and must be considered and accepted as to all or none. No agreement was reached as to the allocation of any portion of the total amount to the individual title. This settlement has had prior approval by the Bureau of Public Roads.

October 20, 1961

REPORT OF CONDEMNATION CASES SETTLED (Continued)

Case	County	Highway	Section	State's Offer	Amount of Settlement
F-31159 William Robert Flagg, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$ 5,140	$ 5,140
R-29324 Maynard O. Grove, et ux (A.E. Stevens, lessee)	Jackson	Pacific	Seven Oaks-Neil Creek	$ 300	$ 300
R-32549 Sidney Meacham, et al	Lane	Mapleton-Eugene	Wildcat Creek-Walton	$ 1,935	$ 2,250
R-29794 Leonard K. Stohr	Multnomah	Pacific	North Portland Harbor-North Russell Street	$17,000	$ 18,500
R-32625 Tidewater Oil Company	Josephine	Redwood	"E" and "F" Street Connection	$ 1,630	$ 1,630
R-31206 Louise L. Serpa, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$ 900	$ 1,265
R-32498 Lawrence [illegible] Chestnut, et al	Lane	Pacific	Cottage Grove-Divide	$ 450	$ 750
R-30512 Jeanie J. Crawford, et al	Washington	Tualatin Valley	Hillsboro-Reedville	$ 305	$ 555
R-29452 Earl I. Newbry	Jackson	Pacific	Seven Oaks-Neil Creek	$ 4,800	$ 6,000

In connection with the settlement with H. W. Crook, the Chief Counsel pointed out a variance between the original offer and the settlement. The original offer contemplated complete restriction of access, whereas, the settlement contemplates the allowance of two accesses from the remaining property to a segment of the existing highway. The cost of construction of the accesses is to be borne by the owner.

In the settlement with Peter R. Bateman, he called attention to a minor variance between the taking as outlined in the complaint and the proposed settlement. Parcel No. 2 was for construction of an overcrossing of

Table Rock Road over the freeway and for a detour road. Title was to have been taken in fee; however, the owner wishes this changed to an easement for right of way purposes. There is no objection to this change. He also mentioned that the offer made in this case was prior to receipt of a higher appraisal on which the settlement is based. He pointed out that although a deposit of $40,000 was placed in court, there would be approximately $1,600 interest due to date on the excess due over the deposit. The settlement contemplates no interest charge.

The Chief Counsel pointed out that the market value on property, particularly gravel sources, in the Medford area has risen since the original appraisals were made on property needed by the State. As a result, the State is requesting a revision on all appraisals which will affect cases still pending in that area.

(For additional details, see the Chief Counsel's letter, dated October 13, 1961, entitled "Report of Cases Settled" in the General Files in the Salem Office, and his letter of October 19, 1961 under the same subject.)

Chairman McIver inquired as to what action is forthcoming in connection with the Portland Zoo damage suit by the City of Portland, L-3488, on the Washington County Line - Highlands Interchange Section of Sunset Highway in Multnomah County. The Chief Counsel replied that a third amended answer had been filed within the last few days and it was his opinion that the matter would be tried in court, probably in December of this year.

Confirmation of offers made to property owners prior to institution of condemnation proceedings was requested by the Chief Counsel. The offers as presented, he stated, had been approved orally by one of the Commissioners prior to this meeting. The Commission confirmed the following offers:

BIGGS-RUFUS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-32694 - T. L. Fields, et ux. 5,760 square feet for right of way purposes. Offer of $100.00 approved by Mr. Fridley, September 26, 1961.

BONNEVILLE STATION-PATTERSON AVENUE SECTION OF THE WILLAMINA-SALEM HIGHWAY

R-29511 - Clyde R. Carlton, et ux. 5,400 square feet for right of way purposes. Offer of $2,375.00 approved by Mr. McIver, October 18, 1961.

R-29521 - Peter L. Carstensen, et al. 1,300 square feet for right of way purposes. Offer of $950.00 approved by Mr. McIver, September 19, 1961.

"E" STREET AND "F" STREET CONNECTION SECTION OF THE REDWOOD HIGHWAY

R-32625 - Tidewater Associated Oil Company. 2,720 square feet for right of way purposes. Offer of $1,630.00 approved by Mr. Jackson, September 14, 1961.

"E" STREET AND "F" STREET CONNECTION SECTION OF THE REDWOOD HIGHWAY (Cont.)

R-32627 - Elmer W. Spalding, et al. 12,600 square feet for right of way purposes. Offer of $10,000.00 approved by Mr. Jackson, September 22, 196 .

R-32629 - J. M. Fleishman, et al. Parcel No. 1: 1.6 acres for right of way purposes; Parcel No. 2: 0.61 acre for right of way purposes; Parcel No. 3: 450 square feet for temporary easement; Parcel No. 4: 800 square feet for temporary easement; and Parcel No. 5: 425 square feet for temporary easement. Offer of $9,950.00 approved by Mr. McIver, October 13, 196 .

R-32633 - Mike Burva, et ux Parcel No. 1: 0.69 acre for right of way purposes; and Parcel No. 2: 3,400 square feet for temporary easement. Offer of $2,900.00 approved by Mr. Jackson, September 20, 1961.

FLORENCE-CUSHMAN SECTION OF THE SIUSLAW HIGHWAY

R-32492 - Jean M. Shelley, et ux. Parcel No. 1: 0.09 acre for right of way purposes; and Parcel No. 2: 0.01 acre for right of way purposes. Offer of $100.00 approved by Mr. Jackson, September 19, 1961.

R-33388 - William R. Rose, et ux. 0.05 acre for right of way purposes Offer of $245.00 approved by Mr. Jackson, September 19, 1961.

R-33389 - Edgar D. Gurney, et al. 0.45 acre for right of way purposes Offer of $950.00 approved by Mr. Jackson, September 19, 1961.

R-33391 - J. Lewis Wallace, et al. 0.7 acre for right of way purposes Offer of $435.00 approved by Mr. Jackson, September 25, 1961.

FREMONT INTERCHANGE-MARQUAM BRIDGE SECTION OF THE STADIUM FREEWAY

R-32386 - Jack J. Saltzman, et al. 10,000 square feet for right of way purposes. Offer of $38,000.00 approved by Mr. McIver, September 25, 1961.

LAKE ROAD-OREGON CITY SECTION OF THE CASCADE SECONDARY HIGHWAY

R-29480 - Alvera Smith, et al. 0.8 acre for right of way purposes Offer of $240.00 approved by Mr. McIver, October 18, 1961.

MOHAWK ROAD-MC KENZIE HIGHWAY SECTION OF THE EUGENE-SPRINGFIELD HIGHWAY

R-30676 - Harry C. Christner, et ux. 2.1 acres for right of way [illegible] Offer of $5,750.00 approved by Mr. McIver, October 13, 1961.

WEEKS CREEK-BROOKINGS SECTION OF THE OREGON COAST HIGHWAY

R-30261 - Helen G. Younce, et ux. 0.37 acre for right of way purposes; [illegible] interest in easement. Offer of $600.00 approved by Mr. Jackson, [illegible]

MYERS CREEK-BROOKINGS SECTION OF THE OREGON COAST HIGHWAY (Continued)

R-30268 - Joe Zumpfe, et ux. 11.2 acres for right of way purposes. Offer of $3,950.00 approved by Mr. Jackson, September 13, 1961.

R-30269 - James Robert Walker, et ux Parcel No. 1: 30.0 acres for right of way purposes; Parcel No. 2: 3.3 acres for right of way purposes; and Parcel No. 3: 145 acres for park purposes. Offer of $18,935.00 approved by Mr. Jackson, September 19, 1961.

R-30271 - Mitchel Anderson, et ux. Parcel No. 1: 17.77 acres for right of way purposes; and Parcel No. 2: 102 5 acres for park purposes. Offer of $6,500.00 approved by Mr. Jackson, September 13, 1961

R-30272 - Haeckel Timeus, et al Parcel No. 1: 11.1 acres for right of way purposes; and Parcel No. 2: 58 0 acres for park purposes. Offer of $9,950.00 approved by Mr. Jackson, September 13, 1961.

R-30451 - Beulah Eckstrom, et vir 0.35 acre for right of way purposes. Offer of $25.00 approved by Mr. Jackson, September 14, 1961.

NORTH BEND SECTION OF THE CAPE ARAGO HIGHWAY

R-31503 - Harry M. Bright, et al. Parcel No. 1: 600 square feet for right of way purposes; and Parcel No. 2: 102 square feet for permanent easement. Offer of $820.00 approved by Mr. Jackson, September 25, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-30051 - Stadium Realty Company, et al. 14,330 square feet for right of way purposes. Offer of $15,900.00 approved by Mr McIver, September 25, 1961.

R-30058 - Meyer Foundation, et al. 5,000 square feet for right of way purposes. Offer of $8,250.00 approved by Mr. McIver, September 25, 1961.

R-31894 - Velma A. Koven, et vir. 5,000 square feet for right of way purposes. Offer of $12,500 00 approved by Mr McIver, October 16, 1961.

R-31895 - John Morton Smith, et al. 10,000 square feet for right of way purposes. Offer of $57,500.00 approved by Mr. McIver, October 16, 1961.

R-31905 - William H Payson, et al 1,000 square feet for right of way purposes Offer of $2,700 00 approved by Mr. McIver, October 17, 1961.

R-31909 - R. K. D. Co., et al 360 square feet for right of way purposes. Offer of $360.00 approved by Mr McIver, October 2, 1961.

R-32016 - Union Central Co., et al. 1,597 square feet for right of way purposes Offer of $4,000.00 approved by Mr McIver, September 25, 1961

R-32028 - Stadium Realty Company 3,500 square feet for right of way purposes. Offer of $5,450.00 approved by Mr. McIver, September 25, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY (Continued)

R-32266 - Paul R. Murthe, et ux. 5,902 square feet for right of way purposes. Offer of $14,000.00 approved by Mr. McIver, October 13, 1961.

R-32966 - Dorothy R. McNulty, et al. 177 square feet for right of way purposes. Offer of $680.00 approved by Mr. McIver, September 25, 1961.

SEVEN OAKS-NEIL CREEK SECTION OF THE PACIFIC HIGHWAY

R-31152 - Leland D. Houk, et al. 34.0 acres for right of way purposes. Offer of $26,000.00 approved by Mr. Jackson, September 18, 1961.

R-31159 - William Robert Flagg, et ux. Parcel No. 1: 5.15 acres for right of way purposes; and Parcel No. 2: 0.02 acre for right of way purposes. Offer of $5,140.00 approved by Mr. Jackson, September 18, 1961.

SUNSET HIGHWAY-PACIFIC HIGHWAY SECTION OF THE BEAVERTON-TIGARD HIGHWAY

R-32672 - Victor L. Wallberg, et ux. 0.02 acre for right of way purposes. Offer of $400.00 approved by Mr. McIver, October 18, 1961.

R-32679 - R. Clinton Jones, et al. 0.72 acre for right of way purposes. Offer of $10,450.00 approved by Mr. McIver, September 25, 1961.

R-32755 - R. A. Reynolds, et ux. 1.9 acres for right of way purposes. Offer of $21,750.00 approved by Mr. McIver, October 18, 1961.

THE DALLES BY-PASS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30542 - A. J. Cook, et al. Parcel No. 1: 11,242 square feet for right of way purposes; and Parcel No. 2: 650 square feet for right of way purposes. Offer of $3,300.00 approved by Mr. Fridley, September 22, 1961.

OCEAN BEACH STATE PARK

R-[illegible] - C. M. Littlefield, et ux. 0.57 acre for park purposes. Offer of $[illegible] approved by Mr. McIver, October 18, 1961.

A [illegible] set of orders which had been received from the Public [illegible] matters to which the State Highway Commission [illegible] presented by the Chief Counsel summarized as follows:

PACIFIC: Affects (Ex.) [illegible], Union Pacific Railroad Com- [illegible]-Wilsonville Highway, Washington County. The order allowing the [illegible] was [illegible] with the petition and the testimony [illegible].

PUX 431: County Road Grade Crossing near Riddle, Southern Pacifi Company, Douglas County. This is a county road over which the Highway Commission has no jurisdiction.

PUX 432: Athena (East) Overcrossing on Oregon-Washington Highway, Union Pacific Railroad Company, Umatilla County. The order allowing the overcrossing was issued in accordance with the petition and testimony presented at the hearing.

PUX 433: Athena (East) County Road Grade Crossing, Union Pacific Railroad Company, Umatilla County. The Highway Commission made application to construct a crossing at grade with the railroad tracks and the county road which formed a ramp connection to the Oregon-Washington Highway. The order allowing the crossing was issued in accordance with the petition and the testimony presented at the hearing.

PUX 436: City of Scappoose, Maple Street Grade Crossing, Spokane, Portland, and Seattle Railway Company, Columbia County. The Highway Commission was interested in the crossing as the railroad parallels the Columbia River Highway and is in close proximity to the highway. The order was issued in accordance with the testimony furnished by the highway Department.

PUX 438: Third Street (Bend) Overcrossing, Oregon Trunk Railway Company, The Dalles-California Highway, Deschutes County. The overcrossing was requested by the Highway Commission and the order allowing the overcrossing was issued in accordance with the petition and the testimony presented at the hearing.

PUX 443: Second McAndrew Street Grade Crossing, Southern Pacific Company, City of Medford, Jackson County. McAndrew Street is a city street over which the Highway Commission has no jurisdiction. Southern Pacific Company asked that the petition be withdrawn, and the order issued dismissed the petition.

The filing of a court action by Miller and Hutchins Contractors, Inc., against the State Highway Commission in connection with State Highway Contract No. 5541 was reported by the Chief Counsel. This contract, he stated, covers work on the East Unit, Adel-Blizzard Gap Section of the Warner Secondary Highway No. 481, Lake County, (Winnemucca-to-the-Sea route). The basis stated in the complaint is that the State did not provide enough water for compaction of fills on this section of highway, thereby changing and altering the character of the work and increasing the contractor's cost in grading and compaction of the fills. Damages in the amount of $163,381.82 are being sought. Proper action is being taken to protect the interest of the State. The Commission accepted the report.

A written quarterly report of property damage claims collected during the period June 30 through September 30, 1961 was presented by the Chief Counsel. During this period collections in the amount of $10,669.47 were made. Thirty claims were abandoned, totaling $4,302.46, as not being

feasible to collect because of out of state residence, unknown whereabouts, bankruptcy, death, and other causes. The Commission accepted the report.

Consideration was given to a resolution designating all city streets and county roads as being subject to the provisions of ORS 483.524(5), as amended by Chapter 512, Oregon Laws, 1961. This resolution, the Chief Counsel stated, relates to maximum gross weights allowable on city streets and county roads. The 1961 Legislature enacted a seven-foot preferential pertaining to the hauling of logs, and made it mandatory that the Highway Commission first determine that a city street or county road is a proper highway over which these heavier loads can be hauled. By adoption of this resolution, he explained, permits can be granted on all county roads and city streets except those which, after an engineering analysis by a competent engineer, are determined to be incapable of sustaining the greater axle weights allowed by the 1961 Law. It is contemplated, he stated, that if the Commission adopts the resolution, a copy of it be furnished to each incorporated city and county so they will know they can grant permits unless their engineers determine that the road is unsafe. Upon his favorable recommendation, the Commission adopted a resolution relative thereto, marked Exhibit "H", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

The Commission discussed with the Chief Counsel and the Engineer resolution to enable the sale of $12,000,000 of highway bonds authorized by Chapter 345 of the 1961 Session Laws for construction of a bridge across the Columbia River at Astoria. The Engineer pointed out that only $12,000,000 of the total amount authorized by the Legislature is being offered for sale at this time as that is all that is required to get the project underway. The balance of the bonds can be sold at a later time, thereby saving interest on them. The Commission also considered a similar resolution providing for the sale of $8,000,000 of highway bonds authorized by Chapters 381 and 483 of the 1961 Session Laws for improvement of the Coos Bay-Roseburg Highway (42) and The Dalles-California Highway south of The Dalles. The date and time for the sale of both bond issues is November 15, 1961 at 10:00 A.M. Pacific Standard Time, in Room 418, State Highway Building, Salem. Upon the Chief Counsel's favorable recommendation, the Commission adopted both resolutions, marked Exhibits "L-1" and "L-2", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

The Commission considered a petition to exclude highway land from [illegible] Medford Irrigation District. This exclusion, the Chief Counsel stated, pertains to land to be used for construction of the Pacific Highway in Jackson County. He pointed out that it is not necessary that any water [illegible] Irrigation District be used upon the state highway right of way, [illegible] that the petition, excluding approximately 152 acres [illegible] authorized the [illegible] in their behalf, and granted the Chief Counsel authority [illegible] to carry the matter through the courts to a conclusion.

The Chief Counsel presented a proposed settlement of a condemnation case with George E. Nerton, L-3699, for property to be acquired on the Seven Oaks-Neil Creek Section of the Pacific Highway in Jackson County. Independent appraisals, he stated, showed values between $21,300 and $23,500 and an offer was made in the amount of $23,500. However, at a later date, each of the appraisers advised that their appraisals would have to be revised upward because of recent sales of land in the vicinity and information that portions of this land contained deposits of good quality gravel. The original appraisal of Mr. Rodman in the amount of $21,300 was revised, he stated, to $30,000. The owner has agreed to accept the sum of $29,000 and he recommended this settlement, conditioned upon approval of the Bureau of Public Roads. The Commission approved the settlement.

Consideration was given to a claim filed by Dr. Gene Davis in the amount of $180.28 for damage caused by a broken water line. The Chief Counsel explained that the State's contractor, while working on highway right of way, had broken the water lines to Dr. Davis' residence at 8283 S. W. Barbur Boulevard, Portland, Oregon. Plans and specifications furnished to the contractor did not indicate the existence of the underground pipes and he recommended that Dr. Davis be reimbursed in the amount of $180.28. The Commission approved the payment.

Upon the favorable recommendation of the Chief Counsel, the Commission approved a partial settlement of Right of Way No. 1-JA-99-B to Theodore and Lucille Bohnenkamp for 0.8 of an acre for a temporary easement for crossing an irrigation ditch in the sum of $1,400.00. The tract, he added, is located on the Valley View Road-South Ashland Section of the Pacific Highway in Jackson County. The Commission approved the settlement.

The Commission considered a request from Mr. [illegible] to disapprove a sale of two parcels of land on the Barbur Boulevard Section of the Pacific Highway in Portland. The Chief Counsel explained that because this land abuts Mr. [illegible]'s property he had expressed a desire to purchase the land when it was offered for sale at public auction. However, the letter sent to Mr. [illegible] prior to the sale advising of the sale had not been opened until after the sale. The high bidder for the property, he stated, has offered a price above the appraised value and he recommended that Mr. [illegible]'s request be denied. The Commission denied the request.

Attention was given to a letter from Mr. and Mrs. T. L. Cantrell to extend for the year 1962 their concession agreement at Silver Falls State Park. The Engineer stated that their operation has been satisfactory, and he recommended that the lease be extended through the year 1962. He also commented that under the terms of the lease, the Cantrells pay $50.00 per month for the concession privilege plus a small percentage on the sales making a total per month of about $[illegible]. The Commission approved the extension of the agreement.

October 20, 1961

An agreement with Pacific Power and Light Company for extending electrical power to Koberg Beach Wayside along the Columbia River Highway in Hood River County was considered. Extension of the electrical facilities, the Engineer stated, is in conjunction with the improvement of the Wayside for public use, and he recommended that it be approved. The Commission approved the agreement.

A gift of 0.4 acre of land as an addition to the Lewis & Clark State Park along the Columbia River Highway in Multnomah County, was considered. The Engineer explained that the property had been donated by Mr. and Mrs. Samuel H. Martin, the son of Governor Charles H. Martin, through the Columbia River Gorge Commission. The parcel of land fits in very well with the development of the park, and he recommended that it be accepted. The Commission accepted the land and instructed the Engineer to thank the donors and the Columbia River Gorge Commission.

The Commission considered the purchase of 97 acres of land from Carl D. Frerich for park purposes at the junction of the east and west forks of the Illinois River in Josephine County. The Engineer recalled that the Commission had viewed this land while on an inspection trip during the preceding summer. The owner had originally demanded $97,000 for the property and had been offered the sum of $17,750. After further negotiations, the owner stated that he would accept $18,500. The land is well suited for park purposes and is nearly surrounded by U. S. Bureau of Land Management property which possibly may be acquired to enlarge the park. However, the Bureau of Land Management property is not suited for extensive development because it is subject to flooding. Upon his favorable recommendation, the Commission authorized acquisition of the 97 acres from Mr. Frerich for the sum of $18,500.

The Engineer reported that he had made awards of contracts which had been referred to him by the Commission to award when certain conditions had been satisfied. These conditions, he continued, have been taken care of, and he requested that the Commission confirm his awarding of the following State Highway contracts:

(1) Grading and structure on Garibaldi-Bay City Section of Oregon Coast Highway, Tillamook County. Bids received September 13, 1961. Contract No. 5976 awarded September 15, 1961 to Fred H. Slate and E. C. Hall Company, Portland, low bidder.

(2) Construction of Dry Creek Bridge on Westside County Road, Lake County. Bids received September 13, 1961. Contract No. 5977 awarded September 19, 1961 to Ausland Construction Company, Grants Pass, low bidder.

(3) Grading and structure on North Unit, Wapinitia-Simnasho Section of FAS Route 717, Wasco County. Bids received September 13, 1961. Contract No. 5978 awarded September 20, 1961 to J. M. Perry Construction Co., Salem, low bidder.

(4) Construction of Siletz River Bridge on Sams Creek Road, Lincoln County. Bids received September 15, 1961. Contract No. 5979 awarded September 20, 1961 to Halder and Kenworthy, Portland, low bidder.

(5) Construction of South Fork, Scappoose Creek Bridge on Watts Road, Columbia County. Bids received September 15, 1961. Contract No. 5980 awarded September 21, 1961 to George E. Berry, Beaverton, low bidder.

(6) Paving the Shasta Way-South 6th Street Section of Klamath Falls-Malin Highway, Klamath County. Bids received September 15, 1961. Contract No. 598[illegible] awarded September 22, 1961 to Page Paving Company, Salem, low bidder.

(7) Grading and paving the 16th Street-Lewis Street Section of Cape Arago Highway in North Bend, Coos County. Bids received September 13, 1961. Contract No. 5982 awarded September 25, 1961 to Bay Pavers, Inc., North Bend, low bidder.

(8) Grading and stone base on Marcola-Drury Creek Section of FAS Route 228, Lane County. Bids received September 13, 1961. Contract No. 595[illegible] awarded October 3, 1961 to F. H. McEwen, Eugene, low bidder.

(9) Mohawk Rock Production Project on B. L. M. 44Q Timber Access Roads, Lane County. Bids received September 15, 1961. Contract No. 5984 awarded October 3, 1961 to F. H. McEwen, Eugene, low bidder.

(10) Grading the North Unit, Westfall-Harper Section of FAS Route 525, Malheur County. Bids received September 15, 1961. Contract No. 5985 awarded October 3, 1961 to Grimstad and Vanderveldt, Inc., Astoria, low bidder.

The Commission confirmed the Engineer's awards of the contracts.

A matter of unfinished business from the September 15, 1961 meeting concerning the lease of 10 acres of land from the U. S. Corps of Engineers, The Dalles, was considered. The Engineer recalled that in discussing the matter at the previous meeting it had been brought out that the Corps of Engineers requested a $500-per-year rental charge on the proposed 50-year lease near The Dalles Dam for a maintenance headquarters site. The question had been asked by the Commission as to how the figure of $500 per year had been determined and why the Corps of Engineers couldn't donate this land to the State as they had to Wasco County. The Engineer explained that the Corps of Engineers can lease without charge property to be used only for park purposes or other public use which was the case of the land given to Wasco County. They do not, however, have authority to lease without charge for other uses. The charge of $500 per year, to be continued, is based on a percentage of the valuation of the property. Mr. Wahlstrom, of the Corps of Engineers, has suggested that after the property has been improved, the Corps of Engineers can request that it be sold to the State

for approximately fifty per cent of the appraised value of the bare land. The Engineer recommended that the lease agreement for $500 per year for a 50-year lease be approved. The Commission approved the lease and authorized the Secretary to sign it.

The Engineer reported that Mr. Harley E. Lowe, Contractor, who had been awarded three contracts by the Commission on September 15 had written, following award of the contracts, stating that he would accept only one project because he had so qualified his proposals. It was found that the proposals did contain a qualification that he would accept only one contract. Although the qualification had not been written in where it should ordinarily be, it was the opinion of the Chief Counsel that it was valid. As a result, the contract for the Ochoco State Park latrine in Crook County in the amount of $9,151.50 had been awarded to Mr Lowe. The contract for the Laurelhurst State Park latrine in Jackson County, Contract No. 5963, had been awarded to Mr. B. D. Greene, Ashland, second low bidder, in the amount of $9,645.50. The contract for the Collier Memorial State Park latrine in Klamath County, Contract No. 5965, had been awarded to the second low bidder, P. J. Bush and Sons Construction Co., Cottage Grove, for $9,957.50. The Engineer pointed out that the second low bidders in each instance had been within the estimated cost as determined by the State. The Commission confirmed prior telephonic approval on the award of the contracts.

The Commission considered a request made by Pacific Concrete Company of Portland, a contractor, for the return of their bid bond because of a clerical error made in their bid made September 13, 1961 on the Camas Swale Bridge Extension on the Goshen-Cottage Grove Section of the Pacific Highway in Lane County, Contract No. 5968. The Engineer stated that the contractor had submitted his worksheets on which he had computed his original bid. The Contractor claimed that on bid item number 11 he had intended to bid $40,000, but in copying the bid to the proposal the sum of $4,000 had been used. The State's estimate of cost for this item was $25,000. The total amount bid by Pacific Concrete was $56,338, and the second bidder had bid $61,000. The State's estimate was $81,284. As there appears to be no doubt that an honest clerical error was made, the Engineer recommended that the five per cent bid bond submitted by the contractor be returned and that authorization be given to readvertise the project. The Bureau of Public Roads, he added, has approved return of the bid bond. The Commission approved return of the bid bond and authorized readvertising of the project.

The placement of temporary construction speed zones was reported by the Engineer. These speed zones, he pointed out, were placed in effect for the safety of the traveling public through highway construction projects. The Commission confirmed establishment of the following temporary speed zones:

45 MPH between M.P. 9.67 and M.P. 13.62 on the Clackamas Overcrossing-Park Place Section of the Cascade Secondary Highway in Clackamas County, effective 8:00 a.m. September 15, 1961.

October ... 1961

(2) 35 MPH between M.P. 7.07 and M.P. 7.70 on the Tillamook River Bridge Section of the Netarts Secondary Highway in Tillamook County, effective 1:00 p.m. October 3, 1961.

Attention was given to a request made by the City of Portland for State participation in the cost of traffic signal revisions on the Pacific Highway East and on the Cascade Secondary Highway. This matter, the Engineer stated, was carefully investigated by the Traffic Engineering Division, and from the facts determined, he recommended that the State participate in the cost of moving the existing traffic signals on the Pacific Highway East from the N. E. Wasco Street Intersections to the N. E. Multnomah Street Intersections, and the conversion of pedestrian-actuated signals to standard fixed-time traffic signals on N. E. 82nd Avenue at N. E. Tillamook and N. E. Siskiyou Streets provided the City will pay $4,500, one-half the total estimated cost of $9,000, and assume all future maintenance and power needs. The Commission approved the project as presented.

The Commission also considered a request from Darrel Johnson, Portland attorney, and Errol Hassel, Deputy Superintendent of School District No. 48 in Washington County, for installation of a traffic signal at the intersection of the Beaverton-Hillsdale Highway and S. W. 78th Avenue, between Beaverton and Portland. The Engineer stated that the investigation indicated that the standard warrants for signal installation are exceeded, and he recommended that a fully-actuated traffic signal be installed at an estimated cost of $12,000. The Commission approved the project.

Authority for an increase in a contract project authorization was requested by the Engineer. The need for additional crushing material and slide removal had caused Contract No. 5615, for construction of the Pioneer Mountain Section of the Corvallis-Newport Highway in Lincoln County, to overrun $21,837.56, or 7.59 per cent. The Commission approved the increase in authorization.

Attention was given to the proposed acquisition of additional property in Waldport to enlarge the maintenance headquarter's site. The Engineer explained briefly that the maintenance site now occupies one block of property with the exception of two lots. One of the lots, occupied by two small houses, has been appraised and an option secured for $4,500. He recommended that the property be secured to provide much needed room at the maintenance site. The Commission approved the acquisition.

The Commission considered a report submitted by the Engineer concerning construction of an interchange at Rice Hill on the Pacific Highway in Douglas County. The Engineer recalled that at the September 15, 1961 meeting, the Commission had approved a survey covering this section of highway. He pointed out that on June 1, 1961 a public hearing had been held on this project. At the hearing there appeared to be no set pattern in the opinions voiced by those attending. However, since that time many of the area residents, as well as the County Court of Douglas County, have

favored the so-called low-level plan, which utilizes the existing underpass. At the Highway Commission Meeting on September 15, 1961 it had been recommended to the Commission that the overcrossing plan be used, as at that time it was felt it would best serve the local interests over a long period of years. Either plan, he stated, is acceptable to the Highway Department and to the Bureau of Public Roads; however, the low-level plan is somewhat cheaper (approximately $80,000). He recommended that the Commission reconsider its action taken September 15, and that the low-level plan utilizing the present undercrossing be constructed. Action was deferred by the Commission pending appearance of a delegation at 2:00 p.m.

The Commission authorized the Secretary to sign the following Cooperative Construction Agreements approved by the Commission prior to granting the Secretary authority to sign:

(1) The City of Bandon, for improvement of the Ferry Creek-Michigan Avenue Section of the Oregon Coast Highway in Coos County. Authorized by the Commission March 10, 1961.

(2) The City of Empire, for improvement of Commercial Street-Woolridge Street Section of the Cape Arago Highway in Coos County. Authorized by the Commission January 27, 1961.

The Commission discussed with the Engineer finance agreements with counties covering County FAS highway construction, and upon his favorable recommendation, approved the following agreements and authorized the Secretary to sign them in behalf of the Commission:

(1) Tillamook County, covering construction of the Jackson Creek Section of FAS 617. This project authorized by the Commission September 29, 1960 and March 10, 1961.

(2) Baker County, covering construction of Powder River Bridge on FAS 509. This project authorized by Commission January 27, 1961.

A proposed budget for the year 1962 was considered. The Engineer mentioned that the proposed budget is the largest Oregon Highway Department budget ever submitted, with estimated total expenditures of $115,118,000. Concerning expenditures, he pointed out that approximately eight per cent of the total budget is for debt service, covering payments of bond maturities and interest; approximately 73.5 per cent for capital outlay, the principal item being highway construction; approximately 11.29 per cent for maintenance; and approximately 7.21 per cent for administration, including maintenance and operation of the parks system, and other administrative and operation details. The Engineer explained various items in the budget as they were brought up by the Commission and recommended approval of the budget as presented. The Commission deferred action for future study.

A proposed budget for the year 1962 for the Travel Information Division was presented by Mr. Robert Notson, representing the Travel Information Advisory Committee. Mr. Notson called attention to an approximate nine per cent gain in the number of tourists visiting Oregon during 1961, and a similar gain in dollar volume of expenditures by these tourists. Because of the World's Fair in Seattle in 1962, he felt that even more people would be attracted to the Pacific Northwest, many of whom would travel through Oregon and the committee hopes to do certain things that will cause these tourists to pause and visit Oregon. Concerning the outline of the budget as set up by the Travel Information Advisory Committee, he stated that it is approximately the same form as for 1961 but with some technical changes. An additional item has been included in the amount of $25,000 for establishing and manning a booth at the Seattle Fair. It is the feeling of the Advisory Committee that the method of expending the proposed budget will produce the greatest benefit in promoting tourism in Oregon and he recommended that the budget for $425,000 be approved. The Commission asked some questions concerning the details of the budget and, after some further discussion, approved the budget as presented.

County Federal Aid Secondary projects totaling $320,000 as requested by Gilliam, Klamath, and Multnomah Counties were presented by the Engineer. These projects, he stated, have been investigated and are eligible for construction. He also mentioned that a request had been received from Curry County for cancellation of a previously approved project in the amount of $72,000. Upon his favorable recommendation, the Commission approved the following projects, including the cancellation in Curry County, and authorized the Secretary to sign the agreements in behalf of the Commission when they are prepared.

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Funds
Gilliam	442	Rock Creek Bridge. Structure	$ 25,000	1963
Klamath	427	K.I.D. "A" Canal Bridge. Structure.	$ 45,000	1963
Multnomah	654	Marine Drive-N.E. Shaver Street. Grade, pave, & structure, 1.1 miles.	$ 250,000	1963
		Subtotal, Additional Projects.....	$ 320,000	
Previously Approved Project for Cancellation				
Curry	881	Langlois-Russell Bridge Section. Grade & surface	$ -72,000	
		TOTAL ADDITIONAL COUNTY FAS FUNDS	$ 248,000	

(Continued on following page.)

SUMMARY BY FISCAL YEARS	1963 (Estimated)	Total
Allocated Funds	$3.692,000	$ 3,692,000
Previously Approved	593,000	593,000
Unprogrammed Balance	$3,099,000	$ 3,099,000
Projects Proposed 10/18/61	248.000	248,000
Unprogrammed Balance	$2.851,000	$ 2,851,000

The Commission considered a request from George E. Berry, contractor on a project known as the Tillamook River Bridge Section of the Netarts Secondary Highway in Tillamook County, Contract No. 5924, for assignment of his contract. The Engineer explained that Mr. Berry proposes to assign this contract to Walter Goodat, dba Goodat Crane Service, and George E. Berry as joint venturers. The request has been investigated, the legal aspects explored and it appears that no harm will accrue to the State by the assignment. The Commission accepted his recommendation that the assignment be approved and authorized the Secretary to sign it in behalf of the Commission.

The Engineer reported that surveys have been completed for relocation or reconstruction of several portions of State highways. These surveys, he stated, have been given very careful engineering consideration in order to provide for the traveling public the best highway facility commensurate with the cost involved. Upon his favorable recommendation, the Commission approved the following highway location surveys, and thereupon adopted resolutions relative thereto marked Exhibits "J-1" and "J-2", which resolutions by this reference are made a part hereof and filed in the Secretary's Office in Salem under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961":

(1) Cascade Gorge-Forest Boundary Section of Crater Lake Highway, Jackson County. (See Exhibit "J-2")

(2) Crawfordsville Bridge Section of Halsey-Sweet Home Highway, Linn County. (See Exhibit "J-1")

(3) Middle Bridge Road-Love Bridge Section of Baker-Homestead Highway, Baker County. (See Exhibit "J-1")

Attention was given to an agreement with the U.S. Corps of Engineers covering relocation of portions of the Columbia River Highway (Interstate 80N), the John Day Highway and the Heppner Highway, because of construction of the John Day Dam. The Engineer stated that approximately 16 miles of the Columbia River Highway is affected between Rufus and Arlington, about 2.8 miles near Heppner Junction, and 2.5 miles near Boardman. Revisions to the John Day Highway are necessary because of the relocation of the City of Arlington and it is also necessary to relocate approximately 3.5 miles of the Heppner Highway near Heppner Junction.

The Corps of Engineers, under public law, will assume the entire cost of the John Day and Heppner Highway relocations and the cost of two-lane construction on Interstate 80N, including four lanes through interchanges and on grades of three per cent or over. The agreement also provides that the State will design and construct all highway bridge projects and allows the State, if it wishes to do so, to construct the sections of the highway not contiguous with the Union Pacific Railroad and to perform all of the surfacing work. He outlined the cost of the project as follows:

U. S. Corps of Engineers	$24,930,000
Federal Aid (U.S. Bureau of Public Roads)	4,770,000
State of Oregon (Matching Funds)	475,000
TOTAL	$30,175,000

Upon his favorable recommendation, the Commission approved the agreement and signed it.

The Engineer presented for the Commission's consideration, requests from contractors for increases in the number of workdays within which to complete construction of contracts without assessment of liquidated damages. These requests, he stated, have been given careful consideration and his recommendations for granting or denying the requests have been made in compliance with the terms of each contract. The Commission took action on the requests as follows:

(1) Inter City Construction Co., Contract No. 5825, for bridge construction, roadwork and paving on the Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County, requested an increase from 140 to 150 days within which to complete the contract without assessment of liquidated damages. After carefully reviewing the conditions and other facts in this instance, the Commission granted the request. A letter was presented from the Bureau of Public Roads concurring in the extension of time.

(2) Warren Northwest, Inc., Contract No. 5618, for paving and signing on the Lancaster Drive-Sublimity Gun Club Section of the North Santiam Highway in Marion County, requested an increase from 125 days to 135 days within which to complete the contract without assessment of liquidated damages. The Commission approved an extension from 125 to 128 days which was the time required to complete the contract. A letter from the Bureau of Public Roads was presented concurring in the extension.

(3) Roy L. Houck Sons' Corporation, Contract No. 5834, for grading, paving, structures and signing, on the Evans Creek-Rock Point Section of the Pacific Highway in Jackson County, requested an increase from 123 to 153 days within which to complete the contract without assessment of liquidated damages. After carefully considering all available information, the Commission denied the request.

(4) Robert Angell, Contract No. 5814, for grading and paving on the Douglas Avenue-South City Limits (Roseburg) Section of the Oakland-Shady Highway in Douglas County, requested an increase from 80 days to 95 days within which to complete the contract without assessment of liquidated damages. After carefully considering all available facts the Commission granted an increase of 8 days without assessment of liquidated damages. A letter was presented from the Bureau of Public Roads concurring in the extension.

(5) Roy L. Houck Sons' Corporation, Contract No. 5478, for paving on the Halsey Interchange-Lane County Line Section of the Pacific Highway in Linn County, requested an increase from 160 days to 190 days within which to complete the contract without assessment of liquidated damages. After carefully reviewing all available facts, the Commission approved an increase of 32 days without assessment of liquidated damages contingent upon concurrence by the Bureau of Public Roads.

(6) Warren Northwest, Inc., Contract No. 5838, for paving on the Willamette River Bridge-Woodburn Interchange Section of the Pacific Highway in Marion and Clackamas Counties, requested an increase from 70 days to 83 days within which to complete the contract without assessment of liquidated damages. After carefully considering all available information, the Commission approved an increase of 9 days without assessment of liquidated damages, subject to concurrence by the Bureau of Public Roads.

(7) Peter Kiewit Sons' Company, Contract No. 5385, for paving the S.W. 11th Avenue-Tigard Interchange Unit, Harbor Drive-Washington County Line Section of the Pacific Highway in Multnomah County, requested an increase from 120 days to 171 days within which to complete the contract without assessment of liquidated damages. After careful consideration of all available information, the Commission approved an extension of time from 120 days to 170 days without assessment of liquidated damages, provided the Bureau of Public Roads concurs.

(8) Roy L. Houck Sons' Corporation, Contract No. 5592, for paving on the McKenzie River-Willamette River Section of the Pacific Highway in Lane County, requested an increase from 125 days to 165 days within which to complete the contract without assessment of liquidated damages. After carefully considering all available information, the Commission approved an increase of 32 days without assessment of liquidated damages contingent, however, upon concurrence by the Bureau of Public Roads.

(9) Keystone Construction Co., Inc., Contract No. 5604, for grading on the Baker-Pleasant Valley Section of the Old Oregon Trail Highway in Baker County, requested an increase from 200 days to 225 days within which to complete the contract without assessment of liquidated damages. After careful consideration of all available information, the Commission approved an extension of 64 days without assessment of liquidated damages dependent upon concurrence by the Bureau of Public Roads.

The Engineer reported that Contract Nos. 5530, 5568, 5715, 5754, 5768, 5787, 5791, 5813, 5824, 5850, 5857, 5858, 5896, 5901, 5904, 5909, 5910, 5911, 5913, 5914, 5915, 5918, 5920, 5922, 5928, 5938, and 5949 for highway construction have been completed in accordance with the requirements of the contracts or modifications thereof and said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution relative thereto, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

The Engineer reported that the Tigard Interchange-Harbor Drive Section of the Pacific Highway in Multnomah County is scheduled for opening this fall. To conform with Commission policy, he recommended that a 70 mile-per-hour speed zone be established on the Pacific Highway No. 1 between the south city limits of Portland (M.P. 5.77) and a point 0.28 mile south of S.W. Barbur Boulevard (M.P. 7.99) and that ramp speeds be established as follows:

S.W. Taylors Ferry Road Interchange:

25 miles per hour Northbound Off Ramp

Capitol Highway Interchange:

25 miles per hour Southbound Off Ramp

Tigard Interchange:

45 miles per hour Southbound Off Ramp
45 miles per hour Northbound Off Ramp

The Commission accepted his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

The Engineer also reported that the Rogue River-Rock Point Section of the Pacific Highway No. 1 in Jackson County is now constructed to interstate standards, and to conform with the Commission's policy, he recommended that a 70 mile-per-hour speed zone be established on the Pacific Highway between the south city limits of Rogue River (M.P. 270.37) and the southerly end of Rock Point Interchange (M.P. 275.18), and that ramp speeds be established as follows:

(Continued on following page.)

Homestead on the Rogue Interchange:

25 miles per hour Southbound Off Ramp
45 miles per hour Northbound Off Ramp

Rock Point Interchange:

45 miles per hour Southbound Off Ramp
45 miles per hour Northbound Off Ramp

The Commission accepted his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-2", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

Attention was given to a request made by Mr. Ernest D. Mosier, Sheriff of Wasco County, for a speed zone investigation on the Mosier-The Dalles Highway No. 29[illegible] in the community of Rowena. The Engineer stated that a speed check on this section disclosed that 85 per cent of the vehicles were traveling at, or below, the speed of 39 miles per hour. He recommended that a 40 mile-per-hour speed zone be established on the Mosier-The Dalles Highway between a point 100 feet west of the connection to the Rowena Interchange (M.P. 9.36) and 0.75 mile east of Rowena School (M.P. 10.41), except that the indicated speed during hours of school crossings shall be 20 miles per hour between M.P. 9.54 and M.P. 9.78. The Commission accepted his recommendation and thereupon adopted a resolution relative thereto marked Exhibit "B-3", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

To correlate with action taken by the State Speed Control Board on the Halsey-Sweet Home Highway No. 212 in the City of Sweet Home in Linn County, the Engineer recommended that a 50 mile-per-hour speed zone be established on the Halsey-Sweet Home Highway between a point 0.45 mile west of Liberty Road (M.P. 20.18) and the west city limits of Sweet Home (M.P. 21.07). The Commission accepted his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-4", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

Consideration was given to a request from Mr. Thomas King, of the Tollgate area, for the need of a speed zone in the vicinity of Tollgate on the Weston-Elgin Highway No. 330 in Umatilla County. The Engineer stated that a Traffic Engineering report disclosed that 85 per cent of the vehicles were traveling at, or below, the speed of 40.75 miles per hour on this section of the highway. He recommended that a 40 mile-per-hour speed zone be established on the Weston-Elgin Highway between a point 200 feet east of the road to Woodward Forest Camp (M.P. 19.41) and 300 feet east of the road to Tollgate Ranger Station (M.P. 19.95). The Commission accepted

his recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-5", which resolution by this reference, is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

The Engineer recommended the prohibition of shoulder parking in the community of Tigard on the westerly side of the Beaverton-Tualatin Highway No. 141 in Washington County, between M.P. 4.92 and M.P. 4.97. He explained that vehicles parked on this section interfere with the operation of a right-turn lane from north to west. The Commission approved the recommendation by adopting a resolution relative thereto marked Exhibit "C-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961"

The Engineer reported that the construction of the Albany-Santiam Interchange Section Project on the Santiam Highway No. 16, in and near the City of Albany, Linn County, has been completed. He stated the design provides for four lanes with shoulder parking eliminated. He recommended that parking be prohibited on the rural portion of the Santiam Highway No. 16, as follows:

On the southerly side of US20:

From the east city limits of Albany (M.P. 0.06) (Engineer's Station 70+63) to 130 feet east of the easterly right-of-way line of Chestnut Street (M.P. 0.80) (Engineer's Station 109+40).

On the northerly side of US20:

From the northeasterly city limits of Albany (Waverly Drive) (M.P. 0.45) (Engineer's Station 90+80) to 130 feet east of the easterly right-of-way line of Chestnut Street (M.P. 0.80) (Engineer's Station 109+40).

The Engineer stated that the Albany City Council has enacted an ordinance prohibiting parking on the portion of the Santiam Highway within the city limits of Albany. He recommended that the Commission concur in the City's action prohibiting parking on the Santiam Highway No. 16 as follows:

On the northerly side of US20:

From the junction with the Albany-Junction City Highway No. 58 (M.P. 0.00) (Engineer's Station 67+45) to the northeasterly city limits of Albany (Waverly Drive) (M.P. 0.45) (Engineer's Station 90+80).

On the southerly side of US20:

From the junction with the Albany-Junction City Highway No. 58 (M.P. 0.00) (Engineer's Station 66+65) to the east city limits of Albany (M.P. 0.06) (Engineer's Station 70+63).

The Commission approved his recommendations and thereupon adopted a resolution thereto marked Exhibit "C-2", which resolution by this reference, is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

Chairman McIver inquired about a hazardous intersection on the Beaverton-Beaverton Highway in the vicinity of Raleigh Hills. The Engineer stated that a traffic separation is needed which will cost considerable money because of many extensive improvements in the area. The Commission instructed the Engineer to study the matter to determine a feasible future plan for this intersection.

Authority for out-of-state travel for four State Highway employees was requested by the Engineer and approved by the Commission, as follows:

(1) C. H. Maison, Auditor, to attend Financial Management Conference of Bureau of Public Roads and State Highway Accounting personnel in San Francisco, California, on December 4-8, 1961, at an estimated cost of $180.

(2) G. S. Paxson, Assistant State Highway Engineer, to attend a meeting of Bridge Panel for the Road Tests in Illinois, in Chicago, on November 2 and 3, 1961. Expenses to be paid by Highway Research Board.

(3) Carl W. Jordan, Director of Travel Information Division, to attend annual convention of the American Convention and Travel Institute in San Jose, California, on December 3-6, 1961, at an estimated cost of $160.

(4) Confirmed attendance of Clayton Anderson, Recreation Director, at 43rd National Recreation Congress in Detroit, Michigan, on October 1-6, 1961, at an estimated cost of $370.

Commissioner Fridley asked when the Highway Research Board's AASHO test road report would be completed. The Engineer stated that on his recent trip to Chicago, the Highway Research Board indicated the report would not be completed until June or July of 1962.

The Engineer presented for approval a resolution covering abandonment to the adjoining property owner of a portion of the Deschutes River [illegible] the Wemple Highway in Deschutes County. He explained that [illegible] section has been replaced by new alignment leaving a short section of the highway outside of the present right-of-way limits which is of no further use for highway purposes. The Commission approved the abandonment by adopting a resolution pertaining thereto, marked Exhibit "G-1", which resolution by this reference, is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

The Commission considered another abandonment resolution covering the Pioneer Mountain Section of the Corvallis-Newport Highway in Lincoln County. The Engineer stated that the new section replaces a considerable length of the old highway which Lincoln County has agreed to take back as part of its highway system. Upon the Engineer's recommendation the Commission approved the abandonment by adopting a resolution relative thereto, marked Exhibit "G-2", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961".

The Engineer reported that agreements with Wheeler County and the City of Fossil have been reached covering the abandonment of portions of the John Day Highway on the Cummings Pass-Fossil Section in Wheeler County when the new section is completed and opened to the traveling public. He stated that Wheeler County has agreed to accept portions of the old John Day Highway that will no longer be in use due to the construction of the new section, and the City of Fossil has also agreed to accept portions of the old highway within its city limits. Upon the recommendation of the Engineer, the Commission approved the agreements and authorized the Secretary to sign them in behalf of the Commission.

The Commission approved the reappointment of Mr. Floyd Query as Secretary to the Commission for a four-year period beginning November 1, 1961 and thereupon adopted a resolution relative thereto, marked Exhibit "K", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of October 20, 1961"

The Commission confirmed approval of an indenture agreement with the Southern Pacific Company covering the Rogue River Park Grade Crossing, PUX 430, in Jackson County. The Engineer stated that prior approval was needed in order to allow the contractor to start work on this project.

Consideration was given to a crossing agreement with the Talent Irrigation District covering the North Ashland Interchange-South Ashland Interchange Section of the Pacific Highway in Jackson County. Upon favorable recommendation of the Engineer the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

An agreement with the Union Pacific Railroad Company covering The Dalles (East) Overcrossing, PUX 407, at the railroad tracks in Wasco County was considered. This agreement, the Engineer stated, is needed because of highway construction which crosses the railroad. He recommended that the agreement be approved. The Commission accepted his recommendation.

An agreement with Crown Zellerbach Corporation covering the relocation of the Columbia River Highway at Columbia City in Columbia County was presented by the Engineer. Upon his favorable recommendation the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission

A Throughway Agreement with Hood River County providing for closure of county roads and access provisions to the Mitchell Point-Hood River Section of the Columbia River Highway in Hood River County was presented by the Engineer. Briefly, he stated that the agreement is necessary in order to take care of county roads which intersect with the Interstate Highway, and he recommended that it be approved. The Commission approved the agreement and authorized the Secretary to sign it in their behalf.

A request was considered from the Baker County Court to permit the county to occupy a radio station site in Baker County on property previously owned by Frank D. Baird and Emma Baird. The Engineer explained that the radio site is jointly occupied by the State Highway Department and by the Idaho Power Company under terms of a previous agreement. The property has since been sold to Wayne Morris and William R. Peyron. The proposed agreement, allowing Baker County to use the site, will not be detrimental to the interests of the State, and he recommended that the Commission approve a joint-use agreement. The Commission approved the agreement and authorized the Secretary to sign it in their behalf.

The Commission approved the Secretary's report on papers signed in behalf of the Commission during the period from September 11 through October 18, 1961

The next regular Commission meeting date was set for Friday, December 8, 1961 in the Conference Room of the State Highway Building in Salem. A tentative date of Friday, January 19, 1962, was set for the following meeting

The Commission considered an agreement with the Westport Diking District No. 15 on the Westport-Clatskanie Section of the Columbia River Highway in Clatsop and Columbia Counties. This agreement, the Engineer explained, involves a highway crossing of the District's dike and reconstruction of the dike in connection with highway reconstruction. Upon his favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

The Commission gave attention to a petition, submitted by 64 residents of the Powers area, requesting a survey and early improvement on the Powers Secondary Highway in the northerly portion of the City of Powers in Coos County. The petition also called attention to hazards to pedestrian travel, particularly school children, along the highway in North Powers. The Engineer stated that the Powers Secondary Highway needs improvement throughout practically its entire length, but at the present time funds for a major project are not available. He recommended that the petitioners be advised that it is not possible to finance highway improvement at this time but that an investigation would be made concerning the pedestrian problem as to whether some solution could be worked out. The Commission accepted the recommendation.

A request from the City of Albany for an "Air Easement" over property owned by the State Highway Department within the south approach zone of the Albany Municipal Airport runway was discussed. Upon inquiry by Chairman McIver, the Chief Counsel explained that the air over the Pacific Highway near the Albany Airport is owned by the Highway Department upwards a certain distance, and the easement is to allow legal traffic by planes over the highway. The Commission approved the easement.

Consideration was given to a letter from the Neah-Kah-Nie Community Club of Nehalem opposing the reopening of the seashore beach to automobile traffic in the City of Manzanita. The Engineer recalled that the Highway Commission on September 15, 1961 had adopted a resolution, at the request of the City of Manzanita, revoking a resolution which had previously closed the Manzanita Beach to vehicular traffic. The resolution adopted September 15 reopened the beach to vehicles under a 15 mile-per-hour restriction. He pointed out that the beach area outside of the city limits of Manzanita has been open to vehicular traffic all the time as these areas were not included in the Manzanita resolution. However, it appears the only access to the nearby beaches is in the City of Manzanita. An investigation, he stated, disclosed no evidence in favor of closing the beach to vehicles, and he recommended that the Neah-Kah-Nie Community Club be advised that the action taken by the Commission on September 15, at the request of the Manzanita City Council, in reopening the beach is in the best interests of the general public. The Commission accepted his recommendation.

The Commission again considered the Highway Department budget for the year 1962 and after some questioning by the members of the Commission, the budget was approved as presented.

Concerning the Travel Information Division budget which had been presented earlier in the day, Chairman McIver instructed the Engineer to send a letter to Mr. Robert Notson who had submitted the budget expressing thanks on behalf of the Commission to him and the other members of the Advisory Committee for the time and effort they had put forth in formulating the budget.

The Commission discussed with the Engineer bids received for highway construction projects on October 18. The Engineer indicated the low bidder on each project and the estimated amount of the contract and made his recommendation as to award, referral, or rejection of the bids. The Commission accepted the Engineer's recommendation on the awarding of the various contracts, as follows, and authorized the Secretary to sign the contracts in behalf of the Commission:

BIDS RECEIVED IN SALEM ON OCTOBER 18, 1961

"Powder River (Keating) Bridge in Baker County. The Commission elected to accept the low bid of Bechtel Bros., La Grande, in the sum of $[illegible],273.60 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Baker County is received and the sum of $27,000.00 is deposited by the County.

"Illumination installation on Willamette River Bridge at Oregon City in Clackamas County. The Commission awarded the contract to the low bidder, Electric Corporation, Salem, at $7,490.00.

"Grading, paving and rock production on the Westport-Clatskanie Section of the Columbia River Highway, west of Clatskanie in Clatsop and Columbia Counties. The Commission elected to accept the low bid of Kuckenberg Construction Company, Inc., Portland, in the sum of $1,818,074.10, and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads is received.

"Stone base, oiling, and signing on the Powers Junction-Sugarloaf Mountain Section of the Coos Bay-Roseburg Highway, about one mile southeasterly of Myrtle Point in Coos County. The Commission awarded the contract to the low bidder, Calkins Crushing Company and Burch Gravel Company, Oceanlake, at $239,409.49.

"Grading and paving on Commercial Street-Woolridge Street Section of the Cape Arago Highway in Empire in Coos County. The Commission elected to accept the low bid of Bay Pavers, Inc., North Bend, in the sum of $69,385.50 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Empire is received and the sum of $17,925.00 is deposited by the City.

"Grading, oiling, and structure on Myers Creek-Burnt Hill Section of the Oregon Coast Highway, about 16 miles north of Brookings in Curry County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., and Carl M. Halvorson, Inc., Portland, at $1,051,435.30.

"Main Street Bridge over Cow Creek at Riddle in Douglas County. The Commission referred all bids to Douglas County.

"Hood River UPRR Overcrossing, eastbound, on Columbia River Highway in Hood River County. The Commission awarded the contract to the low bidder, Pacific Concrete Company, Portland, at $288,033.00.

"Grading and structure on North Ashland Interchange-South Ashland Interchange Section of the Pacific Highway in the vicinity of Ashland in Jackson County. The Commission awarded the contract to the low bidder, C. R. O'Neil, Creswell, at $1,829,313.50.

"Radio and office building at Medford in Jackson County. The Commission awarded the contract to the low bidder, Rogue Valley Construction Company, Medford, at $18,456.00.

"Grading, paving and structure on U.P. Overcrossing-Madras Section of the Warm Springs Highway, north of Madras in Jefferson County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $203,078.00.

"U.S.R.S. Canal Bridge, U.S.R.S. Canal Section (at M.P. 25.71), on the Klamath Falls-Malin Highway, approximately one mile easterly of Malin in Klamath County. The Commission awarded the contract to the low bidder, Pacific Concrete Company, Portland, at $37,333.00.

"Mill Creek Bridge. 84' RCDG Bridge on County Road 307, approximately 3/4 mile north of Logsden in Lincoln County. The Commission referred the only bid received to Lincoln County.

"Oak Grove Rest Area, Pacific Highway, 10.7 miles north of Eugene in Linn County. The Commission awarded the contract to the low bidder, Meyer Construction Company, Silverton, at $28,121.46.

"Ontario Office Building in Malheur County. The Commission awarded the contract to the low bidder, David G. Dorsey, Caldwell, Idaho, at $74,049.00.

"Grading on Jackson Creek Section of the Netarts-Sand Lake Highway, near Cape Lookout State Park in Tillamook County. The Commission elected to accept the low bid of Linn-Lane Construction Company, Sweet Home, in the sum of $82,652.00 and directed the State Highway Engineer to award the contract to said bidder as soon as approval of Tillamook County is received and the sum of $19,500.00 is deposited by the County.

"Wallowa Lake State Park Boat Ramp, about 6 miles southeast of Joseph in Wallowa County. The Commission awarded the contract to the low bidder, White Bros. Construction Company, Inc., Walla Walla, Washington, at $17,806.00."

On the Jackson Creek Section Project in Tillamook County, the Engineer explained that the low bidder, Linn-Lane Construction Company, had an error in their bidding proposal; they had written under Item 19, "Class A Concrete", a unit amount of $10.00 per yard but had extended it at $60.00 per yard, thereby making their bid $99,359.00. The State, however, had used the $10.00 per yard unit figure in arriving at the low bid of $82,652. He felt that this company may refuse to accept award of the contract. Since there is only about a $2,000 difference between the low bid and the second low bid, the Commission authorized the Engineer to award the contract to the second low bidder, Buckley Bell, Roseburg, at $84,676.92 if the low bidder refuses to accept the award of the contract.

The Commission discussed with the Engineer problems and requests to be presented by delegations scheduled to appear before the Commission beginning at 1:30 p.m. No action was taken at this time pending the appearance of the delegations.

The Engineer stated that a request had been received from Spray Grange #940 requesting improvements to the Heppner-Spray Highway (ORE207). He pointed out that continuing projects have been sponsored by the

Commission south of Ruggs, the work being performed with Federal Forest [illegible] These funds, he stated, are quite limited, and he recommended that the Grange be advised that the Commission will give careful consideration to further improvements when funds of any nature are available. The Commission accepted the recommendation.

The Commission signed, or authorized the Secretary to sign, deeds, indentures, agreements and other papers, as follows:

"Indenture of Access" to the Laurel C. and Virginia Dennis property on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County.

"Indenture of Access" to the Donald R. and Peggy M. Loving property on the 102nd Avenue-Sundial Road Section of the Columbia River Highway in Multnomah County.

"Grant of Access" to Frank T. and Margaret A. Willson to property on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County.

"Modification of Use of Access" to R. J. Tweedy on property on Rock Point-Gold Beach Section of Oregon Coast Highway in Curry County.

"Release of Access Restrictions" to restore to owners, Chester and Opal McCriff, access to S. W. 95th Avenue, located on Denny Road-Pacific Highway West Section of Beaverton-Tigard Highway in Washington County.

"Grant of Access" re-lifting of access restrictions to the relocated county road known as Russell Road which connects to and is a part of the Sanitary Flat Interchange on the North Santiam Highway east of Salem in Marion County.

"Agreement" with OWRR & N Company covering The Dalles (East) Overcrossing of the railroad tracks in Wasco County.

"Air Easement" with City of Albany granting air easement over State property located within the south approach zone of the Albany Municipal Airport main runway.

"Bargain & Sale Deed" to Marion Stafford Hansell and Mary Elizabeth Hansell; William H. Hansell and Joyce J. Hansell for a parcel of land on the Boardman-Stanfield Junction Section of the Old Oregon Trail Highway in Umatilla County

"Bargain & Sale Deed" to Calvin D. and Shirley F. Ott for a parcel of land on the Redmond-Bend Section of The Dalles-California Highway in Deschutes County. (Authorized 9/15/61)

"Bargain & Sale Deed" to Michael A. and Mabel O. Scupien for a parcel of land on the Medford-Ashland Section of the Pacific Highway in Jackson County. (Authorized 9/15/61)

"Bargain & Sale Deed" to Anders C. and Katharine E. Christensen for a parcel of land on the Albany-Judkins Point Section of the Pacific Highway East in Linn County. (Authorized 7/28/61)

"Bargain & Sale Deed" to Thomas J. Parker and Associates, Inc. for a parcel of land on the Northbound Route in Ashland on the Pacific Highway in Jackson County. (Authorized 7/7/60)

"Bargain & Sale Deed" to John K. and Beatrice I. Frizzell for a parcel of land on the Mosier-The Dalles Section of the Columbia River Highway in Wasco County. (Authorized 9/15/61)

"Extension Rider" to OWRR & N Co. covering lease of storage sites for crushed rock at M.P. 25.38 and 27.8 on the John Day Highway in Gilliam County.

"Relinquishment of Title" to State Game Commission to a parcel of land on the Forest Boundary-Haines Section of the Haines-Anthony Highway in Union County. (Authorized 9/15/61)

"Release of Slope Easement" to the Shell Oil Company covering property on the Crooked River-Prineville Section of Ochoco Highway in Crook County.

"Easement" to the Bureau of Land Management granting an "Easement of Access" across a stockpile site at M.P. 37.21 on Siuslaw Highway in Lane County.

"Contract No. DA-45-164-CIVENG-61-103" covering relocation of Oregon Highway Facilities in connection with the John Day Lock and Dam Project on the Interstate Highway 80N.

"Minutes" for meeting of September 15, 1961.

"Petition" to exclude approximately 152 acres of land in Jackson County from the Medford Irrigation District.

"Agreement" with the Pacific Power and Light Company covering extension of electrical facilities to Koberg Beach Wayside in Hood River County.

"Cooperative Construction Agreement" with City of Bandon for improvement of the Ferry Creek-Michigan Avenue Section of Oregon Coast Highway, Coos County.

"Cooperative Construction Agreement" with the City of Empire covering improvement of Commercial Street-Woolridge Street Section of Cape Arago Highway in Coos County.

"Agreement" with Tillamook County covering construction of the Jackson Creek Section of FAS 617.

"Agreement" with Baker County covering construction of Powder River (Keating) Bridge on FAS 509.

"Agreement" with George E. Berry, for permission to assign his Contract No. 59-4, Tillamook River Bridge Section of Netarts Highway in Tillamook County to George E. Berry and Walter Goodat, dba Goodat Crane Service, Joint-Venture.

"Agreement" with Wheeler County covering abandonment of old sections of highways on the Cummings Pass-Fossil Section of the John Day Highway in Wheeler County.

"Agreement" with City of Fossil covering abandonment of old sections of highways on the Cummings Pass-Fossil Section of the John Day Highway and Shaniko-Fossil Secondary Highway in Wheeler County.

"Agreement" with the Talent Irrigation District covering North Ashland Interchange-South Ashland Interchange Section of Pacific Highway in Jackson County.

"Agreement" with Crown Zellerbach Corporation covering the relocation of the Columbia River Highway at Columbia City, Columbia County.

"Agreement" with Hood River County providing for closure of county roads or access to the Mitchell Point-Hood River Section of the Columbia River Highway, Hood River County.

"Agreement" with the Westport Diking District No. 15 covering reconstruction of a portion of the District's dike necessitated by construction of the Westport-Clatskanie Section of Columbia River Highway.

"Joint-Use Agreement" with Baker County Court, Idaho Power Company, Wayne Morris and William R. Peyron granting Baker County permission to occupy a portion of a radio station site used by State and Idaho Power Company in Section 31, Township 9, Range 41E, W.M. Baker County.

The meeting was recessed at 12:00 Noon to be reconvened in the same room at 1:20 p.m.

After lunch a delegation from Baker County came before the Commission to urge that improvements be made to the Anthony Lakes Road. The following people from Baker were present: Lloyd Rea, County Judge; Myron C. Brinton, Record-Courier newspaper; Dr. Donald Campbell, Baker City Council and Chairman of the Tourist & Recreation Committee, Baker Chamber of Commerce; Burt Vanderwall, Anthony Lakes Resort; Rives Waller, Vice President of the First National Bank; Kenneth Lockwood, Secretary of Baker Industrial Resources, and Manager-Owner of radio station; Vern [illegible], Manager of the Baker County Chamber of Commerce; Stewart Sullivan, Baker Branch of the U.S. National Bank of Portland; and Ira Staggs, President of the Baker County Chamber of Commerce. The Honorable Lloyd [illegible], acted as spokesman and introduced the members of the

delegation to the Commission. He requested the Commission to place the Anthony Lakes Road from Anthony Lakes to Granite on the Forest Highway System. He called attention to the fine scenic value in this area and its attraction to tourists for recreational use. However, the road beyond the forest boundary, he stated, is not in condition to withstand much traffic. He recalled that local people on their own initiative had started improvement of this road in 1939, and during the war a request had been made to the Commission that the road be designated as a Forest Highway. In conversations with members of the U.S. Bureau of Public Roads and the U.S. Forest Service, he stated that he had found no opposition from them. It was his opinion that the Anthony Lakes Road should qualify equally as well for a Forest Service Highway as the Ukiah-Starkey Secondary. He called attention to the fact that in the two-month period ending September, 1961, 6,000 cars, excluding log trucks, had used the highway. Improvement of this road with county funds, he stated, is not feasible as Baker County has only 17,000 people. It was also his feeling that the scenery and other attractions in the Anthony Lakes area make it of state-wide interest rather than local. He presented letters from the Pendleton Chamber of Commerce and La Grande Chamber of Commerce urging early improvement on the Anthony Lakes Road. Mr. Ira Staggs, President of the Baker County Chamber of Commerce, stated that Baker County is solidly in support of development of the highway. He mentioned a sequence of economic events in Baker County pointing out that in 1861 gold and agriculture were the principal sources of income. In the 1940's gold had dropped from the picture and agriculture and lumber were the principal items. A third element, he stated, is now entering the picture and that is the income derived from tourists. The Anthony Lakes, he stated, is a beautiful area and provides year-round sports activities. Mr. Byron Brinton emphasized the poor condition of the existing road. Forest Service officials have stated that they cannot adequately maintain the road in its present condition and have indicated, he continued, that the road should have high priority for improvement. He also mentioned the excellent natural facilities afforded for winter sports. He pointed out that it is not a difficult snow maintenance area because the owner of a private winter sports development at his own expense keeps the road open from the forest boundary, a distance of 4 miles. Anthony Lakes with its excellent snow, he felt should rival Sun Valley in Idaho as a winter resort if it is properly developed and accessible in the wintertime. Chairman McIver stated that the Commission would give the delegation's request every possible consideration.

A delegation from Yamhill and Washington Counties, headed by members of the Yamhill County Court, came before the Commission to urge improvement of the Tualatin Valley Highway (Oregon Route 47) from McMinnville north. The following persons were present: Charles M. Teegarden and Guy Shumway, Yamhill County Commissioners from McMinnville; George Irey, farmer, and George Zimmerman, seed and feed business, both from Yamhill; Clayton Nyberg, Washington County Commissioner, Hillsboro; Arnold N. Franks, Manager, Chamber of Commerce; Daniel C. Potter, City Manager; Richard Fendall and Earl Bryan, Chamber of Commerce; John S. Van Doren, President, Chamber of Commerce; Homer Wallatz, President of the Hwy. 99W Alternate Association; and Hugh McGilvra, Chamber of Commerce Road Committee and Hwy. 99W Alternate Association, all of Forest Grove. Yamhill

County Commissioner, Charles N. Teegarden, pointed out that the existing highway had been constructed nearly 40 years ago and although well-constructed for a road of that vintage, it is entirely too narrow and crooked for today's traffic. He asked that an early survey be made for improvement of the highway. Mr Hugh McGilvra recalled that portions of this highway north from McMinnville were among the first concrete paved roads in Oregon and the first contract between Forest Grove and Gaston had been let at $5,000 per mile. In one 6 mile section of the road between Forest Grove and Gaston, he stated that he had counted eighteen curves. People who travel the highway, he stated, appreciate improvements which have been made east of Forest Grove but improvements are badly needed to the south between Forest Grove and McMinnville. This road, he stated, is practically limited to local traffic because of restrictions imposed on truck traffic. He also pointed out that if properly improved, Route 47 could be used as an excellent alternate defense road in that it provides an almost direct route to the Longview Bridge across the Columbia River. He told of the increased traffic demands upon this highway, including use by employees traveling to and from the industrial area of Washington County, transportation of commodities and materials from the Tualatin and Willamette Valleys, and travel by parents and students to and from the colleges. He felt that improvement of this highway would increase the north and south flow of traffic through Washington and Yamhill Counties with resulting benefits to their economies. Mr. Clayton Nyberg stated that the Washington County Court had indicated to him that they were solidly in favor of early improvement to Route 47. Chairman McIver told the delegation that the Commission appreciates all of the information given to them and that serious consideration would be given to their request when funds are available.

Mr. Gordon G. Carlson, Attorney, Roseburg, Mr. and Mrs. J. W. MacDonald, and Mr. and Mrs. D. M. Webb, Yoncalla, appeared before the Commission concerning construction of the Rice Hill Interchange on the Pacific Highway in Douglas County. Also present was Mr. O. R. Anderson, Standard Oil Company representative. Mr. Carlson who acted as spokesman stated that the Webbs who are property owners, and the MacDonalds who operate a restaurant and service station in this area, favor the northerly diamond-type interchange, also known as the high level plan. He protested the proposed change in location of the interchange from the northerly diamond-type plan to a location utilizing an existing underpass and referred to as the low level plan. He read copies of letters which he felt indicated an engineering difference of opinion as to which is the best plan. It was also his feeling that a full cross section of public opinion in the area had not been secured. He presented a petition signed by 36 people who, he stated, favored the high level plan. The MacDonalds had hoped to reactivate their restaurant and service station business by-passed ten years ago if the high level plan is used. Two oil companies, he stated, are concerned in the location of the interchange; the Richfield Company favoring the low level plan and the Standard Oil Company, the high level plan. Mr. O. R. Anderson, Portland, property representative for Standard Oil Company, stated that from the plans he had seen it did not make much difference to his company which plan was used, but if he had to state a preference for one or the other, he would probably favor the northerly high level plan. Mr. Carlson stated that location of the interchange should not be determined on

popular vote or number of signatures or petitions nor by political influence, but that the interchange should be constructed which best serves the interests of the community which he felt would be the northerly high level plan. Mrs. MacDonald stated that she and her husband had purchased their restaurant and service station in 1948 and the highway had been moved away from them. They then located their business in a new area. If the highway is moved again, they will be unable to continue in business. Following departure of the delegation, the Commission discussed briefly the relative merits of the northerly high level plan and the low level plan utilizing the existing underpass. After careful consideration they accepted the Engineer's recommendation that the low level plan be used.

There being no further business to consider, the meeting was adjourned at 2:25 p.m., the members of the Commission to meet with the Governor at 2:30 p.m.

W C. Williams (deceased 11-30-61)
State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
November 15, 1961

The Oregon State Highway Commission met in regular session at 10:00 a.m. in the Conference Room of the State Highway Building. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
C. H. Maison, Auditor
Gene Huntley, Director of Personnel and Public Relations
Carl W. Jordan, Director of Travel Information
Floyd Query, Secretary

Mr. W. C. Williams, State Highway Engineer, was excused because of illness.

The Honorable Howard C. Belton, State Treasurer; Mr. Gordon A. Barker, Deputy State Treasurer; Mr. Ralph Antico, Assistant to the Deputy State Treasurer, were also present in connection with the opening of bids for sale of highway bonds.

The Commission approved a portion of the Minutes of the October 20,1961 meeting pertaining to the Commission's action on that date concerning sale of $12,000,000 of highway bonds authorized by Chapter 345 of the 1961 Session Laws for a bridge across the Columbia River at Astoria and the sale of $8,000,000 of highway bonds authorized by Chapters 381 and 483 of the 1961 Session Laws for other highway improvement.

Chairman McIver announced that bids would be opened and read for the sale of both bond issues this morning and the Commission would announce its action as to award by 12:00 noon. Mr. Gordon A. Barker, Deputy State Treasurer, opened and read bids as follows:

$8,000,000, SERIES 1962 - A

	Total Interest Cost	Effective Interest Rate
The First National Bank of Chicago Morgan Guaranty Trust Company of New York Account Managers, and Associates	$1,179,040	2.679636%

	Total Interest Cost	Effective Interest Rate
Smith, Barney & Co. Halsey, Stuart & Co., Inc. C. J. Devine & Co. Continental Illinois National Bank & Trust Co. of Chicago Joint Managers, and Associates	$1,214,760	2.7608%
Bankers Trust Company First National City Bank Joint Managers, and Associates	$1,194,184	2.71405%
Harris Trust and Savings Bank The First National Bank of Oregon, Portland The Chase Manhattan Bank And Associates	$1,192,960	2.7112%

$12,000,000, SERIES 1962 - B

The First National Bank of Chicago Morgan Guaranty Trust Company of New York Account Managers, and Associates	$7,461,880.00	3.361207%
Harris Trust and Savings Bank The First National Bank of Oregon, Portland The Chase Manhattan Bank And Associates	$7,401,600.00	3.334%
Smith, Barney & Co. Halsey, Stuart & Co., Inc. C. J. Devine & Co. Continental Illinois National Bank & Trust Co. of Chicago Joint Managers, and Associates	$7,605,600.12	3.4259%
Bankers Trust Company First National City Bank Joint Managers, and Associates	$7,523,272.00	3.388861%

The Commission approved a portion of the Minutes of the meeting of October 20, 1961, pertaining to a lease of 15 acres of land from the U.S. Corps of Engineers for a maintenance site at The Dalles in Wasco County. Approval had been requested by the Corps of Engineers to confirm signing of the agreement by the Secretary to the Highway Commission.

The Right of Way Engineer presented for consideration options, pages 1 through 33, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

Chairman McIver inquired of the Right of Way Engineer concerning the status of right of way acquisition on highway construction projects in Portland and other sections within the State. He also inquired as to whether there had been any complaints from property owners who are required to move from their properties on the Minnesota Freeway Section in Portland. The Right of Way Engineer stated that no "hardship" cases had come to his attention as adequate time was being allowed property owners to secure new locations. In response to an inquiry made by Chairman McIver, the Deputy Highway Engineer explained the status of several highway projects including the Hood River Interchange on the Columbia River Highway.

A Bi-Party Permit of Entry with Portland General Electric Company, File No. 28591, concerning the Marquam Bridge Pier Project in Portland was presented by the Chief Counsel. He explained briefly that the Entry form is to allow the State Highway Department and its contractors to enter upon property of the Portland General Electric Company in order to construct footings and piers. The form has been signed by the Portland General Electric Company and he recommended that it be approved by the Commission. The Commission approved the Entry form.

The Chief Counsel requested, and the Commission granted, authority to condemn a parcel of property if it cannot be acquired by negotiation. The land in question, he stated, consists of 9.1 acres owned by Bessie Rhoades, File No. R-34011, on the Bummer Creek Section of the Alsea-Deadwood Highway in Benton County. Of the amount being acquired, 3.4 acres is needed for a channel change. The Commission in granting authority to condemn adopted a resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

Some minor changes in an agreement previously approved by the Commission with the U. S. Corps of Engineers concerning relocation of State highways because of construction of the John Day Dam was brought up by the Chief Counsel. The Engineer explained briefly that the GAO Division of the Federal Government had requested some changes concerning advance payments by the U. S. Engineers to the State. The changes requested will not be detrimental to the State and do not involve any reduction in funds paid to the State. He recommended that these changes be approved and that the Secretary be authorized to sign or initial them in behalf of the Commission. The Commission approved the recommendation and instructed the Chief Counsel and the Deputy Highway Engineer to examine carefully the changes proposed.

The Deputy Highway Engineer reported that he had made awards on four contracts which had been referred to him by the Commission with authority to award when certain conditions had been fulfilled. These conditions have been met. The Commission confirmed the award of the following contracts:

(1) Grading on Jackson Creek Section of Netarts-Sand Lake Highway, Tillamook County. Bids received October 18, 1961. Contract No. 5997 awarded October 25, 1961 to Linn-Lane Construction Company, Sweet Home, low bidder.

Linn-Lane Construction Company refused award of this contract. Contract No. 5997 awarded October 25, 1961 to second low bidder, Buckley Bell, Roseburg.

(2) Construction of Powder River (Keating Bridge in Baker County. Bids received October 18, 1961. Contract No. 5998 awarded October 25, 1961 to Bechtel Bros., LaGrande, low bidder.

(3) Grading, paving, and rock production on Westport-Clatskanie Section of Columbia River Highway, Clatsop and Columbia Counties. Bids received October 18, 1961. Contract No. 5999 awarded October 25, 1961 to Kuckenberg Construction Co., Inc., Portland, low bidder.

(4) Grading and paving the Commercial Street-Woolridge Street (Empire) Section of Cape Arago Highway in Coos County. Bids received October 18, 1961. Contract No. 6000 awarded October 26, 1961 to Bay Pavers, Inc., North Bend, low bidder.

Attention was given to a request made by Linn-Lane Construction Company that the Commission not accept their low bid made October 18, 1961 in the amount of $82,652 on the Jackson Creek section of the Netarts-Sand Lake Highway in Tillamook County. The Engineer explained that in the proposal the contractor used a unit item of $10.00 per cubic yard for Grade A concrete, Bid Item #19, whereas the extended figure indicated that the unit amount of $60.00 was probably intended. It was the contractors contention that he had intended to bid $60.00 per cubic yard of concrete but in copying the unit item from the worksheet to the bid proposal form, an error had been made and a figure of $10.00 had been placed in the unit amount. The Contractor had submitted his worksheet which tended to verify his claim that the error was made in transcribing. As there appeared no reasonable doubt that an honest mistake had been made, the Deputy Highway Engineer recommended that the proposal not be accepted and that the 5% bid bond submitted with the proposal be released. He also mentioned that the contract had been reawarded to Buckley Bell, second low bidder at $84,676.92 as previously authorized. The Commission accepted the recommendation.

The Commission considered requests from the City of Drain and the Drain Chamber of Commerce for improvement of the 6 mile section of the Umpqua Highway northerly and easterly from Drain in Douglas County. The Deputy Highway Engineer explained briefly that the section referred to is a portion of the old Pacific Highway which has been replaced by a new section to the east. The old section is inadequate and he estimated that it would cost approximately $1,500,000 to improve it to modern standards. However, no funds are available at the present time and he recommended that the people of Drain be so advised and that consideration would have to be given at a later time when funds are available. The Commission accepted the recommendation.

Attention was given to a report made by the Engineer concerning widening and straightening portions of the Medford-Provolt Highway westerly from the City of Jacksonville in Jackson County. The Deputy Highway Engineer stated that a study had been made and it was found that substantial improvements could be made by an equipment rental type project similar to projects performed on the Crater Lake Highway. He recommended an expenditure of $90,000 for this type of improvement which would include construction of a new structure across Jackson Creek in Jacksonville to eliminate a sharp curve. The Commission approved the project.

The Commission considered a request from Leonard B. Mullan, City Manager of Milwaukie, for installation of traffic signals at the intersection of McLoughlin Blvd. (Pacific Highway East) and River Road at Scotts Street in the City of Milwaukie. The Deputy Highway Engineer stated that a traffic engineering investigation had disclosed that signals are warranted because of heavy traffic and the accident record, and that a certain amount of channelization work should be performed. He recommended the installation of a fully actuated traffic signal at an estimated cost of $8,300, and channelization work in the amount of $2,000. The Commission approved the project provided the City of Milwaukie will pay one-half of the cost of the signal installation estimated at $4,150 and provide all future maintenance and power needs. The cost of the channelization work is to be borne entirely by the State. The Commission approved the project as recommended and authorized the Secretary to sign the agreement covering the project in behalf of the Commission.

The Commission considered a request made by the owners of the Big "C" Stores to provide left-turn channelization treatment at the access to their shopping center development on the westerly side of 82nd Avenue (Cascade Secondary Highway No. 160) north of SE Division Street. The Deputy Engineer stated that the development will create considerable traffic on 82nd Avenue, sufficient to warrant a channelizing left-turn installation. It is also advisable to provide left-turn channelization at the intersection of 82nd Street and Division Street. The Big "C" Stores have indicated that they will pay $13,000 of the total cost of the project estimated at $30,000. As the Portland City Limits in this area are coincident with the center line of 82nd Avenue, the City has indicated willingness to pay $4,250, leaving as the State's share the sum of $12,750. He recommended that the project be approved as outlined, and that a parking prohibition be placed on the easterly side of 82nd Avenue from the north City Limits, Mile Point 4.04 to SE Brooklyn Street, Mile Point 4.53. The Commission approved the project as recommended and authorized the Secretary to sign an agreement in behalf of the Commission. The Commission also adopted a resolution relative to the parking of vehicles, marked Exhibit "D-3", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

The Deputy Engineer presented a report concerning a program of work on city streets in cities having a population of less than 5,000 under the $250,000 special street fund appropriated by ORS Sec.805. He explained briefly that 73 applications had been received from various cities

and all had been carefully analyzed. He also pointed out that in the report is a tabulation showing projects which have considerable merit and may be considered in next year's allocations. It was his recommendation that the Commission approve projects in fifteen cities which takes up all of the funds available. The Commission approved special street fund projects as follows:

City	Division	Estimated Cost State	City	Total
Banks	I	$ 17,000	$ 3,000	$ 20,000
Brookings	III	20,000	3,200	23,200
Canyon City	V	13,000	--	13,000
Creswell	III	20,000	4,000	24,000
Gaston	I	14,800	2,700	17,500
Halsey	II	10,800	--	10,800
Lakeview	IV	20,000	25,000	45,000
Lostine	V	11,000	--	11,000
Lyons	II	19,000	--	19,000
Newberg	I	20,000	2,700	22,700
Paisley	IV	14,000	--	14,000
Pilot Rock	V	20,000	10,600	30,600
Sheridan	II	20,000	--	20,000
Spray	V	13,500	--	13,500
Wallowa	V	20,000	2,500	22,500
RECOMMENDED FOR APPROVAL (15 Cities)		$253,100	$ 53,700	$306,800

In discussing the various city projects, Commissioner Jackson inquired if all of the cities that request projects are advised as to what disposition is made of their requests. The Engineer replied that all of the cities are notified.

Attention was given to the installation of signals, widening, and paving at the railroad grade crossing of Southern Pacific Company's Springfield Branch on the Corvallis-Eastside Secondary Highway near Tallman. This portion of the highway, the Engineer stated, is one recently taken over from Linn County between the Pacific Highway and Lebanon. There is

considerable traffic across the railroad tracks and Southern Pacific Company has agreed to contribute fifty-percent of the cost of a railroad signal at this point. The State's share of the cost of the signal he estimated at $5,000. When such signals are installed it is the practice to widen the pavement to four lanes so that vehicles required to stop at railroad crossings can pull out. He estimated the cost of widening and paving at this location at $5,000 and recommended that authority be granted to proceed when an agreement has been reached with the railroad company and an order secured from the Public Utility Commissioner authorizing the signal installation. The Commission approved the project as presented.

The Engineer presented for the Commission's consideration requests from contractors for increases in the number of workdays within which to complete contracts without assessment of liquidated damages. These requests, he stated, have been given careful consideration and his recommendations for granting or denying the requests have been made in compliance with the terms of each contract. The Commission took action on the requests as follows:

(1) Smith Transfer, Contract No. 5918, for grading and paving on the "A" Street extension in the City of Toledo in Lincoln County requested an increase from sixty days to sixty-five days within which to complete the contract without assessment of liquidated damages. After carefully considering all available information, the Commission approved an increase from sixty days to sixty-four days which covered completion of the project without assessment of liquidated damages.

(2) White Brothers Construction Company, Contract No. 5828, for grading, paving, and structures on the Rhinehart-Elgin Section of the Wallowa Lake Highway in Wallowa County requested an increase from 110 days to 155 days within which to complete the contract without assessment of liquidated damages. After carefully considering all available information, the Commission approved an extension of time of 18 days without assessment of liquidated damages. A letter from the Bureau of Public Roads was presented concurring in the extension.

The Engineer reported that contracts Nos. 5580, 5826, 5891, 5905, 5926, 5936, 5941, 5942, 5954, 5974 for highway construction have been completed in accordance with the requirements of the contracts or modifications thereof, and said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution relative thereto, marked Exhibit "B", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

The Engineer reported that under authority previously granted by the Commission he had established a 35 mile-per-hour construction speed zone on the Rock Point-Seven Oaks Section of the Pacific Highway No. 1 between Mile Point 294.95 and Mile Point 302.02 in Jackson County, effective 8:00 a.m., November 13, 1961. This action, he stated, was taken for the safety of the traveling public while moving through the contract operation. The Commission confirmed the construction speed zone.

Because of changes in Mile Post locations and to establish a 20-mile-per-hour speed zone for a school the Engineer recommended that Speed Zone Resolution No. 4, adopted May 15, 1946, be rescinded and that a 40-mile-per-hour speed zone be established as follows:

(1) Freewater Highway No. 339, in Umatilla County, from the Washington State Line at M.P. 0.00 to the north city limits of Milton-Freewater, except that between a point 600 feet north of Ferndale Road and a point 600 feet south of Ferndale Road the designated speed shall be 20 MPH during the hours of school crossings. The Commission approved the revised speed zone and thereupon adopted a resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

The Deputy Engineer reported that an investigation had been made concerning traffic hazards at the junction of the Willamina-Salem Highway and the Independence Highway, west of Salem in Polk County. Left-turn channelization recently installed has made it necessary that shoulder parking be prohibited in the vicinity of this intersection. He recommended that shoulder parking be prohibited on the Willamina-Salem Highway from M.P. 20.47, Engineer Station 272+00, to M.P. 20.68, Engineer Station 261+00, on both sides of the Highway. (See Exhibit "D-1"). He also recommended that shoulder parking be prohibited on both sides of the Independence Highway from M.P. 0.00, Engineer Station 3+00, to M.P. 0.18, Engineer Station 12+50. (See Exhibit "D-2"). The Commission approved the shoulder parking recommendations and thereupon adopted resolutions relative thereto, marked "D-1" and "D-2", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

Out of State travel authorization was requested by the Deputy Highway Engineer and approved by the Commission as follows:

(1) Leonard I. Lindas, Chief Counsel, to Sacramento, California, October 27-30, 1961, for consultation with the Chief Counsel of the California Highway Department in connection with his duties as Chairman of the Legal Affairs Committee of AASHO, at an estimated cost of $110. The Commission confirmed prior telephonic approval for this trip.

(2) Forrest Cooper, Deputy State Highway Engineer; G. S. Paxson, Assistant State Highway Engineer; and L. I. Lindas, Chief Counsel, to attend the annual meeting of the Highway Research Board in Washington D. C. during the week of January 8, 1962, at an estimated cost of $380 for each person.

(3) J. Al Head, Assistant Traffic Engineer, to attend a meeting of the Technical Council of Institute of Traffic Engineers in Washington D. C., January 6-13, at an estimated cost of $335.

In discussing expenses incurred by Highway employees on out-of-State travel Chairman McIver inquired as to whether the expenses authorized under existing regulations are adequate. The Deputy Highway Engineer replied that the allowance of $7 for meals is not sufficient unless a person eats in restaurants not of the caliber of the hotels in which the various meetings are held. It was his estimate that an individual would lose $2 to $4 per day. The Chairman requested that some figures be prepared on this matter.

Chairman McIver inquired as to what action could be taken to acquire property on Barbur Boulevard in Portland which has been used by an itinerant fruit peddler. In discussing this matter it was pointed out that the peddler's oprations created a traffic hazard when cars wish to pull off and on to the highway. The Commission instructed that action be taken to acquire the property if possible or that steps be taken to bar access to it.

Chairman McIver also inquired as to when results of the AASHO-Illinois Road Test can be expected. The Deputy Highway Engineer replied that as near as he knew findings would not be made public until probably late in the Spring of 1962; however, the matter is to be discussed at the AASHO meeting in January. After considerable discussion Chairman McIver suggested that a resolution be sent to AASHO urging that the report be made soon, and that the report be reviewed by highway men in the various states.

Attention was given to a request from the Oregon State Board of Forestry to erect a fire danger sign on the northerly side of the Sunset Highway, Mile Point 47.63, near Manning in Washington County. This sign, the Deputy Engineer explained, is the standard fire danger indicator used at many other locations. The sign message and proposed location have been approved, and he recommended that a permit be granted for its installation and that the Secretary be authorized to sign the permit in behalf of the Commission. The Commission accepted the recommendation.

The Commission considered a throughway agreement with Multnomah County concerning reconstruction of S.W. Jefferson Road at its intersection with the Highlands Interchange-Stadium Freeway Section of the Sunset Highway. The Deputy Engineer commented briefly that the project had been approved by the Commission in its construction program adopted December 12, 1960, and the agreement is necessary in order to provide for connections or the closing

of county roads. He recommended that it be approved and that the Secretary be authorized to sign it in behalf of the Commission. The Commission accepted his recommendation.

Consideration was given to a permit agreement in behalf of Ben F. Phillips of Cascadia, granting the right to use water from a spring located in Cascadia State Park, and the right to construct a pipe line from this source to his property in Linn County. This matter, the Deputy Engineer stated, was approved in rough form by the Commission at their meeting June 19 and 20, 1958. He recommended that the agreement be approved and that the Secretary be authorized to sign it in behalf of the Commission. The recommendation was accepted by the Commission.

A resolution was presented by the Deputy Engineer transferring a portion of the Haines-Anthony Secondary Highway to Baker County and extending the highway along a new route in and west of the town of Haines. The reconstruction of the Haines-Anthony Highway north and west of Haines has been completed. Under terms of an agreement previously entered into with Baker County, the County had agreed to take over the old portion of the highway when the new one is completed and open to travel. The newly constructed section follows the alignment of the Rock Creek County Road and the South Haines-Rock Creek County Road, and the resolution designates this new section as an extension to the Haines-Anthony Secondary Highway. Upon the Deputy Engineer's favorable recommendation the Commission adopted a resolution relative thereto, marked Exhibit "E", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

The Deputy Highway Engineer also presented three resolutions covering the abandonment of old sections of highway. He explained that the resolutions are follow-ups to agreements previously entered into with the county courts, which agreements provide for disposition of the old sections when the new sections are completed and opened for public travel. Upon his favorable recommendation, the Commission approved the following abandonment resolutions, marked Exhibits "F-1" through "F-3", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under ""Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

(1) Chandler Park Section of the Fremont Highway in Lake County. Four short sections of highway are abandoned to the abutting property owners. (See Exhibit "F-1")

(2) Cummings Pass-Fossil Section of the John Day Highway in Wheeler County. Three sections of highway are abandoned to Wheeler County. (See Exhibit "F-2")

(3) Namorf-Harper Section of the Central Oregon Highway in Malheur County. One section of the old highway in abandoned to Malheur County. (See Exhibit "F-3")

A throughway-abandonment agreement with Hood River County concerning the Fikes Corner-Whiskey Creek Section of the Mt. Hood Highway in Hood River County was presented by the Deputy Engineer. Briefly he explained that it is planned to receive bids for construction on new alignment of this section. Hood River County has agreed to take over the old section of the highway when the new one is completed. The agreement also contains provision for the closure of a county road intersecting the new highway construction. Based upon the Deputy Engineer's favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

The Commission considered an abandonment agreement with Douglas County concerning disposition of sections of the Elkton-Sutherlin Secondary Highway between Smith Bridge and Kellogg Bridge. Under the terms of the agreement the County is to take over and maintain two of these sections when the new section is completed and open to travel. Two other sections are to be retained by the State and maintained by the County. Upon his favorable recommendation the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

Also considered was a resolution abandoning to Douglas County the two above mentioned section of the Elkton-Sutherlin Secondary Highway between Smith Bridge and Kellogg Bridge. The Deputy Engineer stated that construction of the new section has been completed and it is now open to public travel. The resolution is to complete transfer of the old sections to the county. Following his favorable recommendation the Commission adopted a resolution relative thereto, marked Exhibit "F-4", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of November 15, 1961".

Agreements with railroad companies were presented by the Deputy Engineer. These agreements, he stated, are needed in highway construction because of encroachments upon railroad property. He explained briefly the conditions involved in each of the agreements, and upon his favorable recommendation the Commission approved the following agreements:

(1) With Southern Pacific Company on Siuslaw River-Walton Section of Eugene-Mapleton Highway, Lane County.

(2) With Southern Pacific Company on Bay City-Garibaldi Section of Oregon Coast Highway, Tillamook County.

(3) Union Pacific Railroad Company on Athena-Blue Mountain Section of Oregon-Washington Highway, Umatilla County.

(4) Supplemental agreement with Southern Pacific Company covering overcrossing on Willamette River-Judkins Point Section of Pacific Highway, Lane County. (Original agreement signed August 3, 1959).

(5) Union Pacific Railroad Company covering storm sewer pipe line at Cascade Locks in Hood River County.

The installation of traffic signals in the City of Grants Pass at the intersections of 7th and "E" Streets, 6th and "E" Streets, and 7th and "F" Streets was considered by the Commission. The Deputy Engineer explained that as a part of the construction of a connection between the East Grants Pass Interchange on the Pacific Highway and the central business district of Grants Pass it is necessary to construct a one-way couplet on "E" and "F" Streets. Signals are required to insure proper operation of this couplet. Cost of installing the traffic signals at the three intersections, plus the necessary interconnection to the existing traffic signal system on 6th and 7th Streets, he estimated would be $14,000. The City of Grants Pass, he continued, has indicated its willingness to pay half the cost of the installation and to provide all future maintenance and power consumption needs. The Commission approved the installation following the favorable recommendation of the Deputy Engineer.

The Deputy Highway Engineer reported that contract No. 5110, awarded to Kuckenberg Construction Company for grading the Lowell Street-21st Avenue Unit of the Pacific Highway in Portland, had been completed in accordance with requirements of the contract, except for the submission of the report on materials and supplies used. Based upon the recommendation of the Deputy Engineer, the Commission agreed to accept this contract with the date of acceptance to coincide with the date that the materials report is received.

Concerning the new section of the Pacific Highway in south Portland, the Deputy Engineer stated that guard rail is being installed and the shoulders are being paved at this time. Weather conditions may delay completion of the work until 1962; however, it is planned to open the highway on a limited basis on December 1, 1961.

Chairman McIver commented that representatives of the lumber industry had inquired why the State could not use more lumber in the construction of guard rail. The Deputy Engineer stated that State and Federal highway standards are involved and on Federal-Aid projects the standards must be adhered to in order to secure Federal funds. He recalled that the State in the past had used a great amount of lumber in guard rail construction and it had been noted on a number of occasions that when the guard rail was struck by a vehicle there was a tendency for the rails to split, creating a hazard in addition to the impact. He mentioned that the aluminum manufacturers have developed a rail which they would like to have used. Also, a plastic rail made with fiber glass and resin has been developed. The manufacturers of some of these rails claim that painting is not required; however, he felt that this claim would need verification.

An inquiry was also made by Chairman McIver as to when the bridge across the Willamette River on the Pacific Highway at Eugene would be opened for traffic. The Deputy Engineer stated that it is planned to open the bridge in the early part of December.

At 11:20 a.m., Mr. Barker, Deputy State Treasurer, announced that the bidders" computations had been checked and found accurate and that the low bidder for the $8,000,000, Series 1962-A, was The First National Bank

of Chicago, Morgan Guaranty Trust Company of New York, Account Managers, and Associates; and the low bidder for the $12,000,000, Series 1962-B, was Harris Trust and Savings Bank, The First National Bank of Oregon, Portland; The Chase Manhattan Bank, and Associates. The Chief Counsel pointed out that the written opinion of the bond attorneys has not been received and that the awards to these successful bidders for the purchase of Oregon State Bond Series 1962-A and 1962-B should be made subject to the receipt of the written opinion of the bond attorneys, Shuler, Sayre, Winfree, and Rankin, as to the legality of said issues. In considering the award for sale of the bonds, the Commission also considered conditions imposed by the legislature on the expenditure of that portion of Series 1962-A as authorized by Chapter 483, laws of 1961. It was their finding that the needs for improvement of the State Highway System were most immediate on that section of The Dalles-California Highway between Eightmile and Tygh Valley in Wasco County and that area of Wasco County is an area of depressed economic conditions.

The meeting was recessed at 11:30 a.m. At 12:00 noon the meeting was reconvened by Chairman McIver. A motion was made by Chairman McIver, seconded by Commissioner Fridley, and made unanimous by Commissioner Jackson that the bid of the First National Bank of Chicago and Associates for the 1962-A bonds in the amount of $8,000,000 be accepted at their bid of 2.679636% effective interest rate. A motion was made by Chairman McIver, seconded by Commissioner Jackson, and made unanimous by Commissioner Fridley that the bid of Harris Trust and Savings Bank and Associates for the 1962-B bonds in the amount of $12,000,000 be accepted at their bid of 3.334% effective interest rate. The acceptance of both bids was made contingent upon receipt of the written opinion of the bond attorneys as to legality of the bond issues. The Commission also instructed that the unsuccessful bidders' deposit checks be returned.

The Commission considered the use of additional floor space for the State Highway booth in the "Century 21" Exposition in Seattle, Washington, during 1962. Commissioner Jackson stated that he felt more space should be acquired to better advertise Oregon. After some discussion the Commission authorized the purchase of 900 square feet of floor space at a cost of $11,025 in lieu of 550 square feet costing $6,750

The Commission discussed with the Deputy Engineer plans for widening and straightening on the Coos Bay-Roseburg Highway (Route 42). The Deputy Engineer stated that because the highway is located in a rather narrow canyon in which there is also a river, it is not feasible to widen the highway at many locations because of the closeness of the river and rock cliffs; in other words, a project such as performed on the Warner Secondary Highway (Winnemucca-to-the-Sea) would probably not be feasible.

The Commission signed or authorized the Secretary to sign the following agreements, deeds, and other papers:

"Lease" with Juliet E. Hull for a borrow area on the Cottage Grove-Divide Section of the Pacific Highway in Lane County.

"Permit of Entry" with Portland General Electric Company granting State to enter upon their property in connection with construction of Marquam Bridge on the East Bank Freeway Section of the Pacific Highway in Multnomah County.

"Lease of Stockpile Site" covering leasing from U. S. Bureau of Reclamation 0.9 acre tract of land located approx. 2 miles south of Nyssa, Malheur County, for stockpile site for the Owyhee Project. (Approved 4-14-61)

"Agreement with Union Pacific Company re U-Xing, O-Xing and G-Xing on the Athena-Blue Mountain Section of the Oregon-Washington Highway in Umatilla County. (Agenda Item 4-j-3)

"Agreement" with Union Pacific Railroad Co. covering the installation of a storm sewer at Cascade Locks in Hood River County. (Agenda Item 4-j-5)

"Agreement" with Linn County covering the joint use of the Saddle Butte quarry site on the Albany-Judkins Point Section of the Pacific Highway in Linn County. (Authorized 10-20-61)

"Agreement" with the Southern Pacific Company covering the Siuslaw River-Walton Section of the Eugene-Mapleton Highway in the vicinity of Globe. Lane County. (Agenda Item 4-j-1)

"Agreement" with Southern Pacific Company covering the Bay City-Garibaldi Section of the Oregon Coast Highway, Tillamook County.

"Supplemental Agreement" with Southern Pacific Company covering over-crossing on Willamette River-Judkins Point Section of Pacific Highway in Lane County. (Agenda Item 4-j-4)

"Permit" to Oregon State Board of Forestry for permission to erect a fire danger sign on state highway right of way on northerly side of Sunset Highway at M.P. 47.63 near Manning Oregon. (Agenda Item 4-d)

"Throughway Agreement" with Multnomah County concerning reconstruction of S. W. Jefferson Road at its intersection with Highlands Interchange-Stadium Freeway Section of Sunset Highway and closure at other points. (Agenda Item 4-e)

"Permit Agreement" to Ben F. Phillips, Cascadia, to use a spring located in Cascadia State Park and right to construct a pipe line from this source to his property. (Agenda Item 4-f)

"Throughway and Abandonment Agreement" with Hood River County covering the Fikes Corner-Whiskey Creek Section of Mt. Hood Highway in Hood River County. (Agenda Item 4-i-1)

"Abandonment Agreement" with Douglas County covering the Smith Bridge-Kellogg Bridge Section of Elkton-Sutherlin Highway in Douglas County. (Agenda Item 4-i-2)

There being no further business to consider, Chairman McIver declared the meeting adjourned at 12:30 p.m.

Deputy State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
November 30, 1961

The Oregon State Highway Commission, Mr. M. K. McIver, Chairman; Mr. K. H. Fridley, Commissioner; Mr. Glenn L. Jackson, Commissioner; held a special telephone meeting at 9:00 a.m. with Mr. Forrest Cooper, Deputy State Highway Engineer.

The Commission by unanimous action, appointed Mr. Forrest Cooper as Acting State Highway Engineer, following the death early this morning of Mr. W. C. Williams, State Highway Engineer. The Commission also appointed Mr. R. L. Porter as Assistant State Highway Engineer.

Acting State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
December 2, 1961
9:30 A.M.

The Oregon State Highway Commission held a special meeting to consider such matters as must be taken care of because of the death on November 30, 1961, of Mr. W. C. Williams, State Highway Engineer. Present at this meeting were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
Forrest Cooper, Acting State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
R. L. Porter, Assistant State Highway Engineer
Tom Edwards, Construction Engineer
Victor L. Wolfe, Administrative Assistant
L. I. Lindas, Chief Counsel
Walter Wright, Right of Way Engineer
F. B. Crandall, Traffic Engineer
R. B. Sipprell, Director of Permits
Dennis Clarke, Assistant Director Travel Information Division
Floyd Query, Secretary

The Commission confirmed its telephonic action of November 30, appointing Mr. Forrest Cooper as Acting State Highway Engineer and Mr. R. L. Porter as Assistant State Highway Engineer.

Chairman McIver stated that the Commission does not wish to take any formal action or make any public announcement concerning the appointment of a State Highway Engineer until after Mr. Williams' funeral. He also stated that action on the appointment of another Assistant State Highway Engineer would be deferred, probably until the Commission meeting on December 8, 1961.

At the request of the Secretary, the Commission approved an excerpt from the Minutes of November 15, 1961 pertaining to the sale of Highway bonds. This action was taken so that a copy of the Minute entry could be sent to the State Treasurer to expedite sale of the bonds.

The meeting was declared adjourned at 9:50 a.m. by Chairman McIver. The members of the Commission and its staff went to the Capitol Building to meet with the Legislative Highway Interim Committee.

Acting State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Salem, Oregon
December 8, 1961

The Oregon State Highway Commission met in regular session at 9:30 a.m., in the Conference Room of the State Highway Building. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
Forrest Cooper, Acting State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
R. L. Porter, Assistant State Highway Engineer
Tom Edwards, Construction Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark H. Astrup, State Parks Superintendent
Gene Huntley, Director of Personnel and Public Relations
Floyd Query, Secretary

Mr. C. H. Maison, Auditor, and Mr. Carl W. Jordan, Director of Travel Information, were excused because of other duties. Mr. G. S. Paxson, Assistant State Highway Engineer, was excused as he was recuperating from an automobile accident.

The Commission approved the Minutes of October 20, 1961.

Chairman McIver stated that because of the death of Mr. W. C. Williams, State Highway Engineer, on November 30, 1961, the State Highway Commission must appoint a successor. This matter he continued, has been carefully considered by the Commission and they have proposed the following action:

1. That Forrest Cooper be appointed as State Highway Engineer. (See Exhibit "B-1")

2. That G. S. Paxson be appointed Deputy State Highway Engineer. (See Exhibit "B-4")

3. That R. L. Porter be confirmed as Assistant State Highway Engineer. (See Exhibit "B-2)

4. That Tom Edwards be appointed as Assistant State Highway Engineer, a newly created position. (See Exhibit "B-3")

5. That P. M. Stephenson be retained in the position he now holds as Assistant State Highway Engineer.

The appointments were approved unanimously by the Commission.

Upon the request of Chairman McIver, the Secretary administered the Oath of Office to each of the new appointees; Mr. Cooper, Mr. Porter, and Mr. Edwards. (During the evening of the same day the Secretary administered the Oath of Office to Mr. G. S. Paxson as Deputy State Highway Engineer at his home.) Mr. Cooper as State Highway Engineer, was appointed for a four year term effective November 30, 1961. In making these appointments the Commission adopted resolutions pertaining thereto, marked Exhibit "B-1" through Exhibit "B-4", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

Chairman McIver commented that the Highway Department has been fortunate in having had the services of two outstanding leaders in the Chief Executive position, Mr. W. C. Williams and Mr. R. H. Baldock, and it is the feeling of the Commission that the high standard of service established in the past will be maintained in the future. The Commission, he stated, is very proud of its staff.

The new State Highway Engineer thanked the Commission for their confidence in him.

The Right of Way Engineer presented for consideration options, pages 1 through 43, secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

The Property Manager's report covering sales of miscellaneous properties and changes in rental status since the last Commission meeting was presented by the Right of Way Engineer. He commented that miscellaneous sales during this period amounted to $39,559.25, rental receipts for October, 1961 were $6,052.31 and for November, 1961 receipts were $4,666.23. The Commission accepted the report.

"Indentures of Access" were presented by the Right of Way Engineer on several properties adjoining state highways. The proposed changes in points of access, he stated, are for the benefit of the property owners and for the protection of the traveling public. In no case is additional access being provided, simply a change of location. Upon his favorable recommendation, the Commission approved the following "Indentures of Access":

1. Wood and Strayer property, File No. 30847, on the New Era-Canby Section of Pacific Highway East, Clackamas County.

2. Polk County property, File No. R-20556, on Rickreall-Orr Corner Section of Pacific Highway West, Polk County.

3. Echo Resort, Inc., property, File No. 19930, on Hinsdale Slough-Luder Creek Section of Umpqua Highway, Douglas County.

4. Koch property, File No. 31640, on Sugarloaf Mountain-McMullen Creek Section of Coos Bay-Roseburg Highway, Coos County.

5. Otto property, File No. 25919, on Hinsdale Slough-Luder Creek Section of Umpqua Highway, Douglas County.

6. Shepeard property, File R-26749, on Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

7. Osborn property, File R-26742, on Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

8. Hinsdale property, File 20605, on Hinsdale Slough-Luder Creek Section of Umpqua Highway, Douglas County.

9. Esau property, File R-20561, on Rickreall-Orr Corner Section of Pacific Highway West, Polk County.

Consideration was given to a "Grant of Access" to Mr. and Mrs. James Lazzeroni to provide access from the remaining Lazzeroni property to relocated Grand Avenue on the Grand Avenue Section of the Pacific Highway East in Multnomah County. The Right of Way Engineer explained that in the original transaction access had been denied between the parcel taken for right of way and the remaining Lazzeroni property. It had been intended to deny access between the owners' remaining property and the high level structure, which is to carry northbound traffic on the Pacific Highway East. There was no intent to deny access between the owners' remaining property and reconstructed Grand Avenue, which is at ground level. Upon his favorable recommendation, the Commission approved the "Grant of Access".

A recommendation was made by the Right of Way Engineer to offer at public sale several parcels of excess highway properties. The need of these properties for highway purposes has been cleared through the Engineering Division, and access provisions as proposed are consistent with departmental policy as practiced in the vicinity of each parcel. The recommended minimum sale price for each, he state, is based on appraised value or on an offer which exceeds appraised value. Upon his favorable recommendation, the Commission authorized public sales of the following parcels of real property and thereupon adopted resolutions relative thereto, marked Exhibits "C-1" through "C-6", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

1. 1.06 acres, File 21542, on Euchre Creek-Greggs Creeks Section of Oregon Coast Highway, Curry County, for not less than $4,000 and without access to the reconstructed Oregon Coast Highway. (See Exhibit "C-1")

2. 8.8 acres, File 25674, on Albany-Judkins Point Section of Pacific Highway, Linn County. This property is to be sold for not less than $1,750, without access to the Pacific Freeway and with an advertising sign restriction. (See Exhibit "C-2")

3. 993 square feet of land, File 1141, in City of Florence, on Florence-Glenada Section of Oregon Coast Highway, Lane County, for not less than $1,000. No access or sign restrictions are to be imposed in this sale. (See Exhibit "C-3")

4. 1.5 acres of land and a permanent easement of access comprising 0.05 acres, File 20941, on Willamette River, Hayesville Section of Pacific Highway, Marion County, for not less than $7,200. This property is to be sold without access to the Pacific Highway and subject to an advertising sign restriction. (See Exhibit "C-4")

5. 0.09 acre, File 5697, on Cottage Grove Section of Goshen-Divide Secondary Highway (formerly Pacific Highway), Lane County, for not less than $2,000 with provision for two points of access, 30 feet in width, and unrestricted as to use. (See Exhibit "C-5")

6. Fragments from three ownerships aggregating one acre of area, Files 28899, 28900 and 28901, on Seven Oaks-Ashland Section of Pacific Highway, Jackson County, for not less than $250. This property is to be sold without access to the Pacific Freeway and subject to an advertising sign restriction.

7. 2 acres, File 17368, on Salem By-Pass Section of Pacific Highway, Marion County, for not less than $2,000, which amount includes $500 for relocation of the right of way fence by State forces. This property is to be sold without access to the Pacific Highway and with an advertising sign restriction. (See Exhibit "C-6")

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions relative thereto, marked Exhibits "G-1" through "G-20", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

(For details concerning these properties see the Chief Counsel's "Recommendations for Condemnation", dated December 8, 1961, in the Secretary's Office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers").

A written report of cases tried in court was presented by the Chief Counsel. He commented briefly on some of the verdicts returned by juries, mentioning specifically the case of Northwestern Ice and Cold Storage Company, Inc., in which the verdict awarded was in the amount of $54,000, or $2,500 less than the State's offer of $56,500. The Commission accepted the report, which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3459 Orval Glenn Butler, et al	Crook	Paulina	Post-Paulina	$ 1,690 plus $ 984.50 (for rebuilding flume)	$15,000 (plus attorney fees)	$ 2,300
L-3466 Northwestern Ice & Cold Storage Company, Inc.	Multnomah	Pacific	East Bank Freeway	$56,500	$254,000	$54,000
L-3677 Martin Heitkamp, et ux	Jackson	Pacific	Seven Oaks-Neil Creek	$30,250	$ 40,000	$36,000
L-3688 Harvey Peterson, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$ 6,130	$ 11,500	$ 9,000
L-3700 Earnest G. Childreth, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$ 2,300	$ 4,700	Non-suit None
L-3736 Dorothy Butler, et vir.	Multnomah	Columbia River	Sauvie Island Bridge-St. Johns Bridge	$ 2,000	$ 10,000 (Answer)	Non-suit None
L-3742 Isami Tsubota, et ux	Sherman	Sherman	Biggs-Thornberry	$ 1,860	$ 9,500	$ 3,000
L-3748 Bruce Kelly, et al	Washington	Sunset	Cornelius Pass Road-Multnomah County Line	$ 1,310	$ 5,500	$ 2,250

Report of Condemnation Cases Tried - Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3749 Karl J. Granquist, et al	Washington	Sunset	Cornelius Pass Road-Multnomah County Line	$ 180	None Stated	$ 180
L-3806 James P. Rusow, et ux	Coos	Cape Arago	North Bend	$ 400	$ 900	$ 600
L-3828 Stella Kershaw, et al	Umatilla	Oregon-Washington	Athena-Blue Mountain	$ 6,400	$ 9,288.75	$ 6,760

REPORT OF TRIAL OF OTHER CASES

Case	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict
L-3472 State of Oregon	Joan Elaine Dyson	Multnomah	To recover damages to State vehicle resulting from automobile accident.	$ 183.91	$183.91
L-3443 Transport Service	State of Oregon, Bob Hebener, Sand Hill Gravel Co., et al	Marion	Enforce payment of funds due on State Contract to assignee of contractor.	Set aside assignment of funds due on rock purchase and enjoin payment.	Service on State of Oregon quashed.
L-3450 A. M. Cronin III and Susan Cronin	State of Oregon	Multnomah	Inverse Condemnation Plaintiff alleges damages to his house, swimming pool, tennis courts, and other improvements by reason of slides and earth movement caused by construction of Highlands Interchange (Zoo) Section of the Sunset Highway.	$100,000	Nothing - Dismissed on stipulation of parties.

(For further details concerning the cases tried, see the Chief Counsel's letters of December 1 and December 7, 1961, entitled "Report of Cases Tried", and "Supplemental Report of Cases Tried", in the General Files, Salem).

December 8, 1961

Also presented by the Chief Counsel was a written report of condemnation cases which have been settled out of court. He explained briefly factors involved in some of the settlements. The Commission accepted the report which summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-3324 Bernie B. Moore, et ux	Jackson	Pacific	Seven Oaks-Neil Creek	$ 5,818	$ 7,000
L-3543 International Church, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$35,500	$35,500
L-3649 H. J. Maury, et ux	Clatsop	Oregon Coast	Smith Point-Camp Rilea	(no letter of offer)	$ 25
L-3699 George E. Nerton, et al	Jackson	Pacific	Seven Oaks-Neil Creek	$23,300	$29,000
	(For record only. Approved NOA at the 10/20/61, Commission Meeting.)				
L-3792 E. L. Clark, et ux	Coos	Cape Arago	North Bend	$ 420	$ 650
L-3793 Ross E. Costello, et al	Coos	Cape Arago	North Bend	$ 220	$ 383.60 (includes $8.60 costs)
L-3800 E. Earl Dudley, et al	Umatilla	Oregon-Washington	Athena-Blue Mountain	$ 7,350	$ 9,040
	(State appraisal of $8,800 received after offer made.)				
L-3845 Kenneth Hyatt, et al	Curry	Oregon Coast	Myers Creek-Brookings	$ 1,210	$ 1,207

December 8, 1961

(Report of Condemnation Cases Settled - Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-3600 J. A. Huckaby, et al	Douglas	Pacific	Rice Hill-North Oakland	$ 515	$ 4,600
(Owner to provide access road at estimated cost of $3,884.)					
L-3690 Bert B. Lowry, et ux	Jackson	Pacific	Seven Oaks-Neil Creek	$ 100	$ 325
L-3883 Jack S. Saltzman, et ux	Multnomah	Stadium Freeway	Fremont Interchange-Marquam Bridge	$38,000	$40,500
L-3903 Bernard M. Clark, Jr., et al	Multnomah	Pacific	North Portland Harbor-North Russell Street	$16,900 (partial taking - $17,100 entire taking)	$17,100 (partial taking)
R-30542 A. J. Cook and Margaret A. Cook, et al	Wasco	Columbia River	The Dalles By-Pass	$ 3,300	$ 3,625
R-33593 Henry H. Harder, et ux	Polk	Kings Valley	Polk Station-Dallas	$ 1,055	$ 1,250

Concerning settlement of the Frank J. Cullen case, the Chief Counsel explained that the substantial increase over the offer of $8,065 was brought about because of the necessity of revising appraisals due to zoning in the area. The revised appraisal indicated that the settlement should be $12,500.

(For further details, see the Chief Counsel's letters, dated December 1 and December 7, 1961, entitled "Report of Cases Settled" and "Supplemental Report of Cases Settled", in the General Files, Salem).

The Chief Counsel stated that the trial involving alleged slide damage at the Portland Zoo on the Sunset Highway Multnomah County, has been set up to March 19, 1962. The City of Portland, he stated, had previously offered to settle the case on the basis of the State paying 60 percent of the alleged damages and the City paying 40 percent, but has now offered to settle on the basis of 50-50.

Confirmation of offers made to property owners prior to institution of condemnation proceedings was requested by the Chief Counsel. The offers as

presented, he stated, have been approved orally by one of the Commissioners prior to this meeting. The Commission confirmed the following offers:

BIGGS-RUFUS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-32691 - Susie A. Tom, et al. 20,575 square feet for right of way pruposes. Offer of $25,500 approved by Mr. Fridley, November 23, 1961.

BONNEVILLE STATION-PATTERSON AVENUE SECTION OF THE WILLAMINA-SALEM HIGHWAY

R-29507 - Moskee Investment Co., et al. 3,200 square feet for right of way purposes. Offer of $2,300 approved by Mr. McIver, October 24, 1961

R-29514 - M. J Raschko, et ux. 2,500 square feet for right of way purposes. Offer of $1,300 approved by Mr. McIver, October 24, 1961.

R-32561 - Glover J. Johnson, et al. 0.1 acre for right of way purposes. Offer of $4,500 approved by Mr. McIver, December 4, 1961.

R-32563 - John Piper, et al. 1,480 square feet for right of way purposes. Offer of $1,200 approved by Mr. McIver, December 5, 1961.

R-32564 - Frank Finney, et al. 1,830 square feet for right of way purposes. Offer of $675 approved by Mr. McIver, November 29, 1961.

R-32572 - Orval E. Shryder, et ux. 1.88 acres for right of way purposes. Offer of $10,125 approved by Mr. McIver, October 27, 1961.

R-32573 - T. T Crozer, et al. Parcel No. 1: 1.3 acres for right of way purposes; and Parcel No. 2: 0.35 acre for right of way purposes. Offer of $2,230 approved by Mr. McIver, November 29, 1961.

BRIDGE-FRENCHIE CREEK SECTION OF THE COOS BAY-ROSEBURG HIGHWAY

R-33431 - Warren A. Cribbins, et al. Parcel No. 1: 1.35 acres for right of way purposes; and Parcel No. 2: 1.6 acres for right of way purposes. Offer of $15,000 approved by Mr. Jackson, December 1, 1961.

BUMMER CREEK SECTION OF THE ALSEA-DEADWOOD HIGHWAY

R-34011 - Bessie Davis Rhoades, et al. Parcel No. 1: 0.91 acre for permanent easement; and Parcel No. 2: 0.34 acre for permanent easement. Offer of $65 approved by Mr. Jackson, November 17, 1961.

BUTLER CANYON-WHITE RIVER SECTION OF THE DALLES-CALIFORNIA HIGHWAY

R-33520 - Joseph Wilson Dodd, et al. Parcel No. 1: 27.2 acres for right of way purposes; Parcel No. 2: 4.1 acres for permanent easement; and Parcel No. 3: 0.25 acre for permanent easement. Offer of $22,213 approved by Mr. Fridley, November 14, 1961.

BUTLER CANYON-WHITE RIVER SECTION OF THE DALLES-CALIFORNIA HIGHWAY - Cont.

R-33521 - William Cody, et al. Parcel No. 1: 3.23 acres for right of way purposes; and Parcel No. 2: 0.9 acre for permanent easement. Offer of $1,140 approved by Mr. Fridley, October 24, 1961.

R-33523 - Paul R. Vogt, et ux. Parcel No. 1: 13.5 acres for right of way purposes; and Parcel No. 2: 0.32 acre for permit of entry. Offer of $1,300 approved by Mr. Fridley, November 3, 1961.

EAST BANK FREEWAY SECTION OF THE PACIFIC HIGHWAY

R-29833 - Lloyd R. Weisensee, et al. 26,000 square feet for right of way purposes. Offer of $42,500 approved by Mr. McIver, November 15, 1961.

"E" STREET AND "F" STREET CONNECTION SECTION OF THE REDWOOD HIGHWAY

R-31442 - Robert D. Copeland, et al. 9,740 square feet for right of way purposes. Offer of $4,100 approved by Mr. Jackson, November 7, 1961.

R-32637 - Andrew Morgan, et al. 1.0 acre for right of way purposes. Offer of $3,650 approved by Mr. Jackson, October 24, 1961.

FERRY STREET BRIDGE-MOHAWK ROAD SECTION AND THE MOHAWK ROAD-MC KENZIE HIGHWAY SECTION OF THE EUGENE-SPRINGFIELD HIGHWAY

R-30677 - J. C. Clark, et al. 1.55 acres for right of way purposes. Offer of $6,430 approved by Mr. McIver, November 29, 1961.

FIKES CORNER-HOOD RIVER SECTION OF THE MT. HOOD HIGHWAY

R-33454 - Richard E. Hutson, et al. 0.5 acre for right of way purposes. Offer of $725 approved by Mr. Fridley, October 25, 1961.

FIRST AVENUE-COBURG ROAD SECTION OF THE EUGENE-SPRINGFIELD HIGHWAY

R-33423 - Lucille E. Bavaro, et al. 4.08 acres for right of way purposes. Offer of $23,400 approved by Mr. McIver, November 30, 1961.

HILLSDALE-BARBUR BOULEVARD SECTION OF THE PACIFIC HIGHWAY WEST

R-31830 - Dr. G. R. Farnsworth, et al. 0.21 acre for right of way purposes. Offer of $2,200 approved by Mr. McIver, November 15, 1961.

HOBSONVILLE-BAY CITY SECTION OF THE OREGON COAST HIGHWAY

R-32245 - Assembly of God of Bay City, et al. 8,000 square feet for right of way purposes. Offer of $6,575 approved by Mr. McIver, November 28, 1961. On December 5, 1961, an offer of $7,000 was approved by Mr. McIver. This revised amount is due to an additional appraisal.

HUNTER CREEK-MYERS CREEK SECTION OF THE OREGON COAST HIGHWAY

R-32522 - Oleta A. Walker, et vir. 8.3 acres for slide control and haul road. Offer of $7,225 approved by Mr. Jackson, October 25, 1961.

KLAMATH FALLS, WEST SIDE BY-PASS SECTION OF THE DALLES-CALIFORNIA HIGHWAY

R-33914 - Evelene C. Bradford, et al. Parcel No. 1: 8,497 square feet for right of way purposes; and Parcel No. 2: 5,835 square feet for right of way purposes. Offer of $2,250 approved by Mr. Jackson, November 9, 1961.

R-33915 - Delmar E. Hand, et al. 6,807 square feet for right of way purposes. Offer of $1,075 approved by Mr. Fridley, November 2, 1961.

R-33917 - Arvern G. Bebout, et ux. Parcel No. 1: 2,992 square feet for right of way purposes; and Parcel No. 2: 166 square feet for right of way purposes. Offer of $525 approved by Mr. Fridley, November 2, 1961.

R-33918 - Ellenor Yeomans, et vir. 3,235 square feet for right of way purposes. Offer of $575 approved by Mr. Fridley, November 2, 1961.

R-33919 - Harold M. Rush, et al. 10,125 square feet for right of way purposes. Offer of $34,200 approved by Mr. Jackson, November 9, 1961.

POLK STATION-DALLAS SECTION OF THE KINGS VALLEY HIGHWAY

R-33569 - Henry W. Ediger, et al. 0.16 acre for right of way purposes. Offer of $485 approved by Mr. McIver, November 28, 1961.

R-33574 - Ernest Villwock, et al. 3.2 acres for right of way purposes. Offer of $2,650 approved by Mr. McIver, November 28, 1961.

R-33593 - Henry H. Harder, et ux. 12,500 square feet for right of way purposes. Offer of $1,055 approved by Mr. McIver, November 29, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-30254 - Bernard M. Levinson, et al. 2,041 square feet for right of way purposes. Offer of $3,500 approved by Mr. McIver, October 30, 1961.

R-31868 - Freddie Lee Williams, et al. 2,875 square feet for right of way purposes. Offer of $4,800 approved by Mr. McIver, November 15, 1961.

R-32164 - Bernard M. Clark, Jr., et al. 3,811 square feet for right of way purposes. Offer of $16,900 approved by Mr. McIver, October 27, 1961.

R-32184 - Phil D. Brinkman, et al. 2,561 square feet for right of way purposes. Offer of $6,490 approved by Mr. McIver, November 30, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY - Cont.

R-32185 - Fredricka B. Neseth, et vir. 105 square feet for right of way purposes. Offer of $500 approved by Mr. McIver, November 16, 1961.

R-32928 - Newell B. Souders, et al. 4,250 square feet for right of way purposes. Offer of $6,925 approved by Mr. McIver, November 15, 1961.

R-32959 - Jessie Forkner, et al. 118 square feet for right of way purposes. Offer of $850 approved by Mr. McIver, November 15, 1961.

R-33836 - Ruby Guyot, et al. Parcel No. 1: 3,063 square feet for right of way purposes; and Parcel No. 2: 1,937 square feet for excess taking. Offer of $1,050 approved by Mr. McIver, November 30, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31678 - Rade Braich, et ux. Parcel No. 1: 835 square feet for right of way purposes; and Parcel No. 2: 837 square feet for permanent easement. Offer of $6,450 approved by Mr. McIver, December 1, 1961.

R-31691 - John Marinelli, et al. 6,200 square feet for right of way purposes. Offer of $20,000 approved by Mr. McIver, October 18, 1961.

R-31697 - Jesse W. Hall, et ux. 5,000 square feet for right of way purposes. Offer of $3,750 approved by Mr. McIver, October 24, 1961.

R-31725 - L. N. Landels, et al. 250 square feet for permanent easement. Offer of $260 approved by Mr. McIver, November 30, 1961.

R-31732 - Ralph Hannan, et ux. 27,000 square feet for right of way purposes. Offer of $6,000 approved by Mr. McIver, November 30, 1961.

R-33316 - Alfred Emil Press, et al. 100 square feet for permanent easement. Offer of $125 approved by Mr. McIver, November 28, 1961.

VIENTO-HOOD RIVER SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31757 - Albert W. Peters, et ux. 4.46 acres for right of way purposes. Offer of $1,800 approved by Mr. McIver, November 8, 1961. On November 22, 1961, an amount of $2,465 was approved by Mr. McIver. This revised amount is due to a new appraisal.

R-31759 - James A. Lovell, et ux. 0.35 acre for right of way purposes. Offer of $350 approved by Mr. McIver, October 25, 1961.

R-31762 - Neighbors of Woodcraft. 8.75 acres for right of way purposes. Offer of $22,375 approved by Mr. McIver, October 25, 1961.

R-32061 - Leland B. Gunderson, et al. 0.58 acre for right of way purposes. Offer of $3,200 approved by Mr. McIver, November 8, 1961.

CASCADE GORGE-FOREST BOUNDARY SECTION OF THE CRATER LAKE HIGHWAY

R-33531 - D. M. Chandler, et al. 1.2 acres for right of way purposes. Offer of $1,080 approved by Mr. Jackson, December 7, 1961.

SOUTH NEWPORT STATE PARK

R-24337 - Lillian Kettner, et al. 5,000 square feet for park purposes. Offer of $100 approved by Mr. Jackson, December 7, 1961.

Proposed railroad grade crossings which have been before the Public Utility Commissioner and in which the State Highway Commission has been a party were presented by the Chief Counsel. His report which was accepted by the Commission is summarized as follows:

PUX 346: McAndrew Street Grade Crossing, Southern Pacific Company, City of Medford, Jackson County. This is a city street over which the Commissi has no jurisdiction. The order allowed the crossing.

PUX 425: U.S. Army Corps of Engineer's Rufus Grade Crossing, Union Pacific Railroad Company, Sherman County. This matter arose upon application of the Corps of Engineer to construct a temporary grade crossing during the building of the John Day Dam. The Highway Commission has no jurisdiction over the access road. The order allowed the crossing.

PUX 439: "F" Street Grade Crossing, Southern Pacific Company, City of Springfield, Lane County. This is a city street over which the Commission has no jurisdiction. The order allowed the crossing.

PUX 441: Van Horn Overcrossing, Mt. Hood Railroad Company, Mt. Hood Highway, Hood River County. This involves construction of an overcrossing over the Railroad Company's right of way in relocation of the Fikes Corner-Whiskey Creek Section of the Mt. Hood Highway. The order allowed the overcros

PUX 442: Whiskey Creek Undercrossing, Mt. Hood Railroad Company, Mt. Hood Highway, Hood River County. Involved is the construction of an under crossing under the right of way of the Mt. Hood Railroad Company in relocation of the Fikes Corner-Whiskey Creek Section of the Mt. Hood Highway. The order allowed the undercrossing.

PUX 444: Twin Alder Creek Overcrossings, Union Pacific Railroad Company, Old Oregon Trail Highway, Baker County. This involves construction of two structures over the right of way of Union Pacific Railroad Company on the North Unit of the Hill Creek-Nelson Section of the Old Oregon Trail Highwa The order allowed the overcrossing structures.

PUX 445: N. E. 185th Drive Undercrossing, Union Pacific Railroad Company, Multnomah County. This is a county road over which the Highway Commission has no jurisdiction. The order allowed the alteration of the undercrossing structure.

PUX 446: Industrial Spur Track Crossing, Union Pacific Railroad Company, John Day Highway, Gilliam County. The involves application of the Railroad Company to construct an industrial spur track across the John Day Highway, near Arlington. This Highway Commission filed an answer stating that it had no objection to the crossing provided no costs were assessed against the Commission. The order was issued in conformity with the answer and allowed the crossing.

The Chief Counsel presented a list of claims which have been abandoned as to further attempts to collect. He stated that after careful investigation it is deemed advisable to abandon attempts to collect the claims because of unknown addresses, small amount of the claim, lack of evidence to prove liability, lack of legal liability, and death of a defendant. The Commission approved abandonment of the following claims:

CAO No.	Name	Amount of Claim
61-35	Fred Green	$113.55
59-56	Eugene Wright	81.89
59-310	Clestine Friedlander	179.03
59-277	Alice Wright	45.29
60-13	Jerry Davis	77.44
59-165	Jack Holmes	268.15
59-15	A. A. Georgian	563.52
57-128	John Reid	51.04
60-62	Walter Meyer	75.00
60-273	Albert Rylands	59.92
60-58	Delora Dominighini	96.31
61-102	Benjamin Lamb	151.37
60-356	Ned Matthews	26.93
60-184	Dennis Hollenbeck	560.38
60-118	Zelda Modimer	25.46
60-180	Ohmlac Paint Company	30.77
60-60	Richard Lakey	72.88
58-211	Harold Barnett	121.20
61-55	Palmer Walsh	74.00

A compromise settlement of a claim for missing personal property was presented by the Chief Counsel. This case, he stated, involves property which was apparently stolen from the Richard Henry and Sadie Feves 54 unit apartment house on the Russell Street-Curry Street Section of the Pacific Highway in Portland while the property was in the State's possession and before the State moved it into storage. He explained that the State had agreed to store this property until the Supreme Court decided whether such property was considered as trade fixtures and had to be purchased by the State or if it was the owners' personal property. The Supreme Court decided in favor of the State -- that the property is personal. The property owner had originally demanded the sum of $1,000 for these missing items, but after considerable negotiation agreed to accept the sum of $250. Upon his favorable recommendation, the Commission approved the settlement for $250.

A proposed change in right of way appraisal procedure was presented by the Chief Counsel. The Bureau of Public Roads has requested information as to how appraisals are made. Procedure in the past, he stated, has been to use one staff appraiser on property that has a value of less than $10,000, an additional fee appraiser if the value of the property is between $10,000 and $20,000, and two fee appraisers are used if the value of the property is over $20,000. It has also been the practice to use one fee appraisal regardless of the value of the property if it is to go into condemnation and trial. The Bureau of Public Roads requires only one appraisal, either staff or fee, if the value of the property is less than $25,000, and two appraisals, either staff or fee, if the value of the property is over $25,000. Because of the great number of properties being acquired the cost of fee appraisals amounts to a considerable sum, and also fee appraisals are not always made as quickly as desired, thus cutting down on the lead-time in which to get a project under contract. He pointed out that during the past few years a competent staff of appraisers employed by the Highway Department has been trained and seventeen employees are now in training. It was his opinion that the Highway Department could save $20,000 to $25,000 per year if staff appraisers were used in lieu of fee appraisers, but fee appraisers should be used in those cases where negotiations are faltering or in cases involving intricate or specialized types of property. Commissioner Jackson inquired as to what procedure would be followed if the owners refused to accept staff appraisals. The Chief Counsel replied that fee appraisers should be used in such cases. Chairman McIver commented that in the eyes of the public he felt it would be better for the Department to get fee appraisals if they could be secured for the same cost as staff appraisals. Commissioner Jackson said that it appeared that the key to the problem would be the extent of supervision exercised over staff appraisers. The State will have to be careful that it is not accused of using strong-arm methods in dealing with landowners. He warned that if the staff appraisers do not do a good job the public would complain. The Chief Counsel commented that in court cases in the past few months as good or better verdicts had been secured using staff appraisers than those cases involving fee appraisers. He also pointed out that fee appraisers are not always available for appearance in court.

The Chief Counsel also requested that the Commission authorize payment of $150 each for approximately 20 appraisers to attend a two week MAI course for Appraisal "I" at Portland State College in Portland in February, 1962. This course, he stated, is designed for intensive training. In response to Chairman McIver's question if it is customary for the State to pay all of the cost of this schooling, the Chief Counsel answered that it has been the practice for the State of Oregon to pay this cost, and he believed it would be to the State's advantage to do so. Chairman McIver inquired if many men are lost to other employment after they have been trained. The Right of Way Engineer replied that he could recall two who had taken employment elsewhere, one in California and the other with the Bureau of Public Roads, for considerably more money than they were paid by the State of Oregon. The Commission approved the revised appraisal procedure as presented by the Chief Counsel, and also approved training expenditures for appraisers in February, 1962.

Two petitions were presented by the Chief Counsel to exclude highway land from irrigation districts. He explained briefly that state highways which pass through the irrigation districts do not use water for irrigation purposes and the petitions are to exclude them from irrigation district assessments. Commissioner Jackson asked if the districts involved are agreeable to the exclusion. The Chief Counsel stated that in these two instances he did not know. However, an irrigation district in the Klamath Falls area had objected previously. Commissioner Fridley inquired if the exclusion of highway property increases costs to the irrigation districts. The Chief Counsel replied that he felt the irrigation districts would not suffer if there was other land which could be irrigated. Concerning the Burnt River Irrigation District, Commissioner Fridley indicated that investigation should be made as to whether there are other lands available for irrigation which would affect the decision on the line through Durkee Valley. He also inquired as to the feasibility of constructing a section of the Old Oregon Trail near Durkee by going through Nelson Point so as to miss as much irrigated land as possible. Mr. Tom Edwards replied that the highway could be constructed on this line but it would cost approximately $600,000 more. In the location of this highway, he stated, consideration was given to the use of the land particularly pertaining to range rights. The Commission approved and authorized the Secretary to sign petitions to exclude land from (1) the Medford Irrigation District, consisting of 4 parcels containing 12.7 acres in Jackson County; (2) the Rogue River Irrigation District, consisting of 8 parcels containing 22.32 acres in Jackson County.

Consideration was given to a proposed easement to the International Paper Company to construct and maintain a dam on 0.10 acre of land on the Oregon Coast Highway to impound waters of Lake Tahkenitch in Douglas County. The Chief Counsel stated that construction of the proposed dam had been checked by the Engineering Division and no harm would be done to the State. Chairman McIver inquired as to why the property should not be sold outright if it is of no further value for highway use. The Engineer stated that it would be advantageous for the State to retain the rights to the property as it may be needed at a future time for highway widening. The Commission approved the easement.

Resignation of Leo V. Nuttman as Staff Attorney was reported by the Chief Counsel who requested authority to secure a replacement at the proper classification and salary range. The Commission authorized a replacement for Mr. Nuttman as requested.

The Commission considered a revocable license agreement by which the U. S. Coast Guard allows the State Highway Department to use a portion of the Cape Meares Lighthouse Reservation in Tillamook County for park purposes. The Engineer exhibited a map of the property which adjoins existing property used for park purposes and features a large and unusually branched spruce tree. The principal use of the area would be for picnic purposes. In cooperation with the County, he stated, it is planned to install picnic facilities, improve the entrance road, and construct a small parking area. Following his favorable recommendation, the Commission approved the agreement.

Attention was given to to a request made by the Lane County Parks and Recreation Department for State assistance in construction of acceleration and deceleration lanes and a parking area at the proposed Linslaw County Park on the Siuslaw River adjacent to the Mapleton-Eugene Highway (Route "F"), Lane County. This location, the Engineer stated, is approximately nine miles easterly from the town of Mapleton and will be used for picnic facilities. He pointed out that this is a County park and the County will maintain the area; however, one of the aims of the safety rest program is to construct at least one development on each highway from the Valley to the Coast. This area is located so as to serve this purpose. He estimated the cost of constructing a deceleration lane and a 26-car parking area at $3,350. The proposal has been approved by the Park and Recreation Advisory Committee, and he recommended that it be approved by the Commission. The Commission approved the project as presented and authorized the Secretary to sign an agreement pertaining thereto if one is necessary.

A revision in the area proposed for the "Bullards Beach State Park" just westerly of the new Oregon Coast Highway between Davis Slough and Bandon in Coos County was discussed. The Engineer exhibited a map showing areas owned by the Bundy Estate, by Christine Evans, and by the Bureau of Land Management. In 1959 when development of this park had been considered, the area consisted of approximately 1,400 acres. Negotiations since 1959 have eliminated from early acquisition plans those developed properties immediately west of the bridge. A careful study of the area by the Planning Division has produced a proposed development which will provide camping, day use, parking, and access to the beach. The total acreage, he estimated at 1,174 acres, 715 acres being from the Bureau of Land Management and the balance privately owned. The State Parks and Recreation Advisory Committee has unanimously recommended acquisition. As the proposed taking deviates from that originally approved, the Engineer recommended that the revision be approved and that authority be granted to acquire the properties listed as follows:

Owner	Acreage	Highest Appraisal	Asking Price
Christine Evans	89	$33,000	$ 33,500, plus life-time estate in house and 7 acres
Pearl Bundy Estate	365	43,750	46,500
Bureau of Land Mgmt.	715		1,790
		TOTAL	$ 81,790

The Commission accepted the recommendation.

The meeting was recessed at 10:30 a.m. and reconvened at 10:45 a.m.

Mr. Norman Wood, representing the Bureau of Public Roads; Mr. Ward Gano, Regional Engineer of the U. S. Forest Service; and Mr. Vance Blackwell, Assistant Regional Engineer of the U. S. Forest Service, all from Portland,

were present concerning a proposed Forest Highway Program for the fiscal year 1963. The Engineer described briefly the projects under consideration. Commissioner Fridley inquired as to how projects are evaluated -- that is, what criteria is used to determine priority of the projects. The Engineer explained briefly that the projects are determined on a three-way basis, considering the desires of the U. S. Forest Service, the U. S. Bureau of Public Roads and the State Highway Commission. The volume of traffic on the roads has a bearing in determining the priority of projects and also use of the roads to haul timber from Forest Service lands. It was Commissioner Fridley's feeling that unimproved forest roads should be improved before tearing up forest roads which are now paved. People who live along these roads, he felt, should be given the advantage of paved roads wherever possible. He also expressed the opinion that some of the Forest Service roads which have a low traffic volume need not be constructed to as high standard as is normally required. He thought that the idea of getting the people in Oregon out of the mud should be considered in evaluating the relative merits of both state and forest projects. In response to an inquiry made by Commissioner Jackson, the Engineer stated that allocations for the Lake of the Woods Highway cover paving of sections now being graded. After some further discussion, the Commission approved the following proposed highway forest program:

Unprogrammed Balance from previous years	0
Fiscal Year 1963 allotment available for programming	$4,346,848
Less FY-1963 funds programmed by administrative action to cover overruns	-146,848
Adjusted funds available for programming:	$4,200,000

Project No.	Route Name & Location	Type Work	Length (Miles)	Forest Highway Funds
WITHDRAW THE FOLLOWING PROJECTS:				
7-G5	Siuslaw Highway	Grade-Surf.	2.5	190,000
35-E4,H3	John Day-Burns	Gr., Surf., Br. Bit. Pav.	8.0	395,000
	Adjusted total funds available for programming			$4,785,000
SUBSTITUTE FOLLOWING PROJECTS:				
7-1(1)	Siuslaw Highway 1.0 Florence-No.Fk. Bridge 1.7 No.Fk. Bridge-Easterly (State Rt. 36)	Gr.-Base-Bit. Surf.	2.7	325,000
35-3(1)	John Day-Burns Highway Project 35-E3, Southerly (US-95 6.7 Mi. S. Junct. State Rt. 26 Southerly)	Grade-Base-Bit. Surf.	8.0	550,000
NEW PROJECTS:				
3-1(2)	Oregon Coast Highway Neskowin-Otis Junction (US-101)	Bit. Pave.-Guard Rail	7.7	425,000

Proposed Forest Highway Program - Cont.

Project No.	Route Name & Location	Type Work	Length (Miles)	Forest Highway Funds
NEW PROJECTS - Cont.				
17-1(2)	Crater Lake Highway Cascade Gorge-Prospect R.S. (State Rt. 62)	Grade-Struct.	6.8	650,000
22-1(1)	McKenzie Highway Blue River-Easterly (State Rt. 126)	Right of Way	15.0	150,000

46-1(1)	Cascade Lakes Highway Junct. State Rt. 230 to CLNP Boundary	Grade-Base-Pave	4.8	450,000
46-3(1)	Cascade Lakes Highway Crane Prairie Res. Section (20 Mi. N. junct. State Rt. 58-Northerly)	Base-BST	7.6	250,000
47-2(1)	North Umpqua Highway Boulder Cr.-Clearwater (Douglas County Cooperator matching funds of $200,000 for total estimate of $400,000)	Base-Pave	5.4	200,000
Lump Fund Surveys Routes 1,2,3,5,6,7,8,11,16, 17,18,23,24,25,26,30,32,34, 35,39,43,45,46,47,48,49,51, 53,55				150,000
				$4,550,000
	Unprogrammed Balance	$235,000		

December 8, 1961

The Engineer reported that as previously instructed by the Commission, he had awarded a contract subject to him to award such certain conditions had been fulfilled. These conditions have now been satisfied. The Commission confirmed the award of the following contract:

(1) Oiling the Snowshoe Camp-Star Creek Section of Prairie-Logdell Road, Grant County. Bids received May [illegible], 1961. Contract No. 6041 awarded October [illegible], 1961, to Robert Olson Construction Company, Inc., Pendleton, low bidder.

The Engineer reported that surveys covering construction of two sections of state highways have been completed. In making these surveys, careful engineering consideration was given to insure that the most adequate facility to the traveling public is obtained for the cost of the project. On his favorable recommendation, the Commission authorized the following surveys by adopting a resolution, Minute Exhibit "H" and a resolution by this reference is made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

(1) Myrtle Point Section of Coos Bay-Roseburg Highway, Coos County. (See Exhibit "I")

(2) North Unit, Rickreall Bridge-Tyee Bridge Section of Eastside-Sutherlin Highway, Douglas County. (See Exhibit "J")

Increases in contract project authorizations, as presented by the Engineer and approved by the Commission on the following contracts:

(1) Contract No. 5761, for grading and surfacing the Aims-Canby Section of Pacific Highway East, Clackamas County. An increase of $61,562 or 7.5 percent of the authorization was approved. Major causes of the overrun were unanticipated utility work by the City of Canby, changes in specifications to increase the oil to pavement and an engineering error on the plans which lasted about six weeks.

(2) Contract No. 5849, an increase in the amount of $[illegible] or [illegible] percent was approved for grading, paving, two bridges and signing on the Multnomah County Line-East Cascade Locks Section of Columbia River Highway, Hood River County. A change in the East Cascade Locks interchange was the principal cause of the overrun.

(3) Contract No. 5836, an increase in the amount of $28,899.82 or 12.4 percent was approved. Principal reason for the overrun, the Engineer explained, was that the original estimate of quantities for curbs, crushed base rock and asphalt concrete was inadequate.

Attention was given to a request made by the Traffic Engineer of the City of Eugene for installation of traffic signals at the intersection of Railroad Boulevard and Van Buren on the Junction City-Eugene Highway in the city of Eugene. The Engineer reported that an investigation disclosed that the conditions which were found at this intersection warranted the installation of traffic signals. It was his recommendation that a fully actuated traffic signal be installed at an estimated cost of $11,000, provided the city of Eugene will pay one-half the cost of the installation and furnish all future maintenance and power needs. The Commission approved the installation and authorized the Secretary to sign an agreement pertaining to the signal installation.

The Commission considered an agreement with the cities of Oregon City and West Linn concerning illumination on the roadway of the Oswego Highway at the Oregon City arch over the Willamette River. The Engineer explained that the State for many years has been maintaining the installation. The wiring is now being replaced at an estimated cost to the State of $10,700 and Oregon City and West Linn have agreed to maintain and operate the roadway lighting system. The State is to rewire and maintain the navigation lights on the bridge over the Willamette River and the two cities are to furnish power for the navigation lights from their street lighting circuit. Following his favorable recommendation the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

A petition from residents of Clackamas County, submitted by Clackamas County Board of Commissioners, for installation of traffic signals at the intersection of Cascade Highway and Sunnyside Road, south of Portland was considered. An investigation by the Traffic Engineering Division indicated that traffic signals are warranted, and because of the traffic patterns fully actuated signals should be installed. Cost of the signals was estimated at $10,000 and the Engineer recommended that they be installed. The Commission approved the installation.

A proposal was considered from the American Association of State Highway Officials that the States pledge 5 percent of their Highway planning survey funds to finance a program of research activities under the National Academy of Sciences. Oregon's share under this arrangement, the Engineer stated, would be approximately $40,825. These research projects will be undertaken either by the Highway Research Board or under contract with some research organization or university. He explained that AASHO has submitted a ballot to each state to vote yes or no on the proposal. If 36 of the states vote yes, the action is binding on all 50 states. After the fund is established the research projects will be selected and these in turn will require approval by 2[illegible] of the participating states on an individual project basis. Provision has been made that the program may be postponed until the 1963 fiscal year in

lieu of 1962 as called for on the ballot. The Bureau of Public Roads strongly recommends this research program. The Engineer explained further that one of the research projects planned would correlate the results of the road test conducted in Illinois so as to make them applicable to all the states. Chairman McIver commented that if the states have to wait as long for the results from this research project as they have had to wait for the results of the Illinois Road Test, the results would not be of much value. It was his thought that AASHO should be required to show some tangible results before additional money is granted. Commissioner Jackson also voiced dissatisfaction with the slowness in reporting the results of the Illinois Road Test with the observation that the test road "elephant" should produce something more than a "pea seed" for results. Commissioner Fridley inquired if the research projects are to be staffed with practical engineers. The Engineer stated that he had made contact with administrators of four western states, and Washington, Idaho and California favored the project; however, Colorado had not yet made up its mind. After some further discussion the Commission approved participation in the program and the six items for the first year's research.

The Engineer presented a cooperative construction agreement with the City of Medford covering widening and reconstruction of South Riverside Avenue between Ninth Street and the junction with South Central Avenue. This project, he stated, is on the existing route of the Pacific Highway. Among other things, the agreement provides that the State will pay 75% of the actual cost of the project, excepting new sidewalks and traffic signal revision. The City is to pay the other 25%. Traffic signal revision is to be shared 50% by the State and 50% by the City. The City also is to provide for all maintenance and power needs to operate the signals. Upon the favorable recommendation of the Engineer, the Commission approved the agreement and authorized the Secretary to sign it in their behalf.

The establishment of a 35-mile-per-hour construction speed zone on the Sherman Highway in Sherman County was reported by the Engineer. This speed zone, he stated, was established between M.P. 0.38 and M.P. 1.93 at 8 a.m., November 27, 1961 for the protection of the traveling public through construction operations. The Commission confirmed the construction speed zone.

The Engineer requested authority to call for bids for either a Federal-aid Primary or a Federal-aid Urban roadside improvement project at the 26th Avenue Interchange Section of the Pacific Highway (Baldock Freeway), Portland. Most of the other roadside improvement work, he added, is under contract, but this particular spot has been declared by the Bureau of Public Roads as ineligible for interstate funds. Upon his favorable recommendation, the Commission approved the project, which is estimated to cost $7,800.

Consideration was given to a request made by Wasco County-Dalles [illegible] Commission that the State convey to them an area in the westerly section of The Dalles adjacent to the existing Highway Maintenance Headquarters. This area, the Engineer stated, was acquired without cost from the City of The Dalles and from Dr. Fred Thompson. Originally it was intended that the area be used as a wayside rest area, but this need no longer exists. The

Museum Commission wishes to use the property as a site for a memorial honoring the Lewis and Clark Expedition and also as a site for preserving the old county courthouse. He recommended that the area be deeded to the Museum Commission without charge and subject to the usual public use restrictions. The Commission accepted the recommendation.

A request from McNutt and Sons, Inc. for an extension of time within which to complete Contract No. 5710, for grading and oiling the Sumpter-McEwen Section of the Sumpter Valley Highway, Baker County, from 95 workdays to 147 workdays without assessment of liquidated damages was considered. The Engineer stated that the request had been carefully considered and under the terms of the contract it was found that the contractor should be granted an extension of workdays from 95 to 119 without assessment of liquidated damages, and he so recommended. The Bureau of Public Roads' approval, he stated, is not required on this project. The Commission approved the extension of time as recommended.

The Engineer reported that Contract Nos. 5489, 5503, 5596, 5743, 5798, 5814, 5819, 5835, 5838, 5852, 5884, 5917, 5934, 5981 for highway construction have been completed in accordance with the requirements of the contracts or modifications thereof and said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution relative thereto, marked Exhibit "E", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

The Commission considered requests, totaling $593,000, from Clackamas, Deschutes, Jackson, Linn, Marion and Tillamook Counties for approval of county federal-aid secondary projects. These projects, the Engineer stated, have been checked and approved. Following his favorable recommendation, the Commission approved the following projects and authorized the Secretary to sign the necessary agreements in behalf of the Commission.

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Fun
Clackamas	731	Ross Bridge. Structure.	$ 33,000	1963
	812	Monitor Bridge. Structure.	27,000	1963
Deschutes	691	Hamby Road. Oiling, 2.6 miles.	16,000	1963
	899	George McAllister Road. Oiling, 6.7 miles.	42,000	1963
Jackson	274	Midway-Central Point Interchange and Taylor Road-Ross Lane. 3.3 miles, grade, surface, and pave.	210,000	1962
Linn	212	Grant Street Bridge. Grade, pave, and structure. Supplementary funds (Tab. 61-b)	136,000	1963

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Funds
Marion	731	Ross Bridge. Structure.	$ 32,000	1963
	812	Monitor Bridge. Structure.	28,000	1963
Tillamook	617	Cape Lookout Summit-Jackson Creek Grading, 2.0 miles.	69,000	1963
		TOTAL ADDITIONAL COUNTY FAS FUNDS...	$ 593,000	

SUMMARY BY FISCAL YEARS	1962	1963	Total
Allocated Funds	$3,497,000	$3,690,000	$7,187,000
Previously Approved, Corrected to Date	3,287,000	859,000	4,146,000
Unprogrammed Balance	$ 210,000	$2,831,000	$3,041,000
Projects Proposed 12/8/61	210,000	383,000	593,000
Unprogrammed Balance	$	$2,448,000	$2,448,000

Attention was given to a tabulation showing a final 25 percent allocation of 1963 federal-aid secondary funds to the individual counties. This allocation, the Engineer explained, represents the final allocation, 75 percent of which was approved by the Commission at its meeting on September 15, 1961, because the final population figures were not available at that time. The allocation has been computed in accord with the formula developed by the Association of Oregon Counties, using the official 1960 census and the 1961 county road mileage. The Commission approved the following allocations:

County	75% Allocation Federal Funds APPROVED 9/15/61	Final 25% Allocation Federal Funds	Total 1963 Federal Funds	Total 1963 FAS Funds Rounded to Thousands
Baker	$ 27,020	$ 8,763	$ 35,783	$ 60,000
Benton	33,741	11,031	44,772	75,000
Clackamas	110,680	36,365	147,045	245,000
Clatsop	29,440	9,629	39,069	65,000
Columbia*	38,412	5,925	44,337	74,000
Coos	60,612	19,898	80,510	134,000
Crook	26,382	8,582	34,964	58,000
Curry	27,169	8,881	36,050	60,000
Deschutes	29,984	9,756	39,740	66,000
Douglas	77,121	25,311	102,432	171,000
Gilliam	19,063	6,172	25,235	42,000
Grant	23,342	8,068	31,410	52,000
Harney	26,857	8,714	35,571	59,000
Hood River	26,680	8,709	35,389	59,000
Jackson	59,993	19,650	79,643	133,000
Jefferson	24,108	7,843	31,951	53,000

County	75% Allocation Federal Funds APPROVED 9/15/61	Final 25% Allocation Federal Funds	Total 1963 Federal Funds	Total 1963 FAS Funds Rounded to Thousands
Josephine	$ 34,831	$ 11,386	$ 46,217	$ 77,000
Klamath	49,136	16,085	65,221	109,000
Lake	26,246	8,515	34,761	58,000
Lane	114,441	37,609	152,050	253,000
Lincoln	33,800	11,052	44,852	75,000
Linn	61,557	20,165	81,722	136,000
Malheur	49,075	15,970	65,045	108,000
Marion	96,543	31,713	128,256	214,000
Morrow	25,780	8,353	34,133	57,000
Multnomah	166,242	54,750	220,992	368,000
Polk	37,588	12,295	49,883	83,000
Sherman	18,394	5,954	24,348	41,000
Tillamook	33,151	10,854	44,005	73,000
Umatilla	54,490	17,793	72,283	120,000
Union	26,019	8,467	34,486	57,000
Wallowa	24,654	8,017	32,671	55,000
Wasco	28,343	9,225	37,568	63,000
Washington	92,393	30,354	122,747	205,000
Wheeler	16,745	5,454	22,199	37,000
Yamhill	42,902	14,042	56,944	95,000
	$1,672,934	$541,350	$2,214,284	$3,690,000

SUMMARY, ENTIRE STATE, FISCAL YEAR 1963 COUNTY FAS FUNDS:

Federal Funds (50% of Oregon's Apportionment of $4,496,007)	$2,248,004
Less Planning Survey Funds	33,720
	$2,214,284
Net Total Federal Funds for Construction	$2,214,284
Plus Estimated Required Match Money - - - - State Funds)	738,095
- - - -County Funds)	738,095
TOTAL COUNTY FAS FUND	$3,690,474

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on total county road mileage) proposed by Association of Oregon Counties and approved by Highway Commission. Federal funds are estimated to represent approximately 60% of total county road FAS fund with state and county funds estimated to be approximately 20% each.

*Columbia County apportionment adjusted due to City of St. Helens' special count indicating a population of 5,022.

The Engineer reported that traffic engineering investigations had disclosed the need for establishing speed zones or rescinding existing speed zones because of new highway construction and to make changes compatible with speed zones established by the State Speed Control Board within cities. Follow

his favorable recommendation, the Commission approved the establishment of the following speed zones and thereupon adopted resolutions relative thereto, marked Exhibits "F-1" through "F-4", which resolutions by this reference are made a part hereof and filed in the Secretary's office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961":

(1) Pacific Highway

70 MPH between M.P. 251.53 and M.P. 261.47, at the north city limits of Grants Pass.
70 MPH between M.P. 261.62 and M.P. 261.69.
70 MPH between M.P. 261.76 and M.P. 269.61, at the west city limits of Rogue River.

This action rescinds Speed Zone Resolution No. 324, dated August 18, 1960. (See Exhibit "F-1").

(2) Sunset Highway:

45 MPH from the junction with the Oregon Coast Highway to M.P. 0.10.
60 MPH between 0.10 and M.P. 19.28.
50 MPH between M.P. 19.28 and M.P. 19.66.
60 MPH between M.P. 19.66 and M.P. 68.02, near Cedar Hills Boulevard.
55 MPH between M.P. 68.02 and M.P. 72.14, at the southwest city limits of Portland.

This action rescinds Speed Zone Resolution No. 355, adopted September 15, 1961. (See Exhibit "F-2").

(3) The Dalles-California Highway:

35 MPH between the south city limits of Klamath Falls and a point 0.20 mile south of the south city limits of Klamath Falls.
This action is to correlate with the establishment of a speed zone within the City of Klamath Falls by the State Speed Control Board.

(See Exhibit "F-3").

(4) Mosier-The Dalles Highway:

45 MPH between the connection from the Columbia River Highway and the west city limits of The Dalles.
This action is to correlate with establishment of a speed zone within the City of The Dalles by the State Speed Control Board.

(See Exhibit "F-4").

In connection with the opening of the Pacific Highway into Harbor Drive, Portland, the Engineer stated that an additional traffic load will be placed on the Clay-Market Couplet. In order to provide increased traffic capacity the City of Portland has taken action to prohibit parking on the Clay-Market Couplet during peak hour periods. As this is a state highway, the Engineer recommended that the Commission take concurring action to prohibit parking on both sides of S. W. Clay Street between S. W. 12th and S. W. Front Avenue between the hours of 7:00 a.m. and 8:30 a.m., and between 4:00 p.m. and 6:00 p.m.; and that parking be prohibited on both sides of S. W. Market Street between S. W. 12th and S. W. Front Avenue between the hours of 4:00 p.m. and 6:00 p.m. The Commission accepted the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "H", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

Since the opening of this section of the Pacific Highway on December 1, 1961, the Engineer stated that a traffic count indicated that about 22,000 vehicles daily use the new Freeway Section into and out of Portland, and that about 31,000 vehicles daily are still using Barbur Boulevard.

Commissioner Fridley inquired if there had been any further developments concerning the Ash Street Ramp on Harbor Drive, Portland. The Engineer replied that nothing has come up concerning this project recently.

The Engineer recalled that the Highway Commission on July 7, 1960, had approved a survey for the Stadium Freeway Route in Portland (Interstate Route No. 405). This route, however, was not made a part of either the primary or secondary state highway systems. To keep the records in order, he recommended, and the Commission approved, that the Stadium Freeway be added to the state primary system and designated as State Highway No. 61. The Commission adopted a resolutuion pertaining to this matter, marked Exhibit "J", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

An abandonment and highway designation resolution was presented by the Engineer, abandoning to Hood River County certain replaced sections of the Polallie Creek-Parkdale Road Section of the Mt. Hood Highway and and extending the Hood River Secondary Highway. The newly constructed section, he stated, has been completed and is open to public travel. To comply with the terms of an agreement previously entered into with the county, he recommended that the Commission adopt a resolution formally abandoning the old sections to the County and designating as an extension of the Hood River Highway No. 281 a 1.79 miles section of the old Mt. Hood Highway, beginning at the junction with the existing Hood River Highway and extending northeast along the old route of the Mt. Hood Highway to the junction with the Tollgate County Road in the community of Mt. Hood. The Commission adopted a resolution encompassing these actions, marked Exhibit "D", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of December 8, 1961".

Out-of-state travel expenses for Highway personnel were recommended by the Engineer and approved by the Commission, as follows:

(1) Victor D. Wolfe, Administrative Assistant, to attend the annual national meeting of the Better Highways Information Foundation in Kansas City, Missouri, on January 15 - 17, 1962, at an estimated cost of $240.

(2) Ralph B. Sipprell, Director of Permits, and legislative liason of the Highway Legislative Interim Committee, to attend the meeting of the Council of State Governments in Las Vegas, Nevada, on December 8-9, 1961, at an estimated cost of $190. This action is to confirm approval given by Commissioner Jackson on November 16, 1961.

(3) R. C. Blensly, Planning Survey Engineer, to attend the Highway Research Board Meeting in Washington, D. C., on January 6 - 13, 1962. The cost of this trip is to be paid by the Highway Research Board.

An amendment to Bulletin No. 24, "Oregon Manual on Uniform Traffic Control Devices for Streets and Highways", was presented by the Engineer. He explained that the revised 1961 National Manual on Uniform Traffic Control Devices stipulates specific color, yellow or white, for traffic lines and pavement markings. To conform with the new National Manual, it is necessary that the Oregon Manual as adopted by the Highway Commission on March 28, 1957, be amended. The amendments, he continued, state where white and yellow colors shall be used in marking highways, and also curb markings. Based upon his favorable recommendation, the Commission approved the amendment to the Oregon Manual. (For additional details, see the Engineer's letter to the Commission, dated November 22, 1961, concerning highway markings, filed in the General Files, Salem).

The Commission confirmed approval given earlier on an Extension Rider with the Union Pacific Railroad Company extending an agreement to December 15, 1961, which gives the State the right to drill test holes on Railroad Company right of way in Portland.

Consideration was given to an agreement with Oregon State University extending to December 31, 1962, an existing agreement covering soil testing. Extension of this agreement, the Engineer stated, was requested by the Bureau of Public Roads as a part of the Highway Planning Survey. In view of the request of the Bureau of Public Roads and the fact that the Highway Department does derive benefit from the information gathered, he recommended that the agreement be extended for one year, at an estimated cost of $5,600. The Commission approved the agreement extension and authorized the Secretary to sign it in their behalf.

The Commission also considered an agreement with the Grants Pass Irrigation District in connection with construction of the Grants Pass-East Grants Pass Interchange Section of the Redwood Highway in Josephine County.

Briefly, the Engineer explained that the agreement provides that the State will protect the District's facilities during construction and will maintain their facilities within the right of way. The Commission accepted his recommendation that the agreement be approved and authorized the Secretary to sign it in their behalf.

Attention was given to an agreement with Mr. & Mrs. Edward Seufert whereby the Seuferts agree to furnish water to the new maintenance headquarters and allow the State to connect its sewer system to their sewer line which passes through the new State Highway Maintenance Headquarters site in The Dalles. The agreement provides that water is to be furnished at a cost comparable to rates now in effect by the Chenowith Water District. These rates, the Engineer stated, are somewhat less than those charged by the The Dalles at the present quarters. He recommended that the agreement be approved. The Commission approved the agreement and authorized the Secretary to sign it in their behalf.

The Commission considered finance agreements with Benton County and with Klamath County covering construction projects on county FAS routes. These projects, the Engineer stated, have been authorized previously by the Commission and presentation of the agreements is for the purpose of securing Commission authority for the Secretary to sign them. The Commission approved the following agreements and authorized the Secretary to sign them in their behalf:

(1) With Benton County for construction of the Long Tom River (Bundy) Bridge on FAS 578. Project approved by the Commission on November 3, 1960.

(2) With Klamath County covering construction of the Little Deschutes River Bridge on County FAS 842. Project approved by the Commission on May 26, 1961.

The Commission approved the Secretary's report of papers signed in behalf of the Commission during the period October 16 through December 1, 1961.

The next regular Commission meeting date was confirmed for January 19, 1962 in the Conference Room of the State Highway Building, Salem. A tentative date for the following meeting was set for March 2, 1962. Commissioner Fridley stated that he would be present at the opening of bids in Salem on January 17, 1962.

The Engineer presented two throughway agreements covering projects previously authorized by the Commission. These agreements, he stated, are with counties and cities and provide for the closure of county roads and city streets, and other matters in connection with highway construction. Upon his favorable recommendation, the Commission approved the following agreements and authorized the Secretary to sign them in behalf of the Commission:

(1) With Klamath County and the City of Klamath Falls, providing for the closure and relocation of El Dorado Boulevard on The Dalles-California Highway in the City of Klamath Falls and Klamath County.

(2) With the City of Hood River, providing for removal of utilities, reconstruction of Second Street Interchange, construction of a frontage road, and closure of an unnamed street in the City of Hood River.

Attention was given to a "Clear Zone Easement" for the passage of aircraft from and to the Hermiston Airport over the Umatilla-Stanfield Highway in Umatilla County. The Chief Counsel explained briefly that as the air space over the highway for a certain distance is deemed to be under the control of the State, the easement has been granted to allow aircraft to land and take off over the highway. He recommended that the easement be approved. The Commission approved the easement.

The Commission considered adoption of a policy established by the American Association of State Highway Officials regarding highway signing on Interstate routes. The Engineer explained that some sections of the Interstate routes are on new alignment while other sections follow the alignment of an existing highway. As there are now completed and open to traffic about 110 miles of Interstate Route 5 from Portland to Eugene, the AASHO policy of signing can be placed in effect. Briefly, he stated that this policy provides that the Interstate markings are not to replace those of the U. S. system on those sections where the Interstate system in constructed over an exisiting U. S. numbered route, in which case both the U. S. and the Interstate system shields and route numbers shall be used. On sections of the Interstate which do not follow an existing route, only the Interstate marking is to be shown. To implement this, he recommended that the following action be taken:

(1) Sign all the Pacific Highway from where it leaves Harbor Drive to Judkins Point as the route of I-5.

(2) Re-establish U. S. 99W over the Pacific Highway West from its junction with the Pacific Highway East, north of Portland via Interstate Avenue, Harbor Drive, Barbur Boulevard, Newberg, McMinnville, and Corvallis to Junction City.

(3) Re-establish U. S. 99E from its intersection of U. S. 99W north of Portland via Union Avenue, McLoughlin Boulevard, Oregon City, Salem (through the city), and Albany to its junction with U. S. 99W at Junction City.

(4) Extend U. S. 99 northerly from Judkins Point through the city of Eugene to Junction City.

(5) From North Grants Pass to Gold Hill, the Pacific Freeway would be signed I-5.

(6) From North Grants Pass via Grants Pass and the Rogue River Highway (present routing of U. S. 99) would remain signed U. S. 99.

Concerning the Old Oregon Trail (U. S. 30) (I-80N) he recommended that the same general policy be followed. These changes, he stated, have been discussed with city and county officials, Chamber of Commerce representatives, and others west of the Cascade Mountains, and have been favorably received. In response to an inquiry by Chairman McIver as to whether it were possible to use the Interstate shield on both the finished and unfinished portions of the Interstate highways so as not to confuse the public, the Engineer replied that this could be done now that large portions of the Interstate system have been completed, but that it would be a matter of policy. The Commission approved the policy on signing as presented.

Consideration was also given to an agreement with the Talent Irrigation District covering revision of irrigation structures and facilities on the North Ashland Interchange-South Ashland Interchange Section of the Pacific Highway in Jackson County. Following the Engineer's favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

The Commission also considered an agreement with Gold Hill Irrigation District covering revision of facilities of the District in construction of the Rock Point-Seven Oaks Section of the Pacific Highway in Jackson County. The Commission accepted the Engineer's recommendation that the agreement be approved and authorized the Secretary to sign it in their behalf.

The Engineer presented for the Commission's consideration bids received on December 6, 1961, for highway construction. He pointed out the number of bids received on each project, the amount of each low bid, the Engineer's estimate for each job, and made his recommendations as to award, rejection, or other disposal of the bids received. The Engineer called attention to a typographical error on the John Day River Bridge and Grading Project on Columbia River Highway in Gilliam and Sherman Counties in which the Roman numeral "C" had been omitted from the bid proposal on Item No. 28. The bid read "single yard stations" instead of "hundred yard stations." The Engineer recommended that the award of this contract be based on the understanding that the low bidder will consent to a correction of the typographical error in bid Item 28 in the proposal. The Commission accepted the Engineer's recommendation concerning the error in the proposal mentioned above and thereupon made awards of contracts as follows and authorized the Secretary to sign the contracts in their behalf:

BIDS RECEIVED IN SALEM ON DECEMBER 6, 1961

"Long Tom River (Bundy) Bridge, on Martins Lake Road in Benton County. The Commission elects to accept the low bid of George W. Millett, Jr., Eugene, in the sum of $42,169.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Benton County is received and the sum of $9,500.00 is deposited by the County.

"John Day River Bridge and Grading on Columbia River Highway in Gilliam and Sherman Counties. The Commission elects to accept the low bid of Pacific Concrete Co., Otis P. Jordan, Jr., and C. V. Glidden, Portland,

in the sum of $2,433,333.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of Bureau of Public Roads and Corps of Engineers is received, and also with the understanding that the low bidder will consent to a correction of a typographical error in bid item 28 as contained in the proposal.

"Construction of undercrossing structures and bridge on 12th Street-N. Ashland Interchange Section of the Pacific Highway in Jackson County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Co., Reedsport, at $562,802.50.

"Rogue River Bridge Area Park Facilities in Jackson County. The Commission awarded the contract to the low bidder, John E. Westgaard and Merle C. Howard, Ashland, at $53,492.95.

"Grading and paving Grants Pass-E. Grants Pass Interchange Section of the Redwood Highway in vicinity of Grants Pass, Josephine County. The Commission awarded the contract to the low bidder, Morse Bros., Lebanon, at $340,434.90.

"Grading, paving, structure and signing on N. Klamath Falls Interchange Section of The Dalles-California Highway in vicinity of Klamath Falls, Klamath County. The Commission awarded the contract to the low bidder, Asphalt Paving Co., Kizer Equipment Co. and Ray Kizer Construction Co., Klamath Falls, at $474,676.35.

"Little Deschutes River Bridge on Odell Butte-Crescent County Road in Klamath County. The Commission elects to accept the bid of Hamilton & Thoms, Inc., Eugene, in the sum of $18,565.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Klamath County is received and the sum of $4,000.00 is deposited by the County.

"Crushed materials in stockpiles on Silver Lake-Hunter Hill Section of the Fremont Highway in Lake County. The Commission awarded the contract to the low bidder, L. V. Anderson, Oakridge, at $32,640.00.

"Butte Creek Bridge on Lebanon-Brownsville Road in Linn County. The Commission elects to accept the bid of George W. Millett, Jr., Eugene, in the sum of $14,474.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County is received and the sum of $3,300.00 is deposited by the County.

"Marquam Bridge Piers on Pacific Highway in Portland, Multnomah County. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Co., Vancouver, Washington, at $1,776,486.00.

"Baldock Freeway Maintenance Building in Multnomah County. The Commission awarded the contract to the low bidder, Meyer Construction Co., Silverton, at $26,982.00.

"Grading, paving and signing on Athena-Blue Mountain Station Section of the Oregon-Washington Highway and the Weston Section of Oregon-Washington Highway in Umatilla County. The Commission awarded the contract to the low bidder, Crick & Sons, Yardley, Washington, at $1,153,792.75.

"Grading, paving and two structures on Tygh Valley Section of The Dalles-California Highway in Wasco County. The Commission awarded the contract to the low bidder, R. E. Hall Construction Co., Pendleton, at $530,538.00.

The meeting was recessed for lunch at 12:15 p.m. and reconvened at 1:25 p.m. with the same persons persent and participating.

The Commission signed or authorized the Secretary to sign in their behalf the following agreements, deeds, and other papers:

"Space Agreement" between the State Highway Commission and the Century 21 Exposition, Inc. covering space to be granted to the State Highway Commission at the Century Exposition in Seattle in 1962.

"Indenture of Access" to the Hazel Wood and E.P. Strayer property on the New Era Canby Section of the Pacific Highway East, Clackamas County.

"Indenture of Access" to Polk County to property on the Rickreall-Orr Corner Section of the Pacific Highway West.

"Indenture of Access" to Echo Resort, Inc. property on Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County.

"Indenture of Access" to the John E. and Nell C. Koch property on Sugarloaf Mountain-McMullen Creek Section of Coos Bay Roseburg Highway in Coos County.

"Indenture of Access" to the Orville L. Otto property on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County.

"Indenture of Access" to the Bert K. Shepeard and Marie A. Shepeard property on the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County.

"Indenture of Access" to the Max Osborn and Jeannetta Osborn property on the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County.

"Indenture of Access" to the O. H. Hinsdale and Jane F. Hinsdale property on Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County.

"Indenture of Access" to the George K. Esau and Katherine Esau property on the Rickreall-Orr Corner Section of the Pacific Highway West in Polk County.

"Grant of Access" to James Lazzeroni granting access from the remaining Lazzeroni property to relocated Grand Avenue on Pacific Highway East, Multnomah County.

"Easement" to International Paper Company to construct and maintain a dam on 0.10 acre of proprty no longer needed for highway purposes to impound waters of Lake Tahkenitch.

"Revocable License" prepared by the U. S. Coast Guard to use a portion of the Cape Mears Lighthouse Reservation, Tillamook County by the State of Oregon for state park purposes.

"Clear Zone Easement" to the State Board of Aeronautics for the passage of aircraft from the Hermiston Airport over the Umatilla-Stanfield Highway, Umatilla County.

"Bargain & Sale Deed" to Weyerhaeuser Company for a parcel of land on the North Bend-Marshfield Section of the Oregon Coast Highway in Coos County.

"Bargain & Sale Deed" to St. Clare's Church for a parcel of land on the Harbor Drive-Barbur Blvd. Section of the Pacific Highway in Multnomah County.

"Bargain & Sale Deed" to The Western Conference Association of Seventh Day Adventists for a parcel of land on S.W. Hamilton Street Slavin Road Section of the Pacific Highway West in Multnomah County.

"Bargain & Sale Deed" to James F. Teed and Mary Luella Teed for a parcel of land on the Stockpile Site Section of the Silver Creek Falls Highway in Marion County.

"Bargain & Sale Deed" to Paul E. Doty and Grace E. Doty for a parcel of land on the Barbur Blvd.-Marion County Line Section of Pacific Highway in Washington County.

"Bargain & Sale Deed" to Ray A. Dysert for a parcel of land on the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County.

"Bargain & Sale Deed" to Jackson and Giles Motor Parts for a parcel of land on the North Roseburg-Winchester Section of the old Pacific Highway in Douglas County.

"Bargain & Sale Deed" to Vira Corp. for property on the Albany-Judkins Point Section of Pacific Highway in Lane County.

"Bargain & Sale Deed" to J. Eugene Popma and Lorraine R. Popma for a parcel of land on the 39th Avenue-102nd Avenue Section of the Columbia River Highway in Multnomah County.

"Quitclaim Deed" to Warren M. Korstad, et ux for 0.09 of an acre on the Judkins Point-Goshen Section of the Pacific Highway in Lane County.

"Bargain & Sale Deed" to Scott A. Wheatley and Marguerite A. Wheatley for a parcel of land on the Salem-Stout Creek Section of the North Santiam Highway, in Marion County.

"Quitclaim Deed" conveying .05 acre of vacated town of Rufus street property to William M. Huck.

"Ground Lease" from Robert E. Powrie and Imogene Powrie for property on the Powers Junction-Sugarloaf Mountain Section of the Coos Bay-Roseburg Highway in Coos County.

"Easement Agreement" with Southern Pacific Railroad Company relative to the Siuslaw River-Walton Section of the Richardson-Eugene Highway in Lane County.

"Bargain & Sale Deed" to Georgia-Pacific Research, Inc. for a parcel of land on the Bergen Ranch-Barnes Road Section of the Sunset Highway in Washington County.

"Agreement" with Medford Corporation and State covering the reinforcement of the Pacific Highway where our logging truck road will cross and the design and supervision for the traffic signals required by P.U.C. Order No. 37634.

"Agreement" with Talent Irrigation District covering revision and reconstruction of the irrigation structures and facilities on North Ashland Interchange-South Ashland Interchange Section of Pacific Highway in Jackson County.

"Agreement" with Grants Pass Irrigation District in connection with construction of Grants Pass-East Grants Pass Interchange Section of Redwood Highway in Josephine County.

"Agreement" with Oregon State University extending to December 31, 1962 the present agreement covering soil testing for the Bureau of Public Roads.

"Agreement" with Edward Seufert wherein the Seuferts agree to furnish water and permit the State to connect its sewer system to their sewer line which passes through the State's property for the State's proposed The Dalles maintenance headquarters.

"Agreement" with Benton County covering construction of Long Tom River (Bundy) Bridge on FAS 578.

"Agreement" with Klamath County covering construction of Little Deschutes River Bridge on FAS 842.

"Throughway Agreement" with Klamath County and the City of Klamath Falls providing for closure and relocation of El Dorado Boulevard on the The Dalles-California Highway in the City of Klamath Falls and Klamath County.

"Throughway Agreement" with City of Hood River providing for removal of utilities, reconstruction of 2nd Street Interchange, construction of frontage road and closure of an unnamed street in Hood River.

"Agreement" with Gold Hill Irrigation District covering revision of certain facilities of the District on Rock Point-Seven Oaks Section of Pacific Highway in Jackson County.

"Petition" to Exclude Land from Medford Irrigation District four parcels consisting of 12.70 acres.

"Petition" to Exclude Land from Rogue River Irrigation District, eight parcels consisting of 22.32 acres.

"Cooperative Construction Agreement" with the City of Medford covering improvement of South Riverside Avenue between 9th Street and the junction with South Central Avenue.

"Agreement" with Cities of Oregon City and West Linn concerning illumination on the roadway of the Oregon City arch over the Willamette River on Oswego Highway.

The Engineer reported that the reorganization of maintenance sections in Division 3 will eliminate the section at Capitol Hill, approximately 24 miles south of Canyonville. The Capitol Hill crew has been moved to Canyonville to consolidate with the crew at that location. The frame barn headquarters site, which is now being rented, is not adequate for maintenance equipment and a new site is needed. He recommended that the Commission approve acquisition of 4.34 acres in Canyonville at a cost of $7,500 for property plus $2,471.34 for an unpaid sewer assessment. This site, he stated, is partially developed, is suitable for maintenance use, and will fill the needs for the headquarters site in this area for sometime to come. The Commission approved acquisition of the maintenance building site.

An Agreement with Medford Corporation providing for reinforcement of the old Pacific Highway North of Medford where a logging truck road will cross it was presented by the Engineer. The private logging road, he stated, is to replace an existing private railroad. The agreement also provides for the installation of flashing traffic signals by the Medford Corporation as required by the Public Utility Commissioner. Based upon his favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it in their behalf.

In connection with operations of the State Speed Control Board the Engineer stated that in the past the Commission had designated Mr. W. C. Williams, State Highway Engineer, as the Commission's representative on the Speed Control Board. If it is the wish of the Commission to continue this practice, he suggested that he be designated as the Commission's representative and that Mr. F. B. Crandall, Traffic Engineer, be designated as an alternate representative. The Commission appointed the Engineer as their representative to the State Speed Control Board and Mr. F. B. Crandall as an alternate representative.

An easement agreement with Southern Pacific Company, File 33505, was presented by the Engineer. Briefly, he commented that the agreement is necessary in connection with highway construction of the Siuslaw River-Walton Section of the Richardson-Eugene Highway in Lane County. The Commission accepted his recommendation that the agreement be approved.

An agreement with the Century 21 Exposition in Seattle, Washington, was presented by the Engineer. He recalled that the Commission had previously authorized the renting of a larger area to advertise the State of Oregon and the agreement has been written to provide the additional space which now amounts to 900 square feet. The cost of leasing this space is $9,810 for the duration of the exposition extending from April 21, 1962 to October 21, 1962, plus the sum of $1,350 for utilities, janitorial, security and other services. The Commission approved the agreement and authorized the Secretary to sign it in their behalf.

The matter of presenting information to the public was brought up by the Engineer who recommended that a highway department public information service be established under the direction of the Highway Engineer. (Later in the day this matter was again discussed and following the advice of the Chief Counsel that such procedure would be legal, the Commission authorized the Engineer to select a person, firm, or corporation to handle the information service, and to contact the Commission by telephone for confirmation.)

Mr. Norris E. Johnson, Manager, and Mr. Ted Rakoski, Transportation Chairman, Astoria Chamber of Commerce, appeared before the Highway Commission concerning ferry service at Astoria and improvement of the Lower Columbia River Highway. Mr. Johnson, who acted as spokesman, expressed the feeling of loss and sorrow that Astoria people felt because of the death of Mr. W. C. Williams, State Highway Engineer. Concerning the operation of the Astoria ferry, he asked that arrangements be made, if possible, to keep the M. R. Chessman Ferry in service the year round. The Astoria area, he commented, has been hard hit economically by the closure of the Naval Base at Tongue Point. The Clatsop County Court has made formal application to purchase this Naval Base as the site for an industrial park to be developed by private enterprise. If this becomes a reality, it will be necessary to improve the Columbia River Highway to the Tongue Point area. He called attention to the fact that the existing Columbia River Highway from Astoria to Svenson, approximately 14 miles, and a one and one-half mile section between Brownsmead and Gnat Creek are very narrow, crooked and winding. He requested that consideration be given to early improvement of these two sections to bring them up to standard. Mr. Rakoski pointed out that the narrow, crooked section of the Columbia River Highway east of Astoria limits the length of vehicles which can use it. It was his feeling that a better highway would materially aid the economy of this section of the State. His truck company is a heavy user of the ferry and he also requested that the Chessman Ferry be kept in service during the entire year. Chairman McIver thanked the delegation for appearing before the Commission and stated that their requests would be given careful consideration.

A delegation representing organizations in and near Sutherlin came before the Commission to urge early completion of the Elkton-Sutherlin Secondary Highway, ORE 35. The following persons were present: Henry Beckley, Kellogg Grange, Lion's Club, School Board, Elkton; Harry Sprague, Chamber of Commerce, and George Stubbert, Lion's Club, Sutherlin; and Elmer Metzger, Douglas County Commissioner, Roseburg. Mr. Beckley, who acted as spokesman, thanked the Commission for work which has been done on this highway and asked that the

schedule for completion be advanced because of the collapse of the Kellogg Bridge and that the remaining section of the highway be graded to correspond with the replacement of the bridge. Mr. Metzger, Douglas County Commissioner, commented that he appreciated the presentation of facts which had been made before them recently by a highway employee concerning the lack of funds and the reasons therefor. It was his opinion that the Commission should be complimented for their efforts rather than criticized. The North Umpqua Road will be finished in 1963 and they would like to see ORE 225 finished at the same time. Upon the request of Chairman McIver, the Engineer outlined to the delegation work that has been done on the Elkton-Sutherlin Secondary Highway and work that remains to be done. Briefly, he stated that $900,000 a year is the entire amount of money available in Division 3 for improvement of secondary highways. The Commission, he explained, had $675,000 in the budget which was intended to be used for construction below Yellow Creek; however, the Kellogg Bridge collapse necessitated a revision in those plans. The Commission has now ordered that the bridge be replaced and the remaining money be used to construct as much highway as possible, principally on the southerly end of the bridge. He pointed out that there still remains a four-mile section which has not yet been placed in a construction program. Chairman McIver thanked the delegation for coming in.

Members of the Malheur County Court and a representative of the Owyhee Irrigation Project appeared before the Commission concerning highway projects in Malheur County. The following persons were present: Earl Flock, County Commissioner, Ontario; Jacob Fisher, County Commissioner, Nyssa; Ellis White, County Judge, Ontario; and Paul House, Manager, Owyhee Irrigation Project, Ontario. Mr. Flock acted as spokesman and urged the Commission to designate as a state highway the Sucker Creek County Road from a point west of Homedale, Idaho, southerly to a junction with the I.O.N. Highway (U.S. 95) near Malloy Ranch. The alternate road, he stated, covers a longer route and is located almost entirely in Idaho. The Sucker Creek Road, if improved, would provide about a 12 mile savings to haulers of livestock and land products, would save the border livestock inspection fee, and would be about 1,000 feet lower than the present route. He also mentioned that people in Weiser and Homedale, Idaho, favor the Sucker Creek route. Judge White called attention to the extra gas tax revenue which would accrue to the State of Oregon if the approximately 2,500 trucks which use the existing route in Idaho were to travel the Sucker Creek Road in Oregon. Concerning the bridge over the Snake River at Ontario, he stated that there is a considerable problem involved here in the hauling of produce, and he asked that the Commission give consideration to construction of a new bridge. Mr. Fisher mentioned the heavy volume of traffic on route 201 between Ontario and Nyssa, particularly the large volume of farm trucks which impede the flow of faster traffic. He urged that the highway be widened to four lanes. Chairman McIver thanked the delegation for appearing before the Commission.

The Morrow County Court and others appeared before the Commission to ask construction of the Willow Creek Cutoff from the Heppner Highway northeasterly to Arlington, and improvements to the Heppner-Spray Highway. The following persons were present: Oscar Peterson, County Judge, Heppner; Frank Weatherford, State Representative, Arlington; Milton Biegel, Morrow County Commissioner, Irrigon; Harold Hartfield, Chairman, and Harry Madison,

Member, Highway Committe of Arlington Chamber of Commerce; William Romine, President, Arlington Chamber of Commerce; Jack Harford, Mayor, Arlington; Dick Wilkinson, Rancher, Heppner; and Rupert Kennedy, Oregon Planning & Development, The Dalles. County Judge Peterson commented that he and many others in Eastern Oregon will greatly miss Mr. W. C. Williams. He urged the Commission to reconstruct the northerly end of the Heppner Highway (ORE 74) by way of Four Mile Canyon northerly and westerly to Arlington. Such a route, he stated, would shorten the distance from U. S. 30 at Arlington to Heppner by about 12 miles and would be of great benefit to the economy of the area. To facilitate traveling into the interior of Morrow County he requested consideration of the reconstruction of ORE 74 to Heppner. He also urged the Commission to take what action they could to secure additional improvements on the Heppner-Spray Highway in the Umatilla National Forest. Mr. Biegel recalled that the early constructed route of the Heppner Highway had followed the old cattle trails and is still located on the same alignment. Construction on better grade and alignment, he felt, would be of great benefit to the County. Mr. Wilkinson urged improvement through Four Mile Canyon in order to provide better access to hospital facilities and to shorten the haul time for transporting cattle. He also urged that work be performed on the road leading directly west from Ukiah toward Heppner. Mr. Hartfield thanked the Commission for work that has been performed on the John Day Highway, and pointed out that similar work on the Heppner Highway would provide equal benefits. He invited the Commission and the Engineers to a dinner as guests of the Arlington Chamber of Commerce. Mr. Kennedy complimented the Commission and its staff on having one of the finest highway systems in the nation. He called attention to the potentially fine industrial site along Lower Willow Creek and stated that the area has considerable resources to accommodate a large population increase. Mr. Weatherford stressed the importance of improved highways to the economy of the County as well as the State. Commissioner Fridley called attention to the fact that earlier in the day the Highway Commission had approved a forest highway program for the coming year which included an amount of $250,000 for improvement of the Heppner-Spray Highway.

Attention was given to a request made by Oregon City officials that the State consent to annexation to the City of a portion of the Cascade Highway included within rights of way acquired from Tri-City Bowl, Ernest Josi, Carl Josi, A. E. Menary, and Millikan and Servan. This request, the Chief Counsel stated, has been investigated and is not detrimental to the interests of the Highway Department. Upon his favorable recommendation, the Commission approved the annexation and authorized the Secretary to sign a consent form in behalf of the Commission.

The Chief Counsel reported that the Legislative Counsel had requested him to ask the Commission for consent to repeal at the 1963 Legislative Session that section of the Oregon Laws which pertains to the issuance of gold bearing bonds. Upon the Chief Counsel's favorable recommendation, the Commission granted such consent.

The Commission considered a compromise settlement of a damage claim which the Highway Department has against Earl Shaffer's Insurance Company for auto damage to a highway guard rail facility. The Chief Counsel pointed out

that $907.16 had been claimed originally, and an offer of settlement in the amount of $500 had been refused. Mr. Shaffer's insurance representative has now offered to settle for $600. As it would cost $300 or more to try the case in court, it was the Chief Counsel's recommendation, approved by the Commission, that the offer of $600 be accepted.

Chairman McIver commented that this would probably be the last Highway Commission meeting held during 1961. It has been a good year for construction and other highway operations, and he congratulated the members of the Commission's staff and other employees of the Highway Department for performing an excellent job. He also extended best wishes for the coming year.

Chairman McIver announced that following an exhaustive study, the Commission had selected the firm of Haskins & Sells to conduct a fiscal procedures and management study of the State Highway Department. The study is to evaluate the organization and administration of the department, its fiscal procedures and records, plant utilization and specialized services within the department. The Commission authorized the Secretary to sign an agreement with Haskins & Sells in behalf of the Commission.

The meeting was recessed at 2:30 p.m. and reconvened at 2:40 p.m. in the Engineer's Office with the following present:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
Forrest Cooper, State Highway Engineer
L. I. Lindas, Chief Counsel
Floyd Query, Secretary

The Commission authorized the Engineer to select an agency and enter into an agreement to complete the Parks Study Report which is now being prepared. The Commission also authorized the Secretary to sign the agreement in their behalf when it is prepared.

Upon being advised that such a procedure would be legal, the Commission authorized the Engineer to select a person, firm or corporation to handle the public information service, and to contact the Commission by telephone for confirmation.

The meeting was adjourned by Chairman McIver at 2:50 p.m.

33315

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

December 8, 1961

Salem, Oregon
January 19, 1962

The Oregon State Highway Commission met in regular session at 9:00 a.m., in the Conference Room of the State Highway Building. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Forrest Cooper, State Highway Engineer
G. S Paxson, Deputy State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
R. L. Porter, Assistant State Highway Engineer
Tom Edwards, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark Astrup, State Parks Superintendent
C. H. Maison, Auditor
Carl Jordan, Director of Travel Information
Gene Huntley, Director of Personnel and Public Relations
Floyd Query, Secretary

(Commissioner Glenn L. Jackson was not present. Later it was learned that he was unable to be present because of a heavy snowstorm in southern Oregon).

The Commission approved the minutes of the regular meeting held November 15, 1961, the telephonic meeting held November 30, 1961, the special meeting held December 2, 1961, and the regular meeting held December 8, 1961.

The Engineer introduced Mr. Harold L. Coltman and Mr. Robert Scherer, representing Haskins & Sell, the firm recently employed to conduct an administrative and fiscal study of the Highway Department. Mr. Rodney Land, who is acting as liason officer between the State Highway Department and Haskins & Sell, was also introduced. Chairman McIver inquired as to what progress had been made. The Engineer replied that in the two weeks Mr. Coltman and Mr. Scherer have been in Salem they have spent most of their time in orientation with the various division heads in the Highway Department to get an outline of its functions. Mr. Coltman stated that beginning on the following week they plan to start studying reports, methods, procedures used, and fiscal controls exercised in the various divisions.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the

properties if negotiations are not successful, and thereupon adopted resolutions relative thereto, marked "Condemnation Resolutions Nos. 1530 through 1550", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Condemnation Resolutions".

(For details concerning these properties see the Chief Counsel's 'Recommendations for Condemnation", dated January 19, 1962, in the Secretary's Office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers").

A written report was presented by the Chief Counsel showing results obtained in cases which have been tried in court. He commented briefly on some of the cases and observed that the verdicts being rendered in Curry County have not changed in pattern. Specifically, he mentioned the case of Joe Zumpfe in which the State's highest appraisal was $4,000 and in which the court awarded a verdict of $10,360. The Commission accepted the report which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3767 Claude L. Finley, et al	Wasco	Columbia River	The Dalles-Big Eddy	$17,750.	$23,780.	$20,725.
L-3645 Earl D. Jamison, et al	Clackamas	Cascade Secondary	Lake Road-Oregon City	$ 4,400.	$15,000.	$ 6,500.
L-3647 Jane Doe Brown, et al	Clatsop	Oregon Coast	Smith Point-Camp Rilea	$ 50.	None	$ 50.
L-3791 Pearl Tracy, et al	Grant	John Day-Burns	Canyon City-Seneca	$ 660.	$ 7,250.	$ 1,250.
L-3789 E. W. Cresap, et al	Grant	John Day-Burns	Canyon City-Seneca	$ 1,130.	$10,000.	$ 3,000.
L-3747 Joseph E. DeMarsh, et al	Grant	John Day-Burns	Canyon City-Seneca	$ 2,065.	$25,000. (Answer)	$ 3,150.
L-3785 Sunny-Cal Ranch Corp., et al	Jackson	Pacific	Rock Creek-Seven Oaks	$ 75.	$ 75.	$ 75.
L-3796 Sunny-Cal Ranch Corp., et al.	Jackson	Pacific	Rock Creek Seven Oaks	$ 110.	$ 110.	$ 110.

Report of Condemnation Cases Tried - Cont.

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3721 Gordon Brown, et al	Multnomah	Stadium Freeway	Fremont Interchange-Marquam Bridge	$ 5,100.	$18,000.	$ 5,000.
L-3848 Joe Zumpfe, et ux	Curry	Oregon Coast	Myers Creek-Brookings	$ 3,950.	$13,000.	$10,360.
L-3827 Ada L. Heller, et al	Coos	Coos Bay-Roseburg	Myrtle Point-Bridge	$ 5,200.	$ 5,200.	$ 5,200.
L-3820 M. A. Ring, et ux	Jackson	Pacific	Seven Oaks-Neil Creek	$22,550.	$30,000.	$25,800. (tried before court without a jury)
L-3838 M. A. Ring, et ux	Jackson	Pacific	Seven Oaks-Neil Creek	$ 5,600.	$ 7,500.	$ 6,750.
L-3774 Robert M. Nixon, et ux	Multnomah	Columbia River	Sauvie Island Bridge-St. Johns Bridge	$ 2,500.	$ 6,450.	$ 2,500.
L-3734 E. R. Smart, et al	Wasco	Columbia River	The Dalles By-Pass	$23,450.	$35,000.	$26,500.

(For further details concerning cases tried, see the Chief Counsel's letter dated January 12, 1962, and a letter dated January 18, 1962, in the General Files, Salem).

The Chief Counsel also submitted a written report of condemnation cases which have been settled out of court. Upon his favorable recommendation, the Commission accepted the report which is summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-3678 David H. Holmes, et al	Jackson	Pacific	Seven Oaks-Neil Creek (Insubstantial increase in view of reappraisal at $20,750, previous trial record and fact that $550 interest due on amount over that deposited in court.)	$15,900.	$20,000.

Report of Condemnation Cases Settled - Cont.

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-3808 Clifford Salmi, et al	Columbia	Columbia River	Westport-Clatskanie	$ 2,500.	$ 3,100.
L-3826 Oregon Mutual Savings Bank, et al	Deschutes	The Dalles-California	Swalley Canal-East Franklin Avenue	$ 225.	$ 600.
		(Higher appraisal of $891 based upon previously unconsidered market data received subsequent to offe			
L-3889 Hannah E. Hawkins, et al	Lane	Pacific	Judkins Point-Goshen	$ 5,190.	$ 5,190.
L-3906 Freddie Lee Williams, et ux	Multnomah	Pacific	North Portland Harbor-North Russell Street	$ 4,800.	$ 4,800.
L-3552 Francis E. Griffin, et al	Harney	Frenchglen	Wright's Point-The Narrows	$ 160. (for deed to 10.6 acres)	$ 150. (for use o property, material and damag
R-32245 Assembly of God of Bay City, et al	Tillamook	Oregon Coast	Hobsonville-Bay City	$ 6,575. amended to $ 7,000.	$ 7,000.
L-3465 Lloyd Corporation Ltd., et al	Multnomah	Pacific	East Bank Freeway	$80,000.	$95,000.
		(See following remarks)			
L-3691 H. George Gettmann, et al	Umatilla	Hermiston	Hermiston-Hinkle	$ 5,850.	$ 8,500.
		(Value of $8,500 indicated by review appraisal.)			
L-3846 Clayton L. Long, et al	Curry	Oregon Coast	Myers Creek-Brookings	$ 8,000.	$10,000.
L-3847 Helen G. Younce, et al	Curry	Oregon Coast	Myers Creek-Brookings	$ 800.	$ 1,000.
L-3908 Susie A. Tom, et al	Sherman	Columbia River	Biggs-Rufus	$25,500.	$25,500.
R-32637 Andrew Morgan, et al	Josephine	Redwood	"E" and "F" Street Connection	$ 3,650.	$ 3,650.

Report of Condemnation Cases Settled - Cont.

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-3865 Jean M. Shelley, et ux	Lane	Siuslaw	Florence-Cushman	$ 100.	$ 250.
L-3782 Randolph C. Bowden, et ux	Multnomah	Columbia River	Sauvies Island-St. Johns Bridge	$ 7,580.	$ 7,580.
R-32220 Crown Zellerbach Corp.	Tillamook	Oregon Coast	Hobsonville-Bay City (Settlement includes 19 acres not included in appraisal of $150.)	$ 150. (6.6 acres)	$ 1,331.68
L-3682 Norman and Lucille Glascock, et ux	Jackson	Pacific	Seven Oaks-Neil Creek (Review appraisal showed gravel deposits and appraisal increased to $9,625.)	$ 8,250.	$10,750.
L-3881 Marlin D. Karnes, et al	Polk	Willamina-Salem	Bonneville Station-Patterson Avenue	$ 1,450.	$ 2,000.
L-3900 M. J. Raschko, et ux	Polk	Willamina-Salem	Bonneville Station-Patterson Avenue	$ 1,300.	$ 1,750.

Concerning settlement of the Lloyd Corporation property in Multnomah County, File L-3465, the Chief Counsel explained that the State's offer of $80,000 was based on appraisals made in 1958 and since that time property values in the area have increased. The appraisals have been reviewed and a settlement of $95,000 has been reached, which amount is within the revised appraisal value.

(For further details concerning cases settled, see the Chief Counsel's letter of January 12, 1962, entitled "Report of Cases Settled", and his letter of January 18, 1962, entitled "Supplemental Report of Cases Settled", in the General Files, Salem).

The Commission considered the Chief Counsel's report on offers made to property owners prior to the commencement of condemnation proceedings. These offers, the Chief Counsel stated, are based upon careful appraisals and have been approved orally by at least one of the Commissioners prior to this meeting. The Commission confirmed the following offers:

BONNEVILLE STATION-PATTERSON AVENUE SECTION OF THE WILLAMINA-SALEM HIGHWAY

R-26168 - R. L. Elfstrom, et al. 3.0 acres for right of way purposes. Offer of $46,750 approved by Mr. McIver, January 3, 1962.

R-29505 - Nellie E. Hulst, et vir. 9,500 square feet for right of way purposes. Offer of $2,250 approved by Mr. McIver, January 15, 1962.

R-32568 - Pete Harms, et ux. Parcel No. 1: 0.43 acre for right of way purposes; and Parcel No. 2: 0.32 acre for right of way purposes. Offer of $7,600 approved by Mr. McIver, January 12, 1962.

R-32569 - Clarence Moffenbier, et al. Parcel No. 1: 0.63 acre for right of way purposes; and Parcel No. 2: 0.32 acre for right of way purposes. Offer of $9,650 approved by Mr. McIver, December 27, 1961.

R-32798 - Central Paving Co., et al. 0.17 acre for right of way purposes. Offer of $885 approved by Mr. McIver, December 26, 1961.

R-32570 - Donald Trussell, et ux. Parcel No. 1: 0.83 acre for right of way purposes; and Parcel No. 2: 0.32 acre for right of way purposes. Offer of $19,000 approved by Mr. McIver, January 18, 1962.

R-32574 - Harold Elbert, et ux. Parcel No. 1: 4.13 acre for right of way purposes; Parcel No. 2: 0.8 acre for right of way purposes; Parcel No. 3: 0.07 acre for right of way purposes; and Parcel No. 4: 0.44 acre for temporary easement. Offer of $12,150.00 approved by Mr. McIver, January 17, 1962.

R-32575 - Ruth Taylor, et al. Parcel No. 1: 2.23 acres for right of way purposes; Parcel No. 2: 0.18 acre for permanent easement; Parcel No. 3: 0.05 acre for permanent easement; and Parcel No. 4: 0.18 acre for temporary easement. Offer of $22,000 approved by Mr. McIver, January 17, 1962.

R-33465 - Donald Trussell, et ux. 5.12 acres for material source. Offer of $11,800 approved by Mr. McIver, January 17, 1962.

BRIDGE-FRENCHIE CREEK SECTION OF THE COOS BAY-ROSEBURG HIGHWAY

R-33472 - Everette C. Webber, et al. 1.7 acres for right of way purposes. Offer of $6,720 approved by Mr. Jackson, January 15, 1962.

R-33474 - Carl Edward Radloff, et ux. 1.1 acres for right of way purposes. Offer of $875 approved by Mr. Jackson, January 15, 1962.

R-33475 - William King, et al. 1.5 acres for right of way purposes. Offer of $2,270 approved by Mr. Jackson, January 17, 1962.

R-33998 - Harry C. Kalbus, et al. 0.3 acre for right of way purposes. Offer of $200 approved by Mr. Jackson, January 10, 1962.

CASCADE GORGE-FOREST BOUNDARY SECTION OF THE CRATER LAKE HIGHWAY

R-33541 - Darwin Bevens, et al. 0.06 acre for right of way purposes. Offer of $6,650 approved by Mr. Jackson, December 27, 1961.

R-33542 - Arthur Harry Goode, et al. 0.07 acre for right of way purposes. Offer of $3,360 approved by Mr. Jackson, December 27, 1961.

R-33543 - Marian Nye Bean Bossler, et al. 3.7 acres for right of way purposes. Offer of $6,150 approved by Mr. Jackson, January 15, 1962.

R-33545 - Richard Lowry, et ux. 2.0 acres for right of way purposes. Offer of $1,550 approved by Mr. Jackson, December 21, 1961.

R-33548 - David Neville, et al. 2.5 acres for right of way purposes. Offer of $1,875 approved by Mr. Jackson, December 28, 1961.

R-33549 - F. W. Simmons, et al. 2.2 acres for right of way purposes. Offer of $1,650 approved by Mr. Jackson, December 28, 1961.

R-33551 - George R. Wayman, et ux. 1.5 acres for right of way purposes. Offer of $750 approved by Mr. Jackson, January 3, 1962.

R-33554 - Howard A. Bishop, et ux. 0.8 acre for right of way purposes. Offer of $850 approved by Mr. Jackson, December 28, 1961.

FIKES CORNER-HOOD RIVER SECTION OF THE MT. HOOD HIGHWAY

R-33436 - C. F. Allegre, et ux. 3.4 acres for right of way purposes. Offer of $2,900 approved by Mr. Fridley, December 21, 1961.

R-33444 - Effie E. Shoemaker, et al. 0.85 acre for right of way purposes. Offer of $2,700 approved by Mr. Fridley, December 26, 1961.

R-33445 - Arthur Clare Bickford, et al. 1,500 square feet for right of way purposes. Offer of $600 approved by Mr. Fridley, December 26, 1961.

R-33447 - Howard L. Shoemaker, et al. 1.11 acres for right of way purposes. Offer of $4,525 approved by Mr. Fridley, December 21, 1961.

R-33448 - A. Clare Bickford, et al. 300 square feet for right of way purposes. Offer of $100 approved by Mr. Fridley, December 26, 1961.

FIKES CORNER-HOOD RIVER SECTION OF THE MT. HOOD HIGHWAY - Cont.

R-33456 - Grace A. Paasch, et al. 3.5 acres (net) for right of way purposes. Offer of $1,900 approved by Mr. Fridley, December 21, 1961.

R-33457 - Howard L. Shoemaker, et al. 3.0 acres for right of way purposes. Offer of $5,250 approved by Mr. Fridley, December 26, 1961.

FREMONT INTERCHANGE-MARQUAM BRIDGE SECTION OF THE STADIUM FREEWAY

R-32387 - J. M. Harder Appliances, Inc., et al. 10,000 square feet for right of way purposes. Offer of $160,000 approved by Mr. McIver, December 14, 1961.

HARPER JUNCTION-BURRELL RANCH UNIT, JUNTURA-VALE SECTION OF THE CENTRAL OREGON HIGHWAY

R-32811 - Thomas J. Davis, et al. 6.25 acres for right of way purposes. Offer of $175 approved by Mr. Fridley, December 21, 1961.

R-32812 - John O. Vines, et al. 0.47 acre for right of way purposes. Offer of $75 approved by Mr. Fridley, December 21, 1961.

NORTH UNIT, KELLOGG BRIDGE-TYEE BRIDGE SECTION OF THE ELKTON-SUTHERLIN HIGHWAY

R-34145 - C. Eldon Fisher, et al. 19.5 acres for right of way purposes. Offer of $4,550 approved by Mr. Jackson, January 18, 1962.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-29795 - Estate of E. H. Sivyer. 5,000 square feet for right of way purposes. Offer of $14,750 approved by Mr. McIver, December 22, 1961. On June 9, 1961, an amount of $13,500 was approved by Mr. McIver. This revised amount is due to a new appraisal review.

R-30307 - Dorothy Butler, et al. 8,500 square feet for right of way purposes. Offer of $2,000 approved by Mr. McIver, December 13, 1961.

R-31866 - Tenet Mortgage Co., et al. 2,680 square feet for right of way purposes. Offer of $4,350 approved by Mr. McIver, December 28, 1961.

R-31903 - Engineering Development Corporation, et al. 8,242 square feet for right of way purposes. Offer of $52,265 approved by Mr. McIver, January 11, 1962.

R-31910 - Arthur F. Holmberg, et al. 3,333 square feet for right of way purposes. Offer of $8,800 approved by Mr. McIver, December 28, 1961.

R-31913 - Wauna Land Company, et al. 4,758 square feet for right of way purposes. Offer of $7,500 approved by Mr. McIver, December 21, 1961.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY - Cont.

R-31918 - J. E. Hanset, et al. 7,185 square feet for right of way purposes. Offer of $27,500 approved by Mr. McIver, December 19, 1961.

R-31996 - Homer McKenzie, et al. 1,000 square feet for right of way purposes. Offer of $2,060 approved by Mr. McIver, January 10, 1962.

R-32499 - Laura S. Ernest, et al. Parcel No. 1: 7.9 acres for right of way purposes; Parcel No. 2: 1,200 square feet for permanent easement; and Parcel No. 3: 400 square feet for temporary easement. Offer of $46,400 approved by Mr. McIver, January 3, 1962.

R-32500 - Benedetta Chiosi, et al. Parcel No. 1: 3.71 acres for right of way purposes; and Parcel No. 2: 2.46 acres for right of way purposes. Offer of $36,500 approved by Mr. McIver, January 3, 1962.

R-32943 - Mary J. Williamson, et al. 12,252 square feet for right of way purposes. Offer of $10,000 approved by Mr. McIver, January 9, 1962.

R-32955 - Ivan L. Sletta, et ux. 4,000 square feet for right of way purposes. Offer of $9,800 approved by Mr. McIver, December 26, 1961.

R-33271 - Clamance Flack, et al. 2,971 square feet for right of way purposes. Offer of $5,680 approved by Mr. McIver, December 14, 1961.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31681 - John Illias, et al. Parcel No. 1: 1,200 square feet for right of way purposes; and Parcel No. 2: 1,550 square feet for permanent easement. Offer of $6,600 approved by Mr. McIver, January 10, 1962.

R-32582 - Richmond Tank Car and Mfg. Company of Oregon. Parcel No. 1: 12,500 square feet for right of way purposes; and Parcel No. 2: 12,800 square feet for right of way purposes. Offer of $5,900 approved by Mr. McIver, December 26, 1961.

THE DALLES BY-PASS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-30554 - Richard F. Brace, et ux. Parcel No. 1: 0.18 acre for right of way purposes; and Parcel No. 2: 229 square feet for permanent easement. Offer of $21,230 approved by Mr. Fridley, December 18, 1961.

R-30556 - Mid-Columbia Terminal, et al. 3.25 acres for right of way purposes. Offer of $6,650 approved by Mr. Fridley, December 22, 1961.

R-32302 - The United States National Bank of Portland, Oregon, et al. Acquisition of access. Offer of $8,200 approved by Mr. Fridley, December 29, 1961.

R-32404 - The Dalles Cooperative Growers, et al. 0.08 acre for right of way purposes. Offer of $500 approved by Mr. Fridley, December 28, 1961.

THE DALLES BY-PASS SECTION OF THE COLUMBIA RIVER HIGHWAY - Cont.

R-32414 - Dalles City, et al. 0.39 acre for right of way purposes. Offer of $780 approved by Mr. Fridley, December 21, 1961.

R-33186 - Fred G. Mauser, et al. Parcel No. 1: 294 square feet for permanent easement; and Parcel No. 2: 0.19 acre for permanent easement. Offer of $4,675 approved by Mr. Fridley, December 19, 1961.

A written report was presented by the Chief Counsel concerning orders received from the Public Utilities Commissioner on highway and railroad crossing matters in which the State Highway Commission has been a party. The Commission accepted the report, which is summarized as follows:

PUX 234: Regulating speed of trains of the Southern Pacific Company within the City of Medford. The State Highway Commission had no jurisdiction in this instance.

PUX 321: Weyerhaeuser private road crossings in Lane County. The order was dismissed on grounds that the Public Utilities Commissioner had no jurisdiction in the matter.

PUX 423: U. S. Army Engineer Crossings in and near the City of Arlington, involving the Condon Branch of the Union Pacific Railroad Company, on the Columbia River Highway in Gilliam County. This matter involves relocation of certain crossings because of the construction of the John Day Dam and provides for an overcrossing of the Columbia River Highway over the relocated Condon Branch railroad; an overcrossing of the Columbia River Highway with a temporary tract connection to the Condon Branch; a permanent grade crossing of the relocated track of the Condon Branch with the east ramp of the Columbia River Highway; and a permanent crossing at grade of the John Day Highway. The order issued was in accordance with the Highway Commission's answer and the testimony presented.

PUX 424: U. S. Army Engineer Undercrossing, Union Pacific Railroad, near Rufus. The Highway Commission has no jurisdiction in this instance.

PUX 440: Klamath Falls West Side By-pass Interchange Grade Crossing, Great Northern Railway Company, The Dalles-California Highway, Klamath County. The Highway Commission made application to construct a crossing at grade with a spur track of the railroad and a leg of the highway interchange. The order was issued in accordance with the petition.

PUX 448: Crown Zellerbach Truck Road Crossing of Saddle Mt. State Park Road, Clatsop County. The order as issued allowed Crown Zellerbach to construct a crossing for oversized vehicles across the park road.

A list of claims against others was presented by the Chief Counsel in which he proposed that efforts to collect be abandoned. He explained that his office is cleaning up its file on claims and for a number

of reasons it is not feasible to continue efforts to collect some of these claims. Among the reasons, he mentioned lack of insurance coverage; inability to pay because of unemployment and bankruptcy; lack of evidence; unknown whereabouts; confinement in prison; in the Armed Forces, and death. The Commission approved abandonment of the following claims:

CAO No.	Name	Amount of Claim
57-185	Arthur A. Fetter	$215.92
58-135	Jim Phillips	151.00
58-2620	Herbert W. Clark	958.31
61-43	Jerry Badger	87.90
61-186	Charlene Ann Berman	77.87
60-8	David Allen, Jr.	58.41
60-117	Richard Franklin, Jr.	93.44
59-226	Marvin E. Woods	79.55
58-236	F. C. Hathaway	1,365.00
L-1948	W. J. DeLorne	152.18
59-155	Robert J. Morgan	425.91
59-217	Leonard M. Hasty	51.58
59-326	Laverne B. McCaskill	16.29
60-168	Kenneth Croswell	83.41
57-62	Dale R. Hall	88.34
61-100	Norbert C. Pfefferle	143.85
57-174	Charles R. King	99.89
58-29	Frank H. Engant	147.18
61-146	Unknown	Est. 125.00
61-51=	Charles Parks	48.00
60-225	Mr. C. B. Mitchell	30.00
61-97	Nickolas Cortez	51.60
61-90	Stanley E. Holladay	84.29
60-80	Gene Matt	117.94

Upon the request of the Chief Counsel the Commission authorized him to commence legal action to recover on nine damage claims, as follows:

CAO No.	Name	Amount of Claim
61-198	Mary Murisey	$195.44
57-81	Mr. Gordon Linton	196.55
58-95	Mr. L. W. Harger	315.86
59-163	Mr. Frank Ephram	217.43
61-47	Mr. Larry Ayde	274.95
61-234	Mrs. Mary E. Teal	2,573.59
59-2	Mr. Allan T. Alsleven	138.15
60-348	Mr. George B. Davis	111.85
59-161	Mr. Garmond Hodge and Elmer C. Hodge	29.11

A quarterly report of damage claims collected from October 1 through December 31, 1961, was presented by the Chief Counsel. Payments during this period amounted to $6,412.50, and nineteen claims had been abandoned in a total amount of $2,639.06.

The Chief Counsel presented a brief report on three lawsuits which had been filed against the Highway Commission, summarized as follows:

1. Morrison-Knudsen Company, Inc., Contract No. 5243 for grading on the Hooskanaden Creek-Thomas Creek Section of the Oregon Coast Highway in Curry County, in the amount of $142,946.29. This suit involves a controversy concerning the wasting of excess excavation materials. The contractor contends that he should have been permitted to waste the excavation as a first operation. The State contends that the wasting of materials should be subsequent to the exact determination of fill requirements in the vicinity.

2. Rex C. Ayers, Contract No. 5498 for grading and stone base on the Netarts-Yager Creek Section of the Netarts-Sand Lake County Road in Tillamook County, in the sum of $32,320 on the first count, and $5,904.54 on the second count. The contractor alleges that he was damaged on the first count because the county was slow in acquiring right of way. Damage on the second count, he alleges, is because the final estimate quantities are incorrect. This was a project which the State performed for the County, and under terms of the agreement with the County, if the contractor prevails, the County will be liable. The action is being brought against the State because the State let the contract.

3. Roy Farella's lawsuit in the amount of $10,000 is for damages that he claims were caused by backwater because of a highway culvert stoppage.

Proper action, the Chief Counsel stated, is being taken to protect the interests of the State.

Regarding the lawsuits filed by these two contractors, particularly by Morrison-Knudsen Company against the State, Chairman McIver inquired if the specifications in the contract concerning disposal of excavated material are explicit enough, and if the specifications might be improved. The Chief Counsel stated that in his opinion the specifications are clear in this matter, but the question raised by the contractor is one of interpretation of the specifications. The Engineer stated that it is the Department's interpretation that the specifications in Contract No. 5243 allow the State to determine when excavated material is to be wasted. It is planned in the near future for representatives of the Legal and Right of Way Division and the Engineering Division to review the entire field of highway specifications to eliminate as many areas of uncertainty as possible.

The Chief Counsel reported that Mr. W. A. Mansfield, Staff Attorney, and Mr. Leo Nuttman, Staff Attorney, had resigned. He also reported that since the retirement of Mr. J. W. DeSouza, his position has not been officially filled. He requested, and the Commission granted, authority to hire two attorneys at salaries commensurate with their experience and ability. He also

requested confirmation of the following personnel changes resulting from Mr. Nuttman's resignation: Jack Sollis to fill the position left by Mr. Nuttman and to be given a one-step increase in monthly salary from $550 to $575; Joseph Hershberger, who has completed his six-months probationary period, to be given an increase from $550 to $575 per month; and John Irvin to be employed at a salary of $575 per month to fill the vacancy created by the elevation of Jack Sollis to Mr. Nuttman's position. All these changes, he reported, have the approval of the Attorney General and are to be effective January 2, 1962. The Commission confirmed the changes as requested.

Chairman McIver inquired as to the backlog of cases pending in court. The Chief Counsel replied that 223 cases are now docketed to be heard, a year ago 245 cases were pending and 3 years ago 375 cases were pending.

Settlement of a real property dispute with S. W. and Minnie Champ on the Mill City-Gates Section of the North Santiam Highway, Marion County, was presented by the Chief Counsel. He pointed out that in previous transactions, the County had not cleared the original title. This action will clear the title and for the sum of $250 the Champs have agreed to release all their claims, including any claim to adjoining railroad right of way, and execute a quitclaim deed to existing right of way. The Commission approved the settlement.

Attention was given to a request made by R. E. and Leelia L. Goad to consent to the annexation to the City of Pendleton of a portion of Old Oregon Trail Highway and a portion of the Oregon-Washington Highway adjacent to their property. The Chief Counsel stated that an investigation indicated that such action would not be detrimental to the Highway Department, and he recommended that it be approved and that the Secretary be authorized to sign the consent to annexation form. The Commission approved the transaction as presented.

The Chief Counsel stated that the Humble Oil Company, the Gulf Company and the Superior Oil Company have made applications to lease properties owned by the State Highway Department in connection with their drilling operations for oil. He explained that the application of Humble Oil Company involves 620 acres and Gulf's application is for 1,520 acres and that a portion of these lands include the interstate highway system. There are some legal complications in that the Humble and Gulf leases encroach upon each other as far as State Highway property is concerned. No action was taken at this time as the lease forms have not been completed.

Chairman McIver inquired as to the legal implications of identical bids which have been submitted for the purchase of asphalt. The Chief Counsel replied that bids for asphalt, as well as other products, are handled by the Department of Finance and Administration. Identical bids, however, do not mean that the bids are wrong unless there is evidence of collusion.

The Right of Way Engineer presented for consideration options, pages 1 through 63, secured for acquistion of real property that is needed for State Highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked Exhibit "A", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

At the suggestion of the Right of Way Engineer, the Commission approved the option to Floyd L. and Rose A. Smith, File No. 33869, on the Bellows Street-Madrone Street (Roseburg) Section of the Roseburg-Melrose-Umpqua County Road, Douglas County, in the amount of $18,960, subject to the approval of the Bureau of Public Roads.

The Property Manager's report covering sales of miscellaneous properties and changes in rental status was presented by the Right of Way Engineer and accepted by the Commission. He pointed out that for the year 1961 receipts from rental buildings, equipment, lands, timber and miscellaneous items had totaled $692,695.07. Miscellaneous sales since the last Commission meeting totaled $5,915.50, and rental receipts for the month of December totaled $4,910.42.

Attention was given to a "Relinquishment of Title" form transferring to Wasco County an 80-foot strip of land for public road purposes. The Right of Way Engineer explained that the land is located westerly from the National Guard Armory on the south side of the Columbia River Highway near the East The Dalles Interchange. The County plans to extend Myrtle Street northerly to the frontage road on the southerly side of the Columbia River Highway, and in so doing will cross a tract of land acquired by the State in 1953 as excess property. It is planned to offer the excess parcel for sale when the Interstate Highway is completed in that area, and construction of the county road will tend to enhance its value. Following his favorable recommendation, the Commission approved the "Relinquishment of Title".

A "Grant of Easement" to P. J. Stone on the Rock Point-Blackwell Hill Section of the Pacific Highway in Jackson County was presented by the Right of Way Engineer. When the property had been acquired in 1952 for a material source, he explained that no provision was made for the owner to cross the material source to get to his remaining property. There was no intent to do this and the "Grant of Easement" confirms his right to cross the material source. The Commission approved the easement.

The Commission considered an easement form which would grant Walter A. Greutter, Ethel M. Miller and Vernard Herman Heuker the right to use and maintain a domestic water line on the Dodson-Bonneville Section of the Columbia River Highway in Multnomah County. The Right of Way Engineer outlined that the three owners prior to the highway completion had easements covering the location of three separate water lines. Under the construction contract a single water line was provided and the owners were connected to this line. The "Easement and Release of Easement" form

provides that the owners release the original easement and grants to the owners a new easement to the revised set up. The Commission approved the transaction.

Public sale of three properties no longer needed for highway purposes was recommended by the Right of Way Engineer. Access provisions as proposed are consistent with departmental policy as practiced in the vicinity of each parcel. The recommended minimum sale price is based on appraised value or on an offer which exceeds appraised value. Following his favorable recommendation, the Commission authorized public sale of the following parcels of real property and thereupon adopted resolutions relative thereto, marked Exhibits "E-1" and "E-2", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

1. 1,625 square feet of land, File Nos. 28758 and 28759, on the Lake Road-Oregon City Section of Cascade Highway, Clackamas County, for not less than $100 and without access to Cascade Highway.

2. 26.5 acres, File No. 18930, on the Oakland Junction-Deady Section of Pacific Highway, Douglas County, for not less than $1,500, subject to an oil lease held by Oil Developers, Inc. of Roseburg. No access is to be permitted to the Pacific Highway and an advertising sign restriction is to be imposed. The purchaser will be required to fence the right of way line. (See Exhibit "E-1")

3. 3,280 square feet of land, File No. 5095, on the Bunker Hill Section of the Oregon Coast Highway, Coos County, for not less than $1,625, subject to an easement for a 12-inch concrete drain pipe and without access to the Oregon Coast Highway. (See Exhibit "E-2")

Direct sale of properties no longer needed for highway purposes was recommended by the Right of Way Engineer. He stated that the proposed amount of each sale is based on appraised value and is a fair price for the property. The properties to be sold, he continued, do not lend themselves to public sale because of peculiarities of location or because they are surrounded by privately owned properties. The Commission approved the following direct sales:

1. 800 square feet of land, File Nos. 9519 and 9520, on the North Bend-Marshfield Section of the Oregon Coast Highway, Coos County, to Weyerhaeuser Company for the sum of $600. No access restrictions are to be imposed.

2. 0.11 acre, File No. 19542, on the County Farm-Ashland Section of the Pacific Highway in Jackson County, to the Assembly of God Church for $300. No access is to be permitted to the Pacific Highway.

3. 2,500 square feet, File No. 21683, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County, to Mr. E. Piluso for the sum of $750. The sale will be subject to a sewer easement to the City of Portland and also subject to an advertising sign restriction. Access is to be restricted to the city street.

The Commission considered transfer of 9,292 square feet of land to Clackamas County on the Jennings Lodge Section of the Pacific Highway East in Clackamas County. The Right of Way Engineer commented that the land, which is no longer required for highway purposes, was secured from the County with the restriction that it be used for park and beautification purposes only. The transfer provided for reversion to the County if used for any other purpose. He recommended that the property be transferred to the County for the sum of $1. The Commission approved the transfer.

Sale of a house in Arlington to the U. S. Corps of Engineers was presented by the Right of Way Engineer. This property he said, is located on the Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County and comes within the terms of an agreement recently executed with the Corps of Engineers concerning reconstruction of the Columbia River Highway in this area. The Corps of Engineers has determined that the house must be acquired for their first scheduled unit of relocation in the City of Arlington. They have offered to pay $7,820, which amount has been verified as a true value for the property. On his favorable recommendation, the Commission accepted the offer of the Corps of Engineers and authorized the Secretary to sign an option form tendered by the Engineers. The Commission also approved a "Bargain and Sale Deed" conveying this property to the Corps of Engineers.

Two "Indentures of Access" were presented by the Right of Way Engineer. In neither case he stated, is additional access being provided, but the change in location and use is being made for the benefit of the property owners and the safety of the traveling public. The Commission approved the following indentures.

1. Vernon D. Hall and Cora E. Hall property, File Nos. 20568 and 20569, on the Deception Creek-Oakridge Section of the Willamette Highway in Lane County. Width of access points is being increased from 25 feet to 32 feet. The location change and removal of the use restriction is to become effective when the owner has performed certain construction items.

2. Coos County property, File No. 26093, on the Davis Slough-Bandon Section of the Oregon Coast Highway in Coos County. The indenture provides for changes of location in two points of access restricted to production and transportation of timber products.

Extension of an agreement with Crown Zellerbach Corporation for the use of several quarry properties in Clatsop and Columbia Counties was brought up by the Right of Way Engineer. He explained that a previous 10-year agreement had expired in October 1961. Crown Zellerbach has requested renewal of the agreement which provides for joint use of quarry sites owned by the State and Crown Zellerbach. The Engineering Division, he stated, has indicated that it would be in the best interests of the department to renew the agreement for a period of 10 years, beginning October 15, 1961, and he so recommended. The Commission approved the agreement.

A "Trust Agreement" with Bonneville Power Administration pertaining to their facilities on the Judkins Point-Goshen Section of the Pacific Highway in Lane County was presented by the Right of Way Engineer. Briefly, he explained that a slide had damaged the Bonneville power line and the cost of restoration has been estimated at $14,200. Bonneville Power has requested this sum be placed in a trust fund for accomplishment of the necessary work of relocation and restoration. The Commission accepted his recommendation that the agreement be approved.

Consideration was given to a revised "Air Easement" over the Albany-Judkins Point Section of Pacific Highway in Linn County which was presented by the Right of Way Engineer. He pointed out that the "Air Easement" is to correct errors which were incorporated in the original easement granted by the Commission on October 21, 1961. The Commission approved the revised easement.

Attention was given to requests made by the Lane County Court, the Oregon Federation of Garden Clubs, and others that the State acquire and develop an area now owned by the State Game Commission at the Leaburg Fish Hatchery on the McKenzie River and adjoining the McKenzie Highway. The Engineer stated that the Game Commission has abandoned the fish hatchery, and in response to the requests, a study of the site was made by the Parks Division. The site consists of not more than 13.5 acres useable for park development, and he estimated attendance for the year 1975 would be approximately 62,500 people. He pointed out that in order to use the area for park purposes it would be necessary to relocate the existing highway as the present highway lies along the river bank. Cost of developing the park, including right of way, highway realignment, and cost of the Game Commission property, he estimated at $252,000. The Highway Department and the U. S. Bureau of Public Roads are now studying relocation of the McKenzie Highway between Blue River and the McKenzie Bridge. In view of the high cost of development of the park and the limited area available, he recommended that the request be denied and that consideration be given to establishment of a park area when realignment of the highway between Blue River and McKenzie Bridge has been made. The Commission accepted the recommendation.

The Commission also considered a request from the U. S. Bureau of Land Management for a road easement across a portion of Silver Creek Falls State Park, Marion County. The request has been investigated, the Engineer stated, and the easement, if granted, will not be detrimental to the state park. Upon his favorable recommendation, the Commission approved the easement.

Attention was given to the proposed employment of an architect to develop plans for a museum building at Champoeg State Park. The Engineer recalled that on April 16, 1959 the Commission had approved an agreement with the National Park Service covering a study of Champoeg State Park. The latest progress report on this study indicates that a final report will probably be made in February of 1962. He recommended that action be deferred pending receipt of the final report from the National Park Service. The Commission accepted the recommendation.

The development of an area adjacent to the Oregon Coast Highway at the Douglas-Coos County line adjoining Eel Lake, for state park purposes was discussed. The Engineer reported that the Parks Superintendent in August 1952 had submitted a report concerning development of this area, but no action was taken because of the large amount of floating and submerged logs in the lake. The State Game Commission, as owners of the property, have completed a reasonable clean up of the debris and the lake is developing into an excellent fishing resource. After studying the needs for state park areas along the Oregon Coast, it was his opinion that this location would be good for a state park. The State Parks and Recreation Advisory Committee have also expressed a similar opinion. The Game Commission is willing to convey title to 720 acres of this land to the Highway Commission without charge, restricting the area to park purposes and reserving the right to use the outlet for fish traps, weirs, or other fish management facilities or activities. The Game Commission has also agreed to convey by easement the right to develop trails or other recreational use on the remaining lands as well as such uses as are compatible with the Game Commission's primary interest of production and propagation of fish and game. If the area is adopted as a state park, he added, it is proposed to construct boat landing and picnic area facilities and other day use area facilities at estimated cost of $33,000, and when the need arises, overnight camping facilities can be established. He also stated that the State Park and Recreation Advisory Committee at its meeting on August 28 and 29, 1961 had recommended that the Eel Lake development be called the "William M. Tugman State Park". He recommended that the Commission approve establishment of a state park at Eel Lake and development in cooperation with the Game Commission and that the park be named "William M. Tugman State Park". In response to Chairman McIver's inquiry if a park development at Eel Lake will be a source of trouble to Clear Lake from which drinking water is taken for the cities of Empire, Coos Bay and Reedsport, the Engineer replied in the negative. The Commission accepted the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "H", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

The Commission also considered establishment of a state park on the Nestucca Spit south of Pacific City in Tillamook County. The Engineer reported that a study has been made of this area which is bordered on the east by the Nestucca River and on the west by the Pacific Ocean. The 450 plus acre area has excellent recreational potential and possible highway location use. The area consists of approximately 240 acres in private ownership, 117 acres owned by the State Land Board, and 97 acres owned by the U. S. Forest Service and the Bureau of Land Management. The State Parks and Recreation Advisory Committee has unanimously recommended that this area be acquired for park use. He estimated that the 450 plus acres could be acquired for $20,000. Funds for the purchase are available in the State Parks Budget. If acquired as a state park, development, he stated, would probably be: (1) stabilization of the sand dunes; (2) installation of picnic and daytime use facilities, including boat launching ramps on the bay side, and (3) installation of overnight camping facilities. The Commission approved his recommendation that the area be acquired as a state park.

As instructed by the Commission at an earlier date, the Engineer reported that he had secured the consulting services of Mr. Lee Eoson of El Cerrito, California, to complete the final report on the State-wide Parks Study. Mr. Eoson has been retained at a monthly salary of $1,250, plus expenses of $25 per day plus his transportation to and from Salem. He estimated that Mr. Edson's services would be needed for a period not to exceed three months at a total estimated cost of $6,000. This arrangement, he added, had been discussed with Commissioner Jackson who had given his approval. The Commission confirmed the employment of Mr. Edson to complete the State-wide Parks Study.

The acquisition of Fort Rock near the town of Fort Rock in Lake County for park purposes was considered. The Engineer related that Fort Rock is a unique geographical formation noted as a landmark located approximately seven miles easterly from the Fremont Highway. This is one of the sites investigated for park use under the present State-wide non-urban study. One hundred sixty acres, which includes most of the Fort Rock formation, was recently transferred from the Bureau of Land Management to Lake County. A small portion of the formation is owned by Mr. R. A. Long, a rancher, who has indicated his willingness to trade for a like area from the Bureau of Land Management. The Lake County Court and the Lake County Chamber of Commerce have urged that this area be taken over for park use. It is believed that the area can be obtained without cost. If the Fort Rock area is added to the park system, development plans, the Engineer continued, would consist of improving the road a short distance from the Fort Rock County Road to the monument, building of a parking area, installation of pit latrines, placing of signs, etc., at an estimated cost of $4,000. He recommended that negotiations be authorized to acquire the land. The Commission granted the authority.

The Engineer reported that he had made awards of contracts which had been referred to him by the Commission with authority to award when certain conditions had been fulfilled. These conditions, he stated, have been satisfied. The Commission confirmed his award of the following contracts:

(1) Construction of Little Deschutes River Bridge on Odell Butte-Cresent County Road, Klamath County. Bids received December 6, 1961. Contract No. 6011 awarded December 12, 1961 to Hamilton & Thoms, Inc., Eugene, low bidder.

(2) Construction of Butte Creek Bridge on Lebanon-Brownsville Road, Linn County. Bids received December 6, 1961. Contract No. 6012 awarded December 18, 1961 to George W. Millett, Jr., Eugene, low bidder.

(3) Construction of Long Tom River (Bundy) Bridge on Martins Lake Road, Benton County. Bids received December 6, 1961. Contract No. 6013 awarded December 22, 1961 to George W. Millett, Jr., Eugene, low bidder.

(4) Construction of John Day River Bridge and grading on Columbia River Highway, Gilliam and Sherman Counties. Bids received December 6, 1961. Contract No. 6014 awarded January 4, 1962 to Pacific Concrete Co., Otis P. Jordan, Jr., and C. V. Glidden, Portland, low bidder.

The Engineer recalled that when bids had been opened in Salem on December 6, 1961 John E. Westgaard and Merl C. Howard, Ashland, had submitted a low bid in the amount of $53,492.95 for construction of the Rogue River Bridge Area Park Facilities about five miles west of Gold Hill in Jackson County and the contract was awarded by the Commission to the low bidder on December 8, 1961. Subsequently the low bidder had stated by letter that he would not accept the job because too low a bid had been submitted through failure to personally supervise submission of the bid. The contractor had requested that his five percent proposal bond be released. The request, the Engineer continued, had been carefully studied by the Engineering and Legal Divisions, and it was determined that the reason given by the contractor was not a valid one for release of the bond. He recommended that steps be taken to collect five percent of the amount that the contractor had bid. He also recommended that the project be awarded to the second low bidder, M. C. Lininger & Sons, Medford, at their bid of $66,491.90. This bid, he added, is still below the estimated cost of the work. The Commission approved collection of the five percent bid bond, including legal action if necessary, and award of the contract, No 6004, to M. C. Lininger & Sons.

Attention was given to requests made by Baker County residents for further improvement to the Anthony Lakes Highway in Baker County. The Engineer reported that between the forest boundary and the westerly terminus of the last improvement, there is a section of 2.7 miles which is narrow and in a generally unsatisfactory condition for a state highway. To alleviate the poor condition of this section he recommended a major betterment project in the 1962 State Construction Program which will provide minor straightening, widening and the addition of some light surfacing with a dust palliative cover at an estimated

total cost of $35,000. This work, he stated, can be done with State forces. The Commission approved the project as presented.

Improvement of the Warner Secondary Highway (Winnemucca-to-the-Sea) in Lake and Harney Counties was discussed. The Engineer reported that grading has been completed from a point about fourteen miles easterly from Adel (Blizzard Gap) to the Nevada State Line. The section from Adel to Blizzard Gap has an asphalt surface. He recommended that the Commission approve a project for $470,000 to surface the approximately 21.5 mile section from Blizzard Gap to the Nevada line with native materials to be covered with a light oil mat. He pointed out that at a later date additional surfacing may be required. The Commission approved the project as a part of the 1962 State Construction Budget.

The Commission considered a request from Columbia County that the State transfer to the County for park purposes approximately thirty acres, being part of a quarry site adjacent to the old Columbia River Highway between Clatskanie and Delena. The Engineer stated that the land does not contain any usable rock, and he recommended that it be transferred without cost to Columbia County for county park purposes. The Commission approved the transfer.

Following the Engineer's favorable recommendation, the Commission authorized the Secretary to sign in behalf of the Commission a Federal-Aid Secondary Project Agreement with Multnomah County Board of County Commissioners for construction of 122nd Avenue Undercrossing of Sandy Boulevard and Union Pacific Railroad Section on FAS 654.

The Commission confirmed telephonic authorization for the Secretary to sign in the Commission's behalf an FAS Project Agreement with Linn County for construction of the Butte Creek Bridge on FAS 569.

Sale of snow-removal equipment to Oregon cities and counties was discussed. The Engineer stated that requests have been received from the City of Sumpter, the City of Halfway and Hood River County to purchase equipment which is considered as surplus by the State. Because of the purchase of new equipment, he recommended, and the Commission authorized, sale of equipment as follows:

1. To the City of Sumpter - One 1953 surplus used truck and snow plow at $550 for the two items.

2. To the City of Halfway - One 1953 surplus used truck and snow plow at $550 for the two items.

3. To Hood River County - One 1942 Snogo, valued at $1,800.

The Engineer also requested and the Commission granted authority to negotiate with other cities and counties for the sale of three old model Snogos, appraised at $1,500 each, a truck and plow plus several old snowplows. The Commission also granted authority to sell to the City of John Day one surplus truck and snowplow for $600.

The Engineer presented requests from four counties for County Federal-Aid Secondary Projects, totalling $270,000. These projects, he stated, have been investigated and are eligible for construction. He recommended that the Commission approve them. The Commission approved the following projects:

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Funds
Clatsop	636	Sunset Lake Bridge. Structure.	$ 80,000	1963
Coos	806	Salmon Creek Section, 0.25 mile. Grade and structure.	$ 31,000	1963
Curry	257	Reload-Edson Creek, 2.5 miles. Grading only.	$ 134,000	1963
Klamath	434	U.S.R.S. Canal Culvert. Concrete box culvert.	$ 25,000	1963
		TOTAL ADDITIONAL COUNTY FAS FUNDS...	$ 270,000	

SUMMARY BY FISCAL YEARS	1962	1963	Total
Allocated Funds	$3,497,000	$3,690,000	$7,187,000
Previously Approved, Corrected to Date	3,497,000	1,138,000	4,635,000
Unprogrammed Balance	$--	$2,552,000	$2,552,000
Projects Proposed 1-19-62	--	270,000	270,000
Unprogrammed Balance	$--	$2,282,000	$2,282,000

Payment of a street assessment made by the City of Sweet Home was discussed. The Engineer stated that the State has a maintenance headquarters which fronts on First Street (Santiam Highway) for a distance of 313.08 feet. The City recently paved the street and installed a 3.5 foot sidewalk in front of the maintenance station. The State's share of this improvement, he stated, is $2,017.02 and he recommended that it be paid. The Commission approved the payment.

The Engineer requested an increase in project authorization on Contract No. 5811 for work on the Sugarloaf Mountain-King Creek Section of the Coos Bay-Roseburg Highway in Coos County. The overrun amounts to $121,091.21, or 9.69 percent. He stated that numerous slides were the major cause of the overrun, but changing the oil mat surfacing from an O-9 to an O-11 specification, and pile foundations on two bridges instead of spread footings also contributed to the overrun. The Commission approved the increase in authorization.

Requests from contractors for extensions of time within which to complete contracts without assessment of liquidated damages were presented by the Engineer. He outlined briefly the circumstances involved in each contract. The recommendations made, he stated, are in line with the provisions of the contracts and the facts pertaining in each instance. The Commission took action on the requested extensions of time, as follows:

1. Bethlehem Steel Company, Contract 5656, for construction of the Thomas Creek Bridge on the Oregon Coast Highway in Curry County, requested an increase from 280 to 300 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved the request. A letter was presented from the Bureau of Public Roads concurring in the extension of time.

2. W. R. Sutherland, Contract 5926, for rock production on the Washington State Line-South Forest Boundary Section of the Enterprise-Lewiston Highway in Wallowa County, requested an increase from 75 to 84 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved an increase of three workdays without assessment of liquidated damages.

3. Arthur Simonsen Co., Contract 5939, for rock production on the Burns-Crane Section of the Burns-Crane Highway in Harney County, requested an increase from 65 to 75 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved an increase of three workdays without assessment of liquidated damages.

4. Peter Kiewit Sons' Co., Contract 5758, for stone base, binder and aggregate production on the Burnt Hill-Thomas Creek Unit, Burnt Hill-Brookings Section of the Oregon Coast Highway in Curry County, requested an increase from 140 to 197 workdays within which to complete the contract without assessment of liquidated damages. The Commission denied the request.

5. C. R. O'Neil, Contract 5670, for grading, paving and structure on the Juntura-Horseshoe Bend Section of the Central Oregon Highway in Malheur County, requested an increase from 120 to 149 workdays within which to complete the contract without assessment of liquidated damages. The Engineer pointed out that the Bureau of Public Roads has stated that it will concur in a four-day extension only. He recommended that a 16-day extension be granted. The Commission approved an increase of 16 additional workdays without assessment of liquidated damages.

6. Morse Bros., Contract 5807, for grading and paving on the Albany-Santiam Interchange Section of the Santiam Highway in Linn County, requested an increase from 70 to 95 workdays within which to complete the contract without assessment of liquidated damages. The Commission approved an increase of 17 workdays without assessment of liquidated damages. A letter from the Bureau of Public Roads was presented concurring in the increase of workdays.

The Engineer reported that Contract Nos, 5385, 5565, 5630, 5729, 5730, 5765, 5784, 5785, 5792, 5801, 5807, 5808, 5816, 5836, 5839, 5840, 5886, 5893, 5957, 5958, 5963, 5964, 5975, 5977, 5986, 5987 for highway construction have been completed in accordance with the requirements of the contracts or modifications thereof and said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

The Engineer reported that the State Speed Control Board recently placed a restricted speed zone on the Oregon-Washington Highway in the City of Milton-Freewater in Umatilla County. To carry the speed zoning to a logical conclusion beyond the city limits, he recommended that "Speed Zone Resolution No. 156", dated May 11, 1954, and "Speed Zone Resolution No. 289", dated May 5, 1959, be rescinded and the following speed zones be established on the Oregon-Washington Highway:

Oregon-Washington Highway

40 miles-per-hour between the Little Walla-Walla River (M.P. 30.75) and N.E. First Avenue (M.P. 30.98)

40 miles per hour between N.E. Fourth Avenue (M.P. 31.15) and a point 500 feet north of N.E. Fifth Avenue (M.P. 31.30) 1/

50 miles-per-hour between a point 500 feet north of N.E. Fifth Avenue (M.P. 31.30) and a point 250 feet north of Ferndale Road (M.P. 33.96)

1/ Except that between N.E. Fourth Avenue (M.P. 31.15) and a point 500 feet north of N.E. Fifth Avenue (M.P. 31.21) the designated speed shall be 20 miles-per-hour during the hours of school crossings.

The Commission accepted the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

Attention was given to a request made by Mr. Wilbur E. Hobart, Chairman of Butte Creek School Board of Directors, Woodburn, for revision of an existing 25-mile-per-hour speed zone on the Cascade Secondary Highway through the community of Marquam in Clackamas County. The Engineer stated that an investigation had been made which revealed, among other things, that 85 percent of all vehicles were traveling at or below a speed of 3925 miles per hour and ninety percent of all vehicles were exceeding the 25 mile-per-hour indicated speed. He recommended that a 35 mile-per-hour speed zone be established on the Cascade Highway between a point 0.11 mile northeast of the Canby-Marquam Road and a point 0.17 mile southwest of the Ross Bridge Road. The Commission approved the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "B-2", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

The Commission considered a supplemental agreement with the University of Oregon, City of Eugene, City of Springfield, and Lane County concerning an overall transportation study in the Eugene-Springfield area. The Engineer explained briefly that in May 1960 an agreement had been entered into in which the State was to contribute not to exceed $10,000. It developed that the University could not comply with its portion of the agreement and satisfy all participating agencies. As a result, it will be necessary to enter into a supplemental agreement to cover an additional cost of $5,700, of which amount not to exceed $2,175 is to be paid by the State Highway Commission. Also the original contract required the University to submit the results of the study not later than July, 1961. This date could not be met, and he recommended that the date for submission of the report be extended to February, 1962. The Commission approved the supplemental agreement, including the extension for submission of the report, and authorized the Secretary to sign the agreement in behalf of the Commission.

The Commission also considered a cooperative construction agreement with the City of Columbia City concerning relocation of the Columbia River Highway in Columbia City. Briefly the Engineer explained that this matter had been considered at a previous Commission meeting at which time Crown Zellerbach Corporation had requested relocation of the highway to allow for expansion of its plant. This agreement is in connection with the same project, and he recommended that it be approved. The Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

Payment of annual dues to the American Association of State Highway Officials in the amount of $1,519.50 for the year 1962 was presented by the Engineer. The Commission authorized the Auditor to make payment of this amount.

The Commission considered a petition signed by approximately 525 residents of Washington County, requesting safety improvements at the intersection of Farmington Secondary Highway and River Road in the community of Farmington. The Engineer stated that an investigation showed that the traffic volume entering the intersection is almost evenly divided between the Farmington Highway and River Road; although the traffic volume is relatively low, the accident record has been much higher than at similar intersections. He

recommended that the Commission action of April 27, 1943 establishing through-stop highways be amended to provide that all traffic entering the intersection be required to stop. The Commission approved the recommendation and thereupon adopted a resolution relative thereto, marked Exhibit "J", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

The Engineer recommended that the portion of the Willamina-Salem Highway easterly from Rosewood Drive and along Edgewater Street in West Salem be designated as an addition to the Salem-Dayton Secondary Highway. This action, he stated, is needed to avoid duplication of highway designations when the new West Salem Section of the Willamina-Salem Highway is completed. The Commission approved the recommendation and adopted a resolution relative thereto, marked Exhibit "I", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

An abandonment agreement with Lincoln County covering the Five Rivers Section of the Alsea Highway in Lincoln County was presented by the Engineer. The new highway section, he stated, leaves the existing highway line for approximately one-half mile. The agreement provides that Lincoln County is to take over and maintain the old section of highway when the new one is completed and opened to public travel. The Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

The Commission also considered and, upon the favorable recommendation of the Engineer, approved an abandonment agreement with Tillamook County covering the Tillamook River Bridge Section of the Netarts Secondary Highway in Tillamook County. The Secretary was also authorized to sign the agreement for the Commission. The Engineer commented that Tillamook County has agreed to take over the old section of highway when the new section is completed and opened to public travel.

In connection with the abandonment agreement with Tillamook County covering the Tillamook River Bridge Section of the Netarts Secondary Highway in Tillamook County, the Engineer presented an abandonment resolution formally transferring to the County the old section of highway when the new section is completed and opened to public travel. Upon his favorable recommendation, the Commission adopted the resolution relative thereto, marked Exhibit "F-1", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

The Engineer also presented two resolutions covering abandonment of old sections of highways in Coos and Josephine Counties. As construction of the new highway sections have been completed and are opened to public travel, he recommended that the old sections be disposed of as follows:

1. Coquille Junction-Rhoda Creek Section of Powers Secondary Highway in Coos County. The abandoned section in this instance is to revert to the adjacent property owners. (See Exhibit "F-2").

2. Jerome Prairie-Grants Pass Section of the Redwood Highway in Josephine County. The old sections of highway are to be transferred to Josephine County. (See Exhibit "F-3")

The Commission approved the abandonments by adopting the attached resolutions relative thereto, marked Exhibits "F-2" and "F-3", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

The meeting was recessed from 10:45 a.m. to 11:15 a.m.

Extension of an agreement with the U. S. Geological Survey covering a cooperative program to determine the run-off from small drainage areas was presented by the Engineer. For several years past, he stated, the State has been cooperating with the Geological Survey in this program and the data secured to date has been of great value in culvert design and has enabled more economical culvert practices than would have been possible otherwise. The present agreement expires June 30, 1962, and he recommended that the agreement be extended to June 30, 1963. Under terms of the agreement, the State is to provide $8,000 and the U. S. Geological Survey the same amount. The Commission approved extension of the agreement and authorized the Secretary to sign it in behalf of the Commission.

A supplemental agreement with the O.W.R. & N., Union Pacific Railroad, authorizing a haul road across Union Pacific tracks near the Clarke Overcrossing on the Boardman Junction-Irrigon Section of the Columbia River Highway in Morrow County was presented for confirmation. Briefly the Engineer explained that approval of the agreement by the Commission had been secured prior to the Commission meeting in order to facilitate highway construction, and it was placed on the agenda for official confirmation. The Commission confirmed the agreement.

A "Pipe Line Crossing Agreement" with Union Pacific Railroad Company covering installation of a four-inch water pipe line to serve the proposed State Highway Maintenance Building east of The Dalles in Wasco County was presented by the Engineer. Upon his favorable recommendation the Commission approved the crossing agreement.

The Commission also considered a "Memorandum Agreement" with the City of Ontario in Malheur County to provide water to the Ontario State Highway Office Building. The Engineer explained that although the site is outside the City the City has made a practice of furnishing water outside the city limits provided that the user pay the cost of installing the water main and meter and pay a 50 percent premium over city rates for the water used. The use of wells in this area was considered but it was found that shallow wells provide an uncertain quantity of water and deep wells provide water with an objectionable sulphur content. He recommended that the agreement with the City of Ontario be approved whereby the State is to assume the cost of laying a 4-inch line for distance of about one-quarter mile at a cost of approximately $4,000. The Commission approved the agreement and authorized the Secretary to sign it in their behalf.

The Commission approved the Secretary's report on papers which he hac signed in behlaf of the Commission during the period from December 4, 1961 through January 12, 1962.

In connection with the Secretary's report of papers signed on behalf of the Commission, Commissioner Fridley inquired whether it is necessary to prepare and furnish a copy of this list to the Commission. The Chief Counsel was instructed to look into the matter.

The Commission confirmed the next regular meeting date for March 2, 1962 in Room 419 of the State Highway Building in Salem. A tentative date for the following meeting was set for April 13, 1962. The next bid opening date was set for February 28 with Commissioner Fridley to be in attendance.

An agreement with the Harper South Side Irrigation District covering extension of an irrigation pipe under the Harper Junction-Burrell Section of the Central Oregon Highway was discussed. Highway construction, the Engineer explained, requires reconstruction of the District's facilities. The agreement provides, among other things, that the State is to reconstruct the irrigation facilities disturbed by construction, and that the district is to perform all work outside the right of way lines. Following the Engineer's favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it in their behalf.

Confirmation of authority to employ the engineering firm of Dames & Moore concerning foundation exploration work at the site of the proposed Interstate Bridge across the Columbia River between Astoria, Oregon and Megler, Washington, was requested by the Engineer. Considerable foundation exploration work has been done, the results of which indicate that the material at the site of the north pier of the main river channel is of doubtful quality. The pier, however, has been designed with consideration being given for the character of the foundation material. It was his feeling, that this action should be confirmed by independent professional foundation and soils engineers. Dames & Moore, a nationally known engineering organization, has agreed to review the foundation data and submit a recommendation for pier footing design and pile supports for an estimated cost of $3,500. The Commission confirmed the employment of Dames & Moore and authorized the Secretary to sign an agreement with them in behalf of the Commission.

Out-of-state travel expenses were requested by the Engineer and approved by the Commission as follows:

1. F. B. Crandall to attend meeting of the Factual Survey Committee of WASHO, January 16, 1962, San Francisco, California at an estimated cost of $80.00. This action is to confirm prior approval.

2. G. S. Paxson, Deputy State Highway Engineer, to conduct meeting of the Bridge Advisory Committee, Highway Research Board, in Denver, Colorado, March 13-15, 1962. All expenses are to be paid by the Highway Research Board.

A resolution was presented by the Engineer apportioning to the various cities ten percent of Highway Funds received during the second half of 1961. These funds, the Engineer explained, have been allocated according to law. The Commission adopted the resolution, marked Exhibit "G", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Exhibits to the Minutes of the Highway Commission Meeting of January 19, 1962".

The Commission considered an agreement and an indenture of access with Southern Pacific Company and Union Pacific Railroad Company involving construction of the interchange between the East Bank Freeway (Pacific Highway) and the Banfield Freeway (Columbia River Highway) in Portland. Upon the Engineer's favorable recommendation, the Commission approved the agreement and indenture of access.

Attention was given to an "Application and Contract" with California-Pacific Utilities Company covering extension of its power lines to serve the State truck weighing scale on the Baker-Pleasant Valley Section of the Old Oregon Trail Highway. In construction of the Baker-Pleasant Valley Section, the Engineer stated that it was necessary to move the truck scale easterly from its former location, and it is now essential to extend the power line to the new location. The Utilities Company will extend the line at its own expense, $664.05, provided the State will enter into an agreement guaranteeing the Utilities Company a minimum monthly payment of $12.30 for a five-year period. It was his opinion that the power usage would come near that amount, and he recommended that the agreement be approved and that the Secretary be authorized to sign it in behalf of the Commission. The Commission accepted his recommendation.

The Commission considered a request from Electrical Products Corporation for an increase from 80 to 110 workdays without assessment of liquidated damages within which to complete Contract No. 5743, signing and illumination on the Washington County Line-Highlands Interchange, Multnomah County. The Engineer stated that the overrun was caused by the addition of extra work and plan changes which were beyond the control of the contractor. He recommended that the extension of time be granted and presented a letter from the Bureau of Public Roads concurring in the extension. The Commission approved the 30-day extension in workdays without assessment of liquidated damages.

The Engineer reported that US 12 at present starts at Detroit, Michigan and terminates at Missoula, Montana. Completion of the Lolo Pass route easterly of Lewiston, Idaho, is expected in 1962 which will make the route eligible to become a national highway route, and the interested states intend to request the AASHO Route Numbering Committee to designate an extension of the route westerly from Missoula, Montana via Lewiston, Idaho; Clarkston, Washington; and thence to a point in the Wallula-Pasco area. Washington newspaper reports, he stated, indicate that the Washington Highway Commission wishes to extend the route beyond Wallula by way of Pasco and Kennewick to the Columbia River near Plymouth, thence along the north bank of the Columbia River to Maryhill where the routing of US 12 would be common with US 830 through Vancouver to US 101 north of Ilwaco, Washington. It was his opinion

that the proposal advanced by Washington is not consistent with AASHO rules, and he recommended that the Commission request the AASHO Route Numbering Committee to extend US12 from Wallula, Washington, over the existing US 730 to a junction with I-80N (US 30) at Boardman Junction, and that the terminus of US 12 be established at this junction. The Commission accepted his recommendation.

An agreement was considered with Warm Springs Irrigation District for rearrangement and reconstruction of irrigation facilities because of highway construction on the Harper Junction-Burrell Section of the Central Oregon Highway in Malheur County. Upon the favorable recommendation of the Engineer, the Commission approved the agreement.

The Engineer discussed with the Commission bids received on January 17, 1962, for highway construction. He mentioned the number of bids received on each project, the low bidder, the amount of the low bid, and the Engineer's estimate, and he made his recommendation as to the disposition of each project. The Commission took action on these projects, as follows, and authorized the Secretary to sign the contracts in behalf of the Commission:

BIDS RECEIVED IN SALEM ON JANUARY 17, 1962

"Paving on the Read Creek-Wren Section of the Kings Valley Highway in Benton County. State project. The Commission awarded the contract to the low bidder, Morse Bros., Lebanon, at $30,706.50.

"Jewel Rock Production Project on the Nehalem and Fishhawk Falls Highways in Clatsop County. State project. The Commission awarded the contract to the low bidder, Vanaken Sand & Gravel, Forest Grove, at $41,230.00.

"Overcrossing of Oregon Trunk Railway, Swalley Canal-E. Revere Ave. (Bend) Section of The Dalles-California Highway in Deschutes County. Federal-aid project. The Commission elects to accept the low bid of R. L. Coats, Bend, in the sum of $119,610.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and oiling on the Kellogg Bridge Section of Elkton-Sutherlin Highway in Douglas County. Federal-aid project. The Commission elects to accept the low bid of Workman Construction Co., Canby, in the sum of $599,184.75 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Crushed maintenance materials in stockpiles on the Crane-Malheur County Line Section of the Crane-Scotts Butte Highway in Harney County. State project. The Commission awarded the contract to the low bidder, Arthur Simonsen & Co., Baker, at $31,104.00.

"Burns Rock Production Project on the Central Oregon and Burns-Crane Highways in Harney County. State project. The Commission awarded the contract to the low bidder, Harney Homes, Inc., Burns, at $18,640.00.

"Suntex Rock Production Project on the Central-Oregon and Lakeview-Burns Highways in Harney County. State project. The Commission awarded the contract to the low bidder, Arthur Simonsen & Co., Baker, at $32,100.00.

"Grading and structures on the Mitchell Point-Hood River Section of the Columbia River Highway in Hood River County. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Co., Vancouver, Washington, at $1,628,808.00.

"Grading, paving and structures on the Fikes Corner-Whiskey Creek Section of the Mt. Hood Highway in Hood River County. Federal-aid project. The Commission elects to accept the low bid of M. J. Brassfield Co. and B & F Construction, Inc., Salem, in the sum of $532,297.25 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving on the 9th Street-Boyd Street (Medford) Section of the Pacific Highway in Medford, Jackson County. Federal-aid project. The Commission elects to accept the low bid of Hughes & Dodd Co., Medford, in the sum of $70,336.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Medford is received and the sum of $21,650.00 is deposited by the City.

"Oregon Pacific and Eastern Railroad Overcrossing on the Pacific Highway, near Cottage Grove in Lane County. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, Inter-City Construction Co., Eugene, in the amount of $47,660.00.

"Grading and Shelter Latrine in Fogarty Creek State Park in Lincoln County. State project. The Commission awarded the contract to the low bidder, Smith Transfer, Toledo, at $36,722.40.

"Grading, paving and structures at Harper Junction-Burrell Section of the Central-Oregon Highway in Malheur County. Federal-aid project. The Commission awarded the contract to the low bidder, J. N. Conley and G. D. Dennis & Sons, Inc., Portland, at $1,186,307.00.

"Paving on the Battle Creek Junction-Illahee Section of the Pacific Highway, south of Salem in Marion County. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, Salem Road & Driveway Co., Salem, at $178,902.00.

"Eliot School Viaduct, East Bank Freeway Section (Portland), Pacific Highway in Multnomah County. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, J. N. Conley & Hannan Bros. Co., Portland, at $480,909.50.

"Grading, paving, illumination and signing on the 102nd Avenue Exit Ramp Section of the Columbia River (Eastbound) Highway, east of Portland in Multnomah County. Federal-aid Interstate Highway project. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $42,834.26.

The Right of Way Engineer presented an option with Elfstrom, Bonesteele and Batterman, File No. 26168, to purchase three acres of land and a building on the Bonneville Station-Patterson Avenue Section of the Willamina-Salem Highway in Polk County, in the amount of $50,000. The property, he continued, had been valued at $46,750 by State appraisers, whereas the owner had the property appraised at $68,000. He recommended that the Commission accept the option for $50,000. The Commission approved the option provided a final review supports the proposed amount.

The Chief Counsel reported that Gary Yarbrough, who is ten years old, started a fire at Hat Rock State Park in Umatilla County, causing damage to trees in the park amount to $640. He pointed out that an Oregon statute limits the liability of parents to $100 in such an instance, and he recommended that this amount be accepted as compensation for the damage. The Commission approved his recommendation.

The Commission discussed with the Engineer various aspects of projects to be contracted in the future.

In response to Commissioner Fridley's inquiry if a decision has been reached concerning the tentative location of US 197 between Eightmile and Dufur, the Engineer replied that two routes have been investigated and it appears now that the route which follows closely along the existing highway, west of the Miller Ranch, is the most feasible one.

The meeting was recessed at 12:00 noon for lunch and reconvened at 1:30 p.m., with the same persons present.

Mr. Fred Oppenheimer, representing the firm of Color & Design, Inc., Portland, appeared before the Commission to present ideas concerning the set-up of the Highway Department's exhibit at the Seattle World's Fair this coming spring and summer. He pointed out that it is almost impossible to submit a bid in a fixed figure form in such matters because of changes which are always required. His Company, he stated, is in the business of building exhibits and he mentioned an exhibit built for the Portland General Electric Company on which they had been awarded first prize, and an exhibit at the Home Show for a telephone company known as "Garden of Homes". He called special attention to the element of time, and urged that early action be taken to allow construction of a quality exhibit. He showed a number of pictures to the Commission and explained the proposed layouts. The Director of the Travel Information Division stated that he has gone over these layouts with Mr. Oppenheimer and although he believes the idea is good there are several items

items he would like to discuss further. Chairman McIver thanked him for his presentation and stated that the Commission would give it careful consideration.

Chairman McIver stated that Governor Hatfield had inquired as to plans for an off-ramp on Interstate Highway 80N into Arlington. The Assistant Engineer, Mr. R. L. Porter, stated that present thinking indicates an entrance just west of the city. People in Arlington, he continued, have expressed the desire for a more expensive entrance using what is considered as not the best type of design. He pointed out that the Governor will be advised of the thinking of the engineering division on this matter. In response to Chairman McIver's inquiry as to when it is expected that the town will be flooded by backwater from the Columbia River, Mr. Porter replied that this was expected to occur in five or six years.

The meeting was recessed at 1:50 p.m. and reconvened at 2:00 p.m.

A Tillamook County delegation, headed by Judge O. E. Effenberger, came before the Commission regarding improvement of the Necanicum Highway, ORE 53, from Wheeler to a junction with the Sunset Highway, and the possibility of early construction on the Boyer Cutoff connecting the Salmon River Highway with the Three Rivers Highway. Judge Effenberger acted as spokesman and inquired concerning the surveys and progress being made on the Oregon Coast Highway north of Neskowin and the Bay City-Garibaldi Section from Hobsonville north. He also commented that it was his feeling that delay in right of way acquisition had held up construction on the Oregon Coast Highway in the Bay City-Hobsonville area. Tillamook County, he continued, has contacted the Bureau of Public Roads and the U. S. Forest Service in an effort to secure funds for construction of the Boyer Cutoff. He stated that these two governmental agencies have indicated that this cutoff is needed. He introduced the other members of the delegation as follows: A. H. Tilden and Clay Myers, Tillamook County Commissioners, Tillamook; Timothy A. O'Connor, Publisher, and Claude R. Watkins, Editor, "Headlight Hearld", Tillamook; H. W. Hutton, Mayor, Manzanita; Wm. Dunn, President, Nehalem Bay Expansion Association, Wheeler; John Dillard, Mr. & Mrs. M. F. Ferrell, and Roy Yunker, Nehalem Bay Expansion Association, Nehalem, Ken Christianson, Tillamook County Chamber of Commerce, Rockaway; Harold P. Ford and Darrell Fisher, Rockaway Beach Chamber of Commerce, Rockaway. Mr. Dunn urged the Commission to reconstruct the Necanicum Highway north of Wheeler to reduce the large number of curves in this road. Mr. Yunkers called attention to the crooked section on this highway between Mohler and Necanicum. Logging in this area, he stated, is nearly completed but a better road is needed to attract other industires into the area as well as for the benefit of the farmers and ranchers along the highway. It was his feeling that construction of the Elsie Cutoff along the Nehalem River is not justified because of the cost, and it would be of more benefit to the district if the Necanicum Highway could be improved. Judge Effenberger stated that the Tillamook County Court does not wish to detract from those who favor the Elsie Cutoff but the Court does feel that improvements should be made to the Necanicum Highway. Chairman McIver

thanked the group for their appearance and for the presentation they had made, and stated that consideration would be given to their request.

The Commission signed or authorized the Secretary to sign the following papers:

"Relinquishment of Title" to Wasco County to an 80-foot strip of land on the Mosier-The Dalles Section of the Columbia River Highway (near the West The Dalles Interchange), for public road purposes.

"Grant of Easement" to P. J. Stone, property owner adjacent to the State's material source on Foots Creek County Road, on the Rock Point-Blackwell Hill Section of Pacific Highway, Jackson County.

"Easement & Realese of Easement" granting three property owners in the Warrendale area, Walter A. Geutter, Ethel M. Miller and Vernard Herman Heuker, a right to use and maintain a domestic water line on the Dodson-Bonneville Section of the Columbia River Highway in Multnomah County.

"Indenture of Access" to the Vernon D. Hall and Cora E. Hall property on Deception Creek-Oakridge Section of the Willamette Highway in Lane County.

"Indenture of Access" to Coos County for property on Davis Slough-Bandon Section of Oregon Coast Highway in Coos County.

"Agreement" covering extension for an additional 10-year period from October 15, 1961, with Crown Zellerbach Corporation covering joint use of several quarry properties in Clatsop and Columbia Counties, some of which are owned by each party to the agreement.

"Trust Agreement" with Bonneville Power Administration covering restoration of BPA's transmission line due to slide conditions on Judkins Point-Goshen Section of Pacific Highway, Lane County.

"Corrected Air Easement" with City of Albany covering State property within the south approach zone of the Albany Municipal Airport runway on the Albany-Judkins Point Section of Pacific Highway, Linn County.

"Road Easement" to Bureau of Land Management granting a road easement across a portion of State land lying within the Silver Creek Falls State Park.

"Pipe Line Crossing Agreement" with Union Pacific Railroad Company covering installation of a four-inch water pipe line to serve the proposed State Highway maintenance Building east of The Dalles.

"Agreement and Indenture" with Southern Pacific Company and the Union Pacific Railroad Company covering the East Bank-Banfield Interchange in Multnomah County.

"Bargain & Sale Deed" to A. L. Nash and Lorene R. Nash for a parcel of land on the Seven Oaks-Ashland Section of the Pacific Highway in Jackson County.

"Bargain & Sale Deed" to Arlie A. Lapping and Dorothy P. Lapping for a parcel of land on the North Bend Section of the Oregon Coast Highway in Coos County.

"Bargain & Sale Deed" to Fred Christensen for a parcel of land on the Ontario-North Oregon Street Section of the Olds Ferry-Ontario Highway, Ontario-Snake River Section of Old Oregon Trail Highway.

"Quitclaim Deed" to Robert D. Thomas and Sylvia E. Thomas to a parcel of land on the Lowell Street-21st. Avenue Section of the Pacific Highway in Multnomah County.

"Bargain & Sale Deed" to Portland General Electric Company for property on the Tigard Junction Section of the Pacific Highway in Washington County.

"Bargain & Sale Deed" to A. F. Grabhorn for a parcel of land lying in Lots 15,16,17 and 18, Block 14, Terwilliger Homestead in the City of Portland, Multnomah County.

"Agreement" with Bonneville Power Administration whereby State requests approval of a right of way easement across Bonneville's power line easement on The Dalles-Eight Mile Creek Section The Dalles-California Highway in Wasco County.

"Correction Quitclaim Deed" granting certain right of way to Deschutes County of a portion of Tumalo State Park.

"Bargain & Sale Deed" to United States of America all of Lots 16 through 20 inclusive, in Block 15, Denny's Addition to the City of Arlington, Gilliam County.

"Agreement" with Southern Pacific Company covering the Tallman Grade Crossing (Corvallis-Lebanon Highway) in Linn County.

"Option" from the U. S. Corps of Engineers for the acquisition of a State-owned house on the Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County, at the appraised value of $7,820.

"Consent to Annexation" requested by R. E. Goad and Leelia L. Goad to the annexation to the City of Pendleton of a portion of the Old Oregon Trail Highway and the Oregon-Washington Highway, adjacent to their property.

"Agreement" with Mutlnomah County covering the 122nd Avenue Undercrossing of Sandy Boulevard, FAS 654.

"Cooperative Construction Agreement" with Columbia City covering relocation of the Columbia River Highway in Columbia City.

"Abandonment Agreement" with Lincoln County covering the Five Rivers Junction Section of the Alsea Highway.

"Abandonment Agreement" with Tillamook County covering the Tillamook River Bridge Section of the Netarts Highway in Tillamook County.

"Agreement" with U. S. Geological Survey covering a cooperative program to determine the run-off from small drainage areas. State and Geological Survey to allocate $8,000 each.

"Memorandum Agreement" with the City of Ontario to provide water service to the Ontario Building site which is located outside the city limits. State to assume cost of laying four-inch line from nearest city service.

"Agreement" with the Harper Southside Irrigation District covering extension of a pipe carrying irrigation water under the Central Oregon Highway because of highway reconstruction of the Harper Junction-Burrell Section.

"Agreement" with Dames & Moore, Soil Mechanics Engineers to review the State's foundation data for the proposed Interstate Bridge across the Columbia River between Astoria, Oregon and Megler, Washington, and submit a recommendation for pier footing design and pile supports.

"Application and Contract" with California-Pacific Utilities Company covering the extension of its power line to serve the State's truck-weighing scale on the Baker-Pleasant Valley Section of the Interstate Highway (US 30).

"Agreement" with Warm Springs Irrigation District covering adjustments to their facilities on the Harper Junction-Burrell Section of the Central Oregon Highway in Malheur County.

There being no other business to come before the Commission, Chairman McIver declared the meeting adjourned at 2:20 p.m.

Forrest Cooper
State Highway Engineer

Secretary

Chairman

Commissioner

(Commissioner Jackson absent)
Commissioner

January 19, 1962

Salem, Oregon
March 2, 1962

The Oregon State Highway Commission met in regular session at 9:00 a.m., in the Conference Room of the State Highway Building. Present were:

M. K. McIver, Chairman
K. N. Fridley, Commissioner
Glenn L. Jackson, Commissioner
Forrest Cooper, State Highway Engineer
G. S. Paxson, Deputy State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
R. L. Porter, Assistant State Highway Engineer
Tom Edwards, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
W. T. Wright, Right of Way Engineer
Mark Astrup, State Parks Superintendent
C. H. Maison, Auditor
Carl Jordan, Director of Travel Information
Gene Huntley, Director of Personnel and Public Relations
Floyd Query, Secretary

The Commission approved the minutes of the regular meeting held on January 19, 1962.

The Right of Way Engineer presented for consideration options, pages 1 through 43 (excluding pages 5 through 10), secured for acquisition of real property that is needed for state highway right of way or for other purposes. After giving careful consideration to the individual options as presented, the Commission approved closing the options at the prices mentioned therein by adopting a resolution relative thereto, marked "Right of Way Resolution", dated March 2, 1962, which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Right of Way Resolutions, Condemnation, Report of Offers".

In discussing the options presented, the Engineer pointed out that some of the options cover property to be acquired on the proposed route of the Stadium Freeway in Portland. Portland City Officials are studying the Stadium Freeway agreement but have not yet indicated that they will approve it. It was the Engineer's thought that it might be well to delay acquisition of right of way on the Stadium Freeway until the City has approved the agreement. Chairman McIver inquired if there are any hardship cases among the options of the Freeway Section. The Right of Way Engineer stated that only one property was considered in this category, that being the Goodman and Sheasgreen property. File No. 33962, on page 10 of the resolution. After some further discussion, the Commission approved the options as presented, with the exception of those options on pages 5 through 10 in the resolution and which are located on the Stadium Freeway Section.

The Property Manager's report of miscellaneous sales and rental receipts since the last Commission meeting was presented by the Right of

Way Engineer. Briefly he pointed out that during this period miscellaneous sales and transfers totalled $22,200 and rental receipts for January amounted to $7,112.54.

A request from the City of Prairie City to terminate a five-year lease held by the State on a site used for stockpile purposes in the city of Prairie City on the John Day Highway in Grant County was presented by the Right of Way Engineer. The State has acquired a larger tract in the vicinity, and as the City needs the area for its purposes, he recommended that a quitclaim deed be given to the City. The Commission approved the transfer of the land.

"Indentures of Access" were presented by the Right of Way Engineer who pointed out that changes recommended are for the benefit of the property owners and the safety of the traveling public. The Commission approved the following "Indentures":

(1) Marion and Alma E. Strunk property, File No. 32543, on the Wildcat Creek-Walton Section of the Mapleton-Eugene Highway, Lane County, for a change of location of two points of access, each 25 feet in width, and unrestricted as to use.

(2) Perry W. and Lottie Waterman property, File No. 32882, on McMullen Creek-Bridge Section of Coos Bay-Roseburg Highway, Coos County, for a change of location of one point of access, 25 feet in width, and unrestricted as to use.

(3) Roy H. and Dorothy V. Coleman property, File No. 26119, on Grants Pass (Sixth and Seventh Streets) Section of Pacific Highway, Josephine County, for a change of location of two points of access, unrestricted as to use, and the widening of these points from 25 to 40 feet.

(4) Albert Earl and Shirley Croghan, File No. 32559, on Bonneville Station-Patterson Avenue Section of Willamina-Salem Highway, Polk County, for a change of location of one point of access, 30 feet in width, and unrestricted as to use.

(5) Howard E. and Hilda J. Olsen property, File No. 13891, on Salem-Hayesville School Section of Pacific Highway East, Marion County. Confirmation of verbal approval given by the Chairman and covers a change of location of one point of access, 30 feet in width, and unrestricted as to use.

Approval of a "Bargain and Sale" deed conveying to Mr. Gordon Pipkin two parcels of land on the Viento-Hood River Section of the Columbia River Highway, Hood River County, File No. 16994 and 16995, was requested by the

Right of Way Engineer. He explained that the proposed transfer consists of 2,650 square feet of land. In 1953 a parcel of land was sold at public auction, but due to a survey error, the deed description did not cover the entire area which had been delineated on the ground at the time of the sale. The Meredith Motel was constructed on this property, and the proposed "Bargain and Sale" deed is to take care of the error in the original description. The Commission approved the deed.

The Commission considered two "Releases of Access Restrictions" to N. E. Columbia Boulevard, a Multnomah County road, on the Blomgren property, File No. 32507, and on the Neal property, File No. 32508, on the Minnesota Freeway Section of the Pacific Highway in Multnomah County. The Right of Way Engineer explained that when right of way was acquired from these two properties for widening Columbia Boulevard, it was not intended to control access to Columbia Boulevard and no allowance for loss of access was made in the appraisals for the property; however, through an error, access was controlled in the deed secured from the owners. Upon his favorable recommendation, the Commission approved the two "Releases of Access Restrictions".

Public sale of eight properties no longer needed for highway purposes was recommended by the Right of Way Engineer. Access provisions as proposed are consistent with departmental policy as practiced in the vicinity of each parcel. The recommended minimum sale price is based on appraised value or on an offer which exceeds appraised value. Following his favorable recommendation, the Commission authorized public sale of the following parcels of real property and thereupon adopted resolutions relative thereto, marked "Real Property Resolutions No. 342 through 346" which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Real Property Resolutions":

(1) One acre, File Nos. 3932, 3932A and 4453, on Siletz Bay-Newport Section of Oregon Coast Highway, Lincoln County, for not less than $6,500 with the following provisions: (1) subject to adjacent land rights of air, light, view, and access; (2) access limited to two points, 25 feet in width, and unrestricted use; and (3) subject to standard frontage road clause. (See "Real Property Resolution No. 342")

(2) Two parcels -- Parcel 1 containing 4,320 square feet for not less than $650, and Parcel 2 containing 3,025 square feet for not less than $400, File Nos. 2960, 2961 and 2963, on the Schiller Street-Ross Island Bridge Section of the Pacific Highway East, Multnomah County. No access restrictions are to be imposed.

(3) 6,400 square feet of land, File Nos. 22192 and 22193, on Adams Street-McMinnville Section of Pacific Highway West, Yamhill County, for not less than $2,000. Access is to be limited to two points, 25 feet in width and without use restriction. (See "Real Property Resolution No. 343")

(4) 0.9 acre, File Nos. 20026 and 22721, on Harbor Drive-Barbur Boulevard Section of Pacific Highway, Multnomah County for not less than $10,000, without access to the Pacific Highway and with an advertising sign restriction. (See "Real Property Resolution No. 344")

(5) 1.98 acres, File Nos. 25684 and 25724, on Sandy-Forest Boundary Section of Mt. Hood Highway, Clackamas County, for not less than $545, and without access to the Mt. Hood Highway.

(6) 7.29 acres, File Nos. 25684 and 25685, on Sandy-Forest Boundary Section of Mt. Hood Highway, Clackamas County, for not less than $1,700, and without access to the Mt. Hood Highway. Purchaser will be required to maintain a drainage ditch which crosses the property. (See "Real Property Resolution No. 345")

(7) 1.61 acres, File No. 25686, on Sandy-Forest Boundary Section of Mt. Hood Highway, Clackamas County, for not less than $308 and without access to the Mt. Hood Highway.

(8) Four acres, File No. 6545, on Vadis-Gardner Ranch Section of Sunset Highway, Washington County, for not less than $2,000 and without access to the Sunset Highway. (See "Real Property Resolution No. 346")

Direct sale of properties no longer needed for highway purposes was also recommended by the Right of Way Engineer. The proposed sales, he stated, involve properties not needed for highway use and all are being made to public agencies. The Commission approved the following direct sales:

(1) Five acres, File No. 10168, on Rickreall-Corvallis Section of Pacific Highway West, Polk County, to Polk County for $1.00 with the following provisions: (1) State may continue to remove materials for maintenance purposes; and (2) a clause restricting property to public use.

(2) 19½ acre borrow source, File No. 30534, on Forest Boundary-Haines Section of Haines-Anthony Highway, Baker County, to the State Game Commission for public use as an upland bird refuge and fishing access to the North Powder River, for a consideration of $1.00.

(3) 0.7 acre, File No. 23987, on Hayes Hill-Grants Pass Section of Redwood Highway, Josephine County, to Josephine County for the sum of $525 for use as a stockpile site. This parcel will not need access to the reconstructed Redwood Highway.

(4) 10 acres, File No. 15449, on Wilderville-Grants Pass Section of Redwood Highway, Josephine County, to Josephine County for development as an addition to Schroeder Park. The sale will be negotiated under terms and conditions satisfactory to Josephine County and to the State Highway Engineer.

The Chief Counsel presented to the Commission a list of properties needed for the uses indicated therein. Right of way maps and other data were also submitted. He requested the Commission to declare by resolution the necessity of said properties for the special uses to which they are to be put, and to authorize the Legal and Right of Way Division to attempt to agree with the owners of said properties as to price, and, in the event of disagreement, to proceed to acquire such properties by condemnation. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful, and thereupon adopted resolutions relative thereto, marked "Condemnation Resolutions Nos. 1551 through 1573", which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Condemnation Resolutions".

(For details concerning these properties see the Chief Counsel's "Recommendations for Condemnation", dated March 2, 1962, in the Secretary's Office under the heading "Right of Way Resolutions, Condemnations, and Reports of Offers").

A report of cases tried in court since the last Commission meeting was presented by the Chief Counsel. He offered a few brief comments on some of the cases and asked that the report be accepted. The Commission accepted the report, which is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3850 Haeckel Timeus, et al	Curry	Oregon Coast	Myers Creek-Brookings	$ 9,950.00	$55,000.00	$25,580.00
L-3387 Joallen Douthit, et al.	Hood River	Columbia River	Cascade Locks-Viento	$ 2,335.00	None	$ 2,335.00
L-3834 Clair Ewart, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$ 9,750.00	$17,000.00 plus cattle underpass	$13,800.00

Report of Condemnation Cases Tried - Cont.

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3692 Mary Lytle, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$20,150.00	$20,150.00	$19,500.00
L-3914 Lillian Kettner, et al.	Lincoln	Oregon Coast	South Newport State Park	$ 100.00	None	$ 100.00
L-3775 Thomas G. Elliott, et al.	Multnomah	Columbia River	Sauvies Island Bridge St. Johns Bridge	$ 430.00	$ 8,000.00 Answer	$ 800.00
L-3885 Claude M. Henderson, et al.	Polk	Willamina Salem	Bonneville Station-Patterson Avenue	$ 1,500.00	$ 4,000.00	$ 1,500.00
L-3012 Myron S. Fleser, et al.	Wallowa	Wallowa Lake	Minam-Rock Creek	$ 1,070.00	See remarks	No verdict Dismissed

SUPPLEMENTAL REPORT OF CONDEMNATION CASES TRIED

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
L-3467 John Hewitt, et al.	Curry	Oregon Coast	Hunters Creek-Myers Creek	$ 2,200.00	Out of Court $12,500.00 Pleadings $16,000.00	$ 9,500.00
L-3849 James R. Walker, et ux.	Curry	Oregon Coast	Myers Creek-Brookings	$18,935.00	$60,000.00 Answer	$26,760.00 for R/W $ 1,650.00 for park
L-3604 Adrain J. Standley, et ux.	Douglas	Pacific	Rice Hill-North Oakland Junction	$ 2,000.00	$ 5,600.00	$ 4,500.00
L-3805 J. P. Warren, et al.	Jackson	Pacific	Seven Oaks-Neil Creek	$11,050.00	$16,500.00	$19,500.00

March 2, 1962

(For further details concerning these cases, see the Chief Counsel's letters, dated February 26 and March 1, 1962, concerning cases tried, in the General Files, Salem).

The Chief Counsel also presented a brief oral report on three recent decisions of the Supreme Court concerning cases in which the Highway Commission is a party. Of these three cases, (1) State vs. Hewett, L-3469A, (2) State vs. Hurliman, L-3254A, and (3) State vs. Assembly of God, L-3553, the State won two of them. In the case of State vs. Hurliman in which Hurliman had appealed the case, the Chief Counsel explained that the Supreme Court decided that the center line description was an adequate one. Concerning the case of the State vs. Assembly of God, which is church property in Albany, the Chief Counsel reported that the Supreme Court sustained the State's appeal and reversed the case on the grounds that the judge was in error when he required the State to plead the State's offer since the offer had no part in the trial of a condemnation action. The Commission accepted the report.

A written report on cases settled out of court was presented by the Chief Counsel. He pointed out that none of the settlements as proposed constitute a substantial increase above offers which have been made based upon appraised values. He also called attention to the fact that some appraisals made two or three years ago do not reflect present values and have been revised accordingly. The Commission approved the report on cases settled, which is summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-3776 Jacob G. Scherrer	Wasco	Columbia River	The Dalles By-Pass	$24,500.00	$27,500.00
	(A Review Appraisal of $27,600.00 was made subsequent to offer and based on revised appraisals.)				
L-3841 Harry A. Howe, et ux.	Columbia	Columbia River	Westport-Clatskanie	$ 25.00	$ 50.00
L-3884 R. Clinton Jones, et al.	Washington	Beaverton-Tigard	Sunset Highway-Pacific	$10,450.00	$10,575.00
L-3913 Fred G. Mauser, et al.	Wasco	Columbia River	The Dalles By-Pass	$ 4,675.00	$ 4,675.00
L-3916 Tenet Mortgage Co., et al.	Multnomah	Pacific	North Portland Harbor-North Russell Street	$ 4,350.00	$ 4,500.00

Report of Condemnation Cases Settled - Cont.

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-3917 John Piper, et al.	Polk	Willamina-Salem	Bonneville Station-Patterson Avenue	$ 1,200.00	$ 1,500.00

March 2, 1962

Supplemental Report of Condemnation Cases Settled - Cont.

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-32955 Ivan L. Sletta	Multnomah	Pacific	North Harbor Drive-North Russell Street	$ 9,800.00	$10,250.00

(For further details, see the Chief Counsel's letters, dated February 26 and March 1, 1962, concerning cases settled, in the General Files, Salem).

The Commission considered the Chief Counsel's report on offers made to property owners prior to the commencement of condemnation proceedings. These offers, the Chief Counsel stated, are based upon careful appraisals and have been approved orally by at least one of the Commissioners prior to this meeting. The Commission confirmed the following offers:

BONNEVILLE STATION-PATTERSON AVENUE SECTION OF THE WILLAMINA-SALEM HIGHWAY

R-32558 - R. M. Van Zanten, et al. 0.09 acre for right of way purposes. Offer of $19,650.00 approved by Mr. McIver, February 15, 1962.

R-32564 - Frank Finney, et al. 2,000 square feet for right of way purposes. Offer of $700.00 approved by Mr. McIver, January 11, 1962 due to increase in taking. On November 29, 1961, an amount of $675.00 was approved by Mr. McIver.

BRIDGE -FRENCHIE CREEK SECTION OF THE COSS BAY-ROSEBURG HIGHWAY

R-33426 - Jack Darrol Key, et al. 2.3 acres for right of way purposes. Offer of $1,700.00 approved by Mr. Jackson, January 25, 1962.

R-33428 - V. V. Hagedorn, et ux. 0.8 acre for right of way purposes. Offer of $585.00 approved by Mr. Jackson, January 29, 1962.

R-33429 - Powell Lancaster, et ux. 7.6 acres for right of way purposes. Offer of $4,300.00 approved by Mr. Jackson, January 25, 1962.

R-33432 - Erma W. Cribbins, et vir. 12.6 acres for right of way purposes. Offer of $20,100.00 approved by Mr. Jackson, January 25, 1962.

R-33466 - Manley E. Cribbins, et ux. Parcel No. 1: 11.5 acres for right of way purposes; Parcel No. 2: 1.1 acres for right of way purposes. Offer of $4,490.00 approved by Mr. Jackson, January 29, 1962.

CASCADE GORGE-FOREST BOUNDARY SECTION OF THE CRATER LAKE HIGHWAY

R-33555 - Hazel Ulrich, et vir. 2.52 acres for right of way purposes. Offer of $1,275.00 approved by Mr. Jackson, January 22, 1962.

R-33556 - Ellen Onn, et vir. 3.08 acres for right of way purposes. Offer of $1,625.00 approved by Mr. Jackson, January 22, 1962.

CASCADE GORGE-FOREST BOUNDARY SECTION OF THE CRATER LAKE HIGHWAY - Cont.

R-33559 - Georgia Grieve, et al. Parcel No. 1: 3.8 acres for right of way purposes; Parcel No. 2: 0.34 acre for permanent easement. Offer of $2,680.00 approved by Mr. Jackson, February 2, 1962.

R-34237 - Georgia Grieve, et al. Parcel No. 1: 8.9 acres for right of way purposes; Parcel No. 2: 0.11 acre for permanent easement for channel change. Offer of $6,785.00 approved by Mr. Jackson, February 2, 1962.

EAST BANK FREEWAY SECTION OF THE PACIFIC HIGHWAY

R-29610 - Henrietta Huthman, et al. 6,375 square feet for right of way purposes. Offer of $34,250.00 approved by Mr. McIver, February 19, 1962.

FIKES CORNER-HOOD RIVER SECTION OF THE MT. HOOD HIGHWAY

R-33452 - Mary A. Aue, et al. 360 square feet for right of way purposes. Offer of $150.00 approved by Mr. Fridley, February 5, 1962.

FIRST AVENUE-COBURG ROAD SECTION OF THE EUGENE-SPRINGFIELD HIGHWAY

R-33338 - Bruce MacGregor, et ux. 5,400 square feet for right of way purposes. Offer of $7,100.00 approved by Mr. Jackson, February 19, 1962.

R-33349 - Opal L. Sherman, et vir. 0.52 acre for right of way purposes. Offer of $11,842.00 approved by Mr. Jackson, January 18, 1962.

R-33363 - J. C. Peters, et al. 1.5 acres for right of way purposes. Offer of $3,000.00 approved by Mr. Jackson, January 30, 1962.

GRAND AVENUE OVERCROSSING OF S.P.R.R. AND DIVISION STREET, GRAND AVENUE SECTION OF THE PACIFIC HIGHWAY EAST

R-29618 - The May Hardware Company, et al. 2,200 square feet for right of way purposes. Offer of $10,750.00 approved by Mr. McIver, January 25, 1962.

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY

R-34236 - W. W. McDonald, et ux. 3.73 acres for right of way purposes. Offer of $2,890.00 approved by Mr. Jackson, January 30, 1962.

McLEOD-PROSPECT SECTION OF THE CRATER LAKE HIGHWAY

R-31295 - John F. Dunlap, et ux. 0.26 acre for right of way purposes. Offer of $50.00 approved by Mr. Jackson, January 18, 1962.

MOHAWK ROAD-McKENZIE HIGHWAY SECTION OF THE EUGENE-SPRINGFIELD HIGHWAY

R-30682 - Alvin C. Reed, et ux. 3.7 acres for right of way purposes. Offer of $28,065.00 approved by Mr. Jackson, January 30, 1962.

MOHAWK ROAD-McKENZIE HIGHWAY SECTION OF THE EUGENE-SPRINGFIELD HIGHWAY - Cont.

R-32898 - Helen Huntington, et al. 2.7 acres for right of way purposes. Offer of $4,250.00 approved by Mr. Jackson, February 19, 1962.

NORTH PORTLAND HARBOR-NORTH RUSSELL STREET SECTION OF THE PACIFIC HIGHWAY

R-31389 - Hans S. Kaufman, et ux. Parcel No. 1: 20,000 square feet for right of way purposes; Parcel No. 2: 454 square feet for right of way purposes. Offer of $17,500.00 approved by Mr. McIver February 6, 1962.

R-31857 - Alfred S. Teller, et al. 6,818 square feet for right of way purposes. Offer of $7,500.00 approved by Mr. McIver, January 25, 1962.

R-31881 - John A. Hill, et ux. 2,789 square feet for right of way purposes. Offer of $5,275.00 approved by Mr. McIver, February 1, 1962.

R-31908 - Andrew D. Hrestu, et al. 1,900 square feet for right of way purposes. Offer of $4,250.00 approved by Mr. McIver, January 23, 1962.

R-31915 - Glen L. Hord, et al. 15,047 square feet for right of way purposes. Offer of $69,450.00 approved by Mr. McIver, January 25, 1962.

R-31916 - Temp-Control Corporation. 4,758 square feet for right of way purposes. Offer of $5,000.00 approved by Mr. McIver, February 1, 1962.

R-32501 - Brander Meat Co. Parcel No. 1: 3.7 acres for right of way purposes; Parcel No. 2: 6,250 square feet for right of way purposes. Offer of $10,500.00 approved by Mr. McIver, February 1, 1962.

R-32955 - Ivan L. Sletta, et ux. 4,000 square feet for right of way purposes. Offer of $10,250.00 approved by Mr. McIver, February 8, 1962.

R-33296 - Teddy F. Plew, et al. 0.06 acre for right of way purposes. Offer of $100.00 approved by Mr. McIver, February 15, 1962.

R-33297 - Peninsula Drainage District Number Two. 0.3 acre for right of purposes. Offer of $600.00 approved by Mr. McIver, February 5, 1962.

NORTH UNIT, KELLOGG BRIDGE-TYEE BRIDGE SECTION OF THE ELKTON-SUTHERLIN HIGHWAY

R-34105 - Lucy Haines Leffler, et al. 2.1 acres for right of way purposes. Offer of $1,540.00 approved by Mr. Jackson, January 29, 1962.

R-34163 - E. Roy Fisher, et al. 0.2 acre for right of way purposes. Offer of $135.00 approved by Mr. Jackson, January 30, 1962.

R-34337 - Garold Madison, et al. 0.75 acre for right of way purposes. Offer of $265.00 approved by Mr. Jackson, January 24, 1962.

POLK STATION-DALLAS SECTION OF THE KINGS VALLEY HIGHWAY

R-33595 - Cleo Mueller, et al. 5,900 square feet for right of way purposes. Offer of $640.00 approved by Mr. McIver, February 5, 1962.

SALMON RIVER JUNCTION-EAST McMINNVILLE JUNCTION SECTION OF THE THREE MILE LANE HIGHWAY

R-29178 - Paul A. Barber, et al. 6.0 acres for right of way purposes. Offer of $2,950.00 approved by Mr. McIver, February 15, 1962.

R-29189 - Alma Farmer, et al. 0.32 acre for right of way purposes. Offer of $235.00 approved by Mr. McIver, January 18, 1962.

R-29190 - Norris L. Rogers, et ux. Parcel No. 1: 7.86 acres for right of way purposes; Parcel No. 2: 1.1 acres for right of way purposes; Parcel No. 3: 0.03 acre for right of way purposes. Offer of $8,300.00 approved by Mr. McIver, February 5, 1962.

R-29193 - Harry M. McDaniel, et ux. 1.14 acres for right of way purposes. Offer of $1,000.00 approved by Mr. McIver, February 5, 1962.

R-29198 - McMinnville Brick Company, et al. Parcel No. 1: 0.11 acre for right of way purposes; Parcel No. 2: 0.07 acre for right of way purposes; Parcel No. 3: 0.80 acre for right of way purposes. Offer of $1,600.00 approved by Mr. McIver, February 19, 1962.

R-29205 - Harry D. Rickard, et al. 0.26 acre for right of way purposes. Offer of $6,000.00 approved by Mr. McIver, January 18, 1962.

R-30317 - Lloyd B. Huffaker, et ux. 1.8 acres for right of way purposes. Offer of $860.00 approved by Mr. McIver, January 18, 1962.

R-34257 - J. L. Wilcox, et al. 0.3 acre for right of way purposes. Offer of $2,650.00 approved by Mr. McIver, February 19, 1962.

SAUVIE ISLAND BRIDGE-ST. JOHNS BRIDGE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-31693 - Genevieve Anderson Lamb, et al. 4,741 square feet for right of way purposes. Offer of $26,600.00 approved by Mr. McIver, January 29, 1962.

R-31694 - Pat Clarizio, et ux. 2,500 square feet for right of way purposes. Offer of $15,705.00 approved by Mr. McIver, January 23, 1962.

R-31714 - Joseph E. Illias, et al. Parcel No. 1: 1,000 square feet for right of way purposes; Parcel No. 2: 1,650 square feet for permanent easement; Parcel No. 3: acquisition of access. Offer of $2,000.00 approved by Mr. McIver, January 23, 1962.

SILETZ TO CORVALLIS-NEWPORT HIGHWAY SECTION OF THE SILETZ HIGHWAY

R-33234 - Ralph Salvage, et ux. 2.5 acres for right of way purposes. Offer of $745.00 approved by Mr. McIver, January 25, 1962.

SILETZ TO CORVALLIS-NEWPORT HIGHWAY SECTION OF THE SILETZ HIGHWAY - Cont.

R-33241 - Erich Bahrke, et al. 8.5 acres for right of way purposes. Offer of $5,340.00 approved by Mr. McIver, January 29, 1962.

SMITH ROCK STATE PARK

R-30550 - John L. Hawkins, et al. Parcel No. 1: 50.0 acres for park purposes; Parcel No. 2: 26.0 acres for park purposes. Offer of $760.00 approved by Mr. Fridley, January 23, 1962.

SOUTH NEWPORT STATE PARK

R-24325 - Pacific Coast Land Co., et al. 237,000 square feet for park purposes. Offer of $4,550.00 approved by Mr. McIver, February 19, 1962.

R-24329 - La Verne Ferem, et al. 10,000 square feet for park purposes. Offer of $120.00 approved by Mr. McIver, February 19, 1962.

R-24368 - Valentina Winer, et vir. 2,500 square feet for park purposes. Offer of $50.00 approved by Mr. McIver, February 19, 1962.

R-31092 - Emma Brockway, et ux. 10,000 square feet for park purposes. Offer of $120.00 approved by Mr. McIver, February 19, 1962.

R-31121 - Margaret J. Spencer, et vir. 5,000 square feet for park purposes. Offer of $75.00 approved by Mr. McIver, February 19, 1962.

R-31130 - Horace M. Reid, et ux. 25,000 square feet for park purposes. Offer of $300.00 approved by Mr. McIver, February 19, 1962.

R-31131 - Harold Rhomberg, et al. 5,000 square feet for park purposes. Offer of $75.00 approved by Mr. McIver, February 19, 1962.

R-31274 - Wilford L. Post, et al. 7,500 square feet for park purposes. Offer of $100.00 approved by Mr. McIver, February 19, 1962.

R-32751 - J. Gordon Cogger, et al. 5,000 square feet for park purposes. Offer of $75.00 approved by Mr. McIver, February 19, 1962.

R-32752 - L. Neal Hook, et ux. 5,000 square feet for park purposes. Offer of $75.00 approved by Mr. McIver, February 19, 1962.

STAFFORD ROAD INTERCHANGE SECTION OF THE PACIFIC HIGHWAY

R-32747 - Paul E. Doty, et al. Parcel No. 1: 0.72 acre for right of way purposes; Parcel No. 2: 0.40 acre for right of way purposes. Offer of $2,200.00 approved by Mr. McIver, February 15, 1962.

R-32748 - Paul E. Doty, et al. 1.17 acres for right of way purposes. Offer of $5,270.00 approved by Mr. McIver, February 15, 1962.

The Chief Counsel presented a brief report on highway-railroad crossing matters which have been before the Public Utilities Commissioner. The Commission accepted his report, which is summarized as follows:

PUX 434: N. E. 122nd Avenue Extension Undercrossing of Union Pacific Railroad, Multnomah County. The Highway Commission has no jurisdiction over this street. The order as issued allowed the undercrossing.

PUX 447: Reiman Lane Grade Crossing of Southern Pacific Railroad at Corvallis. The Highway Commission has no jurisdiction over this street. The order as issued allowed the crossing.

PUX 449: Woodland Boulevard Grade Crossing of Oregon Trunk Railway in Bend. The Highway Commission has no jurisdiction over this street. An order was issued to allow the crossing.

PUX 454: Douglas County Road Undercrossing of Southern Pacific Railroad near Winchester. This is a county road over which the Highway Commission has no jurisdiction. The order as issued allowed the crossing.

PUX 453: Second N. E. 102nd Avenue Overcrossing of Union Pacific Railroad, Multnomah County. Multnomah County requested authority to cross tracks of Union Pacific Railroad. The answer filed in behalf of the Highway Commission specified that consent would not be given to overcross the Banfield Freeway. The order was issued accordingly.

A list of claims which appear hopeless to collect was presented by the Chief Counsel. Briefly, he stated that careful investigation of these claims indicates that further attempts to collect are not worth while because of unknown location of person causing the damage, contributory negligence by State drivers, illness, death, out-of-state residence, and lack of proof of liability. The Commission approved the abandonment of attempts to collect on the following claims:

CAO No.	Name	Amount of Claim
57-196	William R. Vance	$325.80
60-179	Wanda J. Heide	50.00
61-131	Unknown	223.70
61-169	Iola Shelly	48.70
60-292	Nelson Lewis	93.72
58-172	Pierce & Rothwell	60.44
61-176	Lee A. Rutledge	25.00
61-211	Lorraine A. Fields	69.05
60-137	H. A. Peterson	74.33
61-264	Herbert Smith	167.53
59-174	Wayne Thomas	65.08
60-212	Beldon C. Hasselblad	100.08
60-354	Milton Condit	138.83
59-179	Vernis Jarl	389.26

(Continued on following page)

CAO No.	Name	Amount of Claim
59-132	Kathleen Anderson	$699.00
61-107	K. Lines Inc.	62.67
60-323	Donald D. Park	153.00
58-95	L. W. Harger	315.86
58-208	Richard Elliott and John Harvest	71.99
61-249	Mrs. Roland Kelly	68.23

(For additional details, see the Chief Counsel's letter of February 13, 1962, entitled, "Report of Abandoned Claims", in the General Files, Salem).

The Commission considered a proposed relinquishment to the U. S. Bureau of Land Management of a quarry site containing approximately 60 acres on the Chandler Park-White River Section of Fremont Highway, Lake County. The Chief Counsel explained that the property had been acquired originally from the U. S. Government and is no longer needed for highway purposes. Following his favorable recommendation, the Commission approved the relinquishment and authorized the Secretary to sign it in their behalf.

The Chief Counsel reported that as authorized by the Commission at its last meeting, he had employed Mr. Alan Johannsen as a Grade III attorney at a starting salary of $685 per month, effective February 19, 1962. Mr. Armand L. Riveness was employed, effective February 21, 1962, as Grade II attorney, at a salary of $550 per month. Mr. Jack Sollis, previously employed as a Grade II attorney, is being elevated to a Grade III attorney at a salary of $625 per month. Mr. Joseph Hershberger, Grade II attorney, is being elevated to a Grade III attorney at a salary of $625 per month. The Commission approved the report.

The Chief Counsel also made a report on a complaint filed against the State by Northwest Ice and Cold Storage Company in the amount of $107,610.60 for alleged expense for relocation of its ice manufacture and cold storage facilities on the East Bank Freeway in Portland. He reviewed briefly the basis of their claim in which they allege damage was caused them by a change of plans in construction of the East Bank Freeway. They contended that agents of the Highway Department had urged them to move immediately as the plans contemplated taking the southerly-most building occupied by the Ice and Cold Storage Company. Because of the State's insistence they claimed they had purchased equipment to go into a new building and had expended the sum of $107,610.60. However, as a result of design changes required by the Bureau of Public Roads, construction of the highway facility did not require taking of the Company building. Chairman McIver inquired if any offer had been made to the Company to compensate them for the change, and also if the Bureau of Public Roads would participate in payment if the Company is successful in its suit against the State. The Chief Counsel pointed out that the Company had acquired the machinery for the new setup before the deal had been closed, and on a strictly legal basis no offer could be made. The

Engineer stated several attempts had been made to secure from the Company a specific figure on damages suffered because of the change in plans, which could be substantiated, but none had been submitted. It was the Chief Counsel's opinion that the case should be taken to Court although the Company had been told that the State would consider a reasonable offer of settlement. The Commission accepted the Chief Counsel's report.

The Commission also considered and accepted a report made by the Chief Counsel concerning the case of Blackie Hamilton v. State Highway Commission, James G. Hamilton and Ruth H. Hamilton in the amount of $1,200 for fencing on the Butte Creek-Burton Canyon Section of the John Day Highway in Wheeler County. The fencing has been completed, the Chief Counsel stated, but a dispute has arisen as to whom the payment should be made. The suit is to determine the proper payee.

A letter written by Oliver Norville, Attorney for the Portland Development Commission, requesting payment of interest was presented by the Chief Counsel. He recalled that in 1959 at the insistence of the Portland Development Commission an agreement was entered into with the Development Commission (Urban Renewal Agency for Portland) to purchase from them property needed for the Foothills Highway (Stadium Freeway) in Portland. A proviso in the agreement states that the State is to pay only such costs as will be reimbursed by the Bureau of Public Roads. The Portland Development Commission wishes the State to pay interest on these properties, which interest at present amounts to $35,000. The Bureau has refused to concur in the payment of the interest costs. If the Development Commission is relieved of the provision of the agreement regarding obtaining approval of the Bureau of Public Roads, it would be necessary for the State to absorb the payment without federal participation. The Engineer pointed out that ordinarily the State does not pay interest on property until the State takes physical possession of it. After some further discussion, the Chief Counsel recommended that the Development Commission be notified immediately that there is no contract because the Bureau of Public Roads will not approve payment of this interest, which is one of the provisions of the agreement, and that the matter be left in status quo. The Commission approved his recommendation.

A request was considered from Fred O. and Florence E. Repine for the vacation of a portion of Lincoln Street, Block 4, in Churchmere Addition to West Salem in Polk County. The property to be vacated, the Chief Counsel stated, has been investigated by the Engineering Division and the vacation will cause no harm to the State Highway Department. Upon his favorable recommendation, the Commission approved the street vacation and authorized the Secretary to sign it in behalf of the Commission.

The Chief Counsel reported that Humble Oil and Refining Company, Gulf Oil Company, The Superior Oil Company, and Wesley G. Bruer had made applications for lease of oil, gas and mineral rights under State Highway rights of way in the Willamette Valley. To determine which company certain areas will be leased to, the Chief Counsel reported he had notified all of these oil companies that it was the Commission's desire that the company which holds a lease on the land abutting the highway will be given preference on a lease in that specific area. The leases, he stated, have not been prepared, but as

proposed they will be similar to previous leases granted to oil companies. Some of the changes, he stated, provide 60 day's notice for cancellation and a charge of 50 cents per acre, instead of 25 cents per acre. The State Land Board has requested that uniform type leases be entered into and their request will be considered in drawing up the leases. He also mentioned that under the proposed leases no drilling is to be allowed on highway property. He reported that in compliance with a 1961 law, he had conferred with the Director of the State Department of Geology and no objections had been raised concerning these leases. Representatives from the Humble Oil and Refining Company and from the Gulf Oil Company were introduced. The Chief Counsel recommended that he be authorized to draw up a form of lease and send it to the oil companies for their signature. The Commission approved the recommendation and authorized the Chief Counsel to sign the leases in behalf of the Commission.

Attention was given to an agreement with Richard F. and Ann Thomas covering an assignment of a lease, previously granted September 5, 1958, to Oregon Gifts, Inc., for operation of the Depoe Bay State Park Building concession. The Engineer stated that because the nature and terms of the transfer do not appear in the State's record an agreement has been drawn to clarify the conditions under which the lessees are to operate the building concession. Upon his favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it on behalf of the Commission.

The Commission considered extension of an agreement, entered into on June 12, 1958, with the City of Oceanlake, whereby the City granted to the State permission to connect the sewer system in Devil's Lake State Park to the City's sewage disposal plant. The Engineer explained that under the terms of the original agreement it is necessary to renew it from year to year, and he so recommended. The Commission approved extension of the agreement for one year and authorized the Secretary to sign it in their behalf. The Commission also instructed the Chief Counsel to take up with the City of Oceanlake the formulation of a new type of agreement which would be on a continuing basis and not require renewal each year.

An agreement with the Oregon State Department of Planning and Development concerning Federal financial participation in the State Non-Urban Parks and Recreation Study was considered. The Engineer recalled that at the July 28, 1961, meeting this matter had been considered by the Commission and the terms of participation by the State Highway Department and by the United States Government had been outlined. As discussed at the July meeting, it was summarized that the State shall expend at least $18,000 of its own funds in the study and federal funds are to be received in an amount not to exceed $30,000. The agreement has been approved by the Oregon State Department of Planning and Development, and the Engineer recommended that it be approved by the Commission. The Commission approved the agreement and authorized the Secretary to sign it in their behalf.

Consideration was given to a request made by the Columbia River Gorge Commission for purchase of the Gordon Creek Tree Farm, Inc., located

near Bridal Veil Falls on the Columbia River Highway, Multnomah County, as an extension to the Shepperd's Dell State Park. The Engineer stated that the tract includes a quarter of a mile of frontage on the south side of the Crown Point Scenic Highway. The approximate 185 acre tract was appraised for a land value of $6,833 and the timber was appraised at $15,800 or a total of $22,633. The Tree Farm originally asked $30,000 for the tract but reduced its price to $25,000. He recommended that the land be acquired for the price of $25,000 with funds from the Columbia River Gorge Commission budget for 1961-1962. The Commission approved the acquisition and the consolidation of the Gorge Commission budget fund for years 1961-1962 which would make available the sum of $36,626 to be spent in 1962.

The Engineer reported that for several years attempts had been made to secure a tract adjacent to Collier Memorial State Park in Klamath County on which to construct an overnight camp area. He commented that the nearest overnight camp facility is at Tumalo, five miles west of Bend. The proposed area consists of 150 acres on the east side of The Dalles-California Highway, adjoins the Collier State Park on the west and has one and one-half miles of frontage on the Williamson River. An independent appraisal indicated a value of $27,000 for this property. As the State Parks and Recreation Advisory Committee has already declared in favor of acquisition, he recommended that the tract be purchased for park purposes if it can be acquired within the appraised value. The Commission approved his recommendation.

Appointment of a State Recreation Director to take the place of Mr. Clayton Anderson, resigned, was discussed. The Engineer stated five applicants had been considered, and after careful screening of their qualifications, it appeared that Mr. David G. Talbot, Parks Superintendent of Grants Pass, is the best qualified, and he recommended that he be appointed at a beginning salary of $575.00 per month as soon as he can terminate his affairs with the City of Grants Pass, which the Engineer thought would be early in April. The Commission approved the appointment of Mr. Talbot as State Recreation Director.

Purchase of land from the U. S. Bureau of Land Management at the site of the proposed Pistol River State Park on the Oregon Coast Highway in Curry County was considered. The Engineer displayed a map showing two parcels of land owned by the Bureau of Land Management, one parcel containing 23.35 acres and the other 112 acres, or a total of approximately 135 acres. The remainder of the proposed park, he commented, is in private ownership and is being acquired by negotiation or condemnation. The State Parks and Recreation Advisory Committee has recommended acquisition of the 135 acre tract, and the Engineer also recommended that it be acquired under the Recreation and Public Purpose Act at $2.50 an acre, or a total amount of $340.00. The Commission approved the acquisition.

Chairman McIver commented that the Bureau of Land Management should be contacted to get their park development plans in correlation with the plans proposed in the Non-Urban State Park Study. This item, he felt, is of particular concern as it appears that the Bureau of Land Management will spend approximately one-half million dollars in 1962 for park development in Oregon.

The Engineer reported on the progress of the Non-Urban Park Study

report. He stated that the report will be completed within four or five weeks and that a reproduced advance copy of it will be mailed to the Commission within the next two weeks. Commissioner Jackson commented that if a copy of the report could be made available to him at that time he could present it to Congressmen in Washington, D. C.

The Engineer reported that he had made award of contracts previously referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he stated, have been taken care of, and he requested the Commission to confirm his award of the following contracts:

(1) Overcrossing of Oregon Trunk Railway, Swalley Canal-East Revere Avenue (Bend) Section of The Dalles-California Highway, Deschutes County. Bids received January 17, 1962. Contract No. 6027 awarded January 25, 1962, to R. L. Coats, Bend, low bidder.

(2) Grading, paving and structures on Fikes Corner-Whiskey Creek Section of Mt. Hood Highway, Hood River County. Bids received January 17, 1962. Contract No. 6028 awarded February 5, 1962, to M. J. Brassfield Company and B & F Construction, Inc., Salem, low bidder.

(3) Grading and paving on 9th Street-Boyd Street (Medford) Section of Pacific Highway, Jackson County. Bids received January 17, 1962. Contract No. 6029 awarded February 6, 1962, to Hughes & Dodd Company, Medford, low bidder.

(4) Structure, grading and oiling on Kellogg Bridge Section of Elkton-Sutherlin Highway, Douglas County. Bids received January 17, 1962. Contract No. 6030 awarded February 15, 1962, to Workman Construction Company, Canby, low bidder.

The Commission confirmed the Engineer's award of the contracts.

The establishment of reduced speed zones within highway construction projects was reported by the Engineer. These reduced speed zones, he stated, are necessary for the safety of the travelling public while going through sections of highways under construction. The Commission confirmed establishment of the following construction speed zones:

(1) 25 M.P.H. on the Westport-Clatskanie Section of the Columbia River Highway in Columbia County between Mile Point 61.56 and Mile Point 70.43 effective 8:00 a.m., January 30, 1962.

(2) 35 M.P.H. on the John Day River Bridge Project on the Columbia River Highway in Sherman and Gilliam Counties between Mile Point 112.80 and Mile Point 113.60 effective 8:00 a.m., January 17, 1962.

(3) 35 M.P.H. speed zone on the Fikes Corner-Whiskey Creek Section of the Mt. Hood Highway in Hood River

County between Mile Point 97.3 and Mile Point 100.1 effective 8:00 a.m., February 5, 1962.

(4) 35 M.P.H. speed zone on the Mitchell Point-Hood River Section of the Columbia River Highway in Hood River County between Mile Point 59.4 and Mile Point 63.0 effective 8:00 a.m., February 5, 1962.

(5) 10 M.P.H. speed zone through a slide area on the Lower Columbia River Highway between Mile Point 63.4 and Mile Point 63.6 near Clatskanie in Columbia County effective 4:00 p.m., February 8, 1962.

(6) 35 M.P.H. speed zone on the 102nd Avenue exit ramp section of the Columbia River Highway in Portland on the eastbound lanes only between Mile Point 6.98 and Mile Point 7.15 effective 1:00 p.m., February 14, 1962.

The Engineer reported that in 1952 a maximum load limit of 72,000 pounds had been placed on a bridge across the Little Nestucca River at Mile Point 08.70 on the Little Nestucca Secondary Highway in Tillamook County. Repairs were made in 1961 and an inspection indicates that the bridge can withstand a load limit of 76,000 pounds. Under authority previously granted by the Highway Commission, removal of the restricted load limit had been made effective 8:00 a.m., February 1, 1962. The Commission confirmed the Engineer's action.

Improvement of a section of the Siuslaw Highway, a short distance easterly from the Low Pass Summit Section, was considered. The Engineer pointed out that petitions and letters had been received from a large number of people urging that the highway be reconstructed for a short distance to remove two hazardous curves. The Low Pass Summit Section, he stated, was modernized a few years ago and eastbound traffic coming off the modernized section suddenly encounters a substandard section and accidents have occurred. He recommended the improvement of approximately one-half mile in this area as a minor betterment item to be performed by State forces in 1962 at an estimated cost of $20,000. The Commission approved the project.

The Engineer presented for the Commission's consideration five surveys for relocation of sections of state highways. Adoption of these surveys, he stated, is being recommended only after very careful engineering consideration to provide the best possible highway facilities commensurate with the needs of the traveling public and the cost of the facilities. The Commission approved the following surveys and thereupon adopted resolutions relative thereto, which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Survey Resolutions":

(1) Frenchie Creek-Remote Section of the Coos Bay-Roseburg Highway in Coos County. (See "Survey Resolution No. 248").

(2) Rex Hill-Newberg Section of the Pacific Highway West in Yamhill County. (See "Survey Resolution No. 247").

(3) Deschutes River-Redmond Section of the McKenzie Highway in Deschutes County. (See "Survey Resolution No. 248").

(4) Astoria Bridge and South Approach Ramp and Columbia Avenue-Hamburg Avenue Sections of the Oregon Coast Highway in Clatsop County. (See "Survey Resolutions No. 249a and 249b")

(5) Eightmile Creek-Dufur Section of The Dalles-California Highway in Wasco County. (See "Survey Resolution No. 248").

Attention was given to a request from the City of Coos Bay for the installation of traffic signals at the intersection of Seventh and Central Avenue and at Tenth and Central Avenue on the route of the Coos Bay-Empire Highway in the City of Coos Bay. The Engineer stated that an investigation indicated that the installation of signals is warranted, and he recommended that they be installed at the two intersections at an estimated cost of $9,000, with the understanding that the City is to pay one-half the installation cost and provide all maintenance and power consumption costs. The Commission approved the installation and authorized the Secretary to sign an agreement in their behalf.

The Commission also considered requests from several local residents for the installation of traffic signals at the intersection of the Tualatin Valley Highway and Walker Road, between West Slope and Beaverton. A traffic engineering investigation, the Engineer stated, indicated a marginal warrant for the installation of signals. However, there is an extremely high volume of traffic on the Tualatin Valley Highway which makes it very difficult to enter the highway from Walker Road. It was his recommendation that fully actuated traffic signals be installed at this intersection at an estimated cost of $9,000, to be paid by the State. The Commission approved the installation.

The Engineer recommended a roadside improvement Federal-aid project for the Highland Interchange-Washington County Line Section of the Sunset Highway in Multnomah County. The project consists of grading and reshaping slopes, placing topsoil and the functional plantings, at an estimated cost of $38,000. The Commission approved the project.

Consideration was given to Federal-Aid Secondary projects requested by Jefferson, Lane and Marion Counties, involving expenditure of county FAS funds. These projects, the Engineer stated, have been investigated, and he recommended that they be approved. The Commission approved the following projects and authorized the Secretary to sign agreements pertaining thereto in behalf of the Commission:

(Projects listed on following page)

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Fu
Jefferson	660	Cove-Feather Lane Section. Grade, surface, & oil, 2.6 miles.	$ 152,000	1963
Lane	860	Prairie Road-River Road Section. Grade, oil, & structure	$ 197,000	1963
Marion	736	Little Pudding River Bridge. Structure.	$ 278,000	1963
		TOTAL ADDITIONAL COUNTY FAS FUNDS	$ 627,000	

SUMMARY BY FISCAL YEARS	1962	1963	Total
Allocated Funds	$3,497,000	$3,690,000	$7,187,0
Previously Approved, Corrected to Date	3,497,000	1,372,000	4,869,0
Unprogrammed Balance	$--	$2,318,000	$2,318,0
Projects Proposed 3/2/62	--	627,000	627,0
Unprogrammed Balance	$--	$1,691,000	$1,691,0

Attention was given to requests made by contractors for increases in number of working days within which to complete the contracts without assessment of liquidated damages. The Engineer stated that the requests had been carefully investigated and that his recommendations had been made in light of the facts disclosed and the terms of the contracts involved. The Commission took action on the following contracts:

(1) Peter Kiewit Sons' Co., Contract No. 5385, for paving the S. W. 11th Avenue-Tigard Interchange Unit of the Pacific Highway in Multnomah County, requested an extension of 20 days within which to complete the contract without assessment of liquidated damages. The Commission approved an extension of 7 days' time, which was the time required to complete the contract. A letter was presented from the Bureau of Public Roads concurring in the extension of time.

(2) Durbin Brothers, Contract No. 5730, for grading and oiling on the Cummings Pass-Fossil Section of the John Day Highway in Wheeler County, requested an increase of 5 work days within which to complete the contract without assessment of liquidated damages. A letter from the Bureau of Public Roads was presented concurring in the extension. The Commission approved the extension of time as requested.

(3) Morse Bros., Contract No. 5836, for grading, paving and structures on Pine Street-Market Drive Section

of the Santiam Highway, City of Lebanon, Linn County, requested an increase of 20 work days within which to complete the contract without assessment of liquidated damages. The Commission approved an extension of 17 days' time. A letter from the Bureau of Public Roads was presented concurring in the extension of time.

The Engineer reported that Contract Nos. 5478, 5573, 5608, 5786, 5810, 5939, and 5956 for highway construction have been completed in accordance with the requirements of the contracts or modifications thereof and said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted the contracts by adopting a resolution relative thereto, marked "Completed Contracts Resolution No. 109", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Completed Contracts Resolutions").

An assessment made by the City of Newport in the amount of $202.61 was considered. The Engineer explained that under a street widening project on the Fourth Street-Boundary Street Section of the Oregon Coast Highway, financed jointly by the City and the State, the City had made an assessment against abutting property to cover cost of the improvement. The State owns property in this area, and he recommended that the assessment be paid. The Commission approved the payment.

A request from the City of Springfield was considered in which the State was requested to transfer to the City for public street purposes several small parcels of land purchased for frontage road purposes. The Engineer stated that the land had been acquired in connection with development of the "Q" Street Route and as a part of the right of way settlement access was to be provided to certain properties. Subsequently changes were made, and the City now desires to improve this road and has offered to take over the State's obligation in this regard when the property is deeded to the City. He recommended that the right of way be transferred to the City of Springfield for public street purposes, provided that the City furnish to the State a release from the various property owners on any right-of-way commitments. The Commission approved the transfer as presented.

The Engineer stated that an investigation had been made by the Traffic Engineering Division concerning reduced speed zones on The Dalles-California Highway. During the last twelve years, eleven resolutions had been adopted by the Highway Commission establishing reduced speed zones on various sections of The Dalles-California Highway. Traffic conditions have changed on a number of sections of the highway and also sections have been reconstructed to provide a better traffic facility so that the statutory 55 miles per hour in rural areas is too low. Therefore, it would be appropriate to establish a 65 mile per hour zone on the open rural portions of this highway with reduced speed zones where needed. He recommended that "Speed Zone Resolutions Nos. 36, 83, 130, 131, 132-A, 160, 168, 190-A, 203, 207 and 303", adopted between February 6, 1950, and July 2, 1959, be rescinded and that revised speed zones be adopted to meet the conditions as they now exist. The Commission approved

rescinding the old speed zone resolutions and adopted "Speed Zone Resolutions Nos. 374-A, 374-B, 374-C, 374-D, 374-E and 374-F" on The Dalles-California Highway from the junction of the Sherman Highway to the California State Line, which resolutions by this reference are made a part hereof and filed in the Secretary's Office under "Speed Zone Resolutions".

The Commission also considered a report made by the Engineer concerning a reduced speed zone on the Lake of the Woods Highway west of Klamath Falls. The Engineer stated that an investigation reveals that there should be a change in the 40 mile-per-hour speed zone on this section of highway, which speed zone was adopted on September 29, 1960. Because of the terrain, sight distance, and roadside culture, he recommended that "Speed Zone Resolution No. 331", dated September 29, 1960, be rescinded and that a 30 mile-per-hour speed zone be established between a point 2.77 miles west of the west city limits of Klamath Falls and the west city limits of Klamath Falls. The Commission approved the recommendation and thereupon adopted a resolution relative thereto, marked "Speed Zone Resolution No. 372", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Speed Zone Resolutions".

Consideration was given to a request made by the President of the Mapleton Community Guild of Mapleton for establishment of a reduced speed zone on the Mapleton-Eugene Highway in the community of Mapleton. An investigation was conducted, the Engineer stated, and because of the facts disclosed by the investigation, he recommended that a 35 mile-per-hour speed zone be established on the Mapleton-Eugene Highway from its junction with the Siuslaw Highway to a point 450 feet east of the South Bank Road, Community of Mapleton. The Commission approved his recommendation and thereupon adopted a resolution marked "Speed Zone Resolution No. 373", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "Speed Zone Resolutions".

The Engineer reported that the section of the Tualatin Valley Highway between Hillsboro and Reedville has been widened to four lanes. A short section just east of the city limits of Hillsboro is of insufficient width on the southerly side to permit two lanes of moving traffic and the parking of vehicles. He recommended that parking be prohibited on the southerly side of the Tualatin Valley Highway between a point 663 feet east of the easterly property line of Minter Bridge Road and the easterly property line of Minter Bridge Road. The Commission accepted his recommendation, and thereupon adopted a resolution relative thereto marked, "No Parking Resolution No. 237", which resolution by this reference is made a part hereof and filed in the Secretary's Office under "No Parking Resolutions".

The Commission approved out of state travel expenses as recommended by the Highway Engineer for the following state highway personnel:

(1) Forrest Cooper, State Highway Engineer; P. M. Stephenson, R. L. Porter, and Tom Edwards, Assistant State Highway Engineers; L. H. Young, Office Engineer; Frank Morgan, Construction Engineer; L. I. Lindas, Chief Counsel; W. T. Wright, Right of Way Engineer; C. H. Maison,

Auditor, and three division engineers to attend annual WASHO Conference in Seattle, Washington, June 10-14, 1962, at an estimated cost of $140 each, for a total of $1,680.

(2) Mark Astrup, State Parks Superintendent, to Missoula, Montana, to present a paper to the Montana Conservation Council April 13, at an estimated cost of $120.

(3) J. Al Head, Assistant Traffic Engineer, to attend meeting of Highway Research Board Freeway Operations Committee in Detroit, Michigan, April 8-9, 1962, at an estimated cost of $270.

(4) W. E. Kosesan, Maintenance Agronomist, to attend Western Weed Control Conference in Las Vegas, Nevada, March 20-22, 1962, at an estimated cost of $83.

(5) The Commission also confirmed the attendance of Carl Jordan, Director of Travel Information, at a Regional Seminar of the United States Travel Service in San Francisco, California, February 16, 1962, at an estimated cost of $115.

Confirmation of telephone authority was given by the Commission for Mr. Forrest Cooper, State Highway Engineer, and Mr. L. I. Lindas, Chief Counsel to go to Washington, D. C., February 24-27, 1962, at an estimated cost of $725 to confer with the U. S. Bureau of Public Roads concerning federal participation in financing construction of the Astoria Bridge across the Columbia River. The Director of Highways for the State of Washington, Mr. W. A. Bugge, and his attorney, Mr. Johnson, were also present. As a result of these discussions, he stated, it had been agreed to allow use of federal funds if needed and at the State's discretion to pay off bonds on the bridge and construction of the south approach. Mr. Rex Whitton, Federal Highway Administrator of the Bureau of Public Roads in Washington, D. C., requested his Engineering Division to review the plans and his Attorney to place the agreement in written form.

The matter of access from the Pacific Highway to the entrance of the Rogue River Park immediately downstream from the Homestead on the Rogue Twin Bridges in Jackson County was also discussed with Mr. Whitton. The State's proposal, the Engineer explained, is to eliminate an approved access point near Blackwell Hill, some six miles easterly of the Rogue River Park area, and to be granted an access to the Freeway for both northbound and southbound traffic so that the Rogue River Park may be used as a rest area as well as a park. He pointed out that local Bureau of Public Roads authorities have felt that they cannot approve the desired access to the park but should have approval from Washington. He stated that the reaction in Washington appeared to be favorable for access as requested by the State, but no decision would be made until receipt of a report from the Regional Engineer in Portland, Mr. B. M. French.

Construction of the Morrison Street Bridge Interchange on the East

Bank Freeway in Portland required altering of existing ramp construction, the Engineer reported. Twelve spans of structural steel beams were removed. Neither Multnomah County nor the City of Portland is interested in the material, but Clackamas County has made an offer to purchase the steel at $0.05 per pound. As the material has value to the State only as scrap, he recommended it be sold to Clackamas County at $0.05 per pound which would total approximately $16,250 for the estimated 325,000 pounds of material. The Commission approved the sale.

The Commission confirmed their prior approval of a construction agreement and an easement agreement with the Mt. Hood Railroad covering a railroad crossing on the Whiskey Creek-Fikes Corner Section of the Mt. Hood Highway in Hood River County.

The Commission also confirmed telephonic authority given to the Secretary to sign in behalf of the Commission a crossing agreement with Vale Irrigation District and U. S. Bureau of Reclamation in connection with construction on the Harper Junction-Burrell Section of the Central Oregon Highway in Malheur County.

Attention was given to an agreement with East Fork Irrigation District for moving of the District's facilities because of construction on the Fikes Corner-Whiskey Creek Section of the Mt. Hood Highway in Hood River County. The Engineer stated that it had been determined that it is the obligation of the Commission to make compensation for the adjustment which he estimated would cost approximately $30,000. Upon his favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it in their behalf.

The Commission considered a supplemental agreement with Malheur County covering an overrun in the cost of construction of the Owyhee Reservoir Road. The Engineer recalled that under terms of the original agreement dated April 24, 1961, the State was to pay the County $70,000 for the improvement of this road. Because of an overrun in the contract amount, the County has requested the State to contribute an additional $10,000 and to furnish approximately 5,000 feet of surplus guardrail to be installed by the County's Contractor. He recommended that the agreement be approved. The Commission approved the agreement and authorized the Secretary to sign it in their behalf.

Abandonment and Retention Agreements covering the disposition of old sections of highways when the new sections are constructed and opened to public travel were presented by the Engineer. Upon his favorable recommendation, the Commission approved the following Agreements:

(1) With Douglas County covering the Kellogg Bridge Section of the Elkton-Sutherlin Highway. The old section is to be turned over to Douglas County when the new section is completed.

(2) With Benton County covering the Bummer Creek Section of the Alsea-Deadwood Highway. The old section of highway is to be taken over by the County when the

new section is opened to public travel. The Engineer also presented an Abandonment Resolution formally transferring to Benton County the old Bummer Creek Section of the Alsea-Deadwood Highway in Benton County, as the new section is now open to public travel. The Commission adopted the resolution which by this reference is made a part hereof and filed in the Secretary's Office as "Abandonment and Retention Resolution No. 392".

(3) With Polk County providing for elimination of the Dolph Corner-Dallas Highway and an extension of the Kings Valley Secondary Highway. The County is to take over the Dolph Corner-Dallas Highway when the Polk Station-Dallas Section of the Kings Valley Highway has been completed and opened to public travel.

The Commission approved the Abandonment Agreements as presented.

An Abandonment Resolution was presented by the Engineer covering two short loops of an old section of the Lake of the Woods Highway, approximately three miles west of the Forest Boundary in Jackson County. These loop sections, he stated, are no longer needed for highway purposes, and he recommended that they be abandoned to the adjoining property owners. The Commission adopted the resolution which by this reference is made a part hereof and filed in the Secretary's Office as "Abandonment and Retention Resolution No. 393".

A throughway agreement with Polk County covering the Polk Station-Dallas Section of the Kings Valley Highway was presented by the Engineer. The agreement provides for construction of the project and the closure of county roads at their junction with the highway or the construction of connections. Upon his favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it in their behalf.

A throughway agreement with the City of Dallas was also considered covering the Polk Station-Dallas Section of the Kings Valley Highway. This agreement, the Engineer stated, provides for closure of city streets in connection with construction of the highway project. Following his favorable recommendation, the Commission approved the agreement and authorized the Secretary to sign it in their behalf.

Cooperative Construction Agreements with counties covering construction of FAS County Roads were presented by the Engineer. He reported that the projects had all been previously approved by the Commission and the agreements as presented contain details pertaining to the projects. Upon his favorable recommendation, the Commission approved the following agreements and authorized the Secretary to sign them in behalf of the Commission:

(1) With Benton County covering the Starr Creek Road-Fiechter Section of the Bellfountain-North County Road FAS 830. Project approved by Highway Commission on November 3, 1960.

(2) With Klamath County covering construction of the Washburn Way Overcrossing Section of FAS 434. Project approved by the Commission on July 28, 1961.

(3) With Marion County covering replacement of Stout Creek Bridge at Mehama, which is located partly on the North Santiam Secondary Highway and partly on the Fern Ridge County Road. The agreement entailed expenditure of approximately $20,000 of which the County is to pay half.

The Engineer pointed out that in 1959 the Commission had entered into an agreement with Wasco County changing maintenance provisions on the connection of the rebuilt US197 to the Columbia River Interstate Highway which matters were also covered by a resolution adopted May 25, 1955. He recommended that a new resolution be adopted so as to be in conformance with the 1959 agreement with Wasco County as it pertains to The Dalles Bridge Highway. Following his favorable recommendation, the Commission approved the revised resolution which by this reference is made a part hereof and filed in the Secretary's Office as "Primary Highway Designation Resolution No. 19a".

The Commission approved the Secretary's Report on "Voucher Lists" signed on behalf of the Commission during the period January 15, 1962 through February 22, 1962. In connection with this matter, the Secretary recalled that Commissioner Fridley at the last meeting had inquired as to the need for preparing this report and submitting it to the Commission. Submission of the list, the Secretary continued, was required in resolutions adopted by the Commission May 24, 1951 and August 3, 1951. The Chief Counsel pointed out that submitting a report to the Commission is a matter of Commission discretion. No record value will be lost, as a record of all lists signed by the Secretary is kept by the Auditor. After some further discussion, the Commission authorized the Secretary to discontinue preparation and sending of the "Voucher Lists" signed by him to the Commission, and thereupon adopted a resolution relative thereto which resolution by this reference is made a part hereof and filed in the Secretary's Office as "Authorization Resolution No. 8b".

The Commission confirmed the next regular meeting date for April 13, 1962, in the Conference Room of the State Highway Building, Salem. A tentative date was set for May 25, 1962, for the following meeting.

The Commission granted approval for Mr. Rodney B. Land, Management Analyst, to attend a course in business management at the University of Oregon, March 18 to 23, at an estimated cost of $250.

Consideration was given to an agreement with Southern Pacific Company covering relocation of the Company's tracks because of construction of the Mistletoe Underpass on the Pacific Highway in Jackson County. Following the Engineer's favorable recommendation, the Commission approved the agreement.

The relinquishment of excess right of way on the Oregon Coast Highway to the City of Brookings in Curry County was discussed. The Engineer recalled that in 1955 several parcels of excess right of way had been transferred to the City. The City has requested that the remaining portions of the old highway located back of the new curb be transferred to the City. As the property is no longer needed for highway purposes, the Engineer recommended that these parcels, consisting of approximately 0.68 acre, be transferred to the City of Brookings for public park purposes. The Commission approved the transfer. An agreement outlining things to be done by the State and by the City in connection with this transfer of property was also presented. The Commission approved the agreement and authorized the Secretary to sign it in behalf of the Commission.

The Commission considered, and upon favorable recommendation of the Engineer, approved, and authorized the Secretary to sign in their behalf, a supplemental agreement (Modification No. 3) with the U. S. Corps of Engineers pertaining to an agreement dated December 29, 1958, concerning highway relocation made necessary by the John Day Dam project. The supplemental agreement, the Engineer stated, provides that the State design and prepare plans for the John Day Bridge, Arlington viaduct, Heppner Junction, Heppner Highway overcrossing of the Heppner Branch of Union Pacific Railroad, Boardman Interchange structure and approximately 14.5 miles on Interstate Highway 80N. The U. S. Government obligation under this modification is limited to $101,000. The agreement is to expire June 30, 1965.

Following the Engineer's favorable recommendation, the Commission approved an agreement with the OWR & N Company, Union Pacific Railroad Company, covering foundation explorations for Bridge 8923 on the Big Eddy-Celilo Section of the Columbia River Highway in Wasco County.

The Commission also considered and, after the Engineer had recommended favorably, approved a supplemental agreement with OWR & N Company, Union Pacific Railroad Company, covering construction of the Portland International Airport Undercrossing of the Cascade Highway, Multnomah County.

Proposed additions to the FAS federal secondary system were presented by the Engineer. He recommended, and the Commission approved, additions as follows:

(1) Clatsop County, FAS 640, Sunset Beach Road, 1.2 miles.

(2) Clatsop and Columbia Counties, FAS 640, Fishhawk Road, 6.2 miles. (2.4 miles in Clatsop County and 3.8 miles in Columbia County).

(3) Marion County, FAS 736, an extension of 10.3 miles, from the Pacific Highway East at Brooks, easterly via Labish Center to a junction with the Hillsboro-Silverton Highway in Mt. Angel.

Chairman McIver commented concerning the Blatnik Report and other news articles regarding reports of misuse of funds in connection with the

interstate highway program. It was his feeling that some of these statements were misleading and in the form of blanket accusations and most certainly did not apply to Oregon. He pointed out that there is no evidence of any wrong-doing in Oregon and that the Commission itself instigated the hiring of Haskins and Sells to check up on procedures that are being used and whether the finances are being properly handled. He felt that a public statement should be issued pointing out that none of the derogatory comments made pertained to Oregon, and although such a statement would probably not be classified as particularly newsworthy, it would still put the Oregon Highway Commission on record. The Engineer reported that this matter had been discussed with Mr. A. E. Johnson, Executive Secretary of AASHO, and Mr. Johnson advised him that a very strong letter had been sent by the President of AASHO, J. C. Womack, to the Blatnik Committee. The Engineer read Mr. Womack's letter in which it was pointed out that unsubstantiated derogatory statements, particularly those published in an article in "Parade" and in the "Kiplinger News Letter", were doing a disservice as well as undermining confidence in the road program to the point where its costs will be materially increased; that innocent states were suffering under the blanket accusations; and that the Committee owes it to the public and the highway people to issue a statement advising the public that these articles are not the official views of the Committee. No action was taken.

The Engineer presented to the Commission bids received February 28 for highway construction. He pointed out the low bid for each project, the estimated cost of each project, and the total number of bids received. At 11:00 a.m., the Commission awarded contracts, as follows, and authorized the Secretary to sign the contracts in behalf of the Commission:

BIDS RECEIVED IN SALEM ON FEBRUARY 28, 1962

"Baker Rock Production Project on Old Oregon Trail and Baker-Homestead Highways in Baker County. One bid was received on this project. The Commission awarded the contract to that bidder, Arthur Simonsen and Company, Baker, at $35,525.

"Dooley Mountain Rock Production Project on Baker-Unity Highway in Baker County. Two identical bids were submitted on this project. Chairman McIver flipped a coin to decide award of the contract. The toss of the coin was in favor of N. A. Toole Construction, Ontario, and the Commission awarded the contract to N. A. Toole Construction at $32,800.

"Corvallis Maintenance Building on state highway property in Benton County. Eleven bids were received. The Commission awarded the contract to the low bidder, Westbrook Construction, Inc., Albany, at $34,075.

"Grading and oiling the Bridge-Tanner Creek Section of Coos Bay-Roseburg Highway in Coos County. Nine bids were received. The Commission awarded the contract to the low bidder, White Bros. Construction Company, Inc., Walla Walla, Washington, at $977,888.70.

"Prairie City-Unity Rock Production Project on the John Day Highway in Grant and Baker Counties. Six bids were submitted. The Commission

awarded the contract to the low bidder, Arthur Simonsen and Company, Baker, at $36,320.

"Seneca Rock Production Project on John Day-Burns Highway in Grant and Harney Counties. Four bids were received. The Commission awarded the contract to the low bidder, E. H. Itschner Company, Molalla, at $43,550.

"Ashland-California State Line Rock Production Project on Pacific Highway in Jackson County. Four bids were submitted. The Commission awarded the contract to the low bidder, Barney Helser Rock Production, Beaverton, at $27,200.

"Ashland-Klamath County Line Rock Production Project on the Green Springs Highway in Jackson County. Three bids were received. The Commission awarded the contract to the low bidder, M. C. Lininger and Sons, Medford, at $23,040.

"Cave Junction Rock Production Project on Oregon Caves and Redwood Highways in Josephine County. Three bids were received. The Commission awarded the contract to the low bidder, Southern Oregon Crushing Company, Medford, at $24,650.

"Park Boundary-Lobert Junction Rock Production Project on Crater Lake Highway in Klamath County. Six bids were submitted. The Commission awarded the contract to the low bidder, Lee F. Philpott, Eugene, at $29,600.

"Stone base and oiling on Blizzard Gap-Nevada State Line Section of Adel-Nevada State Line Road in Lake and Harney Counties. This project was withdrawn prior to the letting.

"Roadside improvement on McKenzie River-Willamette River Section of Pacific and Eugene-Springfield Highways in Lane County. Three bids were received. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $51,205.

"Highway channelization and overnight camp extension in Jessie M. Honeyman State Park Section on Oregon Coast Highway in Lane County. Six bids were received. The Commission awarded the contract to the low bidder, Amos Construction Company, Myrtle Point, at $29,687.80.

"Judkins Point Sign Bridge Installation on Pacific Highway in Lane County. Three bids were received. The Commission awarded the contract to the low bidder, Electrical Products Corporation of Oregon, Portland, at $9,142.

"Roadside improvement on Halsey Interchange-McKenzie River Section of Pacific Highway in Linn and Lane Counties. Three bids were received. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $44,793.

"Structures "B", "C", "D", and "E" Banfield Interchange on East Bank Freeway Section of Pacific Highway in Multnomah County. Six bids were

received. The Commission awarded the contract to the low bidder, Donald M. Drake Company, Portland, at $5,207,745.

"Roadside improvement on Sandy River-Dodson Section of Columbia River Highway in Multnomah County. Three bids were received. The Commission awarded the contract to the low bidder, Solomon Aichele, Portland, at $43,342.25.

"N. E. 122nd Avenue Structure, grading and paving of Sandy Boulevard and U.P.R.R. Overcrossings in Multnomah County. Nine bids were received. The Commission elects to accept the low bid of Birkemeier Construction Company, Milwaukie, in the sum of $220,108.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $50,000 is deposited by the County.

"Grading, paving, structures and signing on West Salem Section of Willamina-Salem Highway in Polk County. Five bids were received. The Commission awarded the contract to the low bidder, Fred H. Slate Company and E. C. Hall Company, Portland, at $1,683,512.55.

"Grading and oiling the Polk Station-Dallas Section of Kings Valley Highway in Polk County. Eight bids were received. The Commission awarded the contract to the low bidder, Kenneth E. Nielsen, Salem, at $121,804.25.

"Grading and oiling the Cold Springs Junction Truck Scale Site on the Columbia River Highway in Umatilla County. Four bids were received. The Commission awarded the contract to the low bidder, L. W. Vail Co., Inc., Pasco, Washington, at $28,459.50.

"Umatilla County Line-Elgin Rock Production Project on Weston-Elgin Highway in Union County. Four bids were received. The Commission awarded the contract to the low bidder, Barney Helser Rock Production, Beaverton, at $39,821.

"Grading, oiling and structure on Hayden Creek-Forest Boundary Section of Little Sheep Creek Highway in Wallowa County. Two bids were received. The Commission rejected all bids as being too high.

"Traffic Signal Installation at S. W. 78th Avenue, easterly of Beaverton, on Beaverton-Hillsdale Highway in Washington County. Four bids were received. The Commission awarded the contract to the low bidder, McCoy Electric Company, Portland, at $7,390.

A resolution was presented in memory of Mr. W. C. Williams, former State Highway Engineer, who died November 30, 1961. The Commission adopted the resolution which by this reference is made a part hereof and filed in the Secretary's Office under "Commemorative Resolution No. 18". The Commission also instructed that suitable copies of the resolution be sent to Mrs. W. C. Williams and to Mrs. Watson, Jr., daughter of Mr. and Mrs. Williams.

The Commission discussed with the Engineer problems to be presented by the delegations later in the day. No action was taken at this time pending

the appearance of the delegations.

The Engineer quoted from a status report submitted by Haskins and Sells, the firm recently employed by the Commission to conduct a study of the Highway Department. Haskins and Sells advised that the first period of their study was primarily devoted to gaining familiarity with the overall operation of the Highway Department. During the next five or six weeks, they will conduct surveys in depth in each organizational unit of the Department. These surveys will be directed toward appraisal of the present organization structure, management's control, system of controls and methods of procedures. To this point, they stated, their firm has received excellent cooperation from all Highway Department personnel, and the study has progressed on schedule.

The Assistant Counsel presented for consideration a request for "Consent to Street Vacation" of a part of Railroad Avenue in the City of Gladstone in Clackamas County. He recommended that the street vacation be approved subject to a check by the Engineering Division. The Commission approved the vacation as presented, and authorized the Secretary to sign the "Consent".

The meeting was recessed at 11:40 a.m. and reconvened at 1:15 p.m., in the same room.

Dr. John A. Hussey, San Francisco, California, Regional Historian for the U. S. National Park Service, appeared before the Commission concerning the Park Service Study on development of Champoeg State Park. The Assistant State Highway Engineer, P. M. Stephenson, introduced Dr. Hussey. The Study, Dr. Hussey explained, is to be a history of Champoeg State Park, including events which took place there, and a proposed development plan. Preparation of the study, he stated, has been quite difficult and complicated as there appears to be no consolidated history of the area which tells exactly where the sites are, where the various historical events took place and which locations should be preserved in Champoeg Park. It is needful to know as much of the true story of 1843, the time of the Provisional Government meeting, as possible so that proper plans can be made for development of the park. The report he estimated as approximately 75% complete, and it was his thought that it could be completed with about three months full time work. Since he is unable to devote his full time to the study, he requested until Fall to finish it. Chairman McIver thanked Dr. Hussey for the information, and told him the Commission hoped to hear from him this Fall.

A delegation representing the Albany Chamber of Commerce and other groups in Albany came before the Commission to request improvement of the old route of the Pacific Highway in Albany (now the Albany-Junction City Highway No. 58), particularly the section from Waverly Lake southerly to the railroad overpass, a distance of approximately one and one-half miles. The following persons were present: Orval Thompson, Raymond Barrett, Clyde Williamson, and W. L. Chadwick, members of Albany Chamber of Commerce; W. L. Fitzpatrick, Mayor; Wm. D. Bollman, City Manager; Glenn Chaffin, Manager of Chamber of

Commerce; Clifford Jenkins and Clifford Nelson, Jr., members of Albany Junior Chamber of Commerce; James McClean, President of the Chamber of Commerce; and Larry Young, "Democrat Herald". Mr. Orval Thompson acted as spokesman and presented to the Commission several pictures depicting the condition of the existing broken and extremely rough pavement. He pointed out that this condition has existed for several years and many out-of-town persons have stopped along the street thinking that the bumping sensation was caused by a flat tire. According to service station operators along this section, at least two or three cars per day stop to examine their vehicles for mechanical difficulties, and many of them are quite sarcastic about the condition of the street. He commented that one automobile dealer in demonstrating a new car over this section had stated he had lost the sale because the customer blamed the automobile for the bumps. This highway, he stated has a detrimental effect on the maintenance of automobiles and truck equipment and on the health of the truck drivers. This matter, he stated, has been discussed with highway engineers who had indicated that the condition could be cured by a resurfacing job. He requested that the project be included in the next highway program approved by the Commission. Chairman McIver stated that consideration would be given to their request.

A group of people representing the Grant County Chamber of Commerce and business interests in Grant County came before the Commission concerning improvements to the John Day Highway and other roads in Central Oregon. The following people were present: Joe Oliver, Chairman of the Grant County Highway Committee, and Hollis Owens, John Day Valley Freight Lines, both from John Day; Homer Damon and Al Reinertson, President and Secretary respectively of the Grant County Chamber of Commerce, both from Mt. Vernon; and John Gardner, Gardner Enterprise Bottling Works, Canyon City. Mr. Joe Oliver, who acted as spokesman, mentioned that the Fields Creek Section of the John Day Highway (US26) is in bad shape and needs improvement. Also a section down river is in need of improvement. He pointed out that the Brogan Hill Section on US26 should be reconstructed, but not ahead of the Fields Creek Section. For the people in Grant County, he also pointed out, Highway US395 is very important to them from the standpoint of their economic health. Mr. Damon stated he felt confident that the Commission would do something in the near future to highways in this area. Mr. Reinertson mentioned that about 80% of the tourists use Highway US395 through Central Oregon and that no major highway project had been undertaken in Grant County during the past eight years. He told of their interest in completion of US395 between Mt. Vernon and Pendleton. Mr. Owens thanked the Commission for improvements that have already been made to the John Day Highway. He mentioned that he operates a daily freight service over these highways and that during the past few years there has been a gravitation of business in this area to Idaho. To counteract it, he urged that better highways be constructed to direct the traffic to Western and Northern Oregon. He mentioned sections badly in need of improvement, between Spray and Dayville Junction and between Mayville and Condon. He also urged improvement to the John Day Highway so that it could be classified as a Group I Highway to allow 65-foot combination of vehicles to travel over it. At the present time special equipment must be used to transport cattle over ORE 19 or merchandise to Fossil, Condon, Spray and Kimberly. Mr. Gardner also mentioned the need for improvement between Fields Creek and Dayville and US395. Mr. Oliver in closing thanked the

Commission for work that has been done in their area and pointed out that highways are particularly important to them because of the lack of railroad facilities.

Mr. William D. Bollman, Albany City Manager, spoke briefly before the Commission in behalf of the Highway 20 Association concerning improvements on the Corvallis-Newport Highway near Little Elk Mountain and on the Santiam Highway east of Lebanon in the vicinity of Sheep Creek.

The Commission considered the awarding of a contract for the design and construction of an Oregon exhibit at the Century 21 Exposition in Seattle, Washington, to be in operation in April and into October, 1962. After carefully considering all of the proposals submitted to the Commission for this work, the Commission unanimously accepted the proposal of Armin Richter and William C. Zieser, of Medford, for construction of an exhibit and certain maintenance items for the sum of $62,563, and authorized the Secretary to sign the agreement in behalf of the Commission.

The Commission signed or authorized the Secretary to sign the following deeds, agreements, and other papers:

"Quitclaim Deed" to the City of Prairie City to property on the John Day-Bridgeport Section of the John Day Highway in Grant County.

"Indenture of Access" to Marion Strunk and Alma E. Strunk property on the Wildcat Creek-Walton Section of the Mapleton-Eugene Highway in Lane County.

"Indenture of Access" to the Perry W. Waterman, Sr., and Lottie Waterman property on the McMullen Creek-Bridge Section of the Coos Bay-Roseburg Highway in Coos County.

"Indenture of Access" to the Roy H. Coleman and Dorothy V. Coleman property on the Grants Pass (Sixth and Seventh Streets) Section of the Pacific Highway in Josephine County.

"Indenture of Access" to the Albert Earl Croghan and Shirley Croghan property on the Bonneville Station-Patterson Avenue Section of the Willamina-Salem Highway in Polk County.

"Indenture of Access" to the Howard E. Olsen and Hilda J. Olsen property on the Salem-Hayesville School Section of the Pacific Highway East in Marion County.

"Bargain and Sale Deed" to Gordon Pipkin for a parcel of land on the Viento-Hood River Section of the Columbia River Highway in Hood River County.

"Release of Access Restrictions" from Clarence A. Blomgren and Constance E. Blomgren property to N. E. Columbia Boulevard, a Multnomah County Road, acquired for the Minnesota Freeway Section of the Pacific Highway in Multnomah County.

"Release of Access Restrictions" from the Guy Neal and Mabel B. Neal property to N. E. Columbia Boulevard, a Multnomah County Road, acquired for the Minnesota Freeway Section of the Pacific Highway in Multnomah County.

"Agreement" with Southern Pacific Company covering relocation of the Company's tracks necessitated by construction of the Mistletoe Undercrossing of the Pacific Highway in Jackson County.

"Relinquishment of Title" to City of Brookings of excess right of way of the Oregon Coast Highway within the city.

"Supplemental Agreement" with the U. S. Corps of Engineers covering modification of original agreement, dated December 29, 1958, pertaining to work in connection with highway relocation made necessary by the John Day Dam project.

"Agreement" with Union Pacific Company covering foundation explorations for proposed Bridge 8923 in connection with reconstruction of Big Eddy-Celilo Section of the Columbia River Highway in Wasco County.

"Supplemental Agreement" with O.W.R.R. and N. and Union Pacific Company relative to construction of Portland International Airport Undercrossing on the Cascade Highway in Multnomah County.

"Bargain and Sale Deed" to Cecile M. Bannon for a parcel of land on the Lake Road-Oregon City Section of the Cascade Highway in Clackamas County.

"Indenture" between the State and Clarice M. Judkins covering property on the Judkins Point-Goshen Section of the Pacific Highway in Lane County.

"Relinquishment of Title" to the City of Portland for the right of way of the Kelly Street-Hamilton Street connection on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County.

"Agreement" with Oregon State Department of Planning and Development covering participation in Federal-aid funds for use in the State Non-Urban Parks and Recreation Study.

"Relinquishment of Grant" to U. S. Bureau of Land Management relinquishing a quarry site containing approximately 60 acres on Chandler Park-White River Section of Fremont Highway in Lake County.

"Consent to Street Vacation" by Fred O. and Florence E. Repine to the vacation of a portion of Lincoln Street, Block 4, in Churchmere Addition to West Salem in Polk County.

"Agreement" with Richard F. and Anne Thomas covering assignment of the original lease agreement executed September 5, 1958 by Oregon Gifts, Inc., of the Depoe Bay State Park Building concession.

"Agreement" with City of Oceanlake in which the City grants permission to State to connect the sewer system in Devil's Lake State Park to the City sewage disposal plant.

"Agreement" with East Fork Irrigation District covering moving of the District's pipeline and appurtenant facilities due to construction of the Fikes Corner-Whiskey Creek Section of Mt. Hood Highway, Hood River County.

"Supplemental Agreement" with Malheur County covering overrun in contract amount on construction of Owyhee Reservoir Road.

"Agreement" with City of Brookings transferring to the City the remaining portion of old highway which is located back of the new curb.

"Abandonment Agreement" with Douglas County covering the Kellogg Bridge Section of the Elkton-Sutherlin Highway in Douglas County.

"Abandonment Agreement" Benton County covering the Bummer Creek Section of the Alsea-Deadwood Highway in Benton County.

"Abandonment Agreement" with Polk County covering the Dolph Corner-Dallas Highway No. 192 in Polk County.

"Throughway Agreement" with Polk County covering the Polk Station-Dallas Section of Kings Valley Highway in Polk County.

"Throughway Agreement" with the City of Dallas in which City agrees to the closure of three streets in connection with the construction of the Polk Station-Dallas Section of Kings Valley Highway in the City of Dallas.

"Cooperative Agreement" with Benton County covering the Starr Creek Road-Fiechter Creek Section of FAS Route 830.

"Cooperative Agreement" with Klamath County covering construction of Washburn Way Overcrossing Section of Washburn Way County Road, FAS 434.

"Cooperative Construction Agreement" with Marion County covering replacement of the Fern Ridge County Road Bridge over Stout Creek at Mehama, Marion County.

There being no further business to consider, Chairman McIver declared the meeting adjourned at 2:15 p.m.
